DR. BEATTIE NESBITT ARRESTED IN CHICAGO LAST EVENING

Will be Brought Home for Trial —There Are Three Charges Against Him.

HE IS A CHANGED MAN

Toronto, April 12.—Dr. Beattie Nesbitt, formerly one of the most familiar and jovial figures upon the streets of Toronto, was arrested last night by the American authorities at Chicago. Detective Wallace of the Toronto force is now in the Windy City to bring him back to the city. The Toronto police hold three warrants for the doctor's arrest. It is charged that he committed forgery by making and signing false documents in the shape of the padded and altered list of alleged subscribers of the Farmers' Bank, of which he was then the president, and sending these lists to the Finance Department at Ottawa. This is the only charge now laid upon which the Canadian authorities can hope to extradict the doctor. The other charges are that he conspired with Travers and George Wishart to steal $360,000 of the proceeds of the sale of the Keeley Mine, and that he made false returns to the Government of the same nature as those involved in the charges against Col. Munro, president of the bank, at the time of its collapse, and upon which charges Munro was acquitted.

TOM L. LEWIS, fromer president of the United Mine Workers of America. He believes the soft coal workers have every reason to strike for higher wage and better working conditions.

It is said by those who have seen Dr. Nesbitt in Chicago, that he is a broken man. He is said to be prematurely aged, grown much thinner and to have lost all of his jovial attitude and masterful bearing. It is said that he will scarcely be recognized in Toronto, as his hair is now worn short and he has allowed a long and flowing beard to grow. This man, who has been sought the world over, and who has been reported as being seen in every quarter of it, has never in reality been off the continent.

It is said that Dr. Nesbitt will fight extradition in which event the authorities will likely take the matter up with the immigration authorities of the United States with a view to having him deported, it being grounds for deportation that there is a criminal charge against an alien in another country.

That he will object to returning of his own free will and accord is doubted, however, as it is known that he had considered coming back to face his trial for some time. To this end he had even communicated with some of his friends here recently and is even said to have sought to open up negotiations in this regard.

Arrested Brother.

Chatham, April 12.—The man Burley, arrested in Sarnia and brought back to this city to answer to a charge of jail-breaking, was found to be a brother of the Ernest Burley wanted on the charge. Constable Peters brought the man all the way to Chatham, and finding his mistake, let him go.

It is now learned that the Chatham police want the brother worse than they do Ernest. He is wanted here on several charges, including robbery. When Peters let him go, Burley was out of town inside half an hour.

Railway Men Make Protest.

Ottawa, April 12.—The Department of Labor has been receiving many complaints, particularly from the west that Canadian railway crews are not allowed to run across the boundary line, while American crews are permitted to carry their trains through to their destination in Canada.

Yesterday a strong protest was received from the Brotherhood of Railway Trainmen at Brandon.

Hon. T. W. Crothers has ordered a thorough investigation.

U. S. Not Buying Colon.

Colon, April 12.—The report that Colon was to be sold to the United States at an early date for $4,000,000, created great excitement among the Panamans. A mass meeting of protest was called last night, but was cancelled in consequence of President Arosemena having authorized an official denial.

To Honor King's Birthday.

Kingston, April 12.—At a meeting of the citizens it was decided to celebrate on the King's birthday this year, June 3, and cut out the regular celebration on May 24.

Boycott Leeds Street Cars.

Leeds, April 12.—(C.A.P. Cable.)—Owing to the city authorities refusing to decline liquor advertisements for street cars, the teetotallers have declared a boycott of cars. Seventy-five million tickets yearly are issued on the cars each bearing a brewery advertisement. The authorities regard the boycott philosophically, declaring it will break down on the first wet day.

Sued Toronto Motorist.

Lindsay, April 12.—The suit of Mrs. Isaac of Fenelon, for damages against R. A. Callan, Toronto, for injuries sustained by plaintiff, who jumped out of a buggy when the horse became frightened at Callan's auto in November, 1910, was dismissed without costs. The plaintiff sued for $10,000 for husband, and $2,000 for his wife, the latter having fractured her hip.

BILL IS INTRODUCED

Government of Ireland Measure Brought into Commons

BRITAIN HOLDS A VETO

London, April 12.—(Through Reuter's Ottawa Agency.)—The House of Commons was crowded yesterday afternoon to hear Premier Asquith introduce the Irish home rule bill, but the crowd was not nearly so great as upon the occasion of the introduction of the previous home rule bills, and no chairs were placed on the floor as in 1886 and in 1893. Mr. Asquith, upon entering the chamber, was received with a volley of cheers by the Ministerialists and Nationalists. Mr. Redmond was warmly welcomed by the Nationalists, the Unionists standing up to cheer for Sir Edward Carson, and shortly afterward Mr. Bonar Law, the Opposition leader, was similarly applauded.

Premier Asquith rose to speak amid a renewed ovation. He said, at the outset, that it was nineteen years since Gladstone introduced his last measure to provide for better government of Ireland. That speech contained a perfect exposition of the historic case as between Great Britain and Ireland. He did not pretend to cover the whole ground, but before he entered upon an explanation of the provisions of the bill, he would take up the narrative at the point at which Mr. Gladstone had left off, and would ask the House how far the case for and against home rule had been affected one way or the other by the course of events since 1893.

Every year, he continued, had emphasized the imperative need of the emancipation of the Imperial Parliament from local cares, they would never get the separate concerns of the different parts of the United Kingdom treated with adequate time, knowledge and sympathy until they had the courage and wisdom to hand them over to their special representatives. Mr. Asquith laid stress upon the congestion of business in the House of Commons under the existing system and asked how they, in the meanwhile, were discharging their duties to the Empire at large.

The premier then came to the bill itself. It was expressly stated in the first clause, he said, that the supreme authority of the Imperial Parliament remained unimpaired.

The bill provides for the establishment of an Irish Parliament, consisting of a Senate and a House of Commons with power to make laws for peace, order, and good government in Ireland.

The bill provides that the matters to be excluded from the control of the Irish Parliament are the crown, the army, and the navy, Imperial affairs, the Irish land purchase, and the old age pension and national insurance acts, the Irish constabulary, the postoffice savings banks and public loans, in addition to those excluded by the Home Rule bill of 1893, which left the customs and excise under the control of the Imperial Government.

The Irish Constabulary is to be automatically transferred to the Irish Government after six years, and power is given by the bill to the Irish Parliament to demand the transfer of the old age pensions and Insurance Act to its control on giving a year's notice to the Imperial Government.

The Irish Parliament is debarred from altering the home rule bill or the power to appeal to the Privy Council.

Provision is made for the protection of religious equality in Ireland, and stipulating that the Irish Parliament cannot make laws, directly or indirectly, to establish or to endow any religion, or to prohibit the free exercise thereof, or to give a preference or privilege to any religion or to make any religious ceremony a condition of validity of any marriage.

The Lord Lieutenant of Ireland is to have the power to veto or suspend any bill on the instruction of the Imperial Executive.

Any question regarding the interpretation of the home rule bill is to be settled by appeal to the Judicial Committee of the Privy Council.

The Irish Senate is to consist of forty members, and the House of Representatives of 164, of which Ulster is to have 60 and the Universities two.

The Senate is to be composed of nominated members. In the first instance, the Imperial Executive is to control the nominations with a view to assuring the representation of the minority. The nominations are to be for a fixed term, and as the members retire by rotation the vacancies will be filled by the Irish Executive. In case of disagreement the two Houses are to sit in joint session.

The Lord Lieutenant is to be head of the executive. There will be no religious bar, and he will hold office for a fixed term.

The authority of the executive is to be co-extensive with that of the Irish Parliament. The 164 representatives are to be elected by the existing constituencies, but no constituency is to have less than 27,000 population.

The collection of all taxes is to remain in the Imperial service, and they will be paid into the Imperial Exchequer, which is to pay over to the Irish Executive an amount equivalent to the expenditure on Irish services at the time of the passing of the act. An additional sum of $8,-000,000 is to be paid to Ireland the first year, and this will diminish by $250,000 yearly until it is reduced to $1,000,000.

The postal services are to be handed over the Ireland.

The Irish Parliament is to have power to reduce or discontinue the Imperial taxes, excepting the income tax and the stamp and estate duties It will also have power to alter the excise duties, but except in the case of beer and spirits it is debarred from adding to the customs duties anything which will give a greater increase than 1 per cent.

The Irish representation at Westminster is to be 42 members, one for every 100,000 of the population.

Sir Edward Carson, leader of the Irish Unionist party, and member for Dublin University, denounced the Government's proposals as ridiculous and fantastic, and declared that the safeguards in the bill were delusions.

If the Government passed the measure, Sir Edward declared, it would have no power on earth to resist the fugitier demands of the Irish Nationalists.

Sir Edward was followed by the Nationalist leader, Redmond, who made a compromise speech, endorsing the bill.

"We Nationalists of to-day are not separatists like the followers of Parnell," he said. "We are ready and willing to accept an Irish Parliament, subordinate to the British law-making body, which may prescribe proper safeguards for Irish legislation. The bill presented to-day by Premier Asquith is excellent."

Mr. Redmond thought the bill would be adequate to carry out the objects of its promoters. He unhesitatingly advised the forthcoming Nationalist convention to accept the bill.

TELEGRAPHIC BRIEFS.

Mr. John White, former harbormaster at Midland, is dead.

Five-year-old Leslie Davidson, West Toronto, was killed by a pile of lumber falling on him.

The Government is to spend a million and a quarter on new rolling stock for the Intercolonial.

The Dominion Government has declined to provide funds to send Canadian Cadets to the Boys' Bisley.

Legislation providing for an indeterminate sentence for drunkards was introduced by Hon. W. J. Hanna.

A man who body was found along the Lakeshore road, near Toronto, was identified as Archibald McNeil.

Mrs. Lafollette will make campaign speeches for the Republican nomination of her husband, Senator Lafollette.

Messrs. Travers Lewis, K.C., and J. F. Smellie have been appointed a commission to investigate charges connected with the steamer Arctic.

True bills were framed against General Manager Fleming of the Toronto Street Railway and employes of the company as a result of the recent "fake" negligence actions.

More than 1,000 stevedores employed along the docks at Locust Point, Baltimore, went on strike yesterday, to try to enforce a demand for an increase of five cents an hour in wages.

There is every prospect that a new industry will be established in Belleville in the near future, namely a branch of the Ohio Motor Car Co. of Cincinnati. The proposition has been endorsed by a mass meeting of citizens.

Hard Coal Conference.

Philadelphia, April 12.—The subcommittee of miners and operators appointed at the conference Wednesday to take up the work of trying to reach an agreement on a new working arrangement of the anthracite miners held a three hours' session here yesterday, and at its conclusion gave out a brief statement that progress had been made. The committee will go into session again this morning, and will probably hold an all-day meeting.

The situation in the coal fields remains unchanged. The miners are patiently waiting for news from this city. They fully expect an early resumption, and the same expectation obtains among the members of the Miners' Union now in this city.

A False Report.

Rome April 12.—There is no truth in the report circulating throughout the world, based on a telegram from Madrid, that the Pope is dead.

The Pope continues his daily audiences. He received yesterday Cardinal Della Volpe, Prince Borghese, Senor De Estrada, the Argentina Minister at the Vatican, and his family and Count and Countess Jonglie.

Madrid, April 12.—The official Spanish news agency explains that its statement that the Pope was dead was due to an error in a message received from Rome at the Papal Nunciature here.

It is believed that the error occurred in the deciphering of a code message.

Lenses Must Be Changed

Lenses do not wear out, but eyes do. Every part of the body changes with advancing years, and our eyes in common with the rest of our physical being show the effects of age. We must therefore adapt the changed conditions of the eyes. The glasses that you bought too, as even three years ago, are not giving your eyes the proper assistance. As the eyes are wearing out year by year, your lenses should be made stronger or weaker to correspond to your failing vision.

I will be pleased to have you call and let me explain the advantages of Toric or curved lenses over the old style flat form. I can and do guarantee satisfaction, because I have every modern convenience for accurate Eyesight Testing. I have the largest and most up-to-date Optical Stock in the city to choose from.

HOUSEHOLD RECIPES

BROWNED RICE.

Wash one cup of rice through several waters, put on boiler with four quarts of boiling water; add the rice slowly—and it must boil constantly—then allow to boil rapidly for 25 minutes. Pour into colander and blanch with several quarts of boiling water, sprinkle one teaspoonful of salt over the rice and shake. Spread on platter, cover top with one cupful of brown sugar; place in moderate oven for five minutes; serve while warm with milk.

CREAMED CARROTS.

One quart of cut carrots, one tablespoonful of finely chopped onion, one tablespoonful of butter, one tablespoonful of flour, one teaspoonful of chopped parsley, one teaspoonful of salt, quarter teaspoonful of white pepper. Put the carrots on in boiling water enough to cover and boil until tender. Drain and save the water in which they were cooked. Put butter and onion in saucepan over fire and cook one minute, add the flour and mix well, then add one cup of carrot water. Mix the carrots and sauce together, add salt, pepper, parsley. Cook three minutes.

ENGLISH APPLE FRITTERS.

Pare and core large, tart apples. Cut crosswise into slices quarter-inch thick. Dip each slice into raw egg, slightly beaten, then into cracker crumbs. When all are dipped, begin again with the first slice, dipping it in egg, then in crumbs, and set aside to dry. Do this over and over until the crumb coating is quarter-inch thick. Fry in deep fat long enough to cook the apples. Drain on brown paper and serve hot with sugar and cream.

ROAST CHICKEN.

Stuff the crop and the body of the fowl with a good dressing, sew up the openings thus left in the body and tie string about the skin at the neck. The legs and wings close to the body. Put the chicken into a covered roaster, dash a cup of boiling water over it, and put into the oven. If you have not a covered roaster, baste the fowl every fifteen minutes. Roast it fifteen minutes for each pound. A quarter hour before dishing the fowl rub it well with butter, sprinkle with salt and pepper, uncover and brown it. Thicken the gravy left in the pan, stir in the chopped giblets, season to taste and serve in a gravy boat.

UNCOOKED CHARLOTTE RUSSE.

Put an ounce of gelatin and one-half pint of milk on the back of the stove or in another warm place, until the gelatin is dissolved. Beat four eggs, the yolks and whites separately, until light, and add eleven ounces of sugar to the yolks. When well beaten, add the stiffened whites, and beat hard again. Stir in the gelatin, which must be lukewarm. Have ready three pints of cream, and beat this into the mixture. When well mixed, pour into a glass bowl, arrange lady fingers around the edge, and set aside to get very cold.

NEW YORK APPLE CHARLOTTE.

Line a mould with lady fingers or sponge cake. Soak a third of a box gelatine in a third of a cupful of cold water until soft. Pour over it a third of a cupful of boiling water and stir until dissolved. Add one cupful of sugar and the juice of a lemon, together with a cupful of sour apple sauce drained dry and put through a sieve. Cool in a pan of cracked ice and when the jelly begins to harden, beat until light. Toward the last add three whites of eggs well beaten, and beat all together until stiff. Pour into a mould and when cold and stiffened turn out on a platter and serve with a sauce made from the yolks of the eggs, a pint of milk and sugar to sweeten. Boil like a custard.

LEMON CREAM PIE.

Into a cupful of boiling water stir a heaping tablespoonful of cornstarch dissolved in a gill of cold water. Stir until smooth, then take from the fire and pour over a tablespoonful of butter and a cupful of powdered sugar that have been rubbed to a cream. Mix thoroughly and set aside until cool. When cold, add the grated rind and the juice of a large lemon and the yolk of two eggs, beaten light. Pour the mixture into a pan lined with pastry and bake until set. Make a meringue of the whites of the eggs, whipped stiff with two tablespoonfuls of powdered sugar, and spread this thickly upon the top of the pie. Return to the oven long enough to brown lightly, set aside until cool, then serve.

CHOCOLATE SOUFFLE.

Melt two tablespoonfuls of butter, add two tablespoonfuls of flour, and stir until well blended; then pour on gradually, while stirring constantly, three-fourths cupful of milk, and bring to the boiling point. Melt one and one-half squares of unsweetened chocolate in a small saucepan placed over hot water, and add one-third cupful of sugar and two tablespoonfuls of boiling water, and stir until smooth. Combine mixtures, and add yolks of three eggs, beaten until thick and lemon-coloured. Cool slightly, and cut and fold in whites of three eggs, beaten until stiff and dry, and one-half teaspoonful of vanilla. Turn into a buttered dish, and bake twenty-five minutes. Serve with cream sauce made as follows: To three-fourths cupful of heavy cream add one-fourth cupful of milk, and beat until stiff, using a Dover egg-beater; then add one-third cupful of powdered sugar, one-half teaspoonful of vanilla, and a few grains of salt.

FRUIT CAKE.

In a half pound of butter work half a pound of powdered sugar; add six eggs, well beaten, to the creamed butter and sugar; a teaspoonful each of ground cinnamon, cloves and nutmeg. Add half a pound of flour and stir in the following fruits, well floured: Quarter of a pound of citron, minced fine, and half a pound each of cleaned currants and seeded and halved raisins. Add a wineglassful of brandy or a tablespoonful of rosewater and bake in a deep pan until a straw comes out clean from the thickest part of the loaf.

VIENNA CAKE.

Beat the yolks of four eggs until thick and lemon-coloured, and add gradually, while beating constantly, one cupful of fine granulated sugar. Then add three tablespoonfuls of cold water. Put one and one-half tablespoonfuls of cornstarch in a cup, and fill the cup with pastry-flour (sifted once.) Mix with one and one-fourth teaspoonfuls of baking powder and one-fourth teaspoonfuls of salt. Combine mixtures, and add one teaspoonful of lemon-extract and the whites of six eggs, beaten until stiff. Turn into a buttered and floured angel-cake and bake in a moderate oven from thirty-five to forty minutes. Remove from pan, and cut cross-wise so as to make four layers of equal thickness. Put between the top and bottom layers chocolate mocha filling. In the centre and over top and sides of cake put vanilla mocha filling, and sprinkle entire surface with nut brittle.

SALAD MARTINIQUE.

Select extremely small heads of Boston lettuce and remove the centre leaves from each so as to make a cup. Into this put shredded celery or apple (both may be used if desired) with finely shredded red pepper and a few grapes cut in halves and seeded. This should be mixed and garnished with a smooth French dressing to which has been added walnut meats chopped to pulp.

BREAKFAST MUFFINS.

Mix two cupfuls of bread flour with four teaspoonfuls of baking powder and one teaspoonful of salt, and sift three or four times. Add gradually one cupful of milk and one and one-half tablespoonfuls each of melted butter and lard, or you may use all lard, or part of other good shortening. Mix thoroughly. Bake in well greased muffin or gem pans, filling about two-thirds full. Bake in a hot oven twenty to thirty minutes. This makes one dozen.

CHEESE AND OLIVE SANDWICH FILLING.

Work a small cream cheese until smooth, moisten with cream or French dressing until of the right consistency to spread, and add four olives from which the stones have been removed, finely chopped. If cream is used, seasonings of salt, cayenne and paprika will also be necessary. The addition of a few chopped English walnut meats is an improvement to this filling.

TOASTED SALAD SANDWICHES.

Mash a cream cheese and moisten with French dressing until of the right consistency to spread. Cut Graham bread in one-fourth inch slices, spread with prepared cheese, sprinkle with chopped pecan-nut meats, put together in pairs, remove crusts, cut in halves lengthwise, and toast over a clear fire. Serve very hot. For this French dressing, mix one-fourth teaspoonful of salt, one-eighth teaspoonful of pepper, a few grains of paprika, one tablespoonful of vinegar, and two tablespoonfuls of olive oil.

HOME-MADE SAUCE.

One cup of chopped pork, half cup chopped beef, half cup of dried breadcrumbs, one teaspoonful of salt, quarter teaspoonful of pepper, half teaspoonful powdered sage. Mix the pork, beef, breadcrumbs, salt, pepper and sage well together and then make into small flat cakes. Put into a hot pan and either place in hot oven or fry slowly over the fire.

APPLE TART.

Four apples, one cup of flour, quarter teaspoonful of salt, one tablespoonful of lard, two tablespoonfuls of sugar. Sift flour and salt into bowl, add the lard, rub in very lightly with the tips of the fingers; add just enough cold water to hold together. Roll out on floured board and line the pie plate, which has been dusted with flour. Wash and pare the apples, quarter and core and lay in the lined plate, sprinkle with sugar and dust with ground cinnamon. Bake in moderate oven for thirty minutes or until the apples are tender.

PANNED OYSTERS.

One pint oysters, one-half cup butter, half a pepper, and one spoon salt. Drain the oysters, heat the butter in a chafing dish, add the oysters, and, when they begin to "curl," sprinkle with salt, and pepper and serve on squares of hot buttered toast arranged on a hot platter.

BANANA SALAD.

Two bananas, one-half bunch of cress, one-fourth cup chopped nuts, and one-half cup mayonnaise dressing. Select firm, ripe bananas, peel and slice lengthwise. Arrange the cress on individual salad plates, place a half banana, cut side down, on each plate, sprinkle with nuts and put a spoonful of mayonnaise on each.

For a lemon sponge mix a cupful of sugar with the juice of four lemons. Beat the yolks of four eggs and add them to the mixture. Then with one cupful and a half of water and cook until it begins to grow thick. Then add enough melted gelatine to stiffen it when it becomes cold. Strain the mixture into a mould, and just as it begins to stiffen fold in the whites of four eggs beaten to a stiff froth. If English gelatine is used four good tablespoonfuls will usually be enough.

Delicious cookies are made with sour cream. Beat half a liberal cupful of butter with two cupfuls of sugar. Add two eggs and a cupful of sour cream. Flavor with half a grated nutmeg and a teaspoonful of vanilla. Add a teaspoonful of soda dissolved in a spoonful of water and half a teaspoonful of salt. Stir in enough sifted flour to make a dough that can be rolled out. Let it stand a few minutes, then lightly flour the moulding board, dip out a big lump of the dough and turn it into cookies, using as little flour as possible for rolling. After this batch of dough is cut into cookies dip out some more, and so on until all is used. In this way not so much flour is likely to be needed, as when the whole mass is turned out at once on to the board, and, of course, the less flour used in rolling out the cookies the better they are.

"Here, Grandma, your cup of Fry's"

Fry's THE Cocoa

is the one beverage that delights, that nourishes, that invigorates and sustains. For FRY'S has real food value. It's a treat too good for merely "once-in-a-while". Serve it oftener. The purest and most soluble cocoa you can buy. Economical, too. Get a tin at your grocer's.

Colds

Don't trifle with a cold; no one can tell what the end may be. Pneumonia, catarrh, chronic bronchitis and consumption invariably result from neglected colds. Nothing can be compared with

Chamberlain's Cough Remedy

as a quick cure for colds and grip, and by its use the more serious diseases may be avoided.

Shiloh's Cure

quickly stops coughs, cures colds, heals the throat and lungs. . . . 35 cents.

Ladies of Culture and Refinement Use Salvia Hair Tonic. It makes the Hair Beautiful

At last a remedy has been discovered that will positively destroy this pest.

That Dandruff is caused by germs is accepted by every sensible person. Dandruff is the root of all hair evils.

SALVIA will kill the dandruff germs and remove Dandruff in ten days, or money back.

McDermid and Jury guarantees it. It will grow hair, stop itching scalp, falling hair, and make the hair thick and abundant. It prevents hair from turning gray, and adds life and lustre.

SALVIA is a hair dressing that has become the favourite with women of taste and culture, who know the social value of beautiful hair. A large, generous bottle costs only 50c. at leading druggists everywhere, and in Peterborough by McDermid and Jury. The word "SALVIA" (Latin for sage) is on every bottle.

Also sold at Payne's Drug Store.

Cornelia's Customer

(Short Story.)

BY HARRIET LUMMIS SMITH.

"It really isn't anything to get excited about, Aunt Nancy," Cornelia said soothingly. Cornelia herself was not at all excited. Her serenity was in most agreeable contrast to Aunt Nancy's fluttering perturbation. To be sure, it was Aunt Nancy's silver closet to which Cornelia had lost the key.

"If it falls into the hands of a dishonest person," observed Aunt Nancy, on the point of tears, "then good-bye to the silver, including the loving cup from which General Washington drank and the tablespoon on which your great-grandfather Bennett cut his teeth."

"Dear Aunt Nancy," Cornelia reasoned kindly, "unless the dishonest person were a mind reader, too, he could not possibly know that this particular key fitted your silver closet." She was about to continue her argument when Aunt Nancy executed one of her illogical flops.

"It will be necessary to cancel our invitation for Friday," remarked Aunt Nancy. "With the silver locked up and only half a dozen spoons and three forks available it is out of the question to entertain a dinner party."

Cornelia looked at her watch. "I will get a locksmith at once," she replied. "The key can be ready by to-morrow night and Mary can clean the silver in the morning. She went to put on her street things, wondering that Aunt Nancy could not see how much better it was to be calm and philosophical in case of some trifling annoyance like losing the key of the silver closet.

Cornelia is an observing young woman. Weeks before, when nothing was further from her expectation than the need of such services, she had noticed the sign "Locksmith" in a window of a little hardware store near where she was waiting for the car. In the direction of this hardware store she now bent her steps. A bell clanged loudly as she opened the door, and a wizened, elderly person swooped out from a back room and asked what was wanted. Cornelia explained. "I should like to have you see to the matter at once, if you please," she said, "for my aunt is in a hurry for the key."

"Can't do a thing before Saturday," snapped the locksmith, seemingly offended because she had not wished to purchase a range for the kitchen.

"But you must, you know," Cornelia answered him kindly. "I must have the key to-night. My aunt entertains at dinner to-morrow."

"I won't have nobody leave the store before Saturday," persisted the locksmith, obstinately. "Then my grandson will be out of school and if he feels like it he will stay here while I get the impression of your lock. Them jobs is more trouble than they are worth."

"Yes, but you see, I can't wait for your grandson," she explained. "You will have to go at once. I will stay and take care of the things until you are back."

She seated herself on a stool behind the counter as an evidence of good faith. "Anybody in charge of this store has got to be on to the job," the owner exclaimed. "Only last week a rake was stolen out front while I was waiting on a customer. There's an ice-cream freezer by the steps now that's worth three fifty. If somebody was to come along and snatch that p——"

"Nobody will snatch anything while I'm here," said Cornelia. "The address is on this card, and please say to the servant that you are the locksmith Miss Hawes was to send." She folded her arms and gave her attention to a shelf of cooking utensils several feet above the locksmith's head. That individual, after several half-hearted attemps to distract her attention, put on his coat and departed on his errand.

The echo of his footsteps had hardly died away when a customer appeared.

"Good morning," said Cornelia rising. "Can I do anything for you to-day?"

Then with sudden dismay she realized that out of the stock in the hardware store she knew the price of but one article. It hapens, however, that Cornelia is a young woman of resources. "Perhaps I can interest you in ice-cream freezers," she said with her most business-like air. Oddly enough this was exactly what the young man was looking for.

"Oh, yes," he exclaimed, with seeming relief. "I should like to look at something first-class."

Cornelia led the way to the door. "This is our best freezer," she said, indicating by a gesture the article in question. "If you will just set it inside, please; it's quite heavy."

"It's a trifle large for the average family, isn't it?" asked the man.

Cornelia took alarm. She would have had no objection to selling a smaller freezer had she known the price of the others in stock.

"I shouldn't advise you to get a small size," she said firmly. "It is much beter to have a freezer large enough to meet an emergency. Your wife might wish to entertain several at luncheon, you know. And there is nothing to prevent making a small amount of cream in a large freezer." The man was impressed.

"That's a good idea," he exclaimed. "Perhaps a still larger one would be even better in case we wanted to give a regular uarty."

It was necessary to head him off again. "No," said Cornelia with decision. "If you give a party you will need a caterer. A freezer larger than this would be in the way."

"That's right," agreed the customer, who for tractability left nothing to be desired. "I'll take it; what's the price?" Cornelia had no idea that business success was so simple a matter. It occurred to her that the ability of the men who made ofrtunes had been greatly over-estimated. Then a sudden startling thought broke in on her self-congratulation. In her efforts to ensnare the customer she had forgotten the price the locksmith had made. "Tr—four-fifty and a half," she said uncertainly.

The customer made no protest. He drew a five-dollar bill from his pocket and Cornelia made change from her own little purse. "Now, I'll have this sent, please," he was beginning.

"Oh," Cornelia looked at him in blank dismay. "I'm afraid I can't send it. Not before Saturday, anyway," she added, remembering the grandson. "I suppose it would be too heavy for you to carry, would it?"

There was appeal in the gaze she lifted to his. She could not bear be thought of losing a sale for so trifling a reason. Luckily the customer was still accommodating. He protested hastily that the freezer was not at all heavy, and looked about him with the air of a man about to make purchases with a view to setting up housekeeping. Cornelia felt it was time to assume a distant manner and she did so with immediate effect. The customer left the store carrying his single purchase in his hand.

When the locksmith returned grumbling, Cornelia announced her sale, and he loked at her with a reluctant admiration. "You done him out of a dollar," he observed. "That freezer was not worth but $3.50." His sudden accession of respect for Cornelia received an immediate check from the dismay with which she received the news. "Don't you think he will come back?" she asked anxiously. "He has such a polite manner about him. I can't bear to think I cheated him out of a dollar."

The locksmith grudgingly assented that he might return. He added darkly: "It would have been a different thing if you'd sold it a dollar under price. We'd never see hair nor hide of him again." The customer did return a few days later. He came in looking about him in the same manner which had characterized him on his previous visit, and yet he did not look to be a young man lacking in determination. After he had purchased a screw-driver and a pound of nails he came to the point. "The young lady who waited on me before, your daughter, perhaps——"

"She ain't no daughter of mine," said the locksmith. "Nor yet a clerk. She was asking about you this very day," he added calmly.

The young man spun about. "What?" he shouted.

"She lives with her aunt at the Rutherford apartments. She wanted a key made for a lock, and she stayed in the store while I went to get the impression. She overcharged you a dollar for that freezer," erplained the locksmith reluctantly, opening his cash drawer, "and she asked if you had been back to complain." It seemed that the young man did not care about the dollar.

"See here," the locksmith said. "The young woman came down this morning to bring the key. It stuck a little, you know. I've filed it off, and it's ready to take back, if you'd like the job. I promised her I'd send my grandson when he returned from school."

The young man thought it would be a pity to trouble the grandson. He said, with feeling, that growing boys need all the playtime they could get. At the entrance to the Rutherford apartments he met Cornelia coming out.

"Oh," cried Cornelia, dropping her purse in her excitement, "have you come about that dollar"

"I've come to bring your key," said he, and gave it to her.

Explanations followed, and then came argument. Cornelia was not sure that selling an ice-cream freezer to a stranger constituted an introduction. The young man, on the other hand, was positive about it.

"But your wife," Cornelia hinted, delicately.

The young man blushed. "You invented the wife and I held my peace. I was afraid that if I explained that I was a bachelor you'd wonder what I wanted with an ice-cream freezer."

"What did you want with it?" she was indiscreet enough to ask.

The young man's reply was not verbal, but such as it was it was responsible for a marked increase in his questioner's colour.

"Oh, well," said Cornelia, swinging the key on her forefinger, "it may come in handy some time," and sure enough it did!

Would You Enjoy Vigorous Old Age?

Then use Duffy's Pure Malt Whiskey. It brings health and strength to every one along life's pathway. It makes the old feel young and keeps the young strong and vigorous.

Used for over 80 years as a remedy in the prevention and cure of all throat, lung and stomach troubles and all wasting and weakening conditions.

Sold in SEALED BOTTLES ONLY by F. J. B. Mitchell, "Central Liquor Store", or direct, $1.50 a large bottle. Medical booklet and doctor's advice sent free on application.

HINTS AND HELPS.

To prevent the gravy soaking through the bottom crust of meat pies brush over the crust with white of egg.

After frying onions, pour a little vinegar into the frying pan, let it get hot, and it will remove all smell from the pan.

A pad of very thick paper laid over the edge of each step under the carpet will prevent it from wearing and double the lease of its life.

To keep mice away scatter small pieces of camphor in your cupboards and drawers. They greatly dislike the smell of camphor and will go far away from it.

To remove grease from a stove try this plan: Dip a cloth in dry soot and rub this well over the greasy parts, then apply the blacking and the spots will at once disappear.

When black gloves become rusty at be finger ends they may be restored by adding a few drops of black ink to a teaspoonful of olive oil and applying it with a camel's hair brush.

When cooking a joint of mutton, 10 minutes before putting it in the oven spread a little fat over the joint, then dredge it with flour. Mutton treated in this way will turn out juicy and tender.

Tumblers that have contained milk should be rinsed in cold water before being washed in warm. Putting the milky glass into hot water will have the effect of clouding it permanently.

Silver in daily use may be kept very bright if allowed to soak in strong borax water for four or five hours occasionally. The water should be boiling when it is poured over the plate.

Baking soda gives instant relief to a burn or scald. Applied either wet or dry to the burned part immediately, the sense of relief is magical. It seems to withdraw the heat, and with it the pain.

To prevent cheese from getting hard, cut a small piece off for present use and place the remainder in a cool safe. Spread a thin film of butter over the cut part and cover with a clean cloth. This will prevent that hard, cracked condition that ruins the best of cheese.

When candles are too large to fit the candlestick, don't cut them to the required size, but hold the end for a very few minutes in hot water. This will at once soften the wax and the candle can then be very easily pressed down on the candlestick without any further trouble.

An egg that is cracked can be boiled by enclosing it in a piece of soft paper. When the paper becomes wet it adheres to the egg and prevents it from coming through the shell. This process should be successful in every case where the crack is of a moderate length.

GOOD HEALTH

Vim and Vitality

Are assured if you will cleanse your stomach of undigested food and foul gases; the excess bile from the liver and the waste matter from the intestines and bowels by the use of

FIG PILLS

the great fruit, kidney, liver, stomach and bowel remedy.

At all dealers 25 and 50 cent boxes or mailed by The Fig Pill Co., St. Thomas, Ont. Sold in Peterborough by the Warne Drug Co., Ltd.

A SWEET.

Mix in a basin three tablespoonfuls of cornstarch and one tablespoonful of cocoa with enough cold milk to make the mixture the consistency of cream. Put into a saucepan one pint of milk and allow it to boil. Then pour in the mixture, stirring all the time. Stir till it thickens and then add three tablespoonfuls of sugar and one tablespoonful of rose extract. Pour into a mold that has been rinsed with cold water; let it set till quite cold and firm. Turn out on to a glass dish and aprinkle over with finely chopped pistachio nuts.

FACE WAS LITERALLY COVERED WITH PIMPLES.

Four Different Doctors Did Her No Good.

Two Bottles of BURDOCK BLOOD BITTERS Cured Her.

Bad blood is directly the cause of the face breaking out in pimples, and it is impossible to eradicate them unless you put your blood into good shape

Burdock Blood Bitters is compounded from roots, herbs, barks and berries, and is without a doubt the best remedy procurable for the purpose of driving all the blood impurities out of the system.

Mr. Geo. E. Miller, Clavering, Ont., writes:—"Last fall I was very much troubled with pimples. My face was literally covered with them. I went to four different doctors, but they could do me no good. One day a friend advised me to use Burdock Blood Bitters, so I got two bottles, and before I had taken all the first one, the pimples had nearly all disappeared, and by the time I had taken all the second one the pimples had disappeared completely, thanks to Burdock Blood Bitters. I would advise anybody who is troubled with any blood trouble to use Burdock Blood Bitters.

Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not stop here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

Carter's Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them.

STOPPING A CONGO CANNIBAL FEAST

THE Adventures in the African Forest Wherein a Young and Courageous American Is Rescued Just as He Is About To Be Killed and Eaten by Savages.

THE writer of this adventure is famous in both hemispheres for his deeds of daring. He was concerned in two or three fiery escapades in Europe before he was more than a boy, and when he was little more than twenty he enlisted among the mixed officers who as soldiers of fortune were willing to risk their lives to help King Leopold govern the Belgian Congo.

His military training, his accuracy as a shot and his leonine courage soon won for him high recognition, and he was made chief of police of the Congo, with a command of Hausas, imported Arabian fighting men and blacks from the Portuguese possessions noted for their courage and soldierly qualities. For several years he ruled with an iron hand, then resigned to engage in other adventures.

The young American whom D'Altomonte and his party rescued from the cannibals is John Harris Walton, still living in San Paolo di Loanda, serving as manager of the Hatton & Cookson Company concessions.

By Baron Antonio Benedetti D'Altomonte

(Copyright, 1919, by the New York Herald Co. All rights reserved.)

THE affair I am about to detail occurred in the middle of February, 1903, and since it deals with cannibals and there is quite a bit of dispute among armchair authorities on the status of African cannibalism it seems wise to me to relate a few of the facts concerning man-eating, as I have observed it.

My first experience with cannibals came soon after my taking up constabulary work. I had left Boma on a tribal pacificatory mission some weeks before, and, with a company of twenty native policemen and sixty porters, was making an overland journey between two of the upper tributaries.

One of my porters had cut his foot on some sharp bit of something, and in his efforts to carry his load and keep pace with the others had got himself into a dreadful state before I was aware that he was incapacitated. When I knew it I at once detailed two of my men to divide his load, carry his arms and help him. If he got so badly off that he could not travel they were instructed to remain with him in camp until he could follow after us. We had planned to camp for some days as soon as we reached water.

The second day thereafter I noticed the men I had detailed in their places, but the cripple was not to be seen.

"Where is Unshana?" I asked.

"Oh, master, his illness overcame him last evening and he died. We buried him by the dry river and came on," was the answer.

Some weeks later a report reached me from headquarters in which a missionary charged that he had found evidence of men attached to my party having killed and eaten one of their own number. I sent for the two I had detailed to care for the man with the hurt foot and told them that the devils had told me the whole story. In fact, I reconstructed the picture very vividly for the precious pair, ending by demanding why they had killed and eaten their comrade, Unshana.

"He could go no more and we could not carry him. Only his leg was bad, and why should so much good meat go to waste?"

The punishment for cannibalism being death, I had the two of them shot at once.

The Captive Americans.

I was in command of a small party in the month of the year which I have mentioned and we were encamped on a well protected island of the great river when we heard shouts from the north bank and I saw three white men, in one of whom I recognized a very famous character of the Congo. He had appeared about ten years before without telling any one of his previous life or the cause of his hiding away in the jungle and had entered on the life of a hunter and trader, spending all of his time with the blacks. He was known among white men as Nemo and among the blacks as Undele. The two men with him I did not know. Sending my pirogue with its crew of rowers I soon had them in camp.

I did not speak English at that time, but Undele very quickly told me the story in the native tongue. He had been employed to guide the two Americans and a third friend. As nearly as I remember the details the third man, John Harris Walton by name, had been captured by a party of marauding blacks and had doubtless been killed and perhaps eaten. The natives employed by the party had fled, leaving Undele and the two other Americans to make their way down river to civilization as best they could. The affair had happened only a few hours before and it was sheer good fortune that they had encountered my police party.

As nearly as Undele and I could determine, the attack on Walton had been made by a detachment from the vagrant tribe of a chief named Ugnodo Sumbah, who wandered here and there with about one hundred followers, all that was left to him of a large force which we had nearly wiped out five years before. Walton had been at some distance from camp when it happened, and when the camp blacks deserted it had been plain that pursuit without a stronger force was useless. In that remote section Ugnodo and his men would not trouble to travel far with their prisoners and the stores they had stolen, and if we were careful we might steal up on them that night and punish them.

As quickly as I could organize a guard for my camp and detail a punitive force to the pirogue we set off. The twenty rowers placed us just before sunset at the spot where the attack had occurred. There we found several of the blacks who had deserted. They had come back after their panic and were in a very despondent, hopeless state, waiting in camp for something to happen. They were agreed that the raiders were the men of Ugnodo Sumbah and that the party of twenty or more had recrossed the river and gone up one of the tributaries. According to their reports the raiders were able warriors and well armed.

It was a desperate chance to take, but I decided to go in pursuit at once and practically yielded the command to Undele, whose familiarity with the natives and with every little bit of African woodcraft made him a man to be respected in a hunt like this.

Rowing way in the pirogue was made absolutely clear so that the big fellows could get a full, long stroke. Squatted on the bow was Undele, in his jungle worn hunting suit, a great soft hat crowded down over his ears and his black beard flowing back over his shoulders as the pirogue shot into the wind. We white men ranged behind him in support, our rifles

"Now pandemonium came."

close at hand. The rowers were commanded by a huge Musorongo, who stood at his full height and directed the course of the craft at times by the inclination of his body and again by queer hissing commands to the men.

It was as stirring a picture as one could wish to see as we moved across the turgid river, first in the slanting rays of the red declining sun and then in the black shadows of the intervening trees. It was quite dark before we had fairly entered the tributary we were to ascend.

Through the Jungle.

In an hour we were moving in the heart of the tropical night, with only the sounds of nature about us. At times there would be a splash and a great puffing hiss near us as some hippopotamus, disturbed by our sweeps, would sink to safety. High up on the rocks we could hear a hunting leopard's yawning cry, answered by a chorus of lions roaring on the other bank, where they had come down to drink. And again there would sound from the forest heavy crashes that meant some heavy beast was astir there.

For long spaces of time there would be no sound from the animals, but there was never complete stillness because of the vast numbers of birds of all sizes in the riverside jungle. If one lost his perch and tried to regain it he would disturb a thousand others that flitted or flopped hither and thither through the thick dark.

There is no sound unless it be the report of a heavy gun that will carry so far in the African night as the noise of one or more of the big drums of which the natives are so fond. A section of a hollow tree, whittled to a thin shell and highly seasoned and polished, will make a bell-like sound if struck, even when it has no drumhead on it, but cover one or both ends with taut tanned skins and beat them with a flat wooden paddle and the sound could be heard for ten miles.

It must have been near midnight, judging from the light of the rising moon beginning to show in the east, when Undele gave a sharp, clicking hiss, and the chief of rowers answered it. We had been sweeping up the river at high speed, dark as it was, all the time in danger of being precipitated into water that is never safe for swimming thanks to its treacherous character and its various dangerous inhabitants, and we went on for only another half hour before that hiss sounded once more from the bow, and this time I knew what it meant. From somewhere ahead of us came the steady throb of the drums of Ugnodo Sumbah's band in camp—either the party we sought or another holding a celebration. Undele, with his trained white man's ears, and the standing black, whose ears needed no training, had heard that drum music long before it had reached our duller senses.

Now we swung in close to shore to get in the shadow of the overhanging trees, as the stage of the river was high, and in a few minutes crept around a bend and could see on the beach about two miles away several huge fires. As we drew nearer it was possible to make out black figures dancing, leaping and running in and out among them. When we had come as near as we could without danger of being seen we began to hug the shore very closely and at last disembarked. The party that went ashore consisted of four white men and five black policemen armed with the best rifles.

Carefully we crept through the bushes until we came to the edges of the forest nearest the fire, and there a terrible sight met our eyes. The cannibalistic ceremony was in full progress. About one hundred blacks were in the open space and it was very easy to make out the grim figure of old Ugnodo Sumbah.

Near to His Death.

Stripped and tied to a stake was young Harris. He was still alive, for we saw him turn his head and there was a certain defiance in his attitude that sent a thrill through every white man there. He was facing death as a white man should. The men dancing about him had pricked him in a score of places with their weapons, and even as we watched one dashed forward and made a fresh wound in the arm with the point of an assegai. One of Harris' friends raised his rifle and would have fired if Undele had not repressed him, and signed to us to remain where we were. Gathering himself like a runner starting from a mark he dashed full into the circle of demons drunk with palm wine and hemp smoke, hurling them right and left with his mighty arms, and, facing the old chief, addressed him in the native tongue.

"Ugnodo Sumbah, is this the way you would treat a friend of Undele? Have you forgotten that you and I have exchanged blood and are blood brothers. You have sworn safety to all that I have held safe. Perjurer! Dog of a liar! Why did you do this?"

All the blacks knew the old man. His spectacular appearance had startled them and they had stopped the dance at once, but they stood glaring angrily at him, with weapons ready for instant use. Crouched in the long grass, we had our rifles ready for the crisis.

Ugnodo Sumbah advanced with great dignity and he was certainly barbarously impressive.

"This man you call friend would not give food to my children when they were hungry, and when they took it he killed one of them. There stands the father of the dead man to bear me witness. They seized him and brought him to me. We will punish him and then we will eat him. You have spoken true when you said you were my blood brother, but now you must go. You must go!"

"No, I will not go. Cut him loose at once."

The old chief grew very angry now and raised his voice till it had the precise sound of the roar of a maddened beast.

"Go! Go! Undele, or I will kill you too!"

Undele threw his rifle half up, pressing the muzzle of it against the black chieftain's chest, and pulled the trigger. The body was literally hurled back from the weapon as he fell dead.

Now pandemonium came. Undele emptied his magazine into the crowd that rushed him and then whipped out his Luger and put its nine bullets into the bunch of them. We were a little hindered in our fire by the fact that both Harris at the stake and Uudele fighting for his life were in the line of our bullets. The roaring volley from our guns, however, caused a diversion. The blacks split into two parties. Quite a number fled toward the river and the others, rushing between Undele and the stake to which Harris was tied, forced the hunter back several paces, seeking to get inside the guard of his clubbed rifle, with which he was laying about him right and left.

We were so heavily outnumbered that it was hardly the part of wisdom to disclose our numbers as long as we were firing effectively from our cover and the guns sounded like several times their number. Something had to be done at once, however, as the men who had fled toward the river had turned and one of them was rushing on Harris with an uplifted spear. I dropped him as he ran and dashed into the open, drawing my hunting knife.

I had reached the stake and had been able to cut Harris partly free when attacked by three men from behind. Parrying the blow of one's club, I ripped the fellow from his waist line down into his hip with my knife and sprang out of the way of another's spear thrust. One of my Soudanese came running to my rescue and we got Harris loose. There were some big stones at the river brink, and we literally dragged the weakened man in among those and dropped down there under their scanty cover.

My rifle had become jammed and I began work with my pistol on the blacks who had fled toward the river and were now returning slowly to attack us, thinking that we were no more than three or four in number. Undele was having the fight of his life and was contriving to retreat on my men in the grass. Once he was under cover of their rifles he had a chance to reload, and then came a little lull in the fighting.

Outguessing the Blacks.

It was a very peculiar military situation. Our party was now divided. Harris and I had burrowed down among the big rocks on the beach and the others were in the long grass on the other side of the beach, with the bulk of the enemy working around behind them in the jungle, and those who had dashed for the river were hidden in the water, all but their heads, which it took sharp eyes to perceive in the blinding glare of the fires.

If I had been able to summon my pirogue from its hiding place down stream we could have effected a retreat, but now we must rejoin and fight our way back toward the boat. I had learned long since that a native travelling on a parallel path with a white man through the brush will outdistance the white man quickly. Also it would be difficult for us to keep together and make speed. Altogether even though we had inflicted a terrific loss on the band we were still in danger of losing our own lives.

I shouted to Undele to make him understand what I thought the proper manoeuvre should be, but he seemed to be crazed with the fighting instinct and paid no heed to me. Gradually the warriors in the water behind us disappeared and I had long since ceased trying trap shots at the tops of their heads. I now saw that they were moving either up or down stream and when out of sight in the darkness were crossing the beach. That meant that we were not only divided, but encircled on the landward side as well.

Undele must have seen that in a little while the black devils would have worked their way so near in the long grass that sheltered him and the men with him that a sudden rush would cost two or three of them their lives. There was sufficient shelter among the rocks for all of them, so at a signal from us the enemy had a long race for their weapons if using them from cover and if they rushed us they must come across the open beach. The fires were dying down and the moonlight beginning to assert itself. We might remain until daylight, but our situation under the sun among rocks still warm from the previous day's heat would be frightful.

Undele had busied himself with some queer preparations since he had got among the rocks and I could not see what he was doing and little guessed that a further surprise in African wood lore awaited me.

Suddenly he leaped from his shelter and ran to where one of the deserted drums lay, caught it up and hurried back, with a hail of missiles about him.

Setting the drum against the rock and bracing it with his knee as he crouched, he began beating it first with his clenched first and then with the spear drawn from my unfortunate man. The result was a sort of set of signals, very simple, but plain signals.

"What is that for?" I asked.

"I am sure your head boatman will understand them if he is a good Musorongo. We must be getting out of this hole."

The enemy evidently guessed the meaning of the sounds, for the attack was resumed with great ferocity and it looked as if we were going to be rushed. Ammunition was running low. I was all for it and began using the wounded policeman's rifle.

Almost immediately that Undele had concluded there came a far, faint cry from direct behind us on the river, and in a few minutes we could see a pirogue approached. Undele called out as my head boatman answered. He had wisely disobeyed my orders about remaining at the landing point and, seeing the fight long sustained, had gone out into the stream and held the boat at a point in the darkness from which he could watch our manoeuvre without being seen. Like some great black waterbird the craft came sweeping in, and just as it touched the enemy poured out of the long grass and came leaping and yelling across the beach. Literally pitching Harris and the wounded policeman in, to get aboard, Undele, one of the white men and myself covering the retreat. The last minute of it was hand to hand in desperate fashion, but we got away from shore, and though the maddened wretches followed us until they were up to their armpits in water we were soon out of range and on our way down river.

I am glad to say that Harris recovered fully from the effects of his frightful experience, but no man in all the Congo is any sterner in his repression of cannibalism than the man who was so nearly eaten.

PICTURES WITH THE TIPPING HABIT.

MRS. BURTON called to her husband shrilly.

"Abner," she said, "come and look at the pictures."

"Well," said he, with an inquiring glance about the walls, "what's the matter with them?"

"They're crooked."

"I suppose," suggested Abner, "that you want me to straighten them."

"Well, since you are here you may as well. But that wasn't what I called you for. I wanted to see if you could tell what makes them get out of gear every day. They've been acting so ever since we moved into this flat. Every day, just as regularly as the morning comes, I go through the house and tilt them back to the proper angle, but just that surely do I find them crooked again the next morning. And the funny part of it is they always lean in the same direction. I think it very strange. They didn't do that in the old flat."

"M-m-m—," said Abner thoughtfully.

Mrs. Burton colored her voice with dramatic intonation. "I never liked to say anything about it before," she said, "but I have thought it all along. It is my belief that the house is haunted."

"Oh, good Lord!" ejaculated Burton incredulously. "Well, if it isn't ghosts, what is it?" she asked triumphantly.

"I'll give it up," said Burton.

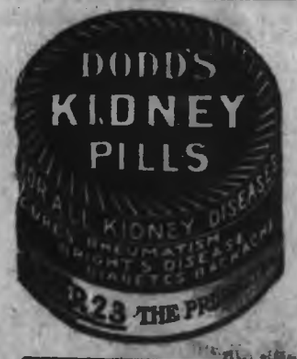
Although the Burtons had to give up trying to find a cause for the crooked pictures, the pictures themselves did not give up going on a spree. Every morning those hanging on the east and west walls were found tipped to the south, while those on the north and south walls were tipped to the east. Finally Burton himself began to find the nocturnal jamborees of the pictures trying to his nerves, and he spoke to the landlord about it.

"My wife believes," he said, with true Adamite generosity, "that the place is haunted."

"Nousense," said the landlord. "Anybody who knows anything about houses and pictures knows there are some places where the pictures couldn't be hired to hang straight and that when they do have the tipping habit they invariably tip in the same direction. Everybody knows that, but I for one don't know the cause. Possibly the house dips a little to one side."

"That can't be," said Burton, "because the folk up stairs are bothered with tipping pictures, too, only theirs lean to the north and west."

"Then I can't explain it," sighed the landlord, "but I do know that pictures are like a flock of sheep—when one tips all the rest are likely to follow."



MEDICAL.

DR. BUCHANAN, F. R. C. S., Edinburgh, M.R.C.S., England, L.R.C.P., London, Assistant Specialist of Eye, Ear, Throat and Chronic Throat. Phone 289, 109 Charlotte Street. Hours—9 to 10 a.m., 2-4 p.m., 7-8 p.m.

CHESTNUT LODGE

(Short Story.)
BY A. MARCA CRAWFORD.

"I am so glad," said Polly Moore, "that I came a day before your other guests, Aunt Phoebe. It gives me an opportunity to have a comfortable chat with you. Bob Gaines is coming this afternoon for the same reason. If my headache doesn't get better, I will be compelled to leave you two to entertain the others."

"Bob Gaines of all people. I believe I will catch your headache," moaned Polly. "Isn't it too bad that we dislike each other when you love us both and want to pair us off like cooing doves?"

"There is one thing that puzzles me, Polly. You never have seen Bob, he has never caught a glimpse of you, yet you claim that hate boils in your hearts. It isn't reasonable — mere prejudice. Somebody carried tales yet neither of you will give the culprit away." Polly glanced up at Aunt Phoebe with mischief lurking in her blue eyes. "What will you give me to make this young person change his opinion of me? Chestnut Lodge?"

"That's not fair, Polly. I have willed you everything I have except this house and grounds. I promised it to Bob when he was 30, and I can't go back on my promise. The fact of the matter is that I have had it attended to legally. Bob gets the place next year."

"This house is the only thing in the world that I actually want. Look at these high ceilings, this wainscoating, the beautiful old mahogany and rosewood furniture, the rugs—all to go to a man that I despise. Why do you love him so, Aunt Phoebe? He isn't related in any way and I am your sister's child." Aunt Phoebe sat looking pensively in the fire where the big logs were blazing. Her face, crowned with its soft white hair, appeared singularly youthful, and there was a reminiscent tenderness in her eyes.

"Polly," she said, "I am going to tell you why I love Bob and why I expect to give him this house next year. He will be 30 then. His father courted me in this very room. I loved him, but I was a foolish young thing and flirted with everybody. You remind me of what I was in those days. He said that if I loved him I must give up all my other admirers. We quarrelled about it, and—and he married Bob's mother."

"Oh, Aunt Phoebe, dear, I didn't dream of anything like that. How often I must have hurt you. How true you have been all through these long lonely years, true just to a memory. That," said Polly softly, her arms tight about the straight, aristocratic old figure, "that is what I call love. Everything in this room is suddenly fragrant with romance." Miss Phoebe smiled at the eager young face so near her own.

"Be kind to Bob when he comes. It is almost dark now and a good night's sleep is what I need. My headache is really severe." Polly changed her travelling dress for a filmy litle gown that looked as if it had been made of moonlight. The diamonds on her breast gleaned like stars in a summer sky. Why did she feel so antagonistic to Bob? She sat musing in the great chair that Miss Phoebe always occupied when she was downstairs. It was all because of a chance remark of the man's made soon after the announcement that Aunt Phoebe's estate, that is, everything except Chestnut Lodge, the beautiful stone house built on a farm, would be inherited by Polly Moore. Edith Tyson had told Polly that Bob Gaines was reputed to have said at his club: "I suppose people will say that I ought to hunt up Polly Moore and marry her to get the rest of Miss Phoebe's wealth; but no spoiled flirt for me."

"Well," Polly had answered when Edith had repeated the remark, "the next time you see that young man, please say that I would rather be an old maid than to marry an idle, red-headed Irishman. Aunt Phoebe told me his hair was red."

The message had been promptly delivered and Polly and Bob had thereafter avoided each other. When James switched on the lights in the hall, Polly saw a good-looking stranger there, a suitcase beside him. His hair, she noticed with a start of surprise, was brown, not red. When he had made himself presentable and entered the drawing-room, Polly extender her hand cordially. "At last we meet, Mr. Gaines. I am Polly Moore, as you probably know."

"One of the maids tells me that your aunt is indisposed. I am very sorry, but at the same time a little glad, for it gives me a nice long evening with you." Polly exerted all her efforts to charm the man. She remembered the sweet story of her Aunt Phoebe's romance and her heart was warm for this young fellow who might have been Miss Phoebe's own son. The man himself seemed strangely ill at ease, but Polly attributed it to the fact of their hitherto violent hatred. "The cabinet over there of curios is worth a small fortune," he said, indicating a quaint hand carved piece of furniture. "That amethyst necklace that belonged to some queen, I believe, is valuable."

"Yes, indeed, are you interested in Aunt Phoebe's collection? I think that she is very foolish to leave such things here even if she does have a sort of double lock, don't you?"

"Yes, but I suppose she trusts her servants." Polly excused herself presently. She wanted to run upstairs and ask about Aunt Phoebe before dinner she said. When she reached the landing she heard a strange noise and went quickly down again thinking that a log had fallen from the fire and that she could help Bob put it back in place. What she saw fairly paralyzed her. For a woman, she thought very quickly, and reached up to get a loaded pistol that Aunt Phoebe always kept on a high stand in the hall. Then she covered the man, where he knelt before the famous cabinet slipping the jewelled necklace in his pocket. "Hands up. I think," she said, coolly, "that I can shoot pretty straight. To think you would steal from Aunt Phoebe." The man cowered before the look in her face. "It's all a joke," he whispered just as the doorbell rang. When Polly heard James enter the hall she spoke to him quietly without taking her eyes from the burglar. "Hurry up, James, and see who is there. Be careful. Then come here."

"Well, hello, James. How's Aunt Phoebe? Tell her Bob's here," Polly heard a deep voice say. "What the devil does this mean?"

"Come and help me. I have caught a gentleman thief." It took very little time for Bob and James to replace the valuables and tie their prisoner hand and foot, then James and a big burly fellow from the stables stod guard over him in a locked room until the sheriff could arrive. Polly was shaking badly when Bob went back to her. He handed her a glass of wine. "I—I can't hold it," sobbed she. "I am scared to death."

"After you have been so brave? Here, I'll hold it. Drink it all."

But Polly's coolness had gone. "I—I can't, I tell you. Why, he could have murdered me, and I talked to him about everything. Oh," wailed Polly. "I'll never get over this—never." Bob put his arms around her and held the wine to her mouth. "Poor little girl," he said soothingly. "Brace up. That was the bravest thing I ever saw a girl do. Nice scheme of that thief's. One of the maids was a confederate and she put him on to my coming and Aunt Phoebe's headache. He is certainly a bold, bad man. I admire you for what you did, even if you don't like red heads." Polly glanced up where the firelight showed on his hair.

"When, when I said that," she stammered, "I—I didn't know it was such a beautiful red." Two hours later, Miss Phoebe, feeling better, came into the room softly and saw two figures before the dancing flames. Poly's fair curls rested perilously near the auburn locks of her favourite. "This doesn't look exactly like hatred," she declared.

"It isn't," laughed Bob. "It's a case of old-fashioned love. Polly is going to marry me."

"You watch her, Bob," cautioned Miss Phoebe. "Polly is marrying you for this house."

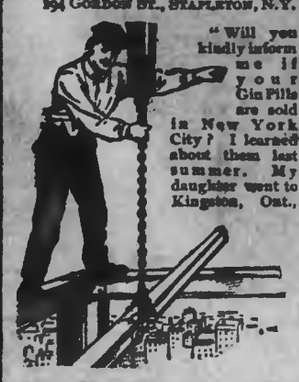
"That's all right. I don't care how, why or what her reasons may be, just so she marries me."

Polly helped Aunt Phoebe to her big chair. "It had to be auntie," she whispered. "I am the spirit of your love, Bob is the spirit of his father's. The memories in this room just reached out and drew our hearts together."

"I WORK HARD FOR MY LIVING

AND NEED GIN PILLS

294 GORDON ST., STAPLETON, N.Y.



"Will you kindly inform me if your Gin Pills are sold in New York City? I learned about them last summer. My daughter went to Kingston, Ont., and spent the summer there. She got some of your Gin Pills and sent them to me and I tried them and found them to be the best medicine that I ever used for Kidney and Bladder Trouble. Oh! they did me so much good and I am so much better. I hope you can fix it so I can get Gin Pills in New York".

CHARLES COLLINS.

If you need a gentle laxative or something to stir up the liver, take National Lazy Liver Pills, 25c. a box. 10c

APPLE PIE LORE.

There are as many ways of making apple pie as there are differences in the American palates that appreciate its worth. One of the greatest errors the amateur pie maker is likely to be guilty of is sweetening her apples before they are baked. The second is to use too plain a crust. A plain crust is allowable for a berry pie or one with custard filling, but never with one of apple. An apple pie demands the tenderest, flakiest crust that it is possible to fabricate.

Neither is it possible to make a good pie of hard, ordinary apples, though it is attempted every day, housekeepers being too often possessed of the notion that any kind of apple can go into a pie. They seem to think if the crust is good it will atone for the filling. And this is at least one reason why one sees so many flavourless aple pies.

Select ripe, tart apples. Put the pie into a very hot oven on the lower shelf, and as it cooks on the bottom lift it to the top shelf to brown. Then lift it out of the oven, remove the cover, sweeten the filling with sugar, and add nutmeg or any spices desired. Mix the sugar and spices thoroughly with the apples. Add a teaspoonful of butter and stir that in also. Replace the cover and set the pie back into the oven, dredging a little powdered sugar over the top. Let it stand a moment or two in the oven, or if the oven has been slightly cooled off let it stand a moment longer. One housewife lets her apple pies stand ten minutes in a very slow oven after they are cooked and the sugar and spices are added.

A world famous chef, who, though foreign himself, has a liberal sprinkling of American recipes in his cookbooks, flavours his apple pies with cinnamon instead of nutmeg, using a saltspoonful of ground cinnamon to every four apples. In some localities they add three cloves and a half a lemon rind (grated) to the apple filling and call it Irish American pie. Tarts prepared in this way make an agreeable change from the more accepted recipe.

To vary the usual acompaniment to apple pie of cheese, the cheese might be grated over the crust and then set in the oven to melt. One or two spoonfuls of other fruit is occasionally used to "dress up" a plain apple pie. For example, farmers' wives occasionally sprinkle the top of the pie, before putting on the crust, with about half a cup of preserved grapes. A few cooked cranberries may take the place of the grapes. They will colour the pie a delicate pink and add a "twang" to the flavour. If the berries have not been properly sweetened extra sugar should be added. Some housekeepers with a few eccentricities add a few dates to an apple pie. Some other makers add a few raisins, or quince jelly for a change may be spread over the top of an apple pie before putting on the crust. It may also be used under a meringue. To add a festive touch to a plain apple pie decorate the top crust, after sprinkling lightly with powdered sugar, with triangles of quince jelly. Small triangles of this jelly are also pretty on a meringue apple pie. For a meringue apple pie the undercrust is baked first and when crisp and brown is filled with apple sauce and flavoured with either lemon or nutmeg or both. The undercrust is sure to be done in this case. To prevent it puffing up in the centre while it is baking fill it with breadcrumbs and then dump them out when it is done and put the apples in their place. The breadcrumbs may be laid aside for breading oysters and croquettes, and if not too brown they are just as good for the purpose as fresh breadcrumbs.

Before covering the pie with the meringue it is well to let it stand in a hot oven for about ten or fifteen minutes.

For a change try beating the meringue through, or partly through, the filling of the pie. When all of it is beaten through add a strong flavouring of lemon or orange to the apples and sweeten well. If not strongly flavoured in this way a pie of this kind is apt to be flavourless.

SHE GAINED 28 LBS.

Mrs. George Bradshaw, Harlowe, Ont., writes: "I was troubled for many years with weak, watery blood and dropsy. I had nervous headaches, dizziness, and sinking spells, and was, in fact, a semi-invalid. Doctors told me my heart and kidneys were diseased and gave me up. By using 18 boxes of Dr. Chase's Nerve Food I have been cured of many of my old complaints and gained 28 pounds in weight."

IF YOU WOULD HAVE PEACE OF MIND.

Use your brains rather than those of others.

Keep ahead of rather than behind the times.

Spend less nervous energy every day than you make.

Think nothing in conduct unimportant or indifferent.

Try to see yourself through the eyes of those around you.

Learn to say no; not snappishly, but firmly and respectfully.

Avoid passion and excitement; a moment's anger may be fatal.

Trust no secrets to a friend which is reported, would make an enemy.

Work to-day for you know not how you may be hindered to-morrow.

Pay your debts while you have the money in your pocket with which to do it.

In private watch your thoughts; in the family watch your temper; in company watch your tongue.

Carry sunshine in thine own heart, and like the perfume in flowers it will breathe a fragrance everywhere.

Show your respect for honesty in whatever guise it appears, and your contempt for dishonesty and duplicity wherever found.

Enjoyable Tooth Insurance

Tooth insurance is neither more nor less than tooth care. A dentist to examine them once or twice a year to detect and correct bad tendencies, and

SANITOL TOOTH POWDER OR PASTE

to keep your teeth clean and white, correct acidity in the mouth, retard decay—altogether to make the dentist's work and bills lighter.

This is the best form of tooth insurance—and you'll *enjoy* the process.

Trial Size Package

of Sanitol Tooth Powder or Paste, Face Cream, Cold Cream, Face Powder, Talcum Powder or Olive Oil Liquid Shampoo sent free on receipt of your dealer's name and address and 4 cents to pay postage and packing for each sample—or any 3 mailed in an attractive box on receipt of 10 cents in stamps.

Sanitol Chemical Laboratory Co.
Toronto, Ontario

"Manufacturers in Canada of high class tooth and toilet preparations exclusively"

FLICKER ROMANCE.

Moving picture
On the screen;
First you'll note
A city scene,
Girl and sweetheart
Have a spat
Like a regular
Dog and cat;
Lover, rage
Within his breast,
Wipes his chin,
Pulls down his vest
And goes westward
On the run,
Following the
Setting sun;
Gets a job at
Herding steers,
Then the maiden
All in tears,
Gets a letter
From her aunt
Telling her that
They all pant
For a visit;
So she packs
And goes hiking
Out the tracks
To the West, and
Then, when she
Finds the ranch
Her lover he
Is already
There, and then
Injuns grab
And to their den
Bear the maid
The lover, Will'm,
Rides o'er half
A mile of film
At a tearing
Pace, and she
In a moment
Is set free
He is hers from
Then, and she's
His, you bet;
A nickel, please.
—From the Houston Post.

FOLLY OF FAMILY BICKERINGS.

There are households where every day the same endless bickerings over the same recognized point of disagreement go on.

At some time during the twenty-four hours—it may be at the breakfast table or around the evening lamp, but it infallibly arrives just the same—the sensitive spot is touched and the trouble begins. One would think that the least intelligent would know enough to avoid such a recurring clash of arms. Yet men and women of quite unusual intelligence often keep up this destructive warfare until the last hope of household harmony ceases and becomes a trampled battlefield. The thirty years war lives again under many a modern roof.

Yet any sore spot will heal if left severely alone. A little consideration, a little sympathy, and there is nothing left, not even a scar. The rift within the lute is usually widened by poking one's fingers into it every day. Otherwise the music would hardly suffer at all.

When a sore spot is once recognized the first family duty is to salve, and then to avoid touching it thereafter. It is wonderful how many provocative points can be determinedly forgotten, and how promptly the dove of peace settles down. There are almost enough occasions of offence in every household to upset its happiness, if they are taken and dwelt upon. But isn't it a lot better to ignore them?

Dr. de Van's Female Pills

A reliable French regulator; never fails. These pills are exceedingly powerful in regulating the generative portion of the female system. Refuse all cheap imitations. Dr. de Van's are sold at $5 a box, or three for $10. Mailed to any address. The Scobell Drug Co., St. Catharines, Ont.

Sold by the Warne Drug Co., Ltd.

WHAT WOMEN ARE DOING.

Miss Alice Eastwood is a California girl who is one of the best systematic botanists in America. She distinguished herself at the time of the San Francisco fire by climbing up half-burned steps that were ready to fall at a touch, and rescuing a rare collection of California plant life.

Mrs. Amherst Harbord, of England, has won the Royal Aero Club challenge cup for the third time, and it consequently becomes her property. The prize is for the longest distance travelled in a balloon in a single voyage, and Mrs. Harbord gained it with a distance of 240 miles. Two years ago she crossed the Channel.

Twelve women recently constructed a brick walk on Central avenue, Stephens street, in Wichita, Kan., at midnight. The women were seen toiling at the job, but when a pedestrian began investigations the women disappeared. When the curiosity seeker departed they returned, carrying paving brick from the company's piles into the street. The street has been impassable for two years.

One woman among seven hundred men lately received an appointment at the promotions to the French Legion of Honour. She is Mlle. Marie Fremont, the veteran educationist, who has been for twenty-five years a professor at the Lycee Fenelon, Paris.

Not Sisters

Now and again you see two women passing down the street who look like sisters. You are astonished to learn that they are mother and daughter, and you realize that a woman at forty or forty-five ought to be at her finest and fairest. Why isn't it so?

The general health of women is so intimately associated with the local health of the essentially feminine organs that there can be no red cheeks and round form where there is female weakness.

Women who have suffered from this trouble have found prompt relief and cure in the use of Dr. Pierce's Favorite Prescription. It gives vigor and vitality to the organs of womanhood. It clears the complexion, brightens the eyes and reddens the cheeks.

No alcohol, or habit-forming drugs is contained in "Favorite Prescription."

Any sick woman may consult Dr. Pierce by letter, free. Every letter is held as sacredly confidential, and answered in a plain envelope. Address: World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N.Y.

RADWAY'S READY RELIEF
DYSPEPSIA

The symptoms of this form of indigestion are known by real experience to half of our population, and by observation to the other half. Hurried eating and imperfect mastication and mal-nutrition of our food are its principal causes. It affects and ruins the stomach, but the liver and bowels. Take Radway's Pills to tone and invigorate these organs. Avoid excesses. Live on simple, nourishing food. By observing these rules any type of dyspepsia may be permanently cured. Dyspeptic persons should closely study their diet and avoid what disagrees.

ADVERTISE IN THE EXAMINER

Qui-Si-Sana

(Short Story.)

Rose Clarke walked hesitatingly toward the cloister of the patio and down the path of drooping trees to the Qui-Si-Sana spring, where the water came boiling up in a great volume from a deep, rocky basin. She was struck with the natural beauty of the hotel, but there was something that no architect could create; a spring older than the legends of the Island of Capri itself, which said that it was the fountain of youth. And as it was named Qui-Si-Sana, meaning here is health.

The English girl with eyes as clear and blue as the waters at her feet glanced about and seeing no one drew a packet from her waist and read aloud as though to the souls of those first bathers of the Qui-Si-Sana; the words which made her the lawful owner of the spring. When she had finished reading she folded hte grant which had been bestoewd on her father many years before his death and put it aawy once more in its hiding-place.

A few moments later she was sauntering leisurely under the pergola toward the solarium. Many eyes followed her as she passed on to the east end, and as she drew a large wicker chair close to the open window so that she might gaze upon the spring many flippant remarks were vouchsafed as to her disinterest in the pleasures of the hotel.

"Mrs. Wilfred Ostend?" The page moved among the guests, and it was some relief to the gossipers to know the English girl's name, for it was she who rose and with a nod, unheedful of the chattering around her, followed the boy to the south-east cloister, where a white-haired man came to meet her with outstretched hand. "I'm glad you are well, Rose. I have worried so."

"eB careful, uncle. Don't forget my name, Mrs. Wilfred Ostend. I have carreid off my part well." As she spoke she drew her obedient uncle to one of the larger seats and there they mapped out the course to be taken.

As Mr. Clarke was leaving his niece he said advisedly, "If you intend to become friendly with Mrs. Casona, the present owner of Qui-Si-Sana, you can't be too cautious."

* * * * * * *

"Is this your first trip to the island?" inquired Trent Casona some hours later.

Mrs. Ostend answered almost cuttingly, "Yes, Italy has never appealed to me."

"May I say that I hope time will cause you to be fond of it?" Casona looked into her eyes as he spoke and Rose Clarke thought she saw in them omething more than a manager's interest in a guest.

"There's only one thing of interest to me here and that is your wonderful spring. What's the true story of it?" It was in all seriousness that she asked this question.

He moved seriously in his chair. "If you will not think me too discourteous I would rather not talk of that. There something troubling me to-day that I can tell no one. If you were not married I might tell yo ." He leaned toward her impulsively. "I wonder what kind of a husband you have to let you travel alone, in this way. Is it fair for one so beautiful to be married and still have the heart-free ways of the young English girl? Am I to be blamed for loving you?"

He would have gone on, but the light-haired girl with the honest eyes interrupted. "Don't talk like this, Mr. Casona. Your nerves are upset over that business trouble. It's imposisble that you should care for me. J st in fun, though, would you give up your property and spring if you could have my love in its place?"

Casona drew back with a sickly smile o nhis lips. "You do not realize what my spring has brought. Many have been willing to give their wealth to me and become the wife of the owner of Qui-Si-Sana. I have thought I loved many times, but the fondness for my freedom and the honour of owning and controlling this property is oo great to forfeit for any woman." He drawled the last sentence and as he finished his eyes seemed to ridicule her.

Rising, he said laughingly, "How you have exposed yourself and your lfie, and we wer only in fun." Then she went to the hotel alone.

* * * * * * *

Mr. Casona closed the door to his private office and after offering Mr. Charles Clarke ,attorney for the estate of Herbert C. Clarke, a cigar, which was politely refused, he sat down importantly at his desk. Before he could speak the attorney was proving the uselessness of his fighting the case in court.

"You have no papers, Mr. Casona. You could not be expected to know that this property had been granted to the late Herbert C. Clarke by the Government years ago. I shall make you an offer for the hotel which you have erected, and there is nothing for you to do but accept. The attorney looked pityingly on the young man, who suddenly jumped up and paced the floor out of sheer madness, and then there came the reaction, when he stood looking out of the window, unable to speak.

The door was opened by someone who dared to enter Mr. Casona's office without knocking. "Pardon, but my uncle wishes me to be here." Rose said quietly, as she pasesd by the man, who moved toward the door.

"Let me present my niece, Miss Rose Clarke, who has travelled under the name of Ostend, a whim of her own. Miss Clarke will show you the grant which makes her the owner of Qui-Si-Sana, of which I have spoken."

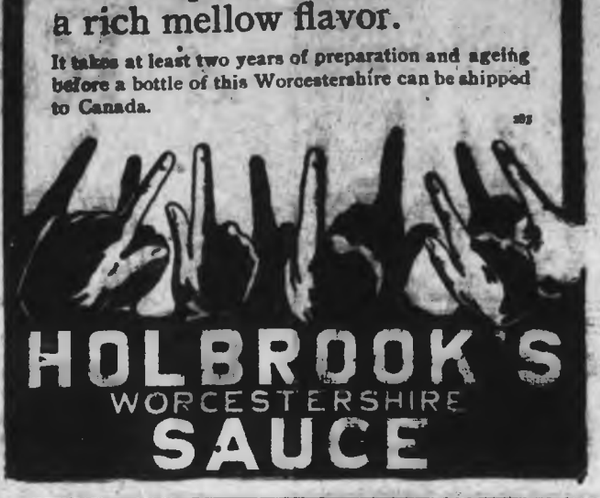
Proudly Rose stepped forward and placed upon the table the paper which was to end the life of frivolity which Trent Casona was wont to lead. His eyes sought words that might save him, but there was nothing. Like one in a dream, he signed the documents that were to bring him a few thousands: but what were these to his life of pleasure as the owner of this famous spring?

Mr. Clarke and his niece passed out of the office, and as Rose paused in the doorway she looked back at the inconstant man with the shifty eyes and spoke distinctly. "The owner of Qui-Si-Sana must be upright for the legends contain no evil." She did not wait to see Trent Casona drop in his chair, and his bowed shoulders shake, not with sobs, but with rage. —Boston Post.

The Sauce that IS Imported absolutely!!

A good wine cannot be produced in a day—neither can HOLBROOK'S SAUCE. Both require age to produce a rich mellow flavor.

It takes at least two years of preparation and ageing before a bottle of this Worcestershire can be shipped to Canada.



HOLBROOK'S WORCESTERSHIRE SAUCE

COOKING FISH OUT OF DOORS.

"Clean the fish, but do not scale; leave head, tail and fins intact, and put a small strip of bacon in each of them. Dig a hole large enough for the fish to lie in with several inches to spare. Build a fire in it and get a good hot bed of coals. Rake out half of them, cover the remainder with an inch of grass, place the fish on the grass, cover with more grass, and pile the rest of the hot coals on top. Cover the hole with a frying pan or any other handy thing, as for instance a flat stone.

"In thirty minutes they will be cooked, and Delmonico himself could not make them taste better. They are partly fried and partly fried steamed by the juices of the grass; the bacon fat has fried out and permeated the flesh; the grass juice adds a peculiar and exceedingly pleasant flavour, and when taken from the hole the grass which clings to the fish can be easily pulled off and all the scales and skin will come with it."

VANDERBILT LAWN IN DANGER.

NEWPORT, R.I.—Determined to lose none of her estate in the sea, Mrs. Vanderbilt has ordered a massive breakwater, to cost $50,000, built near the Breakers, on the Cliffs. The work will begin at once.

In the last few years the sea has greatly undermined the famous Cliff Walk, and now threatens the valuable lawn. Mrs. Robert Goelet lost many feet of lawn three years ago, and the next spring part of Mrs. Hamilton McK. Twombly's lawn dropped into the sea.

RAID WOMEN'S POKER GAME.

Chicago Matrons Caught Playing for a 50-cent Limit.

CHICAGO, April 12.—Acting on information received through a telephone call from a woman who refused to give her name, detectives invaded the third floor flat on Calumet Ave. recently, where they found eight respectable South Side matrons engaged in a "friendly" game of 50-cent limit poker.

Owing to the inability of the police to obtain evidence htat the woman who lived in the flat took a "rake off," no arrests were made.

According to the information received by the police, women in moderate circumstances and whose knowledge of the game of poker is superficial were inveigled into the game by the banker. They were required to buy a $10 pack of chips to "sit in," but actually received only $9.75 worth of celluloid counters. The $1.25 represented "supper money," and for it each woman who sat in the game was given supper at the hostess' expense. After supper the game was renewed and the hostess exacted another $1.25 from each player as "cab-money."

"It is a scheme," the informant told the police. "I have seen women whose husbands were drawing moderate salaries lose $40 or $50 in an afternoon or evening. They get heavily in debt to each other and go without things htey need to have money for the game."

TWO ROADS TO FAME.

His way was in a bloody lane, where clanking caissons splashed along; his goal, the line where blazing guns laughed out their song of death. On he went. His ears were filled with sounds of quick commands, bugle blasts, discordant drums. No fluttering fear was in his heart, no thought of home, no spectre of the dread despair that waited ta the hearth if he never came again. To him there was no warning in the bullet's deadly hiss. Youth trod all reason under foot; ambition saw all glory overhead. On on he went to woo his bride, the priceless jewel, Fame.

Another, in a garret, sighed for Fame. Crusts were his portion and his raiment only rags. Hermit like, he toiled alone; nor cold nor hunger even daunted him. He marshaled all his hosts, and visions came and went. On, on eh toiled. In the snowflakes that drifted in and touched his hands he read a message from the world without; all white, all cheerless. As a chrysalis, his fancy wove and spun and made its garments wondrous, then burst in splendour on a waiting world.

Both fought the fight; each in his way. One for an heroic shape of bronze, one for a speechless marble face. Each for an epitaph—that all the ages in the dust of time might know he did and died.

For Southern beefsteak, a cheap but juicy piece of meat is used. Cut the meat into small steaks the size of the hand. Season each piece highly with salt and pepper. Then pound each piece until it is almost literally a rag. Roll up each and dip in cornmeal. Fry in very hot suet and serve at once for breakfast, with coffee and rolls or corn pone.

ROBLISH RISK.

The daughter of the house had been to a party the night before and had not got to bed till after midnight. That was how it happened that she was still asleep when her mother and aunt slipped into her room next morning. One slender pink foot was thrust out from between the clothes, and as her aunt caught sight of it she gave a gasp of dismay.

Why, Laura's foot is almost deformed! she exclaimed, noticing how the he foot smaller, and she is ready to how the heel had been pressed forward. Then as she caught sight of a pair of dainty white shoes beside the bed, with high stilt-like heels, she added, And I don't wonder, if she wears such shoes as that.

It is hard to convince the girl who likes high heels that there is a chance of their doing her an injury. She sees only that the high-heeled shoe makes her foo smaller, and she is ready to run the risk of future mischief. For a long time doctors have claimed that the wearing of high heels was likely to lead to weakness to the back, to headaches and to trouble with the eyes. A big surgical instrument house which manufactures the metal arches and insoles used to correct a painful disease of the foot known as breaking down the arch, reports that during the past two or three years the demand or these metal insoles has more than doubled. And the doctors who are sending their patients to get the insoles declare that the greater part of the trouble is caused by the wearing of high-heeled shoes.

It is only the girl herself who knows or cares very much whether her foot looks large or small. It is much more important that it should be neatly and sensibly shod than that it should be made to appear a size or so smaller than it really is.

Piles Not Taken Seriously

"Annoying, but not dangerous, seems to be the way many think of piles in the early stages. But gradually they become worse, until they prevent sleep, undermine the nervous system and make a wreck of life.

When the doctor is finally consulted he considers the case so serious that he recommends the surgeon's knife as the only means of cure. It may cure or it may kill. The risk is yours.

But there is an easier and surer way to relieve and cure piles. That is by applying Dr. Chase's Ointment. The earlier you begin the cure of this ointment the quicker the cure. But you need not be discouraged because you have suffered for ten or fifteen years. It would be difficult to imagine worse cases than have been cured by Dr. Chase's Ointment. Relief comes at once and cure is just as certain if you persist in the use of this great ointment.

BELIEVE IN SECOND MARRIAGES.

If a gentleman can fall in business in October and pay 5 cents on the dollar and spend the winter in Bermuda and open up for business again at St. Paul, Minn., I don't see why some poor misguided girl should not have a second chance on the matrimonial market.

Some women are smarter than others, and get on to their husbands in six onths, others in two years or three years, or longer, according to their brain development. Any girl that gets on to her husband after any length of time, if she be still fairly marketable, should set about at once to get rid of him. It is always a good plan, however,, to have folks in comfortable circumstances to go back to.

I often see young wives going along the streets with husbanrs wearing side whiskers and I wonder what lfie holds for them. After two or three seasons of freezing around a base burner, mingling with chickens and peddlers, running up bills for nipples and malted milk at the corner drug store, attempting to raise a fern forgetting to sew a button on here and there dressing in the kitchen in January, and trying to pick out a gocart together, love nearly always gives up, packs a few belongings and quietly gets out. Then sentiment hands in her resignation, and it's a cold business partnership from that time on—with each partner watching the books.

I always hate to hear some faded out woman, who caught on before her father failed, knocking a second marriage. If she can find contentment in canary birds asapragus beds or settlement works that's her business.

THE DEPARTURE OF HELEN.

A widely known motor racer was asked by a friend if he would be so kind as to allow three young women to accompany him while he was trying out a new racing car.

"Why, I can't be bothered with passengers at a time like that, and especially with women. They always talk to me and I can't have my mind distracted. It might prove dangerous, you know!"

"But these girls won't bother you. I'll tell them not to. One of them is my sister. They are crazy to go; want to say they have ridden with you. You know how girls are."

"Well, if you will tell them they mustn't speak to me while I am driving, they may go. They mustn't move around, or do anything to distract my attention. You impress this upon them. If they are willing to do this they can go."

The promise was made and they started. At one place the driver ran over a water guard and there was a tremendous bump. He did not try to loo karound, as he was going at a rapid rate of speed, but presently he felt a timid touch on his sho lder.

"What is it" he growled.

A weak little voice answered him: "Really, I hate awfully to bother you. I know I shouldn't, and I promised not to; but I feel that I must tell you that Helen isn't with us now."

Clean Within!

Dr. Morse's Indian Root Pills Purify the Blood and Prolong Life

Vigorous health at 70 due to Dr. Morse's Indian Root Pills.

If as much intelligent care were given to keeping the body clean and pure within as well as without we would see more healthy, vigorous old men and women. The daily bath does its part by keeping the pores of the skin open so that they throw off much of the body's impurities, but it is even more important that the bowels and kidneys should be kept regular and active.

If the bowels fail, as they often do late in life, to move regularly at least once a day, the waste matter from the food accumulates, decays, poisons the system and upsets the stomach.

If the kidneys are sluggish the impurities which they should filter from the blood remain and cause rheumatism.

Dr. Morse's Indian Root Pills regulate the bowels, stimulate the kidneys and open up the pores of the skin. The result is a body clean within—pure, red blood—good digestion—and a hale and hearty old age.

Three generations have proved the value of Dr. Morse's Indian Root Pills, and their sale is steadily increasing all over the world.

DRINK PLENTY OF WATER.

Danger of Disease Thus Lessened.

The water wagon is a good place to ride. Most Peterborough people believe this and are hanging on somewhere, but the healthiest, wealthiest, and wisest people are sitting right on top with the driver. The medical fraternity gave the sassafras tea fiends a hard jolt when it denounced spring "blood purifiers" as spring fakes and recommended that they make garden or clean back yard for their health.

If, after reading advice so persuasive as that, you still want to "take something," take water—lots of it, externally and internally. You'll have to begin early and keep at it late eevry day if you drink all that you need. An adult thrives best if he consumes at least seven pints of water a day. This means fourteen glasses. Sounds big, doesn't it? There must be a reason.

Water is necessary to carry off the body waste products. Only a certain part of the food is used to make muscle and brain. The rest cannot possibly be of service ,and in most cases acts as a violent poison.

The principal waste products in this case are uric acid and urea, both of which are extremely poisonous. An excess of uric acid in the system will cause severe headaches and convulsions. So mother has another of those sick headaches or father is laid up with rheumatism. If they had been drinking enough water, it would have diluted the poisons and no harm would have resulted.

There is a very popular fallacy abroad, namely, that a person should never drink water with his meals. There is one and only one danger in this. That is the temptation to wash down half masticated food with water. There is one distinct advantage in the digestion of food when water is taken with the meals. As food is swallowed it goes to the stomach in a lump about the consistency of a bread dressing. One can see that it requires a great length of time for time for the digestive juices to penetrate the mass and come in contact with the food particles. If the food is diluted with water, the digestive juices can easily have access to it.

In this and in other ways water keeps the digestive tract clean. If people drank enough water, there would be no operations for appendicitis.

Along with the joys of spring come its responsibilities. If it wasn't for the warm sun there wouldn't be any flies to swat. If this is the germinating season for grass and buds and all the pleasant green things that Nature decks the earth with to delight the heart of man, so is it also for the pesky animal life that prays on man. Nature is impartial—it starts all life og on equal terms and leaves it to the fittest to live longest.

And themoral of this is, swat the fly.

The earlier the swatins season begins the later the fly season will be deferred. The little tailor in the story book who killed seven flies at a blow fancied he had performed a tremendous feat, but if he had done his swatting early when the eggs were still unhatched by the sun he might have killed seven million by the same blow.

Remember, the sun which feels so good to you, feels just as good to the y. If it makes you stretch and shake yourself and come out of your winter husk, it does the same for the jy. He, too, is stepping outdoors to take a look around and see what the prospects are for a busy summer.

The race is between you and the uy to determine which is the fittest to survive. If you don't swat the fly he'll swat you.

Swat first.

IT'S NOT "BACK TO THE FARM."

City dwellers who flatter themselves with the idea that the country is yearning for them and that rural institutions need their aid and their presence, would have been startled by the announcement made at the country life conference of the Pennsylvania Rural Progress Association that the "back to the farm" theory is all nonsense.

It was Dr. Myron D. Scudder, professor of the science of ed cation at Rutgers College, who voiced the sentiment that the country life movement should not be interpreted as a crusade to get city inhabitants back to the farm.

Professor Scudder made it plain that rural districts would not be benefited by the injection of an alien element that could not be assimilated, and he declared that the movement is solely one to make the country more inhabitable for those who now live in it. "Stay on the farm," and not "back to it," he declared, is the slogan of the movement.

DEVELOPMENT BILL.

Government Refuses Suggestions Regarding New Ontario.

Toronto, April 12.—The question as to whether the $5,000,000 for the development and colonization of New Ontario should be voted in lump sum or a portion appropriated year by year as the progress of the work demanded it caused a lively debate in the Legislature yesterday afternoon. Another contentious point was whether the authority to spend the money should be entrusted to the Lieutenant-Governor-in-Council rather than to the Legislative Assembly.

When the bill to raise this $5,000,000 on the credit of the consolidated revenue fund of the province came up for its second reading, N. W. Rowell had some criticism of it to offer.

"No more vicious bill," said he, "has ever been submitted to a Legislative Assembly where British institutions are enforced."

The Opposition leader contended that the necessary amount of money required each year should be voted by the Legislature, otherwise its right to control the finances of the province would be taken away. He instanced the procedure of the Federal Government in voting annual amounts for the construction of the National Transcontinental Railway.

Mr. Rowell introduced amendments to have a portion of the $5,000,000 voted each year, and also to give the Legislature the power to vote the money instead of the Lieutenant-Governor-in Council. He also introduced an amendment to strike out the words "such other public purposes of a like character as the Lieutenant-Governor-in-Council may deem expedient." This was in one of the clauses specifying for what purposes the money should be spent.

All of Mr. Rowell's amendments were defeated, and the bill was carried.

The purposes for which the $5,000,000 is to be devoted, according to the wording of the bill, will be: (1) The construction of works and improvements; (2) the making of roads; (3) the improvement and development of waterpowers; (4) the advancement of settlement and colonization and the assistance of settlers; (5) the improvement of means of transportation and of communication and the encouragement and assistance of agriculture and reforestration in the north and northwestern districts of the province, and for such other public purposes of a like character as the Lieutenant-Governor-in-Council may deem expedient. The money is to be raised upon the credit of the consolidated revenue fund of the province.

Trainmen Killed.

Vancouver, April 12.—C.P.R. train No. 3 eastbound, which left the city at six o'clock Wednesday evening was wrecked yesterday morning three miles east of Savona, which is a station a short distance this side of Kamloops. Engineers Walker and Fireman Hoskinson of Kamloops were so badly injured that they died within a short time.

The engine and three express cars left the rails.

No passengers were hurt. The wreck was caused by a rockside, the rocks apparently having come down but a few minutes before the arrival of the train.

Happiness.

"I am sometimes accused," writes Sir John Lubbuck, "of being too optimistic. But I have never ignored or denied the troubles and sorrows of life. I have never said that men are happy, but only that they might be; that if they are not so the fault is generally their own; that most of us throw away more happiness than we enjoy."

A WEAK, ACHING BACK CAUSED HER MUCH MISERY

Could Not Work and Had No Ambition For Anything.

Those who have never been troubled with kidney trouble do not know the suffering and misery which those afflicted undergo.

Weak, lame or aching back comes from the kidneys, and when the kidneys are out of order the whole system becomes deranged.

Doan's Kidney Pills are a specific for all kidney troubles.

Mrs. W. R. Hodge, Fielding, Sask., writes:—"A few lines highly recommending Doan's Kidney Pills. For the last year I have been troubled very much with nasty sick headaches, and a weak, aching back which caused me much misery, for I could not work and had no ambition for anything. My kidneys were very badly out of order, and kept me from sleeping at nights. I tried many kinds of pills and medicines but it seemed almost in vain. I began to give up in despair of ever being well and strong again, when a kind neighbor advised me to try Doan's Kidney Pills, which I did, and am thankful for the relief I obtained from them, for now I am never in trouble with a sore back or sick headaches. I will always say Doan's Kidney Pills for mine, and can highly recommend them to any sufferers."

Price 50 cents per box, or 3 boxes for $1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

When ordering direct specify "Doan's."

MURDERER ARRESTED?

Charles Gibson is Accused of Killing Rosenthal

HIDING IN A LAVATORY

Toronto, April 12.—After evading the police since last Saturday morning and sending a letter to his stepmother saying he was on his way to Sudbury, Charles Gibson, Ontario street, a former employe of the City Hydro-Electric Department, was found in a most mysterious manner while hiding in the lavatory of the Hydro-electric sub-transformer station at the foot of West Market street shortly after six o'clock last night and taken into custody on a charge of murdering Joseph Rosenthal. Detective Cronin, who became suspicious when Reginald G. Langmaid, meter reader, exhibited great excitement when the detective ordered two loafers out of the office. The detective immediately began an inspection of the premises and on opening the lavatory door found Gibson, who had for several days been known to the police as the man who had given his name over the telephone to Harry Rosenthal at "Smith," crouching behind the door. He had a quantity of meat and other eatables and an electric stove was already hot and about two pounds of sausages were ready to be cooked.

The detective had not the least idea that Gibson was hiding in the station. He went there with the hope of learning something which would lead to the whereabouts of a man wearing a grey coat and who had been seen with Gibson the night of the murder. Finding the two man hanging about the office, he ordered them out, so that he could hold a secret conversation with Langmaid. No sooner had the door closed behind the two men than Langmaid became excited. The detective became suspicious and, without even starting the conversation, decided to search the place. He went straight for the door leading to the lavatory, and, trusting it open, stood face to face with the man in search of whom two detectives were preparing to leave for Sudbury.

That the murder was committed on Friday evening between 7 and 10 o'clock is now quite clear. Rosenthal and Dunkelman left Dunkelman's junk shop at the corner of Richmond and York streets shortly after six o'clock on Good Friday night. Before 11 o'clock Gibson returned to his rooming house in Ontario street covered with mud and in a most disreputable condition generally. No special notice was taken of him at the time, and on the Saturday morning he cleaned his clothes and left the house. Since then he has not returned. Just where he has been in the meantime is not quite clear. It is believed that he has spent two or three days in the Hydro station, and it is believed that he spent at least one night at the home of a friend. This, however, is not quite clear.

At nine o'clock on Good Friday the three men were seen on the Strachan avenue bridge. No one is known to have seen either Rosenthal or Dunkelman after this until the body of Rosenthal was found shortly after seven o'clock the following morning. Half an hour after the finding of Rosenthal, Dunkelman staggered to his home in a semi-conscious condition and since then has been in St. Michael's Hospital, in such a weak condition that he has been unable to speak.

Gibson apparently went direct to a downtown departmental store and purchased a black overcoat and a suit, and after changing destroyed the old garments. He had changed his shirt and underclothing before leaving home. His shirt, which was covered with blood, was burned by his stepmother.

The letter which he sent to his stepmother read as follows:

Dear Mother,—Leaving for Sudbury. I am sending you this by special delivery. Hope you will get it before late. I will write when I arrive. I am going to work in the mines and will send you whatever I can when I get started. Write to me to General Delivery, Sudbury, Ont. Hope you won't be mad at me for going. I got paid to-day. I never expected it. So do the best you can and let me know if you got it.

(Signed) "Charlie."

This letter was dated from the Union Station, but Gibson admitted that he wrote it while in the general postoffice. When Mrs. Gibson was taken to the City Hall last evening to tell her story of the affair she had the letter in her stocking. The first definite information to be received by the police about Gibson came by way of Detective Taylor. All the force was working on the case, but Detectives Cronin and Mitchell have been working day and night on it ever since the finding of the body. They have hardly had time since to eat.

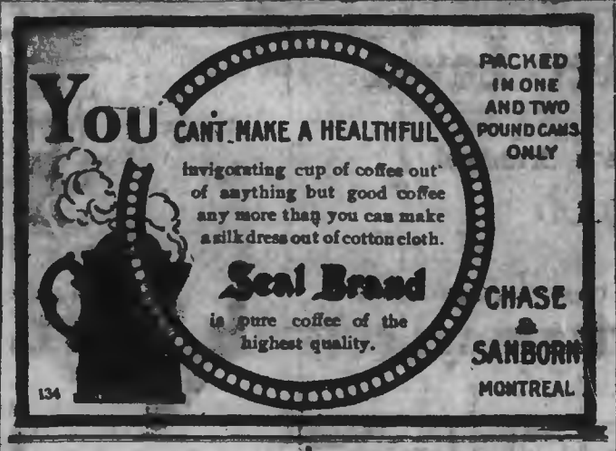
After Mrs. Gibson had been taken to the detective department, Detectives Tipton and Taylor remained in the house with the hope that Charles Gibson, sr., would return, but he did not.

Reginald George Langmaid, whose nervousness lead t. the arrest of Gibson, is held on the nominal charge of vagrancy. This charge, however, may be changed to that of harboring a fugitive. Several other arrests will be made to-day, it is expected. The police have information which points to several people having assisted Gibson.

"Can you paint me a gallery of ancestors from this old tintype?"

"I can, but they will all look much alike."

"Well, a family resemblance won't hurt some."—Washington Herald.



To Mint Gold Coinage.

Ottawa, April 12.—The minting of Canadian five and ten dollar gold pieces will begin next month at the mint. The new coins will meet a long-felt want in Canada, practically the only gold coinage used here being American. There are several millions worth of the latter here in circulation. The new coins will be exactly of the same intrinsic value as the American gold pieces, and will be exchangeable at par in the United States, thus obviating present difficulties of Canadian travelers visiting the United States in regard to being obliged to discount Canadian bills.

There will be about eight million dollars' worth of the new gold pieces coined this year.

Calls Taft Great Deceiver.

New York, April 12.—A delegation of ninety members, uninstructed for any candidate, but all bound by the unit rule, were yesterday chosen to represent New York's democracy at the national convention at Baltimore in June.

The principal plank in the platform and the leading theme of the speech of Congressman John J. Fitzgerald of King's County, the permanent chairman, was the revision of the tariff. The platform denounced the action of President Taft in vetoing the tariff bills last August, and charged the President, and the Republican party with gross deceit of the people in promising a downward revision of the tariff.

Roosevelt Back at Oyster Bay.

Oyster Bay, N.Y., April 12.—His week of campaigning through West Virginia, Kentucky, Illinois and Pennsylvania at an end, Col. Roosevelt returned to Oyster Bay late yesterday for a night's rest at home before leaving on his next trip. The colonel said he was greatly pleased with the result of his trip, especially by what he had seen in Illinois and Pennsylvania. Col. Roosevelt spent the day in Eastern Pennsylvania.

Hydro For Brantford.

Brantford, April 12.—The fire and light committee has decided to recommend to the City Council the submission of a Hydro-electric bylaw here, involving an expenditure of $109,000. The conduit system in the centre of the city will be an additional charge to be provided for on the local improvement plan. Installation of 3,600 lights is proposed instead of 280, as in use at present.

Ant Heavily Fined.

The popular song is a popular thing,
Which by popular vogue is attested,
But if you were to talk them instead of to sing
The chances are you'd be arrested.
—Chicago Post.

Used a Match.

Mrs. Bacon—The man was here today, dear, looking for that gas leak.

Mr. Bacon—And did he find it?

"Yes, but they haven't found the man yet!"—Yonkers Statesman.

East and West.

Lapis—What is it makes the west wild?

Lazuli—It is the impression in the east that the west is wild.—St. Louis Post-Dispatch.

"So you have quit smoking cigarettes?"

"Yes," answered the sad looking man, "forever and ever."

"Did you find they were undermining your health?"

"No."

"Wife object?"

"No."

"What cured you of the habit?"

"The pictures they gave away with them."—Washington Star.

It's easy enough to be pleasant
When your foot runs into a nail,
But the man worth while
Is the man who can smile
When his wife reads his personal mail.
—Cincinnati Enquirer.

Mrs. Green—You spoke just now of social tact. Precisely what do you mean? Mrs. Wyse—By social tact I mean getting familiar with all sorts of people without letting them get familiar with you.—Boston Transcript.

GOES FARTHEST FOR THE MONEY

TREASURES OF ROYALTY.

A Glance at the Priceless Contents of Buckingham Palace Vaults.

On the basement floor at Buckingham Palace are vaults, the contents of which are worth a fabulous amount of money, and which are guarded with immense care.

In these vaults are stored accumulations of treasures which have come into the possession of the royal family in different ways during the past fifty or sixty years, and for which it is impossible to find room in the apartments, corridors, or halls of the royal residences, as they are already filled to their full capacity with armor, statuary, and various valuable works of art.

Two of the treasure vaults are of immense size; one nearly square, has a floor space of 300 feet by 200 feet and runs under the state apartments on the first floor. There is a passage leading into it outside the Bow Room which looks out on the gardens, but the entrance to this passage was covered over in Queen Victoria's reign.

The second vault is somewhat smaller than the first; the third has only a floor space of 30 feet by 10 feet. The vault is steel-lined throughout, and it is here that the gold and silver ornaments and other small valuables for which there is no room in the royal palaces are stored. In the two large vaults, which, by the way, are absolutely air-tight, and heated by radiators, are kept the larger treasures, such as statues, big pictures, etc.

Probably the contents of the smallest vault equal in value all that is stored in the other two. The weight of the gold ornaments alone—they are made of the purest metal—is said to be over a ton. There are over six thousand of these. But the weight of many of these ornaments bears no relation to their value. There are, for example, half a dozen grotesque Arabic figures not more than a couple of inches in height whose united weight is probably less than one pound; they were a present to Queen Victoria from an envoy from the Persian court, and are reputed near a thousand years old. In the open market these figures would probably fetch a couple of thousand pounds apiece.

All the wonderful wealth of gold and silver in this vault is placed on tray-tables; each table is fitted with four trays, one over the other, and as the articles accumulate more trays are added to the tables. In Queen Victoria's reign the tables contained only two trays. Every single article in the vault is checked and counted over once a year under the supervision of the Keeper of the Privy Purse.

The pictures and statuary in the vaults are the least valuable of their contents. Queen Victoria purchased and accepted as gifts a great many pictures and statues from a number of modern artists, chiefly Germans, whose work is not of much value, and these, when the late King came to the throne, were removed from the apartments and halls in the royal palaces and placed in the vaults, and replaced by other objects of art of much greater value, which were then in the vaults.

Much of the furniture and armor is, however, of immense value. A set of old oak chairs and two long tables which are of the eleventh century, would fetch thousands of pounds if sold. These chairs are so massive that an ordinary man could not raise one completely from the ground.

Each vault is fitted with three steel doors. The keys of these doors are kept by the Keeper of the Privy Purse, and the vaults are only opened in his presence or that of some responsible official of the royal household.

The French Ambassador In London.

One of the cleverest diplomatists in Europe, M. Paul Cambon, the French ambassador in Lonron, who has been a prominent figure in the Moroccan crisis, is a striking example of how a man may, through sheer force of character and industry, rise to a high position in the state. He was eight years of age when his father died, leaving a widow and two sons not very well provided for. But M. Cambon worked hard, studied for the law, and ultimately entered the diplomatic service. He is one of the most popular men in London society, a favorite at court, and esteemed throughout France on account of his keen interest in French charities. He possesses one of the most valuable collections of autographs in the world, and is quite an expert at chess.

Woman's World

Olive Schreiner, the Novelist, Gives Radical Prediction.

OLIVE SCHREINER.

"It is quite possible that the female half of humanity may be found more fitted than are men for the bulk of human labors in the future." So says Olive Schreiner, and she pictures women as becoming the greatest financiers, judges and lawmakers. This same Olive Schreiner, who was once known only as a great but peaceful novelist, author of "The Story of an African Farm," is now marching up at the head of the women's rights procession. Her motto is, "We women take all fields of labor for our right."

In her new book, "Women and Labor," she states her demand with the hard science of a college professor. Women, she declares, must and will take over a half in all fields of labor, from digging ditches to ruling nations, or else, with this modern age of machinery, they must become mere parasites. In answering the objections likely to be urged against her theories she declares, in reply to the retort that women may be unable to carry on a full half of all labors, that, on the other hand, women may prove much more able to conduct the world than are men.

Is Olive Schreiner right? Is woman to rule the world? A Columbia college professor declares that she is not merely as regards some sort of distant future, but as regards today. He points out that today in all the large cities where there are large and important movements for the improvement of social conditions women are at once more studious and more active practically. He declares that even in law and in medical schools the women are the most earnest and practical. In small towns, he points out, it is not men but women who get away from the cracker box and village gossip to form municipal improvement and study clubs.

And in answer to the oft given objection that it is only men who have been able to rule he quotes Mrs. Schreiner's "Woman and Labor" to the effect that the best rulers in the world have been queens—Victoria and Elizabeth and Catherine of Russia.

Is there some truth in the humorous papers' frequent jests to the effect that it will soon be the men who are reduced to the dishwashing and mending while women rule the world?

The Corselet Again Modish.

The blouse pictured is a French creation, otherwise one might dub it "homemade" in appearance, but as dear Paree is its home the creation is

NEW BLOUSE WITH CORSELET.

meeting with the consideration of fashion experts on this side of the water.

The skirt is of permo fabric, a mixture of worsted and mohair, and there is a little coat to match. The girdle and part of the bodice are made of the permo, the upper bodice being of silk veiled with chiffon.

Eyelash Tonic.

To acquire long, thick eyelashes try anointing them with the following tonic: Fifteen grains sulphate of quinine and one ounce of sweet almond oil. This should be applied with a camel hair brush with extreme care so that none of the tonic touches the eye itself.

Yes, marriage is a lottery—
We know the circumstances—
And yet fool man will often go
And take three or four chances.
—Cincinnati Enquirer.

MARKET REPORTS.

Liverpool and Chicago Wheat Futures Close Higher—Live Stock—Latest Quotations.

CHICAGO, April 11.—New crop futures in the wheat market sold to-day at the highest level reached so far this season. Millions of bushels unloaded, however, by the chief owners of the May option nullified the advance, which was due mainly to increased excitement over reports of damage to growing crops, especially in Illinois. The market closed easy at prices varying from 1-8c to 1-4c lower to 5-8c to 3-4c up. Latest trading left corn with a net gain of 1-4c to 3-8c, oats 1-2c to 7-8c higher than last night and provisions slanting from unchanged futures to 7 1-2c to 15c decline.

The Liverpool market closed to-day on wheat unchanged to ¼c higher than yesterday, and on corn ½c to ⅝c higher. Buda Pest wheat closed ¼c higher, Berlin ⅛c lower.

Montreal Grain and Produce.

MONTREAL, April 11.—The foreign demand for all grades of Manitoba spring wheat continues fairly good, and as cables were strong at another advance of 1½d to 2d per quarter some business was worked. The local trade in coarse grains was quieter, but the undertone to the market was strong. There was an increased demand for spring flour, and a few sales were made at higher prices. The tone of the local market is stronger and an advance in prices is anticipated. Rolled oats continue strong and prices have scored another radvance of 20c, and cornmeal has been marked up 40c per barrel. Butter is quiet and easy, with prices tending lower. Demand for eggs is fairly good.

Corn—American No. 2 yellow, 80c.

Oats—Canadian western, No. 2, 54c to 54½c; do., No. 3, 53c to 53½c; extra No. 1 feed, 51c to 51½c; No. 2 local white, 50c to 50½c; No. 3 local white, 49c to 49½c; No. 4 local white, 48c to 48½c.

Barley—Manitoba feed, 62½c; malting, $1.08 to $1.12.

Buckwheat—No. 2, 72c to 73c.

Flour—Man. spring wheat patents, firsts, $5.70; seconds, $5.20; strong bakers, $5; winter patents, choice, $5.10 to $5.25; straight rollers, $4.85 to $4.75; straight rollers, bags, $2.15 to $2.25.

Rolled oats—Barrels, $5.55; bag of 90 lbs., $2.65.

Millfeed—Bran, $25; shorts, $27; middlings, $29; moullie, $30 to $38.

Hay, No. 2, per ton, car lots, $10.50 to $11.

Cheese—Finest westerns, 15¼c to 15½c; finest easterns, 14½c to 15c.

Butter—Choicest creamery, 24½c to 25c; seconds, 23½c to 24c.

Eggs—Fresh, 25c.

Potatoes—Per bag, car lots, $1.75.

Dressed hogs—Abattoir killed, $12.25 to $12.50.

Pork—Heavy Canada short mess, bbls., 35 to 45 pieces, $22.50; Canada short cut back, bbls., 45 to 55 pieces, $22.

Lard—Compound, tierces, 375 lbs., 9½c; wood pails, 20 lbs., net, 9¾c; pure, tierces, 375 lbs., 11¾c; pure, wood pails, 20 lbs. net, 12¼c.

Beef—Plate, bbls., 200 lbs., $24.50; Plate, tierces, 300 lbs., $31.50.

Liverpool Grain Prices.

LIVERPOOL, April 11.—Closing—Wheat—Spot firm; No. 2 red western winter, 8s 4½d. Futures firm; May 7s 11⅝d, July 7s 10⅝d; Oct., 7s 6¾d.

Corn—Spot firm; American mixed, new, 6s 5¼d; old, 6s 11d; new Kiln dried, 6s 5¾d; futures strong; May, 6s 5¼d; Sept., 5s 4½d.

Flour—Winter patents, 29s 6d.

Buffalo Grain Market.

BUFFALO, April 11.—Spring wheat nominal; winter wheat higher; No. 2 red, $1.06; No. 3 red, $1.04; No. 2 white, $1.07.

Corn—Higher; No. 3 yellow, 69½c; No. 4 yellow, 68c; No. 3 corn, 51½c to 52½c; No. 4 corn, 50c to 50½c, all on track thru billed.

Oats—Strong.

Barley—Malting, $1.27 to $1.30.

CATTLE MARKETS.

Toronto Live Stock.

TORONTO, April 11.—The railways reported 48 carloads at the City Yards, comprising 426 cattle, 1604 hogs, 69 sheep, 184 calves and 2 horses.

Butchers.

The general run of steers and heifers sold from $6.25 to $6.60, with a few odd cattle at $6.80 to $7, but there were few reached these latter prices. Cows ranged from $4.50 to $5.75; bulls, $4.50 to $5.50.

Feeders and Stockers.

The only sale we heard of in the stocker line was a load sold by A. E. Quinn, weighing 800 to 700 lbs., at $4.75 to $5.25.

Milkers and Springers.

Not many were offered and not many wanted, with prices steady at $40 to $65.

Veal Calves.

Prices for veal calves were steady at $4 to $8 for medium to good, and $2.75 to $3 for "bobs."

Sheep and Lambs.

Prices were firm, ewes selling from $5 to $6 and $6.50; rams, $4 to $5; yearlings, $7 to $8 per cwt.; spring lambs, $6 to $7 each.

Hogs.

Hog prices have been steadily growing higher all week, the market closing at $8.75 for selects, fed and watered, at the market, and $8.40, f.o.b. cars at country points.

East Buffalo Cattle Market.

BUFFALO, April 11.—Cattle—Receipts 50 head; market quiet and steady; prime steers, $7.75 to $8.25; butcher grades, $6.50 to $7.25.

Calves—Receipts 250 head; market fairly active, 50c lower; cull to choice, $5.75 to $9.25.

Sheep and Lambs—Receipts 3000; market fairly active; steady; choice handy, $6.25 to $6.40; cull to fair, $5 to $6; yearlings, $6.75 to $7.25; sheep, $5 to $5.50.

Hogs—Receipts 2000; market slow, 10c to 15c lower; yorkers, $7.60 to $7.65; pigs, $6.75; mixed, $7 to $7.10; heavy, $6.90 to $7.05; roughs, $6.25 to $6.35; stags, $5.50 to $6.

Chicago Live Stock.

CHICAGO, April 11.—Cattle—Receipts 6000. Market strong to 10c higher. Beeves, $5.10 to $8.70; Texas steers, $4.30 to $6; western steers, $5.20 to $7; stockers and feeders, $4.25 to $6.50; cows and heifers, $2.80 to $6.75; calves, $6 to $9.25.

Hogs—Receipts 30,000. Market slow, 5c lower. Light, $7.55 to $7.90; mixed, $7.55 to $7.95; heavy, $7.50 to $7.90; rough, $7.50 to $7.65; pigs, $6.90 to $7.50; bulk of sales, $7.70 to $7.85.

Sheep—Receipts 15,000. Market weak. Native, $4.25 to $5.25; yearlings, $5.40 to $6.25; lambs, native, $5.50 to $7.25; western, $5.50 to $7.25.

Though by sad circumstances forced
To turn his picture to the wall,
'Tis better to have been divorced
Than never to have tried at all.

JUST TRY A TEN CENT BOX OF CASCARETS

Insures you for months against a Sick Stomach, Lazy Liver, Constipation or a Bad Stomach.

Put aside—just once—the Salts, Cathartic Pills, Castor Oil or purgative waters which merely force a passageway through the bowels, but do not thoroughly cleanse, freshen and purify these drainage or alimentary organs, and have no effect whatever upon the liver and stomach.

Keep your inside organs pure and fresh with Cascarets, which thoroughly cleanse the stomach, remove the undigested, sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the decomposed waste matter and poisons in the intestines and bowels.

A Cascaret to-night will make you feel great by morning. They work while you sleep—never gripe, sicken and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have Headache, Biliousness, coated tongue, Indigestion, Sour Stomach or Constipated bowels. Cascarets belong to every household. Children just love to take them.

Old Pegyism.

Backward, turn backward, O Time, in your flight and give us a maiden dressed proper and right. We are so weary of switches and rats, Billie Burke clusters and peach basket hats; wads of jute hair in a horrible pile, stacked on their heads to the height of a mile. Something is wrong with the maidens, we fear. Give us the girls as they used to appear. Give us the girlies we once knew of yore, whose curls didn't come from a hairdressing store; maidens who dressed with a sensible view and just as Dame Nature intended them to. Give us a girl with a figure her own and fashioned divinely by nature alone. Feminine style's getting fiercer each year. Oh, give us the girls as they used to appear!—Stirling Journal.

The Family Tree.

A brand new family tree adorns
The home of Croesus Pickles.
With tales of titled ancestors
His fawning friends he tickles.

To all the world that tree proclaims
Descent from lord and lady.
Betwixt the branches and the ground
Of course it's rather shady.
—Josephine Cuan in Smart Set.

Time Wasted.

"I will detain you only a moment, Mr. Hepperly. Are you carrying all the life insurance you want?"

"Yes, and more than I can afford, but I'm glad you dropped in. I have just taken the agency for a subscription book entitled 'The Voters' Manual.' It contains the platforms of all the existing political parties, brief biographies of all the prominent political leaders, statistics relating to the internal revenue, congressional debates on the tariff question, together with—what's your hurry?"—Chicago Tribune.

His Limit.

"I love you!" he cried, throwing all restraint to the winds. "Do you really and truly love me?" she answered, still unyielding. "I swear I do!" "How much?" "How do I know how much? With all my heart and soul and strength and mind and"— "Wait. Couldn't you love me any more?" "Dearest, if I loved you any more I don't think I could stand it." "Why not?" "I might want to marry you."—Cleveland Plain Dealer.

Overcoming Nature.

There was a maid in our town
Who did not paint, 'twas said,
Because her soft and dimpled cheeks
Were made by nature red.

But soon this maiden quite petite
Grew wan, her roses fled,
And all because she followed out
The beauty hints she read.
—Judge.

She Was a Hustler.

"Bubbles has bought two new machines—one for himself and one for his wife."

"That's very generous."

"Well, you see, her machine keeps his going."

"How's that?"

"Why, he bought her a sewing machine."—St. Louis Republic.

Aristocratic.

"Son, is your father at home?"

"No. Pa is on trial for combining in restraint of trade."

"Well, is your mother in the house?"

"Nope. Ma is having a hearing today for kleptomania."

"H'm. Evidently you belong to one of the best families."—Chicago Record-Herald.

The Chances Against You

"Oh, I will be all right in a few days," says the person who is tired out and has to drag himself to his daily work because the nervous system is exhausted.

Unfortunately nervous diseases do not right themselves, and the wasting process which has brought you to this condition keeps right on until there is a complete breakdown.

You must get the building-up process started, so that, instead of being a little weaker at the end of each day, you will find the balance on the other side and know that you are gradually getting strong and well.

Dr. Chase's Nerve Food will help you wonderfully if you only give it a reasonable chance. As the system is built up you will find such symptoms as headache, sleeplessness and indigestion leaving you. You will find the old energy coming back. The mind and body will better serve you and you will see a new pleasure in life.

PETERBOROUGH FRIDAY APRIL 12 1912

HOW DR. BEATTIE NESBITT WAS APPREHENDED IN CHICAGO

Fugitive Had Been Working in a Chemical Factory and Was on His Way to Supper When Arrested.

HAD GROWN A BEARD

Special to The Examiner.

CHICAGO, ILL., APRIL 12.—Your representative has been unable to locate the temporary prison of Dr. Beattie Nesbitt, the former member of the Ontario Legislature, who was arrested last night. The police are holding him very tight, fearing habeas corpus proceedings that might result in his release.

The arrest of Nesbitt was quite spectacular. He has been working in a chemical laboratory and was on his way to an obscure south side restaurant for supper last night, when Detective Wallace of Toronto, with two local sleuths, drew along side him in an automobile and made the arrest. He protested vigorously he was not the man, even when he saw Wallace, who knew him like a brother.

Nesbitt, formerly clean shaven, has grown a beard which makes him look like a Jewish rabbi. It is expected the prisoner will appear before Commissioner Mark Foote this afternoon to show the reason why he should not be extradited to Canada on a forgery charge. So far no Canadian lawyers have been seen around here.

It is thought that one of the party of Toronto teachers here this week, saw Nesbitt and passed the tip which led to his arrest.

CHICAGO, ILL., APRIL 12.—Dr Beattie Nesbitt was given a preliminary hearing before the United States Commissioner Foote this afternoon, and was held on a fugitive warrant to await extradition. It is planned to rush him away to Toronto as soon as possible. Horace Nugent, the British Consul, here, is preparing extradition papers on a forgery charge.

CHICAGO, April 12.—The detectives who arrested Nesbitt declared to-day that while preparing to go to jail, the prisoner went into the lavatory and sought to destroy some papers. These were rescued by the officers and found to be documents bearing on the alleged bank wrecking. Nesbitt was permitted to engage an attorney at noon and an effort may be made to secure his release by habeas corpus in the federal court.

WALTER THOROGOOD, the young Toronto man who surrendered to the police, admitting having wielded the billiard cue which caused the death of Joseph Solina, on Good Friday night. Thorgood claims he acted in self defence.

Disturbances In South America

Special to The Examiner.

SAN MIGUEL, CAL., APRIL 12.—Steamers from the north shores of Central America, some distance north of the Panama Canal, report serious earth disturbances there recently, followed by terrible fires and smoke from the mountain districts. They fear that thousands of the natives have lost their lives in earthquakes and typhoons.

Conviction Quashed

Special to The Examiner:

TORONTO, ONT., APRIL 12.—Judge Morson has quashed the conviction of J. P. Fitzgerald and of the National Sporting Club, on the charge of conducting a prize fight under the criminal code of Canada. Judge Morson says it was not a fight but merely a sparring match, inasmuch as there was no intention on the part of either contestant to fight till either gave in from exhaustion, and injuries. This means an important victory for sporting Canada.

COMMENT ON HOME RULE BILL

Special to The Examiner.

LONDON, ENG., APRIL 12.—The Unionist papers this morning criticize Asquith's Home Rule measure as fantastical and unworkable, but make little comment on it as a revolutionary measure, such as is alleged by the Ulster Unionists. The Times says the bill will disappoint the hopes of the Nationalists and will not allay the fears or diminish the hostility of the Unionists. The Liberal and Nationalist papers, however, appear to think the measure quite satisfactory.

LOOK OUT! LOOK OUT!

For the Programme of the St. George's Choral Concert.

Two thousand will be given away to-morrow Saturday. They will contain the complete words of 14 well known songs to be sung at the concert on Tuesday next.

BE SURE AND GET ONE

SNOW IS FOURTEEN FEET DEEP IN SMITH

Residents Had to Tunnel the Snow From the Road in One Bad Stretch

IS GRADUALLY GOING

Residents of Smith, about two miles from the city, on the first road west of the Communication Road, have solved the snow problem by shovelling it from the highway. In one particular locality the snow was very deep for a distance of 300 yards or more. Farmers had been using a field to circumvent this drift, but recently they feared that with the snow melting rapidly the horses might break through the deep snow in the ditches. For this reason the road was cleared of snow which was thrown up on either side. The result is a cut through two walls of snow about fourteen feet high, and even a load of hay would be lost to view once it had entered the tunnel. The Smith people had to use axes to cut through the surface ice, and some of those who have seen the snow in its present mountainous piles, say that it will be there until the first of June. This is not a serious opinion, but the presence of snow on the level in fields and on the roads to the depth of 7 and ten feet gives no show of immediate disappearance.

RED MILL THEATRE

Coming, coming! Next week, Monday, April 15th, Miss Ogden, one of the country's greatest high soprano singers. The management will no doubt receive a hearty congratulation from the patrons of the Red Mill for fighting to secure this great singing artist. The admission will be the same. 5c. to all.

BOSTON SUPPER

Enjoyable Affair Under the Auspices of Sewing Circle

The Ladies' Sewing Circle of the George street Methodist church held a very successful "Boston" supper last night, which was very largely attended. Chief items on the menu were Boston pork and beans and pumpkin pie, but of course there was a tempting array of other delicacies as well, and those present did ample justice to the good things provided by the ladies. At the conclusion of the supper, Mrs. Cunningham, the secretary of the class, gave a brief resume of the work accomplished during the past years, showing that the members had made garments for one hundred and thirty people and had quilted eight quilts. Messrs. D. W. Dumble and Wm. Yelland made appreciative references to the work that the ladies of the class had been carrying on.

JUDGMENT FOR DEFENDANT.

Brother Pitted Against Brother in a Civil Action—a Unique Case.

At the Lindsay Spring Assizes, Chief Justice Boyd gave judgment yesterday in the case of Peel vs. Peel, in favour of the defendant. This is an action by Charles Peel against his brother, John James Peel, to try to declare the latter incapable of managing his own business.

TWO KILLED IN G.T.R. WRECK AT PORT HOPE

WORK IS BEGUN

Operations on C.G.E. Stores Building Was Begun To-day by Contractor Guy of Oshawa

FOR END OF AUGUST

Work was begun to-day on the new stores building at the Canadian General Electric Works, and will be pushed forward as rapidly as possible for occupation this year. The building will extend along Albert St. on the south east corner of the C. G. E. property. It will be 325 feet by 80 feet, and will be known as the storage building. A C.P.R. siding extends along the south side of the proposed building and the problem of facility in handling goods has already been provided for.

Contract Let.

The contract for this building has been let to Messrs H. Gay and Sons, of Oshawa. Mr. E. G. Patterson stated that it is for the entire work of construction. The building is to be ready by the end of August, and it will be seen that the work will have to be carried out with considerable despatch.

Mr. Patterson declined to mention the contract price.

This morning a squad of men were at work with teams and scoops and the ground thus turned seems to be about the first sod turned in the year's building operations in the city.

PROSECUTE KIPLING?

Joseph Martin Asks If This Action is to be Taken

Examiner Special:

LONDON, ENG., APRIL 12.— Joseph Martin, formerly of British Columbia, now Liberal member of parliament here, will ask the Attorney-General if he intends to prosecute Rudyard Kipling and his publishers for sedition, in connection with the verses called Ulster, in which he says, "England may drive us forth; we shall not fall alone."

A CANTATA

Delightful Programme by the Knox Church Mission Band

A delightful programme was presented last evening at Knox church by the members of the Mission Band. The feature was a cantata, entitled, "The Cross Goes Westward," illustrating in several scenes the progress of the Gospel from Jerusalem, to Rome, Britain, Eastern America and then to the extreme North and West. Upwards of twenty-five children took part and displayed considerable ability under the training of Miss Louise Chiles, who has been in charge of the Band for some time. Solos and instrumental music were rendered by the Misses Penrose, Chiles, Allen, Montgomery, Carr and Stock.

At the conclusion of the successful programme a beautiful bouquet was presented to Miss Chiles by those taking part in the entertainment.

Dr. McCulloch made a very efficient chairman.

THE BEST PROTECTION

It always pays to get the best. This is all important in the fire insurance. You can get cheap insurance but it is not the best. It is usually not even good. What is the use of paying out good money and taking a chance that you will have to stand your own loss? Companies that sell cheap policies do pay losses when they are able, but how frequently they fail just when you want their protection? Demand a policy in the Manitoba Assurance Company and get the best. Davis-Thompson Co., Ltd.

All labourers and wage earners who are interested in forming a Federal Labour Union, should attend the meeting in the Labour Hall, 426 George St., Saturday evening at 8 o'clock, April 13. 2d-87

MARRIAGES.

HUTCHINSON. — On Wednesday, April 10, 1912, at Regina, Sask., Bessie McCoig, beloved wife of Melvin J. Hutchinson, formerly of Toronto and Peterborough.

Florence Barclay's (author of the Rosary) new book "Through The Postern Gate" for sale at Trebilcock Bros.

TWO KILLED IN G.T.R. WRECK AT PORT HOPE

Rear-end Collision in the Fog in Port Hope Yard—Two Freight Trains in a Mighty Tangle as a Result—Engines Reduced to Scrap

TRAFFIC BLOCKED

Special Wire to The Examiner.

Killed—E. J. Reid, Toronto, Engineer, and Fireman Shaw, of Toronto.

Injured—Two Trainmen.

Where—In rear end collision, Port Hope.

When—4.30 this morning. The first train had stopped for orders when the second crashed into the rear.

PORT HOPE, April 12. — In a dense fog about half past four this morning a heavy double header eastbound freight crashed into the rear end of another east-bound freight at the Grand Trunk station here. As a result Fireman Shaw of Toronto, was instantly killed, and Conductor Ernest J. Reid, of Toronto, received serious injuries, including compound fracture of left thigh ,necessitating amputation, from which he afterwards died. Two others were slightly injured.

The first freight under Conductor Rigby, had stopped at the station for orders and the second freight under Conductor Joe English crashed into the rear of the former. Both engines and five cars of the second freight were demolished and the caboose of the first destroyed. Traffic on the main line blocked for some hours.

PETERBOROUGH MAN THERE

Mr. W. H. White of Smith township, visited the wreck at an early hour this morning and came to Peterborough on the morning train, which did not arrive in the city until after noon. To the Examiner he stated that it was the worst wreck he had ever seen.

WRECK COMPLETE

Of the second train, he said, there were only three cars that seemed to be undamaged. Where the collision occurred they stacked up in a huge pile and the cars behind crushed into one another in all kinds of forms.

Of the engines, he said there seemed to be scarcely a square foot of boiler plate or of iron left. The axles of the wheels were bent back as if they had been of fuse wire. There was a huge mass of splinters, twisted iron and general debris where the impact had taken place and for rods around there were pieces of iron and timber that had been thrown loose from the wreck. The cars had piled over the engines and jumbled into and over one another to be reduced to an unrecognizable mass. The two engines were crumpled up as if they had been of tin. Mr. White said he heard the crash at the house at which he was visiting.

FREE.—High grade Fountain Pen FREE, at Warne's Drug Store. Saturday last day. 1d-87

HELD A SMOKER.

No. 4 Company, 57th Regiment, Were Entertained by Col.-Sergt. Waterman.

Last evening No. 4 Company, 57th Regiment, Peterborough Rangers, assembled at the armouries for rifle practice, after which they adjourned to the reception room, where they held a smoker, given by Colour Sergeant Waterman. The evening was spent in games, songs and dancing. Privates Bourgoine and McNeily contributed to the programme and Sergeants Metheral and Skuten gave several selections on the piano. They also figured in a whistling duet. The company broke up at 10.30, with the rendition of God Save the King.

OUR STRONGEST MUSCLES.

The strongest muscle in the human body is the glutens maximus. Hardly a movement of the lower extremities can be made without bringing it into play, but its chief duty is to balance the pelvis on the head of the thigh bone. It assists in carrying the leg forward and outward in walking, and without its aid any movement of the body from the hips would be impossible.

As it is the strongest, so is it also the largest muscle we possess. In the full grown man it can exert a force of 110 pounds to the square inch of its section in the thickest part.

Another strong muscle, which is situated in the calf of the leg, is capable of sustaining seven times the weight of the body. The great tendon which is inserted in the heel bone and which is called tendon achilles, is also of singular strength. When removed from the body it has sustained a weight of 200 pounds, yet sometimes by the sudden action of the muscles of the calf to which it belongs it has been snapped across.—Brooklyn Citizen.

FREE—High grade Fountain Pen FREE, at Warne's Drug Store. Saturday last day. 1d-87

THEY OBJECT

Monaghan Residents Stirred by Proposal to Purchase Dumping Grounds

PREPARING A PETITION

The city's proposal to purchase grounds for dumping purposes in North Monaghan to the south west of the city, has aroused the residents of that section, who are circulating a petition requesting that no such step be taken in view of the number of residences in the neighborhood and of the building lots that may be utilised in the near future. When sufficiently signed this request will be duly presented to the city council.

Amendment Was Killed

Special to The Examiner.

TORONTO, April 12.—In the legislature this morning Leader Rowell introduced an amendment to the government bill making the issuing of club licenses in local option districts illegal. This was killed by the government amendment congratulating the government on the way club licenses had been controlled, and this was carried on division.

TAKEN TO KINGSTON THIS MORNING

Samuel Newall Will Enter Upon His Seven Year Prison Term To-day

At 9.15 this morning a cab rattled up to the G.T.R. station and a tall gaunt looking man alighted. Those who have followed the proceedings of the High Court the past week would have no difficulty recognising the individual as none other than Samuel Newall. Theprisoner was in charge of Turnkey Ray and was on his way to Kingston, where he will commence his prison term of seven years.

HAND INJURED

Wesley Seabrooke, an employee of the German Card Company, was the victim of a painful accident yesterday, while at work in that Company's factory. In some manner his hand was caught and two fingers were painfully bruised and torn so much so that a number of stitches had to be put in by Dr. Brown, who dressed his injuries. Considerable improvement is shown in the condition of the patient to-day.

INDUCTION AT ST. PAUL'S.

Members of Peterborough Presbytery Were Present at the Event.

The Rev. T. D. McCullough, formerly of Harriston, Ont., was inducted into the pastorate of St. Paul's Presbyterian church, Port Hope, by the members of the Presbytery of Peterborough, last night. The attendance was large and the service interesting. Rev. Mr. Pogue of this city, acting Moderator of the Session, presided at the meeting and several interesting addresses were given by members of the Presbytery.

SCALLOPED EGGS.

Butter a small, deep dish well and spread the bottom with breadcrumbs moistened with milk to which a little melted butter has been added. Put upon this a thin layer of finely chopped ham, set in the oven till very hot. Beat six eggs thoroughly, season with pepper and salt, stir in two tablespoonfuls of rich milk or thin cream with a spoonful of melted butter, and pour over the ham. Put the dish back into the oven uncovered and bake till the eggs are set, which will be in about five minutes.

Rev. J. R. Webb returned yesterday from a trip to Montreal.

Miss Ethel Winslow has resigned her position with the International Harvester Company on account of ill-health and leaves on Saturday morning for Toronto.

St. George's Choral Society.—This Society will meet to-night for rehearsal at 8 o'clock sharp in St Andrew's Hall. A full attendance of the members is requested.

Our citizens will sympathize with Mr. and Mrs. C. A. Ghent in the loss of their little son, Donald Howell, on Tuesday morning. The funeral took place on Thursday afternoon to the Maple Grove cemetery. — Havelock Standard.

The Canadian Parliament has voted to expend $2,000,000 in improved terminals at Halifax.

LOCAL LABOUR CONDITIONS SHOW MARKED IMPROVEMENT

Ranks of Unemployed Show Signs of Depletion

THE CHARITY DEPT.

The coming of spring has greatly relieved the condition of the unemployed, which for the past four months has been a serious problem. Spring work in all lines is opening up rapidly, and work is being found for a large number of men, many of whom have been idle the greater part of the winter.

The change in the situation is noted particularly by the Relief Department of the city, which is feeling the cessation of heavy demands for help. Labourers who had to resort to charity, are now able to help themselves. Work in connection with civic improvements will provide employment for a large number of men this summer. A general activity is also manifesting itself in the Board of Works' department of the city and a number of men have already found profitable employment in the work of readjusting the conditions, which the unusually heavy winter has created.

Conditions are Normal.

City Relief Officer Miller reports that there is a big falling off in the number of calls for help, and conditions pertaining to this particular department have assumed a normal state. The relief in the situation is welcomed by those whose duty it has been to cope with the work of alleviating the wants of the destitute. The past winter has been an unusually severe one, a condition which has resulted in a very heavy drain upon the financial resources of the Charity Department. There are, however, a number of cases that will have to be carried along for some time yet, and also a few cases that will have to receive help from the department throughout the greater part of the year.

In a great many of the cases which Relief Officer Miller was called upon to deal with, medical attendance was also required. A number of cases arose from the fact that the bread winner of the family was stricken with illness, and it was not until the family was on the verge of destitution that an appeal would be made to the Charity Department. Others were not so reluctant about making their wants known. They applied for assistance on the slightest pretence. Help was withheld in all cases until an investigation was made and the true facts of the case ascertained. Aid was then given upon the merits of the case.

DR. AUDLEY SANDERS, a Chicago physician, who, on finding a five day old baby patient on the point of death, promptly submitted to having a quart of his own blood pumped into its veins, and saved its life.

REPUDIATES CLAIM OF CONSTRUCTION CO.

Bishop Construction Co's Demand From City Grew From Several Thousand Dollars to Over $23,000

RE WATERWORKS DAM

The suit for $23,384.09 brought by the Bishop Construction Company against the city of Peterborough, is entirely repudiated by the Water Commissioners and their counsel. It is understood that the claim is for extras in connection with the building of the Water Works dam in 1909. The company did not find the bottom of the nature they had expected and additional work had to be done before the required bottom was found. It had been expressly stipulated and those tendering should make examination of the ground before putting in a price. The company's first demand amounted to two or three thousand dollars. The next was in the neighbourhood of $9,000 and now it is more than doubled again. On the advice of the counsel of the Water Commissioners, a prominent legal firm in Toronto, the first claims were unheeded and the situation has not changed since that time. A meeting of the Water Commissioners will probably be held shortly and the matter will be further considered.

Engineers To Go On Strike

Special to The Examiner.

NEW YORK, N.Y., APRIL 12.—By the vote of twenty-three thousand to two thousand engineers on the eastern railroads, have authorised their leaders to call a strike.

TELEPHONE RECEIVER HAS SANITARY EAR PADS

Sanitary attachments for the transmitters of telephones are numerous in this country, but France has gone us one better in the matter of a sanitary pad for the receiving end of the telephone. The ordinary hard-rubber ear piece of the monophone type of instrument, which is much used in France, is removed and its place taken by a round pad formed of 200 leaves of sterilized paper. Every time the telephone is used one of the leaves is torn off. The purpose of the pad is, of course, to protect the ear from being soiled.

HONEYMOON ON A FIRE TRUCK.

Residents of Kansas City, Kas., ran to the doors of their homes on a recent evening under the impression that a big fire was in progress when the motor fire truck from No. 8 station whizzed by with the bell ringing and the siren whistle shrieking. Those who took the trouble to call the city hall learned, however, that the firemen of the city had chosen a "run" as the means to congratulate Harry B. Powers, captain of No. 8 station, and Miss Fannye B. Johnston of Kansas City, Kan., on their marriage, which took place at the home of the bride's parents at nine o'clock that night. Captain Powers and his bride were taken over all the city in the fire truck and then taken to their new home, 1711 Garfield Avenue.

Captain Powers has been a member of the fire department ten years. Mrs. Powers was a member of the class graduated from the Kansas City, Kas., High School in 1909.

WEDDING BELLS

MACLAURIN—BURNHAM.

The marriage of Miss Alice Lorraine Burnham, youngest daughter of Mr. and Mrs. John Warren Burnham, Port Perry, to Dr. Norman Tempest Maclaurin of Toronto, took place in the Church of the Ascension, Port Perry. The ceremony was conducted by the Rev. St. George Tyner, assisted by Rev. John Creighton, of Lindsay. The church was prettily decorated with palms and Easter lilies. As the bride entered the church the choir sang "The Voice That Breathed O'er Eden." She was given away by her father, and wore a handsome gown of ivory duchesse satin richly trimmed with Chantilly lace, and pearls, with court train and tulle veil fastened with a coronet of orange blossoms and carrying a shower bouquet of white roses and lily of the valley. The maid of honour, Miss Aileen Burnham, sister of the bride, wore pink satin, with black picture hat, and carried pink roses. The bridesmaids were Miss Georgina Bog and Miss Clare Maclaurin of Toronto, the former in yellow satin, the latter in blue satin, both wearing black picture hats and carrying pink roses. Mr. Douglas Coler of Toronto, was best man, and the ushers were Dr. Oliver Mabee and Dr. F. W. Rolph of Toronto, Mr. Neil Polson of Kingston, and Mr. A. M. Burnham of Port Perry. During the signing of the register Miss Mina Gale of Toronto, sang "O Perfect Love." A reception was held at Midhurst, the home of the bride's parents, the other of the bride wearing a handsome gown of black satin with trimmings of pink and black hat. Dr. and Mrs. Maclaurin left on a trip to New York and on their return will reside in Toronto. The bride travelled in a tailormade suit of navy blue, ermine furs, and a cerise flower hat. A number of guests were present from Toronto, Brantford, Kingston and Lindsay.

Peterborough Presents Possibilities Unparalleled."

FRIDAY, APRIL 12, 1912

TWO OF A KIND.

Ex-President Roosevelt, the man with the club, is a good deal like our own dear man with the club, Sir James Whitney. Both can be autocrats, but both can be pettifoggers and word splitters. When Roosevelt declared that he would not accept a third nomination, he says he meant that he would not accept the third "consecutive" nomination. When Sir James said there was "no such thing as bilingual schools," he say he says he meant that there were no bilingual schools—in a legal sense. Our ideals of the disinganuous code of humour that characterizes a British statesman does not jump with such miserable quibbling. And both excel in lofty employment of classic English. Sir James shines in this manner by way of "pish! tush! rot! rubbish!" and Teddy "shies his hat into the ring" and "slugs them over the ropes."

SIR WILFRID AS A HATER.

Sir Wilfrid Laurier, although defeated as Canadian premier, still holds the position of premier Canadian. His goings and comings are noted, and his utterances deferred to. Even the inner movements of his brain are revealed by journalistic mind readers. The Mail and Empire, by its favourite process of reasoning—assumption—has discovered that Sir Wilfrid Laurier hates Ontario, and now the Toronto World adopts the equivalent of the same conclusion, and asserts that Sir Wilfrid hates Sir James Whitney. The reason given by the World is amusing—Sir Wilfrid hates Sir James because of the yearning devotion to the public, shown by Sir James Whitney; only one example need be given of Sir James' devotion to the people—he persists in saving the people from doing their own thinking, and relieves them from the embarassement of having a mind of their own. The people want the privilege of deciding how they will regulate the imposition of the taxes they pay; But Sir James says, no. By the way, and to change the subject, how has Sir Wilfrid shown his hatred of Ontario or of Sir James Whitney?

CHILDREN AND GOOD ROADS.

It is pleasing to learn from the officers of the Canadian Highway Association that the children throughout Canada are taking a keen interest in the essay competition on "What Good Roads Mean to Canada," and that from all parts of the Dominion papers are being forwarded to the headquarters of the association at New Westminster, B.C.,

As an encouragement to the children to busy themselves in the preparation of these essays, the president of the Canadian Highway Association, Mr. W. J. Kerr, is offering valuable gold, silver and silver gilt medals, and also a souvenir pin to all competitors whose paper attains a certain standard of merit.

While it should not be necessary for this incentive to interest the young people of Canada in Good Roads, and their relation to the well-being of the country, the fact remains that in this, as in other things, some inducement is often necessary in order to awaken the younger generation to the economic needs of this country.

Good roads, as everyone will admit, are badly needed in Canada at the present time, but it is only when the people at large are ready to demand this—not merely to request it, that we can expect the authorities, whether local, municipal, provincial or federal, to act on this matter on anything like a large scale. The aim and purpose of the Canadian Highway Association, as is well known, is to establish a transcontinental road that will reach from Halifax, N.S., to Alberni, B.C., and while it is not the intention of this organization to do more than educate the public and act in an unofficial advisory capacity, it is yet doing much good work in this cause and will be largely instrumental in getting this highway, four thousand miles long, completed within five years.

We in this district must do our share of this work, and it behooves the good roads advocates of Peterborough to bestir themselves and lend all the assistance they can to the officers of the Canadian Highway Association in the good work they are doing for Canada.—Com.

COURAGE IN STATESMANSHIP.

Le Devoir, the French Canadian Nationalist organ, has an article on "The Political Courage of Cartier," This is worth reproducing for its historic interest, in connection with a Canadian statesman, whom it is proposed to honour with a monument; and of political interest, as providing a contrast with the courage and consistancy of some present-day statesmen. Le Devoir says of the courage of Cartier:

"In 1858 there arose the question of a new military organization for the country. This reform was urgently needed, but it was unpopular in the Province of Quebec. Should it be adopted, it was all over with the Government of which Cartier formed a part. His friends pressed him not to endanger his position as a minister. What was he to do? Should he recoil before the prospect of losing power? No. In the full knowledge that he was right, it was his unalterable determination to risk everything to ensure the success of this reform. 'Never never shall I draw back,' he declared. 'I will fall if needs be, but I will fall like a man who is determined to do his duty.' We know whither he was led by this obstinate courage. He fell."

History repeats itself. Half a century ago, to a year, the prototypes of the Nationalists of to-day tried to drive a French Canadian statesman from the path of duty, but he held his own—"I will fall if needs be, but I will fall like a man." Sir George Etienne Cartier persevered in the path he had marked out as the one for his country to follow. It was a question then of our "military organization" as we have it at present, which provided for Canadian self-defence on land; and now the Nationalists are holding up both hands to honour the men whom they execrated fifty years ago. Sir Wilfrid Laurier practically raised—and solved—the question of a naval organization, which met the same opposition of the National element, as did Cartier's military proposal; and was met by the same threats that met Cartier; and, like Cartier, Sir Wilfrid elected to stand or fall by his naval plicy. He would not give way—he felt he was right. On other grounds he was removed from power, and to Rt. Hon. Mr. Borden fell the duty of resisting the demands of the present-day Nationalists, that Canada should shirk her duty in regard to naval defence. Did Mr. Borden answer the virtual traitors, as did Sir George Cartier and Sir Wilfrid Laurier—"they might perish politically, but they would persevere—they would be true to the British ideal; they would do their duty." On the contrary, Mr. Borden, to save his political skin, truckled to the Nationalists. He not only yielded to their demands, but put them in places of power that permitted them to give effect to their own demands to abolish a naval organization approved by the British Admiralty, and an expression of the sentiment of every loyal Canadian that it was our duty to share the defence of the Empire. After fifty years the Nationalists of to-day, in favouring a monument to Cartier, are helping vindicate his policy of "military organization" and honour his steadfast adhesion to duty. When other years shall have passed, will there be proposed a monument to Sir Robert Borden, who, at the bidding of a disloyal element, aided by the super-loyal element, weakly surrendered, struck his flag of naval organization, and abandoned a policy that Canada, a self-respecting member of the Empire, deliberately adopted? Or will Sir Wilfrid Laurier, another strong French Canadian, who stuck to his guns, remained faithful to loyalty and patriotic principle, be honoured then as we are honouring Sir George Cartier now?

EDITORIAL NOTES.

Mr. Bonar Law, the Unionist leader, cannot [illegible] for anything better than Home Rule—tariff reform. He will make the Irish prosperous and happy permitting them to terms. Investigate at once

A careful perusal of the cabled summary of the Home Rule bill for Ireland reveals, to employ the Irish way, something that is not there—there's no provision for Ulsterites waking up in the morning with their throats cut from ear to ear.

The commitments to Peterborough jail, by five year periods, have been—1885, twnty-seven; 1892, twenty-two; 1897, eleven; 1902, nine; 1907, thirty-three; 1908, twenty-two; 1909, twenty-seven; 1910, twenty-three; 1911, forty.

There are 835 organised municipalities in Ontario, and of these 290 are under local option, comprising 215 townships, 48 villages, 24 towns and 1 city (in part.) In addition to these, there are 184 municipalities in which no licenses are issued, leaving, under license, 383 out of 835 municipalities in the province.

Can an anti-treating law be enforced? Not under the present administration of enforcement of the license law. In any event any law that aims to deal with the personal and private habits of individuals in an individual way—in opposition to popular sentiment, will be hard to put into force. In New York there is a law forbidding the use for sleeping of rooms without an outside window. Yet, in the city of New York there are forty-seven thousand windowless rooms, occupied every night for sleeping purposes.

There will be a gathering of Liberal leaders in Montreal, with a banquet at the Windsor Hotel, on May 29. Sir Wilfrid Laurier, the four Liberal premiers of Quebec, Nova Scotia, Saskatchewan and Alberta, together with Liberal leaders Rowell, in Ontario, and the opposition leaders in the other provinces have been invited, and it looks ow as if they would all be present. Sir Wilfrid, it is expected, will make an important pronouncement to Liberals. The banquet will be held under the auspices of the Reform Club of Montreal.

SUMMARY OF CHIEF FEATURES OF THE IRISH HOME RULE BILL

The Bill That the Irish Nationalists Approve Because it is Not Separatist and Unionists Denounce as "a Direct Insult to Ulster."

The following are the provisions of the Home Rule Bill, officially known as "The Government of Ireland Bill," introduced in the British House of Commons yesterday by Premier Asquith:—

(1.) An Irish Parliament, consisting of a nominative Senate of 40 members and a House of Representatives of 164 members, of which Ulster is to have 50 and the Universities 2.

(2) The Imperial Executive is to control the nominations to the Senate, which are to be for a fixed term, and, as the members are to retire by rotation, the vacancies will be filled by the Irish Executive.

3) In the case of disagreement the two Houses are to sit in joint session.

(4) The Lord-Lieutenant is to be head of the Executive, and will hold office for a fixed term.

(5) The Irish representation at Westminster is to be 42 members, one for every 100,000 of population.

(6) Matters to be excluded from the control of the Irish Parliament include the Crown, the army, and the navy, Imperial affairs, the Irish land purchase, old-age pensions and national insurance acts, the Irish Constabulary, the Postoffice Savings Bank and public loans in addition to those excluded by the Home Rule Bill of 1893, which left the Customs under the control of the Imperial Government.

(7) The Irish Constabulary is to be automatically transferred to the Irish Government after six years.

(8) The old-age pensions and insurance acts are to be transferred to the Irish Government on giving one year's notice to the Imperial Government.

(9) The Irish Parliament is debarred from altering the Home Rule Bill or the power to appeal to the Privy Council.

(10.) Religious equality is to be protected in Ireland, and the Irish Parliament cannot make any laws, directly or indirectly, to establish or to endow any religion or to prohibit the free exercise thereof, or to give preference or privilege to any religion or to make any religious ceremony a condition of validity of any marriage.

(11) The Lord-Lieutenant is to have power to veto or suspend any bill on the instruction of the Imperial Executive.

(12) Any question on the interpretation of the Home Rule Bill is to be settled by appeal to the Judicial Committee of the Privy Council.

(13) The authority of the Irish Executive is to be co-extensive with that of the Irish Parliament. The 164 representatives are to be elected by the existing constituencies, but none of these is to have less than 27,000 population.

(14) The collection of all taxes is to remain in the Imperial service, and tey will be paid into the Imperial Exchequer, which is to pay over to the Irish Executive an amount equivalent to the expenditure on Irish services at the time of the passing of the act.

(15) An additional sum of $2,500,000 is to be paid to Ireland the first year, and this will diminish by $250,000 annually until it is reduced to $1,000,000.

(16.) The postal services are to be handed over to Ireland.

(17) The Irish Parliament is to have power to reduce or to discontinue the Imperial taxes, excepting the income tax and the stamp and estate duties.

(18) The Irish Parliament is to have power to alter the Excise duties, but, except in the case of beer and spirits, it is debarred from adding to the Customs duties anything which will give a greater increase than 10 per cent.

HOW SMALL SAVINGS CAN PROVIDE OLD-AGE COMFORT

There is an old saying that any fool can make money, but that it takes a wise man to keep it. The opinion of Rothschild, the eminent banker, however, was that it required a great deal of boldness and a great deal of caution to make a great fortune, and that when you got it it required ten times greater wit to keep it. The last idea was one which he frequently expressed, and is one with the truth of which many others have been impressed. There is no doubt we might with profit follow the advice which the old Scotchman gave to his son, that it was not what he might make that would make him rich, but what he might save; but the majority of us "remain spendthrifts still," and, so long as we do the poor house will not want for occupants.

Riches, like many other things, go by comparison, and some people would consider themselves rich in purse if they were sure they would have an income of $200 or $300 a year until the end, while others with as many thousands per annum would regard themselves as poor. A man who was once in affluent circumstances, but who now, in his 75th year, is in absolute penury, had for a long time been calling every Saturday on a friend for the loan of a dollar to help him out. On his last call the friend, who had been investigating the Government Annuities system, and who has since become a purchaser, said to him: "I suppose, Blank, if you had $200 a year you would consider yourself a rich man?" To which the old gentleman replied: "If I had $200 a year I would think myself the richest man in town." When the friend explained to the old gentleman that at his age he could, had he the sum of $1,196, purchase a Government Annuity of $200, he realised how small was the amount which stood between him and comparative wealth, and remarked, as he spanned the years since his youth, "the dollars I have wastefully spent would be warm friends to me now." To show our young people how rapidly the purchasing power of money increases under the Government Annuities system where payments are begun at an early age, one might point out that if at the age of 25 this man could have paid into a scheme like the Government Annuities scheme, but one payment of $50 (fifty dollars) that payment would have given him from and after 75 an annuity for life, payable quarterly of $206.25.

There are thousands of men in Canada to-day, who think as this old gentleman does, and fifty years hence it is to be hoped, that there will be hundreds of thousands of men, and of women, too, who will rejoice at the fact that at the age of 25 or younger they discovered the true road to wealth, and had paid into the Government Annuities system the sum of $50, or such other amounts as they were from time to time able to spare. It may be of further interest to our young people to know that according to mortality experience tables, of 109,230 male children of five years of age 28,820 will live to be 75, or 1,500 more than 25 per cent; and that out of the same number of female children of the same age, 36,042, or nearly one-third of the number, will still be living at 75. Should a man therefore not ask himself, whither am I drifting—to an old age of comfort and happiness, or to the poor house? He should inquire at once for information in regard to this splendid system of saving, which may be obtained at the Post Office, or on application to the Superintendent of Annuities, Ottawa, to whom his letter may be sent free of charge.

MR. LAUGHTON'S STUMP SPEECH

(London Advertiser)

Mr. John H. Laughton of Parkhill, president of the Ontario Educational Association, seems to regard that distinguished post as a party appointment. His presidential address was a stump speech, which might have been written by Dr. Pyne. Against the consensus of teachers' opinion, he advised the Government "to continue getting rid of model schools." He repeated Sir James Whitney's assertion that there were no bilingual schools—and Dr. Merchant among his auditors! On this question his remarks were needlessly offensive to French-Canadians. "Why is there no English-German school? Because the German doesn't break the law!" He implied in this that the French were law-breakers in having bilingual schools, a plea that even the Government dares not enter in its own defence. Having exhibited himself as a servile apologist for a blundering education department, Mr. Laughton took a fling at the churches, advising them to spend in home mission work the money they are sending to China, concluding with this admonition:

"We are troubled in the schools with the home and the church. The home doesn't want to do anything. They want us to teach morals and sex hygiene, and a lot of other things, and I say we can't do it. Neither church nor the home can foist it on the schools."

Altogether, Mr. Laughton's address was in bad taste, and must have been mortifying to everybody but Dr. Pyne and himself. The teachers may safely disclaim responsibility, as Mr. Laughton is the appointee of the trustees' section of the association. The majority of the trustees were probably not aware of Mr. Laughton's record of high political activity in North Middlesex, or, at any rate, they had no notion that he would carry his propensity into a sphere where partisanship is supposed to be abjured.

Decrease Number Of Schools And Improve Their Quality

New Methods Must be Adopted to Remedy Present Defects --Suggestions From Districts Where Plan Has Been Put Into Practice--Trustees Should Have Conventions---Interesting Addresses on Educational Matters.

TORONTO, April 12.—Consolidation of the little township schools into one big, strong, well taught, city-like school, that is the solution of Ontario's rural education problem according to a paper by Dr. J. H. Putman, Public School Inspector of Ottawa, read before the Ontario Educational Association.

"I read not long since an article in which the writer went so far as to say that the little red schoolhouses in the country places were the jackscrews which maintained the nation's standard of intellectual and moral life. I half suspect this was an exaggeration or at best only a half truth. I believe that the good school is an effect as much as a cause. We had no common schools in Upper Canada a century ago, but we had a virile, intelligent, robust, and patriotic pioneer citizenship made up of men and women able to win a living from the soil and to defend their homes. Good schools do not of themselves make a people, but only a great people can have good schools. German schools have developed and improved only as the German people as a whole have advanced.

Rural Schools Backward.

"Are the rural schools in Ontario today a fair index of the intelligence and importance of Ontario's rural population? In my opinion most emphatically no. Rural Ontario is passing through a crisis which began nearly twenty years ago and shows no immediate signs of abatement. I made recently a comparison of the schools in ten townships in the older parts of Ontario using the years 1891 and 1911, a period of 20 years, in ten typical Ontario townships. There were registered in the public schools in these ten townships twenty years ago 3,784 pupils as compared with 2,951 at the present time—a decrease of 23 per cent. During the same period the population of Canada has increased over 60 per cent., or from 4,833,000 in 1891 to 7,831,000 in 1911."

Good People Leave Country.

This decrease, Mr. Putman claimed, was largely due to the superior class of Ontario's rural population moving to the West, and to the large cities, while the immigration of an inferior class had taken their place.

Twenty-five years ago Ontario could procure plenty of capable young women as teachers much below their actual worth, because there was little other outlet for their energies, and much below the amount paid for good teaching service anywhere else in North America. Teachers were then so plentiful every neighbourhood could afford one. The cost per pupil in the townships mentioned was only $11.82 per annum in 1891. In 1911 the cost had increased to $21.70—84 per cent.

"The Ontario farmer can no more expect to secure a teacher at the salary paid in 1891 than I can expect ever again to buy butter for fifteen cents a pound, or dressed turkey for 10 cents. He has less reason to expect cheap teachers in the near future than I have to expect cheap fod.

"Every hour of the day," continued Mr. Putman, "every day in the year, some farm-bred youth or maiden who has received a training for leadership in one or other of the educational institutions in Ontario, packs a trunk, bids good-bye to home and friends, and takes his or her place in a school, a shop, an office, a warehouse, a factory, a hospital, or a church, perhaps in an Ontario town or city, perhaps thousands of miles from home in the Canadian West. Whatever the destination may be one thing is almost certain, the services and influence of the young man or woman are lost to the home neighbourhood."

Our rural sections are thus continuously drained. The result is that young children now in the rural districts are denied an education as even an elementary education is now expensive. Young men and women who can teach are not obliged to, a score more inviting occupations than teaching are now open.

How It Works in North Bay.

Mr. J. B. McDougall, of the Normal Training School, North Bay, told of his successful experiment with the consolidation of rural schools.

"The north country is receptive of new ideas," said Mr. McDougall. "They let me try. The result has been a perfect success. I haven't a criticism to over. We keep these rigs on the road to bring the children to school, and we pay $1.50 per day to the drivers. They go from 6 to 6½ miles from the school stables, calling for the children of the township. The School Board owns one of the teams and hires it out when not engaged in conveying scholars to or from school, thus paying for its keep. There were 33 children in the township the first year, and the attendance was 33 children every single school day. There was no sickness, there were no cases of absence. The roads had to be snow plowed in winter or rolled, but nevertheless consolidation paid, despite of it being a pioneer country.

"We had no traditional ideas up there to hamper us," explained Mr. McDougall. "If you just get the idea of consolidation in old Ontario it will spread like wildfire."

Trouble with Roads.

"Have you trouble with the roads like we have in old Ontario?" asked an inspector. "Do the roads get blocked?"

"Trouble with the roads? Why, we have snow six feet deep. But we roll it, and it freezes hard enough to drive a wagon on it. We are never stumped."

"We have too many rural schools already established in old Ontario townships," objected another.

"That's just it," returned Mr. McDougall. "You have too many. Consequently you can't get enough qualified teachers. We have a good up-to-date building, a principal, first certificated teachers, and first-class equipment in that school now. We started with an idea that I got when I used to see half a dozen rigs call for certain children morning and evening. I just systematized that idea, and the rest developed of itself."

School, Home, Community.

To attain the ideal community which gives the young human being opportunity to come to maturity and the full development of his powers, bodily, mental, and moral, requires the co-operation of school, home, and community. Miss E. J. Guest, M.A., of Belleville, before the Kindergarten Department, discussed the "Link between the School and the Community." Teachers formed that link, said Miss Guest.

"The mother is the expert and intelligent centre of this little world, the link binding all together. A thorough understanding should exist between the home and the board of education. There was as yet no such thing as scientific motherhood, despite the advance in scientific education. Co-operation could be achieved by mothers' clubs, as in London, Ontario, and in Belleville. Miss Guest characterized the Women's Institute of Belleville as Ontario's happiest example of the link binding the teacher the school, the home, and the State.

Conventions of Trustees.

The trustees had a warm discussion upon the idea of compelling teachers to attend the teachers' conventions.

"If they won't go voluntarily they won't go for compulsion," said one trustee.

"I think it would pay the school section to pay the expenses of its teacher to go to the convention, or if the teacher wouldn't go, then pay some one else's expenses who would."

"There is a general idea that attendance is compulsory now," said another trustee. "The inspector punches their certificate for every day of attendance and for every session."

"We are always talking about educating public opinion; why don't we educate the trustees and educate the teachers?" was another query.

Compulsory attendance was most generally suported.

County associations of trustees were advocated similar to the teachers' associations with a Government grant of equal amount.

"The Province is rich," declared the Chairman.

"They are spending loads of money on good roads for automobiles," cried another.

The resolution was then put to the meeting:

"That this section strongly urge upon the Government the creation in every county of a trustees' association receiving an annual grant equal to that given the Teachers' Association, delegates to report annually at the same time."

TOO MUCH STARCH.
A Food Problem.

An Asheville man tells how right food did that which medicines had failed to accomplish:

"For more than 15 years," he says, "I was afflicted with stomach trouble and intestinal indigestion, gas forming in stomach and bowels and giving me great distress. These conditions were undoubtedly due to the starchy food I ate, white bread, potatoes, etc., and didn't digest. I grew worse with time, till, 2 years ago, I had an attack which the doctor diagnosed as appendicitis. When the surgeon operated on me, however, it was found that my trouble was ulcer of the pancreas, instead of appendicitis.

"Since that time I have had several such attacks, suffering greatly. The last attack was about 3 months ago, and I endured untold agonies.

"The doctor then said that I would have to eat less starchy stuff, so I began the use of Grape-Nuts food for I knew it to be predigested, and have continued same with most gratifying results. It has built me up wonderfully. I gained 10 pounds in the first 8 weeks that I used Grape-Nuts; my general health is better than ever before, my brain is clearer and my nerves stronger.

"For breakfast and dinner, each, I take 4 teaspoonfuls of Grape-Nuts with cream, a small slice of dry toast, an egg soft boiled and a cup of Postum; and I make the evening meal on Grape-Nuts and cream alone as this gives me a good night's rest. I am well again." Name given by Canadian Postum Co., Windsor, Ont.

"There's a reason." Read the little book, "The Road to Wellville," in pkgs.

Ever read the above letter? A new one appears from time to time. They are genuine, true and full of human interest.

Mr. Keyes of the Normal School staff will give an illustrated address on "France" under the auspices of the Fraser Mission Band in the Sunday School Hall of St. Pauls' Church, on Friday evening April 12, at eight o'clock. Musical Programme. Silver collection. 2d-86-4295

SMASHED CHINA BECAUSE MONEY WAS REFUSED HER

Mrs. Wright, Scientist, on Stand, Admits Her Error, But Says She Got the Money

EVIDENCE IN COURT

NEW YORK, April 12.—Mrs. Margaret Wright, a Christian Scientist of Bayside, who has been on trial before Judge Humphrey in the Queen's County Court for the last week to determine her competency, informed judge and jury while she was on the witness stand yesterday that her husband, Edgar J. Wright, who brought the action, is now treating her kindly.

"I told my husband that if he did not treat me right while this trial was going on I would tell the jury what he did," said Mrs. Wright. "I find that it works well. Mr. Wright has behaved himself."

Mrs. Wright testified that she considered she was being led by God in all she did.

"Was God leading you when you smashed the china closet in your home because your husband would not give you twenty-five cents?" asked Clarence A. Drew, representing Mr. Wright.

"I was resisting tyranny then," replied Mrs. Wright. "My husband considered that he would make me do as he pleased. I have rights as well as he has, and I was asserting them. I considered that an extraordinary situation and it required extraordinary methods to meet it."

When pressed for an answer as to the leading of Divine Providence, Mrs. Wright finally said that she considered she was in error when she smashed the china closet.

"But I got the twenty-five cents," she replied.

"Then you think it right for you to smash things when you can't have your own way?" said Mr. Drew.

"I was fighting for freedom," replied Mrs. Wright. "Wouldn't you smash things to get your freedom?"

Mr. Drew declined to reply.

Dr. Elmer F. Arnold, of No. 14 East Sixtieth Street, Manhattan, was put on the stand as an expert for the defence. He testified that he had examined Mrs. Wright and found her sane.

"What would you think of your wife if she left your children constantly alone, saying they were in God's care?" asked Mr. Drew of Dr. Arnold.

"That never happened to me, so I cannot say what I would do," replied Dr. Arnold, "but the testimony in this case is that Mrs. Wright did not entirely abandon her children. She left them in care of a maid.

"What would you do if your wife started in to smash the china closet because you would not give her twenty-five cents?" was Mr. Drew's next question.

Dr. Arnold was about to frame an answer when he was stopped by an objection from Hyacinthe Ringrose, who represented Mrs. Wright, and who said that Mrs. Arnold was not on trial.

The jury received the case at the close of court last evening, and today will return a sealed verdict.

NEW WAYS WITH ORANGES.

While oranges are plentiful the following may be found pleasant: For chartreuse of oranges cut five oranges into pieces the shape of the quarters, but only about a quarter inch thick.

Have ready some clear, stiff orange jelly, into which dip each piece of orange and arrange round the bottom of a plain mould, filling up the centre with pistachio nuts, then lining the sides of the mould with the quarters of orange, one row turning to the right, the other to the left alternately, until the mould is full, the pieces of fruit overlapping each other.

Fill in with about three-quarters of a pint of whipped cream flavoured with vanilla bean or any flavouring liked, adding a little isinglass and sugar, dissolved. When quite set turn into a glass dish and if liked a little more cream may be poured round and garnishes here and there with pounded pistachio nuts.

Oranges Filled with Jelly.—Take as many large China oranges as liked, then with the point of a sharp knife cut out from the top of each a round about the size of a shilling; now empty out the pulp, taking care not to break the rinds.

Throw into cold water. Make some jelly of the juice pressed from the pulp and strained quite clear. Colour one-half a bright rose colour with prepared cochineal, leaving the other pale. When the jelly is nearly cold drain and wipe the oranges and fill with alternate stripes of the different coloured jelly, each colour being allowed to get quite cold before the other is poured in.

When they are perfectly cold cut into quarters with a sharp knife and arrange tastefully on a dish with sprigs of myrtle between.

Orange Souffle.—Peel and slice six oranges and put in a glass dish, alternate layers of oranges and sugar and let stand two hours. Make a custard of yolks of two eggs, a pint of milk, and sugar to taste, with a grating of orange peel for flavour, and pour over the oranges when cool enough. Beat the whites of the eggs to a stiff froth, sweeten, and flavour to taste and pour over the top. Serve cold.

THE PHRASE ILLUSTRATED.

Ragged Rogers—Hear about Dusty? He picked up a quarter, got roarin' drunk an' the judge sent him up for ninety days.

Frayed Philip—Geef Dat's what you might call trouble from an unexpected quarter.—Boston Transcript.

FOR YOUR HAIR

Here Are Facts We Want You to Prove at Our Risk.

When the roots of the hair are entirely dead and the pores of the scalp are glazed over, we do not believe that anything can restore hair growth.

But, when the hair roots retain any life, we believe there is nothing that will so surely promote hair growth as will Rexall "93" Hair Tonic. To prove that statement, we promise to promptly return all the money you pay us for Rexall "93" Hair Tonic, should it not please you.

Rexall "93" Hair Tonic destroys the germs which are usually responsible for baldness. It penetrates to the roots of the hair, stimulating and, by promoting circulation, nourishing them.

Rexall "93" Hair Tonic helps to relieve scalp irritation, to remove dandruff, to prevent the hair from falling out, and to promote an increased growth of hair. It comes in two sizes, prices 50 cents and $1.00. Remember, you can obtain it only at our store.—The Rexall Store, McDermid and Jury.

SEASON BACKWARD FOR GARDENING

Prepare the Soil and Do Your Planting Right Away

The activities of the amateur gardener have been so delayed this spring that the work of soil preparation and planting all must be done at once if the early crops are to be matured before hot weather is due. Now is the time to strike. The frost is out of the ground and the soil, except in low places, is dry enough to permit thorough working and the immediate preparation of the seed beds. Ordinarily it would be well to let the ground lie for a time after spading, but this year the clods should be pulverized and the seed planted as soon as possible after the garden is broken.

The test of soil condition for the preliminary work is to turn a few spadefuls and ascertain if the clods break up readily. If the ground is soggy and "sour" and the earth slings together, do not attempt to continue the spading. Ground broken when it is wet will be lumpy and harsh all season and unfit for proper cultivation. Whatever fertilizer is used should be mixed thoroughly with the soil and not permitted to lie in masses with which seeds or tender sprouts may come into contact and be "burned."

In normal seasons in this latitude enterprising amateur gardeners already would be enjoying radishes, lettuce, and maybe young onions and "greens" from their gardens. Such quick maturing crops should be planted at once, now that the weather will permit. Peas and other seeds that are slow to germinate also should be planted as soon as the ground is ready, and it would be well to take a chance on a few hills of cucumbers escaping injury from any frosts that may come later. Even if it is necessary to protect tender shoots from the cold at night, it is worth the trouble to give a few whills such care, as it will mean returns much earlier than if the gardener waits for settled warm weather. Beans will not germinate in cold, wet soil, but a few days of warm sunshine will start them even if they are planted before the usual time. They are very easily killed by frost, but the gardener who takes no risks in planting in this eccentric climate is not likely to harvest many vegetables early in the season, when "green stuff" always is best.

Kale, spinach, mustard—"greens" of all sorts—should be rushed into the ground at once, as they should have been planted many days ago, and cannot be expected to do well unless they have time to mature before hot weather comes.

Pulverize the Soil.

In spading the garden preparatory to planting it will be well to let the turned clods lie undisturbed in that part of the ground that is to be used for tomatoes, peppers, and other vegetables that are to be planted only after the soil is thoroughly warmed and all danger of frost is past. Sun and rain will mellow the clods, and ground so left will yield to the rake more readily than it will if worked into seed beds as soon as broken. In spading, well rotted manure should be turned under with the sods to blend with the soil while it is lying idle before the final work of preparation for planting.

Remember the importance of thoroughly pulverizing the surface of the soil in that part of the garden in which the planting is to begin at once. There is much moisture in the ground now, and it should be the purpose of the gardener to retain it. Pulverizing the surface will prevent evaporation and ensure moisture for the young plants for weeks to come, even if there should be no rain. Lumpy, carelessly worked ground dries out quickly and the plants suffer for water, even in times of occasional rain. Finely pulverized surface soil should be cultivated lightly but thoroughly after every rain, so that it will not become packed and crusted by the sun.

THE FIRST MEAL.

One needs a great variety of resources for the morning meal, for the appetite is most likely at this meal to be dainty and capricious. The prescriptions in the books are limited in usefulness, and during the changes of seasons the appetite and general health should be especially studied to the end that the breakfast be both relishable and nourishing. Never try to eat at breakfast anything that does not relish well. The appetite and vigour for whole day may depend on the breakfast, and whatever is served at that meal should be the best of its kind that it is possible to obtain.

Band at Brock Street Roller Rink To-Night. 2d 86

LAKEFIELD NEWS

Examiner Special:

LAKEFIELD, APRIL 11.—Messrs. E. R. Tate and H. Pembarthy spent a few days last week in Belleville, Ont.

Mr. G. Evans Atwood of Peterborough, was in the Village on Thursday last, visiting Mr. and Mrs. C. Atwood.

Mr. A. V. Mill of North Battleford, Sask., arrived on Thursday last on a visit to his home in the Village.

Mr. Harold Young of the Traders Bank staff, spent the Easter holidays at Bainsome at Young's Point.

Miss Winnifred Mackenzie, who has been attending Bishop Strachan's School, in Toronto, arrived on Wednesday last to spend the holidays with her parents, Rev. A. W. and Mrs. Mackenzie.

Miss Blanche Graham returned home on Thursday last after a two weeks' visit with friends in Toronto.

Miss K. Simpson of Kew Beach, is spending the vacation at her home in the Village.

Mr. Thos. Wilson of Hall's Bridge, has purchased Mr. W. J. Baptie's residence on Regent street and moved in on Monday of last week.

Master Clinton Atwood of Trinity College School, Port Hope, is spending the Easter holidays with his grandparents, Mr. and Mrs. C. Atwood at "Ashelworth."

Messrs. G. Grahame and C. Dunn spent a few days last week at Stony Lake.

Mrs. Gilbert left on Thursday to visit Mrs. Fessenden, of in Peterborough.

Mr. and Mrs. D. W. Edwards of Toronto, were guests of Mrs. C. D. Crawford for a few days last week.

Mr. H. G. Fitzpatrick and Master Donald spent Easter in Toronto.

Mrs. Duffy of Peterborough, is visiting her sister, Mrs. W. Webster.

Miss Phyllis Cumberland of Peterborough, is the guest of Miss Winnifred Mackenzie at "The Grove."

Mr. F. H. Lingwood of East Toronto, arrived on Friday last to spend the Easter vacation in Lakefield, where he is the guest of Mr. and Mrs. C. Atwood.

Mrs. Andrew Fleming, who has been visiting her mother, Mrs. Gillivray, in Kingston, returned home last week.

Mr. and Mrs. Finlay and son of Norwood, spent Easter in the Village guests of Mr. and Mrs. W. M. Graham.

Mr. F. M. Della Fosse of Peterborough, spent Good Friday in the Village, visiting friends.

Miss Seely of Toronto, is the guest of Rev. and Mrs. H. A. Ben Oliel, at the Rectory for the Easter vacation.

Master Harry Pierce of Hamilton, an old boy of the Grove School, was the guest of Rev. A. W. and Mrs. Mackenzie for the week end.

Mr. T. B. Marling returned home on Tuesday after spending a few days in Toronto.

Mrs. H. G. Fitzgerald returned home on Monday after spending Easter with friends in Peterborough.

The annual vestry meeting of St. John Baptist Church was held on Monday evening in the old church.

A very encouraging report was read showing the financial statement of the church to be in a prosperous condition. Messrs. W. M. Graham and E. R. Tate were re-elected Wardens for the coming year. After business matters were attended to, a social half hour was spent and refreshments were served by the ladies of the Chancel Guild. The adjourned meeting will be held on Monday, April 22.

Mrs. G. Evans Atwood and children of Peterborough, were guests of Mrs. T. B. Marling on Tuesday.

Miss Adeline Roberts of Toronto, passed through the Village on Thursday last on her way to spend the Easter vacation with her sister, Mrs. R. N. Stuart, at Young's Point.

Mr. and Mrs. John Northcote spent Easter visiting their son in Toronto.

Mr. and Mrs. Grahame of Toronto, are guests of Mr. and Mrs. L. H. Grahame at "Uplands".

HOW TO MAKE CHOCOLATE ICING

An easy way to make delicious chocolate icing is to mix one-quarter cup of Fry's Cocoa with two cups of confectioner's sugar, adding two tablespoons of boiling water, or cream.

Many of the best cooks follow this recipe nowadays. Fry's Cocoa gives the icing an exquisite flavour. The usual "bother" of making icing with cake chocolate, which sometimes must be ordered specially for the purpose, is avoided. Try it.

URGES MORE MORMON CHILDREN.

SALT LAKE CITY, April 12.—An unusually high birth and low death rate were claimed for the Mormon people by Apostle Hyram M. Smith, the principal speaker at the second session of the Mormon conference on a recent date. He addressed an audience of nearly seven thousand at the tabernacle.

"The records show," the apostle said, "that the birth-rate among the members of the church for the last year was thirty-eight to one thousand. While that is a higher rate than among any other people that we have a record of to-day, it is not high enough. We should have more children and we should care for them."

The mortality in the church, he said, was 8.6 in a thousand in the last year. To raise the birth-rate and reduce the mortality, Apostle Smith urged the congregation to observe the church laws against alcohol, tea, coffee and tobacco.

GOOD DUSTER.

A paint brush will get dust out of cracks better than any duster will, for cloth cannot reach all the corners. Try the brush when you are cleaning baseboards, window sashes, etc., and you will appreciate it.

Possessing exquisite freshness and fullness of flavor not found in other teas

BARNEY OLDFIELD REINSTATED.

The "Speed King" Will Be Allowed to Race after April 30.

NEW YORK, April 12.—Barney Oldfield is to be allowed to race again in sanctioned automobile meets. Following a meeting of the contest board of the Automobile Association, announcement was made the other night that the veteran driver who was disqualified two years ago following a race with Jack Johnson, the pugilist, is to be reinstated.

Oldfield and his mechanician, Benjamin Kerscher, were disqualified until July 1, 1913, but the committee decided to lift the disqualification on and after midnight April 30, 1912.

Oldfield's manager, William H. Pickens, who was disqualified for an indefinite period at the same time, will get back in the good graces of the committee after July 1, 1912, it is decided.

WE LIST BELOW SOME REPRESENTATIVE ITEMS PREPARED FOR SATURDAY SELLING

READ THE ITEMS over with care. The one you find most attractive may be the last on the list. It is hard to choose which to place first when so many splendid values are clamouring for attention.

Those who value economy can't fail to respond on the instant to the many saving opportunities presented by this array of

New Style KABO Corsets

SATURDAY SPECIALS

New Idea Patterns 10c

Prints reduced to 7 1-2c yard

Clearing our entire stock of mill ends, broken lines and odd pieces in Canadian and English Prints Saturday at 7 1-2c yard. The lot comprises some of our best selling lines, in a large and splendid variety of choice colourings & designs; qualities represent values up to 12 1-2c. Extra Special Sat., yard **7½c**

Extra Special Towel Bargain Saturday 19c per pair

An unusual and exceptionally good value is contained in this line of fine Bedroom and Turkish Bath Towels Saturday at 19c pair. Made in an extra heavy quality, good size and very absorbent. Extra Special Saturday, pair.... **19c**

Dress Ginghams Saturday 10c yd.

390 yards Scotch Dress Ginghams in a splendid variety of pleasing colours, in check and stripe designs. An ideal and specially adapted material for the making of children's pretty school dresses. Extra Special Saturday, yard **10c**

THE EVENING CHIT-CHAT

By Ruth Cameron

THE best thing of an inexpensive kind is almost always better than a cheap thing of a more expensive class.

Things which appear exactly the same on the surface are often entirely different when you look into them more closely. For instance, knowing how to spend money and knowing how to buy, might appear to be the same thing, but they are entirely different. Every woman knows how to do the first; one in a hundred, the second. And yet, knowing how to buy wisely is one of the most important divisions in woman's great science of home-making. I heard an investigator of financial conditions assert that women spend over three-fourths of all the money that is earned in the middle and lower classes. Think how important it is that they should know how to spend it wisely. Volumes might be certainly be written on this subject, but I don't know enough to write them. I just want to bring home to you one principle of wise buying with which I have recently been impressed and which I stated above, namely—the best thing of an inexpensive kind is almost always better than a cheap thing of a more expensive class.

Nine years ago two young girls who were chums were married at about the same time. These young couples had nearly the same amount of money to spend, and many of their household furnishings were similar. But in the matter of beds they disagreed. One girl was determined to have brass beds, and since she did not have enough money to buy a first class article, bought some unattractive but cheap brass beds. The other girl said, "I would rather have a thoroughly good white bed than a cheap brass one," and forthwith, put about the same sum which her friend had invested, into the most attractive and well-made white beds that could be bought. To-day one girl has dainty white beds which look as fresh and attractive as when she bought them, while the other has a pair of tarnished and tawdy brass beds which spoil the appearance of the whole chamber.

It is better to buy good oak than cheap mahogany; a first class cotton dress than a cheap silk one.

Good muslin or scrim curtains are infinitely preferable to hangings of cheap lace.

First class cretonne is better than fourth class tapestry.

It is infinitely more satisfactory to pay fifty cents for the best of silk lisle stockings than for the cheap grade of silk hose.

Good lamb will give you more nutriment and satisfaction for your money than cheap steak.

Indeed, in every department of buying, the housewife will find this a safe principle, and will do well not to let herself be beguiled from it by the longing to have something of a better class and more showy than she can really afford. At first she may think she is getting a bargain in the cheap expensive thing. In the end she will find out her mistake.

ALLEN OUTLAWS STILL AT LARGE

Captain Felts, Hunter of Lawless Men, Says Escape is Impossible

ADMITS TRAIL IS COLD

BLUEFIELD, W. VA., April 12.—"We will get the Allen outlaws. Make no mistake about that. It looks like a cold trail just at present, but we will get Sidna Allen and Wesley Edwards sooner or later, and I hope we shall be able to take them alive."

The speaker was Thomas L. Felts, chief of the organization of mountain rangers and detectives whom Governor Mann, of Virginia, has entrusted with the task of capturing the Hillsville Court House assassins. Captain Felts had come in from an all-night scout in the mountains, taking a Norfolk and eWstern train from his home at Blair. He was on his way to the West Virginia agency of his organization here, where he is clearing up some other business before resuming personal command of the armed forces in the mountains. The Herald correspondent accompanied Captain Felts from Jackson's Ferry to East Radford on the train, and the chief of scouts chatted freely of the Allen clan and the prospects of capturing the last of the fugitives who remain at large.

The Cunning of Sidna Allen.

"I am of the opinion," Captain Felts went on, "that Sidna Allen and Wesley Edwards are in the mountains yet, though several days have passed since we got the last definite reports of them. The worst move they could make would be to try to leave their mountain retreat, and I think Allen is too crafty a fox to attempt it. He knows every nook and bypath of these mountains, and so long as he remains in his stronghold he may succeed in dodging our men for some time longer.

"We have to contend with the fact that practically every mountaineer in the district is bound to Sidna Allen either by ties of kinship or by bonds that are even stronger. For years the Allens have financed the operations of the mountain 'moonshiners,' and in that way made a large part of their own fortunes.

"Many of thes mountaineer distillers owe considerable sums of money to Sidna Allen or his brothers. Jordan Edwards, who is under arerst for harbouring and feeding the desperadoes, is in his debt to the extent of $600 and is also under obligations to 'Jack' Allen, the latter having gone on his bond when he was arrested a month or so ago for making illicit corn whisky and selling it.

"It is hard to prevent men who are thus bound to the fugitives from concealing and aiding them in their dire extremity. Many of them, moreover, are in deadly fear of Sidna Allen yet. Our men have had to contend with false reports time and again.

In Terror of the Allens.

"The mountaineers who might help the chase if they would and might even win the cash reward are too much in terror of the Allen vengeance to lift a finger to aid us. They say that if they did so some of the clansmen would surely 'get them' and they would regard themselves as lucky if they escaped with their homes simply burned and did not lose their lives as well.

"So fearful are these mountaineers of appearing to do anything to aid the armed men of the posses that if they dared they would often turn our men away from their doors, refusing them shelter for the night and a bit of food.

"Though the mounted men in the mountain are now reduced to a working force of only about ten men, we have the outlets from the range so carefully guarded that if Allen and Edwards were to attempt to leave the district and make their way into the outside world I believe we would pick them up somewhere within twenty-four hours.

"Sidna Allen is a master of craftiness, but I don't think he will dare to try to leave the mountains. We wish he would. One of the old tricks for escaping is to conceal a man under a load of straw or hay or some other commodity and thus get him outside the pale. eW are searching all wagons that go through the mountain roads, no matter how innocent their contents apepar to be.

TERRIBLE RESULT OF BLOOD POISON

After Three Operations Zam-Buk Was Tried and Proved Successful.

If people would only use Zam-Buk for chronic sores, blood-poison, etc., before permitting an operation, scores of limbs would be saved.

Mr. Robt. Patterson, of North Pelham, Welland Co., Ont., writes: "My daughter, Annie, had blood-poison in her finger. The doctor operated twice on the finegr, but did not obtain the desired result, and a third operation was considered necessary.

"Three doctors were present at this operation, but after it had been performed the wound did not heal. Try as we would we could not get anything to close the wound.

"We at last tried Zam-Buk, and it was really wonderful to watch how this balm healed the wound. Each day there was a marked improvement. First the wound in the palm of the hand closed, and then the finger which had been had so long began to heal. The diseased flesh seemed to rise out of the wound and then drop off, and new healthy flesh formed from below, pushing off the diseased tissue. In a short time the wound was completely healed. Had we applied Zam-Buk at first we might have saved the finger.

"We had another proof of Zam-Buk's power in the case of my son. When two years old he had his hand badly mangled. One finger had to be amputated and it left a running sore for some months. This wound, also, was finally healed by Zam-Buk."

For chronic sores, blood-poison, ulcers, abscesses, scalp sores, piles, eruption, inflamed patches, eczema, cuts, burns, bruises, and all skin injuries and diseases Zam-Buk is without equal. 50c. box all druggists and stores, or post free from Zam-Buk Co., Toronto, for price. Have you tried Zam-Buk Soap? 25c. tablet.

SUBURBAN SALLIES.

Naybor—I say, Subbubs, have you a foot-rule over there?

Subbubs—Yes, one my wife made. It is: "Use the doormat before entering."

Naybor—Oh, that won't do. That's a two-foot rule.—Boston Transcript.

QUALITY HABERDASHERY

LUCKY BALDWIN HEIRS WIN.

"Paper" Marriages Cannot Be Recognized in California.

SAN FRANCISCO, April 12.—By unanimous decision of the supreme court here, the heirs of Elias J. (Lucky) Baldwin are confirmed in possession of his estate, estimated to be worth approximately eleven million dollars, and the claims against it of Beatrice Anita Baldwin, or Turnbull, as a pretermitted child, are dismissed.

Judge Henshaw's opinion reviews not only the evidence in the case under consideration, but the larger subject of "marriage by consent" in California. In conclusion he writes:

"Wherefore, we indulge the not unreasonable hope that this case will prove the last of a most malodorous brood."

Beatrice Baldwin, or Turnbull's claim to a share in the estate rested on her mother's testimony that she was married to Baldwin in Los Angeles on 3rd March, 1893. The case was heard in the superior court of Lost Angeles county, where the trial judge withdrew it from the consideration of the jury and directed a verdict in favour of the estate.

In the present opinion the alelged marriage is thus described:

Baldwin too some hotel stationery and wrote, "I, Elias Jackson Baldwin, do take Lillian Alma Ashley to be my lawful wedded wife," and he signed it. And she wrote "I, Lillian Alma Ashley, do take E. J. Baldwin to be my wedded husband. And he told her to sign it and she signed it.

RAILWAY NOTES

The re-appearance recently of the Grand Trunk Pacific S. S. "Prince George" on the regular Pacific Coast service was greeted with pleasing festivities and this event, together with the opening of the company's handsome new docks at Seattle was honoured by civic officials and other guests, to the number of 100 from the cities of Vancouver and Victoria, who made the round trip to Seattle as the guests of Capt. C. H. Nicholson, general manager of the G. T. P. Steamships. At the American port, the party was met by the Mayor and other civic dignitaries, and, after a dinner on board the steamer, a jovially informal entertainment was held at the Seattle Press Club. No attempt was made to force the "Prince George" on the trip, but with her new oil burning engines, an average of 18½ knots an hour was maintained and it is conceded by engineers, and oil experts, that she will be good for another couple of knots, so that the innovation may be regarded as a complete success.

Mr. Chas. M. Hays, President of the Grand Trunk System, sailed recently from New York, via S.S. "Baltic" for England, accompanied by Mrs. Hays.

Lambton County, in common with the other counties of Western Ontario according to Mr. J. M. MacAdams, secretary of the Sarnia Board of Trade, is experiencing a wonderful agricultural revolution. Last year, $40,000 worth of fruit and vegetables were shipped out, whereas two years before it was necessary to import the same goods for home consumption. Last year also, 75,000 fruit trees were planted, and, this year, 250,000 more will be put in the ground. But the territory is not only progressing agriculturally, for its favourable location on the line of the Grand Trunk has also lent to it increasing prestige as a summer resort and as an industrial centre. At present there is not a vacant house in Sarnia, not an unleased cottage on the shore, and applications for farm land are being received from Great Britain and various parts of the United States.

Mr. H. L. Bodwell, the Grand Trunk Pacific engineer in charge of the excavations for terminals, has just arrived in Prince Rupert from Winnipeg, to assume charge of the work, there, and expresses himself as being agreeably surprised with what he has seen of the province and town. He had no idea that the people there enjoyed such a beautiful climate and he describes the scenery on the trip from Vancouver as being the grandest he has ever seen.

The supplementary estimates in the Federal House will make provision for the terminals of the Hudson Bay branch of the Grand Trunk Pacific and tenders will shortly be called for on the construction of an additional section of the line.

When the Grand Trunk Pacific have their hotels erected, which will be as soon as possible, the territory will no doubt secure a large proportion of the increasing boom of sightseers and tourists that are annually looking for new fields to explore.

PEOPLE NOTICED IT

Last spring many of the people who know Gerald Rogers of New York, were talking about how pale and delicate he was. No one had to tell him, for he realized his bad condition.

It was spring—just the time to do something for his blood—and he decided to do it. His recent letter tells the whole story: "I was very weak, delicate and pale all spring, owing to run-down health and poor blood. But since taking Vinol my health has been built up splendidly and I have recovered my former strength. My blood is now rich and healthy and my appetite is good."

The very best spring medicine you can possibly get is Vinol, our delicious cod liver and iron preparation without oil, because it not only purifies the blood but builds up flesh and strength and makes quantities of rich new blood.

Make up your mind right now that you will try Vinol (on our guaranty that it must please you or cost you nothing) or it will make you feel better than you have felt for years. BANKERS' DANCE.

Bankers of the City Held Their Annual Hop.

The bankers of the city held their annual dance in the Conservatory of Music Hall, last evening. About seventy-five couples were present, and a most enjoyable time was spent. Music was supplied by Spragge's Orchestra of Belleville. The refreshments were served in buffet style and were supplied by Mr. T. Hooper.

ADVOCATES MORE GENEROUS DISPLAY OF FLAGS

Rev. Canon Davidson Addresses the Local Chapter of the Daughters of the Empire at the Armouries

AN INTERESTING HISTORY

The 57th Chapter of the Daughters of the Empire held a very enjoyable meeting yesterday afternoon in the recreation room of the armouries with Mrs. (Lt.-Col.) Clegg presiding. The chief feature of the afternoon was an address on "The British Flag" by Rev. Canon Davidson, whose remarks were greatly enjoyed by the members of the chapter. Canon Davidson gave a history of the flag, showing the connection between the crosses of England, Ireland and Scotland. He took up the lesson of the colours and the national character for which they stood and explained the use of different ensigns. In conclusion he urged the chapter to inculcate a wider respect for the flag and a more general display of flags, especially on public holidays, than had been the case in the past.

Miss Chalmers contributed an enjoyable solo in her usual excellent voice and the meeting was brought to a close by the singing of the national anthem.

NOTICE TO WATER CONSUMERS

Water rates for the current quarter are now due and must be paid at the City Treasurer's Office, 131 Simcoe Street, on or before the 15th day of April, to save the discount. Discount will not be allowed after the 15th inst.

METROPOLITAN BANQUET WAS ENJOYED BY DISTRICT STAFF

The complimentary banquet tendered the Metropolitan Life Insurance Company to its Peterborough staff at the Oriental Hotel last night in recognition of its leadership in average for 1911, was a success in every particular and especially as an impetus to further endeavour in this district. The cuisine of the Oriental was all that could be desired, and naturally was responsible for the evening's enjoyment.

Among the invited guests who were able to be present were Rev. Canon Davidson, Rev. J. R. Webb, Rev. I. Couch, Mr. F. H. Dobbin, Dr. Scott, Mr. John Crane, Mr. E. L. Goodwill, Mr. J. H. Burnham, Mr. H. H Gray, Superintendent, Berlin, and others. Mr. F. O. Ayres, Fourth Vice-President of the company presided; Mr. J. E. Kavanaugh, Superintendent of Agencies, Mr. John Rothwell, the local superintendent and the agent of the district were present. In all, over fifty enjoyed the banquet. Addresses were given by the guests and also by members of the company. Altogether the evening was an enjoyable one and its results should be noticeable in the future work in this district.

URIC ACID SUFFERING

Uric acid is an accumulation of poison which finds lodgment in the system when the *kidneys fail* to remove it from the blood. In the kidneys and bladder it forms stones, in the joints and muscles it causes rheumatism. In any case the pain and suffering is almost beyond human endurance. Uric acid is promptly removed from the system when the kidneys are kept healthy and active by using Dr. Chase's Kidney-Liver Pills.

MR. C. JAMES BANCROFT IN "THE NEW BOY"

This farce is unquestionably one of the best of its kind ever produced on the English stage. It deservedly ranks with "The Private Secretary" and "Charley's Aunt" with them enjoys the distinction of having run over two years in London, and but for the accident, which caused the closing of the Vaudeville Theatre, where it was running at the time, it is quite possible that it would have equalled, if not have exceeded, the phenomenal run of "Charley's Aunt" which Penley was running in opposition at the Globe Theatre at the time. "The New Boy" was first produced at Terry's Theatre for a short run, but its success was so great and instantaneous that it was continued in the bill, but when Mr. Terry required his theatre for his own use, the piece had to move out, and the Messrs. Gatti offered it a home in the Vaudeville Theatre across the way, where it remained until the County Council closed the theatre in order to remedy structural effects.

The play is full of genuine humour, and depends only upon its innate comedy for laughter. In Archibald Rennick, Mr. Bancroft, has a part that fits him like a glove, and those of you who saw him in "The Private Secretary" have a treat in store for you in "The New Boy." It deals with the adventure of a man, who being small in size when taken by his newly married wife to visit her cousin, a schoolmaster, is taken for a new boy and is treated accordingly, both by the schoolmaster and by the boys. The boys make him rob a farmers orchard, for which he is arrested and sentenced to be birched. His identity, revealed in time, saves him from this degradation, and the real culprit is punished. As in the Private Secretary, Mr. Bancroft has no equal, so he has succeeded in making "The New Boy" his own particular and inimitable character. The seat sale opens Monday.

BOUGHT TICKETS EOR BALL GAME FOR HIS 5000 EMPLOYEES

TOLEDO, O., APRIL 12.—Further evidence that the social side of the Willys-Overland Company of Toledo, Ohio, is a strong factor in the upbuilding of that gigantic organization, is shown by President John N. Willys' purchase of 5,000 seats for his employees for the opening baseball game between the Toledo "Mud Hens" and Milwaukee "Brewers" of the American Association on April 10th, at Toledo.

President Willys believes that all work and no play makes his employees dull boys, and ordered that the plants be closed on the afternoon of April 10th so that all the men in the Overland, Kinsey and Warner organizations could attend the opening game of the season.

Headed by the mammoth Overland band—the largest industrial band in the country—the 5,000 men and women on the payroll formed in line around the plants and marched through some of the principal streets of Toledo to Swayne Field. Each was equipped with an Overland pennant.

Arrangements were perfected with a moving picture concern to make films of the parade through the streets and at the baseball pary. These films will be syndicated to the moving picture houses throughout the country so that Overland dealers and owners, and the public generally will have an opportunity to see the vast army of workmen required in an effort to keep abreast with the thousands of orders for Overland motor cars.

A SERIES OF SURPRISES

Wonderful Feats by Mildred and Rouclere at the Grand Opera House Last Night

SHOULD BE SEEN

A constant series of surprises, each more astonishing than its predecessor, is the easiest and most effective way of describing the remarkable entertainment put on at the Grand Opera House last night by Mildred and Rouclere. The wonderful feats of these two mysterious beings kept the audience in a continuous state of stupefaction from one end of the programme to the other. No more bewildering entertainment has ever been seen here and last night's audience filed out of the house completely mystified as to how the seeming miracles had been accomplished. It is safe to say that a crowded house will greet the clever entertainers this evening, and during the balance of their stay in this city.

Rouclere, who opens the programme does a score of mysterious feats of magic, nearly all of them new and all originally portrayed. Surprise follows surprise, climax succeeds climax, and so rapidly and smoothly, are the tricks performed that the audience is kept guessing all the way. This portion of the programme is brought to a sensational finish by a remarkable variation of the old trunk mystery. Rouclere calls for the assistance of a man from the audience who ties him in a bag, places him in a trunk, locks the trunk and places it in the cabinet. The committeeman is then covered with a red robe and an assistant opens the trunk and unties the bag. To the surprise of the audience, Mr. Committeeman is found in the trunk, while the lifting away of the red robe on the other person on the stage reveals the features of Professor Rouclerd. The substitution is so cleverly performed that the audience never suspected the change.

Mildred, in her telepathic scene, is alone worth the price of admission. "The bewildering star of mystery" as she is called on the programme, certainly earns her title by her work in this act. Blindfolded, she answered questions, read letters, described articles in the audience and told where missing articles were to be found. She told one man the address of a friend who he had parted with in Montreal five years ago, saying he was now in New York, informed another that his missing pocket-knife would be found beneath his dresser. To a woman inquirer she described the location of a lost pair of scissors and answered a score of other questions in a bewildering manner.

Another remarkable feature of the programme is the levitation act entitled "Astra" while his even more amazing than that performed here by the Fays some years ago. The subject is placed on a divan, covered with a cloth, and in a moment seems to float in the air, ascending several feet. Then Rouclere gathers the covering together and the young lady has disappeared—vanished into thin air as it were.

"The Flight of Princess Iris" the wonderful illusion which closes the programme, is certainly mystifying. A detailed description of the feat would spoil its effect for those who have not seen it, but it is one of the best items on an astounding programme.

Variety is added to the entertainment by the singing, dancing and piano act of Miss Billie Rouclere and Douglas Ray, and by the amusing turn of Richard Leggett, "The Rising Generation," which contains a diverting surprise for the audience.

Mildred and Rouclere will be seen at the Grand again to-night, to-morrow afternoon and evening and should attract a big crowd. It is the cleverest entertainment of its kind ever given here.

Officers Elected

The Sewing Class in connection with George Street Church, gave a Boston Supper in the school-room, last evening. It was very successful, both socially and financially. The proceeds of the event will be used in their work of charity. After a most substantial repast Mrs. James Kendry took the chair and in a few well-chosen words, outlined the work of the Society, after which Mr. Dumble made a few remarks and gave a couple of splendid readings, which were enjoyed by all. The following report was read by the Secretary:

The Sewing Class of George Street Church held their first meeting for this year's work on Oct. 19th, 1911, in the church parlour and elected the following officers:

Honorary President—Mrs. Jas. Kendry.
President—Mrs. George Custis.
Vice-President—Mrs. Andy Allison.
Sec. Vice President—Mrs. Thomas Rankford.
Secretary—Mrs. W. H. Cunningham.
Treasurer—Mrs. W. J. Deane.

The class met continuously all winter, which means 24 Thursday afternoons. We have 16 members who pay an annual membership fee of 25 cts. Our object and aim to make and distribute clothing to the poor and needy who are brought to our notice through the winter months. The Sewing Class has been instrumental in helping 14 families, which average 5 or 6 children in each family, this winter, with good, warm clothing and bedding. Together, we have distributed 128 garments and 4 quilts. We have also been supplying a sick man with milk every day for the last couple of months.

Received in donations, $7.30.
Fees, $4.75.
(Signed) T. F. Cunningham, Secretary.

BACK FROM A BUSINESS TRIP

Peterborough Gas Company's Representatives Return to City

Messrs. Beal and Henderson are Henderson have returned from a trip to the Eastern States, where they spent two weeks in the interest of the gas department of the Peterborough Light and Power Company. They visited most of the gas stove and commercial gas appliance manufacturers in New York, Philadelphia and [illegible] where they obtained a great deal of valuable information about the various appliances manufactured and the multitude of uses to which gas can be applied. While in conversation with them this morning a reporter was shown a number of photographs showing the extensive use to which they employ gas in these cities. It was found that in Baltimore with gas at $1.00 per 1,000 cu. ft., practically all the hotels cafes, hospitals and public institutions are using gas exclusively in their kitchens, having found it much cleaner and more economical than coal. In the commercial gas line the iron and steel manufacturers are using it very extensively for hardening and tempering, annealing, brazing japanning and in every way where a steady and intense heat is required and also in the core rooms of foundries, where they are discarding the coke ovens and installing gas, having found that they can get much quicker and more perfect results with the latter.

The butcher shops are using gas very extensively for cooking large quantities of meats, lard rendering and in smoking hams, bacon, sausages and fish.

In the private home and dwelling the All Gas Kitchen is much in evidence, it having been found cheaper to heat the entire house from the furnace and use gas exclusively for cooking. Where there is no furnace register in the kitchen, a hot water system for heating the kitchen by piping from the hot water tank to the furnace and placing a radiator on this circuit is adopted. This system answers a two-fold purpose as it gives an unlimited supply of hot water for the kitchen and bath and at the same time heats the kitchen. This has been found to be very satisfactory and does not use any more coal in the furnace.

The cabinet gas range is the favorite this year as is also the double copper coil water heaters.

Messrs. Beale and Henderson are highly delighted with the hospitable reception and courtesy extended them at every place visited and derived from the trip pleasure combined with business to a large degree.

CANADIAN MARATHONER ON HIS WAY TO ENGLAND

TORONTO, APRIL 11.—Jim Corkery, the big Irish-Canadian marathoner, and one of Canada's hopes in the Swedish Marathon, leaves to-night, in charge of Elwood Hughes, for England, where he will represent Canada in the Polytechnic Marathon in May. The two will sail on the Allan liner Virginian on Saturday from Halifax.

Corkery is going to England as the guest of the Hamilton Spectator, which sends the winner of its yearly competition to England to take part in the Polytechnic race.

Hughes and Corkery will be quartered at the Uxbridge A. C. Middlesex, 6 miles from Windsor Castle, the starting point of the race.

The selection of Hughes as manager, trainer, and adviser to Corkery, was a wise one. It will be remembered that Hughes handled Billy Sherring, when the Hamilton boy won the Marathon championship at Athens in 1906. With Hughes on the job, Corkery will get the best of care, as he knows the marathon game from every angle. Hughes held the 5 and 15 mile championship for three years. He is strict in his training rules, but he will experience no trouble with Corkery.

Corkery is Canada's third representative in this big marathon race, in which all the crack amateur long-distance men of Europe are entered.

After the English race the two will go on to Stockholm and join the Canadian team there.

BASEBALL

"It's always an open question" says Mike Mitchell of the Reds, "whether a pitcher who changes clubs will be successful against his former team, or be a mark for their batsmen. Ball players argue that question for hours and nobody is ever convinced either way. Some of them maintain, with excellent grounds, that a pitcher knows all the weaknesses of his former pals, and that he will know exactly what each man can or cannot hit. Therefore, if you look at it from this point of view, a pitcher who changes teams during a season should have something on his old friends for the balance of the campaign, and, in fact, as long as their line-up may remain the same.

"On the other hand, it seems equally obvious that the batsmen must have learned the strong and weak points of a pitcher. They ought to know exactly what he has in his repertoire. They can judge whether he has good speed or only a bluff at a fast delivery; whether he can throw a spit-ball or only an excuse for one; whether the ball he throws with a hop on it will really break deceptively, or will be easy for any batsman who can keep his head. This theory seems perfectly logical, and very hard to get around, doesn't it?

"It seems to me, after watching a lot of them come and go, that the success of a pitcher against his former team is really a question of relative class, not of former association only. If the pitcher is a gamer man, faster thinker, and craftier hitter than the batters he will have something on all his former friends. If the batsmen are a set of nervy, turdy cusses, who don't give a hang or any pitcher, no matter who he may be, the pitcher will not baffle them. The whole equation may average up pretty close at that; the pitcher is likely to have the weaker batters of his former team for marks, and fan them out almost as fast as they come up, while the stronger batsmen are equally likely to have their old pal sized up, and beat the rising out of his delivery.

"In the National League last season six pitchers changed teams during the campaign; Humphries, Steele, Burns, Cartis, Weaver and Griffin. Of these, Curtis was quite successful against his old team. Burns just tolerably so. Humphries, Weaver and Griffin didn't get into enough to prove anything either way, and the others had the misfortune to be traded to feeble clubs, where their real ability didn't show. The really great pitchers seldom get traded nowadays—transfers like that of old John Clarkson hardly ever happen any more. If I remember rightly, Clarkson worked just about as well against the Chicago club, after his transfer to Boston, as against any other team—no better, and no worse. Ad. Gumbert, I am told, was as effective against Chicago after hew as turned over to Pittsburg as against most of the others—no pecial difference either way. Radbourne, after Boston sent him to Cincinnati, was hit hard by the Bostons, but Rad was failing fast and almost all in at the time.

"It's a case of the nervier guy winning out, whether he is the pitcher, or the batter, and there's about all you can say."

POLICE COURT CALENDAR.

Four Dollars More to Swell the Coffers of the Civic Treasury.

Joseph Genero, a native of Poland, entered a plea of guilty to a charge of being drunk and disorderly in a public place. He was fined two dollars.

John O'Keefe, who pleaded guilty to a similar charge, was also assessed two dollars.

NEWSY BRIEFS FROM BRITAIN

Little Items of Interest From all Parts of England, Scotland, Ireland and Wales

Ireland's census shows a slight decrease in her population.

Meters in England

Motor vehicles to the total of 130,000 are now in the United Kingdom, the number of licensed drivers being 500,000.

The British Army

The British Army, including Territorials, is composed of over 700,000 men.

Slaughter of Airmen

No fewer than sixty-three airmen were killed in 1911, of whom eight were Englishmen.

Trades Unions

Considerably over 700,000 workpeople in Great Britain belong to trade unions.

Pensioners

Old-age pensioners total over 900,000, of whom women are in slightly greater proportion than men.

Duties From Estates

Death duties were levied in 1911 upon the estates of eight British millionaires, the aggregate amount of the fortunes being over $50,000,000.

New Canon of Gloucester

The Ven. E. C. Scobell, Archdeacon of Gloucester, has been appointed a canon of Gloucester Cathedral.

New Battersea L.C.C. School

The London County Council propose to provide a new public elementary school for about 1,800 children in the neighborhood of Battersea Park.

Train Dashes Into Hounds

When the Grafton Hounds were crossing a railway near Roade, Northamptonshire, in pursuit of a fox, an express dashed into the pack, killing two hounds.

Killed Going to Confirmation

Rose Leach, a girl of fifteen, while on her way to confirmation at Alconbury Church (Hunts), was knocked down and killed by a motor-car.

Killed While Hunting

A regular follower of hounds named Brazier, while hunting with the New Forest Foxhounds near Lyndhurst, was thrown from his horse and killed.

To Command 4th Guards Brigade

Colonel Lord Cavan, late of the 1st Grenadier Guards, has been appointed to the command of the 4th Guards Brigade during this year's manœuvres.

New Type of Tea Rose

Mr. W. E. Wallace exhibited a new hybrid tea rose, named the "Rose Queen," at the fortnightly exhibition of the Royal Horticultural Society, at Westminster, and won an award of merit.

The King and Centenarian

Miss Marion Lindsay, a native of Greenock, Scotland, who has reached her hundreth birthday, has received a message of congratulation from the King.

Long-lived Essex Family

Mr. and Mrs. William Westwood have just celebrated their golden wedding at Writtle, Essex. Mr. Westwood's father celebrated his golden wedding in 1858 and his diamond wedding in 1898, and a sister has just celebrated her golden wedding.

Sea Encroaching on Sussex

East Sussex County Council has decided to spend $32,000 to protect the road between Rottingden and Brighton from the encroachment of the sea by building seawalls and groins. The Marquis of Abergavenny has contributed $1,500 and Brighton Corporation $1,500.

Took Summons for a Circular

How a wife flung a jury summons into the fire, thinking it was an advertisement circular, was related at Marylebone County Court. The result was that the husband did not appear, and was fined for non-attendance. On hearing the circumstances the judge remitted the fine.

Golf Course From Waste Land

For a long time an eyesore to residents of Ryde, Isle of Wight, a piece of waste land near Canoe Lake has been leased at a nominal rent by the Ryde Corporation, who have engaged Charles Jacobs, the professional coach of the Royal Isle of Wight Golf Club, to lay out a miniature nine-hole course where he and his sons will give lessons.

Rector as Actor-Dramatist

"Glastonbury," a play written by the Rev. W. T. Seward, of Belmhurst Rectory, St. Neots, is to be produced at the Court Theatre for a series of matinees. Mr. Seward will produce the play himself, and also play the leading part—the Abbot of Glastonbury. The production is in the interests of Church defence.

Danish Bacon Factory in England

Danish methods throughout are to be used in a new bacon factory about to be opened by Suffolk farmers at Elmswell, near Bury St. Edmunds. The machinery is of Danish origin, having been erected by Danish mechanics, and the manager of the factory is a Dane who will employ a certain number of men accustomed to similar work in Denmark.

Mr. Crook's Severe Fall

Mr. Will Crooks, member of Parliament for Woolwich, had to deliver a speech sitting at Newcastle-under-Lyme, owing to an unfortunate mishap. Shortly before the meeting, whilst leaving his host's house, he slipped down several stone steps, and was much shaken and bruised, his left leg being so badly hurt that at first he thought it was broken.

WONDERFUL LUCK

"Did your husband have any luck at the races?" asked an inquisitive caller.

"Wonderful luck!" answered the young hostess. "He inadvertently put a fifty dollar bill in his waistcoat pocket and forgot to 'put it on'!"

WOUNDED AN EDITOR

Welsh Students Did Not Take Kindly to Sporting Writer's Criticisms

That the students of Wales do not appreciate criticism in the press, the sporting reporter of an Aberystwyth paper has just found out to his sorrow. Because in his report of a football match he made some drastic remarks about the football methods of the students at Aberystwyth College the angry students invaded the offices of the local paper, seized the editor and marched him to the castle ruins. There he was bound and the contents of a can of syrup was poured over his head. Then bags of confetti were flung at him from all sides, until he looked like a human kaleidoscope. Then he was borne on a truck, trussed like a fowl, through the streets of the town. The streets were full of people, who looked on in amazement as the crowd of jeering students carted their victim along the Marine Promenade. At length, amid the howls of the student mob, the newspaperman got to his lodgings to rid himself of the sticky mess and discard his ruined clothing.

PRINCESS MARY

Daughter of King George and Queen Mary. Her full name is Victoria Alexandra Alice Mary. She was born April 25, 1897.

LATE KING'S TRINKETS

Watch Chain of Queen Alexandra's Hair and Other Treasured Articles Given to Museum

The new London Museum has been enriched by the receipt from Queen Alexandra of many articles which belonged to King Edward. The most interesting of these is a watch chain which the late King used to wear, made of Queen Alexandra's own hair. To the chain, which is studded with diamonds, is attached the following inscription:—

"Watch chain of H. M. Queen Alexandra's own hair, and given by her to King Edward VII, in 1864."

In the same case are a medallion and ribbon each of the three different classes of the Victoria and Albert Order. This Order, like the Garter, is returned to the Sovereign at the death of the holder, and those in question were returned to King Edward. They were bestowed upon Lady Codrington, the Queen of Hanover and the Countess Spencer. Nearby are King Edward's favorite cigar and cigarette cases and his cigar box. The collection is completed with several pairs of gloves worn by the king on special occasions, and also a favorite woolen muffler.

ACTOR AND FUR COAT

Strange Tale of a Maharajah and a Big Salary

An extraordinary story was told at Bow Street police court when Frederick Chandler, aged thirty-eight, described as an actor, was committed for trial on a charge of stealing a lady's fur coat, worth $140, belonging to Mrs. Margaret Shaack, a boarding-house keeper.

Mrs. Shaack said Chandler, when staying at her house, told her he was in the secret service of the Maharajah of Cooch Behar, with a salary of $2,500 a year. He said he thought he could sell the fur coat for her to one of his own people, by which she thought he meant one of the Indian princes. He took the coat away, and later said he had sold it for $300 and the money would be forthcoming on the following Monday. Afterwards he said the money had been stolen from his pocket in a restaurant.

Evidence was given that the coat was pledged for $40 on the day the accused received it. The accused afterwards sold the pawnticket for $30.

A detective said the accused had been brought up on a Home Secretary's order, as he had already been committed for trial on a charge of wounding a jeweler by striking him on the head with a gingerbeer bottle and squirting ammonia over him when he called at his flat with some jewelery he had for sale.

AUSTRIAN SUFFRAGETTES

The woman Suffrage movement, which has hitherto found few adherents in Austria, has suddenly sprung into life in an astonishing manner. At the first Austrian female suffrage conference held in Vienna and attended by numerous ladies of the women's agitation, mostly ladies belonging to well-known patrician families, it was resolved to demand equal and direct electoral rights for women for all representative bodies. At Prague also a meeting took place of representatives of all the Czech female organizations, and a resolution was passed to demand active electoral rights.

IN THE WORLD OF SPORT

AMERICAN AND NATIONAL LEAGUE SEASON OPENED BEFORE GREAT CROWDS YESTERDAY

Champions in Both Leagues Began Their Season With Victories Yesterday — Cleveland Beat Detroit in 11 Innings.

GIANTS' BIG SCORE

NATIONAL LEAGUE.

Cubs Beaten.

Cincinnati, April 11.—Before by far the largest crowd that ever saw a ball game in this city, Cincinnati defeated Chicago in the opening game of the National League season here to-day by a score of 10 to 6. The game marked the formal opening of the new grand stand and park. Both Cole and Frank Smith were forced to retire early in the game before an avalanche of hits. Charley Smith, who relieved Cole did little better and was relieved in the final inning by Richie. Humphries, who relieved Frank Smith for Cincinnati, had the visitors at his mercy with the exception of the seventh innings when a single and a triple allowed a run to come over. The game was remarkable for the good fielding, considering the number of runs scored. Bates, Egan, Bescher and Phelan starred at the bat for the locals, while Sheckard and Schulte hit well for Chicago.

St. Louis Hit Hard.

St. Louis, April 11.—Thirteen hits, including a home run by Evans, enabled St. Louis to shut out Pittsburg 7 to 0 in the opening game. Evans' home run was followed by a three-base hit by Konetchy in the sixth.

Kling's Team Wins.

Boston, April 11.— National President Thomas J. Lynch of the National League saw the lowly Boston team of last season, now rejuvenated, defeat Philadelphia, with Alexander pitching, by a score of 7 to 4 in the first game of the season to-day. A crowd which nearly filled the grounds applauded the frequent and heavy hitting. Spratt of the locals leading with a home run, triple and single. The usual opening ceremonies marked the beginning of play for the forty-fifth year, and Mayor Fitzgerald threw the first ball.

Catcher Fischer, a splendid backstop now with the Toronto International League Club, at the training grounds. He is expected to make good, and get a place on the team.

Easy For the Giants.

Brooklyn, N.Y., April 11. — New York won the opening game here today before the largest crowd that ever attended a National League contest here. So dense was the crowd that it encroached on the diamond, and a battalion of police had to be called in, on the advice of Mayor Gaynor, to give the players room. A hit into the outfield that would ordinarily have been an easy out, went for two bases. The New York team took advantage of this, getting no less than ten doubles. They piled up 18 runs off the three Brooklyn pitchers, while Brooklyn scored but three. Marquard was effective in all except the third inning. The crowd to-day was estimated at 30,000.

AMERICAN LEAGUE.

Cobb Failed to Hit.

Cleveland, April 11.— The largest crowd ever in the new league park attended the opening game to-day of the Cleveland season, Cleveland defeating Detroit 3 to 2 and the game going eleven innings. The winning run was scored on Turner's single and Easterly's double. Delehanty's error, Turner's sacrifice and Mitchell's single produced Cleveland's first run, while Bush's error, Dyan's steal, Hohnhorst's sacrifice and Turner's out sent Ryan across in the fourth. Detroit tied the score in the sixth on a pass to Cobb, errors by Hohnhorst and Turner and Delehanty's out. Much interest was displayed in the rivalry between Cobb and Jackson. The latter took off the honours with three hits, two stolen bases, four putouts and one assist. Cobb did not get a hit. Lajoie was twice purposely passed with Jackso non second and two out.

Champs Win.

Philadelphia, April 11.— Philadelphia won the opening game of the American League season here this afternoon from Washington, 4 to 2. A large crowd turned out to witness the march of the players across the field, the flag-raising and the throwing out of the ball by Mayor Blankenburg.

Walsh in Form.

Chicago, April 11.— The American League baseball season was opened in Chicago to-day with a 6 to 2 victory for the local team over St. Louis. Big Ed. Walsh was in fine form, having but one bad inning, in which three hits and a balk called by Umpire Evans, gave the visitors their score. Mayor Harrison presented a chest of silver to Manager Callahan the gifts of some of his friends.

Red Sox Triumph.

New York, April 11. — The Boston Red Sox won the opening game of the American League season in New York to-day, defeating the Highlanders 5 to 3 by a batting rally which netted four runs in the ninth. Cree's fielding featured for New York and Hooper's work in right and Wood's pitching and all-round playing and at the bat featured the play for the visitors.

NEWS FROM THE LEAGUE CIRCUIT

Ottawa Free Press:

It's remarkable the value untried ball players place on their services. The Ottawa Club has had more trouble with youngsters whose ability is unknown, than with experienced men whose records are down in the guides. In the majority of cases the unknowns have asked as much and in some instances more money than the players whose worth is known. All Minor league clubs have to take chances on youngsters and the outlay is considerable. When the Ottawa club goes to Chatham at the end of this month there will be twenty-two or more players there to try out. Some of these men will be canned, because the club cannot carry more than fourteen men and remain inside the salary limit.

Pitcher Munson, the big Burlington boy, who is recommended by George Winter of the Toronto Club, has asked for a contract considerably in excess of what the club is paying either Harry Draper or Larry Hamilton, two hurlers who have delivered the goods in fast company. Munson has not done any great amount of pitching and the local club forwarded him a contract simply on his recommendations and records as a semi-pro. He has been invited to come and see if he can make good on the same contract as other tryout pitchers, and if he comes through he runs a very good ch ance of a salary boost. If he doesn't like those terms, the club has notified him he is at liberty to sign up with anyone he chooses.

Ottawa Citizen: The Ottawas will not accept Sammy Lichtenhein's offer of Pittsburg Bridges, Press and Leclaire. Lichtenhein offered them to the Ottawas for $200 each, but the locals feel that they have already squandered enough on their pitching staff, and will pass the Montreal castoffs up unless Lichtenhein makes them a present of the trio. Leclaire, however, might prove a strong drawing card, as he is a French-Canadian and no players of that nationality have yet been signed.

Ottawa Citizen: News from the other end of the circuit continues very encouraging. The Hamilton, Guelph, Berlin, Brantford, and Hamilton Clubs are strengthening daily, and will be right up in the championship race. Peterborough has gone wild over baseball, and the fans near the lift lock can scarcely wait for the opening game in the Canadian series. There was a slight hitch at St. Thomas Club over the managerial job, but everything is understood to have been smoothed over. The St. Thomas followers look for a rupture of all records when the Ottawas start the fireworks there on May 14.

Ottawa Journal: When a Peterborough fan wrote in to one of the papers in that town suggesting that the ball club be called "Yankees," he hit a spot that is somewhat tender to many of the Canadian rooters. Of course, the game is an American one and it is natural that it should be played in the States more than in Canada, also that the best players should come from the country where they play the most baseball. But a league with a name like the Canadian League would make a hit with a large number of the ball fans if they would look around Canada for men and give at least a percentage of them a trial before going outside. The Ottawas announce themselves willing to give any Canadian a tryout at Chatham. How about the other seven clubs in the circuit?

Ottawa Journal: So London will have Bowerman, who used to catch for the great and only "Matty," at the helm this season, also behind the bat when they need a utility catcher. And just a few short weeks ago some of the teams in the league were raising a howl that Frank Shaughnessy was out signing up a big league team and that he intended to exceed the salary limit.

Peterborough is getting right down to business. The thriving little electric city has the markings of a good ball team, and they seem to be giving Manager Templin all kinds of support. 'Old Folks' now claims to have the team pretty well signed up, and is ready to open the season.

No applications in yet for the peanut privileges out at Lansdowne Park. Time that the local club got busy and hunted up someone, even if they have to go to Tripoli. Baseball without peanuts! Gadsooks! 'Tis unthinkable.

Double Breasted SACK SUITS FOR SPRING 1912

¶ MADE in Navy Serge and plain grey or brown materials, very stylish and becoming

Can be had in two or three piece Suits lined or unlined

THE LONG SOFT ROLL gives a most attractive finish to those shown for Spring.

Selection may be made from Stock, ready-to-wear, or a suit cut to your own individuality from one of the many patterns of materials shown in our Special Order Department.

THE 1912 McLAUGHLIN

$2,350 F. O. B. OSHAWA

The automobilist who delights in a motor that hums a steady though quiet tune—that is responsive to his controlling touch—that seems to laugh at hills and sandy roads—and who appreciates the little conveniences that add to his comfort—the Self-Starter, the complete Electric Light Plant, with separate dynamo—such a man should inspect McLaughlin-Buick Model "43".

The 40 to 50 H.P. Buick Motor provides ample reserve power for all emergencies.

The dependability to the manufacturer is more to be trusted than the cleverest arguments of the salesman. That is why the cautious purchaser of an automobile places more reliance on the reputation of the McLaughlin Car and its makers than on the most glowing promises of a salesman, however well they may be founded.

Your future satisfaction demands that your choice be a McLaughlin-Buick.

ATHLETICS AND GIANTS ARE FAVOURITES AGAIN

NEW YORK, APRIL 11. — What sporting experts think of the pennant chances of various major league baseball clubs is indicated in a betting chart made out by a syndicate of bookmakers. The prices offered are as follows:

American League—Philadelphia, 7 to 5; Detroit, 5 to 2; Boston, 7 to 2; New York, 10 to 1; Cleveland, 15 to 1; Chicago, 20 to 1; Washington, 50 to 1, and St. Louis, 100 to 1.

National League New York, 2 to 1; Philadelphia, 3 to 1; Chicago, 7 to 2; Pittsburg, 4 to 1; St. Louis, 15 to 1; Cincinnati, 25 to 1; Brooklyn, 50 to 1, and Boston, 100 to 1.

It is said the betting on baseball will be largely increased this year on account of the decadence of horse racing. There will be no opening for bookmakers at the ball parks, but poolrooms, hotels, and cafes in most of the big cities will offer plenty of opprtunity for those who wish to play. All the major league clubs have engaged private detectives, who will patrol the grand stands and bleachers in an effort to eliminate even private betting. Unusual vigilance is to be exercised in Pittsburg and Boston, where the baseball bettor has become a veritable pest. The National Baseball Commission has also requested the postal authorities to look after professional pool sellers and bookmakers.

Shiloh's Cure
quickly stops coughs, cures colds, heals throat and lungs. 25 cents.

ers, bedroom furniture, china and glassware. Also "Favourite" range complete. To be sold at once. Afternoons and evenings, 522 Charlotte street west. 12d-89.

A Runaway.— Considerable excitement was caused this morning when a horse belonging to Mr. Switzer of Emily, took fright on Water street and bolted northwards. Dragging the sulkey behind him, he rounded the corner of Hunter street and proceeded as far as the Palace Hotel yard, where he was caught. No damage resulted.

Mission Band Rally.— The Mission Band of the Murray street Baptist church will hold a rally to-night. The sixty China boxes which have been out for the past two months will be opened by Chief Thompson and their contents counted. In addition a very interesting programme will be presented. There is no admission charge and the public is cordially invited.

"Father, dear, you must come to-night and see Boorman's new Pastry and Confectionery Store, corner of Aylmer and McDonnel. They have the most delicious Cakes, and Pastry, Pies and Cookies, Fruit Cakes, Cream Puffs, Vienna Rolls, Raisins and Currant Loaves, special Brown Bread and lovely baked buns and fancies. They are going to have a beautiful ice cream parlour soon, and such a dear soda fountain. The store is so nicely kept and everything so clean and in good taste.".

Going to Enlarge Factory.—The Peterborough Showcase Co. intends enlarging their factory to twice its capacity, this year. We manufacture Silent Salesmen Showcases, Wall Cases, Barber Cases, and Store fixtures of every kind made to order, also China Cabinets, Kitchen Cabinets, Writing Desks, Book Cases, and any kind of special Furniture made to order. OPPOSITE CUSTOM HOUSE

Hands Across the Sea.

London, April 13.—The Lord Mayor of Bristol has reported to the City Council the request received from the Mayor of Halifax, N.S., that Bristol shall be represented at the dedication of the tower erected there to commemorate the one hundred and fifteenth anniversary of the first meeting of the Legislative Assembly. The tower is similar in design to the Cabot tower in Bristol and it is thought fitting that Bristol shall be represented at the opening ceremony when the Duke of Connaught will be present.

Macedonian Electrocuted.

Toronto, April 13.—Through one of those unavoidable accidents for which no one is to blame, Christopher George, a Macedonian, who has been employed for some time at the tanneries of Clarke and Clarke, Christie street, lost his life yesterday. He was switching on the electric power to start a power in the ordinary way when he received a shock, and was electrocuted on the spot. The probability is that he accidentally touched some of the sections conveying the current.

May Abandon Commission.

Ottawa, April 13.—Gossip in political circles is to the effect that the Government may not bring in next session, a bill to establish a tariff commission, but will probably elaborate a general policy respecting the tariff in general.

HE MEANT TO RETURN

Dr. Beattie Nesbitt Had Negotiated to Surrender Himself—Has Been Positively Identified

WIFE DOES NOT KNOW

Toronto, April 13.—Despite the prominence given to stories of the desperate fight which Dr. Beattie Nesbitt is said to be preparing to make in Chicago against his extradition to Canada, nothing has yet been said by his counsel or himself indicating in any way that he intends to give up his original intention of returning voluntarily to face the charges against him here.

It was learned yesterday that the doctor had entertained this thought for more than a month and that there had been negotiations on foot to have him come back to give evidence before the royal commission at present examining into the granting of the charter of the Farmers' Bank. These were not successful, but even after the close of these negotiations, the doctor still intended to return to Toronto. He has now been remanded before the U. S. Commissioner of Extradition until April 26, and no developments are to be expected until then, unless the American immigration department decides to deport him, when he will be brought back by the Canadian authorities.

Mrs. Nesbitt has not yet been told of the arrest of her husband. She is confined to her bed at her home, under the care of a doctor, who fears that the news, in her present weakened condition, might prove too much for her. Such news would come as a great shock to her as the last word that she had in the matter was to the effect that her husband would return in less than a week to face the charges of which she still stoutly declares his innocence.

There is a very pathetic side to the plight of this very human personality who has occupied the limelight before the public in many roles. Perhaps there is none more appealing than that cast by a view of the very near and intimate regard in which he is held by his immediate family. On St. Valentine's Day his very little daughter sent him a remembrance of the day. Upon it she had scrawled in a childish hand, "Dear Daddy, do come home soon. Every night I have prayed to God to bring you back and He does everything for little girls. But dear, dear Daddy, sometimes He is so slow."

It is said that the receipt of this note doubled the doctor's determination to return to his home and family. It is a significant thing also that when the troublous days fell upon his bank the doctor retired to the seclusion of his Muskoka home, taking with him his wife and little girl, and it was there that he remained until warned to flee by the mysterious telegram which just preceded the issue of the warrant for his arrest.

Awaits Extradition.

Chicago, April 13.—Dr. Beattie Nesbitt, one-time president of the Farmers' Bank of Toronto, last night was in the custody of the United States Government here awaiting extradition on the charge of forgery and false returns in connection with that institution. Dr. Nesbitt was taken to the county jail late yesterday after a hearing before U. S. Commissioner Foote. The extradition laws do not permit of bail. His hearing was continued to April 26. Nesbitt's attorneys, William K. Patterson and William H. Holly, would not state what their course of action would be, but it is said that Nesbitt will fight all attempts to extradite him.

Nesbitt at first denied his identity. A number of Toronto school teachers attending a convention here, positively identified him, however, and later his attorneys gave out a statement admitting him to be the former Canadian bank president, but denying he was guilty of any offence.

Attorney Patterson caused surprise by declaring that to his own knowledge Nesbitt had been in Chicago for more than a year and frequently had dined with him at a downtown hotel.

"The president of a bank in Canada is merely a nominal figure," said Mr. Patterson. "The cashier and other officers have most of the power. The charge of forgery is not extraditable in any event. Mr. Nesbitt, moreover, did not forge anything. He merely signed a false statement which resulted in the wrecking of the bank."

The charges against Nesbitt, as made known yesterday were: Making false return to the Government of Canada under the banking laws of 1907.

HOME RULE CRITICIZED.

Exemption From Defence is Ground For Complaint.

London, April 13—The adjournment of the home rule for Ireland debate in the House of Commons until Monday has given an interval in which the opinions of public men of all classes are being canvassed on the main outlines of the measure. As far as details are concerned, especially of the complex financial proposals, it will be needful, however, to await until the bill is in print, which probably will be Wednesday.

In the Stock Exchange yesterday the introduction of the bill had no effect whatever. Consols rose slightly, but Irish bank and land stock prices did not change. According to the Unionist view the failure of the measure to affect prices was the outcome of a belief among bankers and financiers that the bill will never become a law. Criticisms of the measure seems likely to fasten itself upon the financial proposals, not only on the part of opponents, but also supporters of the bill, as the financial scheme, together with the clause calling for a nominated senate, are considered its weakest spots.

The exemption of Ireland from any contribution to the army, navy, diplomatic service, etc., also is severely criticised, while it is predicted that such a scheme of dual government as the bill proposes would lead to constant friction between the Imperial and Irish Parliaments, since the Imperial Parliament, the Lord Lieutenant of Ireland and the Privy Council each would possess the power to veto over the Irish Parliament.

The Spectator describes the bill as both foolish and cowardly. It says the Government, afraid to grant the Nationalists' demand for colonial home rule, bribed them into accepting much less to begin with, but in allowing forty Irish members to remain in Westminster, have provided them with an instrument for extorting in the future full colonial powers. The Spectator adds that as the Nationalists thus eventually will get both the bribe and full powers, they naturally are contented.

Drowned Off Seawall.

Toronto, April 13.—Mait Akroyd yesterday afternoon at 1.30 recovered the body of the man who ended his life off the seawall at High Park. The body is that of a man of about 25, with the appearance of a working man. An I. O. F. record book and $7.80 were in the pockets. The body had been in the water some hours.

Harold Male and Cecil Carrick found the man's watch and a letter addressed to James Stewart, in care of John Neil, Mimico, on the sea wall.

Jail Governor Dismissed.

St. Thomas, April 13.—The Provincial Government has definitely decided on the removal of Mr. N. W. Moore, governor of Elgin County jail for the past twenty-five years, and has named W. F. Luton, of Mapleton, former warden of the county, as his successor. The change takes effect May 1.

FILLING IN CLUES

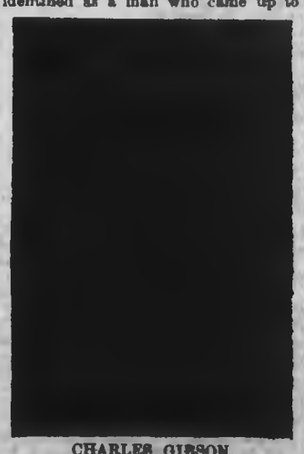
Toronto Police Are Trying to Clear up the Rosenthal Case—Gibson is Arraigned on the Charge

CLOTHES ARE FOUND

Toronto, April 13.—Yesterday the police succeeded in drawing their net of evidence even more closely about Charles Gibson, so cleverly arrested in the West Market street sub-station of the city Hydro-Electric Commission by Detective Cronin Friday night. The detectives located the clothes which he is said to have worn on the night of the murder. They were discovered in a lodging-house in Church street, where Gibson passed Saturday night. Upon these clothes there are stains which resemble blood stains and which are believed to be such, but which will be analysed and tested so that this may be made certain.

The police have learned that another woman in the Ontario street house where Gibson lived with his father and stepmother was shown his shirt with a blood stain upon it on the morning following the murder, and that the stepmother took it to the cold water tap and washed out the stain.

The authorities have also learned that Langmaid, the meter reader, who was in the sub-station when Gibson was taken, and who denied having seen him since the murder, has been identified as a man who came up to



CHARLES GIBSON.

Gibson in the street on the Wednesday before the murder and said to him: "That deal will not come off to-night." It is understood that when Langmaid, who has thus far been charged with vagrancy, comes up on Friday next he will be charged with being an accessory after the fact to the murder, inasmuch as he harbored and succored Gibson. The penalty for this offence is life imprisonment.

Gibson was arraigned in the police court yesterday and pleaded not guilty. He was represented by W. A. Henderson of Robinette, Godfrey, Phalen and Henderson. He was remanded a week. The young man, who is slight and tall, and of almost boyish appearance, did not seem perturbed as he stood in the dock with the eyes of a little more than the ordinary police court crowd upon him.

It is not likely that there will be much evidence offered at the inquest, which is to be continued Monday evening, as the police are not yet ready to disclose all the evidence which has come to their knowledge. They believe that there was only one man actually at the scene at the time that the murder was committed, and point out that the deed might easily have been committed by one man of even less than ordinary strength.

Dunkelman still lies in the General Hospital. He is yet too weak to be interviewed by the police, but is progressing in a way far beyond the original expectations of the doctors in attendance.

REFUSES TO TELL

Premier Whitney Refuses Point Blank to Do Anything When Mr. Rowell Brings in the Elk Lake Telegram

SENATE CRITICISED

Toronto, April 13.—With the session of the Legislature scheduled to close to-day, rapid-fire changes were run in on the final hours yesterday afternoon, and, under the pressure of time, amendments, divisions and sharp exchanges between the leaders followed each other in rapid succession. Resolutions were adopted protesting against the action of the Senate in throwing out the bills for the T. & N.O. subsidy and highway aid for the province.

The former resolution, by W. S. Brewster (South Brant), was objected to by the Opposition on account of the wording as not likely to produce good results on another application for the subsidy at Ottawa. Mr. Proudfoot's amendment approved the principle of granting subsidies to provincial railways and of the action of both the former and the present Provincial Governments in applying to Ottawa for aid, and held that the objections to granting the subsidy would be removed if the proceeds were devoted towards extending the railway, and suggested that the Government should renew its application.

The resolution of Mr. Arthur Grigg (Algoma) in respect of the highway grant expressed indignation and deep regret that the popular will had been overridden by the partisan action of the Senate. An amendment moved by Mr. W. E. N. Sinclair (South Ontario) declared that the grants to the several provinces should be on a fixed basis, and regretted that the Federal Government declined to accept that principle. This motion was lost on a vote of 71 to 19.

The Elk Lake telegram again occupied the limelight, and the Prime Minister could not be drawn into making a statement as to its authorship.

Mr. Rowell read from a return of correspondence and reports in connection with the Elk Lake extension. He quoted from reports by the Engineer of the commission dealing unfavorably with the route from Earlton to Elk Lake, which had been decided upon later.

Going over the circumstances again, Mr. Rowell said that the Prime Minister ought to state to the House whether he sent the telegram purporting to be signed by him in answer to one that he had received.

Sir James charged that Mr. Rowell all through the 'discussion' has held back the fact that he had received a telegram himself. "Now my hon. friend says that before this clause passes I should do something. I will tell my hon. friend that if this clause never passes I will not do it."

"Whenever we propose doing a good thing for the people we will make a point of telling the people about it, no matter whether there is an election on or not," concluded Sir James.

Married His Half-Sister.

Cincinnati, April 13.—A strange story which resulted in John P. Ruch, jr., aged 23 years, being divorced from his half-sister, Helen Hoffman Ruch, 24, was related in the insolvency court here yesterday. The brother and sister were married October 25, 1910, neither at the time knowing of the blood relationship between them. The discovery of the relationship was disclosed a few weeks ago, and the action for a divorce followed.

It was explained to the court that the mistake had been possible because of the fact that the mother, for a private reason, had hidden from the children the fact that they were brother and sister, allowing them to believe that the girl was only an adopted child.

The husband was given the custody of the two children.

Negro Family Murdered.

San Antonio, Texas, April 13.—William Burton, his wife, two children and Leon Evers, his brother-in-law, all negroes, were murdered while asleep in their homes here early yesterday.

The head of each victim appears to have been crushed with an axe, and butcher knives were found sticking in all bodies except those of the children.

NUGENT'S SARSAPARILLA

Price, large bottle, 100 full doses 75c and well worth $1 too. It's better to take no medicine at all than to depend upon cheap concoctions that are compounded to sell at a low price and a big profit just because there is a large demand for certain sarsaparillas at certain seasons of the year.

There are so-called Sarsaparillas offered to us to sell to our customers at 75c a bottle that would bring us a larger profit than Nugent's Sarsaparilla sold at 75c.

Nugent's Sarsaparilla purifies the blood, arouses the torpid liver, drives out all impurities, cleanses and tones up the system, and helps Nature throw off the dullness that comes from the indoor life of winter. It arouses energy, brightens the eye, clears the brain, gives freshness to the complexion.

Nugent's Sarsaparilla is not the only thing you will find in this drug store. We make a specialty of Nugent's remedies.

MRS. STEVENS RECOVERS

After Years of Suffering. Tells How Her Health Was Regained.

Waurika, Okla.—"I had female troubles for seven years, was all run down, and so nervous I could not do anything. The doctors treated me for different things but did me no good. I got so bad that I could not sleep day or night. While in this condition I read of Lydia E. Pinkham's Vegetable Compound, and began its use and wrote to you for special advice. In a short time I had regained my health and am now strong and well."—Mrs. SALLIE STEVENS, R.F.D., No. 2, Comanche, Okla.

Another Woman Recovers.

Newton, N.H.—"For five years I suffered from female weakness and dragging down pains. Lydia E. Pinkham's Vegetable Compound has restored my health and the pains are gone."—Mrs. F. A. PEARLER, R.F.D., Box 88.

Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has remedied many cases of female ills, such as inflammation, ulceration, displacements, tumors, irregularities, periodic pains, backache, and it may be exactly what you need.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

MAXWELL

MAXWELL'S HIGH SPEED CHAMPION

Is the Washer for a Woman

In the first place, Maxwell's "Champion" is the only washer that can be worked with a crank handle at the side as well as with the top lever. Just suit your own convenience.

Another Maxwell feature—Lever and Balance Wheel are so accurately adjusted and work up such speed that the washer runs along even when you have stopped working the lever. There's no doubt about Maxwell's "Champion" being the easiest running washer on the market.

Write for new illustrated booklet. If your dealer does not handle Maxwell's "Champion" Washer write direct to MAXWELL & SONS, St. Mary's, Ont. 92

A SONG OF LOVE.

Above the edge of dark appear the
lances of the sun;
Along the mountain ridges clear his
rosy heralds run;
The vapors down the valley go,
Like broken armies, dark and low,
Look up, my heart, from every hill
In folds of rose and daffodil
The sunrise banners flow.

O, fly away on silent wing, ye boding owls of night!
O, welcome little birds that sing the coming in of light!
For now, and now, and ever-now,
The golden bud within the blue;
And every morning seems to say:
"There's something happy on the way,
And God sends love to you!"
—Henry van Dyke.

NEWFOUNDLAND.

Progressive Temperance Legislation —Local Option Widely Operative —Early Closing Now Added— Rearing a Temperance Generation.

The prosperous and growing colony of Newfoundland has made another step in advance. Pioneer readers are familiar with the fact that in all Newfoundland, except the city of St. John's, the liquor traffic is entirely prohibited through the working of Local Option legislation. To this has now been added a law that closes all liquor-selling places every evening at six o'clock, and keeps them closed until nine of the following morning.

It must be remembered that Newfoundland is the tenth largest island in the world, covering an area of 42,000 square miles, with an extensive coast line of 3,365 miles. It is one-third larger than Ireland, twice as large as Denmark, and three times as large as Holland. The strict regulations affecting the sale of intoxicating liquors in this vast territory are enforced and the people kept in hand by a hundred police, without army or navy assistance, which speaks well for the law-abiding character of Newfoundlanders. The population is about 240,000.

Not seldom it is asserted that temperance legislation brings about commercial stagnation. If this were true, Newfoundland would by now be on the verge of bankruptcy! But what are the real facts? Just the reverse. The colony is in affluent circumstances.

The revenue for the past ten years has more than doubled itself and the taxation has been reduced during that period.

It is a striking truth that no constituency or district in this colony, having once adopted Local Option or no-licence, has ever reversed its decision or gone back to the licensing system.

The district of Twillingate, with a population of nearly 20,000 people, has had twenty-nine years' experience of Local Option, having adopted it on March 26th, 1883. There have only been about twenty-five convictions during that whole period, and for a run of several consecutive years not a single complaint was entered.

NEWMARKET.

Hotel Without Licence Pays.

When the Local Option By-law was passed by a vote of 67 per cent. its opponents of course said it could not be enforced and the hotel accommodation would suffer. The temperance people took up the challenge, formed a syndicate, bought the old Forsyth House and, putting on $20,000 worth of improvements, placed in charge Mr. G. H. Brown and his wife at a good salary, both of whom had all their lives been accustomed to hotelkeeping and have proved thoroughly competent in the management. The hotel is known far and wide as one of the most comfortable to be found anywhere in the Province, the meals and dining room accommodations are first-class, the 22 bedrooms excellent, and for the moderate charge of $2 a day it has been made satisfactorily profitable, as the stockholders have received 6 per cent. on their money, besides a good sum being laid away for further improvements.

There were three hotels in the town before local option came in. The Royal was closed up by its proprietor and subsequently used for a time as a hospital, but is now again disused. The Eagle Hotel is closed up. All three, it is admitted by the temperance people, were well run, as hotels go, under licence, the law being very well observed. This made it somewhat harder to oppose them. But the one hotel now accommodates all the transient trade, and is practically full four nights a week. Boarding-houses cater to the rest of the legitimate business of accommodation—that is, for workingmen who have no homes. So there is no opposition to the King George, but the fact remains that Mr. Brown and his wife are running the hotel without a liquor license, and are making it pay, as well as spreading its reputation for cleanliness and comfort. It is stated that travellers prefer to stay there and run down to Aurora and elsewhere to do their business in those towns. A drug traveller from Detroit makes it his headquarters for this part of the country rather than Toronto, and it is even said that a traveller for a brewery prefers it to other towns nearby because of the comfortable meals and bedroom accommodation.

TAKEN THOUSAND ZUTOO TABLETS

Cured 500 Headaches.

Mrs. (Dr.) Shurtleff, of Costicook, says, "Zutoo Tablets must have cured 500 of my headaches, for I have taken 1000 tablets. After trying every remedy within reach, I discarded them all four years ago for Zutoo, which I have taken ever since. I find the tablets a harmless and efficient cure for all kinds of headache."

TRIED EVERYTHING WITHOUT RELIEF

Until I took "Fruit-a-tives"

SARNIA, ONT., Feb. 5th, 1910.

"I have been a sufferer for the past 25 years with Constipation, Indigestion and Catarrh of the Stomach. I tried many remedies and many doctors but derived no benefit whatever.

Finally, I read an advertisement of 'Fruit-a-tives'. I decided to give 'Fruit-a-tives' a trial and found they did exactly what was claimed for them.

I have now taken 'Fruit-a-tives' for some months and find that they are the only remedy that does me good.

I have recommended 'Fruit-a-tives' to a great many of my friends and I cannot praise these fruit tablets too highly."

PAUL J. JOURS

"Fruit-a-tives" is the only natural cure for Constipation and Stomach Trouble, because it is the only medicine in the world that is made of fruit juices and valuable tonics. Hundreds of people have been cured, as if by a miracle, by taking "Fruit-a-tives", the famous fruit medicine.

50c. a box, 6 for $2.50, trial size, 25c. At dealers, or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

SHOULD WOMEN VOTE?

The result of a plebiscite on the question of woman suffrage is announced by the Montreal Daily Witness, which journal asked its women readers to express their views by ballot upon the question. Here is the record of the result.

The result is a total of 2,134 ballots in favour of votes for women. The coupons have come from every province, from cities, small towns, and country districts. Some of the small places have sent in quite as many coupons in proportion to population as the cities. Ontario leads with 886 ballots, with Quebec a close second, 855. Of the number from the Province of Quebec, 389 are from Montreal. Nova Scotia and Manitoba are equal, 99. British Columbia comes next with 50; Alberta, 38; Saskatchewan, 37; Prince Edward Island 33; New Brunswick, 31. Witness readers in the United States sent 23 coupons, and one came across the sea from Ireland.

A number of men expressed themselves as in favour of votes for women—these were not counted—and other coupons remarked that the men of the family would have added their names if the coupons had been open to them. In several instances the coupon was signed by an official of the Women's Christian Temperance Union, who stated that it represented a certain number of members of the Union. Such a coupon was counted as only one, however, personal signatures having been called for. Mrs. Gordon Wright, of London, Dominion President of the W. C. T. U., signed as representing a membership of 14,000.

THE FAMILY HEARTH

Keeping House for One's Own Comfort.

He was wise who wrote: "Half the sting of poverty or of small means is gone when one keeps house for one's own comfort, and not for the comment of one's own neighbours." Deny it as we will, few of us have the moral force to set up a standard of our own, based upon our own incomes and our own particular home environments. We commit the folly of regulating our expenses by the income of some one else. If the Browns across the street hang up expensive lace curtains, we are discontented until lace curtains have gone up to our windows, no matter how much smaller our income may be than that of the Browns. If the Smiths put down a velvet carpet our neat and pretty ingrain becomes an eyesore to us. We are extremely mindful of what our neighbours will think about many things that should not concern them in the least. We have no standard of our own. Our dress and even our tables must be regulated by the standard of others. We have not the courage nor the independence to be indifferent to the comment of our neighbours. This form of moral cowardice is causing many families to live beyond their incomes. They can face debt, and forfeit their self-respect easier than they can face the unfavourable comment of their friends and neighbours. The extent to which this imitation of others is carried would be ludicrous, did it not bring so much unhappiness in its train. It is frequently the direct cause of discord and discontent and debt that have driven happiness from the family hearthstone. Let us have a standard of our own, based upon our own needs, and let us cheerfully and bravely adhere to this standard, heedless of that dreadful bugbear, "What will the neighbours say?"

* * * *

"Where shall I draw the line?" says the anxious parent, who is solicitous for his boy's future. Give the young man the sympathetic companionship which he will find elsewhere if not at home; encourage him to seek elevating and refining associations; impress upon him the fact that many amusements are bad only in connection with their associations and the atmosphere of temptation which leads to greater evil; demonstrate to him that the principle of "getting something for nothing" is bad, wholly bad, and if followed will lead to his moral and physical ruin; make home such a bright, congenial place, that he will find more pleasure there than in the haunts of wickedness; more than all else, let him have in you an example of uprightness and moral health. Be sincere, for he can penetrate your disguises and despise you if a hypocrite.

* * * *

Meddlesome persons who are continually prying into other people's affairs and carrying tales between friends and acquaintances create a great deal of mischief and are best contented when they can spread scandal. It seems more natural for them to speak ill of a person than to utter words of praise, and their habit of gossiping becomes so fixed that they can talk scandals almost unconsciously. It is just as easy to say a good word for friends and acquaintances, even if not wholly deserved, as it is to speak ill of them, and the effect on the community is always beneficial in a general way. Scandal gathers as it travels by word of mouth and can never be recalled when once in circulation. Try speaking well of everyone and see what a change it will make in your own happiness as in the welfare of others.

* * * *

If you would gather up all tender memories, all the lights and shades of the heart, all banquetings and reunions, all filial, fraternal, paternal and conjugal affections, and you had only just four letters with which to spell out that height and depth and length and breadth and magnitude and eternity of meaning, you would with streaming eyes, and trembling voice, and agitated hand, write it out in those four living capitals, H-O-M-E

* * * *

Man is naturally a home-loving animal. In fact, most animals are home-loving. And when a man asks a woman to share his life, it is usually taken as a gentle hint that he wants her to make him a home and take a sort of general oversight of his affairs and a special oversight of himself. He likes to know that she does things for him just for the reason that she loves him, and is interested in him and his well-being. He loves his home more if there is some impress of her personality upon it. He likes best the meal she prepares for him. Of course, he says very little—perhaps nothing—of all this, being a man.

* * * *

A gentleman stops at a friend's house and finds it in confusion. He does not see anything to apologize for—"never thinks of such matters." Everything is right, cold supper, cold room, crying children—"perfectly comfortable!" Good homes, where his wife has been taking care of the children or attending the sick, and working her life almost out. Then he does not see why things can't be kept in order; "there never were such cross children before!" No apologies accepted at home! Oh, why not look at the sunny side at home as well as abroad, and try pleasant words instead of surly ones! Why not be agreeable at home? Why not use freely that golden coin of courtesy?

HOME-MADE SOAP.

Collect the small pieces of soap left in soap dishes, weigh them and take half their weight in oatmeal. First add a little water to soap, melt in a saucepan, and when thoroughly melted add the oatmeal. When well mixed pour on to a piece of wood to cool; then cut with sharp knife into small cakes.

Insects like neither salt nor alum, and a small quantity sprinkled on the carpet will keep them away.

Comparatively few people know that a small pinch of baking soda keeps milk longer than sugar, and it is a better plan than boiling it.

Save your lemon rinds, dry them in the oven, and store them in an air-tight tin. A little of this added to an apple pie gives it a delicious flavouring.

When making baked or boiled custard the milk to be used should be scalded and set aside to cool. Then make the custard in the ordinary way, and it will be perfectly smooth.

If one cupful of vinegar is put with the water in which coloured tablecloths are washed it will prevent the colour from running. Iron when still damp, and they will look equal to new.

Art muslin curtains should never be washed in warm water. Make a lather with hot water and when it is nearly cold wash the curtains. If these are green add vinegar; if lilac or pink, ammonia.

Borax water will restore the gloss to sateen in washing.

Use warm water to sprinkle starched clothes and the effect will be twice as satisfactory.

To make glassware clear and sparkling add a bit of bluing to the soap suds when washing.

A painter's brush may be used to dislodge dust from cracks and crevices about the house.

Lemon peel and orange peel, dried, make a good substitute for kindling. A handful thrown into a dying fire will revive it at once.

For another "breakfast steak" pound a piece of round steak until the toughest fibres are broken, then rub it with lemon juice and double it over. Pound it again and sprinkle with salt. Fold it over again, pound a third time if desired and fold yet again. It should now be about an inch and a quarter in thickness. Press it a little to make it adhere and have the edges of uniform thickness. Rub with a little flour, broil like any other steak and spread with butter.

Some housekeepers believe that eggs will beat more quickly if a pinch of salt is added to them.—New York Times.

Try removing mildew by soaking in a weak solution of chloride of lime, then rinsing in cold water.

By slipping stiff collars into a glass tumbler after they are ironed and allowing them to thoroughly dry they can be made to keep their shape.

Elasticity is restored to rubber by soaking it in one part ammonia and two parts clear water until the desired results are obtained. This is specially true in the case of rings or other articles that have become stiff and brittle.

VERSES WORTH REMEMBERING.

IF WE KNEW.

Could we but draw the curtains
That surround each other's lives,
See the naked heart and spirit,
Know what spur the action gives,
Often we should find it better,
Purer than we judge we should,
We should love each other better,
If we only understood.

Could we judge all deeds by motives,
See the good and bad within,
Often we should love the sinner,
All the while we loathe the sin;
Could we know the powers working
To o'erthrow integrity,
We should judge each other's errors
With more patient charity.

If we knew the cares and trials,
Knew the efforts, all in vain,
And the bitter disappointment,
Understood the loss and gain—
Would the grim, external roughness
Seem, I wonder, just the same?
Should we help where now we hinder?
Should we pity where we blame?

Ah! we judge each other harshly,
Knowing not life's hidden force;
Knowing not the fount of action
Is less turbid at its source.
Seeing not amid the evil
All the golden grains of good—
Oh! we'd love each other better,
If we only understood.

—Bessie W. Smith.

SOLITUDE.

There is a pleasure in the pathless woods,
There is a rapture on the lonely shore,
There is society where none intrudes,
By the deep sea, and music in its roar.
I love not man the less, but nature more:
From these our interviews, in which I steal
From all I may be, or have been before,
To mingle with the universe, and feel
What I can ne'er express, yet cannot all conceal.

—Lord Byron.

TOLD BY BURNS.

"I never found it necessary to wear a disguise," said William J. Burns, detective, when he was at the Capitol the other day. "One of the hardest things in the world to do is to shadow a man. Pick out somebody in a crowd on the street some day, turn around three or four times and see if you can identify him. You'll find it mighty difficult. I was trailing a criminal once and was associated with him every day for a month. I lived across the street from him and I observed many times that he saw me—in fact I wanted him to see me, for I was dressed as a mechanic and wanted him to regard me as such. But of course I didn't shave off my moustache—I never do. Finally when I 'pinched' my man he told me that he had never seen me before and nearly fell over with astonishment when I told him he had seen me dozens of times.

"The worst scare I ever had in being recognised happened a few years ago. I was in San Francisco and it was imperative that I go to Seattle without the fact being known. I took every precaution and slipped into my sleeping car late, when all the berths were made up. I thought that nobody had seen me. The next morning we stopped at some little town to change engines. I was sitting in the smoking room. The coloured porter stuck his head in the door, gave a broad grin and said:

"'Mr. Burns, we-all is going ter be here fo' minutes; don't you want to go out and git some air?' I nearly had a fit. There wasn't anything to do; I had to take him into the secret, and he didn't give me away."—Washington Correspondence, New York World.

CAUGHT A BAD COLD.

DEVELOPED BRONCHITIS. SHE COULD HARDLY SPEAK.

Bronchitis begins with a tightness across the chest, difficulty of breathing, hoarseness, and there is a dry, harsh, croupy cough.

After a few days mucous begins to be raised. This is at first white, but later of a greenish or yellow color and is occasionally streaked with blood.

Cure the first symptoms of bronchitis by the use of Dr. Wood's Norway Pine Syrup and thus prevent it becoming chronic and perhaps turning to consumption.

Mrs. Edward Travers, Campbellton, N.B., writes:—"I thought it my duty to write and let you know what your wonderful medicine has done for me. I caught a very bad cold which developed into bronchitis. I was so choked up I could hardly breathe. I tried many medicines but they did me no good, and I had almost given up in despair. A friend advised me to try Dr. Wood's Norway Pine Syrup, so I got a bottle and felt much better, and by the time I had taken four I was completely cured, and I can assure you I cannot say too much in its praise, as it is all you claim for it, and more."

Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper; three pine trees the trade mark; price 25 cents.

Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

MODERN MARTYRS!

The age of martyrs is not passed. There are thousands of women all over the country enduring physical torture and mental anguish almost beyond description. They are not victims of persecution, like the martyrs of old; they are not called on to face the scaffold or the stake, but their sufferings—borne in silence and hidden from the world at large—are scarcely less intense.

These ladies, as a rule, are women and girls of refined and sensitive temperaments. Knowing that their sufferings are due to a disordered condition of the female functions, their native modesty deters them from seeking relief in the earlier stages, and when they do consult a physician, they usually get some drug mixture to take internally, which is not more effective for troubles of this kind than it would be for a toothache, a bruise, or any other strictly local ailment.

The seat of the trouble being in some one of the female organs, the remedy, to be effective, must act on this portion of the anatomy.

This is the secret of the success which always follows the use of ORANGE LILY in derangements of this kind. It is a strictly local treatment. It is absorbed directly into the parts that are inflamed and congested and its beneficent, soothing influence is noticeable from the start. The irritation of the delicate membrane is relieved, the congestion is overcome by the discharge of the watery matter which served to oppress the nerves and cause mental depression; the nerves are toned and invigorated; and the sunshine and joy of life again becomes part of her being. Read the following letters:

Archer, Ont., Feb. 1, '09.
Dear Mrs. Currah:—I received your kind letter some time ago, but was feeling so well, and not needing medicine, that I neglected replying sooner. I must say I have more confidence in ORANGE LILY than in any other thing I have ever used. Before I knew or found out anything about this medicine, I doctored away hundreds of dollars, and when I thought I was dying with inflammation of the womb, a box of ORANGE LILY was sent me through the mail from a friend. The first suppository I used I was greatly relieved, and in a few months completely cured. That was nine years ago this winter, so you can imagine with what esteem I hold the ORANGE LILY. I am thankful there is such a relief for poor, suffering women, for I have been one of them and can sympathize with others. Your sincere friend, MRS NORMAN WEAVER.

Trenton, Ont., Dec. 4th, 1909.

Mrs. F. E. Currah, Windsor, Ont.—
Dear Friend,—I feel it my duty to write you a testimonial as to what Orange Lily has done for me. Last winter I was feeling very miserable indeed. I could scarcely do my housework during my menstrual period, and for two months or more I was never free from pain in the womb and ovaries. The pain would run down in the groin, so I would frequently nearly double up. Then the pain began going up the back of my neck to my brain until I hardly knew what I was doing at times. Life was a burden indeed. I finally could endure it no longer, so went to our leading town doctor and had an examination. He pronounced it (I forget the word) a rigid condition of the generative organs, produced by repeated attacks of inflammation. He said I would have to take a course of treatment and if that failed to overcome the rigid condition I might, in time be compelled to have the ovaries removed. I objected to that, so filled out Dr Coonley's symptom blank and forwarded it to him, and he diagnosed the disease the same as my local doctor, so I decided to take Dr Coonley's Treatment. I have used two jars of Cerate Massage, two packages of Herbal Womb Tonic and six bages of Orange Lily. It is eight months since I began the treatment, but I feel like a new woman. I work right through everything now. Hardly know a pain, even during menstruation now. I often say, "I would not take $100 and be in the state that I was last March." I feel that Dr. Coonley's Home Treatment is a Godsend to suffering womankind, and shall continue to sound its praises whenever I have an opportunity.

Yours gratefully, MRS. T. H. HATTON.

ORANGE LILY as a remedy for these ills, as well as for leucorrhoea, painful periods, irregularities, cancers in their earlier stages, tumors, displacements, lacerations, and all ovarian troubles, has long since passed the experimental stage. We confident nm I of this that I will send ten days' treatment, which is worth 25 cents, to any sufferer ABSOLUTELY FREE. The treatment is inexpensive, used at home, and no physician is necessary. Send at once for the

FREE TRIAL TREATMENT

which will demonstrate that ORANGE LILY will cure you. Enclose stamps, and address MRS. FRANCES E. CURRAH, WINDSOR, ONT., Can. Rep Coonley Med. Inst.. Delays are dangerous. 13

Is There Danger In Your School?

If your school is ceiled with plaster your children—and many others—dwell under a menace. For plaster ceilings may crash down and kill or maim at any moment. Cover old plaster ceilings with PRESTON Steel Ceilings—light, strong, beautiful, sanitary (because washable) and fireproof. Do this without removing the old plaster—we will tell you how. The cost is NOT high; yet these ceilings will outlast the building itself. Have SAFE ceilings. Send for the illustrated book. Write this very day to

ANCIENT CHURCH UP FOR AUCTION

Historic Edifice in Which no Services Were Held for More Than Two Hundred Years

The ancient parish church of St. Bartholomew at Wanborough in Surrey, with the churchyard surrounding it, and the advowson of the living, are to be offered for public auction at Guildford. From 1642 to 1842 no service was held in the church, and it was suffered to fall into disrepair and decay, being largely used as an outhouse for farming purposes. It was also used as a carpenter's shop and a lumber shed.

The church is said to have been built in the reign of William the Conqueror, and soon after the founding of Waverley Abbey six monks were detached to live at Wanborough and to serve the chapel there. Why the ancient church was allowed to fall into decay appears to be unknown. Its disuse is not from the dissolution of the monasteries.

In January, 1861, the tenant of the farm adjoining gave a portion of his kitchen garden to be used as a churchyard in connection with the church, and when the work was completed the church was reopened for public worship by the Bishop of Lichfield during the following year. Near the church is the Manor House, where the late Mr. Gladstone was a frequent guest during the time Sir Algernon West lived there.

The church contains 16 old-fashioned pews, the chancel is as large as the nave, and the lighting of the church is supplied by six oil lamps.

THE IMPERIAL CROWN

Of Fine Physique

Newfoundlanders are said to have the finest physique of any English-speaking people.

Mice for Testing

Mice or small birds are in future to be kept in mines for testing for the presence of poisonous gases.

Cutting New Teeth

Eighty-eight years of age, Mrs. Broadhurst, an American resident in London, is cutting a new set of teeth.

Fez's Population

Fez, Morocco, has 100,000 inhabitants, only twelve of whom are Europeans.

Germany's oldest daily paper, the "Vossische Zeitung," for 150 years the property of one family was sold for $2,000,000.

DOCTORS ADVISE MEDICATED AIR

't Cures Catarrh, Colds, Bronchitis, Asthma, Throat Troubles, Hoarseness.

For diseases of the lungs, throat and nasal passages mountain air has always been deemed salutary because of its pureness and freedom from disease germs. The air of pine forests, laden with minute particles of volatile germ-destroying principles, has enjoyed an almost unexampled reputation in these diseases also.

A MARVELLOUS DISCOVERY.

After years of exhaustive study a chemist devised a means of supplying right at home a healing balsamic remedy that is even more effective in catarrhal diseases than the air of the pine woods. Of course, this remedy was copyrighted in every civilized country and was at once offered to the public under the name of "Catarrhozone." Its success has been phenomenal.

Just think of it! A healing, soothing substance capable of destroying those noxious organisms which excite and maintain disease. Capable, also, of allaying congestion and of stimulating the healing processes of nature, which are combined in that invaluable compound so well and favorably known to the medical world as "Catarrhozone."

CATARRHOZONE CURES.

Catarrhozone is simply a concentrated quantity of the air of pine woods. If you breathe it you will derive more benefit in one hour than you could possibly get from the woods in a year.

This great advantage arises from the fact that, in addition to those healing emanations from pine, other ingredients distilled from the vegetable kingdom are so united as to give results that could not possibly be derived in the simple form in which nature supplies medicated air.

20,000 PHYSICIANS ENDORSE IT

For all diseases of the nose, ear, throat, bronchial tubes and air passages—for catarrh in every form—cure is certain with Catarrhozone, which is not a nostrum, but a high-class scientific treatment. Large size, sufficient for two months' use (guaranteed), price $1.00; smaller size 50c, at all dealers or the Catarrhozone Company, Kingston, Ont.

CENTENARY FUND OF WESLEYANS

Negroes of Africa Ich Foremost to Contribute for Development of Work in Foreign Field

The Wesleyan Methodist Missionary Society of England will next year celebrate its centenary, and it is characteristic of the Wesleyan Methodist Church that the thanksgiving is to take the practical form of raising $1,200,000 in order to develop the work in the foreign field, and of advancing the society's regular income by at least $35,000 per annum.

Though the Wesleyan Methodist Missionary Society was not established until 1813, the foreign work of the Church goes back to 1760, in which year the English planter Nathaniel Gilbert, began to preach to the negro slaves of Antigua. But the father of Wesleyan Foreign Missions was Dr. Coke, who held a patriarchal to Methodism abroad not dissimilar to that of John Wesley toward the societies at home. Thirty years before the Wesleyan Missionary Society was named their missions had given birth to the Episcopal Methodism of the United States. The record of the hundred years is being written by Dr. *Findlay*.

The native churches are setting a fine example of generosity in subscribing to the proposed fund, and in many instances the members of these churches are making promises equivalent to a month's salary, while one district in West Africa has already raised its full quota. The penny is playing an important part in the campaign, someone having reckoned that, if each member contributes one penny per week for one hundred weeks, the sum required will be raised.

FRIENDLY TO PAPERS

The German Emperor and His Advisers Beginning to Trust Reporters

The social position of the foreign newspaper correspondent in Berlin is slowly improving and, while a comparatively few years ago he, as well as his native colleague, the German journalist, was rather a social outcast, he is now received with open arms almost everywhere, though he is still far from being considered entitled to be admitted to court functions. At the same time it is the Kaiser himself, who has given the signal to relitve the newspaper correspondent of the social stigma, by treating the journalists with increasing friendliness. The fact is that the Kaiser as well as the upper classes have begun to realise the enormous power of the press for good or evil, and the result is that statesmen find it a better plan to initiate responsible journalists into their plans, trusting them to keep secret what must be kept secret, when asked to do so, than to allow them to let their imagination run wild with nothing but unreliable rumors to work on.

Never has the change been more evident than at the recent reception of the Association of Foreign Newspaper Correspondents at the Hotel Esplanade, which was a social event of the first magnitude. From the very day when the invitations were sent out, the social committee was besieged by prominent people clamoring for invitations, and on the day itself every high German state official from the Imperial Chancellor down, as well as practically the whole corps diplomatique, accompanied by their ladies, were present.

TWO DIAMONDS

Which Queen Mary wears on state occasions.

GERMANS WANT SPORT

Movement to Introduce Athletics into the Colleges and Universities

There has been begun at Berlin University a movement destined to work great changes in the traditional routine of undergraduate life at German universities. Representatives of fourteen universities, ten technical colleges, and a score of minor institutions met to discuss ways and means for introducing sports and athletics into German universities on English lines. The project has long been mooted, but never before seriously taken up. This time it gives promise of something like practical realisation. The delegates at the Berlin meeting pledged themselves to make a vigorous propaganda among their fellow-students, in the hope that it may be possible next year to hold at Leipsig a great inter-university meeting, to be known as the "German University Olympia," this to be repeated annually.

Kellogg's TOASTED CORN FLAKES

A JAMESON RAIDER

Spectacular Career of a Canadian, the Late F. R. Lingham

Frederick R. Lingham, who died in Belleville, was born there sixty years ago, a son of Job Lingham, lumberman and cattle-shipper, in whose steps he followed. He was an expert forest ranger and land valuator. While still a young man he engaged in the cattle trade, shipping extensively from Chicago and New York to Liverpool for the British market. He was manager for three years of the Powder River Cattle Company of Superior, Wis. He chartered steamship lines and was known as cattle king of this continent. The abattoirs in Montreal were a result of his genius for speculation and enterprise. This was about thirty years ago. He later traveled to Egypt and settled an estate in India for a Maharajah. On his return he stopped at Delagoa Bay in Portuguese East Africa, which gave him the impulse to enter lumbering. The outcome was an English syndicate known as the Lingham Lumber Company of Delagoa Bay. British Columbia forests furnished timber at the time of the Jameson raid. Mr. Lingham was a member of the Uitlander Association resided in Johannesburg, and was imprisoned along with others in Pretoria by President Paul Kruger. For a time their lives were in danger, but owing to the intervention of the British Government the captives were released after two months by payment of two thousand pounds each. During the British-Boer war Mr. Lingham's company turned down fabulous offers from the Boers for lumber. He had the best flour mills in Africa constructed for grinding Egyptian and, later, Canadian wheat. He was also interested in Uganda. He returned to Canada on account of ill-health, caused by fifteen years' residence in Africa, and sold out his interests in Uganda. In Belleville, in association with his wife, he founded St. Agnes School as a residential school for girls in 1902, under the patronage of the Bishop of Ontario.

Rabbits in Australia

Rabbits are well known to be the curse of Australia, says the Scientific American: notwithstanding the fact that, according to the view of the commonwealth meteorologist, Mr. H. A. Hunt, the burrows of these animals, by keeping the ground broken up, make it more retentive of rainfall—a philosophical consideration that strongly suggests Mark Tapley. Latterly, the Australians have been trying with considerable success to turn their curse into a blessing by marketing their surplus rabbits (dressed) in European countries.

Hatching Chickens

Chickens hatched after the early weeks of August grow so slowly that it is a waste of money to hatch them for food.

WAS TROUBLED WITH Headache AND Constipation.

After Suffering For Two Years Was Cured By BURDOCK BLOOD BITTERS.

Headache of whatever nature is nearly always symptomatic of other diseased conditions, rather than a disease itself, but in most cases a disordered stomach, constipation, or bad circulation is the chief source of the difficulty. Burdock Blood Bitters removes the cause of the trouble through its cleansing, strengthening and tonic action on the stomach, liver, bowels and blood. Mr. Wm. Redmond, Cardigan Bridge, P.E.I., writes:—"I have been troubled with headache and constipation for about two years. After trying every doctor I knew, a friend advised me to try Burdock Blood Bitters. I found myself, after using one bottle, getting much better, and after using three bottles I was completely cured.

"After them I was on a visit, and found my cousin very sick, and the doctor told her there was something wrong with her head. I told her to use Burdock Blood Bitters and she was cured in a short time. I can safely recommend it to all."

Redistribution Bill Before Provincial House

Proposed New Constituency to be Formed With Biggar as Seat

The Provincial Parliament now have the new Distribution Bill framed up into working shape, and this will erect 15 new seats and make 54 seats for the whole province.

One of these new seats is allotted to our own town of Biggar, with a district extending thirty miles from east to west and from sixty to ninety miles from north to south, the deflection being caused by the North Saskatchewan River.

As laid out, the new constituency of Biggar consists of all that land shown on the map as follows:

Starting from a point on the line between ranges 11 and 12 on the top of township 30, and proceeding straight north along this line to the North Saskatchewan river in township 40; then along the line of the river till reaching the line between ranges 17 and 18 in township 44, and proceeding south along this line to the N. E. corner of township 30 in range 18, and from there straight east to the starting point.

This gives the Biggar constituency an area of somewhere about 2,400 square miles, and includes the towns of Biggar, South Battleford, Naseby, Treynor, Harris, Zealandia, Herschel, Palo, Oban, Mead, Vance, Neola, and a lot of other smaller places inside the area mentioned above.

THE CASE-BOOK OF A PRIVATE DETECTIVE

Inside History of the Methods Employed in Criminal Investigation, Embracing True Narratives of Interesting Cases by a Former Operative of the William J. Burns Detective Agency.

BY DAVID CORNELL

1—MY FIRST CASE

"Getting" the Man Who Hung a Jury

(Copyright, 1912, by International Press Bureau.)

(Editor's Note:—In order that no annoyance may accrue through the publication of these narratives to persons involved therein, other names and places have in many instances been substituted for the real ones.)

Up to the day that the manager of the New York office of the Burns Detective Agency handed me an order for $50 expense money and started me up the Hudson river on my first manhunt, I had never done anything in my life that might have been suspected of even remotely resembling detective work. I probably knew as little about the business as anybody in the country, and I had never had any yearning or intention to become a detective. But I was 26 years old, out of work, almost broke—in New York!—had a family to support and, most important of all, I happened to have met the celebrated detective who is the head of the agency by which I came to be employed, the largest reputable private detective agency in the country. That was why I became, and am, a private detective.

One morning I found myself at 42d street and Broadway, looking at the newspaper bulletins and wondering how long my money would last and where in the world I should turn for a job. One of the bulletins read:

"Detective Burns Nabs More Bribers."

That bulletin did the trick.

"He may remember me," I thought, "and he may know of a job to fit me."

I went straight down town to the office of the agency of which the big man is the head and asked if he was in.

"What do you want of him?" asked the office manager.

I was desperate. I said: "I know him, and I want a job."

He looked me over, went into an inner office for a while, and reappeared, bearing an application blank. The office, and everything in it, was just as it would be in an up-to-date business office. The business of the plebe might as well have been selling insurance as hunting criminals. The application blank had all the conventional questions of such a paper, and in addition these:

"Were you ever acquainted with any police force, or any detective agency? Are you acquainted with any police officials, or any one employed by detective agencies?

"Were you ever employed by any railroad?

"Do you know anything about the newspaper business?

"Have you a large number of acquaintances, and can you keep your occupation from your friends and acquaintances?"

"Fill that out," said the office manager. He had not even asked me if I wanted to become a detective, and but for the last questions on the blank I would not have known that he was considering me as an applicant for such a position.

"I've never done any detective work in my life," I said.

"Good," he said. "If you had, we wouldn't have you. Fill out the blank."

When it was filled out he took it and disappeared again. He was back in three minutes.

"All right," he said, sitting down at his desk and picking up some papers. "There's a man up in Peeksville (a small town on the Hudson river near New York), who hung the jury in a damage suit. Want you to go up and get him. Here's the dope."

He began to read from the papers in his hand. The gist of it was that one Kellner, a New York contractor, had done $100,000 worth of work on the water supply system of the town of Peeksville. When the time came for him to render his bill he had been approached by one of the town's political powers, Bruley by name, and commissioner of public works, who let it be known that if he would make out a bill for $130,000, it would be allowed in full without protest or question, and that $5,000 of the $30,000 overcharge would go to him as a reward for placing certain officials in the way of fingering $25,000 of the people's money.

Kellner had refused. When he rendered his rightful bill for $100,000 the powers in the city hall calmly cut it to $85,000, claiming that portions of the work were poorly done; that parts of the contract had been awarded illegally, but in reality merely getting even with Kellner for refusing to assist them to some easy graft.

Kellner promptly sued. He had a case so strong, and public opinion was so strongly aroused over the exposed scandal, that recovery of his $15,000 seemed a foregone conclusion. But the would-be grafters had managed to place the nigger in the woodpile in the shape of one of their clan on the jury. Eleven of the jurymen on the first ballot had voted for a full judgment for Kellner. The twelfth man had voted "no" on that ballot, and on the second, and the third, and on every ballot for the next twenty-four hours. He had hung the jury, and the case was a mis-trial. The man's name was Harry Donlin, a real estate agent.

"That's the man you've got to get," said the office manager. "He did the trick, and he's been spending money ever since. We've got to have a full confession from him that we can use as evidence, and it's got to be in writing and sworn to, or told in the hearing of at least two people: who gave him the bribe, when, and what for. And we've got to get it in a hurry, too, because the new trial is coming on in less than a month. Have you got any money?"

I didn't have enough to be worth mentioning. He drew a pink pad to him, wrote out an order on the cashier for $50 and handed it to me.

"Get up there right away," he said. "You can get a train every hour on the even hour. Here are some report forms. Write a full report of your doings every day and mail it every evening. Don't forget to make your report cover all your time."

That was how I entered this business. I had been accustomed to seeing things move with businesslike expediency in other offices, but this beat all records. Thirty minutes before I had entered the office inquiring for the chief. I had not seen the chief, had not been questioned; but here I was handed $50, sent out on what seemed to me like a complicated case of detective work, and being calmly told to get a full confession from a man I knew no more about than about Adam.

"They are just trying me out to see how I act," I thought, as I took the money order. So I said: "All right. When shall I report here again?"

"We will let you know," was the answer.

I caught a three o'clock train on the New York Central and took a seat in the smoking car. Across the aisle lolled a tall, lanky, good-natured young fellow whose ticket, stuck in the seat in front of him, showed that he was going to Peeksville, my destination. On the chance that he lived in the town, or knew something about it, I took out my pipe, stuffed it, and began to search, ostentatiously, for the matches I pretended not to have. I drew his attention first, then said: "You don't happen to have an extra match, do you?"

"Sure," he said, and began to dig. I crossed over and sat down beside him. As I accepted the match and prepared to light my pipe I stuck my ticket in the seat before us, where he could not fail to see it.

"Going to Peeksville, too?" he said, genially.

"Yes," I said, puffing away. "You going there?"

"Yep," he said. "I live there. You don't live there, do you?"

"No," I answered.

"Thought not," said my friend. "I know everybody there. Peeksville is a mighty nice little place." He looked me over. I was prosperous looking.

"Say," he said, "if you're thinking of buying a place up there you want to see Donlin by all means. He's the agent for the best real estate bargains in town. I'm a friend of his, and I know he's right."

Donlin was the man I was after. I pretended to misunderstand the name. "Who? 'Donaldson'?"

"Donlin," he corrected. "Harry Donlin. I'll introduce you to him if you wish when we get up there."

I did my best to get on a friendly basis with my good natured young friend, and by the time we neared our destination I knew that his name was Daley, he knew that mine was Cornell, and we were getting along so well that when we stepped from the train we walked straight across the street to have a friendly glass of beer.

In the barroom we ran into a short, heavy set man, with a nervous, twitching mouth, and restless eyes. He was one of the most worried looking men I have ever seen.

"Ah, hello, Harry!" bawled Daley. "Say, Harry, I want to introduce you to an old friend of mine from Chicago. Mr. Cornell, like to have you meet Mr. Donlin. Mr. Donlin's an old pal of mine, too."

Mr. Donlin's expression relaxed a little when he heard that I was "an old friend of Daley's." It was obviously a relief to him to hear that I was known by one of his "pals," and he showed it by greeting me in a hearty manner, and by insisting on buying drinks. I told him that I might be interested in a house in Peeksville, and he began to treat me with considerable deference. When I left him for the evening we had made an appointment for ten o'clock next morning to make a tour of inspection of the desirable houses for sale in Peeksville.

We drove through the town and looked at half a dozen little houses. I was not particularly impressed with any of them, or at least pretended not to be. There was one that I told Donlin might do—if I decided that the town was to my liking.

For the next two days he spent about half of his time and some of his money proving to me that he was a good fellow, and that the town was full of good fellows. On the second day he was calling me by my first name, and I was reciprocating. He was an easy-going, not over-brilliant Irishman, who apparently was afraid ever to become entirely sober, and who never wanted to be without a congenial companion to talk to. He was plainly living under a great strain.

On the third day a letter from the office directed me to come in to the New York office that evening.

"Go in and see the chief," said the office manager when I reported. The chief was in his private office with my reports on his desk before him.

"Well," he said, without troubling about a greeting, "you're showing considerable speed for a big fellow. I guess you'd better begin to do the crook stall right away. You're from Chicago. You got into a little trouble out there and you had to leave. You are keeping out of sight of the Chicago authorities, and you picked out Peeksville as a likely place to hide in. You understand, don't you?"

"I'm to pose as a crook?"

"Certainly. This man Donlin is a natural blabber, who'll talk if you get close to him. You have got a good start by pretending to be looking for a house. Now, tomorrow you stall about being afraid of going out so much; keep under cover. Stay in your room a lot. Begin to fight shy of the house proposition. Let your man knew that you're a little afraid of him. Keep away from him. Make him come to you. Then let him pump it out of you that you're hiding, and that you cleaned up big on a crooked deal in Chicago. We'll have a letter written to you from the Chicago office. Lose this letter where your man will find and read it, and your stall as a crook will make good. And if he begins to show any inclination to tell you his own secrets, at first tell him you don't want to hear them; that you've got troubles enough of your own. Understand? And the next time you come into the office cover your tracks by going through some building with two entrances before coming here."

I went back to Peeksville, and the next day I stayed in my room. I had my meals sent up and sent a boy out for some magazines to read. I went out for a walk at night, keeping entirely to the dark side streets. The clerk eyed me rather strangely as I returned, and I knew that soon Donlin would hear about my strange conduct.

The next day I did the same thing. In the evening there was a knock at my door.

"Who is it?" I demanded, sharply.

"Donlin," came the answer. "What's the matter, old man? Feeling sick?"

After delaying a moment I opened the door a little, looked out, as if to assure myself that it was Donlin, and let him in. He looked at me curiously.

"You aren't sick, are you?" he said.

"No," I said. "I just stayed in my room, that's all."

He kept looking at me steadily. "Anything gone wrong?" he said.

"Oh, no," I said. "No, I just got tired of showing myself—of running around so much."

I had never had any experience in acting before, but let me say here that such success as I have had as a detective has been due more to the fact that I possess a certain natural talent for playing parts in a way to win the confidence of the man I am after, than anything else. Before Donlin left me that evening he had fully drawn the conclusion that I was in some sort of trouble, and that I was in Peeksville for the purpose of keeping out of sight. The last words he said were:

"Don't worry, old man. We're your friends. The bunch here is right."

Two days later the fake letter came to me from the Chicago office. It was mailed in a plain envelope and professed to come from my brother. It read:

"Dear Dave:

"I have been talking with Mr. Grimmer, and you are mistaken in believing that he only wants to hurt you; all that he cares about is getting his money back. I told him that he could take his choice, either go on and stir up a lot of noise and discredit you here forever, and get no money back, or else get his money and keep quiet. He said: 'Give me my money; that's all I care about.' I then told him that he was mistaken when he said the amount you had got was $22,000. I said that you had got less than $35,000, and that in moving around the country you had spent $3,000, so all you had was about $22,000. He didn't believe it, but he is so greedy for money that he agreed to drop everything, and sign a paper clearing you if he gets back $22,000.

"Now, I think that was a pretty fine piece of business on my part, and that it is the best thing you can do. Even if you go into court and fight him and show him up for what he is, he is going to show you up, and you'll be ruined if he does. If you return $22,000 you clean up $16,000; which will help some. My advice is that you do this. At all events let me know at once what you are going to do.

"Don't forget to burn this.

"Your brother,

"FRED."

Donlin took me buggy riding to look at another house that afternoon. We were chums by this time. When I left him I managed to slip the letter, without the envelope, into the seat where I had been sitting without being observed.

I never saw or heard of that letter again, but Donlin found it and read it and it did its work, as I discovered later. One day just three weeks after I came to Peeksville, he came up to my room slightly more under the influence of liquor than usual, and told me that he had quarreled with his wife. And through that I "got" my man. I had won his confidence; he trusted me even before his wife.

"That's been my whole trouble all the time," he said. "My wife won't let me alone. First it's one thing she's nagging about, then another. I'd never been in any trouble if it hadn't been for her. She's always hollering about me not giving her enough money. Well, here a short time ago I had a chance to put one over, and I did—$2,500 worth. And now she starts asking me where I got the money I'm giving her and begins to bawl me out. I quit. I just walked out, and she'll whistle another tune before I go back."

The truth was that his wife was disgusted over his drinking.

"Skip out for a couple days and let her cool down," I suggested. "I tell you what let's do; let's take a night boat up to Albany and hang around there for a couple of days. I'm getting kind of tired of this place myself. What do you say?"

"I'll go you," he said. "I don't care where I go. Damn it. A fellow can get into more trouble when things aren't right at home than he knows how to handle. If she was the kind of woman you could tell things to—"

"Don't talk to me about that, Harry," I interrupted. "I'm the one who knows what that means. To be frank, that's why I left Chicago, because things weren't right at home."

"Yes, but take my case here," he protested. "I—"

"I don't want to hear your troubles," I said. 'I've got all I can do to hold down my own. Let's go down to New York on the next train and hang around there today and go up the river on the night boat."

"Come on," he said.

Had I given him a chance to talk he might have spouted out his whole story on the train going down to the city. That was all that was troubling him; he needed somebody to whom he could tell the story of his crime. But I kept interrupting and leading the conversation away to other subjects. As soon as we reached New York I made a pretext of calling up to find at what time the boat left, and called up the office and told the whole situation.

"Well," said the manager in a casual sort of way, "we ought to get him tonight on the boat. I'll reserve a stateroom for you on the C. W. Morse, of the Hudson Line. You just hold your man off until you get him in there, and then get him to talk. That's all you need to trouble about. We'll do the rest. You get your boat at 6:30 at One Hundred and Twenty-ninth street, and when you enter your stateroom take off your hat and wipe your forehead so our men will have a spot on you and know that everything is all right."

I came out and told Donlin that I had reserved a stateroom for us by phone. I had no idea of how all this was going to work out, but I followed directions implicitly. The New York American Leaguers were playing Detroit that day, and Donlin being a fan we went to the game. It was my purpose to keep him in a crowd so he would have no temptation to begin his tale of woe until we got on the boat. It seems strange to think of a detective working himself into a sweat to keep his quarry from making a confession, but that is what I did this afternoon. After the game we hurried from the ball grounds to the boat, where, as we entered our room, I removed my hat and wiped my forehead, as per directions. Two young fellows, apparently clerks, were lounging in the doorways of the staterooms on either side of ours, but it was not until later that I knew what part they were playing in our programme.

— and poor Donlin relieved his soul

I waited until the boat had cast off before I began the line of talk I had decided upon. I began to curse my luck, my supposed former employer, my alleged brother, my assumed wife, and everybody that I could think of. I played the part of a whimperer to a finish.

"If they'd only stuck by me in the first place," I wailed, "I would never have been in any trouble, and now that I'm in they're throwing me down. Well, there's one satisfaction: I'll take some of 'em with me when I go down."

"How much did you get out of it?" demanded Donlin suddenly.

I looked at him and knew he had read the letter.

"I'll come through with about $16,000," I said. "But I wouldn't go through this worry again for ten times that much."

"Hell," he growled. "And you're kicking! What would you say to taking a measly little twenty-five hundred from a dirty bunch of rich crooks and going around with everybody suspecting you of having done it?"

"Say, Cornell," he said, striking the side of his chair. "You think you've been steered up against it and thrown down, but let me tell you that you don't know what a raw deal is. Here now, listen to me. I want to tell you this; you've got to listen. Why, darn it, man, you've got to listen. I'll go crazy if I don't tell somebody."

He loosened his collar and went on.

"Here a little over a month ago old man Smythe, our mayor, and Bruley, the commissioner of public works, and the rest of that bunch of high-binders that runs things in Peeksville, got into a mess. They'd tried to get a contractor named Kellner to help them sting the city for $30,000. He turned on 'em and wouldn't give 'em a chance, and to get even with him they cut down his charge for work on the waterworks contract $15,000. Well, he comes out and sues them. He's got a cinch case, see, and the best they can hope for is to pack the jury and get a disagreement. Well, I have the devil's own luck to be drawn on that darn venire. When they get to know this, Old Man Smythe sends for me to come and see him at his home late at night, and they're all there, Bruley and the rest of them.

"Old Smythe says, 'Donlin, you're drawn on the venire for the jury that is going to try this case. We want you on there, you understand; we want to have one of our friends on that jury. We're glad of the chance to have you on because we know you're one of us and we all want to stick together. We will see that you get on that jury—don't worry about that—and there'll be a little envelope slipped into your pocket as you leave here, and—the worst we want is a disagreement. Understand?'"

"How long ago was this?"

"Only a little more than a month ago," he said. "Just three days before the trial—the night of May 23rd. Well, as I was saying, I went out, and when I got home I felt in my pocket and there was the envelope—with $2,500 in it."

"Didn't you see them slip the envelope to you?" I asked.

"Sure," he said. "Bruley slipped it into my pocket and winked and slapped me on the shoulder when he did it. Well, they got me accepted for the jury all right. Then Bruley comes to me and says: 'Say, Donlin, don't forget you're one of us now. You've got to deliver the goods.'

"Well, I delivered the goods, all right. The other eleven men wanted to kill me, but I hung out. 'No judgment,' I said, 'or I'll stay out until Christmas.' I earned that $2,500 all right—we disagreed. And the other day Mrs. Symthe gives a lawn party and never a word about inviting Mrs. Donlin. Oh, yes, I was one of them all right—when they needed me."

"Pshaw!" I said. "You hung a jury for 'em for twenty-five hundred and now they're turning cold to you?"

"Yes. That's the kind they are."

"Pshaw!" I said. "Now let's go and get something to eat. I'm desperately hungry."

I haven't given Donlin's complete conversation here, but only the gist of his confession. But Donlin himself had a complete typewritten report of his talk in the stateroom handed to him in the hotel in Albany two days later. The Chief and the office manager called on him unexpectedly in his room and, handing him a carbon copy of his conversation, asked him if there were any inaccuracies to be corrected in it.

"I guess that's about right," said the Chief casually. "We knew all the time that the reason you hung that jury was to save those fellows, and we knew you weren't doing it for your health; but we wanted to get you to tell us all about it yourself, so we got it when you were talking to your friend on the boat the other night. Now, Donlin, we've got the goods on you," said Burns. "You've got two chances. One is to make us put you in prison for accepting a bribe; the other is to go with us and help us to make those crooks, who paid you, pay our client his $15,000 without any more lawsuits. What are you going to do; go to jail, or come on our side?"

Donlin was staring at the report in dazed fashion. There it was, every word that he had said, every question that I had asked, down in carbon; and we had been in a locked stateroom while we were talking, and he had been with me ever since. He was dumbfounded for a while. Then he expressed the universal curiosity over detective work. He looked up in amazement at the Chief and said:

"Well! How in the devil did you ever do it?"

But it was not the Chief's disposition to give away the tricks of the trade. It was not until several days later, when Donlin's confession had frightened the politicians at Peeksville into acknowledging Contractor Kellner's bill in full, that I knew that in each of the staterooms adjoining ours there had been a stenographer with his ear to a dictagraph all the way up the river, and that Donlin literally had made his confession in the hearing of three people.

"That was just a piece of bull headed luck, wasn't it?" I asked Chief Burns.

"Oh, no," he said. "We had tried five other men on him before you; we were sure to get somebody he would take to and bash his head off. It was only a question of time. Most detective work is."

Out of Mouths of Babes.

Little Harold, aged five, helped his grandfather last summer setting out fruit trees, and was telling his father about it the other night.

Thinking to improve the opportunity of pointing a moral, father asked:

"Who made the trees, son?"

The kid thought for a moment, then his face lit up with a knowing smile.

"I guess God made the trees," he said. "But grandpa stood 'em up."—Milwaukee Free Press.

Dr. Grenfell Tells How to Reduce the Cost of Living

There is still a chance that the high cost of living will be reduced. Dr. Grenfell told the members of the Canadian Club, Toronto, in speaking of the latent resources of Labrador, about how the reduction can be brought about by merely changing the dinner course from beefsteak to reindeer.

At present too little attention is paid to the conservation of animal life in the northern country and reindeer are left to be exploited and diminished. The reindeer development is in its infancy, but despite this fact, the herds number 20,000, and with regular breeding it is likely that 20,000 fawns will be added this season.

"Here is an opportunity for large investment of private capital, which would be a profitable money making proposition," said Dr. Grenfell. "The meat of the reindeer could be made to add much to the world's supply at a low cost, the animal's milk could be exported, and the skins could be made an important factor in the fur market. The skin could also be tanned, creating another industry, and used for the making of gloves. Three or four millions of deer could be maintained within the bounds of Labrador."

He said the possibilities of fur trapping had only begun. He pointed to the fox farming in Prince Edward Island as a good example to follow, which would mean much profit to Labrador. He believed that in the future more attention would be paid to the commercial breeding of reindeer.

DUKE AND DUCHESS OF ORLEANS
Who specially befriended King Manuel and his mother when driven from Portugal.

GOT A JOB.

There is a true story of a young woman who had devoted almost a year to using all possible influence to gain an interview with a certain theatrical manager. At last her hopes were realized. She got her appointment, and she was finally ushered into the manager's office. He received her most cordially and offered her a chair.

"Thank you," she said, gracefully. "I think I will sit down. I've been just ten months getting here and I'm a little tired."

And the manager, who is really a great man, and hence has a sense of humor, promptly engaged her.

RHEUMATISM IN THE SYSTEM

SIX YEARS CURED IN SIX DAYS

TO MRS. "NERVILINE."

"The suffering I endured for six years with Rheumatism is beyond description. Every time I was exposed to cold or dampness meant that I had to go to bed. My muscles stiffened, my joints swelled, and any attempt at exertion brought on excruciating twinges. The pain shifted from one part to another and I was scarcely ever free from misery and sleeplessness. I took all kinds of liquid medicines, but they nearly all depressed my heart and I had to stop them. Then I was told of the wonderful power of Nerviline.

Nerviline

"If Nerviline had been made specially for my case it couldn't have been more successful. It sank right into the core of the painful part, gave me ease, allowed me to sleep, gave me the use of my arms and limbs—in fact, made a new man of me. I urge all Rheumatics to use 'Nerviline.'

A. E. TRAYONER.
"Justice of the Peace, Lancaster."

The most wonderful pain-subduing substances in the world are in Nerviline—that's why it penetrates so quickly, why it instantly cures pain that other remedies can't even relieve. You'll be surprised how quickly sciatica, lumbago, or rheumatism are cured by Nerviline—seems almost magical the way it will cure a cold or sore throat. When the chest is sore and it hurts to draw a long breath, one rubbing with Nerviline is sufficient. So highly valued is Nerviline by those who use it that many families consider it quite as good as a doctor for aches, pains, and minor ailments of every kind. Large 25c bottles are sold by all dealers.

ANIMALS RECOGNIZE A MORAL LAW

Monogamists of the Brute Creation are of a Higher Development Than Polygamists Says Naturalist

A fascinating address on "The Natural History of the Ten Commandments" was delivered by the famous naturalist and hunter, Mr. Ernest Thompson Seton, at a gathering of the Pilgrims at the Savoy Hotel, London. Mr. Thompson Seton advanced the theory that the ten Commandments are not arbitrary laws given to man; but fundamental laws for all creation. Ample evidence of the application of the commandments to the animal world could be produced. Animals, he declared, have a recognition of property rights. A squirrel has his tree in which he has a proprietary right, and he will always be ready to fight for that tree and what is on it.

"One of the most remarkable theories in the whole of animal studies," he continued, "is what may be called the evolution of monogamy. It is a remarkable fact that where that system has been adoped the animal which has adopted it is always the successful one. If it comes to a clash between a polygamist animal and a monogamist animal, the latter always wins." Mr. Thompson referred to the case of the blue foxes which occupy a certain territory in Alaska. "These foxes," he said "understand among themselves what their area is, and beyond that they will scarcely go. They also are absolutely monogamist. "If one fox dies it is extremely hard to get the other to take a mate. So strict have the lines been on which these foxes live that a hunter reported to his company: "Until we can break the high moral standard of the foxes, our profits will be greatly curtailed."

Then the lecturer turned to stealing. "If a rook," he said, "finds a stick in the woods, that stick is his own and he carries it to his nest. If another rook attempts to take that stick from him he will fight for his property, and the question of the ownership of the stick has been known to disturb the harmony of a whole rookery." In conclusion, Mr. Thompson Seton said there is in the animal nature a deep-laid instinct, strong in proportion as the animal is high in the scale, which prompts it when in dire extremity to fling itself on the mercy of some other power. "I do not say that it is so, but it may be that in this instinct we shall find the foundations and the basis on which is afterwards built something else which finds its higher development in man."

SLEPT FOR A YEAR

Russian Prisoner May Recover After a Long Death-like Trance

A remarkable case of lethargy is reported from one of the towns in South Russia. A man named Moiseyyinko was put on trial over a year ago on the charge of having committed an armed robbery, but in the midst of the proceedings he dropped to the floor in what was supposed at the time to be a fainting fit, but which afterwards proved a lethargic sleep. In this condition the prisoner has lain over a year, until a few days ago. He has evidently been all the time in complete possession of his wits, but was unable to move a limb, open his eyes or take food. When his eyelids were raised the pupils could not be seen, and he was all the time fed by artificial means.

During his sleep he has lost some weight, but has kept throughout the external appearance of a man in normal and healthy surroundings. When he regained control of his members recently his first words, characteristic enough in a Russian prisoner, were: "They gave me a good beating in the prison, and now I am spitting blood." As a matter of fact, a medical examination has revealed that his lungs have been damaged by maltreatment in prison, and that he is in consequence suffering from tuberculosis. He is now being carefully watched, but there is every reason to believe that he will ultimately recover—perhaps only to pass in the hands of the hangman.

A BOGUS PRIEST

Interloper Created a Parish for Himself and Pleased the People

Nantes reports a curious case of an alleged interloping priest. A few months ago a certain M. Faton, about 40 years of age, of good appearance, arrived at Nantes and took a room in an inn. The innkeeper was astonished when the traveller stated that his profession was that of cure. The newcomer immediately hired a hall, and as there was no vacancy for a cure, he created one. He set aside for himself the parish of Saint Clair, which he placed under the patronage of St. Gregory. His parish thereafter was to be called after that of the saint.

The man is described as having been a little awkward at first, but soon he gave the benediction, and performed the other ceremonies with great ease and affability. His Masses were very short, and it seems that his way of receiving the confession of people was admirable. His faithful flock soon increased and he solemnised marriages, baptized, and confessed from morning till night. The cure of Saint Clair brought the matter to the attention of the bishop, and an announcement has now been read from the pulpit of the regularly appointed cure, in which the bishop denounces the intruder as a schismatic and a heretic.

Dwellings in Britain

Families or seperate occupiers of dwellings in England and Wales total eight millions.

WESDEN'S KIDNEY PILLS

Are without doubt the best medicine on the market to-day to speedily effect a positive cure for [illegible] kidney complaints.

Try them on the dealer's guarantee that if they fail to give satisfaction your money refunded.

PRINCE AS A MILLINER

Parisian Tradesman Claims Descent From Louis XVI.

Lady tourists who have been in the habit of buying their Paris hats in the Magasin de Chaigneau are greatly excited at the discovery that, without knowing it, they have been wearing the creations of a royal prince. Curiously enough the prince himself who owns the millinery establishment has evidently never realised what an enormous asset he possesses in his princely birth, for, although in certain circles he has long been known as Prince de Bourbon, his customers, have known him only as plain Monsieur Chaigneau.

The milliner prince is, or claims to be, a descendant of the famous Naundorff, alias Louis XVII., who is supposed not to have died in the Temple prison, as recorded in history, but who was smuggled away by some devoted Royalists, and a boy closely resembling him put in his place. Naundorff made a good fight to assert his claim to the Throne of France, but neither Louis XVII., nor Charles X seemed disposed to abdicate in his favor. Whether they considered Naundorff an impostor, or were convinced that he was their nephew, is a mystery that will never be solved. The Naundorffists—as their adherents are called—assert, and not without reason, that it is very strange that Naundorff was never prosecuted as an impostor, although he constantly begged the authorities to give him this opportunity to establish his claim and reply to his detractors. Hundreds of people of the highest standing—statesmen, historians, and others have believed, and continue to believe, that Naundorff was really the son of Louis XVI. and Marie Antoinette.

It certainly seems curious that, while according to history Louis XVI.'s little son was supposed to be buried in the churchyard of Sainte Marguerite, in Paris, at the age of ten, on Naundorff's grave in the old cemetery in Delft, the following inscription was placed by the King of Holland:—

"Here lies Louis the Seventeenth, King of France and Navarre, (Charles Louis, Duke of Normandy). Born in Versailles, March 27, 1785. Died in Delft, August 10, 1845."

The milliner prince, however, only belongs to the junior branch of the Naundorff family, who for some time past have assumed the title of Prince de Bourbon, to which they lay claim.

ROYAL TYPISTS

King George and Queen Mary Can Manipulate a Typewriter

Queen Mary, if she had not been born in the purple, would have been an able typist. She can tap-tap the keys of her typewriter with her Royal fingers as quickly and as well as any professional. King George is also able to manipulate a typewriter, though he doesn't use it to any great extent nowadays.

The Kaiser is well known to be expert on most subjects, typewriting, of course, being included. When in London a few years ago, he paid a surprise visit to a famous firm and selected a machine for his own private use.

Most people know how deeply interested Princess Christian is in all branches of nursing. The enormous amount of work and correspondence this entails keeps several typists constantly employed. Princess Christian herself types many of her own letters, as also a great part of her husband's correspondence to Germany. Her typewriter is a very fine machine, silver-plated and fitted with ivory keys. It has a set of German characters in addition to the usual English ones.

To the King of Greece, tapping the ivory keys is a pastime. Nothing pleases him more than typing his own letters. Many of these letters, though typewritten, are signed in full and are treasured by his subjects who receive them, to be handed down to other generations as heirlooms.

Many of our peers have their own machines and frequently type their own letters. Lord Rosslyn, for example, is the envy of many typists, the speed and accuracy with which he can use a typewriter being well above the average. When he was captain during the Boer War and taken to Pretoria, he edited, printed, and published a typewritten newspaper with the machine he had taken out with him.

Carbolic Acid for Cough Mixture

A verdict of "Accidental poisoning" was returned at an inquest held at Innischonnell, county Cavan, regarding the death of a young woman named Ellen McDonald, twenty-four years of age, who died as a result of drinking carbolic acid in mistake for medicine. The girl mistook the acid for a cough mixture she was using.

CURE SICK HEADACHE.

SOWING HIS WILD OATS

REAPING A HARVEST OF SORROW

"How many young men can look back on their early life and regret their misdeeds. "Sowing their wild oats" in various ways. Excesses, violation of nature's laws, "wine, women and song"—all have their victims. You have reformed but what about the seed you have sown—what about the harvest? Don't trust to luck. If you are at present within the clutches of any secret habit which is sapping your life by degrees; if you are suffering from the results of past indiscretions; if your blood has been tainted from any private disease and you dare not marry; if you are married and live in dread of symptoms breaking out and exposing your past; if you are suffering as the result of a misspent life—DRS. K. & K. ARE YOUR REFUGE. Lay your case before them confidentially and they will tell you honestly if you are curable.

YOU CAN PAY WHEN CURED

OLD LADY ALMOST CRAZY WITH ECZEMA

A Remarkable and Convincing Statement of the Success of Cuticura Soap and Ointment in the Treatment of the Pain, Itching and Burning of Eczema

"I, the undersigned, cannot give enough praise to the Cuticura Remedies. I had been doctoring for at least a year for eczema on my face. I had tried doctor after doctor all to no avail. When a young girl I sprained my ankle three different times, paying little or no attention to it, when five years ago a small scurf appeared which developed into a full-blown eczema. I was induced to send for the Cuticura Remedies, and they did it was eczema. He drew a small piece from the ankle about the size of a pin's head and about as thick. [illegible] grew to about the size of [illegible] and the eczema spread to the knee. The doctors never could heal that ankle. The whole foot ran water all the time.

"My husband and all [illegible] night and day wheeling me from [illegible] to another in the hope of giving me some relief. I would sit for hours at a time in front of the fireplace hoping for daybreak. The pain was so intense I was almost crazy, in fact, I would lose my reason for hours at a time. One day a friend of mine dropped in to see me. No more had she glanced at my foot than she exclaimed, 'Mrs. Finnegan, why in the world don't you try the Cuticura Remedies?' Being disgusted with the doctors and their medicines, and not being able to sleep at all, I decided to give the Cuticura Soap and Cuticura Ointment a trial. After using them three days that night I slept as sound as a silver dollar for eight long hours. I awoke in the morning with but very little pain, in fact, I thought I was in heaven. After using the Cuticura Remedies for three months I was perfectly restored to health, thanks to the Cuticura Soap and Ointment. I will be sixty-four years of age my next birthday, hale and hearty at present." (Signed) Mrs. Julia Finnegan, 2234 Hebert St., St. Louis, Mo., Mar. 7, '11.

Cuticura Soap and Ointment are sold throughout the world. Send to Potter D. & C. Corp., 47 Columbus Ave., Boston, U. S. A., for free sample of each with 32-p. book.

Teaches Biscoff's New and Beautiful Dark Work in China Painting

Experience Has Taught

That we must first learn ourselves the lessons we would teach our children.

That we must keep our boys and girls interested if we hope to influence them.

That children will eagerly learn many valuable lessons in the name of play.

That little hearts love appreciation even better than we do.

That a bad habit is easiest destroyed by cultivating a good one in its place.

That many parents seem to believe [illegible] character building consists in pulling up undesirable plants—not realizing that unless they sow good seed they will have a barren garden.

That each child's nature needs individual handling.

That children will do much for the home where they have many privileges.

That there are exceptions to all rules.

That habits firmly inculcated in youth are seldom forgotten.

That our children can see no clearer than could we at their age.

That one dollar spent for our children in their youth to provide instructive entertainment is worth ten dollars left the prosaic middle-aged man or woman.

That most people show by their conduct to childhood the particular work for which they are best suited and that the parent is wise who heeds this warning of nature.

The imagination and imitation gain for many children a reputation for untruthfulness and many undeserved punishments.

That ignoring a slight fault is frequently the quickest way of overcoming it.

That the unwavering confidence of a mother often keeps a child from doing wrong.

ARGENTINE AGRICULTURE

Exports More Wheat Than Any Other Country in the World

Agriculture in the Argentine Republic is far away the most important of its industries, and it is increasing in importance every year. It was not until the year of 1877 that sufficient wheat was grown to supply the needs of the small population of roughly 2,500,000 people. To-day, little more than 30 years later, the area under this cereal alone comprises about 15,000,000 acres, producing over 3,500,000 tons, and each year sees a substantial increase in the acreage cultivated.

Attracted by the excellence of the climate and the fertility of the soil, the invasion of capital—both foreign and native—goes steadily on, and, assisted by the ever-increasing stream of immigration, by the construction of new railway lines, and the subdivision and colonization of vast tracts of land, the development of agriculture in the Argentine is phenomenal.

The lands cultivated are spread over so vast an extent of country, in regions so far distant from each other—that a total loss of the harvest in any one year is hardly possible.

The Argentine Republic exports more wheat, more maize and far more linseed than any other country in the world, and when it is considered that only about 12 per cent. of the total available agricultural land is under the plow—or say 45,000,000 acres out of a possible 375,000,000 acres—some idea may be formed of the future of this country. The value of the year's exports of agricultural produce may be taken to be about $300,000,000 gold. The pastoral industry comes second only to agricultural in importance.

WATCH IN A PEARL

France can boast of some of the most artistic watchmakers in the world, and one of them has accomplished a wonderful feat by making a watch whose case is a single pearl.

This timepiece has just been finished by a Paris jeweller, after fifteen months of the most exacting labor. Cutting the pearl was not the least difficult thing about the novel watch.

The pearl was three-fifths of an inch in diameter. The works of the watch are considerably less than half an inch in diameter, and thin in proportion; yet they were made with as much precision as a full-grown watch, and have all the up-to-date improvements.

There is no danger of these pearl watches becoming common. The cost, which included the price of the pearl, was $6,000.

A New Strawberry

"King George V." is the name of a new variety of strawberry.

REGULATING MEDICINE

Every woman with pale cheeks and poor complexion needs medicine—needs a potent tonic to regulate her system.

To tone up the stomach—to ensure good digestion—to give new life and vitality to the whole system—where is there a remedy like Dr. Hamilton's Pills?

Dr. Hamilton's Pills enable you to eat what you like—they correct constipation—make nourishing blood—instil force and vim into a run-down system.

DR. HAMILTON'S PILLS

A HUGE STURGEON

An Enormous Fish on Exhibition at Vancouver

A monster measuring 10 feet, 2 inches in length is on exhibition in Vancouver. This huge specimen of a sturgeon was caught by two fishermen in the Fraser off Steveston. They were fishing for spring salmon with a net and the monster became entangled in the net. It was taken after a terrific struggle, in which their boat was damaged, an oar being broken, and it was necessary to repeatedly gaff the struggling fish and finally use an axe before the men were able to put it out of business and disentangle their net, which was ruined in the struggle. This sturgeon is one of the largest that has been caught in recent years, although sturgeons weighing 200 to 300 pounds are often secured.

THE KING OF SIAM.

CAPTURED A BLACK BEAR

Bruin weighed 750 Pounds and Was Sent to a Butcher

A monster black bear was captured by George Lamarche on his farm near Eganville. For several days Lamarche's dog kept up an almost continual barking, making efforts to direct attention to some close undergrowth in the bush. Lamarche investigated and with considerable difficulty broke through the brush after the dog. The dog drew back and Lamarche received a shock when he faced a big bear. He made a hasty departure and secured the assistance of a couple of chums. The organized a bear hunt and eventually got brute fixed enough. Mr. Lamarche was offered $35 for the skin but valued it at $75. The bear weighed 750 pounds. The carcass was sent to butchers to dispose of.

CANADIAN SPEED LIMITS

Rates at Which Automobiles May be Driven

In Ontario the speed limit is 15 miles in rural districts, 10 miles in cities, towns and villages. The regulations in Quebec fix the country limit at 15 miles, towns and municipalities governed by Municipal Code, 9 miles, and 4 miles for sharp curves, bridges, steep descents, crossings and intersections. The regulations for New Brunswick and Nova Scotia are pretty much alike and practically the same as the Quebec laws. No tourist in Canada should overlook the regulation requiring front and rear lights. These vary in different provinces but if the car carries two white lights in front and one red in the rear, the tourists will satisfy all the requirements in this direction anywhere and everywhere.

LITTLE GIRL RECITES PSALM

Four-year-old Knows all the Books of the Bible

Little Armour Brown of 71 Riverdale street, four years of age, showed her knowledge of the Bible at the celebration of the thirty-fourth anniversary of the Gerrard Street Methodist Sunday School, Toronto. She recited the first Psalm, and named correctly all the books of the Bible.

"FAKE" CLAIMS

One of Worst Problems Transportation Companies Have to Grapple

Claims Agent Forest, of the Toronto Railway Company, had a long experience as policeman and detective on the Toronto force, but a few months after leaving the city's service he remarked that he never knew what crime was until he was called upon to deal with claims against the railway company. He declared that there was a small coterie of lawyers and physicians who specialized in damage suits against the company, gambled on the chances of success, and agreed to take no payment for their services to their clients in the event of failure. Transportation corporations all over the world and accident insurance companies have recognized for many years that one of the most serious problems they are called on to grapple with is that of the "fake" claim. So numerous are "fake" claims that these corporations are inclined to be suspicious of every claim, and as a rule take the ground that every claim is exaggerated, if not wholly fraudulent, until the contrary is proved.

These corporations have found their best means of protection in the Index Bureau, which is a sort of Who's Who of accident impostors, and doctors and medical men who assist them in making their claims. When an accident occurs that a claims agent has any reason to suppose is fraudulent or exaggerated, he reports it to the Central Bureau, giving all details of the accident, and the name and any other information he is possessed of concerning the persons affected. The expert at the Central Bureau then hunts through the statistics to find out if the victim of a previous accident, or if his witnesses have previously officiated in a similar capacity. If he is able to find that they have he sends the information back to the claims agent interested. It is very useful material in the hands of the lawyer at the trial, if, indeed, the case comes to trial, for he may be able to show that the claimant has an ominous record of former accidents, or that he has been a witness of similar accidents on previous occasions. It is possible, of course, for a man to receive injuries every month for years, and to be entitled to compensation for them all, but a jury is inclined to believe that a man who has been injured two or three times has contracted a bad habit, and usually tries to discourage him by dismissing his action.

MISSING CONVICT FOUND

Chartrand's Attempt to Escape From Penitentiary Failed

Joseph Chartrand, a life prisoner, escaped from his cell in the insane ward of the Kingston Penitentiary by cutting the bars, and was found afterwards in the binder twine building. He had attempted to get over the prison wall, but the rope he had was insufficient, and besides the night was very cold. Chartrand decided to wait till night to make off, so he climbed the fire escape of the binder twine building in the centre of the prison ward, pulled open a window, and entered an upper story. This building had not been used for some time, as twine is no longer manufactured at the penitentiary. During the afternoon an officer had occasion to go into this building, and he found the missing convict in hiding and well supplied with food. Chartrand was immediately returned to his cell. He is the only prisoner who has escaped from the penitentiary in many years from the inside. Other convicts have got away while working on the farm. Chartrand declared in 1906, when he was recaptured, that he would get away again in the same way.

THE EMPRESS OF GERMANY

FOXY JOHN CHINAMAN

When a Chinaman wishes to catch wild ducks he makes an intoxicating spirit made of rice with corn and leaves the mixture for the birds. They become intoxicated, and are taken in their cups, so to speak. Another way is to put a gourd on his head and swim gently among the ducks. They are not frightened, because they only see the gourd and are accustomed to that, and the artful John pulls one duck after another by the legs into a bag attached to him. Everyone knows that John Chinaman trains cormorants to catch fish, not for themselves but for him.

Experiment With Sugar

Lumps of cane-sugar when rubbed together in the dark produce a luminous glow, while with beet-sugar no such effect is given.

To the square mile in the United Kingdom there are 372 persons; in Canada and Newfoundland, 1.39.

Interest in England

Foreign investments brought Great Britain interest to the amount of one hundred and eighty millions last year.

Here is a New Kind of COFFEE

And We Give You A Pot To Make It In—Free

To get to the heart of the coffee question, you must do as we did—get to the heart of the coffee berry. The coffee berry is protected by Nature from the insect world, by a tough inner shell or coat. This shell contains tannin and other bitter substances.

It is this shell, roasted and ground up with ordinary coffee, that causes indigestion, headaches and other ill-effects so common with coffee drinkers.

Yet there is no other beverage in the world so thoroughly wholesome healthful and delicious as good Coffee when properly made.

Never sold in Bulk

Dalton's French Drip Coffee

is this good, wholesome, delicious coffee. It contains no chicory and by our special process of grinding, every particle of the bitter tannin-bearing shell is removed. We take out all the injurious parts. We leave the meat—the heart—the flavor—the aromatic essences that mean so much to coffee-lovers.

The Percolator, or French Drip Process, is the only way to make really good coffee. We have secured sole rights at last for a practical, economical, reliable French Drip Coffee Pot.

We will give it to you free so that you can try Dalton's French Drip Coffee as it should be made. Read our offer. We have put up Dalton's French Drip Coffee in two Blends

This is the Coffee Pot we are giving away with 1 tin of Coffee at 40c. per tin.

—MILD and STRONG. You can't tell which one you will like best until you try both. Dalton's French Drip Coffee is better and costs less than any other if made in Dalton's French Drip Coffee Pot. That is why we make this special offer.

SPECIAL INTRODUCTORY OFFER

We have authorized your Grocer to give you one of these handsome pots (worth $1.30) absolutely Free with your first purchase of a tin EACH of Mild and Strong Blend at 50c. per tin. You buy two tins of our Coffee—one of each blend—to give it a fair test and we give you the means of testing it FREE, satisfied that you will use nothing but Dalton's French Drip Coffee thereafter.

DALTON BROS. - - - - - TORONTO 8

Sold in 25c. and 40c. tins. If, by any chance, your grocer is unable to fill your order, write us and we will see that you are supplied promptly.

If your Grocer will not Supply you Enclose $1.00 and we will Send Carriage Collect

A KEEN HORTICULTURIST

The Duke of Connaught Takes Great Interest in Gardening

The Duke of Connaught has quite won the hearts of the staff of gardeners at Rideau Hall by his interest in the house conservatories. The big glass houses are the most modern and best part of the Government House establishment. Lady Grey was a most enthusiastic gardener and spent many hours in the greenhouses, actively assisting the gardeners in pruning, layering and training the plants, the result being a profusion of bloom and foliage which was the admiration of all visitors. His Royal Highness, it appears is even a more enthusiastic admirer of flowers than Lady Grey, and although he does not actually assist the gardeners in their work, intelligently assists them with his advice and purse. One result of his interest has been the addition to the stock of the greenhouses of some rare varieties of flowers, from the Royal conservatories in England. It is stated that the Duke of Connaught is one of the most experienced horticulturists of the day. When at home at Bagshot House, he derives great pleasure from working in his garden. The laying out of beds is the work of his own hands, and he has quite a remarkable knowledge of botany. One of the finest conservatories in the world is to be seen at Bagshot Park, the interior representing a gorgeous tropical scene, in which ferns, palms, orchids, and other exotics flourish in luxuriant profusion, watered by miniature cascades, fountains and dripping wells. There is a stalactite cavern at one end, which by an arrangement of mirrors, appears far larger than it is in reality. A deep stream flows along the floor of this cavern, and beneath it are concealed a number of colored electric lamps, so that at night several little pools in the dark recesses appear to glow with a mysterious latent fire. Designed by an eminent London firm, this extraordinary conservatory cost $15,000.

THE VALUE OF PHEASANTS

"The popularity of the pheasant, as a game bird and as a valuable assistant to the farmer in keeping down insect pests," says a bulletin issued by the Conservation Department at Albany, N.Y., "is manifested in the statewide demand for eggs and birds which the Conservation Department is sending out from the state game farm. Sportsmen have found the pheasant to be hardy, prolific and game. Farmers testify that they like to see the beautiful birds in their fields, for pheasants are the active and tireless foe of all kinds of insects and worms that prey on crops."

"The Liver Pills act So Naturally and Easily."

Such a statement, coming from the cashier of a bank, shows what confidence responsible people have in these pills. Mr. A. L. Wilson after trying them wrote:

"I have used Dr. Miles' Nerve and Liver Pills and also your Anti-Pain Pills, on myself, with good results. The Liver Pills act so naturally and so easily that I scarcely know that I have taken a pill. Frequently being troubled with headache I take an Anti-Pain Pill and get immediate relief in every case."
A. L. Wilson, Sparta, Ill.
Mr. Wilson was for a number of years cashier of the First National Bank of Sparta.

Dr. Miles' Nerve and Liver Pills

are different from others. Many kinds of liver pills are "impossible" after one trial on account of their harshness. Dr. Miles' Nerve and Liver Pills do not act by sheer force but in an easy, natural way, without griping or undue irritation. They are not habit forming.

If the first bottle fails to benefit, your druggist will return the price. Ask him.
MILES MEDICAL CO., Toronto, Can.

UNION BANK OF CANADA

Paid-up Capital, Rest and Undivided Profits $8,181,970
Total Assets (Over) $58,000,000

Don't Waste Interest

and risk the principal itself by keeping a lot of money in your house or your pockets.

It would be much safer in the Union Bank of Canada—less likely to be spent—and instead of being idle, would be earning Interest night and day.

If you haven't a Savings Bank Account already, come in and open one.

How Far Will A Dollar Go?
It is largely a question of food knowledge and food sense. An intelligent selection of food means less waste, smaller grocery bills, better health, better nourished bodies. For breakfast take two
SHREDDED WHEAT
Biscuits and heat them in the oven to restore crispness and then pour hot milk over them, and you have a warm, nourishing meal that will supply all the strength for a half-day's work, at a cost of four or five cents.
Served with stewed prunes, baked apples, canned peaches, or sliced bananas the meal is even more wholesome and satisfying.

COHEN IS BLAMED.

Coroner's Jury Implicates Him In Toronto Murder.

Toronto, April 13.—"That the evidence points to Abe Cohen, now in custody, as the perpetrator of the murder and that Sadie Cohen has a guilty knowledge of who committed said murder." This was the verdict returned by Coroner Dr. Yeoge's jury at the inquest in the morgue last night, into the shooting of Rebecca Cooper, alias Berger, at 160 Chestnut street, on Monday evening, March 25.

The evidence given last night was practically a repetition of that taken a week ago, with the exception that Cohen was cross-examined as to his whereabouts at the time of the murder. He claimed he had left the house about 11 o'clock in the morning, returned for a few minutes about four o'clock in the afternoon, and spent the remainder of the time trying to sell some jewelry. At 7.50, the time the fatal shot was fired, he claimed to have been sitting in a confectionery store in Elizabeth street. The first he knew of the murder, he said, was when Marcovitch came into the store and said "the woman is shot."

Alex. Marcovitch and Mrs. Cohen were placed in the witness box, but their stories were very conflicting. Mrs. Cohen now, says she cannot tell anything about the case, and Marcovitch claimed that he had not been near the house after about 9 o'clock in the morning.

TELEGRAPHIC BRIEFS.

It is understood that the new treaty which has been signed with the West Indies is for a term of five years, although revokable at a year's notice by either party.

The British steamer Samara arrived at Lewes, Deleware, yesterday from Cardiff with the shipwrecked crew of the little British schooner Bluejacket on board.

Supt. Spencer of the C.P.R., according to report, has resigned his position and will leave Ottawa to farm in Southern Alberta, where he has purchased a ranch.

The German naval court decided yesterday that the P. & O. liner Oceana was responsible for the collision with the German vessel Pisagua in the English Channel on March 16.

Steve Mora of 13 Picton street, Hamilton, was fined $100 by Magistrate Fraser yesterday for violating the immigration laws. On Wednesday he entered Canada with two Hungarians.

Fireman Shaw of Mimico was killed and Brakeman Reedy died after an operation; two others seriously injured by a rear-end collision of freight trains yesterday morning at Port Hope.

Dr. Frances Ede and four other English suffragettes, imprisoned recently for window-smashing, obtained their release from jail yesterday before their terms had expired. They resorted to a hunger strike.

Two indictments, one containing ten counts against the American Express Co., and one containing five counts against the Adams Express Co., were returned yesterday at Buffalo by the federal grand jury.

The T. H. Taylor Woollen Co.'s salt storehouse building collapsed at Chatham yesterday, and slid, foundations, contents and all into McGregor's Creek. The foundations of the building were undermined by the recent flood.

Salad Oil To Be Labelled.

Ottawa, April 13.—Under the provisions of the Adulteration Act, an order in council has been passed fixing the standards for "edible vegetable oils." These include olive oil and cotton seed oil, the standards of purity of which are set forth in the order. It is provided that either of these may be sold as salad oil, but when cotton seed oil is offered as salad oil, the fact that it is cotton seed oil must be declared on the label.

The same requirement is exacted in regard to mixtures of cotton seed oil and olive oil. It must be stated on the label that the contents of the package are a mixture.

Millers Resent Treaty.

Chicago, April 13.—Proposed preferential duties between Canada and the British West Indies on flour caused the board of directors of the Millers' National Federation in session here yesterday, to appoint a committee which will make an appeal to the State Department at Washington to take action seeking to prevent the approval of the agreement.

A. L. Goetzman, secretary of the federation, read a report setting forth that the preferential duty would materially decrease the export sales of United States flour in the West Indies.

Ice Blocks Canals.

Ottawa, April 13.—Advices which have been received at the railways and canals department, indicate that the St. Lawrence canals will not be able to open before the first of May.

Trainmen Vote Strike.

New York, April 13.—By a majority of more than 20,000 out of 25,000 votes cast, locomotive engineers on fifty railroads east of Chicago and north of Norfolk and Western, have authorized their officers to call a strike, should further negotiations with the railroads for increased pay fail. The count of the vote was completed at noon yesterday, and the result made known immediately by Warren S. Stone, Grand Chief of the Brotherhood of Locomotive Engineers, to J. C. Stuart, chairman of the General Managers' Association of the Railroads.

The general managers have called a meeting, to be held here April 15, to consider the result of the vote. The engineers' officers have notified Mr. Stone that they would remain here for "a reasonable time" to await a counter proposition of the railroads. The original demands of the engineers for increases in pay aggregating fifteen per cent. were recently rejected by the railroads.

France Honors Victoria.

Nice, April 13.—A series of Franco-British festivities signifying, according to the French press, another powerful demonstration of the vitality of the friendship between the two countries, began here yesterday when an imposing monument was dedicated to the late Queen Victoria.

The British and French fleets were anchored in the bay, while 10,000 British and French marines and soldiers marched through the streets of the city and were reviewed by the French Premier, Raymond Poincare, Sir Francis Bertie, the British ambassador to France, Theophile Delcasse, French Minister of Marine, Alexandre Millerand, French Minister of War, the King of Sweden, and a large number of princes and princesses were present.

A statute of the late King Edward will be unveiled at Cannes to-day.

Teachers For London.

London, April 13.—The Canadian contingent to the Imperial conference of teachers' associations in London will number over two hundred. Among them will be Dr. C. C. James, chancellor of the University of New Brunswick; President Stanley Mackenzie and Prof. McGill of Dalhousie University, Nova Scotia; Rev. T. W. Powell, president of King's College, Windsor, N.S.; Mr. Alex. Mackay, supervisor of the Halifax city schools; Miss Walsh, of the Bishop Strachan school, Toronto, and Mr. W. H. Liddicoatt, of London, Ont.

The classical section of the conference will be presided over by Prof. Gilbert Murray, Regius professor of Greek at Oxford, and Lord Selborne will preside over the history session.

Woodstock's Treasurer Dead.

Woodstock, April 13.—Word received yesterday afternoon announced the death in Harrisburg, Pa., of one of Woodstock's most prominent citizens and officials, George C. Eden, city treasurer.

The late Mr. Eden had been in poor health for some time, but his condition was not regarded as serious until a few days ago, when he was the victim of a paralytic stroke. He had been resting at Harrisburg for a number of weeks.

The deceased was a prominent Mason and a life member of King Solomon Lodge of this city. He was appointed clerk of the town of Woodstock in 1880. In 1893 he resigned that position and was appointed treasurer of the municipality.

Fanatic Kills Wife and Self.

London, April 13.—A double tragedy was brought about yesterday by another mental brainstorm affecting the Rev. Samuel Henry, the self-styled "Messiah," who on February 26, caused a sensation in the House of Commons by firing several shots from a revolver at the ceiling of the lobby.

Henry was discovered yesterday morning dying in his home, with two revolver bullets in his head, and by his side lay his wife's dead body, with the throat cut.

C.N.R. Gets Tunnel Free.

Montreal, April 13.—C.N.R. sales of land in the "model city" total this third day over two million dollars.

By the profit it will make in the lots, the C.N.R. will be able to pay the cost of the tunnel through the mountain.

New Move for Board.

Ottawa, April 13.—The proposal made last year by the U. S. Government to have an international railway commission, have again been renewed to the Canadian board. The proposal is, briefly, that the board should be composed of selected members from the Interstate Railway Commission and the Canadian Board of Railway Commissioners for the consideration of through freight rates.

Issued Deed to Sidewalk Places.

Lethbridge, Alta., April 13.—The line of 125 men who occupied places outside the land office, with the intention of remaining there until May 1, when land would be opened up for settlement, have disappeared.

The mayor issued deeds to a foot of property to each man and the deeds will expire May 2.

Three Trainmen Injured.

North Stratford Junction, N.H., April 13.—Three trainmen were injured, two seriously, in a head-on collision between an express train bound from Montreal to Portland and a freight train westbound on the G.T.R. near Wenlock, Vermont, early yesterday.

Automobiles.

During the year 1910-11 28,000 new motorcars were registered in the United Kingdom.

A solid rubber tire to be placed over a pneumatic tire that has been punctured has been invented to enable an automobile to continue a trip after meeting with mishap.

In building automobiles to order to fit purchasers manufacturers use a framework in which the seat, footboard and steering wheel are adjustable to various positions.

He Thought Right.

Two of Britain's greatest fighters, Lord Nelson, the hero of Trafalgar, and the Duke of Wellington, nicknamed "Old Nosey," met but once in their lives, and that meeting occurred in the little hall at 10 Downing street. Beside the quaint old fireplace there they entered into a general conversation, and Nelson was so impressed with the duke that he asked a servant who was the man with the striking nose.

"Major General Sir Arthur Wellesley, my lord," replied the servant, astounded at the sailor's ignorance.

"Ah!" said Nelson. "I thought he was no common man."

Wisdom of the Serpent.

The serpent is even wiser than the woman tells us, according to Professor Maynard, the noted educator of Cambridge. In a startling statement the professor declared that as a result of study of snakes he is convinced that had they been able to develop hands and feet instead of being obliged to crawl their brains would have enabled them to dominate the world. In that event, he asserts, man probably would have remained in a primitive savage state or possibly even as an ape.

Her Peculiarity.

"You must find that impediment in your speech rather inconvenient at times, Mr. Barnes?"

"Uh, no; everybody has his little peculiarities. Stammering is m-mine. What is y-yours?"

"Well, really, Mr. Barnes, I am not aware that I have any."

"D-do you stir y-your tea with your right hand?"

"Why, yes!"

"W-well, that is y-your p-peculiarity; most p-people u-use a t-teaspoon."—Life.

Cause of the Mixup.

Police Justice—Jonas Smookey, you are charged with assault and battery on an inoffensive citizen. What have you to say for yourself?

Prisoner—Your honor, I arsked 'im, as civil-like as a man can be, how did he pronounce "McNamara." He told me it was accented on the peanut. "Makin' fun of me, are ye?" I says, an' I chugged him one.—Chicago Tribune.

BEAUTIFUL HAIR AT SMALL COST

A Simple Remedy Beautifies the Hair, Cures Dandruff, Stops Falling Hair.

What a pity it is to see so many people with thin, wispy hair, faded or streaked with gray, and realize that most of these people might have soft, glossy, abundant hair of beautiful colour and lustre if they would but use the proper treatment. There is no necessity for gray hair under sixty-five years of age, and there is no excuse for anyone, young or old, having thin, struggling hair, either full of dandruff or heavy and rank and smelling with excessive oil.

You can bring back the natural colour of your hair in a few days and forever rid yourself of any dandruff and loose hairs, and make your hair grow strong and beautiful by using Wyeth's Sage and Sulphur Hair Remedy. For generations common garden Sage has been used for restoring and preserving the colour of hair; and Sulphur is recognized by Scalp Specialists as being excellent for treatment of hair and scalp troubles.

If you are troubled with dandruff or itching scalp, or if your hair is losing its colour or coming out, get a fifty cent bottle of Wyeth's Sage and Sulphur from your druggist, and notice the improvement in the appearance of your hair after a few days' treatment. Special agent, Warne Drug Co.

Going For Water.

The "water wagon," dear old thing,
Was never heard of till
Dear Jack and Jill went out one day
And climbed that famous hill.
—Yonkers Statesman.

Clara Barton Dead.

Washington, April 13.—Miss Clara Barton, founder of the American Red Cross Society, died at Gen Echo, Md., at nine o'clock yesterday morning from chronic pneumonia, with which she was stricken about a year ago. She was born at Oxford, Mass., in 1821.

Ten Years For Killing Man.

Quebec, April 13.—Octave Godbout, charged with murdering J. Cadran by hitting him with an axe over the head, in a dispute over a right of way through a farm, was found guilty of manslaughter, and sentenced to ten years.

MARKET REPORTS.

Liverpool Wheat Futures Close Lower, Chicago Higher—Live Stock —Latest Quotations.

CHICAGO, April 12.—(Can. Press.)—Excited competition for wheat to-day resulted in a net advance of 1¼c to 2¼c a bushel. This means that since Monday the price of the cereal has risen 7¼c to 8c. Disastrous impairment of crop prospects all the way from Ohio to Missouri was what put force into the buying. Largely as a result of the wheat bulge, corn reached a new top level for the year and closed ⅝c to 1c higher than last night. Oats rose 1¼c to 1⅝c, and provisions were up 25c to 37½c.

Montreal Grain and Produce.

MONTREAL, April 12.—The foreign demand for wheat was good, but, as the bulk of it is for April-May and May-June shipment, at no advance in prices on yesterday's bid, little business was done. A fair trade was done in oats and other coarse grains for local and country account at firm prices. A break of 2½c per pound in the price of butter took place to-day, owing to increased receipts and still lower prices are looked for. Cheese is also lower. Eggs declined 1c to 2c. Provisions steady.

Corn—American No. 2 yellow, 80c.

Oats—Canadian western, No. 2, 54c to 54½c; do., No. 3, 53c to 53½c; extra No. 1 feed, 51c to 51½c; No. 2 local white, 50c to 50½c; No. 3 local white, 49c to 49½c; No. 4 local white, 48c to 48½c.

Barley—Manitoba feed, 65c; malting, $1.05 to $1.10.

Buckwheat—No. 2, 75c to 76c.

Flour—Man. spring wheat patents, firsts, $5.70; seconds, $5.20; strong bakers, $5; winter patents, choice, $5.10 to $5.25; straight rollers, $4.65 to $4.75; straight rollers, bags, $2.15 to $2.25.

Rolled oats—Barrels, $5.55; bag of 90 lbs., $2.65.

Millfeed—Bran, $25; shorts, $27; middlings, $29; moullie, $28 to $32.

Hay, No. 2, per ton, car lots, $14.50 to $15.

Cheese—Finest westerns, 15½c to 15¾c; finest easterns, 14½c to 15c.

Chicago Live Stock.

CHICAGO, April 12.—Cattle—Receipts, 1000; market, steady to higher; beeves, $5.50 to $8.70; Texas steers, $4.60 to $6; western steers, $5.50 to $7; stockers and feeders, $4.25 to $6; cows and heifers, $2.60 to $6.10; calves, $7.50 to $9.25.

So 'Twas Cabbage.

This incident happened at camp when a corporal who was making up the rations was approached by the tent orderly, and the latter suggested a change in the dietary.

"We should like to have some rhubarb," he said.

"You may have it," replied the corporal, who, with pencil and paper, then commenced trying to record the order. He began "Ru," hastily abandoning that for "Reu," and then put "Roo" and "Rheu" respectively. Thoroughly exasperated at last, the corporal exclaimed, "Rubub be blowed! You'll have cabbage!"—New York Mail.

Mere Guesses.

A suffragette
May fight and fight
And still look under
The bed at night.
—Birmingham Age-Herald.

But if she found
A burglar there
She'd yank him out
And pull his hair.
—Boston Transcript.

And while she had
The robber's goat
She'd make the laddie
Pledge his vote.
—Youngstown Telegram.

Or maybe she,
With courage grim,
Would pause to make
A speech to him.
—Chicago Record-Herald.

The Morning After.

John had accepted an invitation to dine with his friend Jones, and it being a very dark night and the roads bad, John took a stable lantern to light him on his way. They dined well, and John departed for home.

The next morning John received a note from his friend as follows: "Dear Jack—The bearer brings your stable lamp. Please return parrot and cage."—Ideas.

Improving Nature.

She's just as nature molded her—
No puffs nor paint nor pad.
She would not rouge for all the world,
Though tint she never had.
She would not use that powder puff—
I think they call it "pearl."
With such a skin it would be used
By any other girl.

She's neither false nor foolish.
She's not made up—oh, no!
On a woman so deserving
What praise can we bestow?
Her sacrifice is noble,
Her conduct all that's right,
A very perfect woman,
But what an awful fright!
—New York Sun.

"Indifferent Honest."

Lawyer—Now, sir, from what you know of his reputation for truth and veracity in the community in which he lives would you believe him under oath?

Witness—Yes, sir, as a gen'ral thing. Of course if it was absolutely necessary fur him to swear to a lie I reckon he'd do it, mister, same as you would.—Chicago Tribune.

The Latest Version.

Mary had a little lamb—
I read it in a book.
They thought she did not need it, so
Away the lamb they took.

When Mary got it back again
From a Chicago shop
She had to pay about two bits
For every little chop.

"Leave me the wool at least," said she.
But echo answered: "Nay.
That part of it is tangled up
Somewhere in schedule K."

Worried.

"Say, come over here, old man. I want to ask you something in confidence. Is there anything peculiar looking about me?"

"No. Why?"

"That tall, handsome woman just beyond the punch bowl asked me a moment ago whether I fiddled or played chess."—Chicago Record-Herald.

Table Hints.

He who eats the proper way
May live to eat another day.
—Chicago Record-Herald.

While he who bolts his beans and pie
May never live to swat the fly.
—Springfield Union.

However low his pride may stoop,
No one should ever gargle soup.
—Birmingham Age-Herald.

And he who proper training shows
Don't sprinkle pepper up his nose.
—Yonkers Statesman.

A Blow At The White Plague

Just think what it would mean if even half the deaths from consumption could be avoided. It is surely not too much to claim that at least this many cases are directly due to neglect to cure colds.

It is a simple matter to control a cold when you have Dr. Chase's Syrup of Linseed and Turpentine in the house for prompt use when the first symptoms appear. Many thousands have found this out by experience, and this is why no treatment for coughs and colds has anything like the sale in this country that this well-known medicine has.

Croup, bronchitis, whooping cough, sore throat and chest colds soon yield to the healing, soothing influence of this great medicine. You can readily prove this and will then understand why this treatment is so popular.

A Suggestion.

When the postman to my portal
Comes with dunning notes galore
I'm not prone to shout and chortle,
On the other hand, I'm sore.

This the painfulest of shocks is.
'Twould relieve my mental ills
Should they place on all mail boxes
This injunction:
POST NO BILLS!
—Judge.

Obiter Dicta.

The School of Experience gives no engraved diplomas, but one has little trouble identifying her graduates.

The Successful Man was out and on the job long before Opportunity came a-knocking.

And this same Opportunity, by the way, is oftimes disguised as Hard Work.

Optimism is a virtue—if it is not allowed to usurp the place of Industry.

Tell me what you eat, and I'll tell you where you work.

The time to take a brace is several days before the day before yesterday.
—Judge.

Musical Rivalry.

Oh, dar's melancholy music when de storm begins to blow!
De cabin is de fiddle, an' de north wind is de bow.
So we keeps de fire a-blazin', an' we lets de oblifun shout
An' sings out: best to drown dat melancholy music out.
—Washington Star.

RADWAY'S PILLS

FOR THE STOMACH LIVER BOWELS AND KIDNEYS

FOR FIFTY YEARS THE HOUSEHOLD REMEDY
Made from Purely Vegetable Ingredients
Superior in every respect to the ordinary produce and substitutes of the commonly advertised Pills.

Dr. Radway & Co. December 31, 1910

Dear Sirs—I write to let you know that I have used your remedies for the past forty odd years. About twenty-six or seven years ago I was married, and many my relatives (who are all married) use them, too. I only use your Pills and Radway's Ready Relief myself, although I would recommend only as a token of gratitude your Sarsaparilla.

Mrs. Margaret Bennett,
60 South Third St., Brooklyn, N. Y.

P. S.—You can use this as you think best.

RADWAY'S PILLS ARE RECOMMENDED TO EFFECT A POSITIVE CURE.
ACCEPT NO SUBSTITUTES.
RADWAY & CO., Ltd., MONTREAL, Can.

OPENING UP SOUTH LOTS

Ground Between Park St. South and the Boundary Road is Being Broken Into Building Lots

INTEREST IS GROWING

The breaking up into building lots of the property along the River Road from the south end of Park street, over to the extension of the boundary road is a sign of a real estate movement that indicates the development of the city in that direction. Grounds that have been used as farm lands or as market gardens are being broken up into lots and quite a number of sales have already been recorded. One large plot is to be divided up this summer and put on the market. Not only are lots being set apart, but houses have, in a number of cases, been erected. The locality is regarded as desirable, especially in summer, and with an extended car line in a year or more, it should become a desirable residential locality. This is not the only activity. For several other lots, between Romaine street and the river are beginning to receive notice, and as the spring advances into summer there should be an improvement in the feeling towards this suburb. It is just beginning to be a magnet, and with the prospect of street railway communication the district between the extended parts of Dock and Boundary Road, will become more and more favourable in spite of the western lure.

New Secretary For The I.O.F.

Bro. G. W. Powell Resigns Position After Long Service With Court Chemong

Court Chemong, 530 I.O.F., held its semi-monthly meeting in the S.O.E. Hall, Hunter street, on Thursday evening. There was a good attendance of the members present. The meeting was presided over by Bro. D. Wallace, C. R. The Court was favoured with a visit from Bro. R. Nimmo, D.Sc.R., and Bro. W. J. Wilson, D.Sc.R., who had been in the city for some time, and quite a number of new members have been added to the Court through their efforts.

Bro. G. W. Powell, who had been Financial Secretary for about 14 years, resigned that position owing principally to his business requiring all his attention, and the members expressed their regret at his resignation. On motion of Bro. Madill and Bro. Allison, a vote of appreciation was unanimously tendered to Bro. Powell, who replied in a suitable manner. The Court then chose as their new Financial Secretary Bro. B. A. Rose, Grand Trunk City Ticket Agent, George Street. Bro. Rose will enter on his new duties at once, and the members are requested to note the change of Financial Secretary.

RED MILL Big Attraction, Monday, April 15th, MISS OGDEN, one of the Country's Greatest High Soprano Singers, direct from New York City. Big Afternoon Show for Ladies for this attraction. Come Early. 5c.

ONLY 2 TENDERS

There was no scramble for the street watering contracts this year, judging from the fact that in answer to an advertisement calling for tenders there were only two replies.

For this work the city is divided into four districts and replies were made for only two of them. The Board decided not to let a contract under these conditions and it was left with Ald. Buller and Mr. Evans to arrange for the watering. Arrangements will likely be made with some who have now tendered, and the tenders received for the two districts will likely be accepted.

BE SURE you go to the St. George's Choral Society CONCERT at the Grand Opera House on TUESDAY, APRIL 16th, at 8 p.m. Good Programme by good Singers. Violin Solos by Dr. Park. Reading by Miss Moss. Don't wait, secure your tickets at once.

ASQUITH'S PRONOUNCEMENT QUIETLY RECEIVED

LEGAL AUTHORITIES SAY IT MAY NOT BE POSSIBLE TO EXTRADITE NESBITT

Prisoner is Housed in Cook County Gaol and Tells Detectives That He Had Been Experimenting on a New Electric Shocker Which Was to Have Made His Fortune ---Ex-Canadian Gave Tip to Police.

Special to The Examiner:

CHICAGO, ILL., APRIL 13.—Dr. Beattie Nesbitt, of Canada, accused of bank wrecking and fighting extradition is this morning comfortably housed in the hospital department of the Cook County jail. The authorities take the ground that Nesbitt is not an ordinary criminal and should not be treated as such.

The prisoner told the detectives on re-examination this morning that he had been experimenting for some weeks on a new electric shocker, with which he expected to make his fortune over again. There have been several claimants for the reward offered by the Ontario government for the apprehension of Nesbitt. The police, however, assert that the real tip was given three weeks ago by an ex-Canadian, who saw Nesbitt walking on the street.

May Not be Extradited.

TORONTO, APRIL 13.—Several legal experts here have given it as their opinion that Nesbitt cannot be extradited on the charges so far preferred against him. They say that the technicalities available in the United States law will easily defeat Canadian authorities on those charges.

MRS. MARY SPURR, who has come from England to Toronto to give evidence in the forgery charges against Drs. Evans and Harvey, who are alleged to have conspired to obtain money from the estate of John Revell, with whom Mrs. Spurr eloped from the old country.

WEST HAS NO CHARMS FOR THIS PENNILESS GERMAN

A little German man sat in the C.P.R. waiting-room last night and heard his two-year-old child crying for something to eat. A big burly railroader took in the situation and investigated. The mother was dead, and the father had come all the way from North Bay. He was on his way to Montreal, where he expected to locate some friends. His worldly possessions amounted to a shabby looking suit case and the return half of a tourist ticket. During the first six weeks he was in the west his wife died. Other misfortunes occurred, and he threw up the sponge and decided to come east on the return half of his tourist ticket, which had not yet expired.

It didn't take the man in blue jeans long to get something for the hungry child to eat. He went across the street and returned later with a paper parcel of good things. He then collected some money from his fellow-employees, and added a little to it himself. A few short blasts from the pulsating locomotive in the railway yard called him away. An hour or so later the little German man with his child was safely aboard the midnight train, heading for Montreal.

MINIMUM SUN SPOT PERIOD HAS JUST BEEN PASSED

Rev. Dr. Marsh of Springville, calls attention to the fact that the minimum sun spot period has been passed. Dr. Marsh explained to the Examiner this morning that every eleven and one half years we have a minimum and maximum sun spot period, that is to say, during the maximum period of five and one quarter years the sun is more or less covered with spots. During the minimum period these decrease, until sometimes for months the sun is entirely free from spots.

"We have just passed through the minimum sun spot period," remarked Dr. Marsh. "For some time there had only been one or two very minute spots. However, on Monday last, a very nice group of sun spots was visible and on Wednesday I succeeded in getting the measurement of them, finding them to be 50,000 miles in length and 5,000 miles in width. These are not excessively large, but they show the minimum period is passed."

Houses To Be Built By Jews In West Ward Criticized By Ald. Duffus

The proposed erection of houses on the property between Park and Downie Sts., on the south side of Simcoe St. extended, was referred to by Ald. Duffus at the meeting of the Board of Works last night. He stated that he understood some Jewish citizens intended to erect on the property houses which he styled two by fours. He had no objection to the erection of the houses if they would be suitable to the locality. He suggested that the fire limits be extended to include the lot referred to, thereby requiring the erection of substantial buildings.

Ald. Johnston—You will meet with a great deal of opposition around Bethune St. We took up this matter several years ago, went into it carefully and could not accomplish anything material.

Ald. Brown—The fault is with the sellers. They should put building restrictions on their property.

Ald. Graham suggested that there should be a building inspector with power to inspect and control the building of houses within a certain area.

Ald. Gordon—You do not need walls of 13 in. in that district. You extend the limits to this place, and some one else will want them further extended to include other districts. You cannot make laws for the Jews and others for the Gentiles.

Ald. Duffus stated that he was influenced only by the desire to protect the buildings in that locality, and that if the present houses were substantial that was all that was required.

The question was referred to the Property Committee on motion of Ald. Gillespie, seconded by Ald. Duffus, and that the by-law be properly amended.

Bi-lingual School Policy Announced

Examiner Special:

TORONTO, APRIL 13. — Premier Whitney, in the Legislature, this afternoon announced the Government's policy in connection with bi-lingual schools:

Summarized, it is:

1. Additional inspection of schools, and enforcement of regulations.
2. State aid, conditional on the employment of teachers capable of giving English instruction, and where necessary, further aid toward the payment of such teachers.
3. Only text books authorized by the Education Department to be used
4. English instruction to commence as soon as the pupil enters school, and the use of French to continue in no case after the first two years.

FOOT BRIDGE AT C. P. R. WANTED BY RESIDENTS

Ald. Buller Considers it an Absolute Necessity For Those Who Work in South Ward Establishments.

ITS USE WAS ABUSED

The necessity of a foot bridge accommodation at or near the C.P.R. bridge, was emphasized by Ald. Buller at the meeting of the committee of the Whole Council on Friday night.

"The C.P.R. Company," he said, "have evidently determined not to allow citizens to use it for crossing, and it is absolutely necessary under present conditions, that some provision be made. There are many people living in East City who work in the C.G.E. and other factories who have to cross the river every day, and there are others living on this side of the river who have to cross to reach the Dickson Company's mill, and for other places. Could you not, Mr. Mayor, interview the new Superintendent of the Company and see if something can not be done to secure the privilege of crossing the bridge?"

Ald. Anderson said he understood that the Dickson Company was now losing men because they could not use the bridge for going across.

Over 200 Affected.

Ald. Buller—You have to build a bridge or 200 or 300 residents of East City will have to move across. We have to do something and do it quickly.

Mayor Bradburn—Mr. Oborne, the former superintendent, told me distinctly that the orders from the head office were that foot walks on railway bridges were no longer allowed by the company and nothing more could be done about it.

Ald. Buller—It won't do any harm to see the new Superintendent anyway.

Mayor Bradburn stated that he would do so on Tuesday when in Toronto.

With Baby Carriages.

Ald. Johnston enquired about the reasons for such a stringent measure, and Ald. Duncan and Ald. Anderson informed him that on various occasions the express had to be stopped because of women crossing with baby carriages.

AMENDMENTS LOST

TORONTO, APRIL 13.—In the concluding session of the Public Accounts committee in the Legislature this morning the Liberals, by introducing amendments attempted to secure the condemnation of the Minister of Education for inclosing the school in Springer township. It was an echo of the bilingual controversy, and Liberal amendments were lost on a straight party vote.

CITY WILL PROTECT PROPERTY OF NORTH MONAGHAN RATEPAYERS

Ground For Dumping Purposes Will be Mutually Satisfactory to City and Township---Cap for Sanitary Inspector ---Other Business Done by the Council.

A deputation of North Monaghan ratepayers waited upon the Committee of the Whole Council last night to ask that the city's selection of property for a dumping ground be changed, and it was decided that the agreement for the purchase of the Jackson property be not entered into, and that the Property committee confer with the township Board of Health for the selection of ground agreeable to both parties.

Mayor Bradburn presided with Aldermen Buller, Brown, Gillespie, Duncan, Johnston, Duffus, Gordon, Anderson and Graham present.

A deputation from the Peterborough Industrial Exhibition was heard in regard to a question, the details of which will likely be published in the near future.

The North Monaghan representatives included Reeve Howden, Mr. John Holmes, Mr. Saunders, Mr. Hayward and Mr. Anderson.

Buildings Going Up.

Mr. Howden stated that it was understood that the city had selected ground which was to be purchased for dumping purposes. One hundred acres had been cut up into building lots in that vicinity and already there were quite a number of buildings erected. The section would soon be quickly populated, but a public dumping ground would be very objectionable and would not only lessen the value of the property and be a general nuisance, but it would deter others from locating in the vicinity. Lots would be turned over this year which would otherwise remain in first hands if a dumping ground were established in the neighbourhood.

Mayor Bradburn said the Council wished to do nothing that would lessen the value of property or be an inconvenience to the community.

Mr. Holmes—Every city safeguards its suburbs and Peterborough should begin to do likewise.

Ald. Brown—How far do you think our suburbs should go?

Time For a Change.

Mr. Holmes—I would like to see them go to Toronto. We in Monaghan have been taking the dumpings from Peterborough for a long time, and it is about time the city began to look elsewhere for a place to dispose of it.

Mayor Bradburn—Mr. Howden, can you suggest a suitable place we could select?

Reeve Howden—I would not like to answer that just now, but you should be able to get some swampy grounds that would be acceptable.

Mayor Bradburn—We have a difficult matter to handle in this regard, and we want to get a place that will not injure any one nor the value of their property.

To Mutual Satisfaction.

Reeve Howden—I would report to the Board of Health any ground you might select other than the Jackson property.

Ald. Gillespie supported this idea, and in order that a location, meeting the approval of the city and the township might be selected, moved, seconded by Ald. Duffus, that the former deal not be closed, and that the Property committee take up the question with the Board of Health of North Monaghan.—Carried.

A conference will be held on Monday night to consider several options.

Cap For Inspector.

Ald. Duncan announced that some distinguishing suit or mark was necessary for the Sanitary Inspector. He asked that the Property committee be given power to provide for a cap or suit.

Ald. Gordon— How would a baseball suit do?

Ald. Buller—Why not give him a cap?

Ald. Gordon—A fur cap?

Ald. Duncan considered a cap suitable and moved, seconded by Ald. Johnston, that the Inspector be provided with a special cap designating his office.—Carried.

Ald. Graham—Are you going to have ear laps on that cap?

Crossing C. P. R. Bridge.

Ald. Buller led forth the question of a foot bridge n the C.P.R. bridge. After some discussion Mayor Bradburn stated that he would interview the Superintendent of the company when in Toronto next Tuesday.

INTERFERED WITH THE OFFICER WHO WAS MAKING AN ARREST

MRS. ANTOINETTE TOLLS, who was three times saved from the gallows by newspaper agitation, started by the Cincinnati Post. She has now been pardoned, after six years in prison. Mrs. Tolls killed Joseph Sontarea, who tried to persuade her to elope with him.

He Was Promptly Nabbed and Accompanied the Offender Whom He Tried to Assist to the Cells

OTHER CASES DEALT WITH

Patrick and William Lavery were arrested last evening about 10.30. The former for interfering with a policeman while in the performance of his duties and the latter for being drunk and disorderly. Patrick has just slipped over the age limit of 21, and in order to convince the bar tenders that he has reached an age when he may legally receive liquor over the bar, he finds it necessary to carry a certificate. This was produced in court this morning.

P. C. Kidd testified that last evening, about 10.30 o'clock, he met the prisoner and his brother coming down George street. The latter was under the influence of liquor. When witness attempted to arrest William Lavery, the brother interfered. This action on the part of Patrick Lavery culminated in the arrest of both.

Detective Newhall took the stand and gave evidence to the effect that he observed the prisoners last evening. William was in an intoxicated condition, and Patrick also exhibited signs of having imbibed freely. The latter was arrested for interfering with the officer while in the performance of his duty.

William Lavery, on being put into the box and requested to state where he got his liquor, stated that he came up town early in the evening, and met a chum by the name of Keegan. The latter had a bottle of liquor. The trio then went to Weistenholme's woodyard, where they consumed the contents of the bottle. Witness then separated from his friends and came up to an up-town pool room, where he encountered a number of friends in the basement. A flask was passed around and witness consumed about half of the contents.

(Continued on page 13.)

THE SITUATION IN IRELAND

Special to The Examiner.

BELFAST, IRELAND, APRIL 13.—Orders have been issued by all Orange lodges to suppress all suggestion of disturbances against the home rule bill at present. The correspondents here of the London papers, Unionist and Liberal, freely admit that the reception accorded Asquith's very logical pronouncement was far less antagonistic than they expected. Leader John Redmond is enthusiastic in his praise in the reception of the bill.

The final luxury of tea-drinking, the quality which distinguishes it as the world's best, is assured to users of "SALADA" Tea.

HOBOS ARE VANISHING

How the Local Authorities Deal with the Tramp Nuisance---Punishment is Sure and Swift

"SIGNS" AGAINST THEM

That the old time knight of the road is destined to become extinct goes without saying, that is, as far as Peterborough and the adjacent county is concerned. The old familiar slang of the nomadic gentleman in question will also soon be a thing of the past, for according to statistics compiled by Chief of Police Thompson, there is shown to be a steady decrease in the number of tramps who visit this city, and unless the police relax their vigilance, which is hardly probable, the genuine specimen will soon be looked upon as a rarity.

Not Wanted Here.

During the past few years, the determined efforts of the authorities to rid the town of its transient citizens have been productive of good results, and the weary Willie who would make this city a port of call must surely have got his signals crossed or have been the victim of a severe attack of astigmatism which caused him to misinterpret the sign language on the outskirts of the town. A tramp with a desire for vengeance upon one of his pals, could adopt no more effective method than by directing him to the Electric City. Here his unsuspecting victim would be ensured a night's lodging and would subsequently become a ward of a public institution where, for six months at least, he would be devoid of the cares of this mundane sphere.

Take to the Woods.

In the isolated rural districts one might run across a specimen of the old professional hobo. Here the law is enforced and consequently danger from molestation is practically non existent. It is the petty thief and insolent mendicant that give the police the most trouble, and it is more particularly on account of the latter that the rules regarding the expulsion of vagrants from the city are being so strictly enforced. The majority of tramps now are fakirs, in every sense of the word—men who beg for money chiefly upon the grounds that they are incapacitated for work. This excuse is usually accompanied with a hard luck story about a starving wife and children. This class of impostors invariably fall into the hands of the police, and are usually sent down for terms long enough to impress upon their minds that the authorities of this city will not tolerate their presence here.

Below the Average.

Chief Thompson, who has been keeping close tab on the tramp problem, informed the Examiner that the number of tramps dealt with pro rata the population, was below the average. This condition he attributes to the fact that delinquents of this character are usually severely dealt with. Many of the old timers who formerly travelled the panhandle route from coast to coast were thrust into the vortex of the under world through no fault of their own. They forsook the shelter of the family roof at an early age, and unable to obtain honest employment, wandered from town to town until the habit became fixed, and they ultimately developed into common tramps.

LADIES' HOSE 25C PER PAIR

Through a typographical error in Mr. T. C. Elliott's advertisement last night, it was stated that ladies' hose would be sold for 25c to-day. The advertisement should have read 25c. The hose will be on sale at this price to-day and this evening, and no doubt will be in great demand.

WET WEATHER FOR PRIMARIES

Special to The Examiner.

PHILADELPHIA, APRIL 13.—Wet weather to-day greeted the primaries throughout the state. In the Republican section the regular party organization is backing Taft, but the Roosevelt faction is much aroused by the enthusiasm developed by the Colonel's tour this week. In the Democratic section there is a three-cornered split with Woodrow Wilson rather a favourite, though Champ Clark and Judson Harmon are running strong.

Peterborough Presents Possibilities Unparalleled."

SATURDAY, APRIL 13, 1912

THE HOME RULE BILL.

There is little doubt that the Home Rule bill will pass the House of Commons; and there is natural anxiety as to what the House of Lords will do with it. It is provided by the Parliament Act that "if any other bill is passed by the Commons in three successive sessions, whether of the same parliament or not, it shall on its third rejection by the House of Lords, be presented for royal assent, and if assented to, become law." Therefore, if the present Government retains power for two sessions more, with practically the same support in the House, the Home Rule bill and Home Rule will become an accomplished fact, assuming that the Lords will kill the bill on its first passage.

RE BILINGUAL SCHOOLS.

We have Sir James Whitney declaring that there are no bilingual schools; and we have the Education Department withholding the government grant fro ma bilingual school, because the trustees failed to employ a French teacher, to teach French. The Deputy Minister of Education said, with the Minister's authority, that "the French children must be attended to." The law does not require the withholding of the grant; for there is no regulation making it obligatory upon trustees to provide for teaching French and German. The regulation, quoted in another column, make such provision permissive. A reading of the article in another column containing the letter of the Deputy Minister of Education, and the proceedings in connection with it before the Public Accounts committee, will be instructive, and will suggest food for thought and explanation. The report of Dr. Merchant showed that there were scores of bilingual schools, where the teaching of English was neglected or altogether absent; yet there is no record where any school section was penalized by withholding the government grant. Yet in one school section where there was alleged neglect to provide for the teaching of French, which is not an obligatory, but permissive subject, the government grant is peremptorily witheld.

THE CALL OF HUMANITY.

Humanity demands that more adequate provision should be made for the care of unfortunates—the insane, the very poor, and similarly afflicted persons. At every Assize Court in Peterborough—and doubtless in every county in the province—judges and grand juries animadvert upon the sinful practice of the housing in jails—herding with criminals—of insane persons and poor persons, whose misfortune ond poverty are practically classed as crimes. A jail is no place, except for the very temporary detention of insane persons; there are no provisions for properly caring for them; there are no provisions for the psychiatric treatment, which if promptly and properly given—before a momentary condition of hallucination becomes a permanent obsession and state—might result in the restoration of reason. If, in our public institutions, presumbaly properly equipped for caring for and treating the insane, there are, as there is reason to too often believe, cases of ill-treatment and neglect, what are we to expect from jails, which are not provided with any adequate appliances or equipment for the proper treatement and care of such unfortunates who are thrust upon jail officials that have no legitimate responsibility in respect of them? Insane persons are sometimes confined for months in jails, naturally going from bad to worse. The same condition obtains in the case of the very poor. There is reported an instance in the local jail, where a poor woman, whose only crime was her poverty, was confined in the common jail, it is said, for two years. Naturally her advanced years added to her confinement and the deadly dullness of prison life brought on chronic illness, and it was only the dangerous character of this illness that resulted in her removal to a hospital, where she could have the care and attention her case demanded. Such conditions as those recited are, by no means, a credit to Christian civilization, not to speak of humanity. The call of humanity is for the exercise of greater care, the employment of better means, the provision of better facilities, for caring for unfortunates, with some slight deference to the call of humanity. We are a prosperous and comparatively wealthy people; we can raise thousands, even millions, for missions, to veneer foreign heathens with Christianity, but in respect of our unfortunates, we follow the lead of the Levite of Holy Scripture—turn our eyes away and "pass by on the other side." Evidently the Good Samaratin did not marry and leave a posterity.

CAUSE AND EFFECT.

The recent prevalence of floods in different parts of Ontario, leads the Toronto Star to moralize thus:

Floods in the spring, drouths in the summer, are attributed to the reckless destruction of forests, which used to act as reservoirs of water, holding it back in March and April, and gradually distributing it through the summer months. Reforestration and dams are suggested as remedies. The question ought to be carefully studied. The floods not only do damage to buildings, but they wash away acres of fertile soil. In midsummer, the streams run dry and heavy loss is sustained by farmers, and especially by stock raisers. In Alberta and in some of the Western States the value of agricultural lands has been greatly increased by artificial irrigation, which simply means the conservation ad direction of the water supply. We ought to pay more attetion to this question in Ontario.

The prevalence of spring floods involves two considerations, cause and effect. We all know that denudation of the country of forest has destroyed the natural reservoirs, which, consisting of deposition of leaves from year to year, absorbed water and prevented its rapid off-flow—only allowing it to seep away slowly, spreading the process over a considerable length of time. Now our forests are cleared away, almost altogether in some sections, especially Western Ontario, which has suffered most severely fro flood this year; and water resulting from the rapid melting of snows, due to strong sunshine, untempered, or prolonged as to effect by forest shelter, rushes off in torrents, creating the disastrous floods recently chronicled. Here we have cause and effect.

The cure is two fold in character. The one cure for floods is what may be called artificial, the construction of reservoir dams in or near the watershed region where our rivers and streams rise. Peterborough and district escape spring floods altogether, thanks to the system of conservation reservoirs in the north country. The dams hold back the high water in spring, preventing it from escaping in one wild tumultuous rush, carrying not only destruction with it but involving loss of water for the whole ensuing season. In Peterborough and vicinity we have an abundant and regular supply of water released during the summer, as the demands of navigation in the lakes, rivers and canals or of power production call for We owe this condition primarily to a far-seeing representative of West Peterborough, and member of the late Ross Government, who instisted the negotiations that resulted in the withdrawal of the watershed of the Tret Canal basin from provincial jurisdiction, and placing it under that of the Dominion Government, which, in the interests of navigation, has built a large series of reservoir dams, by which water is stored, and distributed, as needed, instead of being allowed to rush away to the sea in spring gushes. In other parts of Ontario the waters are under Provincial jurisdiction, because, for one reason they are, for the most part, not navigable. A series of conservation dams, similar to those in the Trent watershed, built so as to hold back and retain the source waters of these streams, in the spring, would tend to prevent much of the flooding in spring, in which more damage is done than the cost—or at least the interest on the cost—of these dams would amount to.

That is the largely human and immediately available element of cure, which has another form in extensive reforestry. All over Ontario, on almost every farm, there are portions unfit for agriculture, and on which could be planted trees. These would not only furnish fuel to the owners of these farms, but would, in the aggregate, contribute to a considerable extent of forest surface, with a good deal of the beneficial effects of forest conditions.

Besides, there are vast stretches of territory from which lumbering operations have stripped the forest. These present admirable opportunities for reforestry, which would provide natural reservoirs, important in proportion to the extent to which reforestry is applied. This would be another element of cure from spring floods; and it can be assisted by control and regulation of cutting in lumbering operations. Now-a-days lumbering, like the locust, cuts down every green thing. Nearly all ages of timber growth that can be turned into commercial value, fall before the lumberman's axe. Young trees that have normally half a century of growth, and increase in value ahead of them, fall equally with the mature timber.

BANQUETTED THE WRONG MAN.

(Montreal Herald)

The presence of Mr. Lavergne (the Quebec Nationalist) at the Roblin banquet in Winnipeg, was an event of significance. Mr. Lavergne, it will be remembered, did his best to make trouble among the Quebec members at Ottawa when the bill for the extension of the Manitoba boundaries was up, because no provision was made for Catholic schools. It was represented to those how might have bolted that Mr. Roblin would safeguard their position by meeting the demands of the Catholics, who, especially in the towns and cities, have been maintaining their own schools as well as paying their public school taxes. Mr. Rogers, who is a practical politician, seems to have been convinced by the aggressiveness of the movement led by Mr. Bourassa and Mr. Lavergne that something of the kind must be done if the Quebec Conservative members, who remained faithful were to have any chance to hold their ridings. And Mr. Lavergne evidently believes, (Mr. Lamarche too, by the way) that the filibuster has been successful. Probably it has, although the despatches from Winnipeg have some doubt as to whether the clause introduced by Mr. Roblin's Minister of Education is going to prove workable in practice. If it does, the position in Manitoba will be very like that in Nova Scotia and New Brunswick, where there are public schools in which Catholic children are taught by Catholic teachers. If this is a satisfactory solution of the difficulty, then the credit for bringing it about rests rather with Mr. Lavergne, who forced Mr. Rogers to it, than with Mr. Roblin, who could have done it any time these ten years. The banquet in celebration of restored amicable relations seems to have been tendered to the wrong man.

Minister Of Education Declines To Explain Springer No. 4 Letter

Will Not Tell Committee Why School Was Closed—Would Not Tell What Was Meant by "Children of French Ratepayers Must be Attended to."

The following is the letter which Hon. Dr. Pyne, Minister of Education, refused to explain before the Public Accounts Committee, as related below:

Toronto, May 20, 1911.

Dear Sir,—I am directed by the Minister of Education to acknowledge receipt of your letter of recent date, and to state that you were informed on the 13th April regarding the provision in connection with the instruction in the school for those speaking the French language. It is obligatory on the board to make the necessary provision, and the inspector would not recommend the issuing of a temporary certificate to any person who is not competent to give instruction in the school. The children of the French ratepayers must be attended to, and the directions of the inspector regarding the matter must be followed.

The trustees are personally responsible for any loss to the school section by reason of their oversight or neglect, and the inspector is authorized to withhold his order for the payments of the grants to the school when the law is not being complied with.

If you have any further doubt regarding the matter you should immediately communicate with Mr. Chemay at Warren P.O. and after the 31st May to Sudbui..

I have the honour to be
Your obedient servant,
A. H. U. Colquhoun,
Deputy Minister of Education.
Walter Wilson, Esq.,
Sturgeon Falls, Ont.

"There is the letter, and there are the regulations. They speak for themselves." This was the extent of the evidence offered by Hon. Dr. Pyne, Minister of Education, to the Public Accounts Committee of the Legislature yesterday in explanation of a statement made in a letter from the Deputy Minister to the school trustees of the township of Springer. The letter is printed above.

The statement for which Mr. J. C. Elliott (West Middlesex) asked an explanation was to the effect that "the children of the French ratepayers must be attended to." At a previous meeting of the committee, Mr. G. H. Ferguson, Chairman of the committee, ruled that this information might not be secured from the Deputy Minister, as the letter had written the letter on instructions from the Minister. The Minister himself was the proper person to answer the question, Mr. Ferguson had said.

Before Hon. Dr. Pyne had a chance to answer Mr. Elliott's question, Mr. T. W. McGarry (South Renfrew) objected to the question, and the Chairman ruled that the question was out of order. Then it was that Dr. Pyne took his stand and declined to answer the inquiry.

The letters referred to were those brought down in the House showing the circumstances which led up to the refusal of a Government grant to school section No. 4 in the township of Springer. Mr. Elliott put the letters in as evidence.

English Teacher Barred.

It was shown that in the section there were 36 English ratepayers, 72 English school children and two English trustees, as opposed to 16 French ratepayers, 33 French school children and one French trustee. The grant had been refused because the English ratepayers would not consent to a teacher being placed in charge of the school who could not teach in English. They wanted an English teacher who had higher qualifications than the other, but who had only an "academic knowledge of French." The Department of Education had refused to allow the English teacher, because, as the letter of the Deputy Minister had said, the children of the French ratepayers must be attended to," notwithstanding the fact that a majority of the ratepayers of the children and of the trustees were English.

The Regulations.

Rule fifteen of the regulations referred to by Dr. Colquhoun as the only rule relating to the bilingual schools says: "In school sections where French or German prevail the trustees may, in addition to the course of study prescribed for public schools, require instruction to be given in reading, grammar and composition to such pupils as are directed by their parets or guardians to study either of these languages, and in all such cases the authorized text books in French or German shall be used. But nothing herein contained shall be construed to mean that any text-books prescribed for public schools shall be set aside because of the use of the authorized text-books in French or German."

BUSINESS CHANCES

HAZELTON, A NEW CITY IN A NEW COUNTRY, ON A NEW RAILROAD, offers same ground floor opportunities as Seattle, Vancouver and Winnipeg 20 years ago. Hazelton is located at head steamer navigation on Skeena River in Central British Columbia, Canada's Garden Province. Is on main line Grand Trunk Pacific, the new transcontinental railroad, tracks being but 12 miles away and rapidly building to town. Glorious invigorating climate, mild summers, mild winters; at junction of three valleys with half million acres of fertile land adapted for fruit raising, stock, grains and mixed farming. Tributary to one of best mineralized districts in world. Gold, copper and an area of anthracite coal equal to that of Pennsylvania. Now has two newspapers, banks, hotels and doing over half million dollars worth of business annually. In the entering city of Central British Columbia, the "Last Great West." Crowds arriving daily, buildings going up. Centrally located lots from $200 to $400; terms as low as $20 down and $10 per month. Liberal contracts; free deed in event of death; extensions on account of sickness. Send name and address for free illustrated booklet and maps giving complete details. Plant a few dollars in coming city of western Canada. It will be safe and grow fast. Thousands have made fortunes investing in great cities during their early stages. Hazelton is destined to be one of the Mighty Cities of the Mighty West. Get in now—before the railroad, before prices soar. Old reliable responsible firm. Representatives wanted everywhere. Canadian National Investors, Ltd., 319 P.N., Hastings St. W., Vancouver, B.C., Canada. Capital, $100,000. Assets over $300,000.

RAILWAY NOTES

An important announcement has been received at headquarters of the Grand Trunk Pacific Railway in Montreal from Mr. W. 4). C. Mohan, General Superintendent at Prince Rupert, stating that contracts have been let for the excavations upon the dry dock, terminals, and hotels, in that town. This means the immediate commencement of work that will cost, when complete, rather more than $3,000,000. The dry dock alone will cost $2,000,000, part of which is met by government subsidy, and the hotel will, it is expected, account for another $1,000,000. Quite apart from the money spent in this way, the news has caused renewed activity on the Pacific port on account of the small army of labourers of all kinds that will be brought in in consequence, as well as the added prestige that will accrue to the town from the possession of such important public works.

To make room for the station the town hall is to be torn down, while the post office and Prince Rupert Inn will be moved from their present locations to Centre street. The municipal staff will be housed in the new fire hall and the Council will meet in the gymnasium. The present site of the Grand Trunk Pacific hotel is required immediately for wards and in any case, would be inadequate for the imposing edifice that the railway authorities are planning to complete their chain of hostelries. The Prince Rupert "Daily News," commenting editorially anent the announcements says:

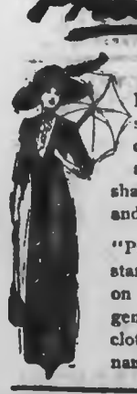
"Our detailed account in regard to the great undertakings the railway company is to start in this city immediately has filled all classes with hope and encouragement. It is generally conceded that this is but the beginning of great things for this city; that it will other and probably larger private enterprises in its train. Meantime there is work enough for all in sight and the means a jubilant state of mind on the part of the merchants. To them another big payroll means much. Business houses are planning extensions and there is a hunt for good locations in which to start new businesses. In fact, things are beginning to hum."

The Emperor of Russia is said to be the wealthiest man in the world. What the estimated value of his property is is not known.

IF YOU WANT AN EXQUISITE HOUSE GOWN

or something unusually dainty for evening wear, ask to see

Priestley's



AMBROSE

It is a beautifully soft silk-and-wool cloth—and comes in all the most wanted shades for afternoon and evening wear.

"Priestley's Limited" stamped every 5 yards on the selvedge of genuine "Priestley's" cloth. Look for the name.

A FRIEND IN NEED FOR WOMEN.

Women who are run-down, worn-out from over-work, or from troubles peculiar to the sex will find **Mothers' Cordial or Herbal Tonic** a friend indeed. It tones and strengthens the nerves, purifies the blood, improves the spirits and gives a clear complexion. It is intended especially for expectant mothers, and should be taken for at least three months before confinement.

Mothers' Cordial or Herbal Tonic insures safe and easy childbirth and rapid recovery. It is also a splendid remedy for painful menstruation, and is the best-known medicine for women approaching that critical period known as the Change of Life.

This valuable remedy contains no stimulants or hurtful drugs. It is a scientific blend of Indian Herbs, whose curative and strengthening properties are well known to the medical profession.

At your Druggist's, or by mail $1.00 per package, or 6 packages $5.00.

THE EVENING CHIT-CHAT

By Ruth Cameron

DID anyone ever, I wonder, wait at a meeting place for a tardy friend, without passing through three distinct states of mind?

The first state of mind is one of irritation. "She is always late," you think as you consult your watch; "I will never promise to meet her again. I suppose she'll have some story of the cars being slow, for she always does. There's no sense in it. She ought to allow for that when she starts."

How long this state of mind lasts all depends upon your previous experience with your friend's capability for tardiness. In ordinary cases it would endure from five to ten minutes. At the end of that time, irritation gives place to an entirely new feeling.

This new state of mind, as of course you know if you have ever waited for anyone, is a growing wonder if you or she could have made any mistake in the time or place appointed for meeting. "Could she have said E's instead of S's?", you question yourself. "We used to meet at E's. No, I'm sure she said S's, for I remember thinking that they had such a nice waiting room in here." "Could it have been half past three instead of half-past two?" is the next question. "No," you assure yourself, "because she never could have expected us to get all we planned done, and get out to Cora's at five. Still that would be just like her. I've a good mind to telephone. But if I go away from here she'll be sure to come and think I've given her up. Oh, dear, why must she always be late?"

The third state of mind sets in earlier or later according to the temperament of the waiter. But half an hour of waiting almost always brings to the average person the apprehension that something has happened to the missing one. "Could she have been run over? These automobile accidents are so common nowadays. Can she be sick? Can it be that her mother is worse? She looked real miserable the last time I was there and she's liable to these sudden attacks. Dear me, wouldn't it be terrible for Lucy if anything should happen to her mother. She depends on her mother so much"—so runs the current of your thought, and so probable does this entirely groundless hypothesis of yours seem to you, that you have almost come to regard it as a fact, and are proportionately relieved when you see Lucy's familiar figure hurrying towards you.

"Your car broke down?" you respond to her breathless explanations. "Lucy, you do have the worst luck. I was getting real worried about you. No sense? Well, I guess you wouldn't say so if you were me. I felt that something must be the matter. I never waited quite so long before. How's your mother?" so you greet your recalcitrant friend, much more warmly on the whole than you would have, had she come in that first ten or fifteen minutes.

Is the moral to be half an hour late if you must be late at all? No, if there's a moral, it's just this—you haven't made a mistake in the time or the meeting place; she hasn't been run over or taken suddenly ill; no member of her family has died; she's just late, as she has been before, and will be again. So next time don't fret and worry. Just sit still and read a book or paper, and remember this little talk, and possess your soul in patience.

Will I do the same? I'll try to my friend. That's the best I can promise.

Ruth Cameron

"SYLVIA" CONTINUES THE SUFFRAGETTE CONTROVERSY

In referring to the Toronto suffragettes, no personal attack was made upon Miss Roberts by the writer as her name did not appear among those from whose writings quotations were made. The mention of her "offensive style," referred to the adjectives "the selfish," "the ignorant," and "the indifferent," which she, in common with other suffragettes freely apply to all women, who differ from them on the suffrage question.

The quotations used by me were from the writings of the Toronto woman suffrage propagandists, and were used to criticize the arguments and proposals of the leaders of the suffrage movement in Ontario.

No mention was made by me that women will be supposed to carry weapons to the polls. Another statement of mine was that women are schemers, not that they "may become schemers in politics." Nor did I refer to Olive Schreiner's "parasites" in the mention of folly and extravagance, but merely to what may be seen at any time.

If the franchise is given to women how can Miss Roberts say whether "parasites" will use it or not?

We read that in New York, ill-paid shop-girls (the ones the suffragettes are working for) are wearing silk stockings on cold, windy days, and that money which should go to buy wholesome food is spent by women on finery. Does not this state of affairs show that something besides legislation is needed? If given the franchise, would not these women be likely to sell their votes and buy new spring hats?

Miss Roberts tells us that woman's strongest instinct is — race preservation—and that this is the real force behind the woman's movement. How then does she account for the diseased condition of school children, as shown by medical and dental inspection? These children do not all belong to poor parents, and is this not one evidence of how little real interest women take in the preservation of the race? Under proper care a percentage of these children need not have become diseased; but this calls for daily attention on the part of parents, which they seem unwilling to give. Is it not a serious matter that little children be obliged to begin life handicapped by defective eyesight or hearing, loss of permanent teeth or disease of nose or throat when many or all of these ills might have been avoided, had parents first been informed of the danger, and then willing to make personal effort on behalf of the children.

Why do not women medical practitioners give information on these subjects at woman's meetings? Would not studious consideration of such subjects as these be more likely to benefit humanity than would their discussions of franchise or any other political question?

One essential to race preservation is knowledge of the diseases of children. Should children be allowed to contract measles, scarlet fever, whooping-cough, chicken-pox, or mumps? Why do not medically educated women furnish an answer, and use their opportunities to propagate knowledge of such matters at woman's meetings? By reason of ignorance, the majority of mothers now look upon these diseases as harmless, thinking that people will contract them sometime, and that the best time is during childhood.

If maiden ladies who profess themselves preservers of the race, are really sincere, why do they not apply their energies to the betterment of public instruction in such matters, rather than in promoting vain expectations of benefit by legislation?

Again, I repeat that good and sensible women are as numerous now as ever, but in these restless times, when vote and legislation are the cry, women are apt to be misled, and think the duties of home not sufficiently important for a woman of brains.

If the Editor of the Examiner can assure us that women will not make any "dashes" in politics, but "commendable" ones, and no "dash to the polls," except at the time of a crisis, then we will be willing to let them have all the franchise they want.

If women will not make any better use of the ballot than the millions of nominal men who now use it, it would seem to be a poor excuse for giving it to them.

We are told that the suffragettes of Finland have swept away the religious marriage ceremony and have tried to dispense with the civil.

A man writer (he covers his timidity and self-consciousness by a pseudonym) gives us the following: "Woman Suffrage in Mormondom was to counterbalance the disfranchised polygamist and give the balance of power to the priesthood of the Mormon Church, who still hold to that theocratic idea that you must obey them in all things. No sooner was Mormon woman enfranchised than she aspired to political positions which she was unqualified to fill, but with an amount of Yankee cheek she demanded."

After his observations as a political student in the Mormon City, he gave his opinion of the woman question by saying "we had better bear the ills we have, than to fly to those we know not of."

If the meek Mormon women developed cheek so rapidly what may we expect from the militant suffragette of England?

Other information comes to us that by means of the suffrage laws of Utah, five men have already sued their wives for alimony. This comes of woman's claim to being man's equal.

With true woman perversity we ask if Controller Godfrey of Montreal received his early training in cleanliness, honesty, and industry from a mother who was "confined to the narrow limits of the home," or from one who "takes a broad outlook on the affairs of the nation?"

The Montreal Herald should not boast too soon, as "dashes to the pole" in the past have not turned out very laudable.

The Examiner Editor may yet live to see church porches crowded with men. One sign of that time is the collecting of missionary money by men, which, for ages, has been the work of women.

Women will undertake with alacrity the commendable work of running a campaign for raising money to assist in abolishing tuberculosis, but how many of them know that a simple case of measles may make one or many consumptive patients?

It must be remembered that the relation of cleanliness to the prevention of disease cost years of scientific study and unremunerative labour on the part of both men and women, and that progress in this direction was the result of neither votes nor legislation. Now that the relation is recognized, why do women pretend they must have votes to put the knowledge to use?

After reading favourable reports in Toronto papers of Mrs. Johnson's anti-suffrage address, we are not startled by Miss Roberts' dramatic account of it as given in the Examiner.

Mrs. Johnson came from New York by invitation of the Woman's Canadian Club of Toronto, to give a companion address to the one given by Mrs. Pankhurst, some months ago.

"Sylvia."

THE IDEA OF A WOMAN

Having Pimples, Blackheads, Superfluous Hair and Other Facial Blemishes and Appearing in Public is Positively Repulsive

Why Should Any Woman Be Thin, Scrawny and Homely When She Has it in Her Power to be as Beautiful as Her More Fortunate Sister? A Well Known Beauty Reveals Secrets of Beautifying That Every Woman Should Know; Also Tells How to Remove Wrinkles and Develop the Bust to Beautiful Proportions, by a New Discovery. Let This Woman Send you FREE Everything She Agrees and Beautify Your Face and Form Quickly.

This clever woman by her marvelous and simple methods has brought about a wonderful change in her face in a night. For removing wrinkles and developing the bust her method is truly wonderfully rapid. She made herself the woman she is today and brought about the wonderful change in her appearance in a secret and pleasant manner. Her complexion is as clear and fair as that of a child. She turned her scrawny figure into a beautiful bust and well developed form. She had thin, scrawny eyelashes and eyebrows, which could scarcely be seen. She made them long, thick and beautiful by her own methods and removed every blackhead and pimple from her face in a single night.

You can imagine her joy, when by her own simple discovery, she removed every wrinkle from her face and developed her thin neck and form to beautiful proportions.

Nothing is taken into the stomach, no common massage, but a common sense method.

It is simply astonishing the thousands of women who write in regarding the wonderful results from this new beauty treatment, which is beautifying their face and form after beauty doctors and other methods have failed. No woman need be unattractive any longer. She has it in her power now to be beautiful, attractive and fascinating.

Ethel Baker, of N. Y., writes: "My bust which was once flat and scrawny, is nicely developed."

E. Waitel, of N.J., writes; "I was always troubled with hair on my arms, but now they are as clear of it as the palm of my hand."

Gertrude Morrow, of Pa., writes, "Your beauty treatment causes the wrinkles to quickly disappear."

The valuable new **beauty book** which Madame Cunningham is sending free to thousands of women is certainly a blessing to womankind, as it makes known her remarkable methods of beautifying the face and figure of unattractive women.

All our readers should write her at once and she will send you absolutely free, her various new beauty treatments and will show our readers:

How to remove wrinkles; How to develop the figure quickly; How to make long, thick eyelashes and eyebrows; How to remove superfluous hair instantly; How to clear the skin of blackheads, pimples and freckles; How to remove dark circles under the eyes; How to quickly remove double chin; How to build up sunken cheeks and add flesh to the body; How to darken gray hair and stop hair falling; How to stop forever perspiration odour.

Simply address your letter to Evelyn Cunningham, Suite A887, 82 E. Randolph St., Chicago, Ill., and don't send any money, because particulars are free, as this charming woman is doing her utmost to benefit girls or women in need of secret information which will add to their beauty and make life sweeter and lovlier in every way.

DAINTY VEILINGS FASHIONABLE.

While the shadow patterned and Chantilly veils are still very fashionable, the disfiguring designs which covered some of the grades have given place to dainty figures.

These figured veilings have gained a firm foothold in the world of fashion and designs are being introduced into even the less expensive grades.

In the finer varieties, however, the delicacy of texture and softness of design beggar description, for the weaves melt into each other in such a manner that while there is a distinct pattern it is not heavy enough to blot out part of the face when attached to the hat.

Shetland veils, too, are very popular, and while these are expensive the silk is stout and does not tear as easily as the ordinary veil. And these, by the way, are being decorated with tiny chenille dots, which is quite an innovation, since this silk veiling is usually plain.

Another novelty is the black or white veil bordered with a colour. Last year the silk-bordered veils were much worn, but this variety has a border of the veiling of the same mesh as the body, although there is the dotted veil, with a border of a plain but heavier weave.

Then, there is the veil of a plain, medium-sized mesh of a gossamer delicacy, and this gives the appearance of being divided into inch-and-a-half squares by a cunning arrangement of tiny black chenille dots and the introduction of fine black threads.

Taken as a whole, the new veilings are much prettier than those of last year, and are more likely to satisfy the average woman who does not care for the bizarre in dress.

SUNDAY SCHOOL LESSON QUESTIONS

April 14, 1912.

(Copyright, 1911, by Rev. T. S. Linscott, D.D.).

The Use of the Sabbath.—Mark ii., 23; iii., 6.

Golden Text—The Sabbath was made for man, and not man for the Sabbath.—Mark ii., 27.

1. Verses 23-24—What are the Old Testament laws for keeping the Sabbath Day? (Ex. xxiii., 12; xxxi., 14-17; Deut. v., 14.)

2. What is the origin of the Sabbath Day, and what was its original purpose? (Gen. ii., 2-3; Deut. xxiv., 22.

3. Was it true or not, and why, that Jesus did break the letter of the Sabbath law?

4. Verses 25-26—Did Jesus have the right to change or modify the Sabbath law or any other law? Give your reason.

5. With the exception of natural law, are there ever cases when it is necessary to break the letter of the law in order to keep its spirit? Give your reason.

6. What are the facts concerning this reference to David? (See Ex. xxix., 32-33; 1 Sam., xxi., 6.)

7. How do you reconcile the inference from the words of Jesus that David did right in eating the shew bread, notwithstanding it was an unlawful act? (See Lev. xxiv., 5-9.)

8. If David and Jesus had the right to suspend Scriptural laws when the circumstances seemed to them to justify it, what are your rights under similar circumstances?

9. Verses 27-28—Jesus here states in substance that the Sabbath law must bend to man's real welfare. Why would he, or not, have said the same thing about every other law?

10. Does God give to every holy man the same right as Jesus had over the Sabbath law and presumably every other law? Why or why not?

11. Verses 1-2—What was the reason that the Pharisees hated Jesus and sought how they might destroy Him?

12. Verses 3-4—How may we decide with certainty as to what we should not do on the Sabbath Day?

13. Would you, for example, say that the engineer of the through express on the Sabbath Day may please God at his work just as much as the minister in the pulpit? Why?

14. Why did they not answer Jesus' question?

15. A poor boy came to church on a cold Sunday with no buttons on his coat. A good sister took him into the vestry and sewed buttons on. Did she do right or not, and why?

16. Verses 5-6—When is it right to be angry?

17. Why did Jesus cure people miraculously in those days and not in these?

Lesson for Sunday, April 21, 1912—The Appointment of the Twelve.—Mark iii., 7-19; Matt. v., 13-16.

QUESTIONS ANSWERED.

If you would like to have answered any particular question each or any week from "The Suggestive Questions on the Sunday School Lesson" by Rev. Dr. Linscott, send in your request to this office, giving the date of the lesson and the number of the question you wish answered. You may select any question except the one indicated that it may be answered in writing by members of the club. Dr. Linscott will answer the questions either in these columns or by mail through this office. Don't forget to state what benefit these "Suggestive Questions" are to you. Give your full name and address. Send your letters to The Question Editor of the Examiner.

NURSERY IDEAS

It is a grave error to suppose that a child can be hardened by exposing it to the elements without it being suitably clad and well nourished. Instead of trying to "harden" a child, endeavour to toughen its constitution, and even this must be with care and discretion.

Some people allow their children to go direct from a warm room, often from the fireside, out into the rain, or cold wind, without taking the precaution of putting on some wrap. If spoken to on the subject the usual reply is that the child must not be coddled.

But there is a medium course to pursue, and exposure to any sudden change of temperature must be injurious unless the child is well protected. Damp should be avoided as far as possible; and, unless the atmosphere is dry, open the windows at the top only. I do not think young children should be out late at night, although we seem to hear their baby voices long after the hour they should be in the house.

At the same time, let them be out whenever possible during the day, except in bitterly cold weather, or when it is wet. Do not overload the little frame with clothing, but see that the few garments it wears are warm and light.

Corging Is Suicide

In these words a prominent graduate of Harvard Medical School, E. R. Morss, M.D., calls attention to the habit of "overeating," which is resulting in the shortening of so many useful lives.

Every day you read of deaths of persons in middle life caused by acute indigestion, peritonitis, appendicitis or Bright's disease. All of which result from overcrowding the digestive organs.

The liver gets sluggish, the bowels become constipated, and the whole system is poisoned by the fermenting waste matter.

You can overcome this poisoned condition by using Dr. Chase's Kidney-Liver Pills. Then turn over a new leaf and eat less, particularly of meats, pastry and highly-seasoned foods. One kidney-liver pill occasionally at bedtime will keep the liver and bowels active and insure the healthful working of the organs of digestion.

BABY'S OWN SOAP

Best for Baby

Best for You

THE particles of pure vegetable oil which are rubbed into the open pores of the skin with the creamy fragrant lather of Baby's Own Soap renew the life of the skin—help nature along. It assures a soft, white, healthy skin and its use delights both young and old. Baby's Own is for sale almost everywhere.

ALBERT SOAPS LIMITED, MFRS., MONTREAL.

FACTS FOR THE CURIOUS.

Forty thousand "splints" a minute is the output of a machine which cuts up wood for matches.

The average length of a moving picture film is 1,000 feet.

England has 536 war vessels, Germany 334, France 206, United States 199 and Japan 161.

The tallest and the shortest people of Europe, the Norwegians and the Lapps, live side by side.

THE HOME BANK.

Every child receives a small sum of money either weekly or monthly (usually every week). It may be only a few cents, sometimes it is a larger sum.

Most children also have a money box, and the more careful or thrifty little one delights to "save up" its pennies in this box.

There is one great objection to these boxes—they can be rifled.

There is now a new bank called the "home bank," and once the money is put into the box there it remains safe enough. No one can get it out except the postmaster, who has the key.

Think what this means. Each sum deposited mounts up, and before you know it you have a dollar, and so on. There will be times, no doubt, when the child will look wistfully at the little bank and wish it could be opened, but the reward will come when taken to the postmaster to have it opened.

A RELIABLE MEDICINE FOR YOUNG CHILDREN

Baby's Own Tablets are a safe medicine for all little ones. They are guaranteed by a government analyst to be absolutely free from opiates and other harmful drugs — that is why so many mothers will give their baby nothing else in the way of medicine. Concerning them Mrs. John Thompson, Coutts, Alta., says: "I have given my baby, when needed, Baby's Own Tablets and think they are the best remedy for constipation I have ever used. I would not be without them in the house." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

All labourers and wage earners who are interested in forming a Federal Labour Union, should attend the meeting in the Labour Hall, 435 George St., Saturday evening at 8 o'clock, April 13. ad-87

ALTERED THE CASE.

During the last visit to this country Henri Vignaud, for so many years our Secretary of Embassy at Paris, told a story of one Renaud who came to Paris as senator from a district in the Pyrenees.

Renaud engaged a room at a hotel in Paris and paid a month's rent—200 francs—in advance. The proprietor asked him whether he would take a receipt.

"A receipt is unnecessary," replied Renaud, "God has witnessed the payment."

"Do you believe in God?" sneered the host.

"Most assuredly," replied Renaud. "Don't you?"

"Not I, monsieur."

"Ah," said Renaud, "in that case please make me out a receipt."—Lippincotts.

HINTS FOR MOTHERS.

Most mothers have learned by this time that up to seven years of age milk should be the chief article of food either in the form of milk puddings or in any other way suitable.

Large quantities of cold milk, however, should not be given at meal-

when a child is thirsty it is a mistake to let it take a draught of milk, it is, in fact, dangerous in some cases.

Eggs, if steamed or boiled soft, are good for young children, but never give them a fried egg. A small quantity of meat may be given daily except in very hot weather, when the child is better with a little clear soup. Vegetables may be given according to individual suitability. Some children cannot take root vegetables in soup and are often upset for days afterwards.

Pork, liver, preserved meat, or fish (except sardines), kidneys, etc., should not be given to young children. German sausage, and any of such similar "made up" kinds of food are not good, as they do not contain the nutriment necessary to assist in building up the constitution.

Marvellous Relief For Corns, Bunions, Sore Feet Lumps.

Five corns on five toes for five years. Was he lame? You bet. That man was a chump—cure he was. One quarter spent on Putnam's eases 'em in good style—lifts them out quick—without pain, and never fails. This is why Putnam's is superior to the cheap imitations that afford the dealer more profit. Use only "Putnam's" Extractor. Sold by druggists.

MODERATELY PRICED SPRING MILLINERY at Peterboro Millinery Showrooms upstairs in old C. A. S. Rooms, entrance 435 George St. Call and inspect the new styles. 6d87 MRS. W. B. ROBERTSON.

Announcing the Arrival of Our

New Axminster Rugs

News Of Deep Interest To Every Housewife In This Neighborhood

Ready! The New Axminster Rugs in magnficent assortments. We've imported the finest range of patterns and colours that ever came into Peterboro, and we urgently request you to come and inspect them.

All sizes are here, from the smallest mat up to the largest room-size rugs. And every one is perfectly made, and warranteed to give the utmost degree of service.

The colourings and designs are more artistic than anything ever seen in Peterboro. Here are copies of antique Persian Rugs—clever copies, too, that very closely simulate the original. Then there are also plain two and three tone effects, geometrical patterns, floral designs, etc., in endless variety.

Axminster Rugs are noted for their splendid wearing qualities, and where ever a serviceable rug is needed to withstand hard and steady wear, an Axminster is usually chosen. Yet, one must be careful in buying Axminster Rugs, for there are many inferior grades—that are of little value, indeed. Every Axminster Rug in our assortment is guaranteed so you're perfectly safe in buying from us.

Stocks are now at their best. Come to-night and take a look through the rug section. We have them all arranged for easy choosing—2nd floor.

RICHARD HALL & SON

KNOX CHURCH WILL CELEBRATE ITS FIFTH ANNIVERSARY ON SUNDAY AND MONDAY

Rev. Thos. Mitchell, B.A., B.D. of London, Will Occupy the Pulpit at Both Services To-morrow

REV. GEGGIE ON MONDAY

Knox church people will celebrate their fifth anniversary on Sunday and Monday evening. This congregation has shown an aggressiveness in keeping with the Historic Character after whom it is called. It is a good example of progressive Peterborough. It has taken its step out of infancy into aggressive youth. On Sunday next ,the choir will render music suitable for the occasion, The Rev. Thos. Mitchell, M.A., B.D. of London, Ont., will preach at both services. Mr. Mitchell has one of the best congregations in London. His church is always filled and his work is an example to the church at large in its complete organization. He is a speaker of rare power. Knox church is fortunaate in securing his presence on this ocacsion.

Rev. A. Logan Geggie, a typical Scot, well known and greatly appreciated by Peterborough audiences, will give an address at the Monday evening gathering. In addition to Rev. Mr. Greggie, an excellent programme has been prepared on which appear the names of Dr. Park, violinist, Miss Chalmers, soloist; E. F. Downey and other well known musicians.

Peterborough people will unite in congratulating the pastor and congregation of Knox church on the progress they have made during the past five year. Such success has been made possible by the energetic and faithful efforts of Rev. H. J. Keith and the hearty co-operation of the congregation.

Rev. Thos. H. Mitchell, M.A., B.D., who will preach anniversary services at Knox Church to-morrow

The Knox Church of Five Years Ago

"TO THEM THAT HATH"

A Short Sermon to Fat Folks

"To them that hath shall be given" is a sentence that applies to fat people very neatly. It is common knowledge that once a human being begins to fatten up, to what they have already is added more than they want until finally a stage is reached where reduction must be made or decided disadvantage results.

Then comes forward the ages-old query, "Reduce—but how?" To the uniformed nothing suggests itself but the (to them) twin evils—less eating—more activity. They contemplate a more or less lengthy siege of dieting and exercising. So it may be said safely that every man or woman in the land now undergoing the fattening-up process has his or her mental eye fixed dubiously on that not far distant day when he or she will have to don the "ashes and sackcloth of reduction."

This is not an enlivening prospect, and so it is with considerable satisfaction that we announce the emancipation of the fat. Nowadays one may reduce much or little, a pound a day if desired, or hold their fat in check, absolutely stationary, without doing a tap of exercise, missing a single meal, doing a particle of harm or causing a solitary wrinkle. All that's required, as hundreds testify, is the taking after meals and at bedtime of one Marmola Prescription Tablet, which tablets are sold by the Marmola Co., 853 Farmer Bldg., Detroit, Mich., or any good druggist at the uniform price of 75 cents, this sum being accepted for a case of tablets so well and generously filled that even one produces desirable results.

BRIGADIER TAYLOR TO VISIT CITY

The meetings in the Salvation Army Temple, Simcoe St., will be of unusual interest to-night and to-morrow, as the local corps is to be favoured with a visit from Brigadier Charles Taylor, Principal of the Training College, Toronto. The Brigadier is an officer of long and varied experience, is a very clear and logical speaker, and his addresses will doubtless be of a very instructive and helpful nature. A hearty invitation is extended to the public generally, as well as to his many friends in particular, to attend these meetings.

A WEAK CHESTED BOY

"My boy Frank seemed weak-chested and took a very severe cold," writes Mrs D. Stevens, Ninga, Man. "The many medicines used did not seem to benefit him, until we tried Dr. Chase's Syrup of Linseed and Turpentine and found it to be exactly what was wanted to cure him." No treatment is so thorough and effective as a cure for croup and bronchitis.

NOTICE TO WATER CONSUMERS

Water rates for the current quarter are now due and must be paid at the City Treasurer's Office, 131 Simcoe Street, on or before the 15th day of April, to save the discount. Discount will not be allowed after the 15th inst. By order. F. ADAMS,

3d-87 **Waterworks Collector**

AWNING FIRE.

From some unknown cause, the awning of Messrs Robert Fair's dry goods establishment caught fire this morning. The brigade was quickly upon the scene, however, and extinguished the flames with chemicals, and very little damage will result.

CEMENT WALK ACROSS CENTRAL PARK WILL BE BUILT EARLY

And Sidewalk Will be Laid on Princess St. in Spite of Objection of One—R. Hicks & Co. Get Contract for Sewer Pipe.

BUY IRON CASTINGS HERE

Mr. Peter Campbell and Mr. H. B. Cowan represented the Horticultural Society before the Board of Works last night to request that a cement walk be laid across Central Park.

Ald. Buller president and there were present Ald. Gillespie, Duffus, Johnston, Graham and Anderson.

Mr. Campbell said the park was being abused now and that there were four different paths. A walk had been suggested for some years now, and not only was the ground cut up now, but also during the summer it was worn away.

Ald. Johnston—Put a walk there or close up the park.

Mr. Campbell stated that the walk was desired for this year.

Moved by Ald. Gillespie, seconded by Ald. Johnston, that the walk be built this year and that it be left with Engineer Hay and Ald. Buller.

Mr. Hay stated that a width of eight feet would be sufficient. He also suggested that the work be done early in order to allow its being cleaned up and put into good condition for the summer. This was decided upon and the walk will be laid among the first.

Moved by Ald. Gillespie, seconded by Ald. Duffus, that a cement crossing be laid on Engleburn Place as desired.—Carried.

Ald. Buller stated that Mr. J. J. Howden had told him that the road between the Locks Bridge and Downie's Corners was in a very bad condition. Mr. Howden had suggested that if the city did not want to fix the road, the township of Otonabee should be permitted to attend to it.

Mayor Bradburn— That's the first time I ever heard of a township doing a thing like that.

Mr. Evans stated that the road was in a rather bad condition.

Moved by Ald. Graham, seconded by Ald. Duffus, that the commissioner report on its condition and also upon the proposal of the township.

Ald. Graham—The township is only bluffing.

Mr. John O. Fife was present and asked the Board that the petition for a sidewalk on Princess street be granted. A petition had been sent in, but it was not fully signed and was turned down. Only one man had objected, Mr. Overend. There were eight property owners who petitioned for it, but Mr. Overend's holdings were sufficient to cause the rejection of the petition.

Mr. Armstrong explained that a petition is considered from the amount of land held and not from the number of houses, as formerly.

Mr. Fife stated that more houses would be built this year if a walk could be assured.

Ald. Johnston—This is not right. One man should not be able to hold up others, and I for one am opposed to that system.

Mr. Hay stated that in his recommendations he had a sidewalk on the south side of Princess street, from Park to George street, to be laid this year.

Ald. Johnston's recommendation tha the engineer's report be confirmed, and that the walk be extended to Lock street carried.

Street Watering.

The chairman and Street Commissioner were authorised to arrange for street watering for this year.

Sewer Pipes.

R. Hicks & Co. were awarded the contract for sewer pipe at the following prices: 6 inch pipe, 7 8-10c.; 8 inch, 13c.; 9 inch, 15c.; 10 inch, 19c.; 12 inch, 26c.; 15 inch, 35c.; 18 inch pipe, 44c.

The Supply of Castings.

Moved by Ald. Johnston, seconded by Ald. Graham.—that the castings for sidewalk grates, manholes, etc., be divided up amongst city founders this year.—Carried.

Electric Restorer for Men

Phosphonol restores every nerve in the body to its proper tension; restores vim and vitality. Premature decay and all sexual weakness averted at once. Phosphonol will make you a new man. Price $3 a box, or two for $5. Mailed to any address. The Imperial Drug Co., St. Catharines, Ont.

Sold by the Warne Drug Co., Ltd.

QUALITY HABERDASHERY

How Made-In-Peterborough Articles Advertise The City

(Written for The Examiner by Roy Gilray)

(By Roy Gilray.)

In a western town a teacher was instructing her pupils in the resources of Ontario, particularly the products derived after manufacture. After dealing with the important cities west of Toronto she started in with those east of the Queen City by commencing with Peterborough. One little girl who seemed very eager to get a load off her mind, volunteered to inform her classmates what Peterborough was noted for. Receiving the assent of the teacher she blurted out: "Canoes, tents, electric lights and the smile that won't come off." As the child seemed so positive of her information the teacher requested her to explain.

"Well, my daddy has a canoe made in Peterborough, and when I was a baby I used to cry for Quaker Oats, so, mamma said when I got them I had a smile that wouldn't come off; and, when aunt Kate and I were going to Montreal last summer I saw a lot of big shops and auntie told me that was where they made all kinds of electric things; and after we left the station we passed over a great long bridge and I looked away up at the town and saw it was the home of Turner's tents."

While the child in the above illustration may have been blessed with a large observation bump, yet it simply brings out the ordinary methods by which a city is advertised.

These firms that send their goods broadcast over the country do a large amount of advertising not only for themselves but also the city, and both are benefitted.

The message that the child saw while passing over the C.P.R. bridge as she gazed uptown ought to be a lesson to all manufacturers: If you want the people to know what you make, tell them about it—in other words, advertise, and one of the very best places to do this will be at the Made-in-Peterborough Exhibition to be held in the armouries the week commencing May 27th.

Every person who has passed through Orillia will remember seeing the huge advertisement the town has on a high fence along the railway track drawing attention to the splendid opportunities for cheap power and factory sites.

Is it any wonder that other towns are forging ahead of us? We are too sleepy to think up anything original and too lazy to copy anything that is good.

No matter how far away from home you travel you will always meet some one who has heard of Quaker Oats. This firm, during its brief existence here, has done more to advertise the city than all the other agencies put together.

Another firm which does a great deal towards spreading the fame of Peterborough is the Peterborough Canoe Co. For years they have done a large business with the Hudson's Bay Co., who use a large number of their crafts among the wilds of the north land. The City of Edmonton orders largely from them; at the present time there are two handsome motor boats being fitted out for shipment to that far away City of the Plain. Even Toronto is sending here for goods. This Company are at present engaged in building a motor boat for the Harbour Commissioners for use on Toronto Bay.

Its general dimensions are: Length 35 ft. over all, beam, extreme, 5 ft. 6 in. The boat has a liberal beam on deck but it is quite fine on the water line with a flare forward, and a rise of the bottom amidships with a flat section aft, which will make an excellent sea boat, and a model which will be very speedy. The hull is of the very finest grade of construction and will be finished in selected mahogany throughout. The stem will be shod with a bronze cutwater, and the fittings will be complete in every detail, including an auto top. The power plant will consist of a 50-60 H.P. 6 cylinder, 4 cycle, Scripps auto-marine motor with complete automobile control from the steersman's seat. The boat will have a guaranteed speed of 23 miles an hour.

The fact that this order, calling for such a high-grade craft, was placed in Peterborough, speaks well for the reputation this firm has made for itself.

The effect of this transaction on the citizens of Peterborough may be likened to the gift of an auto to a local young man by a rich uncle residing in Toronto. Suppose the machine cost $1600. This money was drawn from a Toronto bank, paid over to a Toronto concern, who forwarded the machine to Peterborough. Now Peterborough is the gainer to the extent of the auto; whereas, if the boy's own father had bought the auto his bank account would have been reduced by the $1,000 and Peterborough would have been that much poorer.

In other words, an outside order received is a decided gain to everybody; an order from a Peterborough citizen may keep the money in circulation, but it does not create any added wealth, whereas an order given to an outside concern impoverishes Peterborough every time.

Let us take another example: A local concern, we will say, builds nothing but steamboats. Their capacity if four a year. They have on hand orders for three. A local Navigation Co. is thinking of adding a steamer to its fleet. If their order is placed here it will mean that the 30 employees will have work for the entire year. If the order is placed elsewhere the 30 men will be out of work for three months of the year. While the illustration is strained, yet it shows clearly the principle upon which workmen earn their living. Smaller articles may not produce such dire results individually, but taken in the aggregate they bring about exactly the same conditions.

Or, looking at it from another standpoint. Take $1,000 paid in wages to our workmen. Approximately $250 will be paid in rent, and unless the city is dead, the landlord will re invest this amount towards the construction of another house, requiring the services of the labourer, stone mason, bricklayer, carpenter, painter, plasterer, etc. $350 will be spent in supplying the inner wants of his family, shared up among the baker, butcher, milkman, grocer, gardener, fruit dealer, confectioner, miller, etc. $200 for the outer wants, going to the clothing merchant, tailor, dressmaker, milliner, dry goods merchant, boot and shoe merchant, etc. $100 for luxuries, on such things as candies, ice cream, photos, street cars, liveries, travelling expenses, etc. and finally, $100 saved if the poor man does not have to hand it over to his family physician in case of sickness.

This same $100 paid out to Toronto workmen for something that Peterborough could produce will not benefit Peterborough one iota.

It is time Peterborough learned to appreciate the manufacturers who supply the great majority of its citizens with work and wages.

Brighten Up Your Home With

Artistic Wall Papers

SPRING is the one particular time of the year which calls for the renovating of the home, and the supplying of the necessary furnishings to make the place in which one dwells—bright, clean, attractive and inviting. And the very first consideration, in the artistic decoration of a room, is to supply the proper wall coverings. If the **Wall Papers** are not clean and bright, the appearance of the furnishings in the room is decidedly impaired. **Artistic Wall Papers** supply the keynote of the decorations in the room and furnish the tone to an harmonious colour scheme.

A Great Many House Owners

make it a point each year to add at least one improvement to their property, realizing in this way, that they not only keep the house from running down but increase its value beyond the amount invested. This year make the improvement **Wall Papering**—it is the least expensive and makes the greatest difference. Many tenants would gladly pay more rent, to live in a house whose walls are handsomely decorated with **Artistic Wall Papers.**

The **Papers** shown by the "Cressman Store" are indeed worthy of your inspection. Here one will find the rarest and newest productions of the leading American and Canadian Manufacturers. Our salesmen are constantly arranging unique decorative schemes which they are only too pleased to impart for your consideration.

If you are thinking of decorating, phone 1333 and one of our Wall Paper Salesmen will personally visit your home and help you select suitable wall coverings which will not only add to the beauty of your home but greatly increase the value of your property.

Choose your Wall Papers where you can select Rugs, Draperies etc., thereby arranging harmonious colour schemes. The "Cressman" Wall Paper and Housefurnishings departments occupy the entire third floor. Here one can conveniently make selections away from the bustle and noise of the main floors.

WAR CANOES WILL BE THE FASHION THIS SUMMER

Written for the Examiner by Roy Gilray

(By Roy Gilray.)

Oh, I'm off for the woods to-night, lads, and I'm going to go alone,
For I'm sick at heart and weary, and worked right down to the bone;
It's me for the camp in the silence, and the night win thro' the trees,
And the reek of the scented wood-smoke, as it floats of the evening breeze.
Pack me the old blue shirt, lads, with the belt and the corduroy,
Give me the old jack boots, lads, my gun, and the heart of joy.
For I'm trailing into the bush, boys, where the trees close in behind
The sordid life of the city—where a man lives the life of the blind.

Already the young men of the local Y.M.C.A. are longing for the lure of the wild. Preparations are being made for a season jammed full of aquatic events, and an organization meeting will be held to-night for the purpose of electing officers and forming plans for the coming (?) summer.

One third of the pleasure of a vacation lies in the planning, another third in looking over the pictures taken and talking over the good old times while the balance is the happy realization that makes the other two possible.

The annual camp for the "Seniors" will be held this year from the 13th to the 26th of July at their camping grounds, Sandy Point, Clear Lake, and ought to eclipse all other efforts along that line for they will have their brand new war canoe, the gift of the Peterborough Canoe Company.

It's a long time since the citizens of Peterborough have been treated to the sight of a war canoe race, but there should be plenty this summer, not only up and down the river, but at the regattas held at Stoney Lake and Chemong Park, for two other clubs at least, propose adding this style of craft to their pleasure seeking equipment.

They say fever is catching but the "Juniors" at the "Y" have caught the boat fever from the "Seniors" and decided about a month ago to have a boat of their own. A visit to one of the rooms in the basement of the Association reveals the result of their decision. For the last three weeks the boys have been working with might and main on the construction of a boat and before many days are past a trim little canoe 16 ft. long will be a splendid reality. Much credit is due the boys, who, under the direction of Douglas Loomis, have shown much skill in handling their tools. No better example could be found of the benefit to be derived by having a properly equipped technical school in our city. It is remarkable what the average youth can do along these practical lines if he is only properly guided.

The annual camp for the "Juniors" will be held two weeks in advance of the time set for the "Seniors" and the presence of their home-made canoe, which might be called 'Alpha' ((the beginning) will add much to the enjoyment of the vacation.

SUCCESSFUL FINAL MEETING OF LADIES' LITERARY SOCIETY

The final meeting for the year of the Ladies' Literary Society was held in St. Alphonsus' Lyceum, last evening. The report of the year's proceedings, read by the Secretary, Miss Ailene Sullivan, revealed the fact that the year had been a most successful one. The balance sheet was as follows:

Amount on hand carried over from last season	$15.65
Total amount received from members	110.00
	$125.65
Feb. 24, cheque to A. H. Lefaive for St. Peter's T. A. S.	$100.00
Balance in bank	25.65
	$125.65 $125.65

After Messrs. T. McNamara and B. Giroux had rendered a delightful pianoforte duet and an acceptable vocal item had been contributed by Miss M. Clancy, the Rev. W. J. McColl gave a most interesting and instructive address on "The Education of Women".

"Woman is distinguished from man under whatever aspect she is regarded," he said. "She is not only physically different, but also psychologically different from him. Man has greater physical strength, and is well adapted, by nature, for great physical exertion and defence, while woman possesses more grace, beauty, suppleness and dexterity, characteristics requisite for works of domestic detail. She is destined for light and easy work, and she is thwarting nature whenever she engages in exercises which call for the employment of great physical strength. We can never behold woman condemned to rude labour as among semi-barbarous people without the deepest pity, as they gradually lose their feminine qualities without acquiring any of the characteristics of manly beauty. The same may be said of too strenuous athletic exercises, such as hockey, which destroy in her grace of movement and those beautiful outlines which ipart to her comeliness.

The head of woman differs from that of man in form volume and weight. The globe of her eye is smaller, and the lens more convex; so that if she receives fewer rays of light she can see more closely and better distinguish delicate shades, and minute differences. Her ear is smaller and admits less noise than man's but is more acute in distinguishing the tone of the faintest sounds.

These differential relations in external properties are observed also in the intellectual faculties. The intellect of man embraces a wider horizon, but that of woman is more subtile and acute. Women do not appreciate exactly the relations of things, their causes and effects, which accounts for her inferiority in the metaphysical sciences. She is little given to abstraction and generalities, but she seizes easily, sensible qualities and facts of detail, and in everything which simply requires tact, finesse and taste, she is incontestably the superior of man. Man has the advantage in abstract reasoning, woman in sentiment, instinctive feelings and affections.

These physical and mental differences are innate and ineradicable. They are founded on the laws of God. Which has the advantage? Neither, because the advantages are evenly divided. In whatever light we regard them, we find the law of compensation. The Creator has divided His gifts between the sexes with infinite wisdom. The sexes are equal in the sum of these gifts, but the gifts are different.

Education should conform to the laws of nature, and since the nature of men and women are so different, their education should be along different lines, suitable for each sex. Education implies the growth and development of all the faculties of mind and heart. This surely does not mean the moulding of unlike natures into a superficial resemblance of each other. Woman should not be changed into the likeness of man, nor man into the likeness of woman. To do so is to pervert nature. I am opposed to coeducation because it seems to me to be based on ignorance of these elemental truths. It means, for the most part, the subjecting our girls to educational methods which were devised to meet the needs of men, and which, as a consequence, fail to develop the best that is in woman. I am in favour of the highest education for women, but consider our present system a great injustice to them. They will never attain the best development until High Schools and Universities, suitable for the growth and harmonious development of all their faculties are furnished for them.

At the conclusion of the address, the Rev. Fr. McCarthy, in his valedictory address, thanked the officers of the society and all those who had given lectures and essays. Miss A. Hurley presided.

JUST ONE MORE SPLENDID CURE

Rheumatism Was Vanquished by Dodd's Kidney Pills.

Amable Lamarche Tells How His Kidney Disease Developed and How He Got Relief When He Used the One Sure Cure.

Lefaivre, Ont., April 12.—(Special.)—Another splendid cure by Dodd's Kidney Pills is the talk of this village. Mr. Amable Lamarche is the person cured and the cure is vouched for by his numerous friends.

"It was a sprain and a cold that was the beginning of my trouble," Mr. Lamarche says in telling his story. "I could not sleep, my appetite was fitful and I felt heavy and sleepy after meals. I was always thirsty, had a bitter taste in my mouth and perspired freely. My limbs were heavy and I had a dragging sensation across the loins.

"When my symptoms developed into rheumatism I realized that my kidneys were the cause of the trouble and I started to take Dodd's Kidney Pills. Six boxes made me a well man."

Kidney trouble quickly develops into painful and often fatal diseases. To ensure good health, cure the first symptoms with Dodd's Kidney Pills. They never fail.

Interfered With The Officer

(Continued from Page 9.)

"Were there many there?" inquired the Magistrate.

Witness—"About twenty-five."

Magistrate — "Were they all drunk?"

"No! not all drunk," replied witness.

His Worship then imposed a fine of $2 and costs, amounting in all to $5.25.

Patrick Lavery was discharged.

BACK AGAIN.

The familiar face of John Donnoughue graced the dock again this morning. He has inhaled the air of freedom for one week only, and during that time has been under the influence of liquor on several occasions.

"I think we had better send you up for life," commented His Worship.

"Oh, no! don't do that," exclaimed Donnoughue in a tone of surprise.

"A life sentence would do you good," added the Magistrate.

He was fined $2, to be paid forthwith, with an option of 15 days' confinement in his old retreat thrown in. He protested against the action of the Magistrate in making the fine payable forthwith, as he had no money, and did not favour the idea of spending fifteen days in the county gaol.

ECZEMA AND SORE EYES

"My daughter suffered from inflamed eyelids and eczema on her head," writes Mr. H. W. Leay, Port Pinnford, Nfld. "The child was in a bad state and suffered greatly. The doctor failed to help her, and on recommendation of a friend, I used Dr. Chase's Ointment, which made a complete cure. With a grateful heart I write you this letter."

SUCCESSFUL CONCERT

A very enjoyable concert was held last evening, under the auspices of the Trades and Labour Council, in the Labour Temple.

During the programme Mr. John Flett, one of the organizers of the Aerican Federation of Labour, delivered an appropriate address. The musical element was supplied mainly by the Philharmonic Quartette, namely Messrs. H. Lee, J. Cairns, J. New and A. New. The quartette rendered vocal quartettes, trios, duets and songs in most finished style, their voices, each rich and well balanced, blending magnificently. Mr. George Lynch and Mr. Moore delivered some acceptable recitations, and Mr. Miller sang an appreciative song. Mr. Langley played a whistle pipe solo, which formed a suitable diversion.

REPORT FOR COUNTY

The report of the Registrar-General of Ontario shows that in the year 1910 there were celebrated in the County of Peterborough 315 marriages — 284 by license and 31 by bans. These were classified by religious denominations as follows: Anglican, 134: Baptist, 51; Congregational, 3; Methodist, 225; Lutheran, 1; Presbyterian, 127; Roman Catholic, 83; Hebrews, 5; Salvation Army, 5; other denomination, 2. As to ages, 53 were from 15 to 19, 53—four grooms and 15 brides; 210 from 20 to 24; eighty-eight grooms and 122 brides. There was one groom between 65 and 70 years of age.

NERVOUS DISEASES IN THE SPRING

Cured by Toning the Blood and Strengthening the Nerves

It is the opinion of the best medical authorities, after long observation, that nervous diseases are more common and more serious in the spring than at any other time of the year. Vital changes in the system after long winter months, may cause much more trouble than the familiar spring weakness and weariness from which most people suffer as the result of indoor life, in poorly ventilated and often overheated buildings. Official records prove that in April and May neuralgia, St. Vitus dance, epilepsy and other forms of nerve troubles are at their worst, and that then, more than any other time, a blood-making, nerve-restoring tonic, is needed.

The antiquated custom of taking purgatives in the spring is useless for the system really needs strengthening, while purgatives only gallop through the bowels, leaving you weaker. Dr. Williams' Pink Pills are the best medicine, for they actually make the new, rich, red blood that feeds the starved nerves, and thus cure the many forms of nervous disorders. They cure also such other forms of spring troubles as headaches, poor appetite, weakness in the limbs, as well as remove unsightly pimples and eruptions. In fact they unfailingly bring new health and strength to weak, tired and depressed men, women and children.

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

STREET PAVING

Street paving this year is almost a certainty at this stage. Ald. Johnston asked at the Board of Works meeting, last night, if it really was the intention of the city to proceed with street paving this summer. Mayor Bradburn replied that it certainly was the intention to proceed with the work. Engineer Hay stated that there was still too much frost in the ground to begin sewer connections.

What the President Says:

THE President of a big concern doing an international business gives ten reasons "Why Some Fail," and starts out with this one:

"A salesman may fail if he is slovenly in dress and habits, because this leads other men to suspect that he is not prosperous and does not represent a first-class concern."

Semi-ready Clothes are tailored so that they do not grow slovenly with wear. The inside construction is true tailoring—the garment holds its shape.

The same price everywhere. $15 to $35

Semi Ready

It's printed in the pocket by the makers.

A Letter Of Condolence

Sent by Court Stanley A.O.F. to Widow of Late A. Parish

The following letter of condolence has been sent by Court Stanley No. 7680, A.O.F., to Mrs. Parish, widow of the late Albert Parish, who was killed in Vancouver a short time ago:

Mrs. A. Parish, city:

Dear Mrs. Parish,—We, the officers and members of Court Stanley, No. 7680, Ancient Order of Foresters, extend to you our sincere sympathy in the great sorrow which has befallen you so suddenly in the death of your dear husband and our late Bro., and we trust what seemingly is your loss will be his eternal gain, and we commend you to our Heavenly Father, who alone can give you comfort and relieve your distress, and although we have to part with our loved ones here on earth may we all live so that we shall meet again bye and bye in that mansion above where there will be no parting and all tears are wiped away.

Signed on behalf of Court Stanley, No. 7680, A.O.F.

Seth Adlam, Treasurer.

PERRIN GLOVES

MAPLE SYRUP SOLD AT 40c

Big Market of Butter and Eggs With a Five Cent Drop in Prices—Poultry was Scarce

POTATOES UNCHANGED

A limited quantity of maple syrup at 40 cents a quart was offered on the market to-day. There were only two or three farmers who had a supply, and while it lasted there was a good demand. Most buyers brought quart jars, forty cents' worth being about their limit. Some had half gallon jars and a few brought gallon pails. They were a few indeed.

Butter and Eggs.

Butter opened at 35 cents and dropped to 30 cents, where it practically sold off the market. Eggs declined from 25c. a dozen to 19c., the closing figure. The supply of both butter and eggs seemed unlimited, and there was more than enough for the demands of purchasers. For grocers and wholesalers cleaned up the remainder at twelve o'clock at the lowest prices.

Poultry Scarce.

Poultry was scarce as usual. Seventy-five cents each for poultry was the general price. Buyers who walked away with five and six pair were in early and left but little for those who wanted a single chicken. The supply was small enough without the early inroads of restaurant representatives.

Potatoes Still $2.00.

Potatoes at $2.00 as usual were not plentiful, but seemed sufficient for the demand.

"Why don't you ask $20 instead of $2," asked a contractor who was going the rounds.

"Well, $2.00 is a good price, and we don't want to ask too much," the farmer replied.

"No, it wouldn't do," returned the contractor. "You people are very considerate about prices, but you might as well ask $20 as $2, for $2 is beyond the price that the working people can afford to pay." But the point was lost on the farmer.

Seed potatoes were sold at $1.50 a bag. There were a few bags offered but the price was regarded as very high.

A small showing of pork was offered at 12 and 13 cents.

Buyers of maple syrup usually criticize it unsparingly before buying it. "That's a nice dark colour and it isn't too thin," or "that looks like brown sugar melted rather than the old time maple syrup that we used to get a few years ago." In the long run they dip down for 40 cents and the farmer draws another quart.

To-day's prices were as follows:
Butter per lb—30c. to 35c.
Eggs per doz—19c. to 25c.
Potatoes per bag—$2.00.
Seed potatoes per bag—$1.50.
Chickens, each—75c.
Pork per lb—12c. and 13c.
Maple syrup per quart—40c.
Live hogs—$8.25.
Dressed hogs—$10.50.
Hay—$14.

ADDITION STARTED

Two Stories Are Being Added to Messrs. Turner & Sons' Factory

Contractor Jones yesterday commenced work upon the addition to Messrs. J. J. Turner and Sons' factory, which, when completed, will make the building the second highest manufacturing structure in Peterborough. Two more storeys will be placed on top of the present factory, making practically six storeys in all. The work will be pushed forward as rapidly as possible, and it is expected will be completed in six weeks or two months.

EXAMINATIONS OF CANDIDATES

The annual examination of candidates and probationers for the ministry of the Bay of Quinte Conference will be held in George St. Methodist Church, Peterborough, beginning at 9.30 a.m., Tuesday, April 16, and continuing through Wednesday and Thursday, to be conducted by Rev. J. G. Lewis, secretary of the conference board of examiners.

ASK THE LADIES

They One and All Praise Newbro's Herpicide.

If ladies could know and appreciate what a delightful hair dressing Newbro's Herpicide is, they would all have it on their dressing tables. It is the most exquisite toilet article ever used and at the same time one of the most essential.

In order to have beautiful hair every lady should regularly apply Herpicide to her hair and scalp. This destroys the dandruff germ. By it the scalp is kept clear of dandruff and the hair stops falling.

Herpicide is free from grease, does not stain or dye and possesses an exceedingly delicate and pleasing odour.

Newbro's Herpicide is just the sort of a preparation that always appeals to a lady of refinement and cultured tastes. There is nothing that can take its place. There is nothing just like it, nearly like it or "just as good."

All reliable druggists sell and guarantee Herpicide in one dollar size bottles.

Send 10c. for booklet and sample to The Herpicide Co., Dept. R., Detroit, Mich.

Applications obtained at good barber shops.

McDermid and Jury, and Payne's Drug Store, special agents.

AUTO ASSOCIATION HELD MEETING

Members Have Been Prompt With Their Fees

A meeting of the Peterborough Automobile Association was held on Friday evening, and although an address by a member of the Ontario Motor League was postponed, there was considerable business taken up, and especially was there an enthusias shown that augurs well for the local association. Not only was the attendance good but the members have been exceptionally prompt with their subscriptions. Mr. A. H. Stratton, the president, gave a talk on general matters pertaining to the association and Mr. Charles Ackerman followed with a review of the advantages of membership in the Ontario Motor League. An address will be given before the Club in the near future.

GOODS MAY BE SEIZED

A New One on the Humble Lodger Whose Landlady Fails to Pay her Rent.

If the lady who conducts a boarding house fails to pay her rent to the owner of the house the humble lodger's goods may be seize in payment of the claim, even if the boarder has paid up every week-end, held Mr. Justice Davidson in the Montreal Superior Court yesterday.

Prefontaine Estate were the plaintiffs and landlords and Dame Morin the boarding mistress. H. W. Thorp, boarder, who had always paid his bills made objection to the estate seizing his furniture. Mr. Justice Davidson held that the estate was in the right.

"CORN CRISP" IS IN GREAT DEMAND

"Corn Crisp," the pop-corn confection that is being manufactured in Peterborough by Messrs Irwin and Saunders, has met with a most flattering reception since it has been placed on the market, and the delicacy is in much demand. Once corn crisp is tried, a new customer for the produce has been found, and the manufacturers have been kept busy. The confection is on sale at nearly every grocery in the city, and Mr. E. L. Payne, druggist, is showing a window display at the present time.

GRATEFUL TO CANADA

TORONTO, ONT., APRIL 13.—In a special cable [illegible] to the Toronto Daily Star, Leader John Redmond assures the Canadians of the gratefulness of Ireland to Canada for support in Home Rule which, in Ireland as in Canada, will have the effect he says, of obliterating the ancient feuds and promoting peace, prosperity and loyalty. Chancellor Lloyd George, in the same cable, says it was the Dominion which set the example to the Empire or home rule in its most successful operation.

LINES ARE CLEAR.

The Aftermath of the G.T.R. Collision at Port Hope.

The Belleville wrecking auxiliary put in a busy day yesterday at Port Hope cleaning up the debris created by the early morning collision. The north track was open for traffic at noon, and this morning it was reported that both lines were clear.

The railroaders who have seen many wrecks, say they never witnessed a more complete wreck of engines. The two engines of the second train are broken and twisted into every possible shape and are piled into a heap fully twenty-four feet high. It is reported that when the crash came that one of the firemen was thrown from the engine over the telegraph wires to the embankment bordering on the lake.

Following the smash, fire broke out in one of the cars and an alarm was sent in. The firemen were soon on the scene and worked bravely to extinguish the blaze, having to carry all the water in buckets from the lake.

Coroner McKinley is holding an inquest into the cause of the death of Fireman Shaw. The jury viewed the remains and an adjournment was made until Monday evening.

HOMESEEKERS' AND SETTLERS' SPECIAL TRAINS TO WESTERN CANADA

Via Chicago and St. Paul, April 16th, 23rd, and 30th, and every second Tuesday thereafter, until Sept. 17th, inclusive. Tickets will also be on sale on certain dates via Sarnia and Northern Navigation Company. Special train will leave Toronto 10.30 p.m. on above dates for Edmonton, and points in Manitoba and Saskatchewa, stopping at all points on the Grand Trunk Pacific Railway west of Winnipeg. Through coaches and Pullman Tourist Sleepers will be carried, fully equipped with bedding and porter in charge. Berths may be secured in sleepers at a low rate. This is an exceptional opportunity for those wishing to take advantage of the remarkably low one-way settlers' rates or round trip Homeseekers' excursions through the American cities. No change of cars. Secure tickets and berth reservations from any Grand Trunk Agent, or write A. E. Duff, District Passenger Agent, Union Station, Toronto. d-w-tf

CURLERS—ATTENTION.

There will be a meeting of the Peterborough Curling Club at the Curling Rink on Monday night next at 8.30. Business, presentation of prizes.—L. H. Ferguson, secretary.

THANKOFFERING.

Annual Event at Mark St. Church Was Successful.

The Easter thankoffering in connection with the Women's Missionary Society at Mark St. Methodist Church was held on Thursday night, and was most successful. Mrs. Fee was present and gave an interesting address, telling of her experiences in western China. The lecture was illustrated by stereoptican slides, the lantern being operated by Mr. H. O. Fiske. The thankoffering amounted to a little over $70.

A FAREWELL SUPPER

To Departing Member of Y.W.C.A.

A number of friends of Miss Fletcher of the Y.W.C.A. gathered together last evening to bid her farewell, on the eve of her departure from the city. Refreshments were served and the affair was presided over by Miss McCalla. A very enjoyable evening was spent and Miss Fletcher, who leaves in about a fortnight, was assured of the abundant friendship which her many friends hold towards her.

MISSION BAND CONCERT

A concert under the auspices of the Mission Band of the Murray Street Baptist Church was held last evening. The following was the programme:

Opening of banks—Cash result $36.95.

Those who took part in the programme:
Chorus of small boys.
Piano solo—Arthur Lewis.
Piano Solo—Miss Lizzie Webber.
Duet—Alvan and Allen Yelland.
Recitation—Six girls.
Recitation—Miss Jean Kidd.
The girls of the Mission Band served refreshments during the evening.

IN THE WORLD OF SPORT

TWENTY MEN HAVE SIGNED CONTRACTS WITH LOCAL CANADIAN LEAGUE CLUB

Connecticut League Player, a Hard-Hitting First Baseman, is Manager Templin's Latest Capture

TEMPLIN HERE ON 23rd

Manager Templin of the Peterborough Baseball Club is still picking up players. To-day's mail brought Secretary Davidson the contract of a crack first baseman and outfielder in the pepson of J. Frank Dolan, of Wilmington, Del. Dolan is an experienced Class B. player, having been with the Holyoke team of the Connecticut League since 1905. He is a hard, left-handed hitter whose records show that his lowest batting average in the Connecticut League was .274, while he has been as high as .312. He should be a consistent .300 hitter in the Canadian League. Dolan is 6 ft. tall and is an accurate, fast fielder. He will be one of the highest paid men in the roster, but Manager Templin believes he will fully earn his salary.

Old Folks also announces that he has accepted terms with another first-class catcher, Frank Moneyra of Pittsburg, and expects his contract in a day or two. With four catchers and seven pitchers signed, the Petes' skipper is well fortified as regards battery men. He also has three first base men booked up, so that there will be some lively fights for the positions when the squad arrives two weeks hence. Although Manager Templin has not intimated how he proposes to line up his team, he will probably carry a spare catcher and an extra first baseman, capable of working in the outfield if needed. He has twenty men signed up for training, but will cut the squad down to fourteen or fifteen when the season opens.

Old Folks will be here a week from Tuesday, leaving Reading on Monday, April 22. As soon as he arrives details regarding the transportation of his players will be arranged and preparations for the opening of the season will be hurried through. Templin is rounding into shape with Turkish baths and road work and will be in good condition when he arrives.

To date the Peterborough squad is as follows:

Catchers — Irwin, Trout, Frank Brode, E. J. Kelly, Frank Moneya.

Pitchers—Harry Scull, Bryan Nork, Wm. Schaeffer, Edward Green, Percy Davis, Elmer Baver, Edward Bartlett.

First base—Levi Rothenberger, R. A. Connolly, Frank Dolan.

Second base—Curtis H. Templin.

Short stop— Chas. Tully, Jos. Ulmer.

Third base—Earl Hartman.

Outfield—Wm. Schwarts, Jos. Beard

ANNUAL MEETING OF THE LEAGUE

The annual meeting of the Midland Association Football Leagues will be held in the Y.M.C.A. on Saturday, April 27, at 1.30 p.m., when the election of officers will take place, and a review will be given of last season's operations. The prospects before the League this season are of the brightest. All indications point to more teams and keener competition than in the campaign of 1911, which was one of the best years the organisation has yet held. All clubs intending to enter this year are asked to have delegates present. Any information desired about the League may be obtained from Secretary W. A. Milburn, 271 William St., Peterborough.

RIGHT NOW

What are the requirements of your Motor Boat for this summer? From tiller rope to engine make a careful overhaul.

How's the Engine? If it was not in first-class shape last fall, you don't want to start the season with it. A weak spot or break may mean a tie-up for the best part of the summer.

Why not equip your Motor Boat with a Fairbanks-Morse Engine—the acme of satisfaction?

DON'T BE BASHFUL

Ask your friend who owns one. Ask any one of the thousands of owners of Fairbanks-Morse Engines. We do not ask you to take our word for it.

After looking into the merits of the Fairbanks-Morse two-cycle Marine Engine we are confident you will purchase one—then your engine troubles will cease—for it is known to give absolute satisfaction.

It is an engine that is valued because it is dependable. Easy-running—lack of vibration—careful workmanship—are its strong characteristics.

Write for a copy of our interesting book on Marine Engines and Motor Boat Accessories to Dept. L. 8.

Canadian-Fairbanks Morse Company, Limited - - - - Toronto.

NEWS FROM THE LEAGUE CIRCUIT

From the talk that drifts up this way from Ottawa it looks as if there isn't much use of playing out the Canadian League schedule at all. The papers in the Capital have it all cooked up where the Senators have won the flag already.

It is hard to figure why the Ottawa Club should have short sleeves when they have a Draper on the team. One moment, officer.

NOW IS THE TIME
to have your
Bicycle
Cleaned and repaired before the Spring rush.
Phone 1256 and we will send a man for your wheel.
Millard's Bicycle Shop
225 Hunter St. Near Aylmer.

Y.M.C.A. NOTES

The Junior Canadian Hexathlon contest was run off at the local "Y" Thursday, when the following men won places on the team for 1912; below will be found the three best men in each event:

60-yard potato race—H. Hill, 14 4-5, Cavanagh, 15 4-5, Huycke, 15 4-5.

160 yard potato race, H. Hill 44 1-5, K. Routley 47, H. Smith, 47 1-5.

Running high jump, H. Hill and K. Routley tied, 4 feet 9 inches; Cavanah 4 feet 8 inches.

Standing broad jump, Hill 8 feet 6 inches; Cavanah 8 feet 5 inches; Huycke 8 feet 4 inches.

8 lb. shot, Hill 39 feet 7 inches; Huycke 37 feet; Cavanah, 34 feet 8 inches.

Fence vault, Hill and Huycke tied with 5 feet 6 inches; C. Brown, 5 feet 4 inches.

The total team score was quite an improvement on last year's score, which was 1445, this year's score being 1518. It will not be known who the winner is until about the end of the month.

Harold Hill should stand a good chance for the all-round Canadian Y. M.C.A. indoor Hexathlon championship, as his average was over 90 in every event.

Chance for Old Smokers

A limited quantity of McDonalds chewing tobacco that has become hard, but is good and fit for smoking will be sold **3** plugs for **25c** while they last.

FOOTBALL

The C.G.E. team, champions of the Midland Football League, are holding the first practice of the season this afternoon.

THE GOLDEN LION STORE

BEAUTIFULLY TAILORED SUITS $15.00

YOU WILL MAKE no mistake in selecting one of our Fifteen Dollar Tailored Suits for Spring. They contain the qualities of a much dearer suit, made up in the latest styles, and elegantly trimmed, and lined. It will surprise you how such excellent quality materials, and workmanship can possibly be put into a suit to sell at fifteen dollars. We have a large range of these from which to select, both in colours and styles.

Our showing of Higher Priced Suits and Coats has been considerably repleted during the last few days, and we are now able to show almost as large an assortment to select from as at the first of the season. Note these prices—

$15.50, $17.50, $20.00, $23.75, $25.00 $27.50, $28.50, $31.00, $35.00

"If you have not already made your Will you should lose no time in doing so. The unexpected usually happens. The Trusts & Guarantee Company, Limited, 43 and 45 King Street, West, Toronto, make a good executor, under all circumstances, and at a small expense to your Estate. Appoint the Company executor, and let them hold your Will in their security vault, free of charge, until required.

"Father, dear, you must come to-night and see Boorman's new Pastry and Confectionery Store, corner of Aylmer and McDonnel. They have the most delicious Cakes, and Pastry, Pies and Cookies, Fruit Cakes, Cream Puffs, Vienna Rolls, Raisins and Currant Loaves, special Brown Bread and lovely baked buns and fancies. They are going to have a beautiful ice cream parlour soon, and such a dear soda fountain. The store is so nicely kept and everything so clean and in good taste.",

Going to Enlarge Factory.—The Peterborough Showcase Co. intends enlarging their factory to twice its capacity, this year. We manufacture Silent Salesmen Showcases, Wall Cases, Barber Cases, and Store fixtures of every kind made to order, also China Cabinets, Kitchen Cabinets, Writing Desks, Book Cases, and any kind of special Furniture made to order. We always keep a stock of Mirrors and Plate Glass and Shelves on hand. Our prices are right and terms to suit. Special discounts off for cash. Call and look through our Show Rooms. Factory, 709 Water street.—W. THEOBALD, Manager. 'Phone 1153. — The Peterborough Showcase Co., Peterborough.

PERSONAL AND SOCIAL

Mr. G. T. Sills of Tweed, is visiting friends in the city.

Mr. Russel Patterson of Kingston, is visiting his parents, 639 Water St.

Mr. W. T. Belleghem returned to-day after spending a few days in Toronto.

Mrs. E. G. Clarke, Sherbrooke street, is spending a few weeks with her mother in Sterling.

Rev. A. H. Brace passed through the city yesterday on his return from the convention at Toronto.

Mr. G. E. Templeman has returned to Niagara after spending the last few days the guest of Mrs. George Hall.

Miss Grace Sykes, graduate of the Presbyterian College of Toronto, under appointment to Houan, China, is the guest of Miss Marsh, of Springville.

Mr. J. C. McNaughton, Deputy Collector of Inland Revenues, at Port Hope, who has been attached to the local office for some time, returned to his duty in Port Hope this morning.

His Honor Judge Barron of Stratford, who is well known here, and who is a brother-in-law of Mr. A. P Poussette, K.C., announces the marriage of his youngest daughter, Mary Alice Augusta, to Mr. S. H. Gandier, B.S.A., Guelph, son of the Rev. T. Gandier, Pelee Island. The marriage will take place at the end of April.

Reasonable Application.

"I hear you have taken your son out of college and put him in the office."

"Yes."

"Is he attending to business pretty regularly?"

"Fairly so. Only once or twice has he failed to get to the office in time to go to the matinee."—Washington Herald.

Under the Sun?

A poet with towering forehead
Remarked in a way that was torrid,
"When a limerick's bad
It is awfully sad,
But when it is 'good' it is horrid!"

Back came from the Harpoer's the sonnet
He'd writ to his Milicent's bonnet.
While the lim'rick he sent
To the Scribrican "went."
And he raucously growled, "Curses on it!"
—Chicago Tribune.

OBITUARY

MRS. A. D. THOMSON.

The numerous friends in Peterborough of Mrs. A. D. Thomson (Helen Ostrom) will learn with great regret of her death, which took place on Thursday last, at a southern health resort. Mrs. Thomson, of late years, frequently visited Peterborough, her visits being chiefly to her late mother, for whose welfare and comfort Mrs. Thomson showed a most affectionate solicitude, a prominent manifestation of a most amiable and noble character, to which were added charming social and personal gifts. Her last visit to the city was on the occasion of her mother's last illness and death, in August, 1910. After that time Mrs. Thomson noticeably suffered in spirits and health, and was considerably debilitated when she suffered an attack of pneumonia, last September. Partially convalescing, she and her husband and only son went, last January, to Gulfport, Miss., in the hope of a change of climate inducing complete recovery. But there was no improvement, and death came on Thursday last. The late Mrs. Thomson was born in Peterborough, daughter of the late Mr. E. K. Ostrom, and spent her life here, till her marriage in Peterborough, to Mr. A. D. Thomson. After residing about three years in Montreal, Mr. and Mrs. Thomson removed to Duluth, where they have since resided. Mrs. Thomson leaves behind her, her husband, and one son, Mr. A. D. Thomson, Jr., one sister, Mrs. Hawley, 351 Charlotte street, and two brothers, Mr. M. T. Ostrom, Toronto, and Mr. Charles A. Ostrom of Indiana.

The latter is in the city with his wife, to attend the funeral of Mrs. Thomson, which will be private, and take place from the family homestead, 351 Charlotte street, on Monday afternoon, at 2.30 o'clock.

WM. TIGHE.

The death occurred in Newcastle, on Wednesday, April 10, of William Tighe, at the age of 86 years. The deceased came to Peterborough from Ireland when a boy of five years and was brought up and educated here. He has resided away from Peterborough about fifty years, although frequently visiting his sister, Mrs. Wm. Wilson, 428 Water street. More particulars will be given on Monday.

GEORGE ARMSHAW.

There passed away in the Protestant Home this morning one of the city's oldest residents, in the person of Mr. George Armshaw.

The deceased, who was eighty-eight years of age, was a native of England, and a veteran of the Crimea. He had resided in the Protestant Home for a number of years. His end came very suddenly and death was due to heart failure.

The late Mr. Armshaw is survived by two sons and one daughter in Montreal and one stepdaughter, Mrs. Keegan of Peterborough. His wife predeceased him two years ago.

Funeral announcement later.

RED MILL THEATRE

Coming, coming! Next week, Monday, April 15th, Miss Ogden, one of the country's greatest high soprano singers. The management will no doubt receive a hearty congratulation from the patrons of the Red Mill for fighting to secure this great singing artist. The admission will be the same. 5c. to all.

MRS. W. B. ARMSTRONG

Cheap Tea is Dear Tea

So declared the mother of a small family not long ago—

—And proved the statement true by simply relating her tea experience.

"I used a 30c. Tea for years," she said. "One day the Grocer asked me to try a 40c. package of Red Rose—he told me it was better Tea. I found it better Tea, and—before I had quite finished the first package I thought it made more Tea. The second pound I used with care—

—And found out that less Tea in the Pot made a richer, finer-flavored Tea, if you know what I mean."

RED ROSE TEA

We know exactly what this lady meant—

—40c. Red Rose Tea is a richer, stronger Tea, more delicately flavored.

The 30c. variety makes about 150 cups—

—Whereas the 40c. Red Rose Tea makes about 200 cups.

So—You might as well have better tea for the same cost in the long run.

There are several grades of Red Rose Tea selling at different prices, but the 40c. grade seems to please best. It is not only fine Quality but goes farther.

"Red Rose Tea is Good Tea"

211

Farewell Banquet

A farewell banquet was given in Messrs. Coleman's restaurant last evening, in honour of Messrs. W. A. Elliott and J. Fred Reid, who leave for Edmonton on Monday.

During the proceedings of the evening each of the departing persons was presented with an Eko Club bag, by Mr. Briscoe.

Toast—The King—Mr. J. Thompson.
Mandolin solo—Mr. A. Cranfield.
Toast—Canada—Mr Mills.
Reply—Mr. E. Maybee.
Song—Mr. Joy.
Toast—Guests—Mr. Canniff, reply, J. T. Reid and W. A. Elliott.
Song—Mr. Desmartian.
Toast—Eko Club—Mr. Caster; reply, Mr. J. Comstock, president.
Recitation—Mr. Desautell.
Toast—The Ladies—Mr. A. Granfield; reply, Mr. J. Allen and Mr. F. Bowness.
Recitation—Mr. Briscoe.
Toast—Our Host—Mr. Wilson; reply Mr. Coleman.

Mr. Nichols of the Opera House orchestra, officiated at the piano.

During the evening the Eko Club Choir also gave several selections, and a pleasant evening wound up with Auld Lang Syne.

"Sylvia" Is Dainty

Monday Night's Operetta is in Good Hands and is Sure to Delight

Every feature that makes an operetta a success has been provided for in "Sylvia", Monday night's production at the Grand Opera House, under the auspices of the Ladies' Sodality of St. Peter's Cathedral. The music of Sylvia is delightful and the libretto is light ,airy and dainty. The chorus, under the direction of Miss L. Hurley, interprets the music in an appealing manner and one number alone, "See the Harvest Moon is Shining" is a real gem, with a stage setting that should meet with genuine approval. There are others equally pleasing. Mr. George Lynch has looked after the details in the settings and the fact that the leading roles are in capable hands should be a guarantee of a smooth running production.

There has been a good sale of seats, but there were still quite a number of choice locations left this morning. Reserved seats are 50c. and 35c. at the box office of the Grand.

Royal Bank Loses Waterways Suit.

Edmonton, Alta., April 15.—The Supreme Court of Alberta, sitting en banc in Edmonton Saturday morning handed down its decision in the Alberta and Great Waterways appeal case, dismissing the appeal of the Royal Bank from the decision rendered by Justice Stuart in the lower court. Chief Justice Harvey, as the court's spokesman, said that each member of it had written a decision, but on the main question the entire court had been unanimous.

Girl Accidentally Shot.

Toronto, April 15.—While playing with a loaded revolver about eight o'clock last night, Annie Taylor, aged 14 years, of 43 Simcoe street, shot herself and now lies in St. Michael's Hospital in a dying condition. The bullet entered her breast just above the heart, and her chances of recovery are very slight.

The girl lived with her sister, Mrs. Arthur Osborne, who keeps a rooming house at 43 Simcoe street. The Osbornes were packing their household goods preparatory to having them removed to Mr. Osborne's greasing and cleaning shop at 161 York street to-day. While lifting some wearing apparel from a drawer, Annie Taylor found a revolver. It is said that she pulled the trigger a couple of times, but there was no response. Then she began examining it, and in doing so pulled the trigger again. This time the trigger hit a loaded shell. The girl sank to the floor.

She was immediately removed in the police ambulance to the hospital. At an early hour this morning she was reported as being in a precarious condition.

Fell Down Stairs.

Toronto, April 15.—William Ballet lies in St. Michael's Hospital with a severe scalp wound as a result of falling down stairs in the Clyde Hotel, East King street, last night. He tripped on a piece of carpet at the head of the stairs and rolled down to the next floor.

A BELATED STATEMENT

Premier Whitney Makes Announcement at Last in Regard to Government's Bi-lingual Policy

FRENCH FOR TWO YEARS

Toronto, April 15.—The appointment of additional inspectors and of supervising inspectors to test the progress made and enforce the carrying out of the regulations.

Also, where necessary, to give not only additional financial aid, but to make state aid conditional upon the employment of teachers capable of giving instruction in English.

Thus did the Prime Minister at the closing session of the Legislature on Saturday morning declare the Government's intentions to deal with the English-French schools of the province, in view of Dr. Merchant's report.

The Premier on rising stated that the attitude of the Government remained the same as that outlined last session, which was then expressed in the following resolution, passed unanimously.

That the English language shall be the language of instruction and of all communications with the pupils in the public and separate schools of the province, except where, in the opinion of the department, it is impracticable by reason of pupils not understanding English.

"Let me say that this is the present position of the Government and I mean to stand by it," declared the Premier.

"Before the close of last session we announced that when Dr. Merchant's report came, if we found that any of the alleged abuses have occurred, this Government pledges itself to abolish any such abuses if they are found. That was our attitude then and it is our attitude now."

Sir James announced that, having ascertained the present conditions from the commissioner's report, the Government proposed to take the course which he had indicated.

"There is nothing else for us to do, but to carry out the pledges we made last session," continued Sir James. "That is why there is no more legislation necessary on the part of the Government."

D. Racine, French-Canadian member for Russell, asked how long a child would attend school before the use of French as a means of instruction would be discontinued.

"Two years only will be required to learn the English language," answered Sir James.

"Do you mean by that that the English language will be used exclusively at the end of that period?" asked Mr. Racine.

"No, I did not say English alone," was the reply, "but by that the studies would be undertaken by means of the English language alone."

The leader of the Opposition, replying to Sir James, declared that the report of Dr. Merchant showed a serious condition, and that the English-French schools are, as a whole, lacking in efficiency.

"We all agree that the present condition should not be allowed to continue," he said.

"No child in Canada, whether English or French, is properly equipped unless he has a good working knowledge of the English language."

"Nothing short of that is fair," continued Mr. Rowell. "Till the Government takes action to guarantee a sufficient supply of competent teachers it has not done its duty."

"That is just one of the things we propose to do," the Premier interrupted.

Sir James Whitney called the Opposition leader's attention to the fact that the Government intended to make state aid conditional upon the employment of teachers capable of giving instruction in English, and where necessary to give financial aid towards the payment of such teachers.

"If the teachers are not there to be obtained this could not be done," was the Opposition leader's parting shot.

Z. Mageau (Lib., Sturgeon Falls) arose to follow his leader with a speech but on Sir James calling his attention to the fact that it was getting on for 1 o'clock and, that his making a speech at this time would necessitate the prolonging of the session over Tuesday, he agreed not to do so.

The House then rose until 12 noon Tuesday when the Legislature will be formally prorogued by Lieutenant-Governor Sir John Gibson.

In the Legislature on Saturday morning J. C. Elliott (W. Middlesex) moved the second reading of the bill to amend the Law Reform Act.

"We opposed the first reading of the bill and we will object to the second reading," said Hon. J. J. Foy. "The Law Reform Act was not passed in the interests of the Bar, but of the public. This Government some years ago promised law reform and incident to this was the doing away with the multiplicity of appeals."

N. W. Rowell argued that the judges of the province were almost unanimously opposed to three sections of the act.

"I do not propose to bring the judges into politics," declared Sir James. "If they are brought in it will not be by me."

The bill was declared lost on division.

The Premier moved that as a number of members had been absent from the Legislature through illness, that the House agree to pay all members their indemnity.

To this Allan Studholme, the Labor member for East Hamilton, objected on the ground that a number of members who were not ill had not attended as often as they should.

Sir James declared that he agreed with what Mr. Studholme stated, and that he would therefore change the resolution to name the three members who had been taken ill. They were Hon. A. G. MacKay, North Grey; Hon. A. J. Matheson, Lanark, and A. M. Rankin, Frontenac.

The Labor member announced that he would second the resolution as altered and it was carried.

TO APPEAL TO TURKEY.

Powers Have Drafted Terms for Settlement of the War.

Rome, April 15.—For a month past the powers have been trying to reach an agreement among themselves as to how Turkey could be best approached with reference to a settlement of the war with Italy. The powers had already asked Italy on what conditions she would be ready to make peace. The Italian conditions did not prove acceptable to Turkey, to which Government they were communicated unofficially. It became evident to the powers that an official presentation of these conditions to Turkey would be a waste of time. They therefore decided to adopt a new course and ask Turkey on what conditions she would be ready to discuss a cessation of hostilities.

No Mediation in Tripoli Yet.

Constantinople, April 15—The statement emanating from St. Petersburg that the powers had made proposals of mediation to Constantinople, with a view to bringing to an end the war between Turkey and Italy, is incorrect. Although all the ambassadors here have received the text of an identical note to be submitted to the Porte, none as yet has been submitted. It is stated that the ambassadors will take the projected steps separately on April 16.

Two Youthful Burglars.

Toronto, April 15.—Two youthful burglars, Joseph Gill, aged 16, of 180 Maria street, and Joseph Ball, aged 15, of 2,156 Dundas street, were arrested early Sunday morning in a lane in the rear of the south side of Dundas street, by P. C. Smith following a series of burglaries. Christopher Sparks, Myrtle avenue, Runnymede, was later arrested at an accomplice.

Smith found Gill and Ball crouching on a shed in the rear of W. R. Sheppard's clothing store, corner of Dundas and Pacific avenue. When the boys were placed in custody they confessed to a series of thefts.

They admitted having broken into the rear of the W. M. Baldwin Co.'s fancy goods store at 21,694 Dundas street and stealing about $5 in cash from the cash registers.

On April 4 they entered the tailoring establishment of A. M. Gabel at 1,741 Dundas street via the coal shute, removing therefrom three suits of clothing valued at $40 and marched out the front door, which was locked by a spring lock. Here they left a hundred 22 cartridges, which they said they found in an empty house near the Humber.

On April 10th they entered Pearce's drug store at 1,631 Dundas street and stole nearly $50 worth of cigars, cigarettes and perfume. Apparently feeling the need of cash they broken open a contribution box for the Muskoka Hospital and removed 30 cents in coppers.

Gill and Sparks have been before the police before on different occasions. They have admitted all the burglaries.

Big Junk Thefts.

Toronto, April 15.—Extensive thefts of old copper and brass has been going on from the city Hydro-Electric Commission for some time back and employes have been discharged right and left. This was discovered about the time that Joseph Rosenthal was murdered, when he was lured to the transformer station at the foot of Strachan avenue, on the pretext of securing a quantity of such scrap.

An investigation is now being prosecuted to detect the employes who have been engaging in this form of "high grading," which is said to be carried on in all concerns whose operation entails the constant passing of worn metals.

Tons of this stuff has been properly sold by the purchasing agent of the commission, and the money turned into the coffers of the commission, but other tons of it have been sold to the junk dealers, for which no money has been so turned in, and the sales have been made by those not entitled to sell.

May Fine Traveling Man.

Niagara Falls, Ont., April 15.—Chief Kimmins has instituted proceedings against I. Hines, traveling agent of the Bell Piano Co., alleging violation of the transient traders bylaw, which requires a deposit of $50 before transient traders may do business here. Hines claims he is not guilty of violating the law, as he was assisting the company's local agent.

French Must Assert Independence.

Kingston, April 15.—"Is the use of French a right or a favor?" was the subject taken by Prof. J. M. Lanos of the Royal Military College in addressing three hundred French-Canadians of this city. French-Canadians were free men, he declared, and meant to be, and they would do as others intended to do worship, speak and vote as they please.

PROPHETS AMAZED

Cannot Understand Roosevelt's Victory in Pennsylvania Which Showed Surprising Strength for the Colonel

A SWEEP FOR WILSON

Philadelphia, April 15.—Col. Roosevelt's sweeping victory in Pennsylvania at Saturday's primary election kept growing as the returns continued to come in. Incomplete returns yesterday gave the former President 65 of the state's 76 delegates in the Republican national convention. The Roosevelt supporters are claiming 67, and later returns may carry the figures to that total. Col. Roosevelt won 53 of the 64 district national delegates, and his followers elected enough delegates to the state convention to give them control of that body. The state convention will name 112 delegates at large.

Governor Woodrow Wilson of New Jersey, who had no organized opposition, will have 74 of the 76 delegates from Pennsylvania in the Democratic national convention. In the eleventh congressional district the two Democratic national delegates elected are favorable to Governor Judson Harmon, but they are not pledged.

Politicians look upon the triumph of Col. Roosevelt with astonishment. The supporters of the former President were without a state organization or without an organization in many of the 32 congressional districts.

The regular Republican organization, headed by U. S. Senator Boise Penrose, which has withstood the fury of many a political storm, received a crushing defeat in the loss of control of the state convention. It is the first time in the present generation that it has lost control of that body.

The significance of the Roosevelt victory can be realized when it is remembered that the delegates in control of the state convention have the power to select the state chairman and, under the party rules, the delegation to the national convention elects the national committeeman. At present Senator Penrose holds both positions.

It was said by a prominent member of the state committee last night that some the Roosevelt delegates elected to the state convention are regular organization men, who, while voting for Roosevelt delegates, will stand by the state organization otherwise.

Some of the leaders of the Republican organization refrained from personally entering the primary as candidates for district national delegates, as it had been expected they would be selected as delegates at large. Among those understood to have been looked upon as the likely delegates were Senators Penrose and Oliver, Governor Tener, Secretary of State Robert McAfee, and State Senator James P. McNichol, the leader of the party organization in Philadelphia.

The vote polled was light. In some districts it did not go much over 50 per cent. of the total vote cast at the last general election. Col. Roosevelt received his heaviest vote from the reform element of the state, represented by the Keystone party, which since it was organized about two years ago, has opposed the regular Republicans at every election and succeeded in electing a reform mayor in Philadelphia last year.

Another element of strength of the Roosevelt forces was the body of 170,000 idle anthracite miners in the northeastern counties of the state, where the former President ran strong.

Wm. Holland Disappears.

Belleville, April 15.—The disappearance of Wm. Holland, a prominent farmer of Faraday Township, Hastings County, is causing uneasiness.

On Thursday last he went to Bancroft village to draw money as secretary-treasurer of a school section in Dungannon Township, which adjoins Faraday Township, for the purpose of paying the teacher, Miss George. He did not pay the teacher but made out a check for $50 and afterwards deposited $10. This was the last seen of him.

It is feared he has been drowned in Otter Lake, over which he may have traveled to reach his home. Holland is a married man and has four children.

Red Mill Theatre

Mon. & Tues.
(APRIL 15-16)
Special Big Western Show

1. **Tracked Through the Desert.** A splendid Western Picture.
2. **The Smoke of a Forty-Five.** Come and see the good work of horses

NUGENT'S SARSAPARILLA

Price, large bottle, 100 full doses 85c and well worth it too. It's better to take no medicine at all than to depend upon cheap concoctions that are compounded to sell at a low price and a big profit just because there is a large demand for certain remedies at certain seasons of the year.

There are so-called Sarsaparillas offered to us to sell to our customers at 75c a bottle that would bring us a larger profit than Nugent's Sarsaparilla sold at 85c.

Nugent's Sarsaparilla purifies the blood, arouses the torpid liver, drives out all impurities, cleanses and tones up the system, and helps nature throw off the dullness that comes from the indoor life of winter. It arouses energy, brightens the eye, clears the brain, gives lightness to the movements.

Nugent's Sarsaparilla is not the only thing you will find in this drug store. We make a specialty of Nugent's remedies.

Nugent Drug Co.

THE WORLD'S WORK DEPENDS ON THE WORLD'S DIGESTION

From the captain of industry to the lad carrier—from milady in the auto to the woman with the scrubbing brush—the accomplishments of every one of us depend absolutely on the accomplishments of our stomachs. Backed by a good digestion, a man can give the best that is in him. When his stomach fails, he becomes a weakling.

To this loss of power no one need submit. Right habits of eating, drinking, sleeping and exercise, aided by Na-Dru-Co Dyspepsia Tablets, will restore and maintain the full efficiency of the human mind and body.

Na-Dru-Co Dyspepsia Tablets contain the active principles needed for the digestion of every kind of food. They go to the assistance of the weakened stomach, and enable the sufferer, right from the start, to assimilate and get the benefit of the food eaten. With this assistance, the digestive organs regain their tone, and soon the use of the tablets is no longer necessary.

If your stomach is not working properly, try Na-Dru-Co Dyspepsia Tablets, 50c. at your druggist's, National Drug and Chemical Co. of Canada, Limited, Montreal. 145

COWAN'S PERFECTION COCOA

Is good for Growing Girls and Boys—and they like it. It nourishes their little bodies and makes them healthy and strong.

Cowan's Cocoa, as you get it from your grocer, is absolutely pure. Its delicious flavor is obtained by the use of the highest grade of Cocoa beans, skilfully blended. Nothing is added to impair the health-building properties of the Cocoa.

Sermon by CHARLES T. RUSSELL Pastor Brooklyn Tabernacle.

JESUS A SPIRIT NO LONGER FLESH

The Resurrection of Christ —Pastor Russell Explains an Unscriptural Error.

Baltimore, Md., April 14.—Pastor Russell addressed large audiences here to-day. We report one of his discourses from the text, "With what body do they come?"—I. Corinthians xv, 35.

On last Lord's day we discussed the fact of the resurrection and showed from St. Paul's words that without God's purpose of a resurrection those who have fallen asleep in death would have perished as brutes. We followed with the Apostle the assurances that Christ did rise from the dead and become the First-fruits of all those who have gone into the sleep of death. Others, indeed, were awakened temporarily—as, for instance, Jairus' daughter, Lazarus the friend of Jesus, and the son of the widow of Nain.

Yet none of those instances is counted as a resurrection, for it is said that Christ is the First-fruits of those who slept. Their awakening was merely of a temporary nature, and they soon relapsed into the sleep of death. They did not have a full resurrection—anastasis—a raising up to perfection of life, such as the redemptive work of Jesus guarantees to Adam and to all his race willing to accept the same under the terms of the New Covenant.

You will recall that on last Lord's day we demonstrated from the Scriptures that it is not the body, but the soul, that is promised a resurrection—that it was our Lord's soul that went to sheol, to hades, to the death state, and that God raised Him up from death on the third day. We noted a difficulty into which all Christendom was plunged by the unscriptural theory that it is the body that is to be resurrected. We now continue to search and note well further difficulties into which this error plunged us as believers in the words of Christ, particularly in connection with our Redeemer's resurrection.

The ordinary thought in Christian minds in respect to Jesus' death and resurrection is that when He seemed to die He did not die; that He, the being, the soul, could not die; that, instead, He went to Heaven, and then, on the third day, came back to get the body which had been crucified; and that He took it to Heaven forty days later; that He has had that body ever since; and that He will have it to all eternity, marred with the print of the nails in His hands and feet, the thorns upon His brow, and the spear mark in His side. What a ghastly thought! How strange that we should ever have been misled into so unscriptural and unreasonable a theory! Some endeavor to gloss the matter by suggesting that our Lord's flesh is glorified—that it shines—the shining presumably making the wounds all the more conspicuous.

Our Methodist friends have not yet changed their statement of the matter, namely, "He ascended up on high, taking His fleshly body with Him, and all that appertained thereto, and sat down on the right hand of God." This medieval statement correctly admits that the fleshly body was not the Lord's, but that He, the soul, took it with Him as luggage. The statement, "and all that appertained thereto," presumably would refer to our Lord's sandals, walking stick and such clothing as the soldiers did not divide amongst them at the time of His crucifixion—if indeed He had any others! But our dear Methodist friends want to be sure that nothing was left behind.

All this is of a piece with the theory that the saints when they die go to heaven, and then, later, come back and get their bodies, "and all things appertaining thereto"—the inconveniences that they have been rid of for centuries! How many trunkloads of "things appertaining thereto" may be taken by some, and how mixed an assortment by others is not stated. Neither are particulars given respecting those whose clothing, etc., have meantime worn out. But we have had enough of this, if it has helped us to see the absurdity of our theories received from the "Dark Ages"—if it has awakened us to thought and to more investigation on this important and interesting subject.

The Bible presentation of this subject is every way reasonable, consistent and harmonious. St. Paul points out that "there is a natural body and there is a spirit body." He does not mean and he does not say that the spirit body is a human body glorified. Quite to the contrary. He declares that "Flesh and blood cannot inherit the Kingdom of God"—no matter how glorified it might be. A human being would be so totally different from a spirit being that, as St. Paul says, "It doth not yet appear what we shall be," in our resurrection change; and the Scriptures do not even attempt to give us an explanation.

The Bible merely declares that as we now bear the image of the earthly Adam, we shall, by the glorious resurrection change, be given a share in the nature and likeness of the Second Adam, our glorious Lord. We shall be like Him and see Him as He is; and, be it noted, we must change from flesh and blood conditions to spirit conditions by resurrection power, in order that we may see Him as He is. Surely this proves that our Lord Jesus is no longer flesh, as He once was—"in the days of His flesh."—Hebrews v, 7.

Our text calls attention to the difference between celestial bodies and terrestial, or earthly bodies, and declares that they have different glories. It tells us that the first Adam was made a living soul, a human being, but that our Redeemer, who humbled Himself and took the earthly nature, "for the suffering of death," thereby became the Second Adam—the Heavenly Lord. The wide distinction between the Second Adam and the first Adam is clearly set forth. One was earthly and the other heavenly. As we now bear the image of the earthly, we shall, if faithful, bear the heavenly image of our Lord, the Second Adam, after our resurrection change.

St. Paul illustrates by saying that we know of many kinds of organisms on the earthly or fleshly plane—one flesh of man, another of beasts, another of birds and another of fish. But however different the organisms they are all earthly. So, on the heavenly plane, the spirit plane, there are varieties of organisms, but all are spirit.

Our heavenly Father is the Head or Chief—"God is a Spirit." Cherubim, seraphim, and the still lower order of angels are all spirit beings; and Christ Jesus, our Redeemer, after finishing the work of sacrificing appointed to Him, was resurrected to the spirit plane—far above angels, principalities and powers—next to the Father; and thus we read, "Now the Lord is that Spirit." And again that "He was put to death in the flesh, but quickened (or made alive) in the spirit."—I. Peter iii, 18.

The more we examine the subject the more foolish and unscriptural the views handed to us from the Dark Ages appear. For instance, the Scriptures clearly set forth that our Redeemer, prior to becoming a Man, was a spirit being—"the Only Begotten of the Father, full of grace and truth." His leaving the spirit plane to become a Man is Scripturally described as a great stoop or humiliation. Is it reasonable to suppose that the heavenly Father would perpetuate to all eternity that humiliation, after it had served its intended purpose? Surely not.

The Bible tells us why Jesus humbled Himself to the humn nature—"a little lower than the angels." It was because man had sinned, and the Redeemer must, under the Law, be on the same plane of being as the one whom he would redeem. Thus Jehovah particularly specified, "An eye for an eye, a tooth for a tooth, a life for a life." Hence the death of an angel, or of our Lord in His prehuman condition, could not have affected the payment of man's penalty and the consequence release of the condemned race. Thus again we read, "A body hast Thou prepared Me," "for the suffering of death."—Hebrews x, 5; ii, 9.

No one questions that this applies exclusively to our Lord's experiences during the years in which "He who was rich for our sakes became poor, that we through His poverty might be made rich." Surely it is unsupposable that the Father would arrange a Plan by which our Redeemer's faithfulness in accomplishing man's redemption would cost Him an eternity of poverty, humiliation, degradation to a plane "a little lower than the angels," while the Church would be made rich and would attain a spirit state "far above angels"—be made "partakers of the divine nature."—II. Peter i, 4.

On the contrary, the very same Apostle who tells us of our Lord's humiliation carries the matter to the climax, telling us of His faithfulness, as the Man Christ Jesus, unto death, even the death of the cross; and then he adds an assurance of the heavenly Father's faithfulness in not leaving His Son on a lower plane. "Wherefore," says the Apostle, "God also highly exalted Him, and hath given Him a name above every name." This, too, is in harmony with our Lord's words in His prayer to the Father. A joy had been set before Him by the Father—a joy of pleasing the Father, of bringing a blessing to mankind, and the joy also of exaltation, as a special reward for obedience.

But the Redeemer, ignoring all the promises of a higher glory as a reward for His faithfulness, merely prayed to the Father in these words, "Father, glorify Thou Me with the glory which I had with Thee before the world was." In humility He asked no reward. He did not pray, Remember that you promised a still greater exaltation in glory! No. He would be quite content to have served the Father's purpose and plans and then to return to the glorious state in which He was before He left the glory, and for our sakes became poor and took upon Himself the human nature. And what said the heavenly Father in response to that prayer? Oh, we remember the words of Jehovah were, "I have glorified Thee, and I will glorify Thee again," or further the implication is that of a still higher glory than the one which He enjoyed before He was made flesh.

Two lines of difficulties present themselves, one of which can be answered and the other cannot. The unanswerable difficulty is where a natural-minded man undertakes to reason the subject out. He finds it impossible of comprehension as he finds other items of Divine revelation. St. Paul explains this, saying, "The natural man receiveth not the things of the Spirit of God, neither can he know them, because they are spiritually discerned." The Apostle proceeds to tell us that all men are natural men, except such as have been begotten by the Holy Spirit. All natural men will, in their resurrection, receive earthly, or human bodies, while all spiritual ones. New Creatures in Christ, will receive spirit bodies, as St. Paul explains in our context, verses 36-50.

Those of my hearers, therefore, who have never accepted Christ, and made a full consecration of their all to be His disciples, following in His footsteps, may know that they have not been begotten of the Holy Spirit (because only upon these terms are any begotten of the Spirit). These, therefore, I will ask to consider what I say, and hold it, if they please, tentatively, until such time as, in God's providence, they may be begotten of the Holy Spirit, and thus be enabled to understand spiritual matters such as this.

Another class who have difficulty on thus subject are the spirit-begotten ones who have been entangled in their reasoning by the declaration of the creeds respecting the resurrection of the body. It is difficult to unlearn error. When visiting various lands and learning of the hold of superstition upon the heathens, I said to myself, I believe that we Christians experience just as much difficulty in unlearning our errors as these heathens do in getting free from theirs.

Coming to the point of what is to be resurrected, we note the fact that our Lord appeared in a body of flesh, and showed the disciples the print of the nails and the hole made by the spear. But we, perhaps, failed to note that only twice did He thus appear, and but for a few moments each time. His other six or seven appearances during that forty days were also very brief, and in various bodies—once as a gardener, another time as a traveler—His third time as a stranger on the shore, and to Saul of Tarsus, as a spirit being, of more than angelic brightness, "shining above the brightness of the sun at noonday." We overlooked the fact that these appearances, if all put together, would probably not have exceeded four hours out of the entire forty days in which our Lord tarried with His disciples after His resurrection and before His ascension. We were not critical students when we overlooked those things, and forgot to ask ourselves why these things were so.

Now we see more distinctly why our Lord did as He did. His disciples were natural men and therefore could not appreciate spiritual things. Furthermore, they could not receive the guiding of the Holy Spirit until the Lord's ascension and appearance in the presence of the Father on behalf of His Church, to make satisfaction for their sins, and to make them acceptable joint-sacrificers with Him. Meantime, had Jesus not tarried those forty days—had He ascended immediately after His resurrection—the disciples, stunned and bewildered, would have had no assurance of His resurrection. They would have found it impossible to go out and tell the people that He had risen from the dead when they had no proof to this effect.

And even if Jesus had appeared to them as He did to Saul of Tarsus, above the bright shining of the sun, this would not have been convincing and satisfactory. They might have said, Here is a phenomenon, but how can we positively associate it with the life and death of Jesus? Matters were different with Saul of Tarsus. He needed something to thoroughly arouse him and to teach him for all time, and others through him, that the Lord is not a Man, but "that Spirit." Besides, some of the disciples who already believed were able to give Saul of Tarsus assurances of what many knew respecting the resurrection of Jesus and His ascension.

The Lord adopted the only reasonable way of helping His disciples to understand that He was no longer dead—that He had risen from the dead—and that He was no longer human, but had been glorified, and had become a spirit being. The two things were necessary and they were done at the same time.

Even on the occasions when our Lord appeared in a body like to the one crucified, He took care that the manifestation should be under such conditions as would positively prove that He had become a spirit being. He came into the room where they were while the door was shut, and after a few words with them He vanished from their sight, as no human being could have done and as He never did during His earthly career. That the Apostles caught the thought is well evidenced by St. Paul's argument on the subject in our text. There is no foolish suggestion in the Bible about Jesus having a fleshly body in heaven—that is all in our creeds and hymn books, prepared for us by our well-meaning but mistaken forefathers, who used to burn one another at the stake if they failed to promptly agree together on such propositions.

We mourn the dead, but they shall wake;
The lost, but they shall be restored!
O! well our human hearts might break
Without that sacred word!
Dim eyes, look up! sad hearts, rejoice!
Seeing God's bow of promise through,
At sound of that prophetic voice:
"I will make all things new."

"I Suffered Years With My Back."

Backache resulting from weak kidneys, a bad cold or other cause, usually renders the sufferer unfit for work and often results in permanent disability.

"I suffered for years with my back, or kidney trouble, and have tried a number of remedies from different physicians. More than a year ago, one of our local druggists induced me to try

Dr. Miles' Anti-Pain Pills

and after using them some three months I found a decided improvement in my kidneys, and I am glad to say that I hope soon to be fully restored to health." J. P. ALLEN, Ex-Judge City Court, Glasgow, Ky.

As long as pain is present in any part of the body rest is impossible and the system becoming weakened is exposed to any form of disease to which the sufferer may be inclined.

Dr. Miles' Anti-Pain Pills

by steadying the irritated nerve centers, make refreshing sleep possible, thereby enabling the body to recover lost strength. As a remedy for pain of any description Dr. Miles' Anti-Pain Pills are unsurpassed.

Sold by all druggists under a guarantee assuring the return of the price of the first box if no benefit results.

MILES MEDICAL CO., Toronto, Can.

The Camera Race Judge.

Now that flat-racing is about to commence in England, further attention will be given to a highly practical invention for automatically judging the position of horses at the winning-post, particularly in cases where close finishes occur.

Briefly, the mechanical race judge is an ordinary photographic camera. Across the course a fine woollen thread is stretched, breast-high to the horses. The moment this thread is snapped the shutter is opened, and a photographic record results.

The actual development of the negative is but the work of a few moments, and prints can be actually distributed in quite a short time.

The chief utility of the invention lies in the fact that it eliminates the human element from the judge's box when a race is a very close thing. Not long since, an absolutely perfect dead-heat was recorded with this instrument.

The Better Part.

The Weak, Lame, Aching Back

Comes From The Kidneys.

Those who have never been troubled with kidney trouble do not know the suffering and misery which those afflicted undergo.

On the first sign of backache Doan's Kidney Pills should be taken immediately so as to avoid years of suffering from kidney trouble.

They go right to the seat of the trouble heal the delicate membranes of the kidneys and make their action regular and natural.

Mrs. Joseph Throop, Upper Point de Bute, N.B., writes:—"I cannot speak too well of Doan's Kidney Pills. For two years I was so tired life was a burden, and I got up more tired than when I went to bed, and my back was so lame I could hardly straighten up. I took different kinds of medicine, but none of them did me any good until a friend advised me to try Doan's Kidney Pills. I did so, and to-day I don't know what it is to be tired, and my lame back is all gone I can recommend them to any person suffering with lame back and that terrible tired feeling."

Price 50 cents per box, or 3 boxes for $1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co. Limited, Toronto, Ont.

When ordering direct specify "Doan's."

My dress was washed with OMO

that is why it looks so spotless, so soft and so delicate. OMO is the ideal washer for all white things.

This famous bleacher, cleanser and purifier, preserves the finest textures unharmed, for no rubbing or hard work is required, just soaking.

Boil the wash in OMO and water for half-an-hour. Let soak a further half-hour, rinse and hang to dry—everything spotlessly white.

SPAIN'S ANTIQUE OGRE

Woman Chopped up Children to Obtain Their Blood as Medicine.

These are further revelations concerning the woman Enriqueta Marti, who is accused of having stolen children at Barcelona, Spain, and of having put them to death in order to make potions with their blood for the curing of diseases. She is now accused of having stolen eight children, only two of whom were found alive in her house. The examining magistrate who is inquiring into the case ordered architects to examine the house in which she lived on Poniente Street. They found bones and human hair concealed in the wall. In a house previously occupied by the woman a partition was demolished and a cupboard was revealed in which were a large number of human bones. A little girl named Magelita has told a startling story to the magistrate.

In the house in Poniente Street a note book was discovered and in it were specified maladies which could be cured by the potion. The woman's husband had, it is alleged, offered to cure a barber who suffered from consumption for $200—an offer which was refused. The woman is in a state of dejection. It is stated that she has attempted to take her life in prison. In lists of names found at her house, were those of several well-known people, who were requested to attend the office of the examining magistrate. They declared they did not know the woman. So far twelve arrests have been made in connection with the affair.

STUMPING BY AEROPLANE

French Peasants Lionized Vedrines the Airman But Did Not Elect

An amazing election campaign for a seat in the French Chamber of Deputies was conducted by the little airman, Jules Vendrines. In his monoplane, Vendrines flew from village to village dropping voting circulars from the air, canvassing for votes. He was the wonder of the countryside. Peasants in the constituency of Lemoux talked of little but the wonderful "bird-man" candidate who came flying over their fields. Wherever he appeared he was welcomed with volleys of cheers. Some of the peasants were so overcome that they have even kissed the wings of his monoplane. Popular songs were composed in his honor, and were sung in the taverns and around the fireside.

At Esperausa a travelling showman complained to Vedrines that his popularity with the public had ruined him, and that no one was visiting his show. "Don't worry," said the sympathetic airman, "I am a worker like you, and only a year ago I was earning 15 cents an hour. I won't let you suffer through my competition. Here, take this," pressing a banknote into his hand—"and not a word to anybody."

Vedrines, though popular with the peasants and working classes was defeated at the polls.

RUINS THE CHILDREN

Judge Choquet of Montreal Children's Court Scores Cheap Theatres

In opening the new Juvenile Court in Montreal Judge Choquet scored the moving picture shows as being the cause of the moral ruin of many children. He said: "Permit me to say with what regret I have noticed the bad influence of moving picture shows upon children. In every case, without exception, the children brought before me, whether Protestants or Catholics, were in the habit of attending these shows, and I have found in several cases that this had been the cause of of their downfall. The evil is greater than might be suspected. The majority of these moving picture shows are not what they ought to be. I have no doubt but that they are one of the principal causes of the moral ruin of children, and it comes necessary, therefore, to regulate them with the utmost severity. I also think it necessary to act with more severity against youthful cigarette smokers, and above all against those who sell to them."

SET FIRE TO HERSELF

A Young Woman Committed Suicide at a Font

A young woman named Butand entered a church at Lyons, and stood for a few minutes near the baptismal font. While unobserved she produced a bottle of petroleum from under her cloak and poured the liquid over her clothing. Then she set light to her oil-soaked garments and in a few seconds was a mass of flames. Several persons rushed towards her but were unable to extinguish the fire, and the woman died almost immediately. It appears that her mind had been unhinged for some time and she recently stated that she was sure she would die as Joan of Arc died.

NERVOUSNESS AND DYSPEPSIA

CURED BY "FRUIT-A-TIVES" THE GREAT FRUIT MEDICINE

In Nervous Dyspepsia, the Dyspepsia does not arise from the Nervousness—but the latter trouble does come from the Dyspepsia.

The stomach is a network of nerves. Now if all these nerves are irritated by improper food, hasty eating, or poisoned by gases from the constipated bowels, then they will make one nervous.

"Fruit-a-tives" cures both the Nervousness and the Dyspepsia because "Fruit-a-tives" cures all stomach troubles, keeps the stomach sweet and clean, and enables you to eat and sleep as you did when a child.

50c. a box, 6 for $2.50, or trial size, 25c. At all dealers, or from Fruit-a-tives Limited, Ottawa.

RED RIVER ROUTE

A Proposed Water Route From Fargo, N.D., to Hudson Bay

The latest scheme to obtain transportation to Hudson Bay, is by deepening the Red River, and establishing a navigable route from Fargo, N.D., to the Bay. Experts have been working on the practicability of such a project and it is believed to be possible to dredge out the shallow places in the river and make it possible for freight boats to travel with comparative safety. This work will be costly but once done should be a great boon to transportation to the Bay. It has been estimated that this water route to the Bay will be a saving in distance to haul freight of about 1,000 miles. This will be a great help to transportation from the Northern States. Winnipeg, which is the key to the West, will come in for a share of the benefit from this water route. At present boats travel from that city to Lake Winnipeg, but in event of the establishing of the boat route from Fargo to the Bay, this present water route will be much improved. The channel in many places is narrow and shallow, so it will be necessary to deepen in some places and broaden in others if a regular route for commercial freighting is to be established. This proposed route would mean much to transportation from Winnipeg and, if established, would be one more link between Western Canada and the Old Country markets.—Farmers Advocate.

DEATH MADE BEAUTIFUL

George W. Perkins, the corporation expert, began life as an insurance agent. So good was he at the game that one of his friends described him in these words:—

"George would convince you that the grave was the biggest financial institution, the biggest dividend-payer, and the biggest gold-mine in the world. He can build up in your mind the idea that each day you spent on earth was time thrown away. He could convince you that the only real feat for you to perform was to die, be buried, and leave your wife and children to roll resplendent in wealth that he and his company kept waiting for them."

A Record Flight

One hundred and one miles an hour, on an average, was the record speed recently attained in an aeroplane by a French aviator; a strong following-wind was the cause of his success.

Missed the Sunrise

A train two minutes late caused M. Louchet, a French artist, to miss a chance of painting the sunrise at Fontainebleau, and, in consequence, he is suing the Paris Metropolitan Railway Company for $200 damages.

Hiawatha in Yiddish

"Hiawatha," Longfellow's beautiful poem, has been successfully translated into Yiddish.

Making Mortar

Three bushels of quicklime and four bushels of sand make mortar for one thousand bricks.

Hares in Storage

Hares imported from abroad and put in cold storage are said to keep good for eighteen months.

An Artist Viscount

Viscount Dangan, the eldest son of Earl Cowley, is working as a scenic artist at a salary of $10 a week.

London's Population

Greater London has more than doubled its population in the past fifty year, the figures in 1861 being 3,222,720, while now they are 7,252,963.

Fleet of Powers

Great Britain owns 22 Dreadnought battleships, Germany 16, the United States 13, and France 10.

Remedies are Needed

Were we perfect, which we are not, medicines would not often be needed. But since our systems have become weakened, impaired and broken down through indiscretions which have gone on from the early ages, through countless generations, remedies *are* needed to aid Nature in correcting our inherited and otherwise acquired weaknesses. To reach the seat of stomach weakness and consequent digestive troubles, there is nothing so good as Dr. Pierce's Golden Medical Discovery, a glyceric compound, *extracted from native medicinal roots*—sold for over forty years with great satisfaction to all users. For Weak Stomach, Biliousness, Liver Complaint, Pain in the Stomach after eating, Heartburn, Bad Breath, Belching of food, Chronic Diarrhea and other Intestinal Derangements, the "Discovery" is a time-proven and most efficient remedy.

The genuine has on its outside wrapper the Signature R. V. Pierce M.D.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic, medicine of KNOWN COMPOSITION, not even though the urgent dealer may thereby make a little bigger profit.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

JAPANESE BRIDE'S DRESS

White Worn for Part of the Ceremony But for a Strange Reason

Brides in Japan follow the same custom which prevails in the Western world, that of wearing white at the wedding ceremony, at least during a part of it. But the significance attached to the choice of this color is quite different on the two sides of the world.

The Japanese bride is dressed first in resplendent garments of white silk, the sleeves of the costume usually being about three feet in length, while the sash, an important feature, measuring about 11 fee in length.

But white, as the Oriental Review explains, is the mourning color in Japan, and the bride, leaving her parents' house, considers herself dead in the same sense that she will never return alive, preferring death to divorce, and in consequence wearing a white costume.

After the exchange of cups of sake with the bridegroom, which is the most important part of the wedding ceremony, the bride changes her costume to a red one. This is called iromaoshi (changing color). Red is supposed to have a purifying power, and perhaps clears the minds of the parties of all association of mourning.

This is the origin of the Japanese custom of using white costume at weddings, but many people in modern Japan do not any longer have time to bother their heads with these questions of color, and simply go ahead and marry according to the accepted custom, with no thought of what the colors signify.

McDermid and Jury Have a Preparation That Will Grow Hair Abundantly.

This is an age of new discoveries. To grow hair after it has fallen out to-day is a reality.

SALVIA, the Great Hair Tonic and Dressing, will positively create a new growth of hair.

If you want to have a beautiful head of hair, free from Dandruff, use SALVIA once a day and watch the results.

SALVIA is guaranteed to stop falling hair and restore the hair to its natural colour. The greatest Hair Vigor known.

SALVIA is compounded by expert chemists.

Watch your hair if it is falling out. If you don't, you will sooner or later be bald.

SALVIA prevents baldness by fastening the hair to the roots.

Ladies will find SALVIA just the hair dressing they are looking for. It makes the hair soft and fluffy and is not sticky. A large bottle, 50c. Also sold at Payne's Drug Store.

WELL NAMED

Deacon:—"Why do you call your boy Flannel?"

Mother:—"Because he always seems to shrink from washing."

SOME GOOD ADVICE

"Kind friend," whined a beggar, "I'm trying to get to Montreal, and I've got the price of a ticket all but ten cents. Will you help me out?"

"No; but I can give you some excellent advice," replied the gentleman he addressed. "Take the train to within a ten cents fare of Montreal and then walk."

A MATTER OF LAW

A little boy was once brought before a magistrate charged with throwing stones at railway trains.

"What have you to say in answer to this serious charge?" asked his worship.

"I didn't throw no stone, sir; I was only going to," said the boy.

"Only going to!" echoed the magistrate. "Well, the intent was there, and as a deterrent I shall fine you a dollar."

"On leaving the court the father of the boy was called back and informed that he hadn't paid the fine.

"That's so," replied the parent. "I should have done so; but, as the intent is just as good in law, why you're paid!"

DOUBLE SIGHT

"The constable seems wonderfully certain about the details of my case," said a defendant, with a sneer; "but how is it he doesn't call his fellow-officer to prove what he says?"

"There's only one constable stationed in the village, sir," explained the policeman.

"But I saw two last night!" indignantly asserted the defendant.

"Exactly," the policeman rejoined smiling broadly; "that's just the charge against you!"

IT SOUNDED GOOD

An elderly bachelor and an equally elderly spinster sat in a concert hall. The selections were apparently entirely unfamiliar to the gentleman, but when the "Wedding March" of Mendelssohn was begun he pricked up his ears.

"That sounds familiar," he exclaimed. "I'm not strong on these classical pieces, but that's a good 'un. What is it?"

The spinster cast down her eyes. "That," she told him, demurely, "is the 'Maiden's Prayer'!"

LOST HIS EYE

"I see Tompkins has lost an arm and an eye. I suppose he lost them fighting for his country, brave fellow!"

"Oh, no! He lost them playing for his county. He was a football player."

THE WRONG HALF

With a determined expression the temperance preacher approached the working man.

"Now, tell me truthfully," he said, "what have you in that jar?"

"Whiskey," said the man.

"I thought so," said the temperance man. "Come, good fellow. Pour it away. It will do you no good. It will do you harm. Will you pour it away?"

"No."

"Come, come! To oblige me. I would not ask you if it were not for your good."

"Well," replied the workman, "I would, mister, only, you see, this whiskey ain't all mine. Half of it belongs to my brother."

"Very well, then, pour your half away. I will be satisfied with that."

"I can't mister. You see, his half is on top!"

STANDS BY HIM

Mrs. Prentice:—"How do you manage to have such delicious beef?"

Mrs. Bywell:—"I select a good, honest butcher and then stand by him."

Mrs. Prentice:—"You mean that you give him all your trade?"

Mrs. Bywell:—"No. I mean that I stand by him while he is cutting the meat."

THE CAT CAME BACK, BUT TOM—

The greyness of the evening was creeping over the little suburb. Far away, the hoarse voices of newspaper boys could be heard calling the evening editions, and the evening moon cast its pale beams on the worried woman who stood anxiously by her gorden gate.

"I can't make out where my husband has got to," she remarked to a neighbor. "He went out nearly three hours ago with our cat, a bag, two bricks, and the clothes line. He was going to the river to drown the cat. Oh, what can have happened to him?"

"Don't worry, dear," said th esympathetic neighbor, "cats take an awful long time to drown, you know."

"But it can't be the cat that's keeping him," sobbed the worried wife, "because the cat came back over an hour ago."

BRAVE AND BRAINY

The Girl:—"The man I marry must be brave and brainy."

The Man:—"I am both. Remember when we were out sailing the boat upset and I saved your life."

The Girl:—"But that was not brainy."

The Man:—"Yes it was. I upset the boat purposely."

BOTH WERE BAD

The Earl of Fingall, who was born on All Fools' Day, is a famous storyteller. One of his stories is about a rather shabby theatrical company who were giving "shows" in the very small country towns.

In one little town business was very bad, and the manager, standing at the door, was prepared to do anything to entice an audience into the little hall.

A small boy arrived with a melon tucked under his arm.

"Will you gimme a seat for this melon?" he asked. The manager agreed; the melon changed hands, and the boy saw the show.

As he left the hall, however, the manager grabbed him.

"Look here, you young villain!" he exclaimed, "that melon of yours was bad."

"So was the show!" replied the youthful critic.

Redistribution Bill Before Provincial House

Proposed New Constituency to be Formed With Biggar as Seat

The Provincial Parliament now have the new Distribution Bill framed up into working shape, and this will erect 15 new seats and make 54 seats for the whole province.

One of these new seats is allotted to our own town of Biggar, with a district extending thirty miles from east to west and from sixty to ninety miles from north to south, the deflection being caused by the North Saskatchewan River.

As laid out, the new constituency of Biggar consists of all that land shown on the map as follows:

Starting from a point on the line between ranges 11 and 12 on the top of township 30, and proceeding straight north along this line to the North Saskatchewan river in township 40; then along the line of the river till reaching the line between ranges 17 and 18 in township 44, and proceeding south along this line to the N. E. corner of township 30 in range 18, and from there straight east to the starting point.

This gives the Biggar constituency an area of somewhere about 2,400 square miles, and includes the towns of Biggar, South Battleford, Naseby, Traynor, Harris, Zealandia, Herschel, Palo, Oban, Mead, Vance, Neola, and a lot of other smaller places inside the area mentioned above.

MAKING THE AIR FEED US

How a Woman Has Forced It to Pay Man's Debt to Mother Earth

(Copyright, 1912, by the New York Herald Co. All rights reserved.)

TO make the wind that from Eden time bloweth where it listeth carry man on frail new found wings savors of the sublime.

But it also savors of the supremely natural, for have not the years looked forward to it as a foregone conclusion? Not because it was imperative, like those problems that the race must solve for its very existence, but merely for the reason that man in his godlike vault must perforce reach the very limit, if limit there be, of his possibilities. So men have learned to make wings that adapt themselves in a measure to the air, and when the untamable winds are complaisant they make their little flights and say, "We have conquered the sky. Behold the sublime!—the work of men." And the name of each aerial adventurer is known and lauded and passed from tongue to tongue.

To take that same free eternal air and rend it as we rend the earth to make metals, to make of it helpless material in men's hands, answering with indifference its raging and blustering, and to do not only that, but to make it answer the most unanswerable riddle ever propounded by Mother Earth—this is the work of one man. And it is a thousand to one you have never even heard her name.

No, not strange, but only the world's way. For one achievement is as romantic and gratuitous as a tourney of knights in glittering armor. But the other is as humble as the baking of a loaf in the ashes. So that I hesitate to turn from the grandeur of flying through the air to the making of fertilizer from that air, lest I be accused of wilfully plunging from the sublime to the ridiculous. And not only the ridiculous, but the impossible.

Never heard of making fertilizer out of the air? There is a factory now doing it at Niagara, the demand for whose product is so great that last year it increased its output by several hundred per cent. Another such factory is being built in South Carolina; there are seven or eight in Norway, paying twenty-five per cent dividends, and Sweden, Austria, Germany and France have them also.

Moreover, now that this method of making out of an exhaustless supply, free to all, something that is absolutely essential to your life has been made practicable, these factories will soon be so common that you won't stop to read about them.

But why do it, say you, when all we need to pay earth for what we take from her is the waste that we must be rid of anyway? And why talk about it in terms of drama?

Because it is drama, enacted by characters mystical, gigantic, primal. We find in the first act Mother Earth conspiring against her children with plot as malevolent as any that weighted the Greek tragedies. She propounds a riddle that one must answer or all must die. Then enter sage and scientist and the world of the world to conquer her with the might of wisdom, and their wisdom answers the riddle no more than the babbling of children.

Expressed in terms, not of their primal significance, but of modern economics and commerce, the facts stand thus:—Fertiliser is absolutely essential to your life because there is not so very much virgin soil left on the earth and much of what there is is uncultivable. And in spite of the rotating of crops earth is becoming weary with the immense strain of feeding her teeming millions. In the childhood of the race she fed us freely, as a mother should her babes. But as the race grew up things have changed, and earth long since became like a bank into which we must first put something if we would get anything out. The next age will behold a still more stringent state of affairs, for earth will be seen to be holding over man's head a mortgage, with the threat of immediate foreclosure if the giant interest accruing be not met. Even now things have reached a state where practically every acre of land under cultivation is first fertilized. Take the cotton crop as a single instance. In the South last year three million tons of fertilizer were used for its production alone. That was drama enough, but the climax is that the end of the natural fertilizer is in sight. Which means that Mother Earth has at last seen through our trick of paying our board bill with something taken from herself and is putting a lock on the pantry door.

What next? We must pay her or starve, and pay her in advance in the shape of so much fertilizer for so much food. So the mad question becomes, "How shall we pay without coin? Earth is our only supply of that, even as she is our only supply of food. And now she is withdrawing the coin."

Could a more impossible deadlock be imagined?

And doesn't the deadlock become a thing to amaze the stars when we consider that one of the most needed elements of a "complete fertilizer" exists right in the air that all plants grow up in and breathe and stretch out their arms in, but that through all the aeons that have passed since "God said, let the earth bring forth," they have been separated by a gulf from that food that they live in and for lack of which earth says she will one day extinguish them and through them us.

That is not to say that plants do not absorb nitrogen from the atmosphere. But plants obtain but a part of the needed nitrates that way. The rest must, by an edict of nature, come by way of their roots from the soil where earth is withdrawing the supply, instead of by way of leaf and branch from the air, where the supply is exhaustless.

Doesn't that look as if it were true that earth were conspiring against her children? That is just what it has been looking like to those seer eyed scientists who are able to peer into the future and see the end of those supplies that seem so boundless to the lay mind. But even to them the question has only recently become acute, and they have been asking each other how this great Sphinx riddle could be answered.

But where was ever the woman who could forever remain a closed book to other women? The riddle has been answered, and answered by a woman." If earth demands fertilization and is withdrawing her own natural supplies of the coin she demands, what then? "Simple," said Mme. Lefebre, of Paris. "There's only one thing besides the earth available, and that is the air. Use it." And then she devised the method of extracting the nitrogen from the air and using it to make nitric acid, and in turn the multitudinous chemicals that man now needs, including the humble and all-important fertilizer.

"When did she do it?" asks the public. "It must be very recent or the news would have travelled outside of scientific circles. When it does, the woman will be lauded as she deserves."

The woman will not be lauded. She made her discovery more than half a century ago, taking out an English patent on the process in the year 1859, and the decades that intervened between the time of her work and mankind's discovery of its necessity have been sufficient to bury her name as completely as they hid her deed till urgent necessity made us aware of it. Look through the articles on famous women scientists in the old French revues; look through French dictionaries of science and histories of important inventions. You'll find the names of those who met a then recognized need, but you will probably find no mention of her, though the value of her discovery may exceed theirs many times. And listen to this, published not long ago in one of the chemical trade journals:—"Nitrogen • • • is so rare an article, the commercial sources of it being so few, that he who will discover a cheap commercial process for obtaining it from the atmosphere and combining it in a form that will be serviceable in crop production not only will be a great benefactor and inventor, but will change the economy of living on this earth."

"He who will discover!" "She" had already discovered, and had done it before the need became pressing, just as a mother feeds her family—so long before hunger becomes acute that they are not aware that her simple act sustains and saves their very lives. Had Mme. Lefebre made her discovery fifty years after she did this is what that chemist would have said:—"Nitrogen • • • is so rare an article • • • that she who has discovered a process for obtaining it from the atmosphere • • • not only is a great benefactor and inventor, but has changed the economy of living on this earth." Then he might have added:—"And the modern need being everlastingly for the greater cheapening of processes, and the cost of her invention being practically the cost of water power, high or low, the one who will make the latter still cheaper or invent a substitute independent of the natural supply of water power, will make her blessing to mankind practically free."

What is this process that produces such marvellous results? It is as elemental in its simplicity as the great primal drama I spoke of in beginning to tell this story. It is in this that fire and water are called in to aid the woman. Fire? The leading feature of the process is an electric arc between the poles of which the temperature is 4,200 degrees centigrade, or 7,592 degrees Fahrenheit. It reminds us of that "fervent heat" in which "the earth also shall melt," and when air is passed over that arc one naturally expects a result apocalyptic in its nature. What does happen is that the oxygen in the air is burnt up, utterly consumed. That which remains is a colorless gas, as invisible as the air itself, which is known as nitric oxide. This, driven out into the air, recombines with it, the result being, of course, twice as much nitrogen as there was before to the same amount of oxygen; in other words, nitrogen dioxide (NO2). The next step is just as childishly simple. There is added one more ingredient, no rare and mystic compound to transform the air by magic into chemicals before our eyes—just water. The result of this is nitric acid, poisonous and powerful, made of air plus a part of the air plus water! And this chemical stands second in commercial importance, only one, sulphuric acid, having a vaster area of usefulness.

But nitric acid, you say, is not fertiliser. It practically is in the chemist's mind, for with it he is as near to having fertilizer as he is to having money when he pushes an indorsed check through the paying teller's window. Limestone is cheap, exhaustless, easy to get and easy to work. He treats it with his air made nitric acid, and the result is nitrate of lime (or nitrate of calcium), for fertilising purposes the practical equivalent of the famous Chilian nitrate of soda.

That is about all of the process, but simple as it is, it is spectacular enough to fulfil all expectations. For the electric spark between the poles of that arc is nine feet long. Nine feet of that inconceivable fervor of heat!—a nine foot core of light so intense as to be colorless—a thing almost beyond the concept of both eye and imagination. Surrounding this is a zone of a wonderful greenish blue, fascinating and repelling at the same time, like an evil beauty. Here the temperature is 1,800 degrees centigrade, or 2,552 degrees Fahrenheit. Wrapped about this (the beauty's veil, to make more alluring by partial concealment) is a zone of pale greenish brown, and here the temperature is but a paltry 800 or 1,000 centigrade. It is mystical, terrible, and to behold as its result that humble, whitish, crumbly stuff that is only fertilizer dust, and to return to dust, is as if we were to behold witches casting with spells and mutterings, all sorts of magic into their cauldron to take there from—a loaf of bread.

That is just what it is, though—bread for us and the generations to come. For, in spite of the fact that water power costs four times as much in this country as it does in Norway and twice as much as in Austria or Switzerland, its development has already so cheapened the use of electricity that the production of atmospheric nitrogen is at last coming into its own as a thing of such limitless commercial value that its discoverer indeed deserves the name of "a great benefactor," for she has, in truth, accomplished that which will "change the economy of living on this earth."

Change the economy of living? Well, yes. Consider this; Chili has our greatest supply of nitrates and from Chili they are now taking two million tons of the stuff a year. At that rate one could conceive of the land of Chili itself being done away with before long, and can easily believe Sir William Ramsay, the great scientist, when he says that in one hundred years, a time long to the lay mind, but short to the scientist, this great bed will be exhausted. With that in mind we can see why we have received a blessing from the woman who made it possible to make the all essential nitrates from the exhaustless air at the rate of one million tons of the chemical from the air over five acres of land. When earth began demanding such wholesale fertilization the supply seemed limitless. At first just the various sorts of waste met it. But as earth began crying "More, more!" such things became but a drop in the ocean to what is needed. Of phosphate and potash there seem to be limitless supplies, nitrogen, phosphate and potash being the three elements of a "complete fertilizer." It was the great Liebig who discovered that these three elements are necessary and he uttered the famous words, "That man is a benefactor to his race who makes two blades of grass to grow where but one grew before." But even he merely stated the principle that the three are needed and that no two of them will unlock Mother Earth's closed pantry door. There must be the third, and when men had searched the earth in vain for it a woman took it—out of the air.

ABOUT AMBERGRIS.

A PRESS report from Victoria, B. C., the other day stated that a piece of ambergris estimated to be worth $150,000 was taken from a whale killed by the whaler Pretriana, which arrived at that port July 5. This is said to be one of the largest pieces of ambergris ever found.

Ambergris is supposed to be a morbid secretion of the liver of the spermaceti whale, found floating or washed ashore. It is a little lighter than water, and might easily be taken for a piece of the bark of a tree. On examination, however, it is found to be of a waxy nature, streaked with gray, yellow and black and emitting a peculiar aromatic odor. It fuses at 140 to 150 degrees Fahrenheit, and at a higher temperature gives out a white smoke, which condenses into a crystalline fatty matter.

It is found in all sizes, from one pound up to twenty or thirty, but occasionally pieces weighing one hundred or two hundred pounds are found in whales.

Ambergris has been known from an early period, some pharmacopoeias prescribing it for fevers and nervous complaints. It is sometimes mingled with the incense burned in churches, and is also put in certain kinds of wine to improve the "bouquet."

But the great use of ambergris is in the manufacture of perfumery. Not that its fragrance is either very powerful or pleasing, but it possesses the peculiar property of causing other ingredients to throw out their odors and making them more specific and durable.

In this respect it bears a resemblance to the use of mordants in dyeing, without which the colors would fail to become permanent. Hence all the best perfumes contain ambergris, which is one reason of their costliness, and hence, also, the fact that "home made" colognes, for instance, smells only of alcohol.

The Rats Role in Transmitting Disease.

WHETHER as transmitter of disease or as a simple agent of destruction, the rat is an animal which must be destroyed at the cost of any effort. In a very interesting work published under the title, "La Lutte contre le Rat," Dr. Lagarrigue has described at great length the various means which have proved most successful for this purpose up to the present. The measures recommended by him as indicated subsequently are justified by the misdeeds imputable to these rodents.

The term "rat" comprises in reality various species of rodents belonging to the family of muridae, the principal being the brown Norway rat, the black rat, the common mouse, the field mouse and the field mole.

The brown Norway rat is now very common almost everywhere. It came originally from India and Persia and seem to have appeared in Europe about the middle of the seventeenth century. It has spread all over the world, its diffusion being favored by the extension of commerce. This rat lives in sewers, cellars, granaries and warehouses. It is an excellent swimmer, burrower and climber, adapting itself admirably to varied circumstances and is very apt to penetrate into the holds of seagoing vessels. These rats, with two or three litters a year of four to a dozen young in each, multiply extremely fast. The brown rat is readily recognized by its size (thirty centimetres), by the slightly tawny color on its back and the gray color below, by its tail, thick at the base but shorter (twenty centimetres) than the body; by its feet with the claws united at the base by a slight interdigital membrane.

The black rat has a thin tail, which is longer by five centimetres than the body (fifteen centimetres), its claws are devoid of any membrane, while its coat is ordinarily black on the back and gray below. One variety is known which is white below. It is found to some extent in all parts of Europe, and is particularly common in Egypt. The black rat gradually disappeared from towns on the appearance of the brown Norway rat, which is much more ferocious and prolific.

The common house mouse has a body nine centimetres long—the same length as the tail—and is of a grayish brown color on the back, of a lighter shade on the sides and of an ashy color below. Mice have three to four litters a year, with six to eight young in each. This species is met with everywhere, and will make a home in the slightest shelter.

The field mouse is twelve centimetres long. Its tail is about the same length. Its coat is tawny above and white below, these two colors being distinctly separate on the sides. The feet are white and show a dark brown or tawny colored spot. The field mouse is common everywhere in the country. It burrows in the ground, attacks field crops, birds and their eggs, while it also gnaws the bark of saplings. It is just as prolific as the domestic variety.

The harvest mouse is a smaller variety (five to six centimetres). It is tawny on the back, white below and on the feet. It feeds on grain and insects and builds a nest on low branches or in bushes from interwoven hay or grass.

The field mole has a tawny coat with a gray tinge and is white below as well as on the feet. The body is ten centimetres long, and the tail five centimetres. It commits enormous ravages in cultivated plains. In the summer it burrows in the fields and in winter retreats to barns.

Although it is still doubtful whether rats may transmit hydrophobia and military fever, it is incontestable that they are guilty of transmitting the bubonic pest. From the most remote times the presence of rats during plague epidemics has attracted the attention of observers. At the present day in Yunnan bubonic plague is known as the "rat disease."

Dr. Yersin, after discovering the microbe of the bubonic pest, observed during the Hong Kong epidemic in 1894 that in the infected quarters numerous rats were lying dead on the ground and that almost all contained great numbers of the pest microbe in their organs. In 1898 Dr. Simond gave a convincing demonstration of the fact that rats transmit plague. After studying the epidemics in India in 1896, 1897 and 1898, Dr. Koch, in 1901, defined the plague as a disease of rats, in which man participated. Dr. Borrel, in 1902, made a thorough study of the propagation of plague from Eastern countries to Europe on board ship, all the ports of call being successively contaminated by pestiferous rats.

These facts have been so frequently verified that they are now definitely accepted. The rats affected by the plague are, in order of frequency, the brown, Norway rat, the black rat and the common mouse. But other rodents not belonging to the rat family may also be the cause of the plague. The pest is also rather frequent among squirrels and among the tarbagans, a species of marmots found on the shores of Lake Baikal.

Plague epidemics always originate from the same centres, situated in different parts of the world, in India, the Yemen and in Kurdistan. Yunnan is the place of origin of all the epidemics which have raged since 1894, with the exception of the last, the pulmonary plague of Manchuria, the origin of which occurred in the regions adjoining Lake Baikal, where the tarbagan has its habitat.

Cases of indirect contagion are very interesting, for these are caused by fleas as intermediaries. Fleas abound in Asia, and, though parasitic on the rat, they readily bite man and various animals. This fact was first suspected and subsequently proved by Dr. Simond in 1897. It was definitely corroborated by the British commission in India. The latter body demonstrated that a flea's stomach, with a capacity of half a cubic millimetre, may contain five thousand microbes when full of the blood of a pestiferous rat.

The British commission also showed that healthy rats when placed in a cage with rats infected with plague remained in perfect health if all the animals were rendered perfectly free from fleas. If fleas were introduced, however, they contracted the disease with a percentage of results in direct proportion to the number of insects. On placing infected rats in cages sufficiently far from other cages containing healthy rats so that the fleas could not jump across the space the healthy rats did not become infected. But if the cages were brought within a few centimetres of one another infection occurred.

Fleas may thus play a principal rôle in the transmission of the plague, while rats, beavers or squirrels may constitute reserves of the virus. Prophylactic measures for arresting the plague must therefore be directed toward destroying these two categories of animals. In exterminating the rats provision must be made for destroying the fleas, a condition which is not fulfilled by the ordinary means of poison or traps, but which is satisfactorily effected by the use of sulphurous anhydride, carbon disulphide or hydrocyanic acid.

GREAT POSSIBILITIES

L. S. AMERY DISCUSSES HUDSON BAY ROUTE.

British Journalist and M.P. Says Direct Route to Great Britain For the Wheat Lies By Way of the Northern Inland Ocean and the Difficulties Are Small Compared With the Advantages to Be Reaped By Farmer.

With the definite issue of tenders for the construction of the first section of the line from The Pas, on the Canadian Northern, the nearest railway terminus to Hudson Bay, the opening up of the Hudson Bay Route has entered the practical stage. The business world will now have to take careful stock of the possibilities of the project and judge for itself to what extent it is likely to contribute to the development of Northwestern Canada and to the expansion of inter-Imperial trade, says L. S. Amery, British M.P. in "Canada." Mr. Amery accompanied Earl Grey on his trip to the Bay in August, 1910.

The geographical advantages of the route are obvious to anyone who has once looked at a globe and realised that the Canadian Northwest is no further from England than Eastern Canada. From Liverpool to Fort Churchill, on the western shore of Hudson Bay, is only 2,946 nautical miles—nineteen miles more than the distance from Liverpool to Montreal by Cape Race, and 185 miles more than the distance to Montreal by Belle Isle Straits.

But the greater part of the prairie region is fully 1,000 miles nearer to Churchill than it is to Montreal. The route from Edmonton or Saskatoon via Winnipeg, Port Arthur and Montreal to England, which looks so direct on the ordinary flat map, really represents a detour of over 1,000 miles additional railway journey. The direct route is across by Hudson Bay and Hudson Straits.

For very nearly a century Hudson Bay was the principal gateway to the Northwest, and it was the advantage in distance and facility of transportation over both Eastern Canada and the United States that enabled the Hudson Bay Co. first of all to absorb the Northwestern Co., whose base was Montreal, and secondly to establish effective British occupation over a vast region which would otherwise inevitably have fallen into American hands.

Even before the cession of the company's territories to the Dominion in 1869 the westward extension of the American railways and the establishment of steamship services on the Great Lakes had, however, begun to counterbalance the geographical advantages of the Hudson Bay Route.

The political transfer hastened a process which was completed by the building of the Canadian Pacific Railway. The old route fell into complete disuse, and there was for a long time no practical motive for re-opening it. For many years the Canadian Pacific was more than sufficient to handle all the trade of the prairie region.

When the new era of expansion began ten years ago the natural tendency was to improve and parallel the existing line of transportation rather than to open up an entirely new route involving heavy outlay and surrounded by many doubts and difficulties. The extension of the Canadian Pacific the building of the Canadian Northern and Grand Trunk Pacific, the improvement of navigation on the Great Lakes and the St. Lawrence, and the practical consideration of the great Georgian Bay Canal project, all followed the natural course of evolution and show how trade routes, once established, tend to perpetuate themselves.

Nevertheless the expansion of the Northwest has taken place, and is taking place, at a rate which has continuously outrun the provision of transportation, and has acquired a magnitude which now justifies bold departures and big expenditures.

For years past, so The West asserts, there has been a continuous grain blockade. It has been stated that not more than 20 per cent. of the wheat crop can get shipped away from Port Arthur before Lake Superior freezes up, the rest having to wait till next spring.

Again, during the period of harvest the westward traffic is no little disorganized, and merchants complain that they have the greatest difficulty in replenishing their stores just when they are most anxious to do so to meet the farmers' autumn purchases. The demand for a new outlet to tide water has become so strong in the west that no Government could have resisted it. The route will be opened up, that is certain. The question is: WILL IT BE A FULLY PRACTICAL SOLUTION to the problem? Will any large proportion of the exports and imports of the west really make use of it?

Nor does Hudson Bay itself offer any difficulties to navigation, except occasional vagaries of the compass, caused by the proximity of the Magnetic Pole. As far as navigation within its confines is concerned, it might be utilised for traffic for seven months in the year, or possibly even all the year round with the help of ice-breakers.

The real difficulty is not in the Bay, but in Hudson Straits, which get choked up with Arctic ice from Fox Channel and Davis Straits and are not available for ordinary steamship traffic before the last ten days of July and after the first ten days or so of November. Experience may enable this period to be prolonged by a few days at the beginning and a fortnight or more at the end, but broadly speaking the total period of navigation through the Straits is not likely to exceed four months.

During that period the dangers and difficulties of navigation are, it would seem, no greater than those of the St. Lawrence route. Icebergs may be somewhat more frequent, but fogs are decidedly fewer, and it is the combination of the two that is the real danger.

The period is certainly short. But an Arctic port like Archangel has for centuries conducted a large trade within at least equally narrow limits of time.

WAS TROUBLED WITH

Headache AND Constipation.

After Suffering For Two Years Was Cured By

BURDOCK BLOOD BITTERS.

Headache of whatever nature is nearly always symptomatic of other diseased conditions, rather than a disease itself, but in most cases a disordered stomach, constipation, or bad circulation is the chief source of the difficulty. Burdock Blood Bitters removes the cause of the trouble through its cleansing, strengthening and tonic action on the stomach, liver, bowels and blood. Mr. Wm. Redmond, Cardigan Bridge, P. E. I., writes:—"I have been troubled with headache and constipation for about two years. After trying every doctor I knew, a friend advised me to try Burdock Blood Bitters. I found myself, after using one bottle, getting much better, and after using three bottles I was completely cured.

"After then I was on a visit, and found my cousin very sick, and the doctor told her there was something wrong with her head. I told her to use Burdock Blood Bitters and she was cured in a short time. I can safely recommend it to all."

HOLBROOK'S IMPORTED ABSOLUTELY!! SAUCE

Cautious Estimate.

Sandy was an elder in the church and a truly pious man. He had an eye for beauty and a love for it, but he married Tina because he knew she would make him an excellent wife.

"I suppose Tina is a handsome lass?" said Sandy's cousin, who met him in Glasgow not long after the marriage and had never seen the bride. "I ken ye've gude taste, Sandy."

"Aweel," said the bridegroom cautiously, "she's the Lord's handiwork, Tammas. I'm no' prepared to say she is his masterpiece."—Youth's Companion.

Winter Wisdom.

Daily Alice begs me,
"Teach me how to skate."
I cannot well refuse her,
So I always answer, "Wait."

Cries Alice, with impatience,
"The season's growing late!"
I quickly stay her anger
With the evasive answer "Wait."

A maiden's smiles I treasure,
But I value more my pate.
Alice weighs one hundred eighty.
Wouldn't you answer "Weight?"
—New York Sun.

For Militant Suffragettes.

Here is an advertisement copied verbatim from *Votes For Women*, a London periodical devoted to the political advancement of the gentler sex:

"Jujutsu (self defense) for suffragettes, private or class lessons daily, 10:30 to 7:30; special terms to W. S. P. U. members; Sunday class by arrangement; boxing and fencing by specialists. Edith Garrud, 9, Argyll Place, Regent Street."—Argonaut.

Maud in Midwinter.

Maud Muller on a winter's day
Helped harvest ice instead of hay.
A judge slid up on gleaming skates,
Sent there perhaps by kindly fates.

He noticed Maud. He turned to look
And instantly a tumble took.
Maud never got a second glance,
And there, of course, was no romance.
—Washington Herald.

Gathering Stones For Teeth.

Upon the rocky coast of Normandy between Havre and Dieppe are to be seen numbers of men and boys of all ages walking slowly up and down the shore and occasionally picking up a pebble and placing it carefully in sacks which they carry. When these sacks are filled they are carried to a foreman, who examines the pebbles carefully and pays the collector. The pebbles gathered are not very abundant, but the washing of the shore produces more each day, and the work goes on, while the business—for it really is quite an industry—seems to pay those engaged in it. These small stones or pebbles are shipped across the sea to the United States, where they are reduced to a fine powder, which is afterward converted into a very fine grade of porcelain, from which many of the best false teeth are made.—Exchange.

Imprisoned in the Wind.

Butterflies may be imprisoned and uninjured in the midst of a whirlwind. Gales in a genuine typhoon are so terrible that the stoutest ships can scarcely hope to weather them, but there is a spot at the very center of the storm where something like a dead calm prevails. From the outer edge of the disturbance, which may be 300 miles across, the wind velocity increases toward the center until within a few miles of that point there comes a sudden lull. There the rain ceases and the sky often clears. In this little calm area, which sailors call "the eye of the storm," a group of butterflies has frequently been imprisoned, and their dainty, delicate forms are as safe in this aerial cage as if hovering in sunny meadows, but as helpless as in a collector's bottle.

Man Mastered By His Business

When a man cannot forget his business when he lays his head on the pillow at night, it is time to consider the condition of his nervous system. Otherwise his business will wreck his future by undermining his health.

For a time he may keep going on stimulants, but if health is to be restored and old-time vigour brought back the nerve cells must be revitalized by such treatment as Dr. Chase's Nerve Food.

A few weeks' use of this great food cure will do wonders for any business man or woman whose nervous system has failed to stand the strain. Gradually and naturally the blood is enriched and vigour and energy are restored to mind and body. Appetite is sharpened, digestion improves, you sleep well and regain the strength which makes you master of yourself and of your business.

Information Wanted.

A wandering peddler stopped at a southern cabin and opened his pack.

"Mammy, let me show you some self raising umbrellas," he began.

"No use, man, no use," interrupted the old colored woman as she busied herself about a boiler of clothes. "Cayn't use nothin' lak dat."

"How about self raising window shades?"

"No good heah, kase dey ain't any windows wuff talkin' about."

"Self raising buckwheat?"

"No good to me—we eat cohn pone. But, mister"—

"Well, mammy?"

"If you'll tell me how to tuhn dese heah fohteen bad chillun into self raisin' pickaninnies, Ah'll be yo' frien' foh life, dat Ah will, sah."—Everybody's.

England's Silent Sentinels.

Around the British isles there are now more than 800 lighthouses, silent sentinels of the sea keeping watch and guard over ships that pass in the night. In the beginning of last century, or, rather, a hundred years ago, there were only twenty-five, and illumination was inferior. Now some of these have a brilliancy equal to 30,000,000 candle power, visible for a hundred miles under the proper conditions.

Force of Habit.

Employer—Haven't you got anything else to do besides calling up girls on the phone all day long? Employee—Well, you see, I was formerly a street car conductor. Employer—What has that to do with it? Employee—I got into the habit of ringing up the fair.—Philadelphia Ledger.

Strenuous Times Since.

Pa—Now, don't ask me any more questions. I don't see why your history lessons should bother you so. They didn't bother me when I was a boy. Willie—Well, there wasn't so much history made when you was a boy.—Exchange.

His Forte.

"What business would you suggest for my son? He is a young fellow of considerable address."

"Then I suggest he get a job on the city directory."—Exchange.

Reasonably Qualified.

"Is she really an expert stenographer?"

"Well, no. But she's as expert as you expect a girl of her beauty to be."—Cleveland Plain Dealer.

In every parting there is an image of death.—George Eliot.

Right and Left Handed.

A college professor has figured it out that if you are left handed it is a sign that your ancestors were not good fighters, says the Kansas City Journal.

"Most persons are right handed," says he. "Only one in every twenty is left handed. Why are people right handed? They may have been born that way, it is true, but why?

"Away back in the beginning the chief occupation of man was fighting. In battle he carried a shield in one hand and a weapon in the other. It was not much work to carry the shield, but the quick action required by the hand and arm which did the fighting soon developed that arm. It also developed the nerves and the half of the brain that governed the right side of the body. Those who shielded their left side, thus protecting the heart, were the ones who usually came out victorious. Down through the ages this selection continued, the right hand gradually becoming more proficient."

Barbers in the Orient.

In the east the barber plays a very important part in the social system. The shaving of the head is still practised among Mohammedans, just as it was by the Israelites in the days of long ago.

The first time a boy's head is shaved, usually at the age of three or four, the operation becomes quite a ceremony. Prayers from the Koran are chanted and a goat is ceremoniously slain, which seems to be rather unfortunate, from the goat's point of view. The barber of the east wears a long, smock-like garment, and round his waist he fastens a towel. Depending from waist to feet is the razor strop. When the shaving of a customer is completed, the barber, with a bow, presents him with a hand glass. No Moslem, however, will look into a glass without first invoking the name of the prophet, for fear he might look on his own features with undue admiration. As he returns the glass to the barber the piece of money in payment is placed upon it.

The Gaelic Alphabet.

Men familiar with the Gaelic tongue tell us that the alphabet of that ancient language is the most curious of all alphabets in that nearly every letter is represented by a tree. The alphabet of today comprises eighteen letters. Ancient Gaelic had seventeen. Now, as of old, all the letters with the exception of g, t and u, which stand for ivy, furze and heather, are called after trees.

The Gaelic a b c now runs: Ailm, beith, coll, dur, eagh, fearn, gath, huath, togh, luis, muin, nuin, oir, peith, ruis, suil, teine, ur, which is equivalent to saying: Elm, birch, hazel, oak, aspen, alder, ivy, whitethorn, hew, rowan or quicken, vine, ash, spindle-tree, pine, elder, willow, furze, heath. In the ancient Gaelic alphabet the letter h (the huath, or whitethorn) does not exist. The alphabet as called the beth-luis-nuin because b l n and not a b c are its first three letters.—New York Press.

Automatic revolvers firing nine shots and capable of being carried at full cock are to be furnished to London police patrolling districts in the West End, Soho and the neighborhood of the docks.

USELESS LINIMENTS

Are being fast driven off the market by the overpowering merit of Nerviline, which has more strength in one drop than is found in a quart of ordinary remedies. Full of pain-subduing properties, healing and soothing, its influence on rheumatism, sciatica, and lumbago is unsurpassed. Nerviline is without question the best household liniment made. For nearly fifty years a staple in every drug store in America.

DROP ALL OTHERS.

"I dropped all liniments but Nerviline because I found Nerviline the quickest to relieve pain," writes E. S. Benton of St. John's. "If my children are croupy or sick, Nerviline cures them. If a case of cramps or stomach-ache turns up, Nerviline is ever ready. We use Nerviline for neuralgia, rheumatism and all kinds of aches and pains; it's good as any doctor."

Use Only "Nerviline"

Good to rub on any part of the body—soothing, antiseptic, and just full of pain-relieving power. Just as good for internal pains, like cramps, toothache, dyspepsia, etc. You can't beat Nerviline as a general household panacea for the aches and pains of the whole family. Try it.

Large size bottles, at all dealers.

BRISSON IS DEAD.

Frenchman Might Have Been Next President of Republic.

Paris, April 15.—Henri Brisson, president of the Chamber of Deputies, died yesterday. He was born at Bourges, July 31, 1835.

Henri Brisson was on several occasions defeated in the election for the Presidency of the republic. In 1894 he stood second in the poll, receiving 195 votes to M. Casimir's 451. He was first elected as representative of the Seine in the assembly in 1871, having been prior to that deputy mayor of Paris. At the general elections in February, 1876, he was elected for the Tenth Arrondissement of Paris to the new chamber. He was elected vice-president three years later and was named president of the budget commission. He succeeded M. Gambetta as president of the chamber in 1881, and accepted the office of Premier on the fall of the Ferry Cabinet in 1885, but after a few months gave place to M. De Freycinet.

In the elections of 1889 he was the only Republican candidate elected in Paris on the first ballot. For many years his Republicanism was of a Spartan nature. He lived in a bare flat that the Iron Duke would have admired. He was never known to take a cab, always riding on the outside of omnibusses. He was the living embodiment in France of what has been called the Nonconformist conscience. His special mission was to preside over commissions of enquiry, especially when scandals were to be investigated with inflexible severity.

M. Brisson was re-elected president of the Chamber of Deputies in 1906 and held that office ever since. He was mentioned as a possible candidate to succeed M. Fallieres as President of the republic in 1913.

TELEGRAPHIC BRIEFS.

W. D. Killins of Southwold has been appointed fair wages inspector for Ontario.

Miss Gingras, a young woman teacher, was suffocated in a fire in a Montreal boarding house.

R. B. Bennett, M.P., of Calgary, will enter British politics, according to a report from Ottawa.

Militia orders announce that the Rideau Rifle Association of Smith's Falls, has been disbanded.

W. B. Travers is being brought from Kingston to-day to make a deposition in the case of Dr. W. Beattie Nesbitt.

A prolonged strike of the jute trade at Dundee, Scotland, affecting 20,000 workers, has been settled. A concession of 2 1-2 per cent. advance in wages has been granted the operatives.

Sir John Hare, the eminent British actor, arrived in Ottawa Saturday, on his second visit to Canada, the first as an actor in 1896, and now as judge of the Earl Grey dramatic competitions.

Contrary to expectations Niagara Falls, N.Y., council last week, adopted an ordinance closing all places of amusement on Sunday. Great pressure is being brought to bear to have the mayor veto the measure.

Be fair to old John Barleycorn.
To knock him we are prone.
He never tries to hunt us up
When we let him alone.
—Cincinnati Enquirer.

Clogs the pores of the scalp, prevents the hair from obtaining proper nourishment—causes it to fade and eventually to fall out. And besides, it's irritating and annoying to have your scalp itching and burning all the time.

If you want to get rid of the Dandruff germ—to stop the annoying itching and burning—to have a really clean and healthy scalp, get a bottle of HAY'S HAIR HEALTH to-day—prove to yourself what a satisfaction it is to have hair health.

Your money back if not satisfactory.

$1.00 and 50c at Drug Stores or direct upon receipt of price and dealers name. Send 10c for trial bottle.—Philo Hay Spec. Co., Newark, N. J.

FOR SALE AND RECOMMENDED BY McDERMID & JURY

Had Narrow Escape.

Schweitzengen, Germany, April 15.—The fourteen passengers carried by the Schuette Lanz dirigible balloon on its first flight this year had a narrow escape from death Saturday morning near here. When the dirigible ascended, with the inventor, Prof. Schuette, acting as pilot, she reached an altitude of a few hundred feet, when the vertical steering gear jammed and the airship plunged at full speed to the earth, where it buried its bows and the forward gondola in the ground.

The six inmates of this gondola, together with Prof. Schuette and a mechanic, were thrown out with great violence, but nobody except the mechanic, who had his breast crushed in, suffered any serious injury.

The dirigible with the remaining passengers then rose again rapidly into the air, but the water ballast containers had been smashed and the airship was blown helplessly to the other side of the Rhine, where a descent was eventually effected without further mishap.

The dirigible is of unique construction, its frame being a rigid one of wood, while its dimensions are about the same as those of the Zeppelin airships.

Parisian Sage

Imitations of This Great Hair Invigorator are Abroad in the Land. Look for the Girl with the Auburn Hair on Every Carton and Bottle

PARISIAN SAGE—ask for it by name when you want the real hair grower, beautifier and dandruff cure.

This is a picture of the carton in which each bottle of PARISIAN SAGE is packed. The girl in the picture has Auburn hair—bear that fact in mind.

PARISIAN SAGE will banish dandruff, stop falling hair and itching scalp, and promote a new growth of hair if the hair root is not dead. It will put radiant beauty into dull, faded, lifeless hair, and as a dainty hair dressing for women it cannot be matched.

Get a 50 cent bottle of PARISIAN SAGE to-day. If it doesn't give complete satisfaction, your money will be returned. Sold by Wm. Madill and dealers everywhere.

France For Armed Peace.

Cannes, April 15.—France's attitude in regard to future world politics was outlined by Premier Poincare in the course of an eloquent tribute which he paid at the dedication of the statue of King Edward VII., which was unveiled here yesterday.

The French Premier lauded King Edward as the maker of the triple understanding between Great Britain, France and Russia, saying that he was a laborer for the world's peace and civilization and for the progress of humanity. Speaking as to the future, M. Poincare declared that France would steadfastly adhere to the policy of peace, which King Edward had laid down in the understanding between the three countries. He continued:

"France will neither attack or provoke, but in order to be assured that she herself will be neither attacked nor provoked, she must have land and sea forces capable of commanding respect for her honor and insuring the defence of her interests. It is by own own resources of men and money, and by our naval and military power that we will primarily safeguard our rights and dignity."

This sense of security, he concluded, would be fortified by the sympathy and support of France's friends and allies.

Perth Defeats Bylaw.

Perth, April 15.—A bylaw to loan the local shoe company $25,000 for fifteen years was defeated by being 86 votes short of the required number for it. The vote stood 354 for and 141 against. Had the recent private bill been given the Lieutenant-Governor's signature, the bylaw would have carried.

Black Was Acquitted.

Toronto, April 15.—Robert Black, the mining broker with offices at Haileybury and Toronto, who was charged with misappropriating funds, has been acquitted by the judge. No evidence whatever was submitted and the judge dismissed the case.

Paid $900 to Satisfy Claims.

Belleville, April 15.—Settlement has been made by the Cordova Mines Limited, of this county, in connection with the death of Bert Easton, who was killed while in the employ of the company, and the offer of the company of $900 has been accepted.

Praise For Home Rule.

London, April 15.—The Government whip last night issued a long list of telegrams which John Redmond, leader of the Nationalist party, has received from the colonies and the United States, approving the home rule bill. They include messages from the Premiers of South Africa, the Australian and Canadian Colonial Ministers, several former Ministers Cardinal Gibbons, Sir Thomas Shaughnessy, and a host of American governors, judges, prelates, mayors and public leaders.

New Anglican Weekly.

Toronto, April 15.—A new Anglican weekly in the interests of the whole Canadian church will in all likelihood, be issued within the next few weeks. If the plans now contemplated are carried into effect, a broad, ably edited and much needed up-to-date paper is assured for the Church of England.

Baby Was Smothered.

Hamilton, April 15.—Accidentally smothered to death by its mother, the five-weeks-old infant of Martha Brodlioka was found dead in bed beside her Saturday morning. The mother, who is prostrated with grief, states that she put the baby to bed at eight o'clock and woke up several times during the night to feed it, but that when she woke up yesterday morning it was dead. The little body was taken to the morgue, but Dr. Carry stated that no inquest will be held, as all the evidence points to accidental death.

From Paris to London.

London, April 15.—Maurice Prevost flew from Paris to Eastchurch Saturday, 260 miles, in six hours, carrying a passenger. At Eastchurch, 42 miles from London, are the Royal Aero Club's flying grounds. The passenger was Lawrence Santoni.

The crossing of the English Channel occupied 25 minutes, and the whole flight was made at an altitude of over 2,000 feet.

Political Pointers.

Nobody ever thinks he hears the voice of the people calling him to the office of vice president.—Albany Journal.

American women have such persuasive ways that they have won the ballot in the five states without using English methods.—Chicago News.

A Boston minister tells men to vote as they pray. With a good many of them that would be never until they are about to die.—Cleveland Leader.

Town Topics.

It is possible to ride twenty-eight miles on a street car in Chicago for one five cent fare, but very few passengers care to do so.—Kansas City Star.

City authorities in Philadelphia are considering the advisability of establishing certain "zones of silence." This spoils the general impression that all Philadelphia is not in a zone of silence. —St. Paul Pioneer Press.

Foul Tips.

Soon will the autocratic umpire be calling players "out" who "beat the ball home by a yard."—Exchange.

Brooklyn is to have a new $1,000,000 baseball park. But hadn't it better get a team first?—Cleveland Leader.

Nearer and nearer draws that time of year when the St. Louis Browns begin the lamentable habit of "losing by one run."—St. Louis Times.

Why, Certainly!

Mrs. Citily—Bridget, who was that at the door just now?

Bridget—A leddy wantin' to know if we had furrnished rooms.

Mrs. Citily—What did you tell her?

Bridget—Sure, an' I towld her that all our rooms were furrnished. She's lookin' at the lib'ry now.—New York Mail.

An Ancient Instance.

Methuselah, just turned forty-six,
Went forth to hunt a Job,
But everywhere they told him: "Nix!
You're a year too old, you slob!"

"Too old!" he echoed, with raucous roar.
"You'd Celerize me quite?
You dubs, I'll live nine centuries more!"
And so he did—for spite.
—Chicago Tribune.

Americanized.

"How quickly our new Americans assimilate our ideas."

"How now?"

"I asked an Italian friend of mine if he wasn't going home to fight, and he tells me that he is paired with a Turk on the next block."—Washington Herald.

Placing the Blame.

[Note.—A real leap year marriage is reported. The bride popped the question and paid the parson.]

Mankind, being sad,
Dejected and sinister,
By marriage made mad,
Has ever blamed the minister,
But those who this year
Respond with a human mind
May henceforth gain cheer
By blaming all womankind.
By no means should blame
Toward this chap be tilted.
She wanted his name—
"Wilt thou?" And he wilted.
—New York Tribune.

Colds

Don't trifle with a cold; no one can tell what the end may be. Pneumonia, catarrh, chronic bronchitis and consumption invariably result from neglected colds. Nothing can be compared with

Chamberlain's Cough Remedy

as a quick cure for colds and grip, and by its use the more serious diseases may be avoided

MARKET REPORTS.

Liverpool and Chicago Wheat Futures Close Higher—Live Stock.—Latest Quotations.

CHICAGO, April 13.—A wild rush to buy wheat swept the market higher today as much as 4½c. One firm suspended. The remarkable advance was due to increased alarm about crop damage, said to equal 50,000,000 bushels. Altho violent fluctuations intervened, the close for the day was strong, at prices running from 1c to 1c above the figures current last night. All other leading staples joined in the upturn. Most gains were 1c to 1½c for corn, a shade to 1c to ½c for oats, and 7½c to 15c for provisions.

COWANSVILLE, Que., April 13.—At the meeting of the Eastern Townships Dairymen's Association, held here this afternoon, thirteen factories boarded 380 packages of butter. Seven buyers were present. Three hundred and twenty-eight packages of butter sold at 31½c. Fifty-two packages of butter unsold.

Setting It Out of Him.

"Do you know anything about the secret society your husband belongs to?"

"Do I? He gave me the grip one day by mistake, and when he comes home after a lodge meeting and goes to sleep I can nudge him and get the password and the whole initiatory ceremony out of him."—Chicago Tribune.

After Rudyard.

I saw a cow a-grazing in a meadow by a stream.
Her mouth was full of grasses, and her eyes were full of dream.
I was filled with apprehension as I watched her switching tail,
For Kipling says the female is more deadly than the male.
But the day was warm and sultry, and while gazing at the cow
With a red bandanna handkerchief I wiped my heated brow,
And—presto!—came a raging bull and drove me up a tree.
For the he-male of that species is more deadly than the she.
—Spokane Spokesman-Review.

Never Finished.

He (anxiously)—About how long darling, will it take to complete your trousseau? She—All the rest of my married life.—Life.

DAMES AND DAUGHTERS.

Miss Anna Jarvis of Philadelphia originated mothers' day. It comes on the second Sunday in May. The emblem is a carnation.

Miss Pollota Lyne, the American girl who has taken London by storm by her singing, proves that a tendency to stoutness is not the invariable fashion in prima donnas. Miss Lyne, who is twenty-one years old, weighs ninety-eight pounds and is five feet one inch in height.

Mrs. John B. Henderson, pioneer of the vegetarian dinner in the exclusive set in Washington, is giving a series of nut luncheons and vegetable luncheons complimentary to debutantes. Everything is made either of nuts or vegetables, and there are usually twelve courses.

Miss Pearl Chandler, the first woman to enter the farm management class at the University of Missouri College of Agriculture, is making a specialty of stock raising and crop production. She was born twenty years ago on a farm and owns a productive place of 130 acres, which she is fitting herself to manage scientifically.

Sporting Notes.

Miss Rose Pitonof, the sixteen-year-old girl swimmer, has signed contracts to make an attempt to swim the English channel the coming summer. Miss Pitonof claims to be the champion woman swimmer of the world.

Polo is to be added to the list of intercollegiate sports if the program of several enthusiasts at Yale, Princeton and Harvard is carried out. Efforts will be made to enroll a fourth college, possibly Columbia or Pennsylvania.

Andover's decision to abolish basketball is a serious blow to the game since the reason given is that it is too rough and does not furnish a better training sport than others which are available and which are less strenuous—swimming, for example, and track and hockey as well.

Old Earth's Poles.

Anyway, the stars and stripes float over the north pole, which is conceded to be the top of the earth.—Chicago News.

With both north and south poles attained and the verification of the fact already self evident that both are surrounded either by frozen water or barren land, the lure of the magnetic north will be reduced to its lowest terms.—Pittsburgh Dispatch.

For our part, ever since Peary discovered the north pole we have enjoyed a deep and abiding and soul satisfying conviction that a south pole existed somewhere to match it, and its discovery is no surprise to us whatever.—St. Louis Republic.

The Cookbook.

Do not soak fresh fish in water before cooking. This treatment only ruins the flavor and makes the flesh soft.

To simmer is to boil slowly. If the liquor throws up bubbles above its surface it is boiling at a gallop and will harden any meat that is cooking in it.

A souffle should never be put into a very hot oven. It crusts over on top before it has time to bake properly inside and is likely to fall as soon as it comes from the oven. Bake in a moderate temperature and not too fast.

First Village Clubwoman—What sort of a person is this new Mrs. Hart?

Second Village Clubwoman—Well, the ladies can't just make out whether she's a nobody lying high or a somebody lying low.—Lippincott's.

Constipation Bad Breath Headache

When the bowels are constipated and you have stomach trouble and headache, try Dr. Hamilton's Pills; they are so mild you can scarcely feel their action, yet so effective that the entire secretory apparatus is stimulated to healthy action.

DR. HAMILTON'S PILLS CURE QUICKLY

Thus writes Mrs. D. P. Fowler, from Yarmouth: "I used to feel drowsy and heavy, my color was shallow, and there was usually a bad taste in my mouth. I had several pains all through my limbs and all round my heart as well.

"After one dose of Dr. Hamilton's Pills there was a sudden change for better, the appetite increased, the heart palpitation and pain disappeared gradually, left me, and I felt stronger and happier after I used Dr. Hamilton's Pills, so I can recommend such a good medicine."

Dr. Hamilton's Pills may be used; they are not for those who expect to get rich quick, but are sure to bring very prompt relief. 25c. a box, or five boxes for $1.00. At dealers.

PETERBOROUGH MONDAY APRIL 15 1912

STR. "TITANIC" COLLIDES WITH AN ICEBERG PASSENGERS REPORTED SAVED BY VESSELS

Monster White Star Liner on Her Maiden Voyage From England Meets With Disaster---"Virginian," "Olympic" and "Baltic" Receive the "Save Our Ship" Signals by Wireless and Hasten to the Assistance of the Stricken Vessel--1400 Passengers and 900 Crew on Board the "Titanic."

Special Wire to The Examiner.

TORONTO, 3.30 p.m. -Gathering u all the various contradictory stories and merging them into something definite, the latest news about the ill-fated Titanic is that she is now being towed to Halifax or St. John by the Allan Line steamer Parisian and Cunard Line steamer Carpathian, and that all the passengers are safe aboard the steamers Baltic or Virginian, and that those members of the crew still aboard the Titanic, are prepared to escape to the escorting steamers at a moment's notice.

From what can be ascertained, the transfer of fifteen hundred passengers and part of the crew was carried out without loss of life, the sea being quite calm.

It is learned that part of the cargo of the Titanc was nearly a million dollars' worth of diamonds from Amsterdam cutters to the various New York houses. This being likely, quite portable, was likely removed with the passengers.

HALIFAX, APRIL 15.—A Marconigram just received here says all the passengers were taken off the sinking Titanic by 3 a.m.

NEW YORK, APRIL 15.—The last words sent by the operator told that the vessel was apparently doomed. "Sinking by the head," and that the women passengers were being rushed into lifeboats. A reassuring feature was that the weather was calm and clear, and help only a few hours away. The Titanic's first S. O. S. message as received by the Allan Liner "Virginian," which, according to position given by the Titanic's operator was not more than 170 miles away. The Titanic's accident happened in latitude 41, 46 north longitude 50, 14 west. This point is about 1,150 miles due east of New York city, and 450 miles south of Cape Race, Newfoundland wireless station. The Titanic's twin ship, Olympic, which left New York last week, was also in direct communication with the sinking boat, from a point about 300 miles away, and started at once for the scene.

In Charge of Capt. Smith.

The Titanic, which is on her maiden trip, is in charge of Capt. Smith, who was on the bridge of the big Olympic when the boat collided with the British cruiser, Hawk, last September. The Titanic carries 1,470 passengers, of whom 318 are in the first cabin, and 262 in the second cabi. There is a crew of 900. The passeger list is a notable one, including J. Bruce Ismay, managing director of the White Star Line; C. M. Hayes, President of the Grand Trunk Railway; W. T. Stead, Mr. and Mrs. John Jacob Astor, Alfred Gwynne Vanderbilt, Major Archibald But, aide to President Taft; J. G. Widener, of Philadelphia; Benjamin Guggenheim and others.

Steamship men here to-day characterized the disaster as the most startling news which has come in from the seas since the advent of the wireless telegraph. The Virginian, at midnight, was about 170 miles distant from the Titanic and expected to reach that vessel about 10 a. m to-day. The Olympic, at midnight, was in latitude 40, 32 north, and longitude 61, 13 west. She was in direct communication with the Titanic and is now making all haste towards her. The steamship Baltic reported herself as about 620 miles east of the Titanic, at 1.15 a.m., and making all possible speed towards her. The last signals from the Titanic were heard by the Virginian at 12.27 a.m. The wireless operator on the Virginian says these signals were blurred and ended abruptly.

Making Her Way to Halifax.

Montreal, Que., April 15.—The Star is out with an extra containing an unofficial despatch that the Titanic is slowly making her way to Halifax, under her own steam, her passengers havig been taken off by other vessels. There is no confirmation of this from Cape Race, where Marconi messages like this would be picked up.

Will be Heavy Loss.

London, April 15.—Lloyds say that if the Titanic is a total loss, it will mean ten million dollars at the bottom of the Atlantic. The vessel and cargo might carry seven million insurance, but the loss to underwriters and the Steamship Company would be a terrible proposition. All passengers would have to be recompensed for the loss of personal baggage, time and so on.

New York, April 15—While admitting that he has received nothing official Vice Pres. Franklin of the White Star Line, has given out this message: "No alarm for the Titanic's passengers". Many vessels, hundreds of miles from the Titanic have wirelessed in here that they heard the Titanic's "save our ship" message.

NEW YORK, N.Y., APRIL 15. — Blurred Marconigrams received here say that twenty boat loads of the Titanic's passengers have been transferred to the Canadian steamer Parisian of the Allan Line and the steamer Carpathian of the Cunard Line.

MONTREAL, Q., APRIL 15. — At noon to-day the local office of the White Star Line received a message stating that the Allan Liner Virginian and the Cunard Liner Carpathian are now on the scene of the wreck, and have taken up the passengers of the Titanic. All passengers are reported to be safe.

Flash.—The Allan Line has received a report that the Titanic has sunk.

MRS. LAURA HILL, a Seattle woman, who has invented a life-saving raft which has worked satisfactorily under the most severe tests. The raft is built on the principle of hollow tubes, lashed together with wire.

BARBERS DECIDE ON HIGHER PRICES LOCAL CONDITIONS NOT AFFECTED

TORONTO, APRIL 15.—The Toronto local of the International Barbers' Union and the Master Barbers, held a meeting at the Labour Temple Saturday afternoon. The meeting was attended by between two and three thousand journeyman barbers and a hundred proprietors of barber shops. It was held in the old gymnasium room of the Temple, which was so crowded that a number were forced to stand on the stairway leading up to the door.

H Wickett, past president, presided, L. Worthall, Toronto organizer, expressed the views of the journeymen barbers and W. Chinn spoke in the interests of the master barbers Jas. Simpson assured the barbers of the sympathy of the citizens with their early closing project.

It was pointed out that under the present system many barbers are compelled to work until nine and eleven o'clock on Saturday night, thus depriving them of all family life with the exception of Sundays which was about the only time when they were home when their children were not in bed.

After much discussion the following resolution was passed unanimously, and a committee appointed to present it to the board of control:

"This meeting unanimously endorses the eight o'clock movement and most humbly petitions the board of control and city council to enact a by-law compelling all barber shops to close at eight o'clock every night except days preceding holidays and Saturday nights, when they will close at eleven p.m."

"Ninety-nine per cent. of the Toronto barbers are now in favour of the early closing by-law," declared organizer Worthall.

Higher Wages.

The question of higher wages for the journeymen barbers was next taken up. At the present time the average runs from $12 to $1 4s week, and this is declared not to be sufficient under the present high cost of living.

It was declared that $15 a week should rule as the minimum wage.

A resolution to this effect was drawn up and passed unanimously by both the journeymen and the master barbers.

Not Affected Locally.

Mr George Brousseau, secretary of the Peterborough local of the International Barbers' Union was interviewed by the Examiner as regards the affect which the Toronto meeting would have on local conditions. He stated that the result of the Toronto meeting would have no material bearing upon local conditions. Each 'local' was presided over by its own advisory board, whose duty it was to formulate such laws and regulations as it saw fit, for the betterment of conditions pertaining to the trade. An increase in the scale was announced here a short time ago, and it is hardly probable that another such move will be made for some time at least. The eight o'clock closing of barber shops in this city is brought about by a by-law enacted by the city council and not by the union, as a great many people suppose, although it was upon the strength of a petition presentd by the union that the said by-law first found a place upon the statute book of the city.

THE POLICE CALENDAR

Charge Against Indian for Alleged Contravening of Liquor Act Respecting Indians Was Not Sustained

BROKE WINDOW IN CELL

The Magistrate looked across at Richard Cornelius' dusky countenance in the dock, and smiled.

"You look like the King of the Cannibal Islands," commented His Worship.

Cornelius did not attempt to deny the truth of the assertion. His appearance was against him. He confined his remarks to denying that he was a band Indian. He admitted that he was of Indian origin, but disclaimed association with any particular tribe; neither did he receive a stipend from the Government.

The charge against him was that of being in a state of intoxication, contrary to the criminal code respecting Indians.

The Magistrate ruled that as the defendant was not a recognized band Indian, and not a recipient of a pension from the Government, that he was free to enjoy the same privileges as if he were a white man. The charge was accordingly changed to one of being drunk in a public place. For this act he was fined $2.00 and also another dollar for breaking the semi-circular window of the cell in which he was confined.

Garnisheed Wages.

Robert Allan pleaded guilty to a charge of being drunk and disorderly in a public place. He was fined $2.00 and allowed ten days in which to pay it in. Chief of Police Thompson stated that Allan had been negligent in paying his board bill, and was now indebted to his landlady for a respectable sum of money. He was employed on the construction of the new wharf, and was in the habit of getting drunk periodically. A month's wages was due him, and this the boarding house proprietor had garnisheed.

THREE CARS OFF THE TRACK

Grand Trunk Freight Meets With Accident Three Miles East of Downer's Corners on Saturday Evening

INTERFERED WITH TRAFFIC

Whilst proceeding east at 9 o'clock on Saturday evening, three cars and the van of a Grand Trunk freight train ran off the track about two miles east of Downer's Corner.

The No. 11 from Belleville was consequently slightly delayed and its passengers had to be transferred to a train from Peterborough. The contents of one of the cars, in the form of grain, were also transhipped, as the car had fallen over. The track was soon cleared, however, and on Sunday morning the auxiliary went down and replaced the cars on the track. No damage occurred save a little to the overturned car.

PURITY OF CITY WATER

Even Spring Freshets Have Left No Signs of Contamination in Tests Made by M.H.O.

HIS REPORT FOR MARCH

Dr. McPherson's report to the Water Commissioners on the condition of the city water during March showed uniform purity. Tests taken at various intervals throughout the month gave no variation, an evidence that not only was the water pure, but it was continuously so. To the Examiner Dr. McPherson stated that the spring freshets have not had any noticeable effect upon the quality of the water. He had made recent examinations and was preparing for one this afternoon. The late tests brought out nothing that would dindicate the presence of impurities, a fact which consumers will welcome.

TO-NIGHT TO-NIGHT

"SYLVIA"

The dainty tuneful Operetta. Presented for first time in Peterborough—a success everywhere produced. You'll whistle everyone of the dozen Song Hits. Reserved Seats, 50c and 25c.

May Not Fight Extradition

Special to The Examiner.

CHICAGO, APRIL 15.—Joseph E. Rogers, Provincial Superintendent of Police for Ontario, has interviewed Dr. Beattie Nesbitt, this morning, and it is rumoured that Nesbitt will return to Canada without fighting extradition. Rogers will neither affirm or deny the report, neither will Nesbitt's lawyers.

VALUABLE HORSE WAS DESTROYED

Sustained Injuries in a Runaway Acccident on Saturday Which Resulted in Its Being Shot by a Policeman

A valuable horse, the property of Mr. M. Storey, local liveryman, was injured so badly in a runaway accident on Saturday afternoon, that it was deemed expedient to have the animal shot. The horse shied at a passing automobile, on George street and followed up this proceeding by an attempt to run away. That it partially succeeded in its endeavours, was due to the fact that the line broke, causing the driver to lose control of the frightened animal. It then started off at a merry clip and wound up by crashing into a telephone pole near the Customs House, sustaining a broken leg as a result. For some time afterward the animal maintained its equipoise upon three legs and at the same time furnished food for the idle curiosity of a large crowd. The arrival on the scene of a policeman brought order out of chaos and culminated in the horse being led into the vacant lot adjacent to the Customs House, where a bullet from the officer's revolver put an end to its misery.

The animal was one of a well-matched dappled grey team owned by Mr. Storey and for which he refused four hundred dollars two weeks ago.

Real Estate Changes Hands

Mr. George Innis, the well-known expressman has purchased the residence and livery stables at No. 207 Simcoe street, from Mr. P. J. Grady. Mr. Innis found it necessary, on account of the increase of his delivery and express business, to secure more modern and central quarters, and in his present new premises will be better equipped to attend to all orders more promptly than heretofore.

The Examiner joins in wishing Mr. Innis success in his undertaking. It is understood that the sale was consomated by the real estate firm of J. T. O'Connell & Co.

BE SURE you go to the St. George's Choral Society CONCERT at the Grand Opera House on TUESDAY, APRIL 16th, at 8 p.m. Good Programme by good Singers. Violin Solos by Dr Park. Reading by Miss Moss. Don't wait, secure your tickets at once.

"TITANIC" WAS A PALATIAL HOTEL AFLOAT PROVIDED WITH LUXURIOUS FURNISHINGS AND WITH ALL MODERN COMFORTS

Represented the Latest Idea in Ocean-going Passenger Ships ---Handsome Parlour Suites, Lounge and Reading Rooms, Palm Garden, Gymnasium, Swimming Baths, Verandah Cafes.

MISS BELLE SQUIRE, head of the "No Vote—No Tax League" of Chicago. This organization is composed mostly of women who earn their own living and object to paying taxes on personal property unless granted the franchise.

The Titanic represented the most modern idea in palatial passenger ocean liners. It had been provided with all the luxuries that are found in the big hotels of the present day. Some have termed it a floating Waldorf-Astoria. Everything that could be done for the comfort and entertainment of the passengers was provided for.

It sailed from Southampton on Wednesday, April 10th, and should have docked at New York on Tuesday, April 16th. The Titanic has Turkish and electric baths, swimming baths, a gymnasium, a squash racquet court, a clothes pressing and cleaning room, large lounge and reception rooms, library, verandah cafe and palm court, writing room, parlour suites, consisting of a sitting room, two bedrooms and private bath and lavatory. The sitting room decorations were from the periods of Louis Quatorze, Louis Seize, Adam, Regence, Georgian, Empire, Italian, Renaissance, Louis Quinze, Queen Anne, Old Dutch, Modern Dutch.

Full advantage had been taken of the enormous size and spaciousness of the vessel to excel anything hitherto attempted, both in the public rooms and private cabins; and the entrances and magnificent staircases and other features were on a scale of unrivalled magnitude and excellence.

In the first-class section of the ship alone over 32,000 square feet was given over to public apartments, not including the space given up to entrances, stairways, etc.

EXCELLED HOTELS.

The spaciousness of the private cabins is best illustrated by comparison with the modern high class apartment or hotel structure. Many of the rooms on the steamers exceeded the average hotel or apartment room, being eleven by seventeen feet. The height from floor to ceiling varied from eight feet to nine feet six inches giving unusual loftiness.

In the arrangement of private cabins experience and great care enabled the company to meet the requirements of the most exacting traveller; the many features for comfort include dressing tables, wardrobes, chests of drawers, hot and cold water supply, electric heaters (under control of passengers), etc.

String orchestra of skilled musicians was carried, and the Marconi system of wireless telegraphy and a deep sea signalling apparatus had been installed.

RETURNS ARE NEARLY COMPLETE

Vote on the Proposed Basis of Church Union Was Taken in the Methodist Churches of the City Yesterday

MAJORITY IN FAVOUR

The results of the Church Union vote, as concerns the Methodist churches of this city, will soon be to hand. The full returns are expected to be in by April 15th, but Rev. Mr. Couch of the George Street Methodist Church, stated to the Examiner, this morning, that it is altogether likely that one month's grace will be granted. There are about twenty homes in Rev. Mr. Couch's pastorate which have not been visited yet, and until such time as this takes place, the full returns will not be available. Rev. Mr. Couch states that the final returns insofar as George Street Methodist church is concerned, will show the congregation to be overwhelmingly in favour of church union.

Vote is Completed.

The work of taking the vote in St. James' and Charlotte Street Methodist churches was completed this morning. The Quarterly Board of St. James' church voted 19 for and 2 against the measure, while the congregation recorded a vote of 97 for and 12 against the proposed basis of church union. Not more than one-half of the total vote was polled.

The vote at Charlotte Street church showed a majority of 302 for church union and 6 against. In common with the other churches a large percentage of the congregation failed to vote.

At Mark Street Methodist church, East City, the work of taking the vote, however, in so far as the East to the impassable condition of the roads the returns from the outside appointments are not to hand. The vote, however, insofar as the East City appointment is concerned, shows the congregation to be overwhelmingly in favour of the proposed basis of church union.

Florence Barclay's (author of the Rosary) new book "Through The Postern Gate" for sale at Trebilcock Bros.

GERTRUDE FLEMING,

Well Known Vocalist, Will Fill a Week's Engagement Here.

Gertrude Fleming (nee Gertrude Ogden) commenced a week's engagement at the Red Mill theatre to-day. This is her second appearance in Peterborough, having appeared here some time ago, prior to her marriage to Mr. Fleming, who is an old Peterborough boy. Gertrude Fleming is a vocal artist of rare ability, and her many friends will no doubt welcome the privilege afforded by the management of the Red Mill in again presenting this talented vocalist to the citizens of Peterborough.

AUCTION SALE.

W. J. Hancock, auctioneer, will hold an auction sale of household furniture at 683 Aylmer st. on Wednesday, April 17th, at 1.30 o'clock.

SUCCESSFUL CANDIDATES AT THE NORMAL SCHOOL EXAMINATIONS

Following are the successful Peterborough Normal School candidates, who tried the recent Easter examinations:

Permanent Certificates.

Selena E. Johns, Evelyn G. Laidley, Annie McAuliffe, Henry S. MacNaughton, Mahala N. McGill, Bertha W. Monaghan, Ada M. D. Payne, Eva Parker, Irene Shea Jessie Sills, Elsie Thompson, Margaret I. Torrey, Annie M. Black, Mrs. E. R. Brown, Jennie Buck, Eliza Cornish, Zella M. Cruess Gertrude C. Donoghue, Marion B. Fraser, W. Falkner, Gertrude E. Harold, Mildred I. Handley, John C. Hawley, Catherine Heffernan, Clare Hineman, Stella Wainman, Emma Waite.

Interim Certificates.

Minnie H. Dillon, Olga M. Hoar, Lula F. Johnston, Clara M. Langford, Elsie V. McEachern, Violet M. Palmer, Vera R. Sproule, Violet B. Teevin, Jas. I. Lane.

APPLICATIONS RECEIVED FOR POSITIONS ON THE WATER WORKS

A meeting of the Water Commissioners was held on Saturday afternoon, with Mr. T. F. Matthews presiding and Messrs Hill and Moore present.

A letter was read from Mr. T. J. Lane, 234 Hunter st., saying that he had been without water from January. The acting superintendent said the service was clear from the main to the cellar, and the secretary was instructed to write Mr. Lane to that effect.

Letters were read from Wm. Kennedy, Jr., and from the John McDougall Caledonian Iron Work Co. regarding the pump made by that company.

Moved by Mr. Moore, seconded by Mr. Hill, that Mr. Kennedy be informed that after consideration the commissioners are still of the same opinion expressed in their resolution of March 12th last, a copy of which was sent to the company and to Mr. Kennedy. Carried.

A letter was read from the Wm. Hamilton Co. regarding a balance of account claimed by the company. Received.

A letter was read from W. H. Moore, enclosing an offer from Mr. F. Wise to furnish trees for the waterworks property. Moved by Mr. Hill, seconded by the chairman, that the offer of Mr. Wise to furnish 100 elm trees for $50 be accepted, and that Mr. Moore be authorized to arrange with Mr. Wise for planting the trees. Carried.

An application was read from T. Tobin for the position of foreman this season, and from W. J. Thirnbeck for the position of trench foreman. Moved by Mr. Hill, seconded by Mr. Moore, that the applications be referred to the acting superintendent to take immediate action. Carried.

REMIT LAWN RATES.

A letter from Mr. R. E. Wood for remission of lawn rate at No. 819 George st. was referred to the acting superintendent.

A letter was read from Mr. G. H. Hatton for remission of water rates at Nos. 177 and 179 Sherbrooke st. since December as the water was turned off. Referred to the acting superintendent.

A letter was read from Mr. W. H. Denham and Mr. W. H. Munro regarding a water conservation association.

Moved by Mr. Moore, seconded by Mr. Hill, that the secretary reply that the commissioners approve of the steps that have been taken, and will be pleased to co-operate in the matter. Carried.

The following accounts were ordered to be paid:

Peterborough Light and Power Co.	$ 1.25
Joseph Batten	9.25
Jones Bros.	13.80
Peterborough Hardware Co.	13.20
Harry E. Mitchell	3.00
Geo. Mitchell	6.16
R. Gibbs	6.00
Times Printing Co.	4.32
Peterborough Review	20.50
T. E. Bradburn	89.67

Moved by Mr. Hill, seconded by Mr. Moore, that the city council be requested, if they give a conveyance to the C.G.E. Co. of the part of Townsend st. west of Park st., to protect the interests of the commissioners in a water main and two hydrants on the street valued at $1,057. Carried.

Street Car Accident May Mean Suit For Damages Against City

A south-bound George street car today struck the rear end of one of the Campbell Milling Company's heavy drays, almost completely wrecking it, and causing rather serious injury to Mr. Walter Gray, Mark street, who was on the seat with the driver.

The accident occurred near the C. P. R. station where the scrapings from George street had been put up into little piles preparatory to being carted away. It is stated that not sufficient room had been left between the piles and he track for the dray which was struck on one of the end corners.

Mr. Gray was thrown from the seat, and was badly shaken up, and reported severely cut about the head. It is learned that a claim may be made by the company for damages from the city.

Peterborough Presents Possibilities Unparalleled."

MONDAY, APRIL 15, 1912

THE WONDERFUL WIRELESS.

If it had not been for the marvelous device of wireless telegraphy, there might have been immense loss of life by the sinking of the Titanic, the largest passenger steamer yet constructed, when at three o'clock this morning within a short distance of the Atlantic coast, she struck a partially submerged iceberg At once the Titanic flashed the signal of distress—"S. O. S.," "save our ship." The Virginia of the Allan Line, outward bound, got the first call and went to the rescue, and before long three or four other liners were heading, under full steam, for the doomed ship; and all the passengers were saved, and the wounded leviathan is heading for Halifax under tow of another Allan Liner. It is possible that there were enough life-boats to accommodate the passengers and insure a precarious and dear-bought safety, but it is also possible and probable that if the wireless had not been available—if the crash into the iceberg had happened before the days of the wireless and water tight compartments, every human being on board might have perished, and the world none the wiser; we should had another added to the gruesome list of mysteries and tragedies of the sea. The man, Marconi, who invented or discovered and made wireless telegraphy practicable, is a supreme benefactor of humanity, and Canada, whose government was the first to a dopt wireless telegraphy and give impulse to its universal adoption, can take a good deal of credit to herself.

CONTINUED EVASION OF DUTY.

The local Legislature practically suspended business last Saturday. The question of Bilingual schools was under the discussion and the government was asked what it proposed doing, now that it had ample information of the unsatisfactory and illegal conditions of existence of those schools. Of course the premier did not give any intimation of intention on a subject he has persistently shirked. He confined himself to announcing the government's intentions on the subject, to the cryptic utterance, "I cannot tell what a day may bring forth." The legislature, being practically over, the conclusion is that the matter is hung up indefinitely, in continuation of the policy of the whole session, and in line with the neglect of these schools for the past six or seven years. There is no excuse for the government maintaining bilingual schnools in a state of inefficiency, with resultant injury to the interests of school children, by permitting the wholesale employment of inefficient teachers. There is plenty of legislation on the statute books to regulate bilingual schools and make them effective. The fault that, as Hon. Mr. Foy says, bilingual schooles have been maintained contrary to law, and the responsibility rests with the Education Department, primarily and ultimately with the government. Dr. Merchant's report, startling as its revelations were, was only a confirmation of what the general public knew, and what the government must have known, if it heeded the reports of its inspectors of bilingual schools. Only the extremest and most purblind partisanship can extract tolerance, not to speak of satisfaction, from the Whitney government's attitude towards bilingual schools. They were a burning issue in the general elections, and Sir James Whitney stayed off responsibility by the pitiful and palpable evasion—"there is no such thing as bilingual schools," A long session of parliament has passed and nothing has been done to remedy the evils revealed in the report Sir James Whitney's own commission; and the session ends with his continued evasive attitude, "wait and see," as if the government's past trifling with so important a subject, were a thing to inspire confidence.

LLOYD GEORGE AND HOME RULE

David Lloyd George, the British Chancellor of the Exchequer, quotes an unanswerable argument when he justifies Home Rule for Ireland by the successful experience of Canada with home rule. Thanks to the enterprise of the Toronto Star, we have the following cabled summary of the Chancellor's view of the situation:

"The lesson we first learned from Canada we are applying to Ireland; that loyalty born of freedom is the truest bond of union. The guiding principle of Liberal statesmanship has ever been to make each of the daughters of the Empire mistress in her own house.—(Signed)

"DAVID LLOYD GEODGE."

If Canada had had, for the past half century, to endure political relations with the centre of the empire, such as have obtained in Ireland, would Canada have been British to-day?

COMPULSORY VACCINATION.

The vaccination act, as passed by the Ontario Legislature, requires that, when there is smallpox in a municipality, or where the local Board of Health or Provincial Board of Health holds that there is danger of smallpox, the Municipal Council shall be required to order the vaccination of everybody in the municipality, who has not been vaccinated within seven years. This may be regarded as drastic legislation, but, in spite of the objections to vaccination conscientiously held by many, there can hardly be anything worse than an epidemic of smallpox. It is recognised that effective vaccination creates immunity from smallpox; and even if at times unfortunate results follow carelessly performed vaccination, there is not the slightest difficulty in the selection of vaccination with its generally effective prophylactic influence and rare bad effects, as the less of two evils, the frightful smallpox being the other.

EDITORIAL NOTES.

The Pioneer, the organ of the temperance interests, concludes that between Rowell's "abolish the bar" and Whitney's "What'l-you-take" veto the liquor traffic has no friends.

The Toronto Telegram denounces the Ontario Department of Education as useless; yet it warbles paeans of praise for the Whitney Government as a type of perfection. Partisanship seems ot be an incurable disease.

The Conservatives in the Legislature voted solidly its "appreciation of the earnest and faithful administration of the liquor law" by the Whitney Government. Even West Peterborough was included in the partisan eulogium.

The imprisoned suffragettes of London protest against the cruelty of forcing food down their throats when they refuse to eat. That's no cruelty; it's mercy. It is the same treatment that asylum authorities are compelled to give other lunatics who will not take food.

This is an age of investigation, and if Caesar's wife were living to-day she would probably be brought "upon the carpet". Now Toronto aldermen are after the Hydro-Electric service in Toronto. Alderman McGuire, at a recent meeting, said "I believe the Hydro system is rotten with malpractices."

The Toronto Board of Trade is interesting itself in promoting the welfare of the citizens in regard to the widening of certain streets. If it is regarded as the function of the Board of Trade to look after all the interests of all the citizens, our local Board might employ itself with the complaint of East City residents regarding the new school site. There is said to be intense and general hard feeling over the alleged inaccessibility of the site chosen by the Board of Education.

DICTATORSHIP AND DISORDER.

(Toronto Star)

The debate in the Legislature on the action of the Speaker in striking a question off the order paper ought to arouse all those who have any regard for the dignity or independence of the legislative body. The question referred to Dr. Merchant's report, showing the existence of many bilingual schools, and it asked whether the Government intended to abolish them. In the course of the debate it was shown that Mr. Rowell and Mr. MacKay treated the Speaker with the utmost courtesy and fairness, laying the whole matter before him, and giving him due notice that it would be brought up in the House.

But the autocracy in the Queen's Park will be satisfied with nothing short of absolute subission and unquestioning obedience. When Mr. Rowell had finished his dignified and reasonable protest, he was at once made the object of a torrent of personal abuse. Sir James Whitney refused to accept the statement of the leader of the Opposition that no personal attack was intended on the Speaker. He referred to Mr. Rowell's speech as a "covert, unmanly, and cowardly attack on the presiding officer of the House." He said that Mr. Rowell was unable to hide the "fear, malice, and personal reflection which he desires to place upon you, sitting defenceless in that chair."

Mr. Rowell then asked if the language of the Premier was not unparliamentary. There can be no doubt in the mind of any impartial person that it was a gross violation of Parliamentary rules as well as of courtesy. But in this Legislature there is no law and no order. The Premier does and says whatever suits his whims, and his temper; and his party majority has hitherto supported him, though there are ominous rumours that it is growing restive under a dictatorship which rides roughshod over courtesy, dignity, and order, and converts the Legislature into a bear garden.

The Speaker made the extraordinary remark that "nothing had fallen from the lips of the Prime Minister that is at all comparable with the remarks that have been made by the previous speaker." This was not a ruling, but a partisan argument. There was nothing in Mr. Rowell's speech that even approached a breach of order. The whole case which Sir James Whitney sought to make against him rested upon an imputation of wrong motives. The ruling was unjust, indefensible, and injurious to the dignity and independence of the Legislature.

The Opposition is small in numbers, but it had better be understood at once that it will not be bullied out of its rights or the performance of its duty to the people. It will go on asking questions and insisting upon free discussion. The Premier says that at the next session of the House he will introduce some new rules calculated to curb the opposition. If he is eager to fight on that ground, he will get all the fighting he wants.

A good deal of progress has been made toward autocratic government in this Province, but the people of Ontario, whatever may be their politics, are lovers of freedom and order, and when they realize the situation, as they will be made to realize it, they will not sumbit to a combination of tyranny and anarchy.

LICENSE REDUCTION APPARENTLY DOES NOT DECREASE DRUNKENNESS

TORONTO, APRIL 12.—That drunkenness is steadily on the increase in Ontario despite the rapidly spreading area of "no license" districts, is the disturbing evidence given in the annual report of the license department. The record of committments during the twelve months of last year reached the highest total in the record of the department, amounting to 5,802, an increase during the year of 757.

The totals show that between the years 1891 and 1900 the number of committments for drunkenness decreased, but that since the latter there has been an uninterrupted increase. Hamilton and Toronto had the worst record. Toronto had 271 more cases than the preceding year and Hamilton 109 more. As a rule the cities compared unfavourably with the towns and villages in sobriety, but there were several exceptions, Ottawa, St. Thomas and Kingston showing fewer committments. Ottawa had 161 less cases of drunkenness than in the previous year.

There were 364 prosecutions in local option districts, 173 resulting in convictions. The provincial treasury benefitted greatly by the imposing of fines, the total collections from offenders amounting to $11,780 compared with $8,313.

The total number of prosecutions against licenses and non-licenses amounted to 1,816, the latter class contributing 1,209 with 1,062 convictions.

The Real Bone Of Contention Was Absolution Of King James II

One of the arguments against Home Rule for Ireland is that it means abadoning the men who saved the liberties of England soon after the Revolutio of 1688. Undoubtedly Protestant Ireland did then fight on the side of liberty but its enemy was not Catholic Ireland or the Pope, but James the Second. Macaulay tells us that Innocent the Eeleventh, who was Pope during the reign of James II., and until August, 1689, thoroughly disliked the whole domestic and foreign policy of James' Government. The Pope was virtually an ally of William of Orange. Another writer says of Innocent: "He acquiessed in the designs of William of Orange, even in his supplanting James II. of England, whom, although a Roman Catholic, he distrusted as the tool of Louis" (of France).

It is true that the Catholics of Ireland espoused the cause of James the Second, just as many of the Scottish Highlanders afterwards espoused the cause of the Stuart exiles. But nobody now regards the Scottish Highlanders as the perpetual enemies of liberty; and there is no reason why such a feud should be maintained with the Catholics of Ireland. The real root of the evil was neither racial nor religious. It was the desire for absolute monarchial power which caused two revolutions, made Charles the First lose his head, and James the Second lost his crown. The same notion reviving in George the Third was one of the causes of the loss of the America colonies.

The notion of absolute monarchy in Great Britain is now dead, but some of its evils survive. There was for many years estrangement and unfriendliness between Great Britain and the United States. There is still suspicion and want of friendship between the Protestants and Catholics of Ireland. It is a product of the past. The old notion was that there must be absolute dominion by men of one race and religion over the other. Hence to-day, when it is proposed to allow the majority to rule a minority imagines that its neck is to be placed under the heel of a conqueror. It does not recognize that the world has moved since 1688, that since that day democracy has made enormous progress in Great Britain, and that the strength and glory of the British Empire lies in its self-governing commonwealths, communities which were not in existence when the Battle of the Boyne was fought.—Toronto Star.

PREPARING APOSTLES OF CANADIAN FORESTRY

The Faculty of Forestry of the University of Toronto has this year forty five students in attendance, the same number as last year. Of these, six men are taking the combined Arts and Forestry course. Besides these and the regular four-year course men, there are also a number of non-matriculated students, taking special courses. Thirty-three of the students are Ontario men while three come from the United States and one from England. The standard for entrance to the faculty is again being raised for the session of 1912-3, and will correspond nearly to senior matriculation. The standard demanded on examinations will be forty per cent. on each paper and sixty per cent. on the aggregate, except in English, for which the minimum is sixty six per cent. A course of lectures by Dr. von Schrenk, on Diseases of Trees, and a course of lectures in First Aid to the Injured are new features of the curriculum. The Forestry Club is found to be a very useful and interstng adjunct to the regular class work.

The Forest School of Laval University has an attendance of forty students; of these seven are in their final year and will graduate this spring. The second-class (that of 1913) has twelve students, and the first-year class twenty-one men in attendance. Of the total of forty men, twenty seven have scholarships and work in the provincial Forest Service. The courses comprise elementary and higher mathematics up to, and including, calculus, applied mathematics (surveying, mechanics, construction of mills, road-and-trail-building, drawing and mapping), forest science (forest botany, dendrology, soils, forest zoology, silviculture, reforestation, management, lumbering, wood industries, technology, forest geography, lumber markets, statistics and law) and the elements of medicine and surgery.

The forestry department of the University of NewBrunswick also reports a successful year. One of the latest additions to its equipment is a special forestry and engineering permanent camp. hThe comprises a substantial log building, the construction of which was done By the students themselves on the tract of forest land owned by the university and situated only about three miles from the university itself.

HOMESEEKERS' AND SETTLERS' SPECIAL TRAINS TO WESTERN CANADA

Via Chicago and St. Paul, April 16th, 23rd, and 30th, and every second Tuesday thereafter, until Sept. 17th, inclusive. Tickets will also be on sale on certain dates via Sarnia and Northern Navigation Company. Special train will leave Toronto 10.30 p.m. on above dates for Edmonton, and points in Manitoba and Saskatchewa, stopping at all points on the Grand Trunk Pacific Railway west of Winnipeg. Through coaches and Pullman Tourist Sleepers will be carried, fully equipped with bedding and porter in charge. Berths may be secured in sleepers at a low rate. This is an exceptional opportunity for those wishing to take advantage of the remarkably low one-way settlers' rates or round trip Homeseekers' excursions through the American cities. No change of cars. Secure tickets and berth reservations from any Grand Trunk Agent, or write A. E. Duff, District Passenger Agent, Union Station, Toronto. d-w-tf

DEATHS.

BUTCHER. — In Peterborough, on Sunday, April 13, 1912, Chas. Butcher, aged thirty-nine years.

The funeral took place this (Monday) afternoon at 4 o'clock, from the family residence, No. 536 Stewart street, to Little Lake cemetery.

TIRED-OUT KIDNEYS

Kidney troubles are so frightfully common because the kidneys are so easily upset by overwork or excesses of eating and drinking. Cure is effected not by whipping them on to renewed effort, but by awakening the action of liver and bowels by the use of Dr. Chase's Kidney-Liver Pills. This rests the kidneys and makes them well. Backache and urinary disorders then disappear.

Presentations Were Made

Mr. Spence Receives Pipe and Umbrella From His Associates of the Examiner

Mr. Claude A. G. Spence, who entered upon his duties as City Sanitary Inspector this morning, was the recipient of several presentations at the Examiner on Saturday. For the past two years Mr. Spence has held the position of proof-reader at the Examiner and has been most popular with those with whom he has been associated. On Saturday the members of the news room forces presented him with a handsome pipe, while the editorial and business staffs gave him an umbrella as a parting gift. Suitable addresses accompanied the presentations in each case.

IN THE WORLD OF SPORT

STILL MORE TWILERS FOR PETERBOROUGH BALL CLUB

A LEFT-HANDER IN SIGHT

Bryan Nork, the Dickinson College pitcher, has signed a Peterborough contract. Manager Templin announced some time ago that he had accepted terms with the Collegian, but the latter failed to sign up until a day or two ago. Secretary Davidson received his contract this morning. Nork is captain of the College team for whom he has pitched for three years, and he has a number of fine performances to his credit, including the holding of Princeton down to four hits a short time ago. Chief Bender, of the Athletics, is a graduate from the Dickinson team.

Although he now has seven twilers signed and states that he has the best staff in President Fitzgerald's circuit to pick from, Manager Templin is going right on grabbing box artists. He is on the trail of a left-handed twirler now with the Haverhill team of the New England League, and expects to land him in a day or two. He is also negotiating with a pitcher from the Atlantic City team. If this pair is secured, Templin will have nine hewers to select his gunners from. It will be some task to weed them out, as there is not a bad pitcher in the lot.

All Templin is worrying about is the weather. It has been warm and summer-like at Reading, and most of his squad are now in shape. He is afraid that if the weather is cold when the players will come north it will throw them back some. However, if to-day's brand continues there will be no trouble.

SATURDAY'S SOCCER RESULTS IN THE OLD COUNTRY

International.—Wales 2; Ireland, 3.

English League, Division 1.—Bolton Wanderers 3, Notts County 0; Bradford City 2, Middlesbrough 1; Everton 1, Blackburn Rovers 3; Manchester City 1, Sheffield Wednesday 3; Newcastle United 1, Liverpool 1; Oldham Athletic 2, Tottenham Hotspurs 1; Preston N.E. 4, Aston Villa 1; Sheffield United 0, Manchester United 1; West Bromwich Albion 1, Sunderland 0; Woolwich Arsenal 1, Bury 0.

English League, Division II.—Birmingham 1, Huddersfield 0; Bristol City 2, Blackpool 0; Chelsea 1, Hull City 0; Clapton Orient 2, Glossop 1; Grimsboro 0, Fulham 1; Leicester F. 0, Derby County 1; Wolverhampton W. 4, Stockport County 0.

Southern League.—Brighton and Hove 2, West Ham United 0; Stoke 6, Millwall A. 0; Coventry C. 0, Queen's Park R. 0; Leyton 1, Brentford 1; Norwich City 1, Exeter City 1; Crystal Palace 1, New Brompton 1; Southampton 2, Watford 1; Plymouth A. 4, Reading 0; Northampton 5, Bristol Rovers 0; Luton 1, Swindon Town 3.

Scottish League.—Celtic 2, Kilmarnock 0; Clyde 1, Hearts 2; Queen's Park 2, St. Mirren 0; Morton 1, Airdrieonians 0; Motherwell 2, Aberdeen 0; Falkirk 0, Raith Rovers 3.

NEWS FROM THE LEAGUE CIRCUIT

Two weeks more and the Peterborough nine will be here in training for the opening of the season. Manager Templin leaves for Peterborough a week to-day.

A letter received by one of the executive of the Peterborough ball club from Manager Templin, indicates that Old Ilks is delighted with his latest acquisition, First baseman Dolan, of Wilmington, who is expected to be one of the stars of the League.

The Guelph team are going to try out Pitcher Rowe of Barrie.

The Canadian League managers are as follows:
Ottawa—Louie Cook.
Hamilton—Knotty Lee.
Guelph—Tom Needham.
Brantford—Ambrose Kane.
London—Rube Deneau.
Peterborough—Carlos H. Templin.
St. Thomas—Probably Ed. Sievert, the former Detroit pitcher.

It is likely that there will be extensive improvements made to the diamond at Riverside Park as soon as Manager Templin gets here. The diamond will in all probability be "skinned," the pitcher's box elevated and other needed alterations made. Templin has considerable experience at this kind of work and will superintend the change himself.

The executive of the ball club will meet early this week to decide on a name for the team and to appoint a travelling secretary. A large number of applications have been received for this position. The details in regard to the new grand stand will also be arranged at this meeting.

All the snow is gone from Riverside Park, and a few days of warm, bright weather will dry up the grounds and put them in shape for use by the time the team reaches here. There will be morning and afternoon practises each day for two weeks before the season opens.

OTTAWA, APRIL 25. — Through some very judicious dickering a big right-handed pitcher is in line for the Ottawa club and will come with Hughy Jennings' O.K. label attached. He is intelligent and has lots of stuff, and is at present working out on the Central League circuit. His name cannot be announced till he has received full clearnce from the club which he is now under reservation. Two new infielders are also under operation and one left-handed pitcher.

Outside the above players and the men Cook is after, the Ottawa Club will make no effort to hook up with any other performers. With the big leagues and class A organizations well under way by the time the Canadian league starts business, there will been yriads of good men running loose and willing to sign up anywhere Just now these same men who happen to be free agents want class AA contracts.

Ottawa Free Press: The pennant fight in the Canadian league will be a hard one this season. Ottawa is claiming no title rags, but admits she will stick a chain-lightning team on the diamond and the clubs that can run in front of the maroon sox will be real ball teams. Berlin, Peterborough, London, and Hamilton will all have high-class aggregations, and Guelph, with Manager Needham, an experienced ball-player, at their head, will be in the race at all stages Just how Brantford and St. Thomas will pan out remains to be seen.

(Hamilton Spectator.)

Manager Knotty Lee, after a very busy week, left for his home in Toronto the other day, it being his intention to return on Tuesday. Knotty stated before he left that he had added one more player to his string in Jack Martin, a speedy infielder, recommended to him by Tommy Clarke, the Cincinnati catcher, while he had also heard from Joe Keenan, the latter having signified his intention of accepting the terms offered to him by the Hamilton club. Keenan was angling for the managership of the Calgary club in the Western Canada league, but has decided to toss this up and join the Kolts. His acquisition will prove a very popular move as the little fellow has many friends in Hamilton, who respect him for his baseball ability.

Just what role Jo Jo will occupy is difficult to say. If the infield does not measure up to expectations he will be found on the third sack, otherwise it is likely that he will be played in the outfield. With Lee, Keenan and Hess representing the "veterans' society" in the club, the team will be completed with youngsters, it being the opinion that the three old fellows will prove just the needed quantity in keeping the kids to their knitting.

With Frank Bowerman handling the managerial reins in London and Eddie Siever, the ex-Detroit twirler, boss of the club in St. Thomas, the Canadian League would contain a couple of big leaguers who would certainly add considerably to the drawing powers of the two clubs named. Siever stands a good chance of landing the St. Thomas berth and there is no doubt that he would prove a good man.

President Fitzgerald has announced that his league umpires have been instructed to report in Hamilton on May 12, when they will receive final instructions. President Fitzgerald is well satisfied with his umpires and expects them to prove capable in every way.

(Hamilton Spectator.)

The call has gone forth and the 30 odd players comprising the training squad of the Hamilton baseball team have been notified to report in Hamilton on April 24, which is just nine days away. Practically the entire squad isexpected to obey instructions and Saturday, April 27, on which date the first exhibition game is booked for, will see the majority of the players in line. It is the intention to put on six exhibition games, three Saturday games and three other games before the season opens, in addition to two Sunday games in Niagara Falls with the Niagara University nine and the Stars and Stripes and with the players reporting at such an early date there is no reason why the Kolts should not start the season in the best condition of any club in the circuit.

BASEBALL SATURDAY.

National League.

	Won.	Lost.	P.C.
Cincinnati	3	0	1.000
St. Louis	3	0	1.000

Games Monday: Washington at New York, Boston at Philadelphia, Detroit at Chicago, St. Louis at Cleveland.

SHOULD HOLD A SPECIAL MEETING

A special meeting should be held by the council men of Peterborough, as there is some talk of buildings to go up on the corner of Downie and Simcoe streets, and that might spoil the looks of our honourable Alderman Dufus' property, as we don't know what kind of buildings will be put there. This has to be looked into and stopped at once. For what other purpose are we here, if not to look after our own interests. If our honourable Alderman Duffus would get there with some true statements, instead of picking up all kinds of rubbish of nonsense talk and goat stories he woul dnot waste a lot of valuable time of the Council.

Yours truly,
A Jewish Builder.

THE AXE FALLS THREE MORE

Special to The Examiner.

LONDON, APRIL 15.—Mark Hitchcock and Patrick Murphy, in charge of the government fish hatcheries at Point Edward, have received notice from Ottawa, stating that their services will be no longer required after May 1.

EXAMINED THE HUNTER ST. BRIDGE

A government engineer was in the city to-day examining the Hunter st. bridge and the land on each side of the river at that point. To Mayor Bradburn he stated that an overhead bridge was the only thing for that locality. His visit may be an augury of government assistance and is another evidence that Mayor Bradburn has not forgotten his pet idea of a modern bridge at this point.

There is nothing definite to be gathered from the engineer's visit, his report being made out to the department of railways and canals.

Shiloh's Cure
quickly stops coughs, cures colds, heal the throat and lungs. . . . 25 cents

DAMES AND DAUGHTERS.

Miss Mary Arline Zurborst is principal of the National School of Domestic Arts and Sciences at Washington.

Mrs. Bird D. Shelton has been appointed manager of the United States postal savings bank at Los Angeles, Cal.

Miss Evelyn Mitchell, one of the scientists associated with the Smithsonian institution, is studying the mosquito.

Miss Elizabeth Cuthet, eighty years old, believes she's the oldest of Chicago's surviving "old settlers." She got there in 1835, being then a baby in arms, and has been there ever since.

Mrs. Champ Clark, wife of the speaker of the house, is one of the most powerful political figures in the capital. She is a deep student of history and current events and occasionally helps her husband to write a speech.

Mme. Louisa Tetrazzini, the grand opera star, is worrying because she is getting stouter and stouter. She says the fat is not affecting her voice, but if it continues she will not be able to cavort around the stage as she has heretofore.

The Writers.

Demetra Vaka, the author, is a Greek by birth, but was reared in Turkey. She is now the wife of Kenneth Brown, an American writer.

Anna Katharine Green, the novelist, inherits her interest in crime. Her father, James W. Green, was a well known criminal lawyer in Brooklyn.

Clark Russell, the famous nautical novelist, who died on Nov. 8, was born in New York sixty-seven years ago, but had long made his home in England.

H. Rider Haggard, whose novel "She" appeared nearly twenty-five years ago, is still writing. He was lieutenant and adjutant of the Pretoria horse, 1879. Two years before, with Colonel Brooke, R. E., he formally hoisted the British flag over the South African republic at Pretoria on the queen's birthday.

Short Stories.

The Dutch keep up their reputation for cleanliness. Holland has a hundred soap factories, which make nearly 10,000,000 pounds of soap every year.

A noted German doctor declares that elevators in high buildings are a potent cause of heart disease and seriously affect mortality of American business men.

The capitol in Washington is 118 years old. The cornerstone was laid in September, 1793. But, old as the building is, it is not yet finished and probably never will be.

The "calina" of Spain is a fog we may be grateful that we do not have. It is a dry, yellow mist which sometimes hides the sun for days at a time over vast tracts of country and makes the sky look as though covered with leaden gauze.

Intending Purchasers of
BICYCLES
should examine our

SIRES AND SONS.

Kubelik, the famous violinist, gave 220 concerts last year, at an average fee of $1,200, making his year's income nearly $265,000.

Maurice Burke-Roche, grandson of the late Frank Work and heir to a large fortune, is working as a clerk for the Lackawanna railroad.

Caradoc Roberts, on whom Oxford recently conferred the degree of doctor of music for an oratorio, worked at a carpenter's bench only a few years ago.

Andrew Bonar Law, retired Glasgow iron merchant and leader of the Unionist party in England, is socially unknown, owns no land and is simply a business man. He is the son of a simple Scottish pastor, is without university education and is a nonconformist.

William P. Fowler, for eleven years head of the institutions registrations department of Boston, who has just resigned, has regularly turned back his salary of $3,000 a year into the city treasury for that length of time. He is wealthy and does not need the salary and, besides, declares the bulk of the work is done by clerks.

Dr. Philander Priestly Claxton, the new United States commissioner of education, graduated from the University of Tennessee at the age of nineteen, managing to borrow sufficient money to enable him to keep in school without loss of time. He meant to be a lawyer, but teaching obtained such a hold on him that he devoted himself to the work.

The Writers.

Frank G. Carpenter, the travel writer man, has purchased a home in Washington for $30,000.

Maurice Maeterlinck has been forced to give up the use of tobacco, which he formerly used in prodigious quantities, while writing, but he sticks to his pipe, filled with a denicotinized preparation.

Mary Roberts Rinehart, although she has an elegantly furnished library in her home, does very little of her writing there. She had a study in one of Pittsburgh's largest office buildings, where she spends a certain number of working hours each day. When at home her attention is bestowed entirely upon her husband and three sons.

Flippant Flings.

Edison's proposed cement furniture won't be any softer to stumble over in the dark.—Philadelphia Record.

The man who opposes the revival of the knee breeches idea will be subject to suspicion, no matter how impersonal his motives.—Atlanta Journal.

A nineteen-year-old boy asked a New York court to make his bride of twenty-five his guardian. To the looker-on this is needless formality.—Baltimore Sun.

A London scientist proclaims that shock has been known to alter the color of the eyes. Usually, we have observed, it makes them black.—St. Paul Dispatch.

Electric Sparks.

It is probable that a telephone service between England and Switzerland will soon be established.

A storage battery illuminated electric sign has been invented to be worn on the arm of a person selling refreshments in theaters or other public places, to save the labor of crying his wares.

An oscillatory electric spark has been found by C. Caudrelier to be made up of about 10,000 individual sparks per second. An air current separated the sparks one-half inch, and this and the velocity of the air gave a means of estimating the number.

Pert Personals.

Besides, Dr. Mary Walker is the twenty greatest women.—Baltimore Sun.

P. A. B. Widener bids fair to be as successful in collecting Rembrandts as street railways.—New York World.

J. Pierpont Morgan has established his private office on the thirtieth floor, thereby rendering it all the harder to reach the man higher up.—Milwaukee Sentinel.

It is reported that Kipling can get $1 a word for every word he writes. If that is the case he ought to be publicly thanked for the restraint he exhibits.—Chicago Record-Herald.

German Gleanings.

An average good potato crop in Germany totals about 50,000,000 tons.

There is much unhappiness in Germany because the excessive heat of last summer resulted in a short crop of cabbage and consequently of sauerkraut.

Before electric motors are permitted to be used in German coal mines they are exhaustively tested in various gases to show that they will not cause explosions.

State Lines.

One hundred years is the estimated life of the oil and gas fields of Oklahoma.

The petroleum area of Pennsylvania covers 2,000 square miles, and the gas area is 2,730 square miles, in which she excels all other states.

New York shows the greatest water power development of any of the states, due in a great measure to the harnessing of Niagara. The state has 6,513 wheels, generating 695,962 horsepower.

Have You Inspected The

New Spring Wash Goods

At Our Store?

If you haven't we take the liberty of urging you to come to-morrow while the display is on at its height.

We state without fear of reasonable contradiction that our present showing is by all odds the greatest in every way, ever shown in Peterboro. Styles are lovelier, varieties are broader, qualities are better and prices are more moderate than you have ever found in any wash goods display held in this section.

Fancy zephyrs, fresh new gingham, striped and bordered violes, marquisettes, fancy muslins—why, even the names have a tempting delicious sound! Surely you'll not be able to resist the appeal of this magnificent showing of theSpring wash fabrics,

See Window Display To-night

RICHARD HALL & SON LIMITED

FUTURE CITIZENS

(By Adeline O. Roberts.)

More than 60 years have gone by since Elizabeth Barrett Browning wrote "The Cry of the Children," perhaps one of the first public protests against "child labour." Since then much has been written and spoken on the same subject, and much has been done to mitigate the evil, and yet it still exists, nay, even flourishes, and its total abolition seems very far away. The children of to-day are the citizens of to-morrow. Can any self-respecting community afford to let its future citizens grow up degenerate weaklings, illiterates, or criminals? Yet, it is being done in civilized countries, at the present time, in a period which has been called "The Age of the Child."

Parents are driven, by poverty, to utilize the wage-earning capacities of every member of the family, in order to obtain the barest necessities of life. Women workers are cheap, but children cheaper, and employers, unhampered by efficient child labour laws, or laws enforcing equal pay for equal work, are urged by competition to reduce their pay-roll by all available means. So the lives, health and morals of little children are sacrificed to enrich capitalists, and to encourage bargain-hunters.

Childhood is intended for growth and development, not for work and toil, and should be given every chance to develp mentally, morally, and physically. A continuous indoor life, lack of play, over-crowding, neglected education, result in impaired health, deformity, corrupted morals and ignorance. Children whose days are spent in grinding toil become dulled in mind, slanted in body, many die prematurely and those who attain maturity become parents of degenerate children. Well might Ruskin say of manufacturing cities, "We manufacture everything there except men."

Mr. Robert Hunter, in his book, "Poverty," states than 17,000,000 little children in the United States are wage-earners when they ought to be in school. The U. S. Labour Bureau is publishing reports on "child labour" which are bringing to light startling and unsuspected conditions. From them we learn that thousands of children, from 4 years old and upwards, are kept at work in their tenement homes after school hours, at night, and on Sundays; others are illegally kept from school to work, and others only attend school on half time This is in the United States, but how far do similar conditions exist in Canada? Being a younger country, conditions are better, but, to quote Mr. J. S. Woodsworth, "The same economic laws are at work here as in other countries, and unless checkmated will inevitably produce similar results."

In a recent investigation in Winnipeg, it is shown that from 26,705 to 40,707 children of school age are not attending any school. A Winnipeg Public school principal states that many children leave school before they are physically or educationally fit, to go to work in factories, stores, breweries, etc., to to keep house while their parents are out working.

In the United States, employment of child labour in factories was prevalent more than 100 years ago. In 1789 Samuel States, called "the father of American manufacture," employed only children in his cotton mill, and an account describes all his operatives as between 7 and 12 years of age. When society at last began to awaken to the realization of the extent of "child labour," and to its evil consequences, laws were formulated, both factory laws and compulsory school laws. The latter failed, (and still fail) however, to reach home industries, and when the tired little ones returned from school, they were forced into a variety of work. The work done in the tenements is chiefly 'finishing' on ready-made garments, and it is not confined to cheap-grade clothing only. This work, often lasting from 6 a.m. to 10 or 11 p.m., utilizes the combined labour of a whole family, and seldom brings in more than 70 cents a day. Very small children are kept pulling out bastings, sorting and sewing buttons on cards, separating flower petals, or willowing plumes. Artificial flower and embroidery making are also largely carried on in tenements, employers thus saving the cost of extra room rent and other expenses. Tiny children of 4 can cut embroideries and an instance is given of one small child on being asked how long she had been doing it replied wearily: "Oh, ever since I was." The united labour of 1 woman and 5 children earned $4.50 a week at this work.

Work in the cameries is exempt from the protection of the labour law, on the ground that it is not injurious, but in speed, long hours, and intensity of application it is as exhausting as any other form of factory work. In the bean season the work lasts from 4 a.m. to midnight and children may legally be kept shelling peas, or snipping beans, as long as they can be kept awake. An investigator reports finding a tiny child of 5 asleep on a shed floor at midnight with its hands full of the beans on which it had been working. Such stories can be multiplied an hundred fold.

The labour law of the United States contains no restrictions as to hours of employment of children in tenements, and the only law which reaches the home working child is the compulsory education law, which controls school hours only, and may easily be avoided by parents keeping their children away intermittently.

Some say that certain industries cannot be carried on without the aid of children. A total prohibition of child labour would favour invention and use of labour-saving devices. Adequate laws prohibiting child labour, and providing for compulsory education should be enacted in every province in Canada and means taken to have them properly enforced.

No fledgling feeds the father bird!
No chicken feeds the hen!
No kitten mouses for the cat—
This glory is for men.

We are the wisest, strongest race—
Loud may our praise be sung!—
The only animal alive
That lives upon its young!

We makes the poverty that takes
The lives of babies so.
We can awake! rebuild! remake!—
And let our children grow.
—Charlotte Perkins Gilman.

The United States Congress, which appropriates $3,000,000 to promote the health of pigs and other animals, has at last appropriated the meagre sum of $30,000 for a Children's Bureau, to investigate questions bearing on the welfare of children. This is the result of seven years of "indirect influence" by public-spirited women. Seven years!—to persuade me that the welfare of the future citizens of their country is a vital problem which must be solved. If the power to deal with such problems were shared equally by the women of the country, and not left wholly in men's hands, would a seven years' agitation have been necessary?

It is universally acknowledged that women are more competent to deal with children and their concerns than men are; yet, when women see that special or better legislation in the interests of children is needed, they have no means of obtaining it other than by using their "indirect influence" in the difficult and often hopeless task of persuading a sufficient number of men (who alone possess "direct influence") to see things from the woman's point of view, that of humanity and race preservation, instead of from the man's point of view, that of business interests, and money profit..

In the 7th century B.C., heathen nations sacrificed children to the idol, Moloch, and in the 20th century A.D. missionaries tell us pathetic stories of children in heathen lands being sacrified to propitiate heathen deities, and we complacently thank Heaven that we live in a more enlightened age, in a Christian country. And yet, in Christian lands in this much-lauded "Age of the Child," in these days of Child Welfare Exhibits, and of numerous charitable organizations in the interests of children, the barbarous and inhuman practice of multiplying the profits of a nation by robbing little children of their birthright, still goes merrily on. Thus far has our boasted "civilization" advanced! Is it any wonder that women all over the world are rising to criticise such a civilization?

Only when the women of the state are admitted to political equality with men, so that the mothers, teachers and other women interested in children may help in the enactment and enforcement of the laws, will adequate laws in the best interests of women and children be enacted and effectually enforced.

Toronto, April 14th?

THE CITY OF THE CHILDREN

(By Elizabeth Barret Browning, 1806-1861.)

Do ye hear the children weeping, O my brothers,
'Ere the sorrow comes with years?
They are leaning their young heads against their mothers,
And that cannot stop their tears.
The young lambs are bleating in the meadows,
The young birds are chirping in the nest,
The young fawns are playing with the shadows,
The young flowers are blowing toward the west.
But the young children, O my brothers,
They are weeping bitterly!
They are weeping in the playtime of the others,
In the country of the free.

"For oh," say the children, "we are weary,
And we cannot run or leap;
If we cared for any meadows, it were merely
To drop down in them and sleep,
Our knees tremble sorely in the stooping,
We fall upon our faces, trying to go;
And, underneath our heavy eyelids drooping,
The reddest flower would look as pale as snow.
For, all day, we drag our burden tiring
Through the coal-dark, underground;
Or, all days we drive the wheels of iron
In the factories, round and round.

And well may the children weep before you!
They are weary 'ere they run;
They have never seen the sunshine, nor the glory
Which is brighter than the sun.
They know the grief of man, without its wisdom;
They sink in man's despair, without its calm;
Are slaves, without the liberty in Christdom,
Are martyrs, by the pang without the palm;
Are worn as if with age, yet unretrievingly
The harvest of its memories cannot reap,—
Are orphans of the earthly love and heavenly.
Let them weep! let them weep!

They look up with their pale and sunken faces,
And their look is dread to see,
For they mind you of their angels in high places,
With eyes turned on Deity.
"How long," they say, "how long, O cruel nation,
Will you stand, to move the world, on a child's heart,—
Stifle down with a mailed heel its palpitation,
And tread onward to your throne amid the mart?
Our blood splashes upward, oh, gold-heaper,
And your purple shows your path!
But the child's sob in the silence curses deeper
Than the strong man in his wrath."

Babies Have Itching Eczema

Itching, almost constant and wellnigh unbearable itching, is the marked symptom of eczema. The direct cause is usually friction or irritation of the skin. In babies the trouble often arises from infrequent changing of napkins.

Until you have used Dr. Chase's Ointment in a case of eczema you can scarcely realize the relief which this treatment affords. Gradually the sores are cleaned up and healed, and a new smooth skin replaces that which has been irritated and diseased.

By keeping Dr. Chase's Ointment at hand, along with the bath soap and using it whenever chafing or irritation appears you can keep baby's skin in perfect condition, save him much suffering and yourself much anxiety.

TO COMMENCE SHORTLY

Work on the new wing of the Peterborough Club will commence shortly. The extension, which will be in the south of the present property on Water street, will take the form of a two-storey building, and will be about twenty feet wide. The new addition will be modern and up to date in every respect, and as a member of the Club expressed himself to the Examiner this morning, "it will very materially add to the furtherance of the Club's progress." It is understood that a well-known local contractor has been assigned the task of supervising the work, which will be done by day labour.

PILES CURED IN 6 TO 14 DAYS

Your druggist will refund money if PAZO OINTMENT fails to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days, 50c.

The three routes planned by the United States Army for the invasion of Mexico, should the Washington Government deem intervention expedient.

THE APPOINTMENT OF JUDGE HAGGART

Winnipeg Telegram's Reference to Old Peterborough Boy Who Has Been Honoured

Concerning the appointment of Mr. Alex. Haggart, ex-M.P., formerly of Peterborough, to the Court of Appeal of Manitoba, the Winnipeg Telegram has the following to say of Mr. Haggart, who is an uncle of Mrs. Alex. Gibson, George st.:

The Court of Appeal is the highest court in the province, being presided over by Chief Justice Howell. Mr. Haggart will fill the additional judgeship created by the provincial legislature, owing to the great pressure of legal business. The court, as constituted at present, consists of Chief Justice Howell and Judges Richards, Perdue, Cameron and Haggart.

Mr. Haggart, who has just been made a Justice of the Court of Appeal of Manitoba, is one of the best known and most popular men in Winnipeg.

He was born in Peterborough, Ontario, in 1848, so that he is now 64 years old. He has served Winnipeg both as a school trustee and an alderman. In 1908, he was selected as Conservative candidate in the Dominion election, and the general esteem and confidence in which the citizens held him had no little to do with the great victory he scored against an influential and popular candidate, our present lieutenant-governor. In Parliament he was unobtrusive, but indefatigable. His advice was more often asked than his voice was heard.

On September 21, of the present year, Winnipeg re-elected him by a stupendous mapority. He quickly resigned to give his seat to Hon. Robert Rogers, whom Mr. Borden desired to include in his cabinet.

Mr. Haggart's tastes were more legal than political, and, in entering politics, he had made heavy sacrifices in purse, convenience and personal feelings. Mr. Haggart has always been known as a sound and able lawyer, loyal to the highest ideals of his profession, and he cannot fail to be an ornament to the highest court in the Province.

STREET RAILWAY WORK BEGUN

Construction of "Y" for Use of New Cars

Work was begun to-day on the construction of a "Y" at the north end of the George street, street railway line. With its completion, the line will be ready for the pay-as-you-enter cars, which are ready for service. The "Y" is an arrangement of track by which the cars can turn around, and is necessary with the new style of cars. This is an evidence of the company's desire to improve the line and make the whole system as modern as possible.

BOUGHT RAPID TOOL CO. PLANT

The property and plant of the Rapid Tool Company was bought in public auction to-day by Mr. D. J. Lupdy for the sum of $4,300. It was learned that the city's interest, which, in the form of a bonus amounting to $1,200, is fully protected.

PASTOR SUICIDES

Special Wire to The Examiner.

LONDON, APRIL 15.— Rev. John Gunn, for many years pastor of the Anglican church at Wyoning, Ont., committed suicide this morning by shooting himself through the head with a double-barrelled shot gun. Worrying over ill health is supposed to have caused a temporary mental derangement.

NOTICE TO WATER CONSUMERS

Water rates for the current quarter are now due and must be paid at the City Treasurer's Office, 131 Simcoe Street, on or before the 15th day of April, to save the discount. Discount will not be allowed after the 15th inst.

By order. F. ADAMS,
3d-87 **Waterworks Collector**

LAID TO REST

The body of the late Mrs. A. D. Thomson (nee Helen Ostrom), who died at Gulfport, Miss., on Thursday last, were brought to this city, arriving a noon. The funeral took place from the Ostrom family residence, and interment in the Little Lake cemetery, the mother's body resting alongside the remains of a young daughter, who died during Mrs. Thomson's residence in Peterborough. The funeral was private, and the religious services at the house were conducted by Rev. J. G. Potter of Montreal, assisted by Rev. W. G. Henderson, of Charlotte street Methodist church.

The pall bearers were Messrs. Robt. Fair, Harry Rush, Thomas Barrie, Robert Neil, Hon. J. R. Stratton and Dr. Morrison.

Dr. de Van's Female Pills

A reliable French regulator; never fails. These pills are exceedingly powerful in regulating the generative portion of the female system. Refuse all cheap imitations. Dr. de Van's are sold at $5 a box, or three for $10. Mailed to any address by the Scobell Drug Co., St. Catharines, Ont.

Sold by the Warne Drug Co., Ltd.

WHY IS THE WHARF FALLING TO PIECES?

To the Editor of the Examiner:

Dear Sir,—I understand that Peterborough's new wharf at Spalding's Bay is beginning to fall to pieces, is becoming lob-sided, with a likelihood of the water undermining the foundations. Who is responible for this? Is it the fault of the cement used in construction? If its holding power is anything like the oil and water bond of adhesion between the members of the government that built the wharf, then it is no wonder that Peterborough is likely to be deprived of the use of a wharf for some time to come.

The wharf was not commenced during the previous government's time, for the reason that no plans or specifications had been prepared, but so anxious were the "party boys" to distribute patronage and employment that the work was commenced at a season of the year when it could not be properly done, and, judging from the results, was simply thrown together. Anyone could have made as good a bungle of it as this.

I will investigate a little and give the public some further information with regard to the matter in a day or two.—Yours truly,

ELECTOR.

FELL IN A FAINT

Mrs. Edwin Martin, Ayer's Cliff, Que., writes: "Before using Dr. Chase's Nerve Food I was in a terrible condition. Dizzy spells would come over me and I would fall to the floor. I could not sweep without fainting. Dr. Chase's Nerve Food has so built up my system that I can wash and do my housework. Your medicine cured me when doctors had failed."

AN INTERESTING MEETING

An interesting meeting of Peterborough Circle No. 193 O.C.H.C. was held on Friday night in the K.O.P. Hall, where a large number of the members assembled. Applications were received and initiations made. Bro. D. Bartley, representative of the Supreme Circle, gave a very interesting report, at the close of which Bro. Wm. Tempt presented Bro. W. G. Bartle and Sister Mrs. R. Wright with the Past Leaders badges.

THE EVENING CHIT-CHAT

By Ruth Cameron

IT IS a very common thing for people to regulate their table diet in one way or another. One person tries to eat things that will make him fatter; another endeavours to select a bill of fare which will reduce his weight; an athlete eats muscle building foods, and so on.

Now, since we know the beneficial effects of regulation in this direction, is it not strange that we do not more often regulate our diet in other things besides food—friends, for instance?

A young girl came home in a very unhappy mood from visiting some friends, who, although good hearted, are most emphatically, of the earth, earthy. They think of little besides clothes and opportunities to display them, and they spend all they can afford and a little more, on keeping up appearances. Their visitor is a girl with a very limited income, but she has always managed to pay her bills, dress herself attractively, and be quite content. But the visit seemed to have entirely changed her. She is discontented with her home, critical of her friends, recklessly extravagant in her purchases, and fretfully covetous of the expensive things which she can not possibly afford. Says her mother, "Gertrude shall never visit those people again if I can help it."

If we will stop to think, we will all realize that our various friends have varying and very distinctive effects upon us.

There are those who always turn our attention towards clothes. We talk clothes with them, looking at their new things, tell them about ours and come home thinking of nothing but clothes and fashions and appearances.

We have other friends who stimulate us intellectually; they are reading and studying, they are interested in the topics of the day, they are trying to solve some corner of the world's problem, and contact with them soon makes us think that such things are really worth while after all.

Again, we have friends who always send us away feeling mightily pleased with ourselves; and others who make us thoroughly ashamed of our insufficiency. We have friends whose strenuous temperaments galvanize us into the desire for constant action; and others who impart some of their own serenity and patience to us. We have friends who curb us with their forethoughtful conservatism, and others from whom we take the contagion of their care-free optimism.

The man who has a sluggish liver will probably know enough to avoid rich and clogging foods even if he likes them and wants them. And yet how many of us, when we feel as if we wanted the poultice of flattery for some bump or bruise on our self love, know enough to avoid those who will give it to us? How many of us when all aflame with some radical scheme are wise enough to go to the conservative friend for criticism, instead of to the radical for encouragement?

To regulate one's diet of victuals is hard enough; to regulate one's diet of friends would be even more difficult; but for the man or woman who wants a healthy mind and soul, as well as a healthy stomach, it would certainly be worth while.

Personal Evangelism, Or The Work Of Laity In Advancing The Welfare Of The Church

The Opportunities Presented to Members of Congregation Outlined by Rev. T. H. Mitchell at Knox Church Anniversary Service

CHOIR'S SPECIAL SINGING

The importance of personal evangelism in church work, and thereby the valuable assistance that can be rendered by the lay members of a church in extending its influence and in increasing its membership was the principle theme in the special sermon delivered by the Rev. T. H. Mitchell, M.A., B.D., in connection with the anniversary service at Knox Church on Sunday night.

"And Nathaniel said unto him, can any good thing come out of Nazareth? Philip saith unto him: Come and see." St. John 1-46.

Basing his remarks upon this text, Rev. Mr. Mitchell stated that personal evangelism was the method employed in the early church and down through the early centuries there were traces of it. John spoke and Andrew followed him. Andrew brought Peter to Jesus and Philip, who also followed Jesus, found Nathaniel and in the words of the text he invited Nathaniel to come and see.

Is Necessary To-day.

"Have we, in this modern day, found a better way," Rev. Mr. Mitchell) asked, and continued by emphasizing the importance of this personal evangelism in our own time.

"The great need and the great opportunity of the church is the opportunity and need of personal work. The reports, last year, showed that for every 20 members of the church only one soul was won for Christ. Do you suppose that many are working in this great task of bringing men to Christ?"

The Qualities Necessary.

What qualities are necessary for this personal evangelism? One must have the evangel, the good tidings, the glad message of the Gospel. And it is to be borne with cheerfulness, with that joy that comes from a knowledge that our hearts are right with God. Righteousness, peace, and joy, is the order in which these things have been named, an evidence that when our hearts are right with our highest ideals, peace will follow naturally with that joy which has been spoken of. If we get our hearts right the work of personal evangelism will be made easy.

Even Into the Homes.

What a magnificent work is there for the young men who are here to enter upon this mighty task, Rev. Rev. Mitchell said, and further pointed out that even in the homes there were things to be accomplished. In all our homes we are carrying too much baggage, and the endless task of dusting and cleansing has made our method of living so complex for mothers that there is the possibility of neglecting the welfare of the souls that have been entrusted to their care. Rev. Mr. Mitchell particularly emphasized the importance of this work.

In the words of the text there is an invitation to come to Jesus Christ, rather than to any creed. Nathaniel had a creed. He said no good could come out of Nazareth. Jesus came out of Nazareth and the completion of his syllogism was that Jesus was not good. Philip, however, invited him to come and see. Rev. Mr. Mitchell asked if that was not the dominant cry of Christianity to-day—back to Christ.

In Support of Church Union.

In referring to the movement for church union to-day, he pointed out the practical and theoretical, or spiritual considerations. In the first place, there are many fields, particularly in the West, calling for men and money; while in the east, even in villages, there are numbers of churches, although these congregations are small, and, in some instances insufficient for one pastor. If with church union, some of these could be united, it would permit quite a number of men to be free for work in the West, that was demanding urgent attendance.

In concluding, Rev. Mr. Mitchell said he hoped every member of the church, young and old, would go forth determined in a quiet and unobtrusive way to use their power and influence for personal evangelism, thus rendering more comprehensive the work of the church.

Special Music.

The music at both the morning and evening services yesterday, was specially prepared for the occasion, and enabled the choir to prove its capability. The morning anthems were: "Thou Will Keep Him in Perfect Peace," by Demarest, and "O Taste and See" by Goss. At the evening service the choir sang "The Radiant Morn Hath Passed Away," by Woodward; "Hold Thou My Hand," (Sullivan); "Abide With Me," (Churchill). The latter anthem was sung particularly well, the different parts being shaded to combine with the desired effect. The choir is well balanced and uniformly strong. It has more than kept pace with the general progress of the church, and adds effectively to the devotional character of the services.

CHOLERA SCARE

Much anxiety has been felt lately over the danger of introducing the dreaded Asiatic Cholera into this country, because of the immigration from the plague districts of Europe.

It says the strength of the body so fast that death often follows in a few hours. All forms of diarrhoea and dysentery are very weakening.

A Valdosta, Ga., woman, Mrs. C. H. King, tells how she regained her strength. She says: "An attack of dysentery left me so weak and exhausted that it seemed impossible to regain my strength. But since using one bottle of Vinol I am perfectly well again. Vinol will do wonders for anyone who needs new strength and more flesh."

There is no doubt at all that this delicious cod liver and iron remedy without oil possesses wonderful power to renew flagging strength and vitality, and build up the body. If you are not as strong as you ought to be you need Vinol, and we guarantee that it will build you up and make you strong. McDermid and Jury, druggists, corner George and Charlotte streets; also Payne's drug store, corner George and Simcoe streets.

SALE OF FARM STOCK AND IMPLEMENTS.

Mr. Frank Moher is having an auction sale of farm stock, implements and household furnishings, at his farm, Lot 3, Con. 4, Douro, on Monday, August 22nd. Mr. Moher intends going to the West.

FATHER CASEY RECIPIENT OF ADDRESS AND PRESENTATION

Delightful Function Held at Campbellford—Father Casey is Leaving to Spend a Holiday in Ireland.

HIS NATIVE LAND

CAMPBELLFORD, APRIL 15. — The great esteem in which Rev. Fr. Casey is held by the congregation of St. Mary's and the people of Campbellford, in general, was strikingly manifested on Friday evening, when they turned out en masse to wish him bon voyage on his departure for a holiday in his native Irenland. Every available inch of space was occupied, young and old vieing with each other in paying this mark of respect to their beloved Father Casey. Prominent above the stage was a large picture of the guest of the evening, draped round with the green flag of "Old Ireland." Rev. Father Meagher was chairman of the evening, and in a well-worded address, spoke of the pleasure it gave him to be with them to share in their magnificent send-off to Father Casey, whom he was delighted to number amongst his best friends. He paid a well-deserved tribute to the sterling faith of the people of St. Mary's, as evidenced by this testimony of their esteem for their young curate. He then called upon Mr. O. J. Meagher, who came forward and read the following address:

Rev. and Dear Father,—The congregation of St. Mary's church, in this town, learning that you were about to pay a visit to the land of your birth, and the home of our forefathers, take this opportunity, upon the eve of your departure, therefore, to wish you a safe and pleasant voyage, and a happy sojourn there; and when your visit is ended, permit us to extend to you a hearty welcome back to the old St. Mary's Parish. As a slight testimony of the love and affection in which you are held by us all, and as a memento of the happy relations that have existed between us, we desire you to accept the accompanying purse.

Wishing you again a safe voyage and a pleasant visit, and hoping that your return will not be long delayed.

Signed on behalf of the congregation of St. Mary's Church, Campbellford, Ontario, this 12th day of April, A.D., 1912.

The signatories to the address followed, after which Mr. Henry Black made the presentation of the purse.

Rev. Father Casey, in returning thanks, spoke of the affectionate relations that had always existed between himself and the people of Campbellford, especially the members of St. Mary's Parish. He thanked them very sincerely for their many kindnesses to him, and especially for this splendid address and the accompanying purse, which he valued principally as a symbol of the close union between priests and people, that was characteristic of St. Mary's congregation. If it were so ordained he would be more than happy to return to them after the expiration of his visit, but if fate ordained it other wise he assured them they would always have a large place in his affectionate remembrance.

Rev. Fr. Meagher and others wished him bon voyage, in brief addresses, after which the singing of Father Casey's "Song for St. Mary's Club" and the "National Anthem" brought a delightful evening to a fitting close.

During the evening musical numbers were rendered, as follows:

Chorus, "Where the River Shannon Flows"—Choir.

Song—"Why Did They Sell Killarney"—Miss Nettie Heenan, (and in response to a well-merited encore, "Kitty of Coleraine".)

Duet, "There's a Mother Old and Grey That Needs You Now" — Miss Mabel Mahoney and Mr. D. J. Meagher.

Song, "Killarney"—Miss Rose Mulhearn.

Instrumental duet — Misses Josie and May Rellis.

Song, "The Irish Mother" (words by Father Casey) Mr. O. J. Meagher.

THE DOCTOR'S QUESTION

Much Sickness Due to Bowel Disorders.

A doctor's first question when consulted by a patient is, "Are your bowels regular?" He knows that 98 p.c. of illness is attended with inactive bowels and torpid liver, and that this condition must be removed gently and thoroughly before health can be restored.

Rexall Orderlies are a positive, pleasant, and safe remedy for constipation and bowel disorders in general. We are so certain of their great curative value that we promise to return the purchaser's money in every case when they fail to produce entire satisfaction.

Rexall Orderlies are eaten like candy, they act quietly, and aid in producing a soothing, strengthening, healing influence on the entire intestinal tract. They do not purge, gripe, cause nausea, flatulence, excessive looseness, diarrhoea, or other annoying effect. They are especially good for children, weak persons, or old folks. Three sizes, 10c., 25c., and 50c. Sold only at our store,—The Rexall Store, McDermid and Jury.

Complaint From The West End

To the Editor of The Examiner.

Dear Sir,—Kindly print the following in the Evening Examiner: For the West End people to watch their clothes-lines, on wash days, as I have been missing quite a number of articles off the line when they were left out. Some one must be quite handy, also light fingered to do such a trick. It is too bad the town cannot afford more detectives to watch around the West End, as it is getting almost beyond living around here, with one thing and another. It is time there was a stop put to it.

Yours truly,

West End Resident.

Sallow Complexion

Indicates indigestion, constipation or liver trouble. FIG PILLS will regulate your system and build up the nerve forces so that you can sleep and enjoy life. At all dealers 25 and 50 cents or The Fig Pill Co., St. Thomas, Ont. Sold in Peterborough by the Warne Drug Co., Ltd.

PERSONAL AND SOCIAL

Rev. Archdeacon Casey of Lindsay, was in the city to-day.

Mrs. W. H. Hill will not receive to-morrow, nor again this season.

Mrs. F. Schneider, London street, will not receive again this season.

Mr. David Patterson left to-day for Glasgow, Scotland, to visit his parents.

Mrs. James Long, 561 Reid street, will not receive to-morrow and not again this season.

Miss Burns of Toronto, who has been visiting with Mrs. R. R. Hall, returned home on Saturday.

Mr. W. Stokoe of the Bank of Nova Scotia, Vancouver, is the guest of Mrs. Tully, Stewart street.

Mrs. J. H. Renwick, 571 Aylmer street, will be at home for the last time this season, to-morrow (Tuesday) afternoon.

Miss Grace MacLaren, daughter of Mr. Justic MacLaren, Toronto, who has been visiting Miss Lexa Dervine, has returned home.

Miss Cahill and Miss Smythe of Richard Hall & Son, Limited, are in Toronto to-day, attending the Summer Millinery opening.

The many friends of Mr. H. Hedley, Charlotte street, will regret to learn that he is confined to his bed suffering from a slight indisposition.

Mr. Maxwell Redmond, son of Mr. S. Redmond, Otonabee, leaves to-morrow for Indian Head, Saskatchewan, where he intends to engage in farming.

Mr. R. McGill Hood, representing Palter Bros., returned on Saturday from his regular semi-annual trip, to the West. As on former visits, Mr. Hood met many people from Peterborough, all of whom are doing well.

Mr. "Dick" Choate, as he is popularly best known, in virtue of his universal popularity, left yesterday afternoon for the west. His many friends hope that his investigation of the possibilities of the western country from Winnipeg to Vancouver, will result to his advantage.

OBITUARY

MR. MILES D. LAKE.

The death occurred at 9 o'clock this morning, of a well-known resident of Peterborough, in the person of Mr. Miles D. Lake, of 264 McDonnell street. The deceased, who was thirty-four years of age, came to Peterborough from Cayuga, some nine years ago, and was engaged in the hairdressing business, with Mr. Bruce Fotheringa, of Chemiville street. He was in creed a Presbyterian, and a valued member of the Knights of Pythias, and Oriental Woodmen of the World. During his stay in the city he had made many friends, who will be grieved to learn of his passing. In addition to a sorrowing wife, he is survived by his parents, three sisters and one brother, namely, Mrs. McGinnis, and Mrs. Cummins of Cloyne, Mrs. Howley of Saskatoon, and Henry of Malloytown.

The funeral will take place on Wednesday afternoon. The Rev. H. J. Keith will conduct a service at the house at 2 o'clock, after which, at 2.30, the cortege will proceed to the Little Lake Cemetery for interment. The members of the Marathon Lodge No. 39, K.P., will attend in a body.

ALEXANDER T. MORRISON.

The death occurred on Saturday night at the residence of his son-in-law, 291 Townsend street, of Mr. Alexander T. Morrison, who came from Lindsay, two weeks ago.

The funeral took place at 3.30 this afternoon at the Little Lake cemetery.

WILLIAM GEORGE RUNDLE.

The many friends in Peterborough of Mr. William George Rundle will regret to learn of his demise which took place at 2.15 this morning, in Nicholls' Hospital, after an illness of only one week's duration.

The deceased came with his parents from England to Canada, when quite young, settling in Halifax. For a period of some eighteen years he has been a resident of Peterborough, and for the main portion of that time carried on the business of a hairdresser on George street. He was a member of the Masonic Order and in religion, an Anglican. During his stay in Peterborough he had made many friends and was highly respected.

The late Mr. Rundle is survived by a sorrowing wife and four children, namely, Julia, Myles, Albert, and Willie. One sister and two half-brothers also lament his passing in the persons of Mrs. Herbert of Kentville, N.S., Mr. William Rundle of Winnipeg, and George of Toronto.

Funeral announcement later.

A Splendid Rehearsal

St. George's Choral Society is Ready for the Concert To-morrow Night

The members of the St. George's Choral Society held a splendid rehearsal on Friday evening last, in St. Andrew's Hall. There was a full attendance and the various numbers were rendered in magnificent style. The Male Quartette and the Gypsies' Chorus went over their numbers without a hitch, and these alone will be well worth hearing. The music loving people of Peterborough may be assured of a great treat on Tuesday evening, April 15th.

LABOUR MEETING

Postponed Until Wednesday Evening —Attendance Too Light

The labour meeting called for Saturday night was not sufficiently largely attended to recommend inauguration proceedings. Mr. John Flett, representing the American Federation of Labour, was present, but there were only about twenty present and it was decided to postpone definite business until Wednesday night. All labourers and labouring men interested, are invited to attend the meeting, which will be held in the Labour Hall, formerly St. Peter's T.A.S. room.

OPPOSITE CUSTOM HOUSE

Voted Against Bylaw.

Woodstock, April 16.—By a vote of 493 in favor, and 507 against, the citizens of Woodstock yesterday defeated the bylaw to raise $75,000 for a new city hall to replace the present one, which has been in use for the last fifty years. As a result of the close vote it is altogether likely that the question will again be put to the people in the near future.

The bylaw to grant aid by way of bonus to the Woodstock Automobile Co. received 901 votes in its favor and 163 against. On account of the fact that this bylaw requires a majority of three-fifths of the total number of voters on the list, will have to be counted before it is known if the bylaw passed or not.

Quebec Elections Soon.

Quebec, April 16.—Interviewed on the early dissolution of the Legislative Assembly, Premier Gouin said yesterday:

"Everybody was asking for elections, even our opponents, the Conservatives and Nationalists, who have been preparing their cases for months.

"We want to have the elections before the seeding, so as not to inconvenience the farmers. There are many important measures that must be submitted to the people at once. They include the good roads bill, which involves an expenditure of ten million dollars. There is also the land subsidies to railways, which involves a grant of five million acres."

CANADIAN VICTIMS

Well Known People on Board the Titanic, Including Chas. M. Hayes and Mrs. Hayes.

MANY MAGNATES THERE

Toronto, April 16.—H. G. Thorley, Toronto agent of the White Star Line, received from W. W. Jeffries, the New York agent, a telegram advising that Captain Haddock of the Olympic reported that the Titanic foundered at about two o'clock yesterday morning. The Carpathia has on board all the surviving passengers and crew, numbering 675. The Carpathia is steaming to New York.

Later in the evening Mr. Thorley received the following messages from Mr. Jeffries:

"Regret exceedingly to advise that Captain Haddock of the Olympic Marconis that the Titanic foundered about two a.m. Monday. Carpathian has on board all surviving passengers and crew, numbering 675. The Carpathian is now proceeding to New York."

Shortly before midnight, Mr. Thorley received another message, reading as follows:

"Referring to previous telegram, earlier advices state that Parisian and Victorian have passengers on board, but have not yet received confirmation."

The news of the terrible disaster to the Titanic coming after the reassuring messages of the forenoon, which indicated that not only were the passengers saved, but that there was good prospects of towing the disabled leviathan into port at Halifax, came like a veritable bolt from the blue.

There were a number of Canadian passengers listed on the steamer Titanic which met with disaster yesterday. Among them were:

Major Arthur G. Peuchen, general manager of the Standard Chemical Co., Toronto.

J. J. Borebank, well known in real estate circles in Toronto and in Winnipeg, and

Mrs. John C. Hogeboom, Toronto.

Other Canadians in the first-class cabin list included:

Charles M. Hays, wife and daughter, Montreal.

Thornton Davidson and wife (son-in-law of C. M. Hays), Montreal.

J. Hugo Ross (formerly of Toronto), Winnipeg.

Thompson Beattie, Winnipeg, formerly of Fergus, Ont.

Mr. George E. Graham, buyer for Eaton's chinaware department, Winnipeg.

Dr. Alfred Pain, Hamilton, son of Captain Albert Pain, a well-known commission merchant. He finished his training in the Hamilton City Hospital, and has been studying in the hospitals of Europe.

Mark Fortune and three daughters, Winnipeg.

Markland Molson, broker, Montreal.

Mr. H. J. Allison, wife and daughter, Montreal.

Mrs. James Baxter, Montreal.

Thomas McCaffrey, manager Union Bank, Winnipeg.

Mrs. F. C. Douglas, wife of Dr. F. C. Douglas, Montreal.

H. Markland Molson of the Molson's Bank directorate, Montreal.

W. H. Parr, Montreal.

Mr. and Mrs. Allison, Miss Allison, Master Allison, Montreal.

Big Magnates on Board.

New York, April 16.—Wealth aggregating something like half a billion dollars was represented by ten of the passengers on the Titanic. If a calamity befall a few of these men it would materially affect the stock market, as well as vast business enterprises in the United States and England.

Foremost among the passengers in point of wealth was John Jacob Astor, who was returning to New York with his bride, formerly Miss Madeleine Force. Col. Astor's holding amount to fully $150,000,000, and he is connected with nearly a score of corporations. Next in financial importance come Benjamin Guggenheim, Alfred G. Vanderbilt and George D. Widener. Guggenheim represents American Smelting Securities Co., a great mining corporation. He is a member of a number of corporations.

Alfred Gwynne Vanderbilt has never taken an active part in business affairs of the Vanderbilt family, having left that to his brother, Cornelius. Alfred is a member of numerous corporations, and his fortune is estimated at $75,000,000.

George D. Widener is connected with the Traction Syndicate of Philadelphia. His fortune is estimated at $50,000,000.

Col. Washington Roebling, builder of the Brooklyn Bridge, and director of John A. Roebling Sons Co. His fortune amounts to $25,000,000.

Bruce Ismay is probably worth $50,000,000. If the fortunes of all the first-class passengers were placed together they would make easily one billion dollars.

Notable persons, travelers on the Titanic, whose fate was in doubt in the lack of definite advices as to the identity of the survivors were Major Archibald Butt, aide to President Taft; Charles M. Hays, president of the Grand Trunk Pacific, his wife and daughter; W. T. Stead, F. D. Miller, the artist, Mr. and Mrs. Isidor Straus, Henry B. Harris, the theatrical manager, and Mrs. Harris, and Col. Washington Roebling, builder of the Brooklyn Bridge.

Running Rights Over Intercolonial.

Ottawa, April 16.—It is understood that negotiations have been renewed between the Canadian Pacific Railway and the Government looking to the securing of running rights for C.P.R. trains over the Intercolonial Railway between St. John and Halifax. It is probable that an agreement will be reached and that the Intercolonial will be double-tracked from Moncton to Halifax.

The growth and development of the west, also suggests the desirability of extending the Intercolonial to Georgian Bay. Certain companies seeking subsidies have proposed to build a line over which the I.C.R. would be given running rights.

Suspect Foul Play.

Parry Sound, April 16.—With a badly battered head and swollen beyond recognition, the body of John Tennant, was found Sunday evening floating in the harbor. Tennant had come to town about the middle of December last, from his home near Ambro Station, and since that time he has not been seen nor any trace of him found. Prior to his death he was known to have had $50 in his possession, and there are suspicions of foul play.

Big Sum for Flood Sufferers.

Washington, D.C., April 16.—President Taft yesterday sent to Congress a special message urging the immediate appropriation of amounts aggregating nearly $788,000 for use in controlling the floods of the Mississippi River and to aid flood sufferers.

Head-On Collision.

Lima Centre, Mich., April 16.—One man was killed and almost a score of passengers injured late yesterday when two interurban cars on the Detroit United Railway met in a head-on collision, about two miles east of here.

K. & P. to Improve.

Kingston, April 16.—The announcement is made that the Kingston & Pembroke Railway will expend $200,000 this summer on improvements over the line.

EXPOUNDS HIS POLICY

Leader of the Opposition Gets an Ovation From the Hamilton Liberals at a Banquet

MR. GRAHAM SPEAKS

Hamilton, April 16.—Hamilton Liberals gave a great reception to Mr. N. W. Rowell and Hon. George P. Graham at a banquet last night. The Opposition leader declared that it was from the executive of the Hamilton Liberal Association that he had received the first resolution asking him to take the stand he has taken on temperance.

Hon. Mr. Graham spoke glowingly of the record of Sir Wilfrid Laurier and stated that great as he was as a leader, he was still greater in Opposition. The speaker reviewed the history of Canada and the Empire, referred to Sir James Whitney as Ontario's autocrat, asked if the people of Canada were aware of the innate weakness of the present Government, and wound up by urging the Liberals to get together and be prepared for the next election.

N. W. Rowell, the Liberal leader, was received with prolonged cheers and handclapping. He outlined the abolish-the-bar policy of the Liberal party and stated that not only would the bar be abolished, but the club licenses also. The Conservative policy of abolishing the treating system was minutely examined and ruthlessly torn to ribbons. "The people of Canada demanded a temperance policy," said Mr. Rowell, "and the Liberal party will work to that end."

About 400 guests were present.

Wyoming Pastor Ends Life.

Wyoming, Ont., April 16.—About 8 o'clock yesterday morning, while in a fit of temporary insanity, Rev. J. M. Gunne of this village, got out of bed and with his double-barrelled gun shot himself in the neck, dying almost instantly. The deceased had been brooding over various matters for some weeks, which caused sleeplessness, and undoubtedly unhinged his mind.

No inquest will be held.

Policeman Shot at Burglar.

Windsor, Ont., April 16.—The Windsor and L. S. Railway office at Kingsville was entered early Sunday morning. The burglar tried to crack the safe, but the charge only loosened the door.

The Kingsville night policeman fired at the yeggman, but the burglar escaped. Sunday night an attempt was made to rob two Windsor residences.

New Pumping Station.

Niagara Falls, Ont., April 16.—The water commission will apply to the Queen Victoria Park Commission for permission to erect a new pumping station in the park. It is proposed to construct a combination power-house and pumping plant, generating fifteen hundred electric horse-power, besides supplying the city with water.

Farmer Found Dead In Barn.

Brockville, April 16.—Yesterday afternoon, Edwin Keeler, a farmer residing near Maitland, was found dead in his barn. He had not been enjoying good health for some time, and it is supposed that while performing the chores, he over-exerted himself, causing heart failure. Deceased was about 60 years of age.

Quebec Murder Cases.

Quebec, April 16.—At the Criminal Court yesterday a true bill was rendered in the case of Clerous and Garneau, accused of George Leclerc's murder. The trial of Telesphore Gremier, accused of attempted murder on Honore Martel at Riviere a Pierre, was began yesterday.

BALFOUR ON HOME RULE

Ex-premier Calls the Home Rule Bill Insane and Lop-sided—Hon. Mr. Samuel Replies to Former Leader

ENGLAND CARRIED DEFICIT

London, April 16.—Ex-Premier A. J. Balfour resumed the debate in the House of Commons yesterday afternoon on the "Government of Ireland Bill" which was introduced in Parliament April 11 by Premier Asquith.

Mr. Balfour ridiculed the Government measure for Irish home rule, describing it as "unsymmetrical and botched federal scheme, utterly unworthy of British statesmanship."

"Was this lopsided scheme," the Opposition speaker asked, "imitating the architect of the great federal system beyond the seas?"

The alleged supremacy of the Imperial Parliament, Mr. Balfour declared yesterday in the House in condemning home rule, was about equivalent to the ancient claims of British sovereigns to be Kings of France.

Mr. Balfour said that he did not believe that any sane English or Scottish members would support the insane proposals which divided the suggested federal system by customs barriers. If Ireland, he said, could use the customs to differentiate against foreign nations, the Government would find itself involved in appalling difficulties concerning the "most favored nation clause."

Mr. Balfour declared that, while other nations, including Germany and the United States and the British colonies, felt that if they were to hold their places in the world it must be by integration. Great Britain was to undergo a process of disintegration though the proposed lopsided federation.

Right Hon. H. L. Samuel, Postmaster-General, replying to Mr. Balfour yesterday, said that Mr. Balfour's arguments against the home rule bill might with equal justification be advanced against any scheme of colonial self government.

Mr. Samuel, dealing with the subject of finance, declared it would be unjust in the first instance to burden Ireland with the whole of the deficit. The state of her finances was not her fault, but the result of English financial administration. Her revenue was paid on the Irish scale, while her expenditure was on the English scale, and it was therefore impossible, after accustoming the Irish to this scale of expenditure, to impose upon them the burden of finding the whole expenditure

Collided In Harbor.

New York, April 16.—The Grace Line steamer Condor, outbound for Callao, while proceeding down the bay late yesterday afternoon in a dense fog, came into collision with the U. S. battleship Utah and had her bows stove in. The battleship was lying at anchor off Tompkinsville, and the Condor moving slowly, pushed her nose through a fog bank and bumped head-on into the port bow of the sea fighter. The Utah received only slight damage.

Turn Down for Rockefeller.

Washington, April 16.—Upon protests of a number of members that the creation of a great corporation of $100,000,000 might compete with private interests and in the end in controlling the Government, the House yesterday refused to pass a bill incorporating the Rockefeller Foundation, and struck it from the calendar. The bill has been before Congress for two years.

Escaped Huge Ice Field.

Liverpool, April 16.—The Canadian Pacific Steamship Co.'s liner Empress of Britain, which left St. John, N.B., on April 5, arrived here yesterday, and reported having encountered an ice field of a hundred miles in extent when three days out from Halifax.

It is most unusual at this time of year to meet ice floes so far south.

Will Not Prosecute Kipling.

London, April 16.—Joe Martin received a negative answer in the Commons yesterday when he asked if the Attorney-General intended to prosecute Kipling for sedition for his verses entitled "Ulster," published last week.

William Redmond raised a laugh by asking, "Is such doggerel entitled to be called verse?"

NUGENT'S SARSAPARILLA

Price, large bottle, 25c full dozen 25c and well worth it too. It's better to take no medicine at all than to depend upon cheap concoctions that are compounded to sell at a low price and a big profit just because there is a large demand for certain remedies at certain seasons of the year.

There are so-called Sarsaparillas offered to us to sell to our customers at 75c a bottle that would bring us a larger profit than Nugent's Sarsaparilla sold at 25c.

Nugent's Sarsaparilla purifies the blood, arouses the torpid liver, drives out all impurities, cleanses and tones up the system, and helps nature throw off the dullness that comes from the indoor life of winter. It arouses energy, brightens the eye, clears the brain, gives lightness to the movements.

Nugent's Sarsaparilla is not the only thing you will find in this drug store. We make a specialty of Nugent's remedies.

MRS. SCOTT'S SUFFERING OVER

Doctors Advised An Operation. How She Escaped Told By Herself.

Buckner, Mo.—"For more than a year I suffered agonies from female troubles and the doctors at last decided there was no help for me unless I went to the hospital for an operation. I was awfully against that operation, and as a last resort wrote to you for special advice and I told you just what I suffered with bearing down pains, backache, shooting pains in my left side, and at times I could not touch my foot to the floor without screaming. I was short of breath, had smothered spells, felt dull and draggy all the time. I could not do any work, and oh how I dreaded to have an operation.

"I received a letter full of kind advice, which I followed, and if I had only written her a year ago I would have been saved so much suffering, for today I am a well woman. I am now keeping house again and do every bit of my own work. Every one in this part of the country knows it was Lydia E. Pinkham's Vegetable Compound that has restored me to health, and everywhere I go I recommend it to suffering women."—Mrs. LIZZIE SCOTT, Buckner, Mo.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

A HERO OF THE WILDS

SIR HARRY JOHNSTON IS ONE OF BRITAIN'S VANGUARD.

Indefatigable African Explorer Obeyed His Restless Spirit and Went Over Vast Stretches of Wild Territory—Did Much to Stamp Out Cannibalism in Uganda and to Place Settlers in the Country.

The scene was a river bank in wildest, woolliest West Africa. A canoe was moored to the side, and its owner, a square-shouldered little Englishman, was being hauled by savages to their village. There was a feast toward, and, suspecting the appetites of his captors, the little man was thinking to himself, "Well, whoever else may make the after-dinner speeches it is certain that I shan't." For he quite expected that he himself would be the dinner.

But now, the natives had captured him to the intent that he might be a guest and not one of the dishes, and they set him down in a place of honor and bade him eat. He ate. The titbit of the feast consisted of a red paste, of decidedly agreeable flavor.

"What is it?" asked the prisoner.

"Man," he was answered.

And it was. They had caught one of their failing kin, had smoked him over a fire of reeds, and, after cutting up his flesh and mixing it with palm oil and pepper, had served him up in the manner aforesaid.

The guest was Sir Harry Johnston. Twenty years afterwards he attended as a guest of honor at another African feast; but this time the menu was in French, and the feast cooked after French methods, by sable gentlemen in a raiment of fig-leaf.

With the former feast in mind, we may say that Sir Harry has something of the African in him, and he will not deny the soft impeachment. But the two contrasts afford a very good epitome of the history that he has helped to make in Africa. The progress which he has helped to effect is incredible. Still, how he ever got to Africa at all must be as great a mystery to most people as the presence of the fly in the amber. For no man seemed by nature less qualified for the rough-and-tumble, the peril and privation of African travel than this handsome little artist and student.

His father was secretary to an insurance company in London, where Sir Harry was born in 1858. His grandmother was an artist; the faculty skipped a generation, then cropped out in him, so his father, after having put him to King's College, sent him on to the South Kensington School of Art, where he won a gold medal, and then turned him loose as a regular student at the Royal Academy, with supplementary studies in the art schools of France. Everything was cut and dried for his career as an artist, and there seemed every probability of his painting his way to glory. Suddenly his health failed. He seemed to have a wretched constitution, and he had over-studied with his painting, his greedy reading, his frensied devotion to the mastery of languages.

He was sent for his health's sake on a tour through France, Spain and Portugal; and a latent, unsuspected instinct for travel now asserted itself. Instead of returning to his studies, he threw in his lot with a French expedition to North Africa, and when he did come back it was to launch out with a notable series of articles on Tunis. This was in 1880, prior to which he had never earned a penny. And then he was anybody's man for a time; his career became a matter of great uncertainty.

With his health improved, his soul cried out for action; he could not face the prospect of years of study at Cambridge, so he threw himself into natural history and biology, toiling away at the Zoological Gardens under expert guidance until he became a first rate naturalist and anatomist. All unconsciously he was sowing seed of which the Empire was afterwards to reap the harvest. Not a particle of his artistic training has been lost, nothing of his talent for languages has been wasted, nothing of his literary skill but has been advantageously utilized.

At about this time Lord Mayo was planning a West African expedition, and he needed a man who could speak Portuguese. Johnston was the man. He had mastered Portuguese, French, Spanish, Italian, and, if you please, Arabic. He was pining for a chance such as this for, though he had not yet absorbed black man, his trip to the Dark Continent had set his blood dancing with the lust for travel in that mysterious land. Once you have been you always desire to return, while youth keeps your muscles supple and your heart undaunted. So off he went with Lord Mayo's expedition. The party compassed its purpose and returned, but Johnston stayed on. He determined to wrest the secrets of the Congo from that mighty river, and off he went alone, a breadless boy of four-and-twenty.

"Mr. Stanley, I believe," he one day said, varying the historic formula, when to his great joy he ran across the camp of Livingstone's discoverer. Stanley took to him at once. Two wonderful little men they must have seemed to their black cohorts, for Stanley, like Gordon and Johnston, was a tiny man. Together they explored the untracked purlieus of the splendid river, and when Sir Harry returned to England he wrote a book which made him famous at the age of twenty-five. His work caught the eye of the Royal Society, who placed him in command of their scientific expedition to Mount Kilamanjaro. On his return Lord Salisbury sent him off as Vice-Consul to the Cameroons. Here he speedily succeeded to the chief post, and was launched at last on his great official career.

Sayings of Famous Men.

I wonder how I'd look with a pompadour?—John Quincy Adams.

That reminds me of—er—any ladies present?—Rabelais.

Will somebody move that I have leave to print?—Gutenberg.

Yes, I have friends in both places.—Dante.

See what I've saved by not carrying any life insurance!—Methuselah.

—Chicago Tribune.

With Best Regards.

I wrote a screaming joke one day—
I knew I'd found the range—
But when the papers quoted it
They credited it "Exchange."

So then I wrote a funny verse,
And true it is, though strange,
That these same papers copied it
And credited it "Exchange."

—Cincinnati Enquirer.

A Shrewd Financier.

"Say, boss," said Uncle Eben, "would you lend me 'bout six bits and take dis mule foh security?"

"How long do you want the loan?"

"Oh, till 'long 'bout April or May."

"That's a curious kind of transaction."

"Well, I'll make it four bits. All I really kyahs about is gittin' rid o' feedin' de mule."—Washington Star.

As They See It.

The politician's views are grim—
Oh, world of strife!
Most everybody seems to him
To have a knife.

—Springfield Union.

The merchant's views are very grim;
They are, alack!
All women live, it seems to him,
To bring things back.

—Chicago Record-Herald.

His Best Job.

"What was the best job you ever did?" inquired the first barber.

"I once shaved a man," replied the second ditto, "then I persuaded him to have hair cut, singe, shampoo, face massage, sea foam, electric buss, tar spray and a tonic rub."

"What then?"

"Then I gave him another shave."—National Monthly.

Bonnet and Brain.

When I see your face crowned with a marvelous height
Of feathers and flowers I think at the sight;
What were your head worth on that wonderful bonnet
If you'd only got in half as much as you've on it!

—New York Sun.

An Invalid.

"You know that ball player who had a glass arm, a weak knee and a game ankle—the one who only finished in five games during the season?"

"Yes. What about him?"

"He has been working in a stone yard through the winter." — Kansas City Journal.

A Tariff Question.

How shall the lot of humankind be eased?
By what new tariff can we be relieved?
If those who now complain are fully pleased
A lot of other folks will be aggrieved.

—Washington Star.

Neglected Colds Lead to Consumption

Unless a complete cure is effected the inflammation passes rapidly to the throat's bronchial tubes and then to the lungs.

You can't make new lungs any more than you can make new fingers or a new nose—hence consumption is practically incurable.

But Catarrh can be cured, except in its final and always fatal stage.

Catarrh sufferers, meaning those with colds, sore throat, bronchial trouble, etc., can all be cured right at home by inhaling "Catarrhozone."

In using Catarrhozone you don't take medicine into the stomach—you just breathe a healing piney vapor direct to the lungs and air passages.

Catarrhozone Guaranteed to Cure

The purest balsams and the greatest antiseptics are thus sent to every spot where catarrhal trouble exists—germs are killed, foul secretions are destroyed, nature is given a chance and cure comes quickly.

Colds and throat troubles can't last if the pure healing vapor of Catarrhozone is breathed—sneezing and coughing cease at once, because irritation is removed.

Use Catarrhozone to prevent—use it to cure your winter ills—it's pleasant, safe, and guaranteed in every case, 25c., 50c., and $1.00 sizes. Sold by all dealers. By mail from the Catarrhozone Company, Kingston, Ont.

THE CHIC RUCHE.

A Revival of the Elizabethan Effect.

A SMART NEW RUCHE.

Every now and then there is an effort made to revive the Elizabethan and Medici ruffs, but as a rule the idea is not taken up with enthusiasm. The ruche pictured is reminiscent of these old world models, but as you see the adaptation is most becoming and suitable for twentieth century wear.

A full plaited brussels net ruche is attached to a wide collar of chiffon, edged with a band of satin and Irish lace insertion. The cuffs match the neck arrangement.

Conversation.

Conversation is one of the blights of civilization.

People spend thousands of dollars in education, in books, in travel, in theater tickets, and all in order to be able to carry on a conversation.

As a consequence the women talk about cooks and clothes and the men about weather and women.

Conversation may be divided into chats, arguments, piffle and palaver, with gossips and quarrels as side issues.

Conversations are fortunately forgotten as soon as they are over; otherwise people would be so mortified over their inane remarks that they would seek new friends every day, fearing to meet old ones.

The idea that when people meet it is necessary for them to talk has grown out of helpless self distrust. Not over five out of a million people say anything when they converse.

The trouble is that were we to try to develop the art of keeping still we should immediately begin to talk about it.

Fringed Evening Frock.

Fringe trims all the up to date garments this fall. It appears on hats, dresses and wraps alike. On the pretty frock designed for a young girl's

'GIRL'S FROCK OF FLAME CHIFFON.'

party costume an antique fringe of dull silver adorns the skirt drapery and the fichu bodice.

Flame colored chiffon is the very becoming color employed for this charming little model, and the bordered fabric is worked out in lotus blossoms.

Contagious.

Don't grumble if tired
Or if you feel blue,
For the chronic complainer
His friends tire too.

—Chicago News.

Not Even There!

Gabriel—Wasn't that spirit satisfied with her mansion? St. Peter—No; she said she certainly expected enough closets.—Harper's Bazar.

Constipation

is an enemy within the camp. It will undermine the strongest constitution and ruin the most vigorous health. It leads to indigestion, biliousness, impure blood, bad complexion, sick headaches, and is one of the most frequent causes of appendicitis. To neglect it is slow suicide. Dr. Morse's Indian Root Pills positively cure Constipation. They are entirely vegetable in composition and do not sicken, weaken or gripe. Preserve your health by taking

Dr. Morse's Indian Root Pills

La Diva NON-RUSTABLE CORSET

The Plump Woman will be very Stylish provided her Corset is Right.

La Diva "Crest" Reducing Model No. 790 surpasses even the former ones in style, in comfort, in durability.

And it is sold at $2.75, which is $1.00 to $2.00 less than any imported corset which can be compared with it.

The fit of the back and hips together with the spoon clasps and the new double piece rounded effect gives the wearer the greatest amount of abdominal comfort and has the greatest amount of reducing strength. Combined with this is the unbreakable feature, a feature patented by us. This corset is made of strong imported coutil, trimmed with lace, ribbon and bow, and has six wide suspenders, hook and draw string. It is one of the best corset values that can be had.

Like all other La Diva Corsets, No. 790 is sold with an absolute guarantee as to quality. We guarantee every pair or money refunded.

The Dominion Corset Company :: Quebec

Your Best Shopping Guide

SUPPOSE there were no advertisements—what a worrying task shopping would be! Think how you would miss the helpful information that now guides you to select the best goods, and to know the shops where they can be best obtained.

How difficult to make up your shopping list without first knowing something about the goods you need, or the store that sells them! Your shopping would be all experiment. You would pay out a lot of money during the slow process of learning by experience how to avoid disappointment and dissatisfaction.

Thanks to the high standard of present-day Advertising, no person needs to shop at random. The advertising columns of a newspaper give you just the information you require to make your best selection of goods or store. Leisurely, in the comfort of your own home, you can plan and decide upon the purchases in view.

From soap to gas ranges—from shoes to automobiles—one gets from newspaper Advertising the information that is essential to safe and advantageous buying.

Newspaper advertisements are the finger-posts on the road to right buying. They are quick and safe guides to the places and goods most worthy of your patronage.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or through the Secretary of the Canadian Press Association, Room 503 Lumsden Bldg., Toronto. Enquiry involves no obligation on your part—so write, if interested.

Town Topics.

In order to get the best results in the open air schools Chicago should blow away the gnats.—Chicago News.

It would be cruel to stagger humanity by revealing now just how great a town Houston will be twenty-five years hence. The fact is Houston's present progress has the world groggy and palpably going.—Houston Post.

"Chicago," says the Washington Post, "is enjoying her annual wallow in grand opera." Can it be possible that this unkind remark is due to the fact that Washington still has to go to Baltimore to hear grand opera?—Chicago Inter Ocean.

The Royal Box.

Ex-Queen Amelia of Portugal is a qualified nurse. She also has taken a medical degree.

Queen Alexandra has a collection of books of memoirs, and she keeps a minute record of her own life in a diary. Each volume of the diary is bound in mauve morocco.

Princess Henry of Battenberg is one of the most accomplished members of the British royal family. She paints well, is a good judge of art, collects rare old lace with all the acumen of a connoisseur and in addition is a clever musical composer and brilliant pianist.

Science Siftings.

At its nearest point the sun is 91,250,000 miles from the earth.

The controversy regarding Mars being an inhabited planet began in 1877.

A German scientist has advanced the theory that hailstones are shaped by the electricity of the thunderstorms that generally accompany them.

Professor Sir E. Ray Lankester calculates that by research, prevention and cure every epidemic disease could be abolished within the next fifty years.

Recent Inventions.

For cutting buttons from clothing an Indiana man has invented scissors supplied with a guard to prevent them cutting the cloth too.

A three pronged gas burner with a long handle, to be connected with a gas jet by tubing, has been invented for igniting fuel in coal ranges.

A combined silencer and bayonet for rifles has been invented to save a soldier carrying both implements and also from having to change one for the other.

Scared Into It.

Maud—But how on earth did you get him to propose?

Ethel—Oh, easily enough. I told him you were crazy about him and reminded him that this was leap year.—Boston Transcript.

As Shelley Has It Not.

I fear thy kisses, gentle maiden;
I fear thy mien, thy tone, thy motion—
Methinks thine eyes are heavy laden
With thoughts about this leap year notion.

—Judge.

One Exception.

"You can never tell what religion one has by his outside."

"Oh, yes; you know when he's a real Christian by the ashes on his sidewalk."—Baltimore American.

Lost His Passengers.

The man sat on the water cart,
Whence all but he had fled.
He was the driver, and he sought
To find his steeds a bed.

—Cincinnati Enquirer.

Lloyds' Bell.

The bell of the British frigate Lutine, which sank off the Dutch coast in 1799, with a cargo of coin and specie valued at $8,500,000, is the "bad news" bell at Lloyd's famous shipping insurance office in London. Whenever news is received that a ship is overdue, or when definite news comes of the loss of a ship, the bell is rung by the "caller." At its tolling all transactions are suspended until the news it heralds is read.

NA-DRU-CO LAXATIVES

a new evacuant pleasant to take, mild and painless. Increasing doses never needed. 25c. a box at all druggists.

National Drug & Chemical Co. of Canada, Limited

Poems With a Purpose.

The oak leaves whispered, crisp and sere
Rocks flew on ghostly wings;
The sedges by the lonely mere
Murmured of eerie things;

The hill winds held the sense in thrall
With their mysterious croon,
While, wizard-like, hung over all
The jack-o'-lantern moon.

—Clinton Scollard in Lippincott's Magazine.

The cattails called across the bog;
The dogwood's bark was low;
A blind bat fluttered in the fog,
Not knowing where to go;

The omelette sadly flapped its wings;
The toadstool heaved a sigh,
While stealthy Saturn with his rings
Remained up in the sky.

—E. E. Miser in Chicago Record-Herald.

The Reckless Humorist.

"I do hope," said the man who struggles to be blithe and gay, "that this fear of the airship's being utilized by smugglers will be realized."

"What an unpatriotic wish!"

"I can't help it. It would give me such a chance to refer to a smuggler as a misbehaviator." — Washington Star.

Woman.

To man a woman is a source
Of constant glad surprise.
He always finds new meanings in
The riddle of her eyes,
And, though at times she will not do
As he would fain demand her,
He likes her all the more because
He cannot understand her.

She fascinates him every time
And wins him with her wiles.
She drives him to despair, and then
She cheers him with her smiles.
And, though she sometimes is perverse,
Though he at times may flout her,
Of this you may be very sure—
He'll never do without her.

—Somerville (Mass.) Journal.

Right.

She—Mr. Jones is a fine man, one of the few, in fact, that stand for real progress. He says he likes to see two trees where one used to be.

He—He certainly lives up to that, and more too. When I took him home last night he was seeing six or seven where one used to be.—Puck.

A Short Trip.

He had a little airship
sky,
the
in
up
sailed
And
His steering gear was all at fault.
He
came
down
by
and
by.

—Birmingham Age-Herald.

His Wifely Reason.

"No, I never give up my seat in a street car to women. My wife won't permit it."

"Why not?"

"She says that if I offer a woman a seat she'll think I'm trying to flirt with her."—Cleveland Plain Dealer.

Almost Time.

It's almost time
For us to hear,
"You bet your boots
I shot a deer!"

—Boston Post.

Then, too, sans doubt,
This head we'll scan:
"The Deer Turned Out
To Be a Man."

—New York Commercial.

He sold his cow for a goodly sum
And with a biplane home did come.
And, since 'twould soar so very high,
He named the thing "The Butterfly."

—Judge.

Carefully Weighed.

In the Dana days on the New York Sun a young Cornell graduate was put at work reviewing books. One of the first books handed him was a massive "Life of Napoleon," by a college professor.

The Cornell man had specialized on Napoleon at his university under a great authority and thought rather pityy of this new biographer of Napoleon, who was a professor in another university, by the way. He glanced casually over the illustrations and wrote his review as follows:

"'Life of Napoleon,' by Professor Soandso. The work weighs nine pounds."

Mr. Dana read the review and sent for the young man.

"Did you write this review?" he growled.

"Yes, sir."

"Did you read the book?" growled Mr. Dana again, fiercer than before.

"No, sir; I weighed it."

"That'll do!" growled Mr. Dana again.

Then he sent word down to the cashier to raise the reviewer's salary.—Saturday Evening Post.

Black Velvet Foliage.

Now that fruit is one of the most popular forms of hat trimming we have gone in for foliage extensively. The new kind is made of black velvet. The oak leaf is quite fashionable; also the wide leaves of fruit trees. The velvet used is rather thin and is applied to green or black rubber stems.

It is often used to trim a hat without the addition of anything else. It is especially effective on all white hats, as the magpie combination does not decrease in popularity as the season rolls on. In truth, it is more in evidence than ever.

Lafayette.

The United States congress, Dec. 22, 1824, voted Lafayette, who was then aged and gray, $200,000 and 23,000 acres of fertile land in Florida as a reward for services and remuneration of expenses incurred during the Revolution.

Bamboo Houses.

In the building of bamboo houses in Japan no nails are used, the parts being bound together by lashings formed from the skin of the bamboo itself.

Dust and Disease.

Out of every thousand of those whose occupation calls for constant work in dusty quarters five die of consumption, according to German official figures, whereas among those who are not exposed to the action of dust only two out of a thousand die of the disease named.

The Red Hand.

The red hand in heraldry is the distinctive badge of baronets.

India.

There is no Indian nation, and the nations of India differ not only in interests, history and tradition, but they differ in regard to race feeling, and there are strong hatred and jealousy between parts of India still. There is nothing that keeps the peace in India but British rule.

Cause For Joy.

Madge—Well, the edict has gone forth. Smaller hats are coming in.

Marjorie—I'm so glad. Now I'll be able to keep them in my lovely hatbox and not have to use the storeroom.

ZAM-BUK SAVED MY ARM, AND WOULD HAVE SAVED MY FINGER IF I HAD USED IT".

Mr. John Evans of 87 Lawrence St., Halifax, N.S. makes this statement. He says:—"Three years ago I had a sore on my finger, which turned to blood-poisoning. We tried various remedies, but the finger got worse, and we called in a doctor. After two or three days he lanced it, and came every day for three months. My finger and hand were then in a terrible condition. The poison had spread to the palm of the hand, and I was almost frantic with the pain. I called in a second doctor, and after a conference the two doctors decided on an operation.

The finger was amputated, but the wound would not heal. The blood poison spread throughout the hand, and along the whole length of my arm. A second operation was performed, and some of the tendons taken out of my hand. Even this did not end the trouble and the wounds left by the operation would not heal. In a short time it was clear that the poison was extending right up my arm, at intervals along which great lumps were raised.

This was my condition when I tried Zam-Buk. In three days the pain was reduced so that I could obtain some sleep. Within a fortnight the lumps on my arm had disappeared. As I continued with the Zam-Buk the open wound on my hand and the stump of my finger began to heal. The doctors all along noted what Zam-Buk was doing, and it was clear to them that Zam-Buk was effecting a cure where their methods had failed. By the time I had used less than a dozen boxes of Zam-Buk my hand was completely healed. I am quite sure Zam-Buk saved my arm."

STATEMENT ON OATH

Mr. Evans has made a sworn statement on oath embodying the above facts before a Commissioner of the Supreme Court.

For all injuries, cuts, burns, &c. and for skin diseases, such as Eczema, Ulcers, Eruptions, use Zam-Buk. Also for Piles. Druggists and Stores, 50c. box or Zam-Buk Co., Toronto.

The Freshman.

Who wanders where kid spin has gone
And gets stung when the grades are drawn
And takes gym to increase his brawn?
The freshman.

Who is it wears the "rah-rah" clothes
And tries to publish what he knows,
Who's not aware that the "green" still shows?
The freshman.

Who spends his coin on the "fair co-ed"
Until he's gone "way "in the red"
And cannot pay for board or bed?
The freshman.

Who gets so mixed up in the "frat"
That he can't tell where he is at?
Who is it that does all of that?
The freshman.

—Coyote.

All in the Family.

A young New Haven man returning home from a health trip to Colorado told his father about buying a silver mine for $3,000. "I knew they'd rope you in," exclaimed the old man. "So you were ass enough to buy a humbug mine."

"Yes, but I didn't lose anything. I formed a company and sold half the stock to a Connecticut man for $7,000."

"You did?" gasped the old man as he turned white. "I'll bet I'm the one who bought it."

"I knew you are," coolly observed the young man as he crossed his legs and tried to appear very much at home."—Argonaut.

Hen Fruit.

I've fed 'em lime;
I've fed 'em hay;
I have a time
To make 'em lay.
They do not seem
To kindly take
To custard, cream
Or angel cake.

They fill their crops,
They eat away,
But there it stops;
They never lay.
When I get vexed
I'm pretty mean—
I'll feed 'em next
On paris green.

—Louisville Courier-Journal.

Harder For Moses.

The darky who mowed the lawn of a certain family in Richmond was unusually slow one day. Ordinarily the task, stretched to its utmost limit, took exactly two hours, but on this occasion it required almost four. When the job was finally completed old Moses requested pay for four hours' work at 20 cents an hour.

"But," objected his employer, "you usually mow that lawn for 40 cents."

"Dat's true, boss," returned Moses, "but I'll have to charge yo' more'n dat today. I was sick an' couldn't work so fast."—Lippincott's Magazine.

The Pessimist's Year.

January—bills you owe;
February—shovel snow;
March—you face the tempest's blow;
April—showers will soak you so;
May—get out the garden hoe;
June—the grass you'll have to mow;
July—dodge the sun's hot glow;
August—in hay fever's throe;
September—leaves to rake, you know;
October—grip will catch you sho;
November—chill and bleak and snowy
December—Christmas shopping go.

—Cleveland Plain Dealer.

Harmless.

Cittiman—Look here, sir, didn't you warrant the horse you sold me yesterday to be without fault?

David Harum—Yes. Ain't he?

Cittiman—No, sir, he is not. He interferes.

David Harum—Waal, I don't see as you hev any reason for complainin' about that. He don't interfere with anybody but himself, does he?—Successful Farming.

Disproportion.

As modern statesmanship you scan
'Tis very often found
You cannot estimate a man
According to his sound.
For, as the chauffeur sagely notes,
Full oft in tones of scorn
A fourteen horsepower motor totes
A sixty horsepower horn.

—Washington Star.

Caught!

Wife—Did you post that letter I gave you?

Hubby—Yes, dear; I carried it in my hand so I couldn't forget it, and I dropped it in the first box. I remember, because—

Wife—There, dear, that will do. I didn't give you any letter to post.—Minneapolis Journal.

The Test.

It's easy enough to be pleasant
When one with great wealth is cursed,
But the man worth while
Is the one who can smile
When the bills come in on the first.

—Cincinnati Enquirer.

A Calm Assertion.

"This train is an hour behind time," said the fretful passenger.

"Yes," replied the conductor, "but you ought not to mind that. It's a cheap pleasanter on this train than it will be in the town you're going to."—Washington Star.

The Millionaire.

De millionaire he go thoo life
De best' man on de docket.
He got no ha'r 'pon top his head,
But money in his pocket.

—Atlanta Constitution.

His Theory.

Teacher—What is it, Tommy, that Shakespeare tells us "becomes the throned monarch better than his crown?"

Tommy—Hair.—Harper's.

Leap Year Advice.

Although 'tis leap year, maidens,
This rule 'tis well to heap:
Don't take a man because you can,
But look before you leap!

—Cleveland Plain Dealer.

And Yet He Sees Double.

Wife—A man is blind to his own faults.

He—Yes, when he takes too many eye openers.—Cincinnati Enquirer.

Baseball.

Baseball is supposed to be a really modern game, but it isn't. The Greeks played it 4,000 years ago, according to A. G. Spalding.

DOCTORS COULD NOT HELP HIM

BUT GIN PILLS DID

"During August last, I went to Montreal to consult a specialist as I had been suffering terribly with Stone in the Bladder. He decided to operate but said the stone was too large to remove and too hard to crush. I returned home and was recommended by a friend to try Gin Pills.

They relieved the pain. I took two boxes and went back to the specialist. He said the stone was smaller but he could not remove it although he tried for two hours and a half. I returned home and continued to take Gin Pills—and, to my surprise and joy, I passed the stone. Gin Pills are the best medicine in the world, and, because they did me so much good, I will recommend them all the rest of my life".

J. ALBERT LESSARD, Joliette, P.Q.

50c. a box, 6 for $2.50—at all dealers, and money back if they fail to give relief. Sample box free. National Drug & Chemical Co. of Canada, Limited, Dept. B Toronto. 89

W. G. MORROW
MANAGING DIRECTOR

No Fear.

At a well known club in New York the other day one of those bores who are the bane of all clubs drew his chair up to Robert W. Chambers and said genially:

"Chambers, you are writing at the rate of two and sometimes three novels every year, to say nothing of your annual sheaf of short stories. Aren't you afraid that a time will come when you will have written yourself out?"

"My dear sir," Mr. Chambers replied, "I have no such fear. Just look at your own case. You have been talking for more than sixty years, and yet you haven't talked yourself out, have you?"—Washington Star.

Not the Pliable Kind.

"I can twist my husband around my little finger," said the Circassian beauty.

"That's all right," replied the fat lady, "but if you had married the ossified man instead of a contortionist you'd find him a harder customer to deal with."—Chicago Record-Herald.

Was Willing.

Tramp—Mister, would you give me a nickel for a meal?

Pedestrian—For a glass of beer, more likely.

Tramp—Wotever you says, boss; you're payin' fog it.—Boston Transcript.

Stung.

"How in the world did you ever come to marry that horrid man in the first place?"

"It was all my chum's fault."

"Did she tell you that he was rich?"

"No; she pretended that she wanted him herself."—Houston Post.

His Chance.

"The more I see of men the more I like dogs," declared the pessimistic boarder.

"Have some sausage, Mr. Wombat," suggested the landlady. — Pittsburg Post.

Takes a Week.

"I thought your daughter was coming home from the beach this week."

"We had to let her remain another week in order to finish saying goodby to a young man."—Washington Herald.

Note From the Styx.

Shade of a Reporter—I understand, Mr. Diogenes, that you have at last found an honest men.

Diogenes—Yes; but the son of a gun stole my lantern!—Baltimore Sun.

Been Porridge Hot.

"Would you call soup an edible?"

"Yes, an audible edible."—Boston Transcript.

THE MULE AND THE MAN.

The mule he is a gentle beast,
And so is man.
He's entitled to be the least,
And so is man.
Like man, he may be taught some tricks,
He does his work from eight to six.
The mule, when he gets mad, he kicks,
And so does man.

The mule he has a load to pull,
And so has man.
He's happiest when he's full,
And so is man.
Like man, he holds a patient poise
And when his work's done will rejoice.
The mule he likes to hear his voice,
And so does man.

The mule he has his faults, 'tis true,
And so has man.
He does some things he should not do,
And so does man.
Like man, he doesn't yearn for style,
But wants contentment all the while.
The mule he has a lovely smile,
And so has man.

The mule is sometimes kind and good,
And so is man.
He eats all kinds of breakfast food,
And so does man.
Like man, he balks at gaudy dress
And at outlandish foolishness.
The mule's accused of sullenness,
And so is man.
—Missouri Ruralist.

The Doctor—Presence of Mind.

Doctor—Well, how are you today?
Patient—No better, doctor.
Doctor—H'm; I think you would better leave off taking those pills I ordered you.
Patient—I haven't taken any of them yet.
Doctor—For goodness sake, then, take them.—Pele Mele.

His Unlucky Day.

"Friday is such an unlucky day!" she sighed.

"It isn't half as unlucky as Tuesday!" retorted her companion. "Last Tuesday, for instance, I fell out of a second floor window and was run over by a cat's meat barrow."

"How terrible!" she exclaimed, shuddering.

"Yes, and on the Tuesday before that," continued the sufferer, "I tumbled into a duck pond and was brought out on the end of a boathook. On the Tuesday before that I was chased by an infuriated bull. On the Tuesday before that—but why continue?"

"Why don't you stay at home on Tuesdays?" suggested his companion.

"You'd be safer indoors."

"Because I'd lose my job if I did," he replied. "I'm a bioscope actor, you see, and on Tuesday we make our comic films."—Answers.

The Amateur Fisherman.

I caught it far from traveled ways
Beneath a willow tree,
And there was none to give me praise
And none to envy me.

It may have been four inches long,
And as I flung it out
It seemed to think I'd done it wrong
And wildly flopped about.

I laid it on the grass beside
The tree 'neath which I'd sat.
My breast was filled with manly pride;
'Twas well worth gazing at.

'Twas neither bass nor trout, I know.
Its look was sad to see.
You would have flung it back, but, oh,
The difference to me!
—Chicago Record-Herald.

Swat the Fly.

There was a maid in our town,
And she was wondrous wise.
She jumped into the dining room
And swatted all the flies.
—Chicago Tribune.

And when the dining room was cleaned
Of flies she got to itchin'
To swat some more, so she killed
All that were in the kitchen.
—Los Angeles Express.

And when she'd cleaned the kitchen up
She felt quite acrobatic,
And with a mop she went atop
To swat 'em in the attic.
—Schenectady Union.

And when she had the attic clear
No one did have to tell 'er
That she should finish up the job
And swat 'em in the cellar.
—Allentown Observer.

And when she slew the cellar flies
She thought she'd killed 'em all
(Now, pardon us for mentioning it),
But she had missed the ball.
—St. Louis Republic.

Division of Social Labor.

King George of England in his younger days visited Canada in company with the Duke of Clarence. One night at a ball in Quebec, given in honor of the royalties, the younger prince devoted his time exclusively to the young ladies, paying little or no attention to the elderly ones and chaperones.

His brother reprimanded him, pointing out to him his social position and his duty as well.

"That's all right," said the young prince. "There are two of us. You go and sing God save your grandmother while I dance with the girls."—Ladies' Home Journal.

The Test.

"Ah, dearest," said the lovelorn youth,
"What can I say, what can I do,
To prove this one eternal truth—
That boundless is my love for you?

"Words are but common things at best,
Mere noises on the summer air.
Put me to love's severest test.
There are no deeds I will not dare."

"Cut out the romance," she replied,
"And drop your superheated gab.
If you would prove your love let's ride
Back home in that there taxicab."
—Detroit Free Press.

Not a Superman.

Zeke was on trial for stealing Colonel Todd's chickens, and overwhelming testimony had been introduced by the prosecution. Called upon for his defense, Zeke said:

"Well, suh, jedge, y' see, it dissaway: Ef Colonel Todd wull keep dem coach an' chiny pullets what has yaller laigs an' fedders down dey laigs, an' he keep dem in dat henhouse which is smack on de alley, and de henges jis droppin' frum de do', an' he done fergit where is de padlock, y' can't blame me. I's jes' a hooman bein'!"—St. Louis Post-Dispatch.

Days of Long Ago.

I cannot sing of long ago,
When all the world, they say, was fair.
I'm rather glad that this is so,
For it would fill my soul with care
If stalking past me there should come
A playful megatherium.

I would not touch a trembling lyre
In plaintive prehistoric lay—
An instrument I might admire,
But never should attempt to play—
And wake the world with song to see
The brontosauros in his glee.
—Washington Star.

Matrimonial Repartee.

They were a young couple and talked in loud voices on account of the rattle of the elevated train. He was not in a good humor.

"I wonder," she said, "why the allowances of money made to wives by husbands are called 'pin money.'"

"I suppose," he explained crossly, "it's because it sticks the husbands."—Popular Magazine.

The Elevator Ranks With The Indispensable Aids to Modern Business

BUSINESS was transacted without the typewriter, telephone or electric light for thousands of years. Until invention provided these conveniences, no one could realize how absolutely indispensable they would become.

Yet the business to-day that tried to get along without their aid would be a poor last in the race of competition. Many business men have yet to realize that good elevator equipment is as indispensable in the efficient management of the warehouse or factory as are typewriters and telephones in the general offices.

Otis Fensom Freight Elevators have *have made themselves indispensable* wherever they have been installed. They save labor—reduce the biggest single item of expense in any business, and at the same time remove sources of worry and vexation that otherwise would seriously impair the efficiency of an important department.

OTIS FENSOM FREIGHT ELEVATORS

It will be to your profit to realize *now* that in doing without good elevator service you have been doing without a really *indispensable* convenience.

Send me a copy of your book.

The booklet, "Freight Elevators and Their Uses," will aid you in deciding whether or not you really need an elevator. The book is free. Write for it.

THE OTIS-FENSOM ELEVATOR COMPANY, Limited
TRADERS BANK BUILDING, TORONTO

MARKET REPORTS.

Liverpool and Chicago Wheat Futures Close Lower—Live Stock—Latest Quotations.

CHICAGO, April 15.—It was a drawn battle to-day in wheat. Sales went far into the millions, and the market time and time again dashed up and down as much as from ⅞c below to 1¼c above the latest figures of forty-eight hours before.

It was said that the largest owner of wheat in Chicago had unloaded the great bulk of his holdings. Corn finished further apart even than wheat, varying from 1¼c off to 1⅝c advance, as compared with Saturday night. Oats showed a net decline of ⅝c to 1c to 1¼c to 1⅝c, and provisions a rise of 5c to 12½c.

Liverpool wheat closed ¼d lower than Saturday and corn ¼d to ¾d lower. Paris wheat closed 1c to 1¼c higher, Antwerp ⅝c higher, Berlin ⅝c higher and Budapest 1c higher.

Montreal Grain and Produce.

MONTREAL, April 15.—Business over the cable in Manitoba spring wheat was very quiet, the demand being limited and bids 6d to 1s below what exporters offered at Saturday night. The local demand for oats was better. Spring wheat flour, strong at an advance of 30c per barrel. Export trade quiet, but domestic demand fair. Millfeed firm and scarce. Butter weak, owing to larger receipts and limited demand. A good trade was done in eggs.

Corn—American No. 2 yellow, 82c.

Oats—Canadian western, No. 2, 54c to 54½c; do., No. 3, 50½c; extra No. 1 feed, 51½c; No. 2 local white, 50½c; No. 3 local white, 49½c; No. 4 local white, 48½c.

Barley—Manitoba feed, 46c; malting, $1.05 to $1.10.

Buckwheat—No. 2, 74c to 75c.

Flour—Man. spring wheat patents, firsts, $5.80; seconds, $5.30; strong bakers, $5.10; winter patents, choice, $5.10 to $5.35; straight rollers, $4.65 to $4.75; straight rollers, bags, $2.15 to $2.25.

Rolled oats—Barrels, $5.35; bag of 90 lbs., $2.55.

Millfeed—Bran, $25; shorts, $27; middlings, $30; moullie, $30 to $34.

Hay, No. 2, per ton, car lots, $14.50 to $15.

Cheese—Finest westerns, 16¼c to 16½c.

Butter—Choicest creamery, 28c to 28½c; seconds, 27c to 27½c.

Eggs—Fresh, 22c to 24c.

Potatoes—Per bag, car lots, $1.75.

CATTLE MARKETS.

Union Stock Yards.

TORONTO, April 15.—Receipts of live stock at the Union Stock Yards were 105 cars—2106 cattle, 606 hogs, 387 sheep and lambs and 170 calves.

D. A. McDonald sold for McDonald & Halligan: 68 calves, at $5.50 to $8 cwt.; 60 yearling lambs, at $7.25 to $9; 21 sheep, at $5 to $6.50; 14 bucks, at $5 to $5.50; 11 spring lambs, at $6.50 to $8.75 each.

McDonald & Halligan sold on Saturday: Two decks of hogs at $8.75, fed and watered; 4 veal calves, 155 lbs. each, at $8.50 per cwt.; 3 bobs at $2.50 each.

Cows—10, 1161 lbs., at $5.75; 1, 1220 lbs., at $5.75; 1, 1085 lbs., at $5.60; 4, 1150 lbs., at $5.40; 3, 1030 lbs., at $5.25; 1, 1190 lbs., at $5.25; 3, 1060 lbs., at $5.20; 11, 1307 lbs., at $5.40; 2, 1135 lbs., at $5; 3, 1000 lbs., at $5; 1, 1040 lbs., at $4.

Bulls—1, 1660 lbs., at $5.90; 1, 1480 lbs., at $5.65; 1, 1280 lbs., at $4.65.

Milkers—1 at $60.

Hogs—22, 175 lbs., at $8.65; 30, 158 lbs., at $8.65; 2, 235 lbs., at $8.65; 1, 420 lbs., at $7.65 (all fed and watered).

Montreal Live Stock.

MONTREAL, April 15.—At the Montreal Stock Yards, West End Market, the receipts of live stock for the week ending April 15 were 1000 cattle, 75 sheep and lambs, 1200 hogs and 1200 calves. The supply on the market this morning for sale consisted of 500 cattle, 25 sheep and lambs, 10,000 hogs and 600 calves.

The undertone to the market for cattle was strong and prices for steers were fully 25c per cwt. higher, while bulls and cows showed an advance of 25c to 50c since this day week, which was due to the small offerings, somewhat of a scarcity of finished cattle throuout the country, the advance in prices demanded for the same and the increased demand. A few full loads of choice steers, weighing from 1200 to 1300 pounds each, changed hands at $7, and good steers, weighing from 1050 to 1100 pounds each, brought $6.50 to $6.75 per cwt. A few choice bulls sold as high as $6.25 to $6.50, and choice cows at $5.75 to $6 per cwt.

The strong feeling which has characterized the market for hogs for the past month, still continues to be the main feature of the trade, prices to-day having scored another advance of 15c to 25c per cwt., making a net rise of 65c since the 25th of last month with every indication of them going still higher in the near future. An active trade was done at $9.25 to $9.40 per cwt. for selected lots, weighed off the cars.

The market for sheep and lambs was quiet on account of the very limited supplies offered and prices ruled firm. A few spring lambs sold at from $8 to $7 each, as to quality. The demand for calves was good, but as the offerings were only of medium quality prices ruled lower.

Butchers cattle, choice, $7.15 to $7.25 per cwt.; medium, $6 to $7; common, $4.50 to $5.50; choice cows, $5.75 to $6; medium, $4.75 to $5.50; bulls, $4 to $5.50; milkers, choice, each, $70 to $75; common and medium, each, $55 to $65; springers, $25 to $45.

Sheep, ewes, $5 to $5.25; bucks and culls, $4.75; lambs, $7.25 to $7.50.

Hogs, fed and watered, f.o.b., $8.25 to $8.40. Calves, $2 to $8.

East Buffalo Cattle Market.

EAST BUFFALO, April 15.—Cattle—Receipts, 2300. Market, active, stronger; prime steers, $6 to $6.25; shipping steers, $7 to $7.50; butcher grades, $6 to $7.25; heifers, $4.25 to $6.50; cows, $3 to $5.90; milch cows and springers, $30 to $65; bulls, $2.60 to $6.

Sheep and Lambs—Receipts, 17,000. Market, fairly active and easier. Choice lambs, $8.25 to $8.50; cull to fair, $7 to $8; yearlings, $7 to $7.50; sheep, $5.50 to $6.60.

Hogs—Receipts, 13,000. Market active, 5c to 10c higher. Yorkers, $8 to $8.20, pigs, $8.75 to $8.85; mixed, $8.15 to $8.25; heavy, $8.20 to $8.30; roughs, $7 to $7.25; stags, $4 to $6.25.

Chicago Live Stock.

CHICAGO, April 15.—Cattle—Receipts, 22,000; market active and steady to 10c higher. Beeves, $6.60 to $8.75; Texas steers, $4.75 to $6.10; western steers, $5.60 to $7.10; stockers and feeders, $4.30 to $6.65; cows and heifers, $2.60 to $7; calves, $5 to $8.

Hogs—Receipts, 34,000; market brisk and 5c higher; light, $7.50 to $7.92½; mixed, $7.60 to $8; heavy, $7.60 to $8; rough, $7.60 to $7.75; pigs, $5 to $7.20; bulk of sales, $7.80 to $7.95.

Sheep and Lambs—Receipts, 25,000; market generally steady; native, $4.25 to $6.30; western, $4.40 to $6.90; yearlings, $5.90 to $7; lambs, native, $5.50 to $7.75; western, $6 to $8.10.

A Humble Romance.

"Fly with me!" her lover pleaded
As he pressed her to elope.
But his wishes went unheeded.
For she calmly answered, "Nope!
Not while sarcs, as at present,
Are so apt to plunge and balk.
But," said she, "the weather's pleasant.
Don't you think we'd better walk?"
—Lippincott's.

To Bring Them Up Well.

Nursegirl—Oh, ma'am, what shall I do? The twins have fallen down the well!

Fond Parent—Dear me, how annoying! Just go into the library and get the last number of the Modern Mother's Magazine. It contains an article on "How to Bring Up Children."—Town Topics.

BRIDGENORTH

BRIDGENORTH, APRIL 12.—Mr. Robert Davis has taken possession of the Chemong Hotel and is very busy clearing up and putting things in order for the summer trade. Mr. Davis promises to be the right man in the right place as he intends to run the business on business principles and keep a respectable house for the public.

The ice on the lake still remains strong and teams are crossing and recrossing every day. In 1910 the lake was clear of ice on the 31st of March, but judging from appearances it will be May this year before the ice goes out.

It is very favourable for fall wheat and clover this spring, but this is the seasonof the year that the wheat and clover have to contend with the frost at night and hot sun in the morning.

The Bridgenorth Court of Foresters held a very successful basket social on the 8th of April. There were about 40 baskets disposed of averaging about $1.00 apice, with Mr. James Jopling acting as auctioneer. There was some lively bidding for the baskets. Mr. Bansomerman, the high secretary was late owing to the train being belated, but was in time to deliver a speech on the C. O. F.. It is the first appearance of Bro. Vansomerman in any of the local courts, but his pleasing manner and good, sensible talk will make him a favourite among Canadian Foresters. The receipts of the concert amounted to over $40.

Mr. R. Heard has finished cutting with his portable mill, and has cut a lot of logs up this spring. It has been very convenient for the farmers, as they could get their lumber home with them as they drew their logs in. No doubt Mr. Heard has been rewarded for his undertaking.

Pruning the Appendix

What thousands of people are rushthe idea that pruning the appendix tch idea that pruning the appendix will rid them of the cause and effect of wrong habits of eating and living.

We eat too much, take too little outdoor exercise, breathe impure air, and when the system gets loaded with foul impurities, which irritate the digestive system and set up inflammation, we are told that the operating table is the only place for us.

Why not prevent appendicitis, as well as acute indigestion, peritonitis and Bright's disease of the kidneys, by keeping the liver active and the bowels regular. Dr. Chase's Kidney-Liver Pills cleanse the digestive system of foul impurities more quickly than any treatment you can obtain. They awaken the liver and ensure the healthful action of the kidneys and bowels.

Florence Barclay's (author of the Rosary) new book "Through The Postern Gate" for sale at Trebilcock Bros.

SCHOOL REPORT

The following is the school report of S. S. No. 7, Emily, for the month of March, the names being in order of merit:

CURE SICK HEADACHE.

For the Children

Good Jokes for the Children's Page.

Photo by American Press Association.

At a summer resort in the Catskill mountains there was given not long ago a masquerade party for the little folks. The photograph shows two of the participants who took the characters of bride and groom. The bride was very much admired by all who saw them and complimented on her sweet and demure demeanor. And here is where the joke comes in, for there was much laughter when the truth was made known. It turned out that the beautiful bride who had been so much admired was a little boy dressed in bridal array, while the proud groom proved to be a girl in boy's clothing. They were the big hit of the masquerade.

How to Make a Compass.

A magnetic needle is very easily made where a magnet may be had. This, as you know, is used to ascertain the presence of iron.

A bit of fine steel wire, or a long thin stocking needle which has had a quarter of an inch cut off at the point, is to be heated in the center until it is capable of being slightly bent; then, while hot, a piece of sealing wax is attached to the center, and the point which was cut off, being made hot at the thick end, is to be fixed in the wax, so that the sharp end may serve as a pivot, descending about one-eighth of an inch below the center, taking care that both ends of the needle fall enough below the pivot to keep it from overturning.

It is now ready to be magnetised. This may be done by sliding an end of the magnet half a dozen times or so from the center to one end of the needle, and treating the other end in the same manner. A small brass thimble is best for the support, the point of the pivot being placed in one of the indentations near the center of the top, when, if well balanced, it will turn until it points due north and south. If one side tends to preponderate, it should be nipped until balance be restored.

Conundrums.

When is a chicken's neck like a bell? When it is rung for dinner.

Why does Sweden not have to send abroad for cattle? Because she keeps her Stock-holm.

What is the difference between a clock and a partnership? When a clock is wound up it goes; when a firm is wound up it stops.

When do the teeth usurp the tongue's rights? When they are chattering.

What should you do if you split your sides with laughter? Run till you got a stitch in them.

Why is Sunday the strongest day in the week? Because the rest are weak (weak) days.

Why is a plowed field like feathered game? Because it's part-ridges.

Why is a crow the bravest bird in the world? Because it never shows the white feather.

Oldest Newspaper.

The Tsing Pao, or Peking News, is the oldest newspaper in the world, having been issued regularly for nearly 1,400 years. Its circulation is about 10,000. The extreme care necessary in publishing this paper is shown by the fact that until recent years the punishment for an error in printing was instant death. Another Chinese newspaper, the Kin Pan, is a thousand years old.—Grit.

One Busy Potato.

Did you know that if there were but one good potato in the world and that was placed under the care of a first class gardener it would probably produce 10,000,000 other tubers in ten years' time?

Marjorie's Feast.

"Oh, won't you have a piece of nice mince pie?
And here's a bit of lobster salad, dear.
These oysters, fried, you'll surely like to try.
And do you take your coffee strong and clear?"

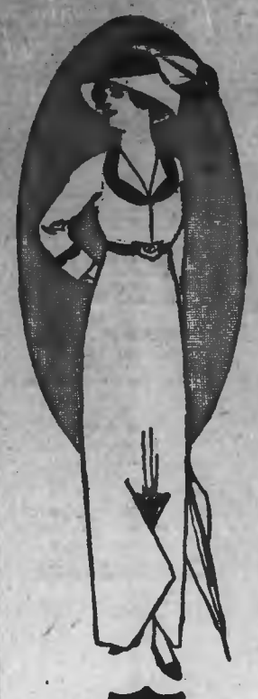
Much more I heard behind the maple tree
About ice cream and caramels and cake.
I thought, "What careless mothers there must be
When children these forbidden dainties take!"

I passed the open gate and entered there,
The Land of Make-Believe—enchanted land!
And Marjorie, with hospitable air,
Gave me a generous dish of clean, white sand.

—Chicago News.

Thirsty Camels.

A camel when in want of water moans continuously.



à la Grâce
CORSETS
are designed in many models, each closely following the lines of some particular type of figure.

Each model is made in a complete range of sizes.

Rarely indeed do we find a woman who cannot be fitted "just as if the corset were made for her alone."

The important thing is to get the model that suits your figure.

If your dealer hasn't the right one he will get it for you. If you are interested in the new models, write for our free style book.

Crompton Corset Co., Limited
Toronto

Cordovan Leather.

Cordovan is a Spanish leather, and for centuries the Spaniards have been famous tanners. This leather is from the horse, but now many split leathers masquerade under that name.

A Land Fish.

A fish that travels overland is well known in China. Sometimes it travels a mile on its way from one stream to another.

Length of Day and Night.

A simple rule by which the length of the day and night at any time of the year may be ascertained: It is done by simply doubling the time of the sun's rising, which will give the length of the night, and doubling the time of setting will give the length of the day.

An Emergency Wrench.

If two nuts are run on a bolt so that the square sides face each other they will serve as a wrench in an emergency.

Honey Poisoning.

Instances of poisoning due to honey have been observed from the remotest antiquity. Xenophon relates that his soldiers suffered from poisoning by honey. Among the symptoms he refers to vomiting, to pains and delirium.

Clusters of Eyes.

In spiders and scorpions there are usually eight or ten eyes in one or more clusters on the back and top of the head.

Fighting an Eclipse.

At the time of an eclipse the Chinese villagers deploy into the open with drums and every other instrument that will stand pounding and make an incessant noise, which is intended to frighten the earth dragon from eating up the Celestial man in the sun. It is very important to frighten the dragon back to his lair, because his quiescence means peace on earth and prosperity for the individual.

Cattle in New Zealand.

In New Zealand it is not customary for stock to be housed even in winter. Canvas covers are used on horses and cows in cold weather, especially at night.

Indians and Canoes.

No white man, no matter how expert, can ever quite equal an Indian in following a trail or in handling a canoe. The Indians seem to possess an aptitude in the handling of these frail craft which has come down to them through a long line of forbears.

Geographical Maps.

The inventor of geographical maps has never been definitely identified, but Anaximander of Miletus is generally assumed to be the man.

Lesser optimist, you smile and take, grant, bargain or convey
The property I'd fain acquire! (It's neither clod nor clay—
Nor strictly incorporeal—it's personal in a way—
And yet its real—oh, pshaw!) I pray
If you can give us unencumbered title, clear and free.
Your heart, with rights appurtenant, for life convey to me.

—Green Bag.

"I guess they like us, all right."
"What makes you think so?"
"They played several of their seven dollar phonograph records for us last night."—Detroit Free Press.

A politician came into a local railroad office with a constituent in tow and requested a job.

"But your man can't speak English," objected the railroad official upon starting an examination.

"That's true."

"What could he do on a railroad?"

"Give him a job calling trains."—Louisville Courier-Journal.

Servant lady,
Rather green;
Balky fire,
Gasoline.

Pours the fluid,
Travels far;
Floral token—
"Gates ajar."
—Washington Herald.

Bacon—Is he interested in any particular work of fiction?

Egbert—Well, I should rather say he is. He's a lightning rod agent!—Yonkers Statesman.

Bilts—Did you know that the oldest of Price's seven daughters had eloped?

Gilbert—No. How was the old man affected?

Bilts—Oh, he took on dreadfully at first. Then he found out that every one knew he had bought the girl's railroad ticket.—Judge.

"Ere I was wed," a sad one said,
"I lived alone, but lonely never.
You ask me how I pass life now—
Never alone, but lonely ever."
—Pall Mall Gazette.

Stout—I wish I knew how to reduce my weight.

Slim—That's easy. Eat at home and allow your wife only $6 a week for groceries.—Cincinnati Enquirer.

She—Just look at the trouble money can get you into.

He—Yes, but look at the trouble it can get you out of.

There was a halcyon day when I
Could lie to her and then deny
And hedge, reverse and bit by bit
Could stall and get away with it.

Ah, those were happy days indeed—
Ere genius planted cursed seed!
To hold me to my idle chaff
Myrtilla's bought a dictograph!
—Buffalo News.

"What is a thermometer, Willie?"
"I know. It's a thing they have for measuring temperance."—Boston Transcript.

Son—That's the Yale seal, pop.

Father—What's it for?

Son—Oh, to put on diplomas and beer mugs and things like that, you know.—Judge.

The wintry winds are keen, I wot,
As across the streets the women go.
Warm coats above—but, oh, great Scott,
It must be awful cold below!
—Judge.

Shortleigh—My Uncle Frank is a veritable Klondike.

Longleigh—Why, how's that?

Shortleigh—Plenty of wealth, but cold and distant.—Smart Set.

"That Boston girl is in a critical condition."

"Has she grown worse?"

"Yes. She corrected me yesterday for using the split infinitive."—Satire.

All our resentment now is lost.
The iceman soon with courteous care
We'll haste in patient mood to greet.
It's worth the difference in cost
To see ice in a wagon there
Instead of spread out on the street.
—Washington Star.

Mother—If you're very good, Edith, I'll take you to the circus.

Little Girl—Do you really mean it mother, or is it just a promise?—Life.

A man who smokes and belongs to clubs never has any chance in an argument with his wife about expenses.—Chicago Record-Herald.

HAD VERY BAD COUGH.

Tickling Sensation In Throat.

Could Not Sleep At Night.

A bad cough, with that distressing, tickling sensation in the throat, is one of the most aggravating coughs a person can possibly have.

Dr. Wood's Norway Pine Syrup will quickly stop that tickling in the throat which causes the dry cough that keeps you awake at night, for the simple reason that it is so rich in the healing virtues of the Norway pine tree, it cannot help but do otherwise.

Miss C. Danielson, Bowsman River, Man., writes:—"Last fall I had a very bad cough and a tickling sensation in my throat. It was so bad I could not sleep at night, so I went to a druggist and told him I wanted something for my cold and he advised me to try Dr Wood's Norway Pine Syrup which I did and after taking one bottle I was completely cured. Let me recommend Dr Wood's Norway Pine Syrup to any one who suffers from a cough or throat irritation."

Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper; three pine trees the trade mark; price 25 cents.

Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

TELEGRAPHIC BRIEFS

W. Watson Allen, K.C., a prominent St. John, N.B., barrister, died yesterday of pneumonia, aged 63.

Felipe Salvador, the Luzon bandit chief, who had a record of fifty murders, was hanged at Manila yesterday.

Rev. W. C. Weir of Oxford street Baptist Church, Woodstock, announced his resignation after Sunday's service, owing to ill-health.

Five horses owned by Nathan Brenner, junk dealer on Hagerman street, Toronto, were poisoned last night by an unknown enemy. They were worth about $300 each.

Another Government official in Kingston to lose his office is James F. Knapp, for five years Government Immigration Agent. His sucessor is Mr. G. H. Hunter.

W. E. Duperow was yesterday appointed general agent of the passenger department of the G.T.R., G.T.P., and G.T.P. Coast Steamships, with headquarters at Vancouver.

A severe electrical storm passed over Dunnville late Sunday night, during which lightning struck the Methodist Church at Canboro', setting it on fire and completely destroying it.

Once more the inquest into the death of Joseph Rosenthal, murdered Good Friday night near the Hydro-electric station in Strachan avenue, Toronto, was adjourned for a week at the morgue last night.

Canadians Who Back Home Rule.

London, April 16.—John Redmond, Irish Nationalist leader, has received messages from Judge Doherty, Montreal; Hon. Mr. Devlin, Quebec; Mayor Guerin, Montreal; Sir Thomas Shaughnessy, and Hon. A. E. McPhillips, K.C., Victoria, B.C., commending the home rule bill.

Unionist papers point out they have been issued from the Government whip's office. Therefore, it is needless to say they are all favorable to home rule. Though the terms of the bill are yet unpublished, the home rule council has issued 60 favorable messages from Irish Protestants.

Arrested For Murder.

Lynn, Mass., April 16.—A warrant calling for the arrest of William A. Dorr, alias Willis A. Dow, on the charge of murder of George E. Marah, the wealthy manufacturer, was sworn out by Chief of Police Thomas M. Burkes, late yesterday.

The police yesterday located in a Boston garage an automobile which they believe to be the one in which Marah's body was taken to the spot where it was found. They found a 32-calibre automatic rifle and a box partly filled with cartridges in the bottom.

Hit by Street Car.

Toronto, April 16.—Miss Mabel McPowell of 98 Bedford road, was knocked down by a street car on Avenue road, shortly after six o'clock last night, and so badly injured that she is not expected to recover. The young woman was crossing Avenue road at the corner of Yorkville avenue, and walked from behind an Avenue road car directly in front of a Dupont car coming in the opposite direction. She was picked up unconscious, suffering from a fracture at the base of the skull and a laceration of the brain.

Broke His Back.

Toronto, April 16.—Robert Rogers, a workman, who was employed on the erection of the new building being built by the G. W. Gillett Co., at the corner of Liberty and Fraser streets, fell down the elevator hoist, which he was operating early yesterday afternoon, and was so badly injured that he died shortly afterwards in the Western Hospital. His back was broken and he sustained a severe scalp wounds.

He leaves a wife and grown up daughter.

Adventurous Girl's Exploit.

Manitou, Man., April 16.—Ruby Ayriss, a sixteen-year-old girl from the Winnipeg Children's Home, stole a horse from one stable, and a saddle and bridle from another on Saturday night and disappeared. She cut off her hair and disguised herself as a boy.

Mrs. A—How did you happen to meet your second husband, dear?

Mrs. B—He ran over my first husband in his automobile.—Boston Transcript.

I said, "You are my poem."
She didn't quite agree
To that, but she admitted
She was averse to me.
—Judge.

"No; I don't feel the cold as much as I used to."

"How do you account for that?"

"I have one cork leg now."—Chicago Record-Herald.

Yeast—Did your wife get any time on that new hat of her's?

Crimsonbeak—No, but it looks as if she'd got about everything else on it!—Yonkers Statesman.

Finger Nail Pens.

When a Japanese maiden desires to show marked attention to her lover she uses the sharpened point of one of her fingernails in writing to him.

Creased Clothing.

Clothes packed away are often very creased. To remove the creases hang the articles on a clothesline in the bathroom, shut door and window, turn on the hot water tap to fill the room with steam and leave the clothes for an hour or two. Afterward dry in the open air if possible.

The Crystal Palace.

If the glass panes in London's Crystal palace were placed end to end they would extend to a distance of 242 miles.

Carrier Pigeons.

Carrier pigeons never take food while traveling.

1254 LIVES LOST IN MARINE DISASTER

ONLY 868 PEOPLE SAVED WHEN GIGANTIC LINER TITANIC SINKS TO OCEAN'S BOTTOM

Over 1200 People, a Ten Million Dollar Ship and Ten Million Dollars Worth of Cargo and Jewels Buried in the Deepest Part of the Ocean---Last Minute Despatches to Examiner Say Carpathia With Survivors on Board Will Not Reach Port Until Thursday---Number of Prominent Canadians Unaccounted For---Terrible Scenes in England Where White Star Offices Are Besieged by Relatives of Those on Board---Doubt as to Safety of Chas. M. Hays.

Special to The Examiner:

NEW YORK, APRIL 16.—The terrible character of the disaster that befell the collossal floating palace, Titanic and its town population of trusting souls, has increased, if anything, by the addition of the meagre fragments of news which have reached land. Up to two o'clock to-day, making all allowances, it seems unquestionable that twelve hundred and thirty-four people have lost their lives in this greatest naval disaster of the world's history. From all that can be gathered at the present writing, bodies to this number now lie at the bottom of one of the deepest parts of the Atlantic, buried together in their ten million dollar casket, with cargo and jewels valued at probably ten million dollars more, buried with them.

Meanwhile, the Steamer Carpathian, with eight hundred and sixty-eight survivors on board, is making all speed with her slow engines, to this port. She will not reach here till Thursday, but will probably be in wireless communication with Sable Island to-morrow, when more details about the sinking of the great ship, Titanic, will be obtained.

MONTREAL, APRIL 16.—The Canadian cities directly connected with the disaster, seems to be Winnipeg and Montreal. Prominent citizens of both these places are still unaccounted for and the gravest anxiety prevails. They are prepared to face the worst. Business in Montreal is practically suspended, and crowds of people stand watching the bulletin Boards.

Great hopes are maintained here that the Canadian steamers Parisian and Virginian would turn up with the bulk of the Titanic's passengers aboard. When it was given out that these vessels reported nothing, there was a visible shudder through the crowds in front of the newspaper offices.

Professor Barnes of McGill University, has been ordered by the Dominian Government to conduct experiments with his iceberg finding apparatus this summer, and it is probable that all Canadian liners will be compelled to equip with this protection within a few months. At two o'clock to-day, there was no more definite news about President Hays.

IN HOUSE OF COMMONS.

LONDON, ENG., APRIL 16.—In a brief statement to the House of Commons this afternoon, Premier Asquith and Leader Bonar Law, referred most feelingly to th Titanic disaster and said that it was some consolation to Great Britain and the United States that some of the Empire and the Republic had observed the best Anglo-Saxon traditions of the sea, and gave the first chance of safety to the women and children who were least able to help themselves.

CANADIANS NOT ACCOUNTED FOR.

MONTREAL, Q., APRIL 16.—While a telegram to the White Star offices from New York, says that President C. M. Hays is among the survivors, his name is not among the offifficial list and the Grand Trunk authorities here are anxiously expecting some definite words from the president himself.

As far as can be ascertained from the list wirelessed from the Carpathian, now on her way to New York, the following Canadians are safe aboard that ship;—Major Peucher, Toronto; Mrs. Hogaboom, Toronto; Mrs. C. M. Hays, Montreal; ;Mrs. Thornton Davidson, Montreal Mrs. James Baxter, Montreal; Mrs. Fred C. Douglas, Mrs. Mark Fortune, Winnipeg; Miss Lucille Fortune, Winnipeg; Miss Alice Fortune, Winnipeg.

The Canadians not accounted for are. Mr. Mark Fortune, and apparently one of his daughters, Markland Molson, Montreal; Dr. Pain, Hamilton; Mr. and Mrs. Allison and daughter, Montreal Hugo Ross, Winnipeg; Thompson Beattie, Winnipeg; Thomas McCaffery, Vancouver; C. M. Hays, Montreal; Thorton Davidson, Montreal; W. H. Parr, Montreal; J. J. Borebank, Winnipeg, formerly of Toronto, and V. Payne, Montreal.

DISTRESS AT SOUTHAMPTON.

SOUTHAMPTON, ENG., APDIL 16.—Distressing scenes have been witnesed throughout the morning at the White Star offices here, which have been thronged with relatives of the crew of the Titanic. The town is absolutely stunned by news of the disaster, which is the greatest blow that Southampton ever sustained. Every member of the crew had his home here, and a large proportion of them were natives of the town. There is no family in the city or its vicinity wh ohas not lost a relative or friend.

NEW YORK, N.Y., APRIL 16.—A revised list of the lost, supplied by a Marconigram from the Olympic, makes it thirteen hundred and forty-two. It is conceded here that Millionaires Richard Guggenheim and John Jacob Astor, are among the drowned. There is nothing more definite about Chas. M. Hays.

ADMITS ALMOST THE WORST.

NEW YORK, N.Y., APRIL 16.—After an all night vigil with scattered Marconigrams coming in with heart-breaking slowness, Vice Pres. Franklin of the White Star Line, issued from his office this morning prepared to admit almost the worst. "It is terrible, horrible," he said, to the assembled newspapermen. "It is useless to express further hope. We fear all are lost except eight hundred or so coming in on the Carpathian." Later, however, a message from St. John, N.B., stated that the Canadian steamer Virginian had wirelessed she was coming in there, as she was eastward bound. It is hardly conceivable that she would turn back unless she carried survivors of the ill-fated Titanic.

PRESIDENT HAYES SAFE.

MONTREAL, Q., APRIL 16.—A private message received from Newfoundland this morning, says President C. M. Hayes and Mrs. Hayes, and also Mr. and Mrs. Thornton Davidson are safe there. From this message it is gathered that many more were saved than yet mentioned. It is announced from New York that Major P. Euchen and Mrs. Hogaboom, of Toronto, were saved, also Mrs. Baxter, of Montreal.

NO SURVIVORS ABOARD.

MONTREAL, Q., APDIL 16.—It is feared that the forlorn hope that the

(Continued on page 10.)

MR. JOHN H. LAUGHTON, of Parkdale, President of the Ontario Educational Association, who is presiding at the general meetings of the big convention of teachers now in progress at Toronto.

FOR SUMMER RESIDENCES

Property Along River Below Crawford's Grove to be Broken Up Into Building Lots

GROVE RETAINED FOR PARK

The property on the west side of the Otonabee River, extending from Crawford's Grove down stream, nearly a mile, will be broken up into building lots for summer residence purposes, and will be put on the market within a short time.

Crawford's Grove, itself, and the land west of it to the little tributary creek, will be preserved as a public park, according to the plans of the owners.

All this section of river property has for years been the location of the summer homes of many of Peterborough's people. The great majority have had to live in tents, but with an opportunity of purchasing desirable lots it is believed that they will be rapidly taken up by those who desire an outing for their families on the Otonabee during the summer months, and who do not wish to remove too far from the city. The Crawford Grove property and that below it has always been popular, and every summer there has been a regular colony there. The banks are high and the locality is generally desirable.

A strong feature in favour of this locality is the prospect of the extension of the Street Railway to the Grove. This has been spoken of before, and when the line is built to Byersville the remaining distance to the river is not a serious matter if the business can be secured by the extended service.

A GOOD REPUTATION

Any firm's business is largely built up on its reputation for fair dealing. This is particularly true of an Insurance Company. You won't want a policy in a company that, when your fire loss occurs, is going to squeeze you and hold off as long as possible. You want your loss fairly settled and promptly paid. The Company that has earned in the last three quarters of a century perhaps the greatest reputation for liberal and prompt loss settlements is the Liverpool & London & Globe. See that you have its protection. Agent, W. H. Hill.

"Everybody's Doing It"

Peterborough, April 15, '12.

Sir,—From Romaine to Charlotte street last night about 7 o'clock all the active population were playing baseball. Are they really so fond of 'play?' Rather bad manners!

Yours truly,
W. A. BAILEY.

CITY ASTOUNDED BY THE TERRIBLE LOSS OF LIFE

A Pall of Gloom Settled This Morning as the Meagre but Awful Facts Were Bulletined

SOME OF THE EXPRESSIONS

The Examiner's bulletin this morning with a synopsis of the "Titanic" disaster, gave Peterborough people the first general idea of the situation, and the pleasure and satisfaction, expressed by the public yesterday, at what semed a miraculous escape, was changed to-day into deep gloom, at what was apparently a terrible loss of life.

Astounded and Dazed.

As the truth of the situation dawned upon the general public, citizens in almost every instance were not only astounded, but almost dazed, by the awfulness of the catastrophe. The extreme reverse of the reports of yesterday was a factor that left people floundering in doubt and the worst imaginings. Only a few minutes previous, there were praises heard for the wonderful work of Marconi and the value of his invention, but it was only after this morning's flashes were read and reread, that it was borne home that yesterday's reports seemed to have been manufactured or built up on mere hopes.

Not To Be Expected.

"We might have known that it was worse than yesterday's reports said," was the remark of a prominent old countryman to-day in front of the Examiner office. "I have crossed over a number of times and I know almost what it would be like. We should have known that the Titanic must have been terribly battered up. It was her first trip and they must have been sacrificing much for speed in order to make a good showing. Then, while running at 20 knots or more to collide with an iceberg—if we had only stopped to think we might have known that the situatio nwas more serious, even with the bulkheads."

Some Remarks Heard.

"Isn't it dreadful," "It's terrible," "I wonder if they saved Charles Hays?" "Did they get the diamonds," "Were the Astors drowned." These and a host of exclamations were heard everywhere to-day. The disaster was the talk of the streets, the stores and the factories, and the lack of detailed information, leaving so much room for doubt and uncertainty, was a spur to the imagination of most people.

Only a personal loss brought home to many could have made the disaster more terrible. At is was, the awfulness of the affnair aroused the sympathy of the entire populace and pall-ed the city in a gloom that will not soon lift.

CAUSES SICKNESS

Good Health Impossible With a Disordered Stomach.

There is nothing that will create sickness or cause more trouble than a disordered stomach, and many people daily contract serious maladies simply through disregard or abuse of the stomach.

We urge every one suffering from any stomach derangement, indigestion, or dyspepsia, whether acute or chronic, to try Rexall Dyspepsia Tablets, with the distinct understanding that we will refund their money without question or formality, if after reasonable use of this medicine, they are not satisfied with the results. We recommend them to our customers every day, and have yet to hear of any one who has not been benefitted by them. Three sizes, 25c., 50c., and $1.00 a box. Sold in Peterborough only at our store,—The Rexall Store, McDermid and Jury.

LAID TO REST

The funeral took place at four o'clock yesterday afternoon, at the Little Lake Cemetery of a well-known resident of Peterborough in the person of Mr. Charles Butcher, of 536 Stewart street.

The deceased gentleman was a lifelong resident of Peterborough, and was known to a wide circle of friends He was a member of the old fire brigade and by occupation a carpenter. He had been ailing for about one year.

The late Mr. Butcher is survived by a sorrowing wife and two children, Ronald and Donald. The funeral was largely attended and among those present were a umber of the old Peterborough Fire Brigade.

APPLICATION FOR LEAVE DISMISSED

Last Act of "Cause Celebre" Bennett vs. Havelock Took Place Yesterday at Osgoode Hall

AN INTERESTING CASE

TORONTO, APRIL 15.—Bennett and Nolan vs. Havelock L. & P. Co., Ltd., and others. M. Lochart Gordon for plaintiffs, and S. T. Medd for defendants. The last act in this well-known case took place before the five judges of the Court of Appeal for Ontario, at Osgoode Hall to-day. Sir Charles Moss presiding, when the court dismissed, with costs, the application made to it on behalf of the plaintiffs for special leave to carry the case again before the Supreme Court at Ottawa.

Three years ago several shareholders of the Light and Power Company started an action against the Company itself and against the five original directors of the Company, claiming that 200 shares of the Company's capital stock had been issued to the five original directors for nothing, and asking that those shares be cancelled or paid for, four of the directors claimed they had paid in full for those shares. The Company submitted its position to the Court's direction. The trial took up three days of the time of the High Court of Justice at the Assize. Judgment was reserved, and some time after handed out, dismissing the case, but without costs.

The plaintiff then appealed to a Divisional Court of the High Court at Osgoode Hall, and that court, after a two-days' hearing, reversed the judgment of the trial judge and ordered each of the four directors to pay $1,000 and all expenses and costs of the litigation.

Negotiations for a settlement were then taken up by the interested parties and their friends and the directors, hoping for a settlement, finally decided to abandon further opposition to the plaintiff's demands and arrange to meet them on any fair basis of compromise.

Some months later, and long after the time for an appeal had expired, the plaintiffs again brought the case before the Divisional Court, claiming additional relief, which was granted. At the same time, the directors, who now realized that their hope for any reasonable settlement would not be considered by the plaintiffs, asked their solicitors to endeavour to get leave to go on with their abandoned appeal and that was obtained.

The case came before the Court of Appeal for Ontario, in October last, and that Court, after hearing the whole case, fully presented and argued, reserved its decision, which was later handed down, reversing with costs the judgment of the Divisional Court and fully vindicating the original directors, and absolutely clearing them of the charges of fraud, misrepresentation, concealment, and conspiracy ith which they had been charged by the plaintiffs.

The plaintiffs then appealed to the Supreme Court of Canada, at Ottawa, and the defendants at once applied to that Court for an order prohibiting this appeal, claiming that the law governing the Supreme Court gave no authority to that court to hear the appeal. The Supreme Court heard counsel for both sides, and reserved its decision, and finally decided it had no power as the case stood to hear the plaintiff's appeal.

The plaintiffs, as a last resort, today made application to the Court of Appeal at Osgoode Hall for special leave to appeal to the Supreme Court on the ground that as the questions of law involved in the case were questions of general public interest, questions that were applicable to the whole Dominion, and as to which there was a conflict as to what the law really as, there should be an opportunity given the plaintiffs to have their rights tried out in the highest tribunal in the land, but this was refused. The Court, in giving judgment, stating that if there was a doubt as to what the law was, it had better be settled at the expense of some one other than these directors, whose acts and deeds had been fully vindicated by their Counsel in this court in October last, and brought within well conceived principles of law; that the Supreme Court had apparently given consideration to the matter in February last, and that these directors should not be put to the expense and trouble of litigating these questions farther, as far as they were concerned.

The absolute purity and delicious flavour, the refreshing and invigorating qualities of "SALADA" Tea, have made it the daily beverage of satisfied users.

MONAGHAN RESIDENTS SHARE CITY'S PRIVILEGES

Som of Aldermen Claim They Should Come in With City—Work in Factories, Live Outside, Pay Nothing to City and Enjoy Many of Things Paid For by the Citizens

REV. H. J. KEITH.
Pator of Knox Church, which completed its fifth anniversary celebration last evening.

SOME OF THE DISCUSSION

There is considerable talk among the ratepayers, generally, in the Township of North Monaghan, as well as in Peterborough, that some action should be taken to bring about the union of the city and that part of North Monaghan extending from the boundary line of Smith, our Jackson's Park, directly south over what was known as the Edison Heights, through Byersville, on to the river, and east to the Lock bridge.

New West Ward School.

This property has increased very much in value during the past ten years. It is paying a merely nominal tax, while the city has been expanding and growing, giving to the outlying properties a valuation in what is known as the "unearned increment". It is said that the Board of Education is about arranging for the purchase of a site for the West Ward school, at the head of Weller street, in North Monaghan; others favour a site on the Hutton property. Expropriating or purchasing either of these sites will still further increase the value of the land in that locality, and the city should have whatever advantage there would be in the increased assessment of their properties.

Residents Opposed.

Some residents outside the Corporation are opposed to the movement, but felt they would like the advantage of the waterworks. Byersville is clamouring for sidewalks and sewers, but the Township gives the matter no consideration, as they feel that any indebtedness incurred upon the township is borne by the whole people and the taxes collected are not sufficient to do the work required, and that it is a large work that can be better performed by the city.

Contribute Nothing.

At last night's meeting of the Property Committee Ald. Duncan stated that the city was building up North Monaghan. The residents are sharing in many of the things paid for by the citizens, and they are contributing nothing.

Ald. Brown—"We even give them a certain amount of fire protection. Whenever there is a fire that can be reached the brigade has been ready and willing to do whatever it can.

Work Here—Live Outside.

Mr. Carver of North Monaghan, stated that he did not think it was altogether fair that the residents of the township should earn their daily livelihood in the city and live outside, paying nothing in the form of taxes to the city.

Have No Sidewalks.

"They haven't even a foot of sidewalk in Byersville. They undertook to lay some, and it was found that they would cost about $4 or $5 to each ratepayer. Then they all started wrangling and the sidewalk idea fell through."

Cannot Annex.

City Solicitor Hall stated that the city could not annex this district. A union can be secured only by a majority vote of the residents of the township.

From the opinions expressed, it is evident that the city feeling is that the residents in the country adjacent to the city should come in. Some steps towards this end will be taken this year, according to information received around the Council Chambers.

White Swan Yeast Cakes,

MR. HOWDEN'S STATEMENT

Monaghan Reeve Explains Circumstances Under Which He Bought Jackson Property

HEALTH BOARD NOT ACTING

Reeve Howden of North Monaghan, stated to the Examiner this morning that he had purchased the Jackson property on which the city had an option ,and explained the circumstances under which he agreed to buy it. On Saturday some of the North Monaghan ratepayers told him that protest against the sale of the land for dumping purposes to the city was taking a sale away from Mr. Jackson. The Reeve then offered to buy the land at the price offered by the city, $2200, when the city's option expired, if the city did not take it in the meantime. On Saturday the Monaghan On Saturday the Monaghan Council decided to take the matter out of the hands of the Board of Health, and deal with it themselves. A meeting was to be held this week when the question would be discussed by the township council.

PROGRAMME of the First Annual Concert given by ST. GEORGE'S CHORAL SOCIETY (Chorus of 70 Voices) in the Grand Opera House, Peterborough, TONIGHT, April 16th at 8 p.m. Principals: Sopranos, Mrs. A. Wells and Mrs. Bert. Read; Contralto, Miss Ada Lee; Tenor, Mr. Geo. Deakin; Basses, Mr. E. Dickson and Mr. J. Barnette; Elocutionist, Miss Maggie Moss; Accompanist, Miss Flowers; Solo Violin, Dr. Park; Conductor, Mr. E. Thompson. Prices—50c, 35c and 25c.

HELD A DANCE

Officers and Men of No. 6 Company Trip the Light Fantastic

No. 6 Company, 57th Regiment Peterborough Rangers, Captain McLean, held a dance in the band room of the Armouries last evening. About fifty couples were present and a very enjoyable time was spent. Music was supplied by the opera house orchestra. The catering was looked after by Mr. T. Hooper, who again demonstrated his ability to supply the wants of a hungry company of dancers to the satisfaction of all concerned. Colonel Clegg and about ten officers also took part in the proceedings.

GOES TO TORONTO.

Mr. Ira D. Moore, who has been western division sales agent for the local branch of the Quaker Oats Company, left this morning for Toronto to assume charge of the Toronto branch of the company's business. This promotion represents a considerable jump for Mr. Moore in the company's service.

THE WEATHER

Yesterday was the warmest day we have experienced for many months. In the afternoon the temperature was up to 70 degrees in the shade. The warm rain, accompanied by thunder and lightning was a novelty after such a period of winter weather. Rainfall, .65 of an inch.—W. P.

THE STRETCH OF THE TITANIC.

The stretch of the iceberg-rammed Titanic is, indeed, titanic. The length of this leviathanic White Star liner, over all, is 886 feet. To give a popular idea of this length, it is pointed out that if she could be placed in George street, with her rudder resting on the south side of Brock street, her prow would touch the Dominion Bank building, at the corner of Simcoe and George streets; that is to say she would extend the length of two city squares, including the width of two streets—Hunter and Simcoe, a distance 72 feet greater than one-sixth of a mile. The beam—breadth—of the Titanic is 92 feet, 6 inches, so that if she were to be placed in George street, the buildings would have to be shifted, laterally, 13 feet, 6 inches on each side, to accommodate her, and her upper works would tower high over all the buildings.

THEMSELVES TO BLAME.

A commercial traveller, commenting on the respective policies of Mr. Rowell and Sir James Whitney—"abolish the bar" and "abolish treating"—says that the liquor interests, brewers, distillers and hotel keepers, should come forward with their policy and save the traffic. It is rather late in the day for this. The liquor interests, especially the retail dealers, the managers of the bars, are directly responsible for the evil that has come upon them. Many of them—enough to give the others a bad name—have outrageously and persistently broken the law and brought double discredit and damage upon, and to, the law-keeping holders of licenses. If license holders generally had observed the law, respected legal restrictions on the traffic, as faithfully as some license holders of which we have examples in this city, there would not have been the wave of temperance protest, indignation and interference, that threatens to sweep the bar out of business. The bad, dishonest, greedy and conscienceless license holders have not only discredited the respectable and law-abiding element of the traffic, but have involved them in the danger of the extinction that seems to threaten the whole business.

ON THE SAME PRINCIPLE.

The Halifax Herald, like most other Conservative newspapers, protests vigorously against the obstructionist tactics of the Dominion Senate, and yet in the course of an anti-bounty deliverance, it says:

"In any event the rule now established under which subsidies are payable should be applied to bonuses also. Every concern applying for such assistance should be able to show, and should be obliged to show, not by hypothetical calculations, but by the actual records and results of their operations, that they cannot carry on their industries at a reasonable profit without special aid. These statements should be sworn to and audited by experts and form part of their application for government assistance. Such items as wages, salaries and supplies should be closely scrutinized and made public before the people represented by the government should be expected to contribute."

The Herald, remarks the Brantford Expositor, gives away the whole case of those who are denouncing the course taken by the Senate on tariff commission and other matters. The Senate amendment to the Tariff Commission bill asked for the very thing which it now says ought to be done. The fact that the people as a whole are so utterly indifferent to the complaints against the Senate is indicative of a conviction that the action of that body with regard to the four government measures which were withdrawn as quite justifiable, and that if any public interest has suffered thereby upon the government rather than the Senate should rest the responsibility.

R R R

RADWAY'S READY RELIEF

CURES CROUP

In attacks of this dangerous disease prompt attention is all important. The moment signs of Croup appear apply Radway's Ready Relief freely to the throat and chest, and give sufficient quantity of the Syrup of Ipecac to produce vomiting. If this treatment is followed, not one case in a thousand will prove fatal.

Ask for RADWAY'S and be sure you get what you ask for.

THE BATTLESHIP SWEEPSTAKES.

Great Britain still leads, two to one, in the battleship building race, as well as in actual preponderance of tonnage, in excess of the two-power standard. A recent report of the completed tonnage of warships, of the chief naval powers, Great Britain, the United States, Germany, France and Japan, shows that in actual tonnage of battleships, Great Britain stands conspicuously at the head with 1,934,503 tons. This is 430,833 tons in excess of the combined tonnage of the United States and ermany, which is, respectively, 759,050 and 744,719 tons. The completed tonnage of Great Britain is 1,299,783 tons in excess of that of Germany, so that Germany has a good deal of ground to cover before she gets level with Britannia, especially as Germany is falling behind. Great Britain's tonnage of war ships, building and authorised, amounts to 462,410 tons, while that of Germany of the same kind is only 387,850. When both are completed the respective totals of warship tonnage will stand at, 2,396,912 tons, for Great Britain, and 1,082,569 for Germany, and will increase, Great Britain's preponderance of tonnage over Germany to 1,314,343 tons. It therefore appears that Great Britain is not only far ahead in the race with Germany, but is increasing her lead, and making a gallant bid for the sweepstakes, for she has as large a tonnage of battleships, building and authorised, as all the other great naval powers mentioned above ,except of course, Germany. There's lots of life in the old sea-dog yet.

OUR EMPIRE'S GROWTH.

The British Board of Trade has just issued a most interesting abstract in regard to the growth of the British Empire between 1881 and 1911. The total area of the Empire is placed at 11,306,000 square miles. In 1881 the total population was 303,684,000, but in the thirty years it has grown to 416,318,000, or a population of 36.8 to the square mile. But Old England offers a startling contrast in its proportion of people to the country's area. Its population was last year 45,216,685 as against 34,884,848 in 1881, and averages out at 373.4 per square mile.

The growth of the various portions of the Empire in the thirty years is illustrated by the following figures:

India, from 253,561,470 to 314,965,240.

Canada, from 4,324,810 to 7,081,869.

Australia from 2,250,194 to 4,455,005.

New Zealand from 489,933 to 1,008,458.

Natal, from 402,687 to 1,191,968.

Cape Colony, from 720,984 to $2,567,000.

Orange State, from 387,315 to 526,906.

Transvaal, from 1,269,951 to 1,676,611.

The chief significance of these figures lies in the fact that outside of India, the increase has been almost wholly of white people, every nation of Europe having added its quota of people to swear allegiance to the British flag and add to the strength of the Empire.

EDITORIAL NOTES.

The Toronto Telegram is after Dr. Pyne and the other Conservative M. P. P.'s for Toronto over the closing by the government of a public school in Springer township, containing 72 English-speaking and 34 French-speaking children, because a teacher who could speak both languages could not be obtained. The incident is one, says the Brantford Expositor, which would give the Orange lodges of the province lots to talk about if Grits were responsible therefor, but when committed by a good Conservative Orangeman like "Brother" Pyne it will be accepted without a grimace.

THEN AND NOW.

The beginning of the springtide of immigration, which is now being distributed all over the Dominion, and which promises to be the prelude to the biggest season this country has ever known, serves to illustrate how Canada has progressed as a magnet of attraction for those who seek new homes in a new land.

When Thomas D'Arcy McGee was minister of immigration just after the union it was considered a matter for cogratulation in his annual report to parliament that in one year 27,084 European immigrants had landed in Canada, of whom only 4,303 declared their intention of remaining in Canada, the rest being birds of passage to the United States.

Now, it is a poor week during the active season when we have not 20,000 arrivals in the country, most of whom come to stay and to help to build up the new Canada.

Then it was a common thing for sailing vessels to take anywhere from 35 days upwards to cross the Atlantic, while the primitive steamships of that period did well if they made the passage in twelve or fourteen days. Now we have floating palaces where the steerage passengers are practically as well treated as were the saloon passengers of the seventies. The long passage has been reduced into one of five, six or seven days, with every comfort for those who travel by sea.

Then again, how different is the manner in which the immigration traffic is handled by the railways.

The old cattle cars give place to colonist sleepers where passengers are much better off than were the first class passengers of the bygone days. Winnipeg is closer to Liverpool than Quebec was forty years ago, and the progress has only begun.

If some of the pioneers who came across in the early seventies could see for themselves what progress has been made in the handling of immigrants they would consider that the people who are arriving to-day have very little to complain of. And yet there are complainers. There are men and women coming here to-day who 'kick' at the slightest failure to secure all the comforts of a first class hotel while travelling as steerage. But human nature is always the same. Additional comforts bring the desire for more, and while some cynics may say that the people who are coming to Canada to-day are not of the same stuff as the men and women of olden days, it must be remembered that they have been brought up in a different school, and expect things to be necessaries which until a very few years ago were luxuries.

All honour to the immigrants of the olden days, those who hewed out homes for themselves in the forests of eastern Canada. Their example might well be followed by those who are coming now. The best advice to a new comer is to take things as they come and make the best of them. Those who adopt that policy will succeed; those who do not will fail, and it will be their own fault.—Ottawa Free Press.

THROUGH WINE HUED GLASSES.

(Montreal Herald.)

Mr. Armand (Lavergne (the Nationalist expert of Quebec), has returned from Winnipeg, and has confided to The Gazette his feeling that the fuss the Winnipeg Conservatives made over him and Mr. Lamarche at the Roblin banquet "was sufficient evidence that a splendid feeling exists out in that country towards the Province of Quebec." That is not exactly what it proved. What it did prove was that a couple of thousand eager Conservatives in Winnipeg were ready to pat on the back the young gentlemen whom they expect to see leading the Conservative hosts in the fight which is to begin any day in this Province! The Manitoba Conservative has not much love to waste on Quebec as Quebec, or much sympathy for any of the policies that commend themselves to Mr. Lavergne; but for anybody who will work to make the Conservative party strong in the Dominion he has the utmost good will, and is not gingerly about showing it. If Mr. Lavergne were by any chance to be working against that party just now, he would have come back from Winnipeg with a million proofs that he was, in the eyes of his hosts, no better than a common malefactor. As it is, they were thinking altogether about what be done to wrest Quebec from the Liberal party. There are some of Mr. Lavergne's friends who understand this. Le Devoir is disposed to be cynical about the whole Winnipeg performance.

MADE HIS DEBUT

John Kane, the newly appointed member of the police force, made his initial bow to the public last night. He looked well in the regulation uniform, and in the authority of the law. The new guardian of the peace was allotted the responsibility of maintaining law and order no the George st. beat. It is understood that P. C. Kane had no occasion to exercise his authority during the night, therefore his first night of police duty passed off uneventfully.

ONLY 868 PEOPLE SAVED WHEN GIGANTIC LINER TITANIC SINKS TO OCEAN'S BOTTOM

(Continued from Page 9.)

Allan Liners, Parisian and Virginian picked up the survivors of the Titanic disaster has now completely vanished. They were both spoken to by wireless this morning at eleven o'clock and neither reported survivors aboard.

TROUBLE SCENES IN LONDON.

LONDON, ENG., APRIL 16.—(Special cable.) — There were terrible scenes around the offices of the White Star Line, near Trafalgar Square, today, when hundreds of relatives of persons on the passenger list of the sunken Leviathian Titanic, stamped ed the officials for information as to the survivors from the terrible disaster. There were people of all classes. Well dressed women stepped out of limousines and mixed in the throng with grimy workmen, all beseeching for information about loved ones on the ill-fated ship. At first, there was nothing but extreme anxiety evidenced, but as the day were on, with little definite information, there were scenes of rising anger that might work retribution on the offices of the company. When the general agent finally appeared at a upstairs window and read the list of those known to be saved, the great majority heard it with heart-rendering disappointment, for the names they wanted to hear were not among them.

There were cries of indignation against the company. "Why did you lie to us yesterday that all the passengers were saved," said some; "they saved the millionaires in the first cabin and let our poor folks go down like rats in a trap." These were some of the bitter remarks. It availed nothing that the agents explained that the women and children of all classes were saved first. Finally extra police were requistioned to look after the crowd and arrests were threatened. It was an hysterical weeping, sometimes cursing, crowd, that haunted Trafalgar Square all day.

NEW YORK, APRIL 16.—More than 1,500 persons, it is feared, sank to their death early yesterday, when within four hours after she crashed into an iceberg the mammoth White Star Line steamer Titanic, bound from Liverpool to New York on her maiden voyage, went to the bottom, off the Newfoundland banks. Of the approximately 2,200 persons on board the giant liner, some of them of world wide prominence, only 866 are known to have been saved. The White Star Line offices in New York, while keeping up hope to the last, were free to admit that there had been "horrible loss of life."

Accepting the early estimates of the fatality list as accurate, the disaster is the greatest in the marine history of the world. Nearest approaching it in magnitude were the disasters to the steamer Atlantic, in 1873, when 574 lives were lost, and to La Bourgogne, in 1898, with a fatality list of 571. Should it prove that other liners, notably the Allan liners, Parisian and Virginian, known to have been in the vicinity of the Titanic early yesterday, had picked up others of her passengers, the extent of the calamity would fortunately be greatly reduced. This hope still remains.

Shattered False Hopes.

News of the sinking of the liner, and the terrible loss of life in consequence came early last evening with all the greater shock, because hope had been buoyed up all day by reports that the steamship, although badly damaged, was not in a sinking condition, and that all her passengers had been safely taken off. The messages were mostly unofficial, however, and none came direct from the liner, so that a lurking fear remained of possible bad news to come.

Shortly after 7 o'clock last night there came flashing over the wires from Cape Race, within 400 miles of which the liner in the treacherous Newfoundland Banks region, had struck the berg, which brought her to grief, that at 2.20 o'clock Monday morning, 3 hours and 55 minutes after receiving her death bolw, the Titanic had sunk.

The news came from the steamer Carpathia, relayed by the White Star liner Olympic, and revealed that by the time the Carpathia, outward bound from New York and racing for the Titanic on a wireless call, reached the scene, the doomed vessel had sunk.

Picked Up in Lifeboats.

Left on the surface, however, were lifeboats from the Titanic, and in item, as appears from the meager reports received up to a late hour, were some 866 survivors of the disaster. These, according to the advice ,the Carapathia picked up, and is now on her way with them to New York.

For the rest of the scene as the Carpathia came up was one of desolation. All that remained of the $10,000,000 floating palace, on which nearly 1,400 passengers had been voyaging luxuriously to this side of the Atlantic, were some bits of wreckage. The biggest ship in the world had gone down, snuffing out in her downward plunge, it appeared, hundreds of human lives.

Few Men Saved.

A significant line in the Cape Race despatch was the announcement that of those saved by the Carpathia, nearly all were women and children. Should it prove that no other vessel picked up any passengers of the sinking liner, this might mean that few of the men on board had been saved, as the proportion of women and children among the passengers was large. The same fact would likewise spell the doom of practically the entire crew.

In the cabin were 260 women and children, but it is not known how many there were among the 740 third class passengers.

In the first cabin there were 128 women and 15 children, and in the second cabin 79 women and 8 children.

You Often Want

quick relief from biliousness—from its headaches, its sour stomach, hiccoughs, flatulence, unpleasant breath and the general feeling of good-for-nothingness it causes. Thousands—through three generations and the wide world over—have found, as you will find, that

IN THE WORLD OF SPORT

PETERBOROUGH CURLERS WIND UP A SUCCESSFUL SEASON

Presentation of Prizes Took Place Last Evening—Services of Mr. J. H. Ferguson and Mr. Angus McIntosh, Secretary and Caretaker Respectively, Were Fittingly Recognised.

The last chapter in the curling season of 1911-12, was recorded last evening, when about seventy-five members of the Peterborough Curling Club congregated at the Charlotte Street Curling Rink, the occasion being the annual presentation of prizes. The local curlers, it is true, have been singularly unfortunate in all their cup games, but it is safe to assume that never has the curtain rung down on a more successful season of curling than that which marks the exit of the past season.

The season's contests have, as usual, been productive of some fine exhibitions of curling, and in all the outside places in which the local curlers have played, they have more than showed their ability to "produce the goods".

The local curlers have engaged throughout the season in friendly games with Lindsay, Toronto, Norwood, Keene, Bobcaygeon, Claremount, Oshawa, Campbellford, and in all these games acquitted themselves creditably.

Cup Contests.

The cup contests were for three pieces of silverware—the Waddell-Capon cup, the Fitzgerald-Bottum shield, and the Neill-Sheppard trophy.

In the game with the Toronto Victoria club, for the Waddell-Capon cup, the locals lost to the Queen City curlers. They were one shot down on local ice, but went further behind in Toronto. The Neill-Sheppard trophy is sunmering in Orillia this year, Peterborough relinquishing their claim to this piece of silverware by emerging from the contest 22 shots behind. In the Fitzgerald-Bottum games they were more fortunate and were able to hold their opponents down to a lead of three shots, with the result that the Shield will decorate the quarters of the Bobcaygeon Curling Club for one year at least.

The District Cup took a trip to Keene this year.

Bonspiels.

In the various bonspiels that the local curlers have figured in, they have met with a large slice of success. They carried off the honours and silverware in connection with the Oshawa bonspiel, R. Waddell's rink winning the W. F. Eaton cup. The winning rink was T. Brightman, A. Moore, G. H. Giroux and R. M. Waddell. The Bobcaygeon bonspiel was won by A. W. Archibald, J. S. Knapman, A. Moore and R. Neill. The Peterborough bonspiel was one grand success, and to another local rink is due the credit of annexing this even, together with the Grand Challenge Cup. The winning rink was composed of Messrs. W. P. Adamson, A. Welsh, J. S. Knapman, and G. H. Giroux.

Schedule Matches.

Thirty-one rinks competed in the schedule, and the games were played regularly. The success of the season, as a whole, was largely due to the increased membership, and the keen interest manifested by the curlers, in acquiring the fine points of the game. The sportsmanlike spirit displayed by the curlers won for them the admiration and respect of their fellow curlers in the many towns which they visited.

Prizes Presented.

At the meeting held last night, Mr. J. H. Connal, president of the club, presided. Mr. Connal spoke briefly upon the success which has attended the work of the Club throughout the season just closed. The aims and objects of the club, he defined as being for the advancement of the art of curling, the cultivation of good fellowship and the general betterment of conditions pertaining to the sport.

The first prize, known as the Sailor Boy prize and donated by Mr. John A. Cameron, was won by Dr. Wightman's rink. Mr. Cameron, in presenting the prize, took occasion to make a few remarks concerning the inadequate accommodation which the rink provided. He suggested as a remedy that the rink be extended south ward and in a line with Charlotte street. This would provide ample accommodation for the curlers on fete days, and provision could also be made for the lady curlers, who are rapidly coming to the forefront in curling circles.

The second prize in the schedule donated by Mr. J. H. Ferguson, Secretary of the Club, was won by G. Maitland's rink. Mr. Hill, a member of the winning rink, received the prizes in the absence of Skip Maitland.

The first prize in the bonspiel, donated by Mr. Ross Cotherm, was won by Skip W. J. Thompson's rink. The prize was presented by Mr. Ross Cameron, who, in making the presentation, made touching reference to the death of the late Mr. Stanley, late member of the winning rink.

Skip Lang headed the winning rink in the second prize of the bonspiel. The presentation was made by Mr. T. B. Yeats, and responded to by Mr. M. Tooley.

Mr. J. E. A. Fitzgerald won the first prize in the consolation event, while to the rink skipped by H. F. Foote is due the credit of winning the second prize in this fixture.

Presentation to Mr. Ferguson.

A pleasing event of the evening was the presentation of a purse of gold to Mr. J. H. Ferguson, secretary of the Club. Mr. R. Hicks, in making the presentation, made special reference to the untiring efforts of the recipient, in his services, which he had so freely given in the Club's interest during the time he has held the office of secretary. It was the desire of the members, continued the speaker, to show their appreciation of the valuable services rendered by Mr. Ferguson as Secretary of the Club.

Mr. J. H. Connal also eulogized upon the able manner in which Mr. Ferguson had looked after the Club's interests. He made particular reference to the occasion of the Scotch curlers' visit to this city, when the Captain of the visiting rinks had remarked upon the able manner in which the Secretary of the Peterborough Curling Club had looked after the visitors' interests.

Mr. J. H. Ferguson, who was completely taken by surprise, thanked the comers who were present for the kindly manner in which they had remembered him, and expressed the hope that he ight be of further service in the promotion of the club's interests.

Mr. McIntosh Remembered.

For twenty-three years has Mr. Angus McIntosh sustained the reputation of the Peterborough Curling Club, for having the best ice in the district. In that time he has come in contact with many curlers, some of whom have passed to the great beyond. Those who remain can recall pleasant memories of the time when they first made their debut upon the ice of the Peterborough curling rink. It was during these critical stages that Mr. McIntosh's services will be best reembered. He was always on hand to coach the newcomers, and was invariably the first to invite them in. He was ever ready and willing to instruct them in the first rudiments of curling. These qualities, together with his wonderful ability in the art of making good curling ice, are such that would render his services a valuable asset in any community, where this winter sport was pursued to any degree.

23rd Anniversary.

It was eminently fitting that the 23rd anniversary of Mr. McIntosh's connection with the Peterborough Curling Club, as caretaker of the rink, should be suitably and befittingly recognised.

To Mr. T. Brightman was assigned the pleasant duty of making the presentation, which consisted of five five-dollar gold pieces. Mr. Brightman's first act was to discover his man, whom, after a brief search, he found in conversation with a friend outside of the club building. He was immediately summoned within, and for a few minutes was the subject of many flattering remarks by Mr. Brightman. "It is the most pleasing and the most worthy duty that I ever have been called upon to perform," said Mr. Brightman, in concluding his remarks.

Mr. J. H. Connal made a few remarks in reference to Mr. McIntosh's long years of faithful service. "He has been a father to many of the boys, and his services have been of incalculable ebenefit to the club," said the President, in conclusion.

Mr. J. S. Knapman also spoke briefly and eulogistically upon th efficient services rendered by Mr. McIntosh during his long association with the club.

Mr. McIntosh, in reply, thanked the members of the club for the manner in which they had remembered him, and expressed the hope that he might have the privilege of again meeting those who had so signally honoured him, next year, if it were the wish of the club.

The meeting was then brought to a close by a lusty rendering of Auld Lang Syne.

130,000 See Football Game

World's Record for Attendance Broken at the English-Scotland Match

LONDON, ENG., April 13. — Just 130,000 persons were present at the recent international football match between England and Scotland at Glasgow. This is a world's record. Some $25,000 was taken at the gates, and in addition over $9,000 was realized from the stands.

The following shows the attendance at other asociation matches the same day, the home team being given first:

Tottenham Hotspur vs. Aston Villa 15,00c
Blackburn Rovers vs. Bradford City 14,000
West Bromwich Albion vs. Manchester City 12,000
Millwall vs. Swindon 12,000
Birmingham vs. Clapton Orient 10,000

At 29 English and Southern league matches the total attendance was 161,000.

THE MAN ON THE BOX

On Friday next at "The Grand," theatre-goers of this city will have an opportunity to see the dramatization of Harold McGrath's popular novel, "The Man on the Box," which was made for Henry E. Dixey, and in which he starred for two very successful seasons.

The cast of the special company presenting the play here is headed by Walter Scott Weeks, a young American actor, who has been connected with several Broadway productions in past seasons. Mr. Weeks and his supporting company play the comedy with just the right proportion of exaggeration and elegance to make an evening's entertainment of delicious foolery. Under their touch it seems the most natural thing in the world for a perfectly sane young gentleman to attempt a practical joke by playing coachman, and to bring it up in the police court because he has mounted the wrong box; and quite the natural consequence for the young lady to the box of whose carriage he has mounted, to pay his fine, and hire him for the coachman he pretends to be that she may find out at her leisure who he really is.

The play will be presented with special settings, with no detail of stage production alighted, and the presentation is truly one of the good theatrical happenings of the present season.

A GLIMPSE OF THE ECLIPSE

Only early risers will see the eclipse of the sun to-morrow. It will only be partial eclipse so far as Peterborough is concerned, and will only be visible if the horizon is clear at dawn. Sunrise to-morrow will be 5.34 a.m.

The eclipse will be completely visible from Guina, in South America, across the Atlantic to the coast of Spain. The total duration of the central eclipse will be 32 minutes, and astronomical expeditions are now in Spain to make observations. In Spain France, Germany, and Russia itgwill be an annular eclipse. The moon will not completely cover the sun, but a ring of light will be visible around the moon.

So far as Peterborough is concerned the eclipse will be over at sunrise and any observations will have no scientific value. The phenomenon will only be of interest as a spectacle.

SOME THINGS AND OTHERS

Mr. J. W. Fry, 330 St. Joseph St., says he had to drive to Lakefield yesterday. He took the west side of the river, having to call on the way, and while the horses were pounding and plunging belly deep through four of snow banks, the wheels sank to the axles and the axles scraping the top of the snow. A look across the river revealed the dust rising from the snow there on which teams were travelling. Our climate has striking contrasts.

His Majesty's letter and parcel boxes, corner of Charlotte and Aylmer streets, have had the royal scarlet rained off. They look like stray scrap iron from the Bethune street junk yards near by.

A little four year old Gilmour street hopeful rushed into his mother this morning in a great state of anxiety, "Mother, whose daddy will I be?"

Workmen are "trueing" up he trolley tracks. None too soon. Riding over the Charlotte street line, especially, gives one bumps worthy of the initiative ceremony into the Royal Order of Goats.

We have in finance watered stock, but iced stock is something new. A way yesterday called up by phone one after another shareholders in the curling rink company and wanted to buy their stock. The first wanted 50, but repeated demand created a bull movement, and when another shareholder was reached the figure was par, and the next victim wanted 115, and began figuring out what he would do with the money when he sold his stock. But it was a dream. The joker didn't want to sell stock that has no business value—it never pays dividends, it has no cash in-turn no matter how much in-turn the "stanes" might get.

The water in the river is rising with the thermometer, but the ice in the northern lakes still holds.

WEDDING BELLS

MARAGOS—COONEY.

The wedding took place at St John's Church yesterday afternoon of Mr. Miltas Maragos, chef at the Boston Cafe, to Miss Mamie Cooney, of Peterborough. The ceremony was performed by Rev. Canon Davidson in the presence of a few immediate relatives and friends. Mrs. Herb. Cooney was bridesmaid, while the groom was assisted by Mr. Louis Yeotis. The newly married couple left on the 4.28 C.P.R. train on a wedding trip to Toronto. They will reside in Peterborough.

TENDERS

Board of Education

Sealed tenders, whole or separate addressed to the Secretary-Treasurer of the Board of Education will be received until

Wednesday Noon, May 1st. 1912,

for the several trades required in the erection of the new school buildings in the East and West wards.

Specifications may be seen and all information obtained at the office of Frederick Bartlett architect, No. 86 Murray St. Each tender must be accompanied with an accepted bank cheque for five per cent (5%) of the amount tendered. Tenders must be in the hands of the Secretary-Treasurer at his Office, 437 George St., not later that 12 o'clock noon, on the day named, after which no tender will be received. The lowest or any tender will not necessarily be accepted.

Dr. M. A. Morrisson,
Chairman Building Committee.

NEWBRO'S HERPICIDE

A Scientific Achievement.

The discovery and turning in an alarm of fire makes possible the heroic work of the firemen in putting it out.

Undiscovered, a fire spreads with amazing rapidity, destroying everything within reach.

The discovery of the dandruff germ *was of inestimable value to mankind*, but only because it paved the way for the greater service, the discovery of Newbro's Herpicide.

Dandruff is contagious, and its spread is checked by the use of Herpicide. This delightful scalp dressing kills the germ, and prevents the hair from falling. It stops that itching almost instantly.

Herpicide is the one standard and original dandruff germ destroyer. Any other preparation making this claim is an imitation.

Recommended and applied by first-class barbers.

Send 10c. in postage or silver for sample and booklet to The Herpicide Co., Dept. R., Detroit, Mich.

One dollar size bottles are guaranteed by all druggists.

McDermid and Jury and Payne's drug store, special agents.

AUCTION SALE.

W. J. Hancock, auctioneer, will hold an auction sale of household furniture at 633 Aylmer st. on Wednesday, April 17th, at 1.30 o'clock.

NORTH MONAGHAN REPRESENTATIVES FAILED TO MEET CITY'S COMMITTEE

Jackson Property Purchased by Reeve Howden—Property Committee Will Look Elsewhere for Ground — Application for Park Work.

BUSINESS OF MEETING

A meeting of the Property committee of the City Council was held on Monday night with Ald. Duncan, chairman, and Aldermen Morgan, Graham and Brown present.

A communication was received from Mr. Thos. H. Halpin, Murray street, for the position of caretaker of the King Edward Park, but as the committee have not decided anything anything along this line and for the reason that the grounds are not yet in good condition it was decided to hold over the application.

Has Trees to Sell.

Mr. John Best, Donegal street, appeared before the committee asking them to buy 50 sugar maple trees for the King Edward Park. The reception he received might not be regarded as encouraging. Ald. Duncan stated that the trees delivered by Mr Best to the Public Library ground were not at all satisfactory. They had grown up crooked and were not a credit to the place. "They are shinnies, that's all they are" Ald. Duncan remarked, and he for one, was not disposed to buy any more of them.

Mr. Best stated that if they were not satisfactory they would be replaced and assured the committee that the other fifty were first class stock.

Mr. Best—I thought that you might want some for the new hospital ground.

Ald. Duncan—So we do, but the lawn is not fixed up yet, but in a few weeks we might need a few.

Ald. Morgan—If we have no place for them just now, I can't see that we should take them over.

Plumbing Inspector's Reports.

The monthly statements of the Plumbing Inspector met with the approval of the committee.

Ald. Brown— There have been no smoke tests made. I would like to see a few made every month.

Ald. Duncan— We might as well have a few. The Inspector was very eager to get the apparatus, but there haven't been many tests made with it.

Ald. Graham—I think we are just as well without the smoke test. The water test gives satisfaction.

Moved by Ald. Brown, seconded by Ald. Morgan, that the Plumbing Inspector be requested to apply the smoke test whenever it was asked for. —Carried.

Grounds eFr Dumping.

When the committee took up the question of a selection of ground for dumping purposes in North Monaghan the expected representatives of the township's Board of Health were not present. The committee was disappointed to find that the Board of Health members had failed to file an appearance. Readers of the Examiner will remember that on Friday night last a deputation of North Monaghan residents living adjacent to the Jackson property on which the city had an option, waited on the committee and requested them not to purchase that property. They stated that the land in the neighbourhood would depreciate in value if that site were selected.

Reeve Howden of North Monaghan was the principal spokesman and the Property committee agreed not to select the Jackson lot and to discuss with the township Board of Health a location that would be agreeable to all the parties concerned.

Reeve Purchased Ground.

The committee was not only disappointed, but surprised to learn that Reeve Howden had *himself* signed papers yesterday agreeing to buy the Jackson property under our option. the city's option last night at midnight.

Ald. Duncan said he had learned that the Reeve had made the agreement to purchase it. Mr. Howden had no business making an arrangement for the Board of Health to meet us to-night and no one put in an appearance. We will know how to deal with North Monaghan's Council after this.

Ald. Brown—I move we buy the Jackson property underp our option.

Ald. Morgan—I would like to beat Howden if he is trying to play the cute game.

The lot was offered to the city for $2,200.

After some discussion, Ald. Brown said it might be as well to try and get some other place.

Have Another Option.

Ald. Duncan—We have an offer from D. M. Minnicolo to sell lots 29 and 30 in township lot 11, North Monaghan, for $3300 or to sell lot 29 for $1700. Each lot contains about ten acres less the ground occupied by the G.T.R. for railway purposes.

Moved by Ald. Morgan, seconded by Ald. Graham, that the chairman and Ald. Brown examine this property.

The city has a two weeks option on it. This property is west of the G.T.R. tracks and south-west of May's school house.

Doctors Use This For Eczema

Dr. Evans, Ex-Commissioner of Health, says: "There is almost no relation between skin diseases and the blood," The skin must be cured through the skin. The germs must be washed out, and so salves have long ago been found worthless. The most advanced physicians of this country are now agreed on this, and are prescribing a wash of wintergreen, thymol and other ingredients for eczema and all other skin diseases. This compound is known as D. D. D. Prescription for Eczema.

Dr. Holmes, the well known skin specialist writes: "I am convinced that the D. D. D. Prescription is as much a specific for eczema as quinine for malaria. We have been prescribing the D. D. D. remedy for years."

We ourselves vouch for the D. D. D. Prescription for eczema and absolutely believe that it will take away the itch the instant you apply it.

Of course other druggists have D.D. D. Prescription. Go to them if you cannot come to us, but don't accept some big profit substitute.

But if you are suffering from any form of skin trouble we would like to have you come to our store, for we have had the agency of this reemdy for so many years that we can tell you all about D. D. D. Prescription and how it cures eczema. Or you can get a free trial bottle by writing the D.D.D. Laboratories, 49 Colborne St., Toronto. McDermid and Jury and E. L. Payne, druggists.

Error In Construction Of New Dam Causes Trouble

There is trouble at the new dam constructed late last autumn by the Dominion Government on the site of the old Rogers dam north of the Quaker Oats plant. The high water in the river has washed away 20 feet of the embankment at the east end of the dam, and half of the water coming down the Otonabee is roaring through the gap thus made. A force of men have been at work endeavouring to construct a wing dam at this point, but so high is the water that it will be impossible to accomplish anything until the end of May or the early part of June when the water is down somewhere near its normal level. The men are giving up the task to-day. Apparently the trouble was caused by haste and lack of foresight in constructing the dam. The work was hurriedly started last autumn by the new member for West Peterborough, and in the anxiety to get things going and incidentally to give employment to some of the party friends, a bad mistake was made. Instead of building the end of the dam strongly into the bank, it appears that the structure was merely built as far as the bank itself. The result was that when the high water came it simply tore its way through the earth, and the gap thus formed gradually widened until it is 20 feet in width at the present time.

KNOX CONGREGATIONAL RALLY WAS LARGELY ATTENDED

"The Human Touch of the Church" Subject of an Inspiring Address by Rev. A. L. Geggie, of Toronto---Musical Portion of Programme Was Well Provided For.

The Lecture Hall of Knox Church was the venue last night of the fifth anniversary rally of the congregation. The members took advantage of the occasion and turned out in full force to hear an address by Rev. Mr. Geggie, the well-known divine of Parkdale Presbyterian Church, Toronto.

Rev. H. J. Keith presided, and supporting him were Rev. Mr. Geggie, Rev. R. Pogue and Rev. Jas. Rollins.

The first part of the meeting was taken up with the efficient rendering of a number of vocal and instrumental selections by friends, these including Knox Church Orchestra; solo, Mr. Morphet; piano duet, the Misses Chiles; solo, Miss Chalmers; violin solo. Dr. Park; solo, Mr. Downey; and solo, Mr. Jno. Anderson. Miss L. Chiles, accompanist.

The chairman then called upon Rev. Mr. Geggie to address the audience.

The minister from Parkdale Church had a very warm reception on rising. At the outset he voiced his pleasure at once more being privileged to address the Knox congregation. In humorous vein he made a few remarks in reference to his previous visit to this church, when he spoke of his being fed in the old fa[illegible]pitch."

And he still has his daily plate of oatmeal.

Mr. Geggie then reverted to his true subject, "The Human Touch of the Church," with reference to the protesting wings around the new-comers from the Motherland. He made reference to a system adopted in Parkdale Church, Toronto, where he has carried on during the past two years, a club of Old Country youths, called the Old Country Club. He mentioned how he had noticed in the gallery of his church a number of young men; he got them together one evening, and then formed this club, which has now a membership of 300. Though connected with Parkdale Church, the club is undenominational—but later on the objects of church connection are placed before them; and in this way the brightest and best workers are put to business in church work. There is in connection with this club, the speaker continued, a gymnasium and debating society, the latter having brought to light many promising young spokesmen. From this Old Country Club in Parkdale Church has sprung up such an organization in Victoria Church, West Toronto, and another has been inaugurated in Ottawa. And in connection with the Ottawa branch, the young women of that city asked, "What about the girls?" So there is now in this latter city what is termed the Ladies' Auxiliary of the Old Country Club; and all are doing excellent work. He exhorted the churches in Peterborough to do their utmost to keep in touch with arrivals from the Home Land.

After twenty-five years' ministry in Canada, Rev. Mr. Geggie has had many opportunities of noting the characteristics of the various nationalities which have landed in Canada's shores. These views he placed before the audience in humorous allusions —such as the way Scotchmen, Englishmen and Irishmen wear their caps, how they walk, and their varying manners, as well as comparing them with our Canadian friends. The "gentleman of the cloth" certainly was "full of his subject," and concluding with a few anecdotes, took his seat, the audience having enjoyed the lecture to the utmost.

Rev. Jas. Rollins, St. Andrew's, and Rev. R. Pogue, St. Paul's, then made complimentary remarks on the work of Knox Church, and conveyed the congratulations of the congregation they represented to the minister and members of Knox Church. They also replied to some of the personal remarks made by Mr. Geggie.

Mr. Morrison moved, seconded by Mr. Shurter, votes of thanks to the speakers, followed by a word of thanks by Rev. Mr. Keith to those who had assisted in the musical part of the programme. "God Save the King" was sung, and the meeting terminated.

EXAMINATION OF CANDIDATES

The examination of candidates for the ministry is taking place in the parlours of the George street Methodist church. The presiding examiners are: Rev. R. Burns, Omemee, chairman, and Rev. J. G. Lewis, of Warkworth, secretary.

The following candidates are writing preliminary first and second years.

Preliminary First and Second Years.

Ernest Harston, Fort Stewart, Hastings Co., M. L. Hinton, St. Ola, Hastings Co., R. M. Patterson, Lifford, A. R. Walsh, Darympple, C. G. Williams, Consecon, Prince Edward County, A. C. Hie, Victoria Road, Douglas Dickson, Caernarvon, Harry Wilkinson, Wilberforce, S. H. Nicholson, Monteagle, and L. M. Sharpe, F. G. Joblin, N. C. Parsons.

The Board will sit till Thursday.

IN DREAD OF CROUP

Every mother dreads croup unless she knows about Dr. Chase's Syrup of Linseed and Turpentine. Given in frequent small doses, at the first indications of trouble, this treatment loosens the cough and quiets rattles and comfort. Its use should be kept up until the child is entirely recovered

ASKS ABOUT CHEAP WATER RATES

To the Editor of the Examiner:

Dear Sir,—I thought I read in your papers some time ago that the Board of Water Commissioners had intended reducing the rates and that this was to take place at an early date. I also have an idea that it was stated by the Water Commissioners that when legislation was obtained, or a by-law passed, I forget which, giving them the power to collect from vacant land a water rate where the main passed vacant property, that the rates were to be reduced. Has this reduction taken place? I think there is room for a reduction and that the City Council might take upon themselves the responsibility of looking into the matter and seeing what could be done in this direction. I don't write this in a fault-finding spirit. The Water Commissioners are not paid officials of the city, consequently we must not, in discussing this question, impute to them motives that are entirely foreign to what I think their good intentions are, but a certain place is said to be paved with good intentions and I hope they will put the good intentions into practice and see if we cannot get our water cheaper than we are getting it at the present time.

Yours truly,
A CONSUMER.

Acts Quickly on Corns, Sore Foot Lumps, Callouses

It's a new wrinkle for Corns — a painless remedy that quickly removes the corn. Don't doubt it, this is a dead sure thing, lifts 'em out quick—roots and branches. No pain, no scar, no more salves or pads. Just apply Putnam's Painless Corn Extractor, 25c. a bottle. Substitutes pay the dealer best, "Putnam's" pays you best because it rids your feet of corns. Take no other than Putnam's Painless Corn and Wart Extractor. Sold by druggists.

Local Talent Produced "Sylvia" In The Opera House Last Evening

Ladies' Sodality of St. Peter's Organized Fine Cast Which Performed Well Known Operetta in Splendid Style.

A GREAT SUCCESS

In the Opera House, last evening, "Sylvia," one of Rye-Herbert's delightful operettas, was presented under the auspices of the Ladies' Sodality, in connection with St. Peter's T. A. S.

This attractive little piece is rich with fascinating melodies, and the choruses are magnificent. The dialogue, sparkling with humour, forms a suitable diversion, and proved a considerable asset in the success of the play. The respective roles were characterised by capable artists, and the ensemble denoted a careful and assiduous training of the chorus. The performance attracted a large audience, and those who attended could not fail to appreciate the entertainment.

The Play.

The argument, though not deeply involved is very amusing. Sylvia, tired of her betrothed, wanders into the hay-field, where she overhears Betty bemoaning her fate, and wishing she were engaged to marry a nobleman, instead of honest William. Sylvia suggests that, as they each envy the other her lot, they exchange places for the rest of the day, that Sylvia masquerades as the farmer's daughter and Betty as the maid of honour to the Queen. Betty tells of a flower called "Cupid's Eye" which would blind the poet and the farmer to the fact that such an exchange has been made, and the two girls set off to find the magic flower and change costumes. They return, each dressed in the other's clothes, and with the magic flower in their possession. Betty successfully fools de Lacey, and Sylvia as successfully fools William. De Lacey and Betty set forth to stroll through the woods and lanes, and William drags Sylvia off to help him weed the potato patch.

At last Sylvia, worn out with her experiences of the afternoon, returns to the field, and Betty rushes in, having run away from de Lacey and a bull. Each girl declares that hereafter she will be content with her own lot, and will not envy the other. Unfortunately their prank is likely to have serious consequences for the Lady Arabella saw Sylvia carried over the brook by the farmer, and the Lady Araminta saw de Lacey and Betty walking arm-in-arm, and the news is imparted to Prince Tobbytum, who resolves to expose the Lady Sylvia that night before the assembled Court. The Prince, however, is foiled, and a song of greeting to the harvest moon, rising over the treetops, ends the evening.

The Artistes.

Miss Verna Devlin made a splendid "Sylvia". Her acting was truly characteristic of a court lady, and her pleasing soprano voice was heard to great advantage in the beautiful song: "If I Were Not, I Love" and "The Sky is Dark and Overcast."

Her charming manner found great favour ith the audience and during the performance she was presented with a beautiful floral bouquet.

As de Lacey, Mr. Harold Lee was no les effective. Possessing a sweet tenor voice he rendered, in a most sympathetic manner, the ballad "For Ever Love, Forever," which was received with loud applause.

The role of "Betty" was admirably played by Miss J. Delaire, who, as a simple country girl, was very effective. She sang with marked effect the contralto song "Tho' Love be Blind".

Miss Delaire was also the recipient of a handsome bouquet.

Mr. Albert New created roars of laughter as "William, the Farmer". His manner and speech were typical of a rustic, and his impersonation found great favour with the audience. In the song "The Gay West Wind," his fine baritone voice was heard to great advantage, and he was loudly applauded. Another source of humour was Mr. Ed. Hanrahan, who as Prince Tobbyturn, was excellent, his powerful bass voice being specially suited to the song "I am a Man of Consequence". The minor parts, namely Molly, Polly, Dolly, Lady Arminta, Lady Arabella, and Robin were all capably handled by Misses A. [illegible], M. Clancy, M. Carroll, O. Tangney, F. Leahy and Mr. G. McFadden. Of the chorus much might be said. In "Perhaps" the ensemble was very effective, and the March of the Farm Lads was repeatedly recalled.

The chorus "Sneezing," with Miss M. Clancy as soloist, was also a great favourite.

The costumes were beautiful, especially those of the group of pretty country maidens, who, in the occulting lights, presented a very attractive appearance. The members of the chorus were as follows:

Farmers Lads—Messrs. A. Primeau, R. Picard, . Miniccola, J. Murray, C. Wailff, W. Phelan, J. New, C. Manion, G. Desantel, and E. Bartley.

Farmers' Daughters—Misses A. Milloy, A. Primeau, A. Delaire, K. Derocher, M. Gannon, E. Jays, M. Gorman, G. Clancy, M. Theobald and A. Devlin.

The success of the concert is largely due to the untiring efforts of Miss Lillian Hurley, musical director, who spared no pains in bringing the musical portion of the piece to perfection, and to Mr. George Lynch, stage manager. To the latter great credit is due for the manner in which he prepared the artistes with their dialogue. Miss Sue Kelly was responsible for the business management, and Miss Addie Dorris was assistant pianist.

At the conclusion of the performance the Company repaired to Hooper's restaurant and participated in a bountiful supper. Rev. Fr. McCoil proposed a toast to the artistes, which was ably responded to by a number of those present. During the proceedings Miss Hurley, on behalf of the St. Peter's T. A. S., presented Mr. Harold Lee, who performed the role of de Lacey, with a handsome umbrella as a token of their appreciation of his services. Mr. Lee responded, and the evening closed with "Aul Lang Syne".

IS MARS INHABITED?

Astronomical Society Will Discuss This Interesting Subject

There will be a meeting of the Royal Astronomical Society on Monday evening, April 22, at the Collegiate Institute. This meeting is not only for the members of the Society; the general public is most cordially invited. Admission free.

"Mars" will be the subject of the evening. This planet is perhaps, the only world, in addition to the earth, in the solar system, where life, as we are acquainted with it, is possible. Its formation, development and present condition will be discussed.

What will be the end of the planets including the earth from a scientific point of view.

SUCCESSFUL ENTERTAINMENT BY ST. JOHN'S ASSOCIATION

One of the series of periodical entertainments under the auspices of St. John's Association, was held last night in the Sunday School room. There wa a large attendance and the evening was most enjoyable, the following programme being greatly appreciated:

Instrumental—Mr. R. J. Devey.
Song—Miss Quartermaine.
Song—Mrs. Davidson.
Song—Mr. Morphet.
Violin solo—Miss Palmer.
Recitation—Mrs. Allen.
Song—Mr. Eldred.
Song—Mr. J. Browne.
Song—Miss Sharman.

Mr. A. H. Stratton, the people's warden, acted as chairman for the evening.

At the conclusion of the programme a vote of thanks, moved by Mr. Frank Russell, and seconded by Mr. W. H. Mekdrum, was tendered to those taking part in the programme. Short speeches were made by Rev. Canon Davidson and by Mr. H. W. Morphet, the Rector's warden, after which refreshments were served and the evenin brought to a close with the National Anthem.

A large measure of the success of the affair was due to the untiring efforts of Messrs. R. J. Devey and W. C. Ackerman.

"Keith Of The Border" The Examiner's New Serial

In Saturday's issue of the Examiner a new serial story will be commenced, one that promises to be even more popular and enjoyable than its predecessors. The new novel is "Keith of the Border," a thrilling romance by Randoph Parrish, from whose pen have come the well-known stories "When Wilderness was King," and "My Lady of the North." "Keith of the Border" is already in its fourth edition as a novel, and has met with widespread popularity. It has a vivid love interest, as well as being a stirring story of adventure on the western plains. It is well written and logical, and its characters are real types. If you have enjoyed the other Examiner stories, you will like this one. Watch for "Keith of the Border" in the Examiner on Saturday.

When The Lungs Are Weak

To every person with weak lungs or who has a family history with records of consumption, a cough or cold is a serious matter.

Coughs have a tendency to hang on. They irritate the weakened membranes and prevent healing. There is always the danger that a cold may get a firm foothold and settle on the lungs. It is so easy under these conditions for pneumonia or consumption to develop.

About the surest means of controlling coughs and colds is by the use of Dr. Chase's Syrup of Linseed and Turpentine. This treatment loosens the cough, allays the irritation and inflammation and thoroughly overcomes the disagreeable symptoms. The success of this medicine has given rise to many imitations. It is only natural to suppose that the original possesses merit of an unusual degree.

PERSONAL AND SOCIAL

Mrs. Frank Pakenham will not receive to-morrow (Wednesday) nor again this season.

Miss Allan and Miss Mitchell attended the summer millinery openings in Toronto yesterday.

Miss Huycke of Miss McGiverin's millinery parlours, was in Toronto attending the mid-summer openings on Monday.

Miss Grace MacLaren, daughter of Mr. Justice MacLaren, Toronto, who has been visiting Miss Lexa Denne, has returned home.

Mrs. J. W. Miller and Miss Miller, 212 McDonnell street, will receive to-morrow (Wednesday) afternoon and not again this season.

Miss Hughes and Miss Downes, of the Cressman millinery department, have just returned from attending the summer millinary openings in Toronto.

Superintendent Lynch, General Roadmaster Heal and Road Master Bibby of the G. T. R. passed through the city this morning, en route to Belleville.

Miss Gamble and Miss Monnich of Turnbull's millinery department, returned last evening from Toronto, where they were attending the summer openings.

Miss Manhardt, Elliott's head trimmer, under Miss Noble, in the millinery department, went to Toronto today, to look over the newer styles. Miss Noble will go on her fortnightly trip next Monday, when she will personally select the scarce articles for her customers.

Lieut. Allan B. Mann, "Hawthorne Lawn," Smith, who for the past two weeks has been studying at Stanley Barracks, Toronto, returned home on Saturday, having been successful in obtaining his commission as lieutenant in the 3rd Prince of Wales Canadian Dragoons.

Mr. and Mrs. J. A. Culverwell of Glenridge Park, Port Hope, have returned from a month's trip in the States, of nearly three thousand miles, visiting Chicago, St. Louis, New Orleans, Pass Christian on the Gulf, Atlanta, Philadelphia, and spending Easter at Atlantic City.—Guide.

SHOULD BE PUNISHED

To the Editor of the Examiner.

Sir,—I quite agree with "West End Resident" and not only stealing, but young men who loiter at street corners, making it impossible for men to pass by, let alone women, without hearing their filthy and profane language. People walking alone are insulted with their jeering, and are called after and whistled after. If it were some poor "drunk" he would be lugged off to the police station, and given thirty days, but these wretches are allowed to make the whole neighbourhood hideous and nothing done to stop it.

Yours truly,

A South End Resident.

Wouldn't Pay Bridge Toll.

Niagara Falls, Ont., April 17.—Refusing to pay bridge toll, because his uncle, a prominent St. Catharines financier-physician owned the majority of the lower bridge company stock, a man giving his name as Merritt, was arrested at four o'clock yesterday morning. He was accompanied by Alice Hart to the American side. He was sent to St. Catharines, while the woman was deported.

Majority is Ninety-Four.

London, April 17.—(C.A.P. Cable.)—In the course of the debate on the home rule bill, which passed its first reading by a majority of 94, T. P. O'Connor said they never heard of persecution in south and west Ireland, where the Protestants were in a minority. If Catholics were disposed to persecute Protestants, would not the persecution be in parts where Protestants were in a minority? (Ministerial cheers.)

"All this charge of religious persecution was one of the emptiest, meanest and one of the most lying calumnies ever heard." (Ministerial and Nationalist cheers.) "The main case was the Ulster case, that Protestants could be trusted."

Tim Healy said that, as for Ulstermen declaring that there would be oppression, he asked them to condescend to give particulars. (Ministerial cheers.)

Outlook in China.

Toronto, April 17.—Rev. T. E. Shore yesterday received a cable from Rev. J. Kilburn, Chenter, China, in answer to an enquiry from the Methodist mission executive here regarding the political situation. Dr. Kilburn replied: "Government weak, position uncertain. Affairs not yet settled. Not likely to be worse."

Rev. C. R. Carscallen and wife, who came on furlough, from Chenter, in consequence of the uprising, spent the past two days in Toronto, and have gone to their home in Dresden.

LOSS IS CONFIRMED

No Hope Now of Rescue of Other Titanic Passengers

THIRTEEN HUNDRED DEAD

New York, April 17.—Only a faint hope remains that any of the 1,309 passengers and crew who have been missing since the giant Titanic sank have been picked up by transatlantic liners. The 868 survivors rescued from lifeboats by the Cunarder Carpathia, now on her way to this city, are only known saved.

The brief and meagre wireless messages that came to hand yesterday extinguished hope that some of the ill-fated passengers may have been picked up at sea by the steamships Virginian and Parisian of the Allan Line. Both of these steamers sent word that they had no passengers of the Titanic on board.

Of the 868 persons rescued by the Carpathia, the names of 328 passengers had been received by wireless up to 4.30 yesterday afternoon. The Carpathia evidently was out of wireless range toward noon, for after that efforts to reach her with wireless communications were futile and a score or more of messages from the Cunard Company and other sources were unanswered.

At five o'clock yesterday afternoon Vice-President Franklin of the White Star Line said that so far as he knew the Olympic was still standing by the Carpathia to relay wireless messages. He added that he had received no word from the Olympic since nine o'clock yesterday morning, and had been unable to get either the Carpathia or the Olympic by wireless.

Mr. Franklin also said that the steamship companies crossing the Atlantic had entered into an agreement to abandon the short northern route in favor of the southern route so long as icebergs were reported in the pathway of the former course.

The Titanic was insured for $5,000,000, Mr. Franklin said. On the ship, he added, the White Star Line would lose about $3,000,000. "This will be the smallest part of our loss," he added.

Captain Rostron, in his last wireless report to the Cunard Company, stated that the Carpathia was proceeding slowly through a field of ice to this port.

President Taft late yesterday afternoon directed the Secretary of the Navy to order the scout cruisers Salem and Chester to the scene at once from Hampton Roads to meet the Carpathia and send in by wireless to the Government a complete list of the Titanic's survivors. The Chester was caught by wireless about 40 miles off the Chesapeake Capes and by four o'clock was steaming northward at twenty knots an hour, aiming to get as quickly as possible in touch with steamers having news bearing on the disaster. Two revenue cutters were also notified to stand in readiness to proceed to the Carpathia if necessary. In the event that the Salem had not sufficient coal, instructions were given to despatch the cruiser North Carolina instead.

A possible chance of obtaining news bearing upon the disaster developed early last evening when the Leyland liner Californian came into the zone of wireless communication with Sable Island. The Californian was reported at the scene of the disaster shortly after the Titanic went down, and it was thought probable that she would have valuable information to communicate.

Capt. Rostron of the Carpathia has been instructed to send full details of the sinking of the Titanic.

All day long tearful and anxious throngs swarmed the offices of the White Star Line and overflowed into Broadway, stopping traffic at times and keeping police reserves busy maintaining order.

Col. John Jacob Astor is believed to be among those drowned. His wife and her maid are safe on the Carpathia. Isidor Straus, the millionaire merchant; Benjamin Guggenheim, the copper magnate and president of the International Steam Pump Co., and Edgar J. Meyer, vice-president of the Braden Copper Co., are still unaccounted for, and their names are not found among the survivors.

Whether Charles M. Hays, president of the Grand Trunk Railway, was saved was not known last night. His name was not among those reported rescued by the Carpathia. A Canadian despatch early in the day gave the information that Mr. Hays was saved. His wife and daughter were rescued.

The treasury department through the customs office, has given orders to exped its in every way the landing of the survivors of the Titanic and to aid them in every way in meeting their friends upon the arrival of the Carpathia. Customs regulations have been suspended and the customs officers will aid the survivors in finding their relatives and friends. Every person meeting a survivor will be assigned to a space under his initial letter at the dock, and the survivor will be sent there to meet him. This will be done to avoid confusion.

Vice-President Franklin said late yesterday afternoon that his list of survivors showed that 202 out of 325 first cabin passengers, and 114 out of 328 second cabin passengers of the wrecked liner should be accounted for.

Charles P. Summer, general agent of the Cunard line in this country, said last night that he believed that the Carpathia was within 60 or 70 miles of the Titanic when the big ship struck the iceberg. The Carpathia, he said, did not reach the scene of the accident until fully two hours afterward.

Five Officers Saved.

Cape Race, Nfld., April 17.—A wireless message last night from Captain Haddock of the steamship Olympic, relayed by the Celtic, reads as follows:

"Please allay rumors that the Virginian has any of the Titanic's passengers. Neither has the Tunisian. I believe that the only survivors are on the Carpathia. The second, third, fourth and fifth officers and the second marine operator are the only officers reported saved."

Captain's Career Previously Unlucky

New York, April 17.—Although rated as one of the most able commanders, Captain Smith's career had been recently marred with ill-luck. He was in command of the Olympic when that vessel was in collision with the British cruiser Hawke. Exonerated, he was placed in command of the Titanic. He had been in the White Star Line Co.'s employ for more than thirty years, and his first important command was the Majestic.

Will Change Ocean Routes.

New York, April 17—The White Star Line, in consequence of reports of ice in the sea, has agreed with other lines to cross longitude 47 in latitude 40.10 on eastbound passages, commencing yesterday, and to cross longitude 47 in latitude 41, westbound.

Will Test the Device.

Ottawa, April 17.—The Canadian Government will further co-operate this summer in experiments being conducted by Prof. Barnes for the perfection of his device for the detection of icebergs.

One of the Government boats will be sent down to the ice field area for the purpose of making further tests, and perfecting the thermometrical device, which, had it been in use, might have prevented the appalling disaster to the Titanic.

Southampton, Town of Mourning.

Southampton, April 17.—Distressing scenes have been witnessed throughout the morning at the White Star offices here, which have been thronged by the relatives of the crew of the Titanic. The town is absolutely stunned by the news of the disaster, which is the greatest blow that Southampton has ever sustained.

Every member of the crew had his home here, and the large proportion of them were natives of the town. No family in the city or its vicinity has not lost a relative or friend.

No Montrealers Survived.

Montreal, April 17.—Several people left here last night to meet the Carpathia, among them being Dr. F. C. Douglas, whose wife was reported amongst those rescued; James Baxter, whose brother, Quigley Baxter, has not been accounted for, and Dr. James Goodard, who is going to attend Mrs. Baxter, one of the rescued women, whose health was poor when she boarded the Titanic.

All hope that the Montrealers aboard the Titanic, whose name have not appeared on the list of rescued, have been saved has been practically abandoned.

Breen Back on Job.

Brockville, April 17.—John J. Breen, who gained considerable notoriety two years ago by eloping with and marrying Miss Ethel Croker, daughter of Richard Croker, former boss of Tammany Hall, has been engaged as stable manager by Mayor C. W. McLean, who has just purchased a string of eighteen high-class show horses in New York. Breen has recently defended successfully a divorce action brought against him by his wife in the New York courts. He was formerly stable manager for Hon. J. R. Stratton of Peterboro, and while exhibiting some horses at the Ogdensburg Show last year, Breen was served by a deputy sheriff with the papers in the divorce action brought against him by his wife. The couple have been separated almost the whole time since their marriage, Mrs. Croker living with her daughter in Paris and at Mr. Croker's Irish villa near Dublin.

Queen's College Degrees.

Kingston April 17.—Queen's University at its coming convocation will grant the following honorary degrees:

D.D.—Very Rev. E. J. Bidwell, dean of Ontario, Kingston; Rev. D. R. Drummond, B.D., Hamilton; Rev. Thomas Mitchell, Southport, Eng., president of the Federation of Free Churches of England; Rev. R. Bruce Taylor, M.A., St. Paul's, Montreal.

LL.D.—Arthur G. Doughty, C.M.G., Dominion Archivist, Ottawa; A. H. McDougall, principal Collegiate Institute, Ottawa; Prof. W. Bennett Munroe, professor of science of Government, Harvard University, and formerly of Almonte, Ont.

To Improve House of Commons.

Ottawa, April 17.—Steps are being taken by the Government to improve the acoustic properties of the House of Commons, where frequently difficulty is experienced in hearing members. Jacob Maser, of New York, an expert, is here consulting with the Government architects.

Veteran Engineer Dead.

Belleville, April 17.—Wm. Mair, the second oldest G.T.R. engineer in this city, died suddenly Monday night from heart trouble. In 1879, he came to this city, and since had been an engineer.

MAY COME QUIETLY

The Negotiations With Dr. Beattie Nesbitt Are Not Yet Ended

DEPOSITIONS ARE TAKEN

Toronto, April 17.—All the secrecy which for more than a year has cloaked the whereabouts of Dr. Beattie Nesbitt now shrouds the movements and deliberations of the crown with regard to his extradition from Chicago. Yesterday morning Provincial Magistrate Rogers heard the evidence upon the extradition depositions at the Parliament buildings, and this hearing will be completed this morning.

Neither Magistrate Rogers, Inspector of Detectives Duncan nor H. H. Dewart, K.C., counsel for Nesbitt, would make any statement as to what action was being taken by either the forces of the crown or the defence, further than that Mr. Dewart intimated that he might be in a position to make a statement should he be given a view of the crown depositions, but this was not granted and no statement was forthcoming. It is understood, however, that the doctor has by no means given up his original intention of returning to Toronto of his own free will and waiving extradition proceedings.

Mr. Rogers bore out this belief when interviewed on the extradition case last night. He said that Dr. Beattie Nesbitt had not announced whether he would return voluntarily to this country, waiving extradition but that the doctor and his counsel were considering the matter.

It is understood that to do this he must come back unconditionally and be prepared to face whatever charges have been or may be laid against him. Whether or not there were any further charges laid at yesterday morning's sitting is guarded as a solid secret, but it was said yesterday that other charges would be laid. Magistrate Rogers would not say just what was the amendment to the charge of forgery upon which the arrest was made, but said that the new charge was in respect of the same facts and that the alteration had been technical rather than actual. Crown Attorney Corley was not at the hearing.

W. R. Travers, former general manager of the bank, was examined by Magistrate Rogers, who has brought back a deal of the breeziness of Chicago with him, for he heard the evidence amid the soothing clouds of the smoke from a cigar, which is history in Canadian courts.

The hearing was not completed yesterday.

Will Reject Italy's Terms.

Constantinople, April 17.—The representatives of the foreign powers took the first step to endeavor to bring about mediation between Turkey and Italy yesterday, when an identical note was presented to the Turkish Foreign Minister, Assim Bey, at his private residence.

The substance of the communication is that, having ascertained the Italian conditions of peace, the powers desire to know Turkey's terms.

Assim Bey asked for time to formulate his reply, which is practically certain to be that Turkey declines to enter into negotiations on the basis of the Italian pretensions.

Children Taken, Mother Dies.

Niagara Falls, Ont., April 17.—Deserted by her husband, and her two children taken from her by her husband's sister, Mrs. Frank Stevens, died yesterday at Memorial Hospital, American side, following the birth of a daughter Friday. The child died the following day. That worry over the loss of her other children was responsible for her death is believed by physicians.

True Bills Returned.

Woodstock, April 17.—At 5 o'clock last evening, the grand jury at the local assizes which opened before Chancellor Boyd yesterday morning brought in true bills against George Patterson and Warren Dennis, the two East Zorra farmers who are charged with setting fire to the barn of George Patterson on Oct. 19 last. Patterson and Dennis pleaded not guilty.

Accidental Death the Verdict.

Parry Sound, April 17.—"Accidental death" was the verdict of Coroner Dr. Mason, who yesterday enquired into the circumstances connected with the death of John Tennant of Ambo, whose body some boys found floating in the harbor here on Sunday evening

NUGENT'S SARSAPARILLA

Price, large bottle, 100 full doses 75c and well worth it too. It's better to take no medicine at all than to depend upon cheap concoctions that are compounded to sell at a low price and a big profit just because there is a large demand for certain remedies at certain seasons of the year.

There are so-called Sarsaparillas offered to us to sell to our customers at 75c a bottle that would bring us a larger profit than Nugent's Sarsaparilla sold at 75c.

Nugent's Sarsaparilla purifies the blood, arouses the torpid liver, drives out all impurities, cleanses and tones up the system, and helps Nature throw off the dullness that comes from the indoor life of winter. It arouses energy, brightens the eye, clears the brain, gives lightness to the movements.

Nugent's Sarsaparilla is not the only thing you will find in this drug store. We make a specialty of Nugent's remedies.

Nugent Drug Co.
386 George Street
Directly Opposite Crossman's Store

PERFECT PANACEA FOR RHEUMATISM

"FRUIT-A-TIVES" WILL ALWAYS CURE THIS TROUBLE

McMILLAN'S CORNER, Ont.

"Your remedy Fruit-a-tives is a perfect panacea for Rheumatism. For years, I suffered distressing pains from Sciatic Rheumatism, being laid up several times a year, and not being able to work at anything. I went to different doctors who told me there was no use doing anything; it would pass away.

Fortunately, about two years ago, I got "Fruit-a-tives" and they cured me.

Since then, I take them occasionally and keep free of pain. I am satisfied that "Fruit-a-tives" cured me of Rheumatism and they will cure anyone who takes them". JOHN B. McDONALD.

Rheumatism, Sciatica and Lumbago are caused by Uric Acid—a poisonous substance formed as a result of acid indigestion and impurities in the blood.

"Fruit-a-tives", or intensified fruit juices, is the greatest blood purifying medicine in the world.

"Fruit-a-tives" keeps the whole system free of uric acid and will always cure Rheumatism in every form.

50c. a box, 6 for $2.50, or trial size, 25c. At all dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

Coffee Prices Are Very High

Although coffee now commands the highest prices in years, a further advance is imminent, according to local roasters, who declare that matters have come to such a pass that they are not getting back a new dollar for an old one at the present selling prices. It is claimed that green coffee costs 10c a pound more than it did three years ago, while in that period the cost to the retailer has been increased only 5c. The roasters have been slow to raise the price to the distributors, because they had reason to suppose that the sharp advance in wholesale prices would be only temporary, and they feared a serious curtailment of consumption if the prices to the consumer went up too rapidly.

The advance in wholesale prices, however, has proved far more permanent than expected, and there is so little in sight to suggest any relief that the roasters have only one of two courses to pursue, either to go out of business, as, indeed, several have in the past year, or get prices for their goods that will net them some profit. If the retailer is obliged to pay more for coffee, it is only natural that higher prices will be demanded from the consumer. Coffee, which used to retail for 35c a pound, should now bring 45c, and goods that a few years ago sold at 22c, should bring 30c to 32c to cover the inwholesale prices.

It should not be understood that coffee is at all scarce; indeed, there is plenty of coffee in the world, but almost two-thirds of the total supply is held under the valorisation scheme and interests friendly to those behind that plan, which has for its principal end the maintenance of coffee at a high price. The present world's supply of coffee is about 12,000,000 bags; of that total about 500,000 bags are held dby the valorisation interests, while in Brazil there are about 2,500,000 bags more, which are practically kept out of the channels of trade because the owners ask more money than the coffee is actually worth. Thus something like 7,000,000 bags of coffee are kept off the market, and there is only a floating supply of approximately 5,000,000 bags.

The owners of the larger part of the available supply are in a position to do what they will with the market, and at present indications are that the next Brazil crop will be a small one, they are inclined to take every advantage of their position. The Brazilian planter is waxing wealthy on the present high prices of coffee, and interest on the bonds floated under the valorisation scheme is easily met, while the Brazilian Government gets its share in what the local roasters are pleased to call a "hold-up" by a surtax, or an export duty on all coffee exported in excess of 10,000,000 bags in one year. In fact, the roasters and consumers of the country seem to be the only ones in the industry who do not benefit by the present high prices. — Boston Globe.

NEGLECT

To cleanse the system of undigested food, foul gases, excess bile in the liver and waste matter in the bowels will impair your health. The best system regulator is FIG PILLS. At all dealers, 25 and 50 cents or The Fig Pill Co., St. Thomas, Ont. Sold in Peterborough by the Warne Drug Co. Ltd.

LINDSAY-MINDEN RAILWAY EXTENSION

Minden Echo: For several weeks, the Echo has been in touch with a proposition which comes from the Muskoka people through the Huntsville Board of Trade, which may mean either an extension of the Lindsay-Minden railway through to Dorset, Huntsville, and westward to a point where two railways come together west of Lake Joseph, or the development of a new railway company to build to Minden from those points. It is proposed to build from a point west of Lake Joseph, where the C.P.R. and C.N.R. are quite close together, north of the Lake to Huntsville, continuing north of lakes to Dorset and thence to Minden.

Every yard of "Priestley's" cloth is rolled on the varnished board and the name

"PRIESTLEY'S LIMITED"

stamped every 5 yards on the selvedge.

Whether you want a dainty silk-and-wool fabric like "Ambrose" —a fine or large twill—or a coating serge like "Sandown" or "Concord"—be sure that you get the genuine "Priestley's" goods, rolled on the varnished board. 4

HEAD FIRST

Above all things take care of your hair, your appearance depends on the care you give your hair. The healthy hair you have seen and wished for is yours if you will use Sageine. HASTINGS ITEMS OF INTEREST

Hastings, April 16.

On Sunday evening last the singing in the Methodist church was conducted entirely by a choir composed entirely of ladies, who certainly did credit to the occasion. The service was in the interest of the W.M.S. In connection with he church, and he pastoral address was along missionary lines. At the close of the service a hankoffering was taken up, which added considerably to the funds of the society.

Another snowstorm has visited us, and judging by the amount of snow on some of the country roads it will be some time before we have the dust flying. We are told that in some places the snow is still six feet deep.

Mr. Tracey received word one day during the week of the death of his brother, Mr. J. Tracey, of Dundas. The body was brought here via the C.T.R., and the funeral took place upon the arrival of the train, proceeding to the R. C. Cemetery for interment.

Business on the canal appears to be going on in earnest, judging by the bustle and commotion in that section.

Mr. Mikel spent the Easter vacation at his home near Wooler.

Miss Mable Christie of Peterborough, has been holidaying with friends in this vicinity.

Mr. Charles Volker of Toronto, has been renewing old acquaintances at Hastings.

Miss Blanche Humphries of Bellevue, is spending the week under the parental roof.

Mrs. Dr. Cook has gone to the sanitarium in the hope of recuperating her failing health. Her many friends wish her a speedy recovery.

Mr. Joe McCarthy of Norfolk, has been visiting at his home for the past week.

Miss Grace Lynch of Burleigh spent the week with her parents.

Miss Bessie Colville has been the guest of her friend, Miss Jean Fife.

Miss Wilma Humphries entertained some young friends at a taffy party on Friday afternoon.

Those engaged in the sugar making report an excellent run of sap during the past week necessitating a great deal of night work as well as day. The syrup is being marketed and finding ready purchasers at $1.50 per gallon.

Mrs. J. Hore has been spending a few days in Belleville.

The regular monthly meeting of the Auxiliary of the W.M.S. was held in the parlour of the Methodist church on Thursday afternoon, when he officers for the ensuing year were elected. The result of the ballto was: For President, Mrs. N. Beavis; for Vice-President, Mrs. B. F. Doxsee; for Rec.-Secretary, Miss M. McConnell; for Cor.-Secretary, Mrs. (Rev.) Anderson; for Treasurer, Mrs. R. Doxsee.

Mrs. J. Flemming spent Saturday in Peterborough.

Mr. Albert Armstrong has been visiting his parents in Havelock.

Miss B. Collins spent the holiday with friends in Havelock.

A YEAR INDOORS

"For thirteen months I was so bad with chronic indigestion that I could not go out of doors. Nerves were unstrung, the heart bad and smothering feelings came on till I thought I would choke. Doctors' treatment failed me, so I began the use of Dr. Chase's Kidney-Liver Pills, which I thank for my present good health. I am now doing my housework and have a family of ten."

OMEMEE NEWS OF INTEREST

Special to The Examiner:

Omemee, Apr. 16.

Miss Myrtle Toole was in Milbrook for a few days.

Mrs. R. J. Mulligan is visiting relatives in Toronto.

Mr. Jack Smith left last week for the west.

Miss Hazel and Master Ivison Adams of Lindsay are visiting Mrs. R. J. Mulligan.

Miss Hazel Brooks has taken a position in Mr. T. A. McPherson's.

Mr. Ernie Balfour of Lindsay was in town on Monday.

Rev. R. Burns was in Peterborough on Tuesday presiding at conference examinations.

Miss Lulu Balfour of Lindsay spent a few days last week with friends here.

Dr. Sutton was in Peterborough on Tuesday.

The L.B.A.C. were entertained at the home of Miss Jennie McConnell on Friday evening, when a very enjoyable time was spent in music and games.

Mrs. Messmore, wife of the late Dr. Messmore of India, is the guest of her daughter, Mrs. T. W. McLean.

Mr. Victor Johnston of Georgetown, who has been home ill, is able to be around again.

The Women's Institute held their annual meeting last Thursday in the hall of the Commercial House. The subject was "gardening," and much useful information was gleaned from this important topic.

Miss Mildred Fee spent the Easter vacation at her home here.

We notice among the list of successful candidates at the recent normal school examinations, the names of Miss Grace Laidley and Miss Fear. Congratulations!

Mrs. (D.) Sullivan is visiting relatives in Toronto.

Mrs. Reid of Reaboor was the guest of Mrs. McPherson on Monday.

Mrs. Hickson is visiting her daughter, Mrs. D. Rea.

MANY WANTED TO KNOW.

The C.P.R. uptown ticket office has answered a host of telephone calls to-day regarding the Titanic, and the Examiner 'phones were kept busy all day.

Ready in Short Order

Campers like Tillson's Rolled Oats. There's a lot of paddle power in a big dish of Tillson's.

And it's ready in 15 minutes.

When a man is in the woods and has to do his own cooking he begins to appreciate what it means to a woman to shorten the hours she spends in cooking.

CAMPERS: Take Tillson's on your camping trip. It's splendid satisfaction for a hungry appetite. It furnishes the endurance for a long tramp or paddle, and best of all it takes only 15 minutes to cook.

HOUSEWIVES: Serve Tillson's at your breakfasts. It makes the tastiest porridge and shortens your work over the stove.

Tillson's Oats

Your grocer has Tillson's Two sizes—10c and 25c. Each 25c package contains a handsome piece of English Porcelain Tableware.

CANADIAN CEREAL & MILLING CO., Ltd. TORONTO, ONT.

(Extract from 'Biggar Independent," March 7, 1912.)

Redistribution Bill Before Provincial House

Proposed New Constituency to be Formed With Biggar as Seat

The Provincial Parliament now have the new Distribution Bill framed up into working shape, and this will erect 15 new seats and make 84 seats for the whole province.

One of these new seats is allotted to our own town of Biggar, with a district extending thirty miles from east to west and from sixty to ninety miles from north to south, the deflection being caused by the North Saskatchewan River.

As laid out, the new constituency of Biggar consists of all that land shown on the map as follows:

Starting from a point on the line between ranges 11 and 12 on the top of township 30, and proceeding straight north along this line to the North Saskatchewan river in township 40; then along the line of the river till reaching the line between ranges 17 and 18 in township 44, and proceeding south along this line to the N. E. corner of township 30 in range 18, and from there straight east to the starting point.

This gives the Biggar constituency an area of somewhere about 2,400 square miles, and includes the towns of Biggar, South Battleford, Naseby, Traynor, Harris, Zealandia, Herschel, Palo, Oban, Mead, Vance, Neola, and a lot of other smaller places inside the area mentioned above.

BITS OF NEWS

Jones Knocking It.

Jones and Brown argued as they always did when they had time enough. They had dined together, and as Jones lived at a distance and it was very late, Brown offered to put him up for the night.

On the way home they fell to discussing the strategy of the civil war as indicated by the campaigns of Lee and Grant. The topic was elastic enough to keep them going for a half hour and reached its height as they neared Brown's house.

Then Brown lost his temper. "Jones," said he, "if you don't admit that Grant was a greater general than Lee you can't sleep here."

It was then 2 o'clock in the morning and Jones was eight miles from home. —Chicago Post.

Thoughts at 8 A. M.

I love to think of boyhood days when I
the turkeys fed.
I used to fix their breakfast food ere yet
the sky was red.
I used to dry shampoo the horse and man-
icure the cow.
I love to lie in bed and think I needn't do
it now.

I love to think of boyhood days when I
arose at four
And fetched the water from the well, a
hundred pails or more.
And then I dragged the harrow out and
harnessed up the plow.
I love to lie in bed and think I needn't do
it now.

—Louisville Courier-Journal.

Some Excuses.

Dear Sir—Kindly excuse E, as we all have been sick. My husband fell and hurt his head where he works, and I was unable to get him ready for school. Resp. yours.

Dear Miss—Please excuse John from his home work. He had a sore toe last night and was unable to do it. Hoping this will be satisfactory, I am yours.

Dear Sir—Our doctor has vaccinated F three times and he cannot vaccinate him again until Monday. If you want any more inflammation, refer to Dr. H. Yours respectfully.—Lippincott's Magazine.

Rhetorical Economy.

An orator's a lucky elf,
With naught to do but take
The dictionary from the shelf,
All for his country's sake.

He picks a word of proper sound
The patriot ear to please
And then groups other words around
To make it seem at ease.

And when one speech has made a hit
And there's another due
He shifts the words a little bit
And uses them anew.

—Washington Star.

A Cruel Question.

Skeezick's car had turned turtle, and as he sat gloomily contemplating the situation Uncle Silas reined in his nag and stopped outside.

"Turned over, hain't she?" he observed.

"Yep," said Skeezick shortly.

"Want to sell?" asked Uncle Silas.

"Yes," said Skeezick. "I'll sell out cheap."

"What's your upset price?" asked Uncle Silas with a grin.—Harper's Weekly.

Asop Up to Date.

A Cottager and wife possessed a Hen
That laid each day a golden Egg again.
So each one thought that in its fair inside
A lump of gold there surely did abide.
And thus they killed it in the hope of gain
And found no more than entrails, quite as plain
As fill the insides of all mortal chicks.
The foolish pair were in a silly fix.

MORAL.

And thus 'tis ever with the Get-rich-quicks.

—Farm and Fireside.

Horrible.

"I had a horrible dream last night. It was, in fact, almost a nightmare."

"What was the nature of it?"

"I dreamed that I was a professional wrestler and that it was necessary for me to pose for a photograph of myself in my wrestling form."—Chicago Record-Herald.

L'Envoi.

When earth's last fashion is charted and
the last of the fads has been read
And the last fool story is printed and the
last suffragette is dead,
When the last divorce has been granted
and the last soulmate has to leave,
We shall take our wife to our bosom and
find she's the same old Eve.

A Family Necessity

is a remedy capable of affording immediate relief to the hundred and one ailments that constantly arise. It may be a cold, perhaps toothache, neuralgia, pain in the back—use Polson's Nerviline, it's penetrating, pain-subduing, and powerful.

NERVILINE

is at least five times stronger than ordinary remedies and its worth in any household can't be overestimated. For man or beast, Nerviline is a panacea for all pain.

"Not If It Cost Ten Dollars

A bottle would I be without Polson's Nerviline," write J. A. Ruth, a farmer living near Trenton, Ont. "Nerviline is the best household liniment I know. We use it for stomach troubles, indigestion, headache, and Summer complaint. I know of nothing better to take in hot water to break up a cold, or to rub on for rheumatism or neuralgia." Every farmer should keep a few bottles of Nerviline handy, and have smaller doctor bills.

Nerviline is a protection and safeguard against the pains and aches of the entire family, and cures rheumatism, neuralgia, toothache, etc. 25 cents for a large bottle.

"What's the matter with Biffers?"

"Don't mind him. He's got a crazy notion that he's losing his memory."

"What makes him think so?" "Why, he can't remember whether the Chinese emperor's name is Pu Yi or Pi Yu."—Cleveland Plain Dealer.

"A handsome man smiled at me in town today."

"Oh, well, don't feel bad about it. Some women look even funnier than you do."—Houston Post.

Little drops of water
In the can of milk
Bring the milkman's daughter
Pretty gowns of silk.

—Judge.

"I don't believe I'll take that gown after all."

"Why not?"

"It feels too comfortable on me to be stylish."—Detroit Free Press.

"Do you know where little boys go who are cruel to innocent animals?"

"Yes'm."

"Well, where?"

"De same place dat swell ladies do what makes dair husbands carry all de shoppin'."—Life.

You may post it on the barn door,
You may string it on the fence,
But the fact remains,
If it shines or rains,
You can't learn a born fool sense!

—Atlanta Constitution.

"Once I could have bought the site of Chicago for $400 in Mexican money."

"I know how it is, old chap. I had a chance to buy a beefsteak once for 11 cents a pound."—Washington Herald.

"Marriage is a lottery," quoted the wise guy.

"Gee! Then poor Adam only had one chance," reflected the simple mug.—Philadelphia Record.

I bought a little bungalow
A year ago last fall.
'Twas bought on the installment plan,
With the accent on the stall.

—M. L. C.

A pest upon your scribblers,
Vile, poetasting hacks!
Pray cut their accents out, sir,
With the accent on the ax.

—Heloise.

—New York Mail.

"No; the world is too prosaic nowadays. When I fall in love I shall never inquire who her parents are or whether she has money—only when I marry."—Fliegende Blatter.

"Isn't that Miss Yawler singing across the way?"

"Yes. I wish she belonged to a grand opera company."

"You surely don't think she can sing?"

"Not at all, but grand opera companies never come to this town."—Birmingham Age-Herald.

Oh, let's reform this busy earth!
Let us toil on for all we're worth,
But let us now and then be gay,
Admitting some things are O. K.

—Washington Star.

"Modern journalism is a marvelous thing."

"That's what. Some papers manage to keep the baseball page going all winter."—Kansas City Journal.

"What have they put up that scaffolding round the church tower for?"

"It's for shortsighted people who want to know the time."—Pele Mele.

With increasing amusement he laughed
Because of his daughter's wild laughter.
He said, "Though I seem to be daughed,
I'm sure that my daughter is daughter."

—Life.

Employer (angrily)—What are you throwing those handbills on the pavement for?

Bill Distributer—Well, guv'nor, that's what the people does as I gives 'em to, so it's only saving time.—Comic Cuts.

He stood on the bridge at twilight as
the game drew near the close. 'Twas
a pensive mood in which he stood on
the bridge of the halfback's nose.—
Louisville Courier-Journal.

A pessimist is he whose rose
Bears no sweet fragrance for the nose,
But is a lure by grace forsworn
To prick him with its hidden thorn.

—Judge's Library.

"Are you sure you know all about that topic you write on at such length?" "Certainly not," replied Mr. Hibrow. "If I were sure I knew all about it I shouldn't be sufficiently interested in it to write about it."—Washington Star.

Customer (to shopkeeper)—Have you got any eggs that you can guarantee to me that there are no chickens in? Shopkeeper (pausing for a moment)—Yes, sir; duck eggs.—London Tit-Bits.

Success is not a hoard of wealth,
For money even dubs inherit,
And some may get it, too, by stealth.
Success, though, must be won by merit.

—Detroit Free Press.

Business Man (explaining)—When they say "money is easy" they mean simply that the supply is greater than the demand.

His Wife—Goodness! I shouldn't think such a thing is possible.—Boston Post.

Hudson—How would you explain the inscrutable Mona Lisa smile?

Judson—Some one has told a funny story, and the poor woman is smiling in the wrong place.—Harper's Bazar.

Mid pleasures and palaces
Though we may roam,
There's something destroying
The old fashioned home.
The cause is not clear,
But certainly we know
Wherever we travel
There's something like Rose.

—Judge.

This Coffee Pot FREE

Why Dalton's French Drip Coffee is so Wholesome, Delicious and Economical

When you have once tasted Dalton's delicious French Drip Coffee, made in a Dalton's French Drip Coffee Pot, you will never be tempted to drink ordinary boiled Coffee again.

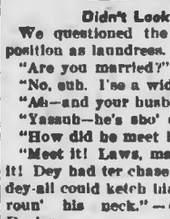
The Coffee berry, or bean, is protected by nature from the insect world by a tough outer shell or husk which contains tannin and other acid, bitter principles which are poisonous to insects and certainly not wholesome to the human system.

Other roasters of Coffee do not remove this bitter husk, and this is why many people find that ordinary Coffee does not agree with them. Not only that, but the usual way of roasting Coffee in cylinders over coke or gas fires, drives off the volatile essences so essential to aroma and flavor.

Dalton's French Drip Coffee

The DALTON way is to throw the Coffee berries against an intensely hot flame. This roasts them in half the time and prevents the volatile essences being driven off. Then the Coffee is cooled by a special process, during which a strong suction air-blast blows off all foreign substances. Next comes the grinding, during which another powerful air-blast removes the poisonous, bitter outer shell. The Coffee, contains absolutely no chicory and is packed in sealed tins, which preserve all the delightful flavor.

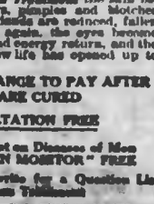
We make Dalton's French Drip Coffee in two strengths Mild Blend and Strong Blend. You cannot tell however which you will like the best until you try both, and that is why we ask you to buy two tins in our special offer.



SPECIAL INTRODUCTORY OFFER

We feel so sure that you will find either Dalton's Mild Blend or Strong Blend French Drip Coffee just the Coffee that you have been looking for that we have authorized your Grocer to give you one of these handsome pots (worth $1.20) absolutely Free with your first purchase of a tin each of Mild and Strong Blend. You buy two tins of our Coffee—one of each blend—at 35c. per tin, to give it a fair trial, and we give you the means of testing it FREE, satisfied that you will use nothing but Dalton's French Drip Coffee thereafter.

25c. and 50c. tins. Never sold in Bulk.



DALTON BROS., TORONTO.

If your Grocer will not Supply you Enclose $1.00 and we will Send Carriage Collect

Home to Roost.

Apple green west and an orange bar,
And the crystal eye of a lone, one star,
And "Child, take the shears and cut what
you will—
Frost tonight, so clear and dead still."

—Edith M. Thomas in Harper's.

Pea green pills and orange bunk
And the ragged rime of one mad or drunk
You must confess this approaches Miss
Edith's verse, but we can't sell this.

—Buffalo News.

Crushed pumpkin dawn and a lemon squeeze—
Child, lead your mother outdoor to freeze.
At stuff like this we could never fail,
But we'd never dare offer this stuff for sale.

—Houston Post.

Alice blue cheese and a plate of tripe
And fourteen Chinamen hitting the pipe.
Verses like this make a bosom throb.
I hope it won't cause me to lose my job.

—Milwaukee Sentinel.

Asking Too Much.

"And did they put the bounds on the scent of the escaped prisoners?" asked the New York police captain.

"Sure," replied the detective.

"And did the dogs run them down?"

"No."

"Why, I thought they were such wonderful dogs on the scent?"

"Well, they are; but, you see, they trailed the prisoners to the subway, and there were so many different smells that the bounds lost the trail."—Yonkers Statesman.

Mabel and the Label.

Just like a lot of other folks
Who can't command the cash,
Miss Mabel had a host of friends
And liked to cut a dash.
She went to buy a wedding gift.
Ten cents for it she paid.
It was an imitation gem
Of art in mottled jade.
Upon the bottom of the vase
She traced with clever touch
Before the humble one and dought
The sign that meant so much—
The magic little dollar mark.
Oh, fair and foxy Mabel!
'Twas thus she got the credit for
Ten dollars on the label.

—New York Examiner.

Didn't Look For It.

We questioned the applicant for a position as laundress.

"Are you married?" we asked.

"No, suh. I'se a widduh."

"Ah—and your husband is dead?"

"Yassuh—he's sho' daid."

"How did he meet his death?"

"Meet it! Laws, man, he didn't meet it! Dey had ter chase him two mile fo' dey all could ketch him an' put de rope roun' his neck."—Cleveland Plain Dealer.

A Slight Modification.

"Competition is the life of trade," said the business man.

"Of course it is," replied Mr. Dustin Stax. "Only we want to get trade so regulated that folks will be competing for a chance to buy instead of a chance to sell."—Washington Star.

Human Nature.

Most of us, if we think a bit, will find it very true
That of the Ten Commandments we can scarcely think of two.

—Dallas News.

Limited Curiosity.

"Do you think that central listens when I am talking over the telephone, John?"

"Not all the time," answered John, winking at the baby, which was a boy.—Buffalo Express.

The Difference.

In the good old days of Rome's fair youth
They had a senate, too,
But statesmen then were cubs, forsooth,
At spanking free seeds through.

—Denver Republican.

They Love It.

"Do you know of any class of men who would advocate the recall if it applied to themselves?"

"Oh, yes; actors."—Baltimore American.

YOUR BLOOD IS TAINTED

ULCERS, BOILS, SWOLLEN GLANDS, BLOTCHES, PIMPLES, AND ALL SKIN AND BLOOD DISEASES ARE COMPLETELY CURED BY THE NEW METHOD TREATMENT

We desire to call the attention of all those afflicted with any Blood or Skin Disease to our New Method Treatment as a guaranteed cure for these complaints. There is no excuse for any person having a disfigured face from eruptions and blotches. No matter whether hereditary or acquired, our specific remedies and treatment neutralize all poisons in the blood and expel them from the system. Our vast experience in the treatment of thousands of the most serious and complicated cases enables us to perfect a cure without experimenting. We do business on the plan—**Pay Only for the Benefit You Derive.** If you have any blood disease, consult us **Free of Charge** and let us prove to you how quickly our remedies will remove all evidences of disease. Under the influence of the New Method Treatment the skin becomes clear, ulcers, pimples and blotches heal up, enlarged glands are reduced, fallen out hair grows in again, the eyes become bright, ambition and energy return, and the victim realizes a new life has opened up to him.

YOU CAN ARRANGE TO PAY AFTER YOU ARE CURED

VAIN HUNT FOR HER NOSE

Woman Fell Down Steps at Elevated Station and Tip was Torn Off

NEW YORK, April 17. — For half an hour yesterday afternoon an ambulance surgeon assisted by his driver, a policeman, and half a dozen elevated railroad employees, searched about the steps and street below the elevated station at Thirty-fourth street ferry, for the tip of a woman's nose, which had been torn off when she fell down the steps leading from the station to the street. The search was unavailing.

The injured woman is Mrs. L. Cornely, 56 years old, of 898 Jackson ave., the Bronx, and she was on her way to visit her daughter in Hicksville, L. I., when the accident happened. She left a train of the Third Avenue Elevated Road at the ferry terminal, and was going down the stairs leading to the street, when she stumbled, pitched forward on her face and rolled down to the street. On her way down her nose struck a piece of the steel reinforcement of the steps. She was stunned when carried to a store opposite the station by several citizens and attended there by Dr. Sovak, of Bellevue, whos aid the woman would be disfigured for life unless the piece of nose could be found and grafted on.

Mrs. Cornely is a tall ,fine looking woman. After the search had proved a failure, Dr. Sovak patched up the wound as well as he could.

STARVING AMID WEALTH

Elderly Man in eNw York was Unable to Secure Work.

NEW YORK, April 16. — Edwin Shuster, gray haired and venerable looking, although giving his age as 58 years, was found lying exhausted in a doorway in front of 208 East Twenty-fifth street yesterday afternoon, and taken to Bellevue Hospital, in a starving condition. The hospital authorities declare him to be in a serious condition and it is believed his chances for recovery are slight.

At the hospital the old man told a pitiful story of a vain search for work, a search extending over a period of eight months since he lost his last place in Goshen, N. Y., where he worked on a country place. He said he had been a florist all his life.

Three days ago the money he had saved and had obtained from his brother William, living at 1040 Croton Ave., the Bronx, was all used up, and during that time Shuster said he had not eaten.

HOW NERVE CELLS ARE BROKEN DOWN

Every man or woman who works with the brain uses up daily an enormous amount of nerve force. Millions of tiny nerve cells are broken down and must be replaced if mental and bodily efficiency is to be maintained. If brain fag, headaches, sleeplessness or irritability set in, the evidence is plain that nature is not rebuilding as fast as work is breaking down. You cannot allow this depleting process to continue long if nervous prostration or paralysis is to be warded off.

Dr. Chase's Nerve Food will help you to get the balance on the other side of the account, so that each day will add a little to your stock of health and vitality. A man whose work is largely mechanical may keep going with health below par, but the brain worker mus thave a clear head or fall behind in the race. Restore the wasted nerve cells with Dr. Chase's Nerve Food and know the joys of good health and success.

AUCTION SALE

Mr. Henry Killen, lot 4, concession 6, Ennismore, having disposed of his farm, will hold an auction sale, at one o'clock p. m. on Wednesday, April 24th, when he will dispose of his whole farm stock, implements, poultry, hay, oats, etc. Mr. Killen is coming to Peterborough to reside.

Mr. Killen will also offer for sale 50 acres of land, consisting of the S. half of lot 14, in the 7th concession of Ennismore.

Sale without reserve.

Remeber! Wednesday, April 24th, at one o'clock p.m.

HARVARD LACKS ETIQUETTE

Shows Falling Off in Table Manners, Says Track Athlete.

CAMBRIDGE, Mass., April 17. — Biscuit shooting and hash slinging etiquette may be added to the curriculum at Harvard. Of late during the dinner at Memorial Hall the apeparance of a stranger has been signalled with a clinking of glasses and a shower of bread.

The climax was reached recently when the debating team from Princeton arose from a table and stopped in the aisles to salute friends. They were bombarded with bread, and fled.

"There has been a marked falling off in the table manners of the students," says Hugh Caddis, track team manager. "They take liberties that would not be countenanced in any sort of public dining hall."

Dr. de Van's Female Pills

MARCONI

Whose Invention has proved its Value on the Sea.

Guglilmo Marconi was born in Bologna, Italy, April 25, 1874. He was the child of an Italian fother and an Irish mother. In 1905 he married the Honourable Beatrice O'Brien, daughter of Lord Inchiquin. He was educated at the University of Bologna, and began his experiments with wireless telegraphy when hrdly more than a boy. His invention was tested in England, then by the Italian Department of the Navy, and from the first it was successful. In 1899 Marconi was able to telegraph by wireless from France to England. After perfecting his invention he was able to telegraph from Pondhu, Cornwall, to St. John's Newfoundland. In 1907 he established a transatlantic service. He lives chiefly in Venice and in England.

Smith Items

Smith, April 16, 1912.

The roads in this vicinity are very poor.

Mr. Lou Sullivan, our faithful mail carrier, had a number of misfortunes last week, but one of the neighbors kindly provided him with a sleigh to convey his passengers to the city.

Mrs. G. McKee and Mrs. Robert McKee, of aWrkworth, are the guests of Mrs. George McKee of Smith.

Miss Ethel Telford spent Sunday at her home in Smith.

Miss Mabel Harrison spent Sunday as the guest of her parents.

Owing to the condition of the roads thre was no service at the Gilmour Memorial Church last Sunday.

Mr. Robert Telford returned home after spending the last two weeks with her daughter, Mrs. George Metcalfe, Dublin street.

School re-commenced on Monday so our boys and girls may look for no more holidays until midsummer.

Shiloh's Cure
quickly stops coughs, cures colds, heals the throat and lungs. 25 cents

HER WISDOM TEETH

"I shall be awfully stupid now," exclaimed a wife who had returned from a visit to her dentist.

"Why so, my dear?" queried her husband.

"Because I have had all my wisdom teeth pulled out," replied the lady.

"Oh, my love, the idea that wisdom teeth have anything to do with wisdom is a foolish one! If you were to have every tooth in your head draws it couldn't make you any stupider you know!"

Curtain!

A Trial Treatment of Cuticura Soap and Ointment Free to Skin Sufferers

If you, or someone dear to you, are suffering the itching, burning, sleep-destroying torments of eczema or other cruel skin eruption, with its embarrassing, unsightly disfigurement; if you have tried all manner of treatment, no matter how harsh, to no avail, and have all but given up hope of cure, write to-day for a liberal sample of Cuticura Soap and Ointment. Thousands of skin-tortured sufferers, from infancy to age, have found that the first warm bath with Cuticura Soap and gentle application of Cuticura Ointment bring instant relief, permit rest and sleep, and prove the first steps in a speedy and successful treatment. Address "Cuticura," Dept. 10M, Boston, U. S. A.

WANTED IT CLEAR

Here is a story told of a Toronto street car conductor soon after the "no smoking" by-law was put into force.

Noticing a passenger with the end of a cigar in his fingers, the conductor requested him to throw it into the street.

"It is out, you chump!" responded the passenger.

"Pardon me," resumed the conductor, "if I have failed to make myself clear. The condition to which I made reference was not one of mere temporary non-combustion, but of elimination—the eradication, I might say, of the physical presence of your nicotine laden remnant, followed necessarily by cessation of the odor now permeating an atmosphere already somewhat deficient, I fear, in the essential element of ozone. I'm a humble conductor, and my aim is to please, but if you don't throw that cigar away out both you and the weed go!"

"Excuse me, professor, now you make it so clear I hasten to comply," replied the passenger, meekly, and the incident was closed.

IN DAYS TO COME

Gent (to Lady Cabby):—"Another quarter? Certainly, my dear."

HE THOUGHT A LOT!

The greatest poster artist of to-day is undoubtedly Mr. John Hassall.

At one time Mr. Hassall was out farming in Manitoba. Here the front door is always left unfastened, he says, and if a hungry man comes along he is expected to walk in and help himself.

One day Mr. Hassall came home to find a stranger making himself a cup of tea. He turned out to be a foreigner, and his only English was the pentence: "It's all right!"

After he had made his tea he looked round for the sugar. Now the sugar and pepper were kept in pepper castors of exactly similar appearance Mr. Hassall endeavored to point out which was which to him, but he waved him aside.

"It's all right!" he repeated, and helped himself liberally to pepper stirring all the time. Then he drank it off at a gulp!

"For the rest of the time," says Mr Hassall, "he turned his back on me and refused to utter a word. Probably, like the parrot, he thought a lot!"

TIP TOP

Mrs. Stay-at-Home:—"And when you visited Germany were you up the Rhine?"

Mrs. Go-Abroad:—"Oh, yes; right at the very top, and what a magnificent view there is from the summit!"

HIS TREASURED DOG

"You look very miserable, Splitkins?"

"I am. There were burglars at my house last night."

"Hard luck! What happened? Did they steal your silver?"

"No, they never touched that."

"Got all your cash, perhaps?"

"I never had any at home, luckily."

"Lose some curios?"

"Not one."

"Then what on eart hare you so upset about?"

"Because I've been five years training my watch-dog to be the finest in the country, and now the first burglar who comes along has stolen him."

GOT THE BUTTON

Lois Fuller told a story about her New York class of dancing children

"I gave the children a party last year," she said, "and when the pudding came on I said to them:—

"'I have put in this pudding a coin a little china doll, and a button. Who ever gets the coin will be rich. Who ever gets the doll will be married before the year is out. But whoever gets the button will be an old maid.'

"Well, the pudding disappeared rapidly, and the little girls soon found the coin and the china doll. But the button did not turn up. No one got the button. This amazed me. That night I said to my favorite little girl, as we sat alone by the fire in my room:—

"'I can't understand what became of that button. I put it in the pudding myself.'

"'I'll tell you,' the little girl confessed, turning rosy with confusion 'I dot the button. I didn't want every body to laugh at me—the I thwallowed it.'

The Richest Woman

The richest woman in the world, Mrs. Hetty Green, of New York, owns something like one hundred million dollars.

Three important factors—correct style, splendid quality and a binding guarantee—have brought about the wide popularity of

IRRIGATION IN ALBERTA

The Canadian Pacific Railway big irrigation dam at Bassano, Alberta is the biggest structure of its kind, now under construction in Canada. It is being built on the Bow River at a point locally known as Horse Shoe Bend, about three ciles south west of Bassano, which is 83 miles East of Calgary. The dam is a composite structure, consisting of a long and high earthen embankment on the south bank of the river and a reinforced concrete spillway in the existing river channel. When completed the earthen embankment will have a total length of over 7,000 feet, it will have a maximum height of 45 feet and will be 350 feet wide at the base at its highest point. It will contain one million cubic yards of material.

WOMAN'S AIM.

A gentleman who witnessed a scrimmage with Suffragists outside the Houses of Parliament vouches for the truth of the following story:—

A woman carrying ten stones in a bag took up her stand in front of a window.

She threw one stone, she threw two stones, she threw three stones,
An didn't hit the window.

She threw four stones, she threw five stones, she threw six stones,
And the window still was whole.

She threw seven stones, she threw eight stones, she threw nine stones,
And then a man laughed.

She threw the tenth stone at the man
And broke the window.

CARTER'S LITTLE LIVER PILLS.
CURE
Sick Headache and relieves all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing
SICK
Headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured
HEAD
Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head
ACHE
is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.
Carter's Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them.
CARTER MEDICINE CO., NEW YORK.

Silence!

The instinct of modesty natural to every woman is given a great hindrance to the cure of womanly diseases. Women shrink from the personal questions of the local physician which seem indelicate. The thought of examination is abhorrent to them, and so they endure in silence a condition of disease which surely progresses from bad to worse.

It has been Dr. Pierce's privilege to cure a great many women who have found a refuge for modesty in his offer of FREE consultation by letter. All correspondence is held as sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Favorite Prescription restores and regulates the womanly functions, abolishes pain and builds up and puts the finishing touch of health on every weak woman who gives it a fair trial.

It Makes Weak Women Strong. Sick Women Well.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic medicine of known composition.

"The Only Thing That Will Relieve Neuralgia."

The piercing pains of Neuralgia, which often follows a bad cold or La Grippe, are frequently almost unbearable and few medicines afford any relief to the sufferer.

"I am a rural mail carrier and have been a user of the Dr. Miles medicines for years.

Dr. Miles' Anti-Pain Pills can't be beaten. They are the only thing I have found that will relieve my neuralgia and I have tried most everything, besides medicine from the doctor. I am willing to tell anyone what the Anti-Pain Pills did for me."

CHARLES HILDERBRANDT,
Box 205 Woodvill. Ohio

If you, like Mr. Hilderbrandt, "have tried most everything" in vain, why not do as he did, fight your aches and pains with Dr. Miles' Anti-Pain Pills. Let the pills bear the brunt of the battle. No matter how stubborn the contest, they will come out victorious.

Dr. Miles' Anti-Pain Pills stand on their record, which is a long list of cures extending back a generation.

Druggists everywhere sell them. If first package fails to benefit, your druggist will return your money.

The Ruby Heart

A Story of Feudal Times In Germany

By F. A. MITCHEL

The tourist steaming on the river Rhine sees high up on the peaks of either bank ruins of castles that several centuries ago were the homes of feudal barons. One of an imaginative turn of mind may picture these strongholds peopled with gayly dressed men and women, soldiers and servants. There lived the baron, descending now and again to the river, collecting tribute from merchants passing up and down, the lion's share of which he took for himself, distributing the rest among those who did his bidding.

In one of those castles, which now stands out against the sky a lonely ruin, dwelt the Baron Rudolf Eidenreid. Below it a little stream flows into the Rhine, and the baron had a boat station concealed by overhanging trees a short distance from its mouth. When a craft loaded with merchandise was seen coming a party would go down to this station and get out the boats, and when the merchant came opposite the mouth of the creek would shoot out to levy tribute. Sometimes the merchant would be protected by armed men; then there would be a fight, but the baronial custom house usually won, and the merchant would be forced to pay the duty.

Among the Rhine maidens of that time was Bertha, the baron's daughter. At times when her father was not at home, when a merchantman was seen coming, she would take command of the revenue party and lead them to collect the tribute. She was greatly admired by all the men at arms in the castle, who would not willingly permit any harm to come to her. But she was brave as the rest of them, and when she was excited by a contest to protect her was no easy matter, for she would often distance her supporters in moving against an enemy.

So great was Bertha's military ardor that she avowed no man should wed her who could not conquer her. She went so far as to wear on her left breast a ruby cut in the shape of a heart to signify that any man who aspired to her hand must be able to place the point of his sword at the spot underneath which her heart was beating.

One morning a party of horsemen was seen ascending the height on which the castle stood. The baron was away, and when these men entered the postern and stood in the courtyard Bertha, looking from a casement, surveyed their leader. He was a young man slenderly made, but very symmetrical. His face was of an intellectual cast, and his long fair hair fell from beneath his velvet plumed cap over his lace collar. Altogether he formed a very pleasing picture to the eyes of the maiden. But the massive muscles that could wield a lance or a battleax were wanting, and his was a strength of intellect rather than of flesh. Bertha opened the casement, saluted the young man and asked the reason for his coming. He announced himself as Count Hubert Rheinhart, a messenger of the king, and he had come to demand on the part of his majesty a hundred armed men to join his army to fight against the king of Sweden. Bertha replied that her father was absent, but the messenger and his retinue were welcome to remain in the castle till the baron's return. The count accepted the invitation, and he and his followers were housed and their horses stabled.

Now, the barons of those days usually yielded military service to the king grudgingly. The kingdom, composed of separate provinces, was loose jointed, and the sovereign found it difficult to enforce his decrees. Bertha, knowing that her father would rather remain at home and increase his wealth by his descents upon unlucky wayfarers, sent a messenger at once advising him of the king's demand, so that he might if he chose remain away until the party, weary with waiting, should go on to collect men and arms elsewhere.

But this was not the only reason for the girl's action. From the moment she caught sight of the fair haired count the spark of love entered her bosom and she decided to keep him as long as possible in the castle. So it was that Count Hubert was detained to fall under the spell of one full of woman's witchery re-enforced by great beauty. But the pity of it was that to win her he must be able to touch the target heart on her breast with the point of his sword. Unfortunately, his training was rather in diplomacy than in feats of arms.

When the little god enters the heart he does not always make himself known. Bertha was conscious of a commotion under the ruby, but did not realize what it was. She regarded it as a desire to attract the count as she had attracted other men, give him the opportunity to win her she had given them and beat him at the same game.

So she entertained him royally and soon made him forget his errand in the pleasure he took in her company. His escort, being provided with all they wanted, were in no hurry to go on. Besides, it was observed that they had no will other than that of their leader, whom they treated with great respect. [illegible] sent a messenger to tell the party had gone, and Bertha replied that they were still in the castle.

The young man must have possessed a refinement superior to his fellows of that rude age, for though he noticed from the moment he met the girl that she wore the ruby heart on her left breast, he did not ask why she did so. Though he felt the effect of Cupid's shaft as soon as he saw her, he seemed to be resisting it. This only made her more eager to conquer him.

One evening just before dark a craft was seen floating down the river loaded with merchandise. Bertha, who was with the count, stole away from him and, donning her military costume, descended to the creek, took command of the boats starting to levy tribute and went out to intercept the stranger. There was a fight, in which the latter was worsted, as usual, and the tax paid. Bertha, flushed with the fray, returned to the castle and, ascending a spiral staircase leading to her room to change her costume, met Count Hubert face to face.

The sight of the girl, her dark eyes flashing with the memory of the fight, her raven hair that had come unloosened and fallen in a coil on her shoulder, her tight fitting costume displaying the grace of her supple figure, was too much for the young lover.

Whatever was the reason for his resistance to the spell he had fallen under, he broke through all reserve, clasped her in his arms and pressed his cheek against hers.

Disengaging herself, she told him the meaning of the ruby heart.

"Alas!" he said. "I am no swordsman. I have been interested in knowledge and my profession is diplomacy. I have neither a taste for arms nor time to perfect myself in their use. Nevertheless I shall avail myself of my only chance."

Although those were rough times and Bertha was a real, not a sham, fighter, she did not mean by wearing the ruby that the man who would win her must stab her in the heart. It was intended to give notice that he must be sufficiently skillful to do so. She told Count Hubert that he must place the point of his rapier upon the ruby, leaving him to infer that if he went further he would kill her. The count was appalled and ready to forego the trial, but Bertha egged him on, saying that she felt perfect confidence in being able to protect herself. Beside himself with a love which he must take so great a risk to gratify, he consented to the meeting, declaring that if through a mishap he killed her he would plunge his weapon into his own heart.

From the staircase Bertha went to her room, where she dressed herself in fencing costume, and instead of the ruby on her heart she wore a heart made of red silk, a much better target than the jewel. Rejoining Count Hubert, the two went to the armory, where, taking up swords that had already been used in such encounters, they put themselves in fencing positions.

Now the count, as has been said, was no swordsman, but a diplomat. Knowing that if he won at all it must be by diplomacy, he sought a plan that would bring him success by a ruse. But no plan suggested itself except one fraught with danger, and he was loath to use it. For an hour he fenced with his antagonist, hoping to tire her out, but at the end of that time she seemed as fresh as ever, while he had lost strength. Then he determined, as a last resort, to put into practice his stratagem. Pressing his antagonist hotly, he forced her to assume the defensive, and when she did so, their swords being crossed, he guided the point of hers into a fleshy part of his right side.

Bertha, horror stricken, withdrew her sword, then dropped it. Hubert stood immovable till he heard the weapon rattle on the floor, then, taking his own sword by the blade, made a lunge and touched the red heart on her breast with its hilt. Flinging his weapon away, he cried exultingly:

"I have won."

Summoning assistance, Bertha had the count, who was weak from loss of blood, carried to his room. A surgeon was called, but since in those days there was no remedy except blood letting and the patient had quite enough of that there was nothing to do but bind up the wound.

One of the count's escort, hearing that his leader had been stabbed, rushed into the room where Bertha was bending over the wounded man, seeing his condition, shouted:

"Treason! The prince has been assassinated."

"The prince!" exclaimed Bertha, aghast.

"Yes, the prince—the crown prince."

"Peace," said the wounded man. "I have not been assassinated. I have met with an accident in play."

And thus it came out that Count Hubert was the crown prince, who incognito was making a tour with a view to assembling a force to meet the king of Sweden, who had just declared war. Bertha sent at once a messenger to her father urging him to return and when he came announced that she was betrothed to the heir to a kingdom. When the baron learned this he was so pleased that he was ready to forego plundering luckless merchants and march himself at the head of double the force that the king had asked for.

Baron Eidenreid never returned to his castle, for he was killed in the war, and his daughter had no need of her former home, because she became crown princess and afterward queen. So the castle fell gradually into decay, which was perhaps just as well for the traffic on the Rhine below. At any rate there were no more customs collectors shooting out from the mouth of the stream beneath the stronghold.

A Reproof.

"When I was a young man," said Mr. Cumrox, "I thought nothing of working twelve or fourteen hours a day."

"Father," replied the young man with sporty clothes, "I wish you wouldn't mention it. Those nonsense sentiments are liable to make you unpopular."—Washington Star.

Ballade of a Discontented Man.

Of food I have a goodly store
Against the winter months put by.
I carry water in no more.
We have it in our dwelling. I
Don't have to rise at dawn and fly
To gather weed all snowy wet.
But these things do not satisfy—
I want the things I cannot get!

If you should look my wardrobe o'er
That I have clothes you'd not deny,
And jewels from a stranger shore
I have in plenty. You'd descry
Full many books if you should try
Upon their shelves to find them, yet
For me doth pleasure always die.
I want the things I cannot get!

It matters not if I deplore
My lot and straightway then apply
Myself to change it. Oft before
I have succeeded but to sky
At my success with face awry
And say, "Alas, it's my regret,
Though for this thing I used to sigh,
I want the things I cannot get!"

L'ENVOI.

Desire feeds on itself. That's why
I only sit and fume and fret
Or maybap wail: "O me! O my!
I want the things I cannot get!"
—Charles C. Jones in Puck.

ROYAL Baking Powder

Absolutely Pure

Has No Substitute

Insures delicious, healthful food for every home, every day.

The only baking powder made from Royal Grape Cream of Tartar — made from grapes.

Safeguards your food against alum and phosphate of lime — mineral acids which are used in cheaply made powders.

Defining a Duck.

A schoolboy assigned to prepare an essay on ducks submitted the following: "The duck is a low, heavy set bird composed mostly of meat and feathers. He is a mighty poor singer, having a hoarse voice, caused by getting so many frogs in his neck. He likes the water and carries a toy balloon in his stomach to keep him from staking. The duck has only two legs, and they are set so far back on his running gears by nature that they come pretty near missing his body. Some ducks when they get big have curls on their tails and are called drakes. Drakes don't have to set or hatch, but just loaf and go swimming and eat everything in sight. If I was to be a duck I would rather be a drake."—Exchange.

Skeleton of the Skyscraper.

The skyscraper is taller when building than when built. While the red steel columns are being set one upon the top of the next by the long arm of the erector they seem to be climbing upward and upward without end, says the Chicago Post. It is as if they had set out to reach the clouds and man was helping them to realize their aspirations. And while the unfinished tops stick manfully into the air realization appears perfectly possible. It is only when the horizontal line of the eaves is drawn at right angles to the vertical lines of the pillars, when the roof is put on and the climbing steel boxed in, that the building loses its aspiration and becomes as limited as the rest of us.

Malay Superstitions.

You can scarcely ever get your money from a Malay on Friday because Malays believe that if they pay their creditors on a Friday they will be overtaken by penury. Malays never shave or cut their nails on Saturday or Tuesday because these are unlucky days, and if they do part with their hair or nails on these days they believe that they will be always in trouble or will die quickly.

Pretty Certain.

A well known millionaire was saying to his confidential clerk one day, "Now I've arranged those papers for my wife and children all right, so that if I die"—

"If you die?" interrupted the secretary. "Say when you die; there's no if about dying."

Full Dock.

Irate Wife—That's the fifty-second falsehood you've told me this week.
Unabashed Husband—Well, now, you can see what is meant by the expression "a pack of lies."—Pittsburgh Post.

A Complete Job.

"See that measuring worm crawling up my skirt?" cried Mrs. Bjenks. "That's a sign I'm going to have a new dress." "Well, let him make it for you," growled Mr. Bjenks. "And while he's about it have him send a hookworm to do you up the back. I'm tired of the job."—Liverpool Mercury.

What It Makes.

"This indictment is defective," declared the judge, "in that it says the woman was killed with a knife and not with a dirk. What are we going to make out of that?"

"Probably more lynchers," retorted the district attorney.—Pittsburg Post.

Credit Lost.

"Backward, turn backward, O Time, in your flight!" wrote the poet.

"Still," he reflected grewsomely, "some slant headed politician or wild eyed reformer will get the credit of having originated the recall!"—Chicago Tribune.

Retort Courteous.

He—Women are such slaves to fashions. Look what tight skirts they get!

She—And men are such slaves to passions. Look how tight they get themselves!—Baltimore American.

Saving Time.

Just Getting There.

"We said we go the pace that kills, the pressing more and more;
We're going faster now than ever mortals went before,
But one who clearly sees his way 'tis said is very rare.
We don't know where we're going, but we know we're getting there.

We know that we are moving; we're going, every one.
We've done a few things now, and there are many to be done.
We're going faster on the earth, in water or in air.
We mayn't know where we're going, but we know we're getting there.

To be going, going, going is the way that seems the best.
A man that never goes at all can ne'er enjoy a rest.
And so we keep a-going, and if we don't know where
'Tis a little consolation just to know we're getting there.
—Ottawa Journal-Herald.

YOUR GUARANTEE OF QUALITY

"SALADA"

on a sealed lead package of Ceylon Tea, is your safeguard and guarantee.

"SALADA" means freshness, purity, exquisite aroma, delightful flavor.

"SALADA" means purity, healthfulness, satisfaction.

BLACK, GREEN or MIXED

AROUSED AT LAST.

John Was Unwilling to Get Out of a Comfortable Bed.

"John! John! Get up!"

"Wha's matter?"

"Wake up. The front door bell is ringing."

"I don't care. Le'r ring."

"But it may be a boy with a telegram. Go down stairs and see."

"Don't bother me. I wanna sleep."

"It may be something important. Hurry."

"I'm too tired. Can't you let a man sleep?"

"But, John, dear, somebody may be dead."

"Well, I can't help it. If anybody's dead he'll stay dead till morning, won't he?"

"There! The bell's ringing again. Hurry down and find out what is the trouble."

"I'm not goin' down. If there's any trouble wha's use of findin' out about it tonight?"

"Oh, John! Perhaps it is a telegram saying mother is ill?"

"All ri'. If mother's ill we can't do anything for her, c'n we?"

"John, you're a brute! It may be your own mother."

"If it is I don't want to know about it now. It would spoil the whole night for me."

"Oh, John, I know what it is! I forgot that this was the maid's night out. I locked the back door."

"Heavens! Why didn't you think of that in the first place? Lord, I hope she won't go away before I can get there!"—Chicago Record-Herald.

An Effective Notice.

A quaintly worded notice is often more effective than one framed in more official terms. At Aber falls is a notice regarding the slippery condition of the rocks, making climbing dangerous. The notice concludes as follows:

"In consequence of the above notice being disregarded a stretcher is now kept at the cottage below the falls."—Tit-Bits.

A Query.

There was a man in our town
Who was not always wise.
He bought his wife a party gown
All full of hooks and eyes.
And when he had it all hooked up,
With all his might and main,
He wondered if he ever could
Unhook that gown again.
—London Opinion.

Beat Her at It.

"Does your wife often grieve because she threw over a wealthy man in order to marry you?"

"She started to once, but I cured her of it the first rattle out of the box."

"I wish you would tell me how."

"I started right in to grieving with her, and I grieved harder and longer than she did."—Houston Post.

Force of Habit.

"Yes, he's a very nice young man,
But always talking shop,"
The pouting miss protested.
"And I cannot make him stop,
For he's a car conductor,
And when calling on me he's
Persistently remarking,
'Won't you sit up closer, please?'"
—St. Paul Pioneer Press.

Shattered Hopes.

"Biggins goes through life in a state of chronic disappointment."

"Yes. The last time I saw him he was complaining because nobody ever makes a cigar that tastes as good as the band looks."—Washington Star.

Got A Pain In Your Back?

IF YOU HAVE HEED THE WARNING.

You get a pain in your back, and you wonder what is the matter. When the back aches or becomes weak it is a warning that the kidneys are affected in some way.

Heed the warning; cure the weak, lame, aching back and dispose of any chances of further trouble.

If you don't do this, serious complications are very apt to arise, and the first thing you know, you will be troubled with Dropsy, Diabetes or Bright's Disease; the three most deadly forms of kidney trouble.

On the first sign of a pain in the back, Doan's Kidney Pills should be taken.

They go right to the seat of the trouble, cure the backache and prevent any further complications arising.

Mr. Stewart Johnston, Richardson Mines, N.S., writes:—"For years I was troubled with my back, and I had to give up work. I tried Dr. after Dr., and was getting no better. I had almost given up hope when I began to try Doan's Kidney Pills. I took three boxes of them, and found I was completely cured. I feel I owe my life to Doan's Kidney Pills."

Price 50 cents per box, or 3 boxes for $1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

When ordering direct specify "Doan's."

UPHELD TRADITIONS.

Mr. Asquith Complimented on Behavior of Sailors.

London, April 17.—Premier Asquith in a brief statement in the House of Commons yesterday afternoon, gave public expression to Great Britain's sympathy in connection with the Titanic disaster. After reading out to the members the message from the White Star Co. already published, the Premier continued:

"Perhaps the House will allow me to add this: That I am afraid we must brace ourselves to comfort one of those terrible events in the order of Providence which appal the imagination, and make us realize the inadequacy of words to do justice to what we feel.

"We cannot say more at this moment than to give a necessarily imperfect impression of our sense of admiration that the best traditions of the sea seem to have been observed and that willing sacrifices were offered to give the first chance for safety to those who were least able to help themselves, and of the heartfelt sympathy of the whole nation to those who find themselves suddenly bereaved of their nearest and dearest."

Big Liner's Side Torn Out.

London, April 17.—Alexander Carlisle, lately chief designer for Harland & Wolff, the shipbuilders, and the designer of both the Titanic and Olympic, yesterday said:

"I never thought there was such thing as an unsinkable ship. When the news first came that the Titanic was sinking by the head I thought it likely that she would reach port. The fact that she sank within four hours after the impact with the ice, indicates that her side was torn out."

Mr. Carlisle added: "Everything that could reasonably be thought of was done in the case of the Titanic and the Olympic in regard to the arranging of the bulkheads and other details, in order to minimize the risk of ordinary accident."

As to the number of boats carried by the Titanic, Mr. Carlisle said: "I am of the opinion that the large ships of the present day do not carry anything like a sufficient number of boats, but until the Board of Trade and the Governments of other countries require sufficient boats to be carried, ship owners cannot afford such extra top weight. As a matter of fact both the Titanic and the Olympic were fitted with davits designed for and capable of carrying four times the number of boats actually fitted in the ship when they went to sea."

Ottawa's New Customs House.

Ottawa, April 17.—Part of the site on Sussex street which has been abandoned by the Government as a location for the new departmental buildings is to be used for the erection of Ottawa's new customs house, a five-storey structure, to cost half a million dollars.

Dentistry.

Works written in the second century by Claudius Galen, a physician of antiquity, born in Asia Minor, contain the earliest treatise upon the subject of dentistry.

Jenny Lind Rock.

The Ohio river claims among its treasures the Jenny Lind rock. The singer was a passenger on a steamer which struck on a sandbar near the rock, and while waiting for the boat to be floated Miss Lind had boatmen row her out to the rock, where she stood alone and sang.

Tithes In England.

A day was appointed for paying tithes in England in 958, and nine-tenths of one's tithable property were forfeited for nonpayment.

Oranges and Lemons.

There are forty-seven varieties of lemons and eighty of oranges.

Donkeys In Egypt.

In Egypt the women still follow the ancient custom of riding on donkeys. The animals are small and well trained and carry their burdens about without remonstrance. The riding under these conditions demands no especial skill of horsemanship. The women make a great convenience of these little steeds, riding them to market or to their shopping as well as on considerable journeys.

TELEGRAPHIC BRIEFS.

Practically every formal social affair on the diplomatic calendar in Washington his been cancelled because of the Titanic disaster.

J. P. Alexander, ex-M.P.P., dropped dead yesterday at Boissevain, Man., when told of the Titanic disaster. He was troubled with heart disease.

Thomas Badgley of Toronto stole two watches from the house in which his sister lives. The magistrate yesterday sent him to prison for six months.

A cable to the International Bank of Canada announced the death of Mr. Georges Martin of Paris, one of the representatives of the French interests on the board of the new bank.

The Toronto morality department discovered another alleged opium joint, and yesterday raided the premises of Cing Ing, a Chinese merchant, at 133 West Richmond street.

Samuel Joseph, 420 East Queen street, Toronto, while going by where a building was being erected on Bolton avenue, fell over a keg of nails and broke his right leg yesterday afternoon.

Damase Roberge, aged fifty years, watchman at Fitch's lumber mill, Levis, Que., was struck and instantly killed by a Grand Trunk train Monday night. His neck and both legs were broken.

As the result of a distressing accident at the works of the Sydenham Glass Co., Wallaceburg, Ont., Donald McQuarrie Fraser, chief engineer of the plant, was injured so seriously that his death followed shortly.

A commission to investigate the report of a commissioner is the unique appointment which the Minister of the Interior has made in connection with the findings on immigration matters of Mr. Arthur Hawkes.

An English Chemist Has Discovered How to Grow Hair

In England the ladies have entirely abandoned wearing rats, which is due entirely to this new discovery.

It has been proven that Henna leaves contain the ingredients that will positively grow hair. That they contain this long-looked-for article is proven every day.

The Americans are now placing on the market a preparation containing the extract from Henna leaves, which is having a phenomenal sale.

This preparation is called SALVIA, and is being sold with a guarantee to cure Dandruff and to grow hair in abundance. Being daintily perfumed, SALVIA makes a most pleasant hair dressing. McDermid and Jury, your druggist, is the first to import this preparation into Peterborough, and a large, generous bottle can be purchased for 50c. Also sold at Payne's drug store.

The New Member.

Now to the house has come
A member new and blushing,
And when he lifts his voice
We know there'll be no hushing.

In person you can see
He's quite an old time model.
He's bald and rather short,
Resentful of a coddle.

His politics? At once
You'll see their true direction
When you are well informed
He changed the whole complexion.

And yet we do not wait
For him to make a blunder.
All that he does is right—
Our baby is a wonder!

—Judge.

Unerring Foresight.

Uncle Tom was contemplating his cabin.

"With a few alterations, uncle," remarked one of the bystanders, "you could make an attractive bungalow out of that."

He shook his head.

"Who'd go t' see 'Uncle Tom's Bungalow?" he asked with withering sarcasm. "It'd play t' empty benches."

The old man was right. There is more money in it as it is.—Chicago Tribune.

"Mike," said Plodding Pete, "dis idea of recallin' judges sounds like a good ting to me."

"Sure. I'd like to be brought before a brand new judge every trip. He's more apt to be sympathetic."—Washington Star.

NO NEWS OF HAYS

It Is Now Almost Certain That Railroad Man is Lost

HAD WONDERFUL CAREER

Toronto, April 17.—It is now feared that Charles Melville Hays, president and general manager of the Grand Trunk Railway and the Grand Trunk Pacific Railroad, was carried down with the doomed liner Titanic. Mr. Hays has been in England for some time, securing loans to carry on the construction work on the Grand Trunk Pacific Railroad.

Born in Rock Island, Illinois, on May 16, 1856, Charles Melville Hays showed ambition at the age of 17, and entered the service of the Atlantic and Pacific Railway at St. Louis, Missouri, in 1873. He then became connected with the Missouri Pacific Railway and the Wabash, St. Louis and Pacific Railway Co. until October, 1886, when he received the appointment as assistant general manager of the Wabash Western Railway, where he remained until 1895.

In 1895, when offered the position of general manager of the Grand Trunk Co. of Canada, at Montreal, he resigned from the Wabash Railroad. Shortly afterwards in 1897, he was instrumental in the reorganization of the Central Vermont Railway Co., a subsidiary of the G.T.R., and was elected president.

When Collis P. Huntington, president of the Southern Pacific Co. and steamship lines, controlling over 10,000 miles, died, Mr. Hays was chosen as his successor, and in 1901 he assumed charge of this company, but resigned in the latter part of the year, and was recalled by the English directors to take control of the G.T.R., which he did in 1902, as second vice-president and general manager.

In this year Mr. Hays had the inspiration to organize the Grand Trunk Pacific, and with the assistance of the Government this ambition was realized, and he was elected president. On Jan. 1, 1910, he was made president and a member of the board of directors of the Grand Trunk Railway Co. In addition to these two lines, Mr. Hays was president of all the subsidiaries of these roads, including the Central Vermont, Grand Trunk Western, Detroit, Grand Haven and Milwaukee, and of many other smaller railroads operating over 1,500 miles of tracks on these lines alone.

Mr. Hays was also president of the Grand Trunk Pacific Branch Lines Co., having some 1,500 to 2,000 miles of track in the northwest, and the Grand Trunk Pacific Coast Steamship Co.

From a clerk sitting in the office of the Atlantic and Pacific Railroad Co., Charles Melville Hays appeared to be impelled by some unseen power until he eventually became one of the greatest railroad men in the world. His career, to say the least, was checkered and there seemed to be no obstacle too large for him to conquer.

It is said that he refused a knighthood in 1910. His wife is the daughter of William A. Gregg, of St. Louis, Mo.

His Fear.

She mends his clothes and cooks his meals;
From her their child has learned its prayers;
She gives him courage when he feels
The heavy burden of his cares.

She makes his little income serve
To keep their home a cheerful place.
When fear deprives him of his nerve
He finds that hope still lights her face.

He soon would fail without her aid
To keep their little bark afloat,
But he is very much afraid
To have her trusted with a vote.

—Chicago Record-Herald.

Insult Added to Injury.

"I'm awfully sorry it happened," apologizes the abject young man after the stolen kiss.

"Happened!" she exclaims. "Happened! That is worse than the kiss. If you mean to say to me that you didn't have it in mind when you asked me to stroll away back here in this quiet corner of the conservatory I shall be offended after all."—Judge's Library.

A Tribute.

Ol' Bill Smiggin's done his best.
It wasn't very good.
He tried to meet the daily test
An' live as humans should.
He didn't lie nor cheat nor steal
Nor try to start a fight.
He ain't no hero, but we feel
Somehow that Bill's all right.

—Baltimore American.

Subsequently He Got Them.

Jack squinted at the beanstalk and then began to climb it.

"What for?" queried the bystanders.

"I am after the Big Chaps Higher Up," he explained.

In the chronicles of that day it is recorded that he finally landed them.—Chicago Tribune.

His Loss.

When he was young he had much hair
And was a famous star.
He played in many leading parts,
Was noted near and far,
But now he's reached the time of life
He cannot fill a hall,
And just because he's lost his hair
He's got no part at all.

—Yonkers Statesman.

Due to His Calling.

"Environment makes some people more susceptible to physical ailments than others," remarked the Wise Guy.

"That's right," agreed the Simple Mug. "the jailer, for instance, is more apt to have felons on his hands than anybody else."—Philadelphia Record.

W. T. STEAD'S CAREER.

He Is the Best Known Victim of the Titanic Disaster.

London, April 17.—William Thomas Stead, who probably perished in the Titanic disaster, was one of the best known of cosmopolitan British journalists, was born at Embleton, in the County of Northumberland England, on July 5, 1859. His father was a Congregational minister, and all through his journalistic life he bore the impress of his nonconformist training. Originally destined to a mercantile life, he early displayed a strong bent to journalism, and at 22 became editor of The Northern Echo, published in Darlington. From thence he emerged in London newspaper life as assistant editor of The Pall Mall Gazette, and in 1883 succeeded to the editorship, which place he filled from 1883 to 1889.

This period was notorious for his remarkable series of articles on "The Maiden Tribute of Modern Babylon," a crusade better known to-day as the agitation against the "white slave traffic." To establish his case he ventured on practical, personal endeavors, for which he was sentenced to three months' imprisonment, but this result forwarded rather than retarded the agitation for stricter protection for young girls. For four years longer he remained associated with The Pall Mall Gazette, and a few years later he established The Review of Reviews, a magazine which immediately won public favor, and was followed by others on similar lines in America and Australasia.

Stead came prominently before the British and world public in many ways. An ardent Radical, he bitterly opposed the Boer war and found public opinion strongly opposed to his attitude. On the cessation of the war he actively engaged in a universal peace propaganda and came prominently before the footlights as a bitter opponent of the Boer war. Later, Mr. Stead developed strong spiritualistic proclivities, and his other world adviser, "Julia," bulked largely in its articles. He was the author of many books and pamphlets, and apart from his peculiarities was one of the most successful journalists in the civilized world. His British Review of Reviews, founded in 1870, was not only highly popular from its inception, but prompted the foundation of the American Review of Reviews in 1891, and its Australasian congener in 1894.

Wine, Woman and Song.

I like a light libation—
To me the same is dear—
Sauterne, Chablis or Rhenish,
With the accent on the beer.

I'm fond of fancy diet
Which Frankish chefs can make,
En casserole or aspic,
With the accent on the steak.

I love a modern drama
Whose purport broad and deep
Can charm away an evening,
With the accent on the sleep.

—New York Mail.

Going Over the Books.

"This item in your campaign expense account mystifies me," said the auditor. "I don't understand what you mean by 'raw material.'"

"That's an error on the part of the stenographer," replied Senator Sorghum. "It should read 'hurrah material.'"—Washington Star.

"SALT RHEUM"

Had It On Hands For Two Years.

ITCHED SO DID NOT KNOW WHAT TO DO.

Tried Three Doctors and Went to Hospital.

All skin diseases are more or less occasioned by a bad state of the blood, and no one can expect to be free from some form or other of skin trouble unless the blood is kept in good shape. All skin diseases can be very easily cured by the wonderful blood cleansing properties of Burdock Blood Bitters.

This is due to the unrivalled purifying action of Burdock Blood Bitters on the blood, coupled with the thorough manner in which it cleanses and expels the impurities from the body.

Mrs. Richard Coutine, White Head, Que., writes:—"I have been bothered with salt rheum, on my hands, for two years, and it itched so I did not know what to do. I tried three doctors, and even went to Montreal to the hospital without getting any relief. I was advised to try Burdock Blood Bitters, so I got three bottles, and before I had the second used I found a big change, and now to-day I am cured."

Burdock Blood Bitters has been on the market for about 35 years and is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

MARKET REPORTS.

Liverpool Wheat Futures Close Lower, Chicago Higher—Live Stock —Latest Quotations.

CHICAGO, April 16.—Although it was pretty generally conceded to-day that the failure of the wheat crop this season threatens Illinois, Indiana and Ohio had been the worst for more than a quarter of a century, the trading community reached a point where the conservatives at least believed the price discounted the damage. In consequence the market closed easy ⅝c lower to ⅛c above last night. Corn finished at a net decline to 1⅛c to 1⅜c, and oats off ⅝c to ¾ to 1c. In provisions the outcome varied from 5c from 7c an advance of 15c.

Liverpool wheat closed ¾d to ⅞d lower than yesterday, and corn ½d lower. Paris wheat closed ⅛c to ⅜c lower. Antwerp unchanged, Berlin ⅝c higher, and Buda Pesth ⅛c lower.

Montreal Grain and Produce.

MONTREAL, April 16.—The demand from foreign buyers for Manitoba spring wheat was the worst for the past four months, there being only a few firm bids in the market, which were from 4½d to 9d per quarter lower. The local and outside demand for oats was quiet again, but the tone of the market remains steady in spite of the weakness in the west. American corn is weak and 1½c lower. The export trade in flour was very slow, but the local and country trade continues fair. Millfeed is scarce and in good demand. A weak feeling continues to prevail in the butter market, and prices are ½c lower. Cheese quiet and easy. Demand for eggs good. Provisions were active and firm.

Oats—Canadian western, No. 2, 44c to 45½c; do., No. 3, 50½c; extra No. 1 feed, 51½c; No. 2 local white, 50½c; No. 3 local white, 49½c; No. 4 local white, 48½c.

Barley—Manitoba feed, 43c; malting, $1.05 to $1.10.

Buckwheat—No. 2, 70c to 75c.

Flour—Man. spring wheat patents, firsts, $5.60; seconds, $5.10; strong bakers, $5.10; winter patents, choice, $5.10 to $5.35; straight rollers, $4.85 to $4.75; straight rollers, bags, $2.15 to $2.25.

Rolled oats—Barrels, $5.30; bag of 90 lbs., $2.55.

Millfeed—Bran, $23; shorts, $25; middlings, $29; moullie, $30 to $34.

Hay, No. 2, per ton, car lots, $14.50 to $15.

Cheese—Finest westerns, 14½c to 14¾c.

Butter—Choicest creamery, 31½c; seconds, 30½c.

Eggs—Fresh, 23c to 23½c.

Potatoes—Per bag, car lots, $1.75.

Dressed hogs—Abattoir killed, $12.75 to $13.

Pork—Heavy Canada short mess, bbls., 35 to 45 pieces, $23; Canada short cut back, bbls., 45 to 55 pieces, $22.

Lard—Compound, tierces, 375 lbs., 9½c; wood pails, 20 lbs., net, 9¾c; pure, tierces, 375 lbs., 12¾c; pure, wood pails, 20 lbs., net, 12¾c.

Beef—Plate, bbls., 200 lbs., $15; Plate, tierces, 200 lbs., $27.

Liverpool Grain Prices.

LIVERPOOL, April 16.—Closing—Wheat—Spot firm; No. 2 red western winter, 8s 4½d; No. 2 Manitoba, 8s 6d; futures weak; May, 7s 11d; July, 7s 9⅝d; Oct., 7s 7¾d.

Corn—Spot steady; new, 6s 5¾d; American mixed, old, 6s 11d; new kiln-dried, 6s 9½d; May, 6s 6¾d; futures weak; July, 6s 4d.

Flour—Winter patents, 28s 6d. Hops in London (Pacific Coast), £10 to £11 5s.

Buffalo Grain Market.

BUFFALO, April 16.—Spring wheat, no offerings; winter higher. No. 2 red, $1.13; No. 3 red, $1.11; No. 2 white, $1.12.

Corn—Lower; No. 3 yellow, 65¾c; No. 4 yellow, 64½c; No. 3 corn, 61c to 62c; No. 4 corn, 79¼c to 79¾c, on track, thru-billed.

Oats—Lower; No. 2 white, 51c; No. 3 white, 50¼c; No. 4 white, 48¼c.

Duluth Grain Market.

DULUTH, April 16.—Wheat—No. 1 hard, $1.11⅝; No. 1 northern, $1.10⅝; No. 2 northern, $1.08⅝; May, $1.09⅝ bid; July, $1.01⅝ asked.

CATTLE MARKETS.

Toronto Live Stock.

TORONTO, April 16.—Receipts of live stock at the City Yards were reported by the railways to be 121 carloads—1734 cattle, 2060 hogs, 374 sheep and 970 calves.

Butchers

Choice butchers sold from $6.75 to $7.10; loads of good, $6.40 to $6.65; medium, $6.00 to $6.30; common, $5.25 to $5.75; inferior, $4.50 to $5; cows, $3.50 to $6.40; bulls, $4.50 to $5.75.

Stockers and Feeders.

Stockers and feeders are in demand, but few are being offered. Steers of good quality, 700 to 900 lbs. each, are worth all the way from $5.25 to $5.75. Short-keeps sell up to $6.

Milkers and Springers.

Prices remain about steady for milkers and springers, at $40 to $65 each.

Veal Calves.

Receipts of veal calves were large, 970 being reported on sale, and prices were easier, at $3.00 to $7.50, and bobs sold at $1.50 to $2.75 each.

Sheep and Lambs.

About 400 were on sale, and Wesley Dunn reported prices as follows: Sheep, ewes, at $5 to $6; rams, $4 to $5; yearling lambs, at $6 to $6.50 per cwt.; spring lambs, $4.50 to $6.50 each.

Hogs.

Hogs on this market were reported by Mr. Harris, at $8.50 for selects, fed and watered, and $8.15 f.o.b. cars at country points.

East Buffalo Cattle Market.

EAST BUFFALO, April 16.—Cattle—Receipts 60 head. Firm.

Veals—Receipts 250 head; 25c lower; choice, active, common, slow.

Hogs—Receipts 2300 head, active and 5c to 10c higher; heavy and mixed, $8.30 to $8.35; yorkers, $7.85 to $8.25; pigs, $8.70 to $7; roughs, $7.25 to $7.35; stags, $5 to $6.25; dairies, $7.75 to $8.25.

Sheep and lambs—Receipts 4200 head; lambs, 10c higher; choice, active; common, slow; lambs, $8 to $7.85; yearlings, $6.25 to $6.50; wethers, $5.75 to $6; ewes, $5 to $5.25; sheep, mixed, $3 to $5.50; wool lambs, $8 to $8.60.

Chicago Live Stock.

CHICAGO, April 16.—Cattle—Receipts, 2000; market steady, but lower for calves. Beeves, $5.60 to $8.75; Texas steers, $4.75 to $6.10; western steers, $5.60 to $7.10; stockers and feeders, $4.30 to $6.65; cows and heifers, $2.65 to $7; calves, $4.65 to $8.50.

Hogs—Receipts, 11,000; market 10c higher; light, $7.60 to $8; mixed, $7.65 to $8.10; heavy, $7.70 to $8.10; rough, $7.70 to $7.90; pigs, $5 to $7.20; bulk of sales, $7.80 to $8.05.

Sheep and Lambs—Receipts, 20,000; market steady to 10c higher; native, $4.25 to $6.40; western, $4.60 to $6.35; yearlings $5.60 to $6.10. Lambs, native, $5.40 to $7.35; western, $5.30 to $7.30.

Poor Tom!

That feminine Boston still makes a friend of the harmless cat is shown by this request for help which appeared recently in the Boston Globe:

"I have a pet cat who seems to have stomach trouble and laps hard coal, also tries to eat it. If any one can tell me what to get for him I will be very thankful. He has catnip, also sulphur, and occasionally a tonic."

Gee, wouldn't you hate to be a Boston pet cat?—Cleveland Plain Dealer.

The Mother of the Man.

[After Hall Caine.]

When he's asked you if you'll wed him
and you've told him that you will,
When he's spoken to your father and the
date is fixed, there's still
Another task before you—dodge it, girl,
you never can—
You must go to face inspection by the
mother of the man.

When he's led you to the altar and you
start to spend his dough
And you try to do his cooking in the best
way that you know,
Who was it of tea biscuits always made a
lighter pan?
Very simple is the answer. 'Twas the
mother of the man.

—Detroit Free Press.

Girls of Other Days.

When mother was young and girlies felt sad for solace to verse they would turn. One beautiful fountain of comfort they had, which soothed the most turbulent years. When mother felt morbid and downcast and punk, away to the garret she'd steal and snuggle down close by an old leather trunk and read a few yards of "Lucille."—Success Magazine.

The Hero Unrewarded.

I met her where the busy crowd
Surged madly in the noisy street.
Her face was fair, her bearing proud;
But, oh, her fitting smile was sweet!

I saw her danger ere she knew
That harm was near. With quick caught breath
I took her in my arms and drew
Her from the very jaws of death.

Her look was proud; her face was fair;
Her voice was rich and sweet and low;
Her father was a millionaire—
I learned that she was married, though.

—Chicago Record-Herald.

Self Sufficient.

"Now, caddy," said the clergyman about to start off with his golf game, "I'm very particular when on the links, and I don't want you to open your mouth during the game."

"Then I takes it, sir," replied the boy; "that you intends doin' your own swearin', sir!"—Yonkers Statesman.

DYSPEPTIC

Food Does You No Good

Half the time you're afraid to eat: your tongue is coated, mouth tastes bad, stomach is bloated. If you want to get well, stop using dyspepsia tablets, and go to the source of the trouble before it is too late. Strengthen your stomach, cast out the bile, regulate the bowels—do this, and dyspepsia will be no more.

For your condition the best prescription is Dr. Hamilton's Pills, which are made specially for the stomach, kidneys and liver. No better remedy will be devised, for Dr. Hamilton's Pills are perfect.

DR. HAMILTON'S PILLS A SURE CURE

"No one could realize my sufferings from stomach trouble and indigestion. For five years I have not been well. My food did me no good, because I couldn't digest or assimilate. My doctor said constipation was at the root of my trouble, so I got Dr. Hamilton's Pills. My appetite improved, pain after eating ceased, and, my food digested quickly. I am delighted with the thorough cure I derived from Dr. Hamilton's Pills.

"(Signed) MARTIN F. WALKER.
"Bridgewater."

Quick results attend the use of Dr. Hamilton's Pills; this medicine cures all trouble in the stomach and digestive organs by removing the cause.

PETERBOROUGH WEDNESDAY APRIL 17 1912

THE "CARPATHIA" IS HEARD FROM!

Wireless Received That All on Board the Cunarder Are Well—Has 700 Survivors on Board — Wireless Operator Experiencing Trouble

LAST MINUTE DESPATCHES

Special Wire to The Examiner.

TORONTO, APRIL 17.—To-day has been a day of fearful dread and anxiety for the relatives of people on the Titanic. The rescue ship Carpathia is within six hundred miles of New York, but owing to the contrary atmospheric conditions, wireless communication with her was difficult and no names were added to the short list wirelessed yesterday. While it is known there must be others on board whose names are not given, the friends of the passengers aboard the ill-fated steamer will not be satisfied. The Montreal Star's descriptive cable from London, based apparently on fragmentary Marconigrams caught by eastward bounds steamers now nearing England, was the feature of the days news of the great disaster. Montreal city itself suffers the stillness of the grave. Despair has taken the place of hope. It is conceded that eleven out of sixteen of Montreal's prominent citizens and their children who were on the Titanic, have found nameless graves in the depths of the Atlantic.

A Boston despatch says the Steamer Californian has picked up a number of bodies in the Atlantic and is on her way to that city. Now that the first shock of the terrible catastrophe is over, the big newspapers on both sides of the Atlantic are energetically pressing the question, "Did the Titanic have enough life boats?" The United States government has already arranged to take a number of survivors to Washington, immediately on landing, to be witnesses at an exhaustive enquiry into the cause of the wreck and the conduct and efficiency of the officers.

BOSTON, MASS, APRIL 17.—Communication with the Seamer Carpathia, hurrying towards New York with the survivors of the Titanic, was reported by wireless with various coast stations this morning, but the messages were undecipherable, and nothing new was ascertained. The wireless operators are complaining of interference all along the line by amateurs and experimentalists. In other words, there is too much wireless in the air, and whatever the Carpathian is saying, reaches land so jumbled that nobody can read it. It is not thought that there are any additions to the list of names saved, as published ,esterday. The Carpathia is pushing her way carefully through the fog and should arrive in New York harbour to-morrow night. Sable Island has just picked up a message from the Carpathia, saying all are well aboard. From other sources it is stated that fishing smacks and other vessels have picked up a number of bodies from the Titanic and are taking them to the Newfoundland coast.

The MackKay Bennet steamer is leaving Halifax to-day with a full equipment of grappling apparatus and a number of coffins and undertakers and embalmers on board for the locality of the disaster in the hope of picking up bodies. King George, Emperor William, and nearly all the heads of the governments of Europe have sent cables expressing sympathy.

HEAVY INSURANCE.

WINNIPEG, MAN., APRIL 17.—There will be heavy losses among the insurance companies as the result of the loss of the Titanic. Mark Fortune carried $25,000 in the Travellers Accident Insurance Co., with double liability, which will mean fifty thousand. In the Canadian Railway Accident Insurance, Fortune also carried $5,000 with double liability, which would be covered by steamship accident. His death will mean sixty thousand dollars.

Chas. M. Hays, President of the Grand Trunk Pacific, carried $75,000 insurance in the Travellers.

WORD FROM CARPATHIA.

CAMPERDOWN, N.S., APRIL 17. During the day there has been direct communication by wireless with the Carpathia, and the Captain states there are seven hundred survivors aboard. This presumably does not include those members of the Titanic crews saved.

ANOTHER ICEBERG ACCIDENT.

ELENSBURG, PRUSSIA, APRIL 17.—The steamer Occident collided

(Continued on page 10)

DESCRIPTION OF FINAL SCENE OF THE TERRIBLE DISASTER
THE CAPTAIN WENT DOWN CLINGING TO THE BRIDGE

Special to The Examiner.

TORONTO, APRIL 17.—The Montreal Star publishes the following special cable despatch from London:

LONDON, APRIL 17.—A description of the final scene of the Titanic disaster, which is published here, says the boat sank inch by inch until the ship was at an agle of forty-five degrees before she plunged forward. The passengers receded from the rising water and crowded more and more towards the stern until vast numbers were pushed overboard and scores jumped from the decks with life jackets on, only to be sucked down in the whirlpool.

When the final plunge was made the stern and propeller were high in the air. The captain and officers were seen clinging to the bridge. Three seconds after the leviathian was engulfed, a great spout of water shot upward, either from the waters meeting over the ship's grave or from the explosions of the boilers. There must have been at least thirty explosions in the furnace room, as the sea water poured down the funnels and reached the fires. The authorities of the admiralty compute the ship's position now as being eight miles from the scene of the disaster. As the Titanic, in its descent, would take an angular course, occupying probably thirteen minutes in reaching the *bottom, she is ow at a distance of eight miles* to the westward from the scene, and lies in water two miles and a quarter deep, never again to be seen by ma.

The bodies of passengers with life jackets on are liable to come to the surface.

The scene in the life boats beggar description. Women became almost delirious. Many were sorry that they had left their brothers and husbands behind, preferring to have gone down with them. The moans and lamentations as the craft plunged forward to its grave made the scene of despair impossible of description. The picture of eleven sumptuous decks with lifts, gymnasiums, swinging baths, luxurious apartments, saloons and retaurants, had been rudely dispelled by the vision of twenty small boats crowded with women and children waiting in the Arctic cold until the great ship, ith their husbands, brothers and fathers on board, took the final plunge into the depths of the ocean. The steamship owners said to-day that the sinking of the Titanic would have no effect on the plans for future construction of Trans-Atlantic vessels. The representatives of the Cunard, North German Lloyd and Hamburg American lines declared that notwithstanding the danger of losing ships valued as five millions of more, the companies would go on building larger vessels. Accidents, they said, would only make them exert greater efforts toward ensuring the safety of the passengers.

SENT UP FOR TRIAL

Joseph Cross Will Face Trial by Jury in June for Brutal Offence

EVIDENCE TAKEN

The case of Joseph Cross, who was charged with having committed an unnatural offence, was dealt with in the morning session of the Police Court. The case was heard in camera, much to the disappointment of a morbid crowd of curiosity seekers who sought to gain admittance to the court-room.

Crown Attorney Wood conducted the prosecution, and Mr. G. N. Gordon appeared on behalf of the prisoner.

The victim of the assault was the first witness called, describing in detail the actions of the prisoner prior to and after the alleged consummation of the offence, which occurred on the night of April 9th in the vicinity of the C.P.R. Station.

Cross's arrest followed a short time later at the G.T.R. Station.

A number of other witnesses were called. The prisoner was committed for trial by jury at the Court of Sessions, commencing on the second Tuesday in June.

CAPT. SMITH, Commander of the "Titanic" Who Went Down With His Ship

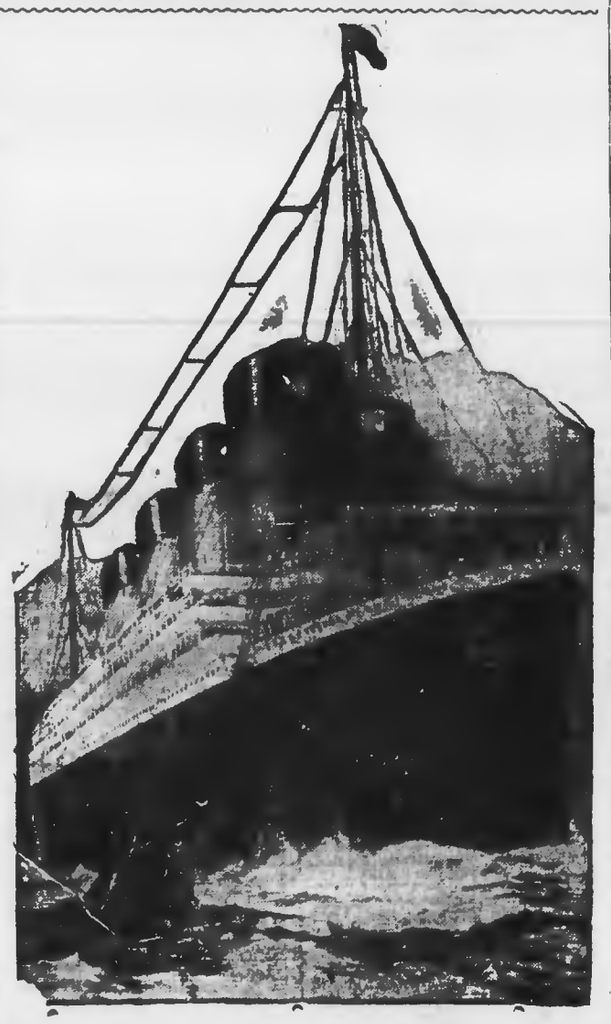
Canning Factory Now Assured

Norwood People Have Secured the Land and Money Necessary

NORWOOD, APRIL 17.—It has now become quite certain that a canning factory will be established in this place. The required number of acres of land for the raising of tomatoes, etc., has been secured, also the amount of money necessary, has been guaranteed. The parties negotiating are to have a meeting this week to decide matters.

A WEAK HEART

When the heart is weak or irregular in action, when the blood is thin and watery, remember the blood-forming qualities of Dr Chase's Nerve Food and by its use flood the system with rich, red, vitalizing blood. This is Nature's way of curing weakness and disease. It is the only way to ensure lasting benefits.



The Ill-fated "Titanic," the Biggest Ship in the World, now at the Bottom of the Atlantic with 1300 of its Passengers and Ten Million Dollars in Cargo and Jewels

$56,000 FIGURES FOR BUILDING WORK RECENTLY UNDERTAKEN IN THE CITY

During the past few weeks there has been a re-awakening in building operations that, as far as figures are concerned, may be considered quite encouraging.

The Canadian General Electric Company's new building represents quite an item, it being reported slightly less than $45,000. The addition to the J. J. Turner and Sons' factory contributes $15,00 and a number of dwellings and smaller items add another $8,000.

The following are some of the buildings for which permits have been issued:

$2,200, dwelling, Sherbrooke street, T. H. Gillespie.

$1800—dwelling, Dublin street, G W. Fitzgerald.

$1500—dwelling, Division street, C. Blewett.

$5000— factory, J. J. Turner and Sons.

$800— alterations to house, 590 George street, Geo. Powell

Small items total between $2,000 and $3,000 and the entire sum for the past two weeks, including the C. G. E. building, makes the total for that time about $55,000.

This beginning is decidedly bright and as the season opens out there will undoubtedly be a continuance of this activity. The general opinion is that the city's building interests are to have a good year and the present real estate activity all around Peterborough is an indication of confidence and enthusiasm that promises well for a good showing during 1912.

GOING TO GUELPH

Annual Excursion of the Farmers' Institute

The Farmers' Institutes of East and West Peterborough and of East Durham, have arranged with the C.P.R for their annual trip on Wednesday, June 12th. They have decided to visit Guelph, the Ontario Agricultural College being the particular object of their excursion this year. The ticket [illegible] good for two and three days. The directors had to increase their guarantee to the company and had to accept their terms just as first offered. Further particulars will be given later.

ANOTHER SHOCK

Lindsay Receives One of Her Periodic Jolts in the Removal of Her Principal Industry to Orillia

CITIZENS ARE "SORE"

The Lindsay Warder: Like the news of the sinking of the great ocean liner, the Titanic, the news that the *Tudhope - Anderson Company* had closed up tight the local foundry, came as a thunder clap. Rumours to the effect that the machinery was being removed, piece by piece, to the plant at Orillia, and that the men were being laid off work, have been heard quite frequently on the streets, but owing to the fact that Mr. J. B. Tudhope, head of the Tudhope-Anderson Co., had given his word, a guarantee, that the factory would be doing business in Lindsay for at least three years, very little attention was paid to the rumour.

On hearing that the factory had closed up a Warder man immediately got in touch with Mr. G. Peacock, manager of the local branch, and that gentleman stated: "No, it is not true that the factory has closed down for we have at the present time 45 men engaged here, nor is it true that all the machinery has been sent to the factory at Orillia. In the past two months only two or three men have left the local factory to work in the factory at Orillia, and only one piece of machinery has been sent there. However, it is quite true that the factory here is to be closed, and closed up tight. This will take place in probably two week's time, possibly in one week's time and the main reason is that we want to centralize our business. We are quite willing to take all the men to Orillia who are now employed in the foundry at Lindsay, if they wish to go. One strong reason why we are leaving for Orillia is because we have erected a large factory building there to accomodate the business done here and the machinery, as well as elsewhere. The plant we secured from the Sylvester people is far too inadequate, and it really costs more to keep the machinery in repair than it would cost to buy new machinery. Some of the machinery can be moved to the Orillia plant, but not very much of it."

WILL APPEAL THE CASE

Carter v. Toronto Railway Co.—An appeal by defendants from the judgment of the County Court of Peterborough, of January 13, 1912. Defendants' counsel states that plaintiff's counsel is not ready to proceed and wishes an enlargement to which he does not object. Enlarged until the May sitting.

The above case, which was dealt with in the Divisional Court, Toronto, yesterday, concerns one George Carter, residing at 310 Aylmer street. The plaintiff was injured while in the employ of the Toronto Street Railway and at the January sittings of the County Court, Peterborough, he secured a judgment of $450 damages, and costs, against the Toronto Street Railway Company. Mr. D. O'Connell represented the plaintiff on that occasion, while Mr. J. W. Curry of Toronto, looked after the interests of the Toronto Street Railway Company.

GREAT FOR BREAKFAST.

Give them Kellogg's Toasted Corn Flakes every morning for breakfast. They're sure to like it, and find it nourishing as well as flavourful.

LADY DUFF-GORDON WAS ON "TITANIC"

Designer of Women's Dress Sailed With Her Husband

PARIS, APRIL 17.—It has been definitely established that Lady Duff-Gordon, who is known in Paris as "Lucile," in consequence of the name she has adopted in order to conduct her dressmaking business, sailed on board the Titanic with her husband, Sir Cosmo Edmund Duff-Gordon. They appear on the official passenger list as Mr. Morgan and wife.

"Lucille's" new ideas in fashions have been a prominent feature in the women's department of some large papers and will be remembered in that respect.

MR. BAILEY'S PLAN

Of Disposing of the City's Garbage.

April 16, 1912.

Why not put the garbage on one of the corporation islands ,or buy some of the cheap low land across the river and from a suitable barge, there dump it?

W. A. B.

PARTIAL ECLIPSE OF THE SUN VISIBLE IN PETERBORO' TO-DAY

JULES VEDRINES, the celebrated French aviator, who conducted his election campaign by aeroplane, but was defeated.

Rev. Dr. Marsh of Springville Secured Several Splendid Photographs of Phenonemum This Morning

AN OLD SUPERSTITION

A partial eclipse of the sun was visible in Peterborough, this morning, and the Examiner, on calling up Rev. Dr. Marsh, at Springville, learned that that well-known astronomer had succeeded in getting several excellent photographs of the phenomen. The eclipse was plainly visible for over an hour this morning, about one-quarter of the sun being obscured by the shadow.

"The sun rose over the eastern horizon at 5.30 o'clock, this morning," remarked Dr. Marsh. The sky was clear, with the exception of a little haze, near the horizon. Owing to atmospheric tremors I did not take my first photograph until about 6.05, when I secured one, five and one-half inches in diameter, with an exposure of one one-thousandth of a second. At 6.32.20 I took another photograph of the same size. The eclipse was over at exactly 6 o'clock, 30 mins. 45 secs., according to my time, which is 1⅝ seconds fast." By Greenwich mean-time the eclipse commenced on April 16, at 20 hrs. 53.7 minutes".

It is a singular coincidence, in view of the practice of the practise of the people of olden times to consider eclipses as omens of great disaster that the centre of to-day's eclipse should have been in close proximity to the scene of the horrible accident to the Titantic. Astronomers, of course, place no belief in this superstition, but the coincidence is interesting, evertheless.

Dr. Marsh's photographs of the eclipse will be on view to-morrow in the Roy Studio.

FARMERS WANT TEN DAYS FINE WEATHER

For Their Farms to Dry in Order That They May Begin Cultivation

CROPS ARE LOOKING WELL

Ten days, or two weeks of fine, dry weather are necessary before the farmers will be able to begin the cultivation of the land ,is the common report at the market to-day. One farmer said:

"The ground is free of frost, being well protected by the heavy snow falls last year. The fall wheat was never more luxuriant and asserts itself as being able to withstand any frosts which may come this month. Alsike and meadows are in keeping with the other fall seedings, and after the copious rain of Sunday night, the success of these crops are assured."

From all districts around come the sae optimistic reports, and the farmers are all ready to start out on the land at a moment's notice. The coming of vegetation is hailed with delight by many, who were badly prepared to meet the long dreary winter, which has passed with the lack of food required to keep their animals in good condition. It cannot be said that this shortage was due to neglect or careless husbandry on the part of the agriculturist. Providence ruled supreme and a dearth of dry weather during the summer and spring of 1911, brought about the famine in fodder which was experienced the past winter. But with the coming of another year all these disagreeable features and reminiscences will be forgotten and the sturdy farmer will once more drive his team afield to prepare for another harvest which all trust will be the best yet.

Great Western Motion Picture Attraction at the

RED MILL Theatre

The management has booked for FRIDAY AND SATURDAY only, the greatest and latest 2 reel Western Picture ever produced.

War on the Plains

showing every feat in Western Life.

Admission,—5c to all, 5c.

We lead, others follow. We give Special Attractions every night, including our Full Big Show.

Come Early and Often.

MR. JOHN CRANE'S RETIREMENT

The public will learn, with some surprise, that Mr. John Crane has been able to decide to close a most creditable and harmonious—in a double sense—connection of nineteen years with St. Paul's Presbyterian church, as organist, and choirmaster. On Tuesday evening last Mr. Crane placed his resignation before the board of managers, who are considering it, and, as may well be expected, if they are compelled to accept it, will do so with great regret, which will be shared by the whole congregation of St. Paul's. It will be difficult to replace Mr. Crane, who, for nearly a score of years, has given service as organist and choirmaster, as conspicuous for its fidelity as for its high character and appreciation and enthusiasm in respect of the musical demands of the service of praise of the church. Mr. Crane's services, in his official capacity, were by no means all the benefits for which St. Paul's is to be grateful to him. He did much to inspire the members of the choir with a more intelligent musical enthusiasm, and develop the sympathy of the congregation towards a higher standard of music as a part of the worship of the church. This will make it at once more easy and more difficult for a successor to fall into place.

Mr. Crane's retirement is solely due to his reasonable desire to be relieved of some part of the exacting demands made upon his time. His duties as manager of a bank, and chairman of the Board of Education, added to the conscientious discharge of his duties as organist and choirmaster—naturally the only conditions upon which he would occupy the position—left little leisure or opportunity for relaxation. He parts with the choir and congregation of St. Paul's with reciprocal regret, and with no impairment of the cordial and harmonious relations that have existed in the past.

Mr. Crane has for a long time been a large and personally active good influence in the general promotion of the musical interests of the city, and his musical friends and admirers will find it difficult to understand that with his musical enthusiasm and capability he could make the sacrifice of severing connection with St. Paul's, for it is indeed a sacrifice to break the ties formed during nineteen years' continuous and uninterruptedly harmonious association.

ELECTED OFFICERS

The Pearl Mission Circle of the George Street Church held its election of officers last night, the following being chosen:

Hon. Pres.—Mrs. Cruikshanks.
President—Miss Pearl Bardill.
1st Vice Pres.—Miss Lela Smyth.
2nd Vice Pres.—Miss Gladys Pentland.
Recording-secretary—Hazel I. Pentland.
Cor.-Secretary—Miss Alice Clegg.
Treasurer—Miss Ella Outcam.
Superintendent Systematic Giving.—Miss Verna Merrill.
Superintendent Mite Boxes—Miss Verda Hinds.
Pianist—Miss Etta Kemp.

Peterborough Presents Possibilities Unparalleled."

WEDNESDAY, APRIL 17, 1912

CRIMINAL NEGLECT.

It is an easy thing to be wise after the event, to foresee—afterwards—what should have been done; but one thing stands out prominently in connection with the Titanic disaster; there was a criminal inadequacy of life boats, in proportion to the human freight carried. Instead of having lifeboats for her full complement of passengers and crew—4,000—the Titanic had barely life boats for 800. If, with the few lifeboats available, there were 858 persons saved, it seems reasonable to conclude that, with twice as many more life boats the 1,300 souls that went to the bottom, would have also been saved. A reflection like this deepens the appalling horror of the disaster.

SUNK BY A SNOW FLAKE.

Man may take pride in his achievements; in his development of the applications of scientific principles, to his conquest over the forces and conditions of nature; but before these mighty and massive forces, man, and man's most powerful accomplishments, become as water for weakness in the futility of their opposition to the resistless operations of nature. Ten million dollars were built into the immense bulk of the Titanic, the world's greatest vessel, strong steel from stem to stern, from mast head to keel, with the strength of fifty thousand horses in her steel-walled flanks. Yet this last word in shipbuilding, as to the factors of size, staunchness and speed, was put out of commission, sunk like lead in 1760 fathoms of water by the cumulative inertia of a snow flake. In some Arctic gorge or valley, the tiny crystals of snow, falling one by one, year after year, melting in the slow summer and freezing to the depth of hundreds of feet, became, under accumulating pressure, a glacier, pushed forward to the sea by its own rearward mass, till part of it overhung a precipice, beetling over the sea, broke off of its own weight and fell into the sea, became an iceberg, and was swept, current carried, southward till it reached Cape Race waters, and in the fog darkened waters of night, crushed in the steel skin of the Titanic as a steam hammer crushes an egg shell, and sent the steamer, with all her puny might and magnitude, and huddled, helpless humanity, to the bottom of the sea, two miles below. In the face of such tremendous assertion of the forces of nature, we realize how frail and futile man is. Yet, we plan and built, plant and water, work and worry, toil and spin, fight and fail, undaunted by disaster, undiscouraged by failure. But such is the laws of things; such is the way to human success, such is the spirit that keeps the world moving, keeps humanity toiling upward to higher planes of achievement and place.

The Titanic's fatal tilt with the iceberg, demonstrating the superiority of the stupendously resistless forces of nature, suggests the possibility of another magnificent monument of man's daring and enterprise coming into contact with more hidden and even more terrible forces of nature. The Panama Canal, now nearly completed at a cost of hundreds of millions, inbuilt with the grandest triumphs of human mind and mountains of material—a new highway for the commerce of the world—may in a moment, and at any moment, be split asunder, spilt abroad or confounded with the turbid waters of a newly opened sea. The Isthmus of Panama is probably in an earthquake belt. Only the other day, in the neighbouring Yucatan waters, there was a subterranean seismic disturbance, **showing that the patient Atlas was shifting his burden. Scientists may claim that Panama is not in the seismic zone, but scientists sent the Titanic to sea as unsinkable, as iceberg proof—her watertight compartments would keep her afloat under any happening; her sensitive subterranean signalling apparatus would indicate the vicinity of sunken dangers, but in a second, the calculations of science failed. Panama may not be considered to be in the earthquake area, but the seething fires, the imprisoned gasses of central earth are perpetually burrowing outward, and Heaven knows where and when they may break forth.**

THE HUDSON BAY ROUTE.

The return of engineers and others is accompanied by encouraging reports of the conditions and prospects in the Hudson Bay Railway region. It would seem that as a transportation route the new railway has excellent possibilities, and the agricultural possibilities are by no means a negligible quantity. Those who have returned agree that while the muskeg region is practically valueless for agriculture, though it may have a peat value. It is stated, however, that beyond the muskeg belt there is a fine clay belt nearly 150 miles in width where small fruits and roots are already being grown with the greatest success, and probably the same applies to grain. Though the season is shorter than in Ontario, the days are so long that the growth is sufficiently rapid to make up for the shortness of the season. Every sort of small fruit that is grown in Ontario can be produced there in the greatest abundance. During the latter part of June the daylight lasts from 2.30 a.m. until 11.30 p.m., so that it is almost like growing fruit in a hothouse. Tomatoes, potatoes and all sorts of vegetables thrive amazingly. An instance is given of eighty bushels of potatoes of the very finest quality having been grown last summer in one fifth of an acre. It will be of particular interest to Peterborough to know that while we were paying as high as $2 a bag for potatoes during the last season, the survey camps on the line of the Hudson Bay were supplied with the finest potatoes at eighty cents a bushel.

The people in the Hudson Bay district spoken of seem to think that the navigation possibilities of the Hudson Bay route will make it a valuable grain outlet. While the bay is later in opening for navigation than the Great Lakes, navigation often extends into November, which will greatly facilitates the transportation of the wheat crop from our Northwest. There is also a concensus of opinion that the selection of Port Nelson as the terminus of the railway is a wise one. While Port Churchill offers a good harbour, the bottom is solid rock, and consequently any improvement work would be extremely expensive. On the other hand, Port Nelson harbour has a sandy or silt bottom, and can be easily improved by dredging. The conquest of the continent is pushing ever further north.

EDITORIAL NOTES.

"Dividends or death" should be the motto of steamers with defective equipment for saving life.

A remarkable coincidence indicates, that the mania of ocean liners for breaking records, represents a recognized danger. The Popular Magazine, issued last week, contains an imaginary story, corresponding in all essential details with the Titanic disaster—an iceberg, scarcity of lifeboats and great loss of life.

"That's the Boy Scouts for you!" was the remark made heartily and as a compliment by a bystander one day last week. One of our citizens, the Renfrew Mercury relates, who had many a flare up under liquor in the old license days and occasionally goes in for a period of forgetfulness yet, was out in the street last week when he wanted more than a share of the sidewalk. A Boy Scout—not in uniform—stepped up quietly and managed to quietly help the victim home.

The total trade between Canada and the West India colonies, included in the recent agreement, according to the Canadian returns for 1911, reached nearly $15,000,000. The total trade between Canada and the colonies, which remain out, according to the same returns, was $2,675,000; and of this amount over $2,000,000 was with Jamaica, which did not send delegates to Ottawa. It will thus be seen that with some of the most important West India colonies left out of the deal, there is still enough business left, the Brantford Expositor thinks, to be well worth looking after.

HOW THE TIDE IS SWINGING

(Regina Leader.)

Evidence of the sentiment prevailing throughout the rural constituencies all over Saskatchewan is being given in Liberal nominating conventions almost every day. Farmers prominently identified with the Conservative party in the past took an enthusiastic party in the re-nomination of Speaker Sutherland in Saskatoon County last week. At the Battleford nominating convention last Tuesday the same indications of a sweeping victory for the Scott Government were shown. Mr. Simpson was enthusiastically re-nominated on motion of Mr. George C. Truscott, a well known farmer. In the course of his remarks Mr. Truscott stated that it was the first time that he had ever identified himself with the Liberal party. He said that his views in politics had been somewhat secluded before, but that he had been actively associated with the independent party in England. "Mr. Simpson is a man of broad views and capable, in my estimation, of dealing with the problems which confront this western country," said he. "Mr. Simpson's work in the past has appealed to me, and I have great pleasure in offering my support to him and to the Scott Government, a Government, to my mind, that is one of the most democratic in the British domains."

"If there is such a thing as nobility in Canada it is that which follows the plow and turns up God's good soil for the maintenance of the people whom He created".—Eyebrow, Sask., Herald.

Mr. Haultain and his Big Interests party do not agree with this view. In their opinion the only nobility are the Barons of Special Privilege. The man who follows the plow should, in their opinion, be deprived even of that common right of free men, the right to sell the product of his own toil where he can do so to the best advantage to himself.

CHOICE OF LIFE OCCUPATION FOR OUR CANADIAN BOYS

Perhaps the most difficult task which confronts the average boy is the seletion of a calling in life. There are, of course, some who come to the decision in an easy kind of way; sometimes by possessing a pronounced taste in a certain direction; at other times by reason of following the occupation of the father. There are times, however, when the boy has an absolute distaste for his father's business or profession, and is often without any pronounced inclination in any particular direction. Yet it is certainly true that the selection of a calling should not be a matter of haphazard, and that few men achieve success in life who are engaged in a business which is not congenial to them, and does not make work a delight.

Recently the industrial board of the City of Winnipeg has been conducting a novel series of addresses, for the older boys of the public schools of that city, by leading men in the different occupations, in order to help the boys to make a choice of what their life work is to be.

These talks are printed in leaflet form by the educational committee of the industrial bureau and distributed among the boys in the highest grades of the schools, fro whose benefit the talks are given. They can be taken home, and the attention and interest of the parents will thus be helpfully drawn to the consideration of the practical information set forth with a view to assisting boys to make choice of a life occupation in which they can be efficient workers, doing their share of the world's work with advantage to the general good and to their own individual welfare.

The idea is to have leading men in each trade or industry or occupation visit each school and tell the boys about the work he is engaged in, what it produces, what wages are paid in it, what prospects it offers to an ambitious youth, what a beginner should know to make a start in it, and, in a word, with his own occupation as a text, to give a direct, practical talk, designed to lead the boys to think for themselves and to realize the importance of choosing their life work wisely and getting a foundation in school on which to build a secure future.

Talks of this nature ought to produce most satisfactory results. Too often boys leave school with no end in view save to go out into the great world of business and pick up the first thing which offers itself. If they had a strong predilection in any one direction they would waste less time in finding their level, and they would be more willing to remain longer at school if they could see that they were thereby the better qualifing themselves for the achievement of some desired end.—Brantford Expositor.

Dominion Railway Subsidies And Railway Commission Control

Quite probably a good deal of the indignation about the wickedness of the Senate Liberals in blocking the grant of a subsidy to the Ontario government railway is conjured up for the occasion. Not only is there something new and ticklish about subsidising provincial government railways, the consequences of which policy, if it were deliberately entered upon, might be difficult to foresee, but there is an established policy of Parliament itself in regard to subsidies which might disappear in the process. It has been the rule that railways accepting subsidies have been obliged to submit their rates to the control of the Railway Commission. What does Ontario want with a road of its own, if it is to be controlled just like any other common railroad? The answer is easy. Sir James Whitney wants the Dominion money, but it does not want Dominion control, even of through rates, to go with it. And the judgment of the Privy Council in the Montreal Park and Island case seems to be that the Dominion has no control over a Provincial road except there is some such consideration as a subsidy and a contract agreeing to control.

Mr. Borden might be willing to abandon a perfectly sound policy to please those who gave him his majority. He did it another case.

Some years ago Mackenzie and Mann made an agreement with the government of British Columbia, which was to finance a loan for the building of a road through the mountains. Mr. McBride made the contract, went to the country, and swept the Liberals off the boards. But he made Mackenzie and Mann agree that the control of rates should be in the Provincial Government, and, further, that if the Dominion sought to exercise control they would themselves fight the attempt in the courts. Nevertheless, Mackenzie and Mann applied to Ottawa for a subsidy. Mr. Graham was Minister of Railways then, and he told them (as he explained in the House in the closing days of the recent session) that Dominion subsidies went only with Dominion regulation of rates, and that they would only be available for this road when Mr. McBride and Mr. Mackenzie were ready to abandon their original attitude.

An election followed, a new government was formed in consequence. Messrs. Mackenzie and Mann were credited with exercising much concern over its formation and with getting many friendly influences grouped around the Cabinet table. At all events, subsidies which must run up to five or six million dollars were voted for that road of theirs. Mr. Borden and his friends pleaded ignorance, to some extent at least, but ignorance did not formerly appeal to Mr. Borden as a good enough excuse. Hon. Mr. Graham told the whole story there in the House, and two votes were taken on the subsidy. Mr. Borden and his friends stood by Mackenzie and Mann and abandoned the principle of control of rates in return for assistance.

People who sometimes think they see a relation between the madness of the many and the advantage of the few may find in all this some food for pleasant reflection. So may some who, at times, wonder where the sources and centre of power in this country are actually located.—Montreal Herald.

TO OPEN UNDER NEW MANAGEMENT

Admirers and patrons of the pretty summer resort of Chemong will be greatly pleased to learn that the park hotel will this sumer be operated in a more pretentious and inviting manner than ever before. The hotel ownership has changed hands, and will this year be under the capable management of Mr. Robert E. Davis, of Peterborough, who formerly resided on Rubidge street. The new proprietor is well qualified by experience to successfully manage the business, and intends neglecting no detail which will add to the attractiveness of the hotel and the comfort of his guests.

The Chemong hotel is being entirely repainted and remodelled and visitors will be surprised at the effect produced when the work is completed. The hotel cottage, which is kept open for the benefit of guests and tourists, is also being repaired wherever necessary.

The meals will be prepared this summer by a first-class chef.

The new proprietor, in compliance with the liquor license instructions, will not sell, or cause to be sold, intoxicating liquor of any description, only soft liquids being purchasable. Neither will objectionable loafing, so often connected with hotels, be countenanced.

The hotel will open, it is expected, on April 19th.

Mr. Davis, the new proprietor, was formerly with the Trent Canal, and his branching out in the hotel business leaves a vacancy in the service which will not be easily filled.

CAUGHT BY CURRENT.

While Mr. T. A. Fontaine, of 477 Rubidge st., was engaged in the washing of his milk wagon in the creek adjacent to his house, the vehicle was caught by the current and carried down the stream to the railway bridge at Stewart st. A team of horses was brought into service yesterday afternoon, but they were unable to drag the vehicle from the stream, and it is anticipated that such a proceeding will not be possible until the flow of water decreases.

TENDERS WANTED

Sealed Tenders marked "Tenders for Fuel" and addressed to the undersigned, will be received until 12 o'clock noon Wednesday April 24th, for 500 tons or more of soft Coal, to be either select 3-4 lump Youghiogheny, Red Jacket or Pittsburg coal. IN THE WORLD OF SPORT

PETERBORO' TEAM OPENS SEASON MAY 14 STARTING WITH A SERIES IN HAMILTON

Canadian League Schedule Has Been Submitted to the Clubs for Approval and Will be Published in a Day or Two.

LOCALS TO HAVE 104 GAMES

HAMILTON, APRIL 16. — After several delays, the Canadian league schedule was finally issued to-day, a draft being mailed to each club for approval, this afternoon. As soon as the clubs have a chance to check over the fixtures, a meeting of the league whill be called for the purpose of adopting the schedule and completing final arrangements for the opening games, as follows:

May 14—Peterborough at Hamilton.
Guelph at London.
Ottawa at St. Thomas.
Berlin at Brantford.
May 16—Hamilton at Guelph.
Berlin at Ottawa.
May 22—St. Thomas at Peterborough
June 6—Brantford at Berlin.

The Peterborough club will not open at home until May 22, while the Berlin team will be on the road until June 6, owing to the fact that the Berlin ball park will not be ready for use until that date.

The schedule was a rather difficult one to draft, the long jump to Peterborough and Ottawa affording many difficulties, as did the Sunday games in Hull. The desire to save as much as possible on travelling expenses also formed another formidable bit of trouble, but it is thought that a satisfactory draft has at last been prepared, and that the schedule, with but one or two changes will be adopted. The uncertainty as to Sunday ball in Ottawa and one or two other important matters resulted in the schedule being held back longer than anticipated, although even now it is being issued in plenty of time.

Improved ballyards, stronger teams and the benefit of last year's experience should make the Canadian league a pretty powerful combination this summer. The addition of two ore clubs will afford a greater variety and more interest to the league race and with so much enthusiasm being evinced in each town, there is no reason why the league should not prove the strongest class C organization on the continent. The schedule is also a great improvemet upon that of last year, the small towns getting a better break. Guelph, which had anything but a fair deal in the matter of holiday dates last year, is well taken care of this season, while it is doubtful if there is room for any argument at all from any of the clubs. The addition of Ottawa and Peterborough to the circuit makes it easier for the smaller towns to secure the dates they want, and the schedule as now drawn up practically gives each town the dates asked for at the league meeting held here last month.

The schedule calls for 104 games for each club, but Ottawa, and the Senators, owing to their Sunday dates, are down for 118 games, being scheduled at home on fifteen Sundays This also means that the Ottawa club will have fifteen more games at home than any other club.

Caught The Peterborough Squad Training At Reading

The Peterborough Baseball Team will be in good shape when they arrive here two weeks hence. Eight of the squad including Manager Templin, are working out daily on the United States League Club's grounds in Reading, and they will be right on edge when they get here. A letter received from Manager Templin today states that he may drop into Peterborough any day now. He is waiting to sign up a left handed pitcher who is with the Haverhill Club, and as soon as this box artist is landed Old folks will pack his travelling bag and hike for the North to make arrangements for the opening of the season.

The local skipper is jubilant over the bunch he has signed up. He says he has the best bunch of pichers and catchers in the League circuit to select from, and some of these he may have to let go without bringing them here at all. If he lands Catcher Frank Mooney of Pittsburg, one of the other mit artists wil have to go, as Templin knows just what Mooney is capable of. Templin is satisfied with his infield and outfield men. He has seen most of them work out, and expects them to make good when they come north. He reports that Outhelder Jimmy Beard has been bereaved last week by the death of his mother.

200 Players Will Be Tried Out By Canuck Leaguers

HAMILTON, APRIL 16.—The International league season will open this week and then local fandom will await May 14, when the Canadian league season will get under way. According to reports from the various league centres nearly 200 men will try for places in the organizations this year. Berlin and Hamilton have over thirty men signed already, and judging by the way Ottawa is rounding them up, there will be nearly that many more on the Senator's roster by opening day. Of course they cannot all make good, and even if they did, the salary limit would prevent any manager from carrying more than fourteen men at the outside, and it is likely that the middle of June will find the teams with about a dozen men each. As there is so much new material on all the teams, it would be a hard task to attempt to pick a pennant winner just yet. Berlin may repeat, although Deneau was robbed of his winning material when the drafting season opened last fall. Still the great Reuben may have discovered a few more phenoms of the Cameron calibre, and it is a good bet that the Dutchmen will not be lagging at the end.

London thinks that Bowerman's major league experience will go a long way toward landing the pennant in the woods, while Ottawa claims that Frank Shaughnessy has been in professional company long enough to get a good line on the men who should prove winners in this company. Every team with the exception of St. Thomas is ready for the training season, and when the Saints once get down to business it will not take them long to muster a good squad. They have several good men reserved from last season and there is plenty of good material waiting for a chance to break into professional company. No matter which team wins it looks like a great deal more interesting race than last year, when Berlin got away in front and was never headed during the entire season.

NEWS FROM THE LEAGUE CIRCUIT

Knotty Lee has signed an outfielder named Corns for the Hamilton team and the baseball writers throughout the Canadian league circuits are springing all kinds of jokes about the Ham's recruit. Brooklyn Nationals have an outfielder named Wheat, who has furnished all kinds of humour for the big leaguers, and Corns promises to bear the brunt of just as many jokes as the big leaguer. Here are some cracks that have already been made about Corns:

He is a husky player.

If he is planted right he will develop into a Cobb.

He is sprouting into professional company.

If he pops out many flies they will call him pop corn.

He is a stalky fellow.

Left field, which he guards will be known as the cornfield.

When the other players say "eh" to him it will sound like acorns.

If he is out of the game for a day or two the fans will ask: Where has Corn bin?

Knotty Lee may be heard to exclaim: "Corns, on your toes now."

The Brantford Club has signed the following players:

Pitchers—Coose, Igo, Boyle (Syracuse), Donovan (Lawrence), Tasker (Clinton), Baker (London), Beckford, the latter having been recommended by Umpire Finneran, of the National league.

Catchers—Lamond, Conley.

First base — Ivers (Connecticut league, Weddige (Erie), Ewen (Cleveland), Farrell (Detroit.)

Second base — Slattery (Brockton), Clarke.

Shortstop—Courtney, Cassani.

Third base—Alden, Novak, Brazel.

Fielders — Zettler, Hart, Burrell, Gane, Bradley (Rochester.)

London Advertiser: Although Ottawa and Peterborough are both new to the league, the general opinion of the rest of the circuit is that both these teams will be dangerous this summer, and will be strong factors in the pennant race. Ottawa is regarded as particularly dangerous. With a man like Frank Shaughnessy behind the team, although not acually managing it, there is every reason to expect that the Capital will present a strong bunch of players. Shaughnessy has sixteen teams in the Central League to pick from, and as soon as these teams begin to farm out players, after the season is opened, it is certain that Ottawa will get many of them.

Manager Templin of Peterborough, should place a very strong aggregation in the Lift-Lock City. Templin comes from a state where ball players are born every minute, and he knows just where to get them, and how good they are before they come. The men that he has signed already are, for the most part, gathered in Reading, Pa., and reports indicate that Templin has been trying many of them out. In this way, he will have the start on the rest of the clubs, for when he brings his team north to report his players will be in fine playing condition and the fact that some of them have worked together will give them greater confidence than if they were playing together for the first time, as many of the players on the other teams will do.

ST. GEORGE'S CHORAL SOCIETY PRESENT SPLENDID CONCERT IN THE OPERA HOUSE

Large Audience Attended First Annual Performance Last Evening When a Varied Programme of Choral Work Was Rendered---A Decided Success.

Success crowned the efforts of the St. George's Choral Society, who, under the conductorship of Mr. E. Thompson, presented their first annual concert in the Opera House last evening, before a large audience.

From the uniformity of their movements on the first beat of the baton it could readily be observed that the chorus of seventy voices had been well trained and their subsequent performance fully justified this conjecture. They sang a varied and select programme of choruses. DeFaye's part song, "Tell Her I Love Her So," is deserving of special mention, this selection being rendered in a most finished style. The voices blended beautifully and the syncopation was executed to a nicety. Another splendid selection was "The Bells of St. Michael's Tower," which, though somewhat difficult, was performed in a most creditable manner. Lord Mornington's "Here in Cool Grot," and Nichol's "The Knight and the Yeoman," were also among the number of choruses, and at the conclusion of the performance the choir sang two verses of the hymn "Eternal Father, Strong to Save," in sympathetic reference to the recent marine disaster.

With regard to the principals, Mr. George Deakin, tenor, possesses a pleasing voice, which was heard to advantage in the old favourite, "The Death of Nelson," for which he was recalled. Responding, he sang "The Pilgrim of Love."

Mrs. A. Wells was no less effective in "The Swallows," one of Cowen's well-known compositions. She possesses a sweet soprano voice, and her contribution was also encored. Mrs. Bert Read was heartily applauded for "The Dream of Home," and on being recalled, responded with "The Carnival". Miss Ada Lee found great favour with the audience with "The Dear Home Songs," while Messrs. R. Dickson and J. Barnett sang with marked effect "The Bell at Sea," and "The Wolf," respectively. Miss Maggie Moss is an elocutionist of no mean calibre, and her contributions, especially the humorous recitation "If I Were a Man," were most amusing. Some excellent violin solos were rendered to the accompaniment of Mrs. Greenslade by Dr. Park who plays with great charm and expression. He also was accorded loud applause.

Messrs. Thompson, Lee, Braun and Dickson rendered the male quartette "The City Choir" in fine style, their voices blending in almost perfect harmony. A mixed quartette, composed of Mrs. A. Wells, Miss Ada Lee, Messrs. Thompson and Braun were exceptionally good in Pinsuti's "Good Night, Good Night, Beloved," and as much might be said of "Pro Phundo Basso," rendered by Mrs. B. Read, Miss A. Lee, Messrs. Thompson and Dickson. "The Gypsies' Laughing Chorus," rendered by Messrs. Kennedy, Milburn, Lee, Marsland, Braun and Dickson, was also an acceptable item.

The difficult and arduous duties of accompanist were very ably executed by Miss Margaret Flowers, who has been indefatigable in the interest she has taken in the work. The hard work devolvig on an accompayist is frequently overlooked; yet it should be borne in mind that upon this official rests a large measure of the success of a concert. An accompanist may easily make or mar any number.

The Society is to be complimented on the merit of their first venture, and those who attended were undoubtedly well pleased.

A few particulars with regard to the Society might here be mentioned. On January 16th, at the ordinary meeting of the St. George's Society of Englishmen it was decided to form a Choral Society, Mr. B. Read was appointed organizer. It was decided that although formed under the auspices of the St. George's Society, the membership would not necessarily be confined to English ladies and gentlemen, but would be open to any ladies and gentlemen in Peterborough, interested in choral work. The only stipulation made was that members elected to any official positions in the St. George's Choral Society must become members of the parent body. This society is composed of persons of English, or Welsh, birth, or descent, in the male line.

The first meeting of the Choral Society was held on Tuesday, January 23rd, when there were twenty-six present. In two months there were 73 members on the books, showing that such a society was appreciated in Peterborough. Practically every choir in the city is represented in the membership, thus showing the general interest taken in this class of work.

The Society is supported by members' subscriptions, and is governed by a committee elected from the members.

The finances are under the control of the members. It will be the aim of the management to promote a social feeling among the members and to this end occasional rambles and socials will be arranged during the year, as well as an annual banquet and a picnic in the summer.

FIRST KICK AT BY-LAW

Petition Being Circulated Objects to Payment by Taxing Property —Many Are Signing

UNFAIR TO LANDLORDS

It was generally reported on the street to-day that a petition asking the council not to levy the tax for garbage collecion against property, is being largely signed by those whom it will most seriously affect.

Mr. James Murty told the Examiner that he knew of the petition and believed that it would be signed by two-thirds of the ratepayers in the territory outlined by the Council. The numebr of those who would protest against the property tax he said might represent a larger percentage than even two-thirds.

TENANT ESCAPES

"The general feeling," Mr. Murty "is that the bylaw is not fair to those who own the houses and who are paying the taxes. A tenant under this system can make any amount of refuse or garbage and the landlord has to pay it. This is the point that is being objected to. The feeling is that there is already enough on the tax bill without adding another item."

The Property Committee and the Council realized that there were objectionable features to the method of collecting, but it was decided upon more for a trial, and for the purpose of facilitating the organization of the garbage collecting scheme.

Ald. Duncan, chairman of the Property Committee, stated that he had heard nothing about it, and had been in conversation with the Sanitary Inspector before noon. Another Alderman said he had been informed that such a petition is in circulation, but he had not seen it.

The petition is to be presented to the council, it is understood, asking that some other method of collecting the fee for the garbage service be adopted.

Mayor Bradburn as a prophet has proven his capability. When the by-law was under consideration he remarked that it would be impossible to please everyone and the present petition bears out his statement.

WAS SO RUN DOWN

COULD NOT DO ANY WORK.

Thought She Was So Far Gone Nothing Could Cure Her.

MILBURN'S HEART and NERVE PILLS Made Her Strong and Healthy.

Many women get run down, and are unable to look after their household duties, owing to their nervous system becoming unstrung, and when this happens, the heart starts to work in sympathy with the nerves. In Milburn's Heart and Nerve Pills is combined a treatment that will cure all forms of nervous disorders, as well as act on the heart itself. Mrs. F. McFadyen, Brookside, Sask., writes:—"It is with the greatest of pleasure I write you stating the benefit I have received from using Milburn's Heart and Nerve Pills. This spring I was so run down I could not do any work, and one day a neighbor advised me to try your Pills. I told her that I thought nothing could cure me, as I was *too* far gone. But she told me to get a box of Milburn's Heart and Nerve Pills, which I did, and before I had finished them, I began to improve, and when I had finished the one box I was as strong and healthy as any person. Anyone who is suffering from heart or nerve troubles should take your Heart and Nerve Pills and they will soon discover their worth."

Price 50 cents per box, or 3 boxes for $1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

GRANDMOTHERS USED SAGE TEA

To Darken the Hair and Restore Grey and Faded Hair to Its Natural Colour

It is easier to preserve the colour of the hair than to restore it, although it is possible to do both. Our grandmothers understood the secret. They made a "sage tea," and their dark, glossy hair long after middle life was due to this fact. Our mothers have grey hairs before they are fifty, but they are beginning to appreciate the wisdom of our grandmothers in using "sage tea" for their hair and are fast following suit.

The present generation has the advantage of the past in that it can get a ready-to-use preparation called Wyeth's Sage and Sulphur Hair Remedy. As a scalp tonic and colour restorer this preparation is vastly superior to the ordinary "sage tea" made by our grandmothers.

The growth and beauty of the hair depends on a healthy condition of the scalp. Wyeth's Sage and Sulphur Hair Remedy quickly kills the dandruff germs which rob the hair of its life, colour and lustre, makes the scalp clean and healthy, gives the hair strength, colour and beauty, and makes it grow.

Get a 50 cent bottle from your druggist to-day. He will give your money back if you are not satisfied after a fair trial.

Special agents, Warne Drug Co.

PECULIAR CASE AT MARMORA

A unique case will come up for trial at the June sittings of the High Court at Belleville, in which Mr. W. H. Lett, a well-known resident of Marmora will appear as defendant. It appears that when Mr. Lett moved his family into Marmora, last fall, he had his household effects shipped in a car. Among the goods were two stoves, one belonging to the defendant, and the other the property of another person. One of the freight men at the Junction gave Mr. Edmunds, upon whom devolved the responsibility of delivering the goods to Mr. Lett, the wrong stove. Thinking it was the Railway Company's place to remedy the error, he allowed the stove to remain on his premises.

On Saturday last a C.P.R. detective landed in town and, accompanied by Constable Gillen, served a warrant, arresting both Mr Edmunds and Mr. Lett, the former for stealing the stove, and the latter, for receiving stolen goods. Both were placed in the lock-up for a short time. Bail was fixed, later, at $500.00 each. On Monday the accused were given a hearing before Police Magistrate Weller, at Spring Brook, and, as a result, Mr. Edmunds was acquitted, and Mr. Lett was committed to stand his trial, as stated above. He was given his liberty on his own bail, the amount of the bail being fixed at $200.00.

THE "CARPATHIA" IS HEARD FROM

(Continued from page 7.)

with an iceberg in the Baltic Sea, off Riga. Her entire bow was shattered but her captain managed to run her into shoal water before she began to sink and her passengers and crew safely taken off.

LONDON MAN ON BOARD.

LONDON, ONT., APRIL 17.—Mrs. Jas. McCrie, whose husband is among the list of those missing on the Titantic, to-day received a letter which he had mailed just a couple of days before he sailed, stating that he was coming home on the big new liner, on her maiden voyage, and that he was looking forward with unbounded joy, both to the trip and his home coming to his wife and three little ones, whom he had not seen since he left for Egypt, 18 months ago, to work in the oil fields for an English syndicate. Mrs. McCrie is hoping against hope that her husband has not perished, and is waiting under the terrible strain for the portentious telegram that is expected and which will mean either his life or death. The letter states that McCrie remained over a week in order to come on the Titantic.

LABOUR NOTES

The High Prices Continue.

The latest findings of the Department of Labour's prices record show that the past month maintained the exceptionally high point reached in February. The Department's index number was 134.2 for March, compared with 134.3 in the preceding month. A year ago the number was 126.3. A feature of the past month was the decline in egg prices; on the other hand animals, meats, vegetables and imported fruits advanced. It is pointed out that the Department's figures are based on observations of the movements of about 260 articles selected for their representative character, and that the price level now shown is the highest in at least thirty years.

The Strike Situation.

There were three more strikes in existence, according to the Department of Labour's monthly record, in Canada, during March, than in February, and three more than in March, 1911. About 14 farms and 2,000 employes were involved. The loss in working days was estimated at 44,800, compared with 10,080 in February, and 33,600 in March, 1911. The only strike involving more than 200 employees was one of tailors, at Toronto.

Industrial Accidents in March.

Industrial accidents occurring to 272 individual workspeople in Canada during the month of March, 1912, were reported to the Department of Labour. Of these 30 were fatal and 182 resulted in serious injuries. In the preceding month there were 74 fatal and 178 non-fatal accidents reported, a total of 252, and in March, 1911, there were 104 fatal and 218 non-fatal accidents, a total of 322. The disasters of the month, involving more than one fatality, were an explosion in a coal mine at Merritt, B. C., on March 7, which caused the death of seven miners and the serious injury of two others; accidental falls of coal in the mines at Sydney, N. S., on March 11, and at Springhill, N.S., on the 22nd, each resulting in the death of two miners; a runaway car in a mine at Westville, N.S., on March 26, which jumped the track and struck and killed two miners. On February 29, near Fitzhugh, Alta., a premature explosion of dynamite on the construction line of the Grand Trunk Pacific Railway, killed nine employees.

DANGER OF RIVERSIDE PARK BEING FLOODED

There have been grave misgivings the past couple of days as to whether Riverside Park will be in shape for the training operations of Manager Templin's Canadian Leaguers when they arrive here the week after next. The river has risen so rapidly that there are fears that the park will be flooded, in which case it will hardly be available by May 1st. As it is now deep centre field is a miniature lake but the other part of the ground has dried up rapidly.

Superintendent McClellan of the Trent Canal, informed the Examiner to-day that he did not think there was any danger of Riverside Park being flooded further. The stop logs were removed from the locks below the cemetery yesterday and as a result the water in Little Lake is lower to-day.

It would be unfortunate if the park was to be inundated as it would not only interefere with the spring training, but would render impossible any improvements to the grounds for the present.

SMITH COUNCILLOR IS RETIRING

Nomination of Candidates to Fill Vacancy—Mr. J. C. McConkey Retiring

Owing to the retirement of Mr. J. C. McConkey, as Councillor for Smith Township, a meeting of the electors for the nomination of candidates for office of councillor for the rest of the year, will be held on Monday, April 29th, at one o'clock, p.m., in the County Council Chamber.

HOMESEEKERS' AND SETTLERS' SPECIAL TRAINS TO WESTERN CANADA

Via Chicago and St Paul, April 16th, 23rd, and 30th, and every second Tuesday thereafter, until Sept. 17th, inclusive. Tickets will also be on sale on certain dates via Sarnia and Northern Navigation Company. Special train will leave Toronto 10.30 p.m. on above dates for Edmonton, and points in Manitoba and Saskatchewan, stopping at all points on the Grand Trunk Pacific Railway west of Winnipeg. Through coaches and Pullman Tourist Sleepers will be carried, fully equipped with bedding and porter in charge. Berths may be secured in sleepers at a low rate. This is an exceptional opportunity for those wishing to take advantage of the remarkably low one-way settlers' rates or round trip Homeseekers' excursions through the American cities. No change of cars. Secure tickets and berth reservations from any Grand Trunk Agent, or write A. E. Duff, District Passenger Agent, Union Station, Toronto.

GOLF AND COUNTRY CLUB MEETING

Mr. T. F. Matthews Was Appointed a Director

A meting of the Golf and Country Club was held last night with a good attendance of directors. The meeting was especially for the purpose of making a beginning for the season and paved the way for an important meeting which will be held on Tuesday evening next in the Bank of Montreal chambers, when players and directors are requested to be present. At last night's meeting Mr. T. F. Matthews was appointed a director to succeed Mr. W. H. Denham, who had resigned.

SPLENDID PROGRAMME

The following is the programme to be rendered in the Conservatory of Music Hall on Friday night by Redferne Hollinshead (tenor), Leo Smith (Cellolnt), and the Conservatory Orchestra:

1. Overture on Irish Airs (Bendix), Orchestra.
2. (a) Minuet (Becker), (b) Spanish Dance (Popper), Mr. Leo. Smith.
3. Aria, "On away, Awake Beloved" (from Hiawatha's Wedding Feast) (Coleridge Taylor), Mr. Hollinshead.
4. Selection, from "The Chocolate Soldier" (Strauss), Orchestra.
5. Adagio (Schumann), Mr. Leo Smith.
6. (a) "Macushla" (McMurrough), (b) "For you Alone" (Geehl), Mr. Hollinshead.
7. Selection from the comic opera, "Rob Roy" (DeKoven), Orchestra.
8. (a) "Romance" (Davidoff), (b) "By the Fountain" (Davidoff), Mr Leo. Smith.
9. Aria di Manrico, "Ah, che la morte ognora" (from "Tower Scene," Il Trovatore) (Verdi), Mr. Hollinshead.
10. Finalle from "William Tell" (Rossini), Orchestra.

"THE BARRIER"

"The Barrier" Company, which comes to "The Grand" next Saturday, April 20th, matinee and evening, and which comes intact from its long season at the New Amsterdam, New York, and it is a personally selected one, to carry out the ideas of Rex Beach, the author of the book, and Eugene Presbrey, who dramatized it so successfully. The novel itself is so very well and favourably known, that a rehearsal of its story and plot is superfluous; all that need be said is that on the stage, nothing has been lost from the story, but the characters are visualized most remarkably for the benefit of those who have loved them in the story. There is still all the atmosphere of Alaska, the last of the frontiers, which Mr. Beach so admirably transferred to paper by the magic of his pen; that Alasaka which he learned to know through six years of his early life spent there, and whe characteristics he embodied in this thrilling tale. It is not the usual Ala-ka of the fictional press, but the real Alaska, sunny, bright and attractive to the last degree, and faithful pictures of it are to be found only here.

Norval MacGregor, who heads the company, takes the part of John Gale, whose mysterious past is one of the features of the tale and play. Mr. MacGregor is a skilled player, a capable stage director and an interesting person to know. Grace Johnson, who was especially selected by Mr. Beach to play Necia, the girl whose supposed Indian blood forms the "Barrier" in the love tale, has beauty and ability and will be found the true embodiment of the character. Capt. Burrell is handled well by Lee Millar, and Poleon, the light-hearted French Canadian, is a delight, as played by George Cleveland. No Creek Lee, the leading comedy role, is assigned Max Steinle, well-known as a fun-maker of parts. Alanna is handled by Mattie Hyde, and the two villains, Stark and Rumion, are played respectively by Bryce Howatson and George Byron. Each character is thus embodied in the best fashion, and the excellence of the cast is thoroughly backed up by the good productive carried.

The sale of seats opens Thursday.

Shiloh's Cure
quickly stops coughs, cures colds, heals throat and lungs. 25 cents

SCHOOL REPORT

The following is the report for March for Mathers Corners Public school:

Class V—Frank Mather 619, Lettie Drummond.

Class IV—Sadie Dixon 622, Roy Rae 586, Mary Collins 484, Marion Nelson 459, Evelyn Drummond 447, Zona Pue 443, Earl Doris 404, George Carey 369.

Class III—Annie Carey 708, Max Robertson 579, Arthur McIntyre 578, Angus Adamson 575, Myrtle Cooney 351, Charles McIntyre 282.

Class II Sr. — Marie Carey 671, Claude Nelson 669, Peter Mather 635, Michael O'Toole 596, Mary Hefferman 505, David McIntyre 410.

Class II Jr.—Tommy Hefferman 135, Eva Taylor 75, Willie Manley 60.

E. GERTRUDE WHITE, Teacher.

Stewart's Hall

STEWART HALL, APRIL 15.—Mr. and Mrs. Ernest Deyell entertained a number of young people from Stewart Hall, Coldsprings and other part on Tuesday evening last. They report of having spent a very enjoyable time.

Messrs. Ross and Harold Monerief spent the week end at the home of Mrs. John Savigny.

Miss Ada Stewart is spending a few days with friends in town.

Mr. Gordon Savigny and Mr Ross Monerief spent Sunday evening at the home of Mr. and Mrs. David Hutchison.

We understand that a number of our young people are leaving for the west on Tuesday.

Miss Jessie Laing spent the week-end at the home of her sister, Mrs. Clarke, near Springville.

Mr. Evans Stewart spent Sunday with friends in Otonabee.

INDIANS ARE TRAPPING.

First Reports State That the Catch is Good.

HIAWATHA, APRIL 17.—The ice is fast going out of the river, and a few more days of warm weather will see its disappearance. The trapping season has opened and the first reports indicate a good catch. Just now the Indians are divided in their work—some are making maple syrup with the help of their wives, and others are out trapping. The good spring weather of Monday is needed here.

PILES CURED IN 6 TO 14 DAYS
Your druggist will refund money if PAZO OINTMENT fails to cure any case of Itching, Blind Bleeding or Protruding Piles in 6 to 14 days. 50c.

A PIANO RECITAL

Miss Grace McNeill, a graduate of St. Joseph's Academy, Lindsay, gave a piano recital at St. Mary's Convent last evening, in which she exhibited a brilliancy of technique and clearness of interpretation, which reflects great credit on her teachers. From the first to last note of the difficult and exacting selections, Miss McNeill played with splendid surety and artistic finish, surprising in so young a musician. The applause throughout the evening was a testimony of the great delight afforded her hearers. The following is the programme:

Bach—Prelude and Fugue in B Flat.
Beethoven—Sonata Op. 27, No. 1
Vocal Duo — E. M. Cabe, K. Gannon.
Chaminade—Automne.
Chopin—Ballade Op. 47 (in A Flat).
Violin—V. McCabe.
Mendelssohn—Andante and Rondo Capriccioso.
Liszt—Rhapsodie, No. 2.

MID-SUMMER MILLINERY

Miss Horsefield, of the Peterborough Millinery Parlors, has just returned from attending the Mid-Summer Opening at Toronto, and has purchased the new models for Summerwear. Your inspection invited.

MRS. W. B. ARMSTRONG,
435 George St., upstairs
In old T. A. S. Rooms

SOME THINGS AND OTHRS

A milk waggon, placed in the creek this morning to be washed, broke away, and merrily floated down stream. A milk waggon that takes to the water like that will stay watching by Sanitary Inspector Spence.

Lindsay has lost, practically, her only industry—the Sylvester works removed to Orillia. All that's left worth while is Tom Begley and Sam. Hughes, and Sam is away from home most of the time.

The morbid throng that was attracted to the disgusting police court trial held in camera, shows that a large number are qualifying for senatorships, whose duties involve the unearthing of the intimate details of divorce cases.

If the city had removed the parapet of snow from the north side of Hunter street, it would have been as dry now as other parts of the street, instead of a slimy stretch of mud.

The ice is out of the river below the Locks, as far as the eye can reach and further—to Rice Lake.

Colds

Don't trifle with a cold; no one can tell what the end may be. Pneumonia, catarrh, chronic bronchitis and consumption invariably result from neglected colds. Nothing can be compared with

Chamberlain's Cough Remedy

as a quick cure for colds and grip, and by its use the more serious diseases may be avoided.

Compared with

Queen Quality

other Shoes lack that perfection of style and finish that is characterisic of all fine custom footwear.

THE EVENING CHIT-CHAT

By Ruth Cameron

"It is only now and then that a man learn something, but h eforgets the whole day long. Our memory is like a sieve that with time and use holds less and less. . . . . " — Schopenhauer.

How long is it since you have "visited school?"

I have always believed that it is every mother's bounden duty to visit, at least once a term, the school where her children are spending almost half their waking hours. Lately I have been convinced that it would be a mighty good thing if others besides mothers "visited school" once in a while.

For what purpose, you ask? Well, partly for the pleasure of the memories and associations which such an experiment would arouse. But more for the interesting and instructive purpose of discovering how little we really know after all, how much more than we, even the little pig-tailed and freckled-faced boys and girls know.

Perhaps you think I am overstating that. If you do, it is all the more reason you should accept my invitation some day. Believe me, no group of college professors will make you more aware of your colossal ignorance than a class of grammar school youngsters reciting their freshly learned lessons.

Say the class is in geography and they are going over the capitals and principal cities of the various countries. How often do you know the answer before it is given? Unless you are over fifty, and thus of the old school which really learned things like geography, you will probably be amazed to find how little you know.

Not long ago I went to an evening party where the hostess surprised us by substituting a geographical game for the conventional entertainment. There were half a dozen questions to answer, such as the capitals of all the country, questions which should have been comparatively simple to all of us, *but I assure you there was no trouble in selecting the prize winner.* He was a man considerably over sixty who had learned those things in the good old fashioned way. The only difficulty was todecide among the candidates for the consolation prize.

Suppose the lesson is in history, and the dates of some of the big events in our history are called for, will you be any better off than you were in the geography class?

Or suppose the class in spelling holds the floor, do you think you would stand at the head of the class if you entered into competition with the youngsters?

"It is only now and then that a man learns something, but he forgets the whole day long." How much we have forgotten, and how very little we really know, after all. Truly it is a most humbling and instructive lesson which the little scholars will turn teacher to teach us!

Don't think this is all just talk, but some day when you have a chance try "visiting school." I am sure you'll learn quite as much as the scholars, and your lesson will be about that most important of all subjects—yourself.

Ruth Cameron

PROMINENT U. S. MARINE MEN GIVE OPINIONS OF DISASTER

Something Had to Give if Vessel Hit Big Berg—May Have Struck a Pinnacle Iceberg, Which Would be Fatal.

EXTRAORDINARY ACCIDENT

NEW YORK, APRIL 17.—The speed at which the Titanic was travelling when she shattered herself against the iceberg will perhaps not be known until the first of her survivors reach port. Whatever her rate of progress, however, shipbuilders here and abroad must admit that while the *modern* steamship may defy the wind and weather, ice and fog remain an ever-present element of danger. No ship, they point out, no matter how staunchly built, nor how many water-tight bulkheads protect her, may plunge headlong against a wall of ice without grave results.

The general opinion is that the Titanic's equipment was put to an extraordinary test which no vessel could have withstood.

"Under ordinary circumstances, these water-tight compartments will preserve a ship from sinking," said A. L. Hopkins, vice-president of the Newport News Shipbuilding and Dry Dock Company, in New York, "but smashing into an iceberg could produce shattering effects that would render a ship helpless beyond the protection of any design yet known. In fore and after collision, when the compartments are punctured, the lowering of either end of the ship produces an increased strain on the other compartments."

Pinnacle Rock.

Granting that only the forward bulkhead of the Titanic had been crumpled by the impact with the iceberg, Mr. Hopkins was inclined to think that the compartments would have been sufficient to save the vessel. Inasmuch as he was not familiar with the relative division of the Titanic's compartments, he could not estimate *how many compartments must have* given away under the impact of the collision.

Robert Stocker, naval constructor of the Brooklyn Navy Yard, said:

"In the case of the Titanic, I am inclined to think that her sinking was due to the effect of grounding, rather than to the impact of collision. Frequently a ship strikes what is known as a 'pinnacle rock,' ripping open her keel. The iceberg against which the Titanic smashed her bow, may have had some such submerged projection which did additional damage to her keel. If the forward bulkheads of the vessel had held after the impact which smashed the bow, it certainly seems that the *relative buoyancy of the remaining* compartments would have been sufficient to keep the ship afloat. I am compelled to believe that a great many of her compartments must have been punctured or sprung."

At Full Speed.

Lewis Nixon, the eminent naval architect, is inclined to think the Titanic was travelling at full speed or perhaps crashed into a berg so tremendous that there was practically no give. "If the Titanic hit one of those great ice masses," said Mr. Nixon, "it is likely that she struck one that had no more give than a rock. Under these circumstances, something had to give way, and, as the iceberg did not, the great ship had to crumple up.

"It is conceivable that an impact of this sort might have buckled her longitudinal plates from end to end, shearing off and starting rivets and opening up the water-tight compartments throughout the length of the vessel.

For many years steamship men have asserted that the safest place to be is on a well-equipped ocean liner. In proportion to the number carried, the statistics show that there is less loss of life and less chance of injury on board a modern liner than there is in any other means of transportation. Fleets come and go from New York and other ports with the regularity of the tides, and those carrying mails maintain a schedule which almost equals in punctuality that of the railway mail trains.

Trans-Atlantic steamers travel in well-defined routes, known as "Steamship Lines," the westbound and the eastbound. This reduces to a minimum the chances of collision with one aother. But icebergs and derelicts have no respect for these rules, and float into the paths or wallow across them to be a dire menace in time of fog or very thick weather.

There is no way to give warning until too late. Out of a smother of fog a pallid shape may be glimpsed over the bows, to be followed a half minute later by the crash of the bows against the mass of ice.

A Man With Piles Cannot Work

The depressing, undermining influence of piles seems to affect mind as well as body until the sufferer from this annoying ailment feels miserable and utterly cast down.

The itching, stinging sensations which accompany piles are bad enough. The search for cure, and thought of a surgical operation do not tend to cheer one up. Many get discouraged and allow their futures to be ruined by this wretched ailment.

It is so easy to relieve piles by the use of Dr. Chase's Ointment that it seems strange that anyone should neglect to give this treatment a thorough trial. If you could only read some of the letters from cured ones who had suffered ten, twenty or thirty years you would no longer doubt the effectiveness of Dr. Chase's Ointment in the relief and cure of piles.

Stray Shots From The Firing Line

To the soul-stirring music of military airs, the 57th Regiment, Peterborough Rangers, marched out last night for the first time this season. About two hundred men, headed by the Regimental Band and Bugle Corps and in command of Colonel Clegg, took part in the parade. The regiment left the armouries shortly after eight o'clock and marched down George street, returning by way of Water street to their quarters. Here, an hour's drill was indulged in, and the manner in which the different companies went through their manoeuvres indicated the keen interest and enthusiasm which the men are displaying in their endeavours to create a high standard of efficiency for the regiment.

New service caps were issued to the men last night. They differ from the old form, being made more after the style of the captain's cap with peak attached. The Rangers will no doubt welcome this innovation, as the new caps will afford better protection from the elements especially on hot, sunny days.

Headquarters,
Peterborough, April 16, '12.

Orders by the officer commanding, 57th Regiment, Peterborough Rangers—

The following are struck off the strength of the regiment: 'C' Co., April 9th, 1912—Corporal S. Anderson, Ptes. F. J. Clark, H. Elliott, E. Gosset, J. Lasure, J. Montgomery, C. Powell, R. Wiles, R. Webber. 'C' Co., April 16th, 1912—Ptes. R. Hendren, H. R. Laing, J. McGowan, H. Sullivan, H. Williamson. D. Walker, Adjutant.

Pte H Huntley has been transferred from 'C' Co to the Bugle Band.

The best shot badge for the 1911 drill has been awarded to Sergeant W. Mitchell, 'D' Co.

Slight alterations are discernable in the new uniform which were issued a short time ago. The old style heavy blue cuff with border of whitebraid has been discarded, as also the braid which formerly decorated the collar. Blue cloth collar and shoulder straps are about the only trimmings that find a place on the new outfit.

There was a large turnout of members of the signal corps last night. The ranks are almost full strength and a successful season's work is anticipated.

It is understood that Pte. M. Metheral of the signal corps has been promoted to the rank of sergeant. "Max" is an enthusiastic soldier and should make a valuable acquisition to the ranks, in his new position.

In common with the rest of the regiment, the signal corps received a new supply of uniforms and stuff caps. The latter will replace the forage cap.

It is pleasing to learn that the friction between the National Rifle Association and the Dominion Rifle Association, is for the present, at least, settled, so that the Ross rifle will after all this year, be admitted in the Bisley competitions. The Dominion Association have submitted designs of sight attachments for use on the Ross rifle. These were considered very favourably by the N. R. A.

The result is that this cable message has been received here a few days ago. The two methods of attachment submitted by the Birmingham Small Arms Company for use on the Ross rifle, mark II, double star at Bisley, are approved. This attachment will allow of the Ross rifle being used with almost every sight approved of by the N. R. A. The Bisley meeting is to be held from July 8th to July 20th.

THE EFFECTIVE LAXATIVE

Tastes Like and is Eaten Like Candy.

In our experience in the handling of drugs and medicines, we believe we have never had experience with any Remedy that gave such great satisfaction to our customers as to Rexall Orderlies. This Remedy is not like any other laxative or cathartic. It contains all the good features of other laxatives, but none of their faults.

Our own faith in Rexall Orderlies is so strong that we offer them to you with our own positive personal guarantee, that if they do not thoroughly satisfy you, you only need tell us and we will hand back to you every penny you paid us for them. Therefore in trying them upon our recommendation you take no risk whatever.

Rexall Orderlies tastes like and are eaten like candy. They do not gripe, cause nausea, excessive looseness, or any other annoyance. They act so easily that they may be taken at any time, day or night. They are particularly good for children, aged, or delicate persons. They are put up in convenient tablets in three sizes of packages. Prices, 10c., 25c., and 50c.

Remember, Rexall Remedies can be obtained in this community only at our store. The Rexall Store. McDermid and Bury

On and after June 1st, 1912, the current rate of wages for Bricklayers and Masons will be 45 cents per hour. James T. Parks, President; Wm. Stevens, Cor. Secy. 2d-91

GRACE JOHNSON as "Necia" in "The Barrier"

Miss Grace Johnson, who is appearing in the vivacious part of Necia in Rex Beach's charming drama of Alaskan life, "The Barrier," has had a large and varied experience in playing leading roles.

Miss Johnson made her debut playing minor roles in The Alcazar stock, at San Francisco, where some of our most prominent stars of today made their first appearance. After two seasons of stock grind, Miss Johnson sought to market her talent with some of the large producing managers of New York City, and in this effort, Miss Johnson was successful. One of her first New York engagements was an important role with Mary Mannering, in "The Wall of Jericho." Since then, Miss Johnson has supported Herbert Kelcey and Effie Shannon in "Bridges" and "The Thief".

Two seasons ago, Miss Johnson was chosen for the part of Claire Malotte in Rex Beach's "The Spoilers," and last season was assigned the leading role in William Brady's production of "The Man of the Hour."

This season, when the tour of The Barrier was being booked, Miss Johnson expressed her desire to play Necia, Rex Beach's heroine in The Barrier and was engaged immediately.

The part of Necia is ideally suited to an actress of Miss Johnson's temperament and ability, therefore the laurels she is wearing as the heroine are distinctly her own and reflect great credit upon her ability, and adds one more role to her already many successes.

"The Barrier" comes to The Grand next Saturday, April 20, for two performances. Special Bargain Matinee at 2.30. Seat Sale opens Thursday.

THE GOLDEN LION STORE

BEAUTIFULLY TAILORED SUITS $15.00

YOU WILL MAKE no mistake in selecting one of our Fifteen Dollar Tailored Suits for Spring. They contain the qualities of a much dearer suit, made up in the latest styles, and elegantly trimmed, and lined. It will surprise you how such excellent quality materials, and workmanship can possibly be put into a suit to sell at fifteen dollars. We have a large range of these from which to select, both in colours and styles.

Our showing of Higher Priced Suits and Coats has been considerably repleted during the last few days, and we are now able to show almost as large an assortment to select from as at the first of the season. Note these prices—

$15.50, $17.50,
$20.00, $23.75, $25.00
$27.50, $28.50, $31.00, $35.00

Factory, 709 Water street. — W. THEOBALD, Manager. 'Phone 1153. — The Peterborough Showcase Co., Peterborough.

PERSONAL AND SOCIAL

Supt. Lynch, of the G. T. R., spent the night in the city.

Mr. Frank Hughes, formerly of A. Haskill's barber shop, has gone to the Northwest.

Mrs. H. H. Tewsley, 699 George street, will not receive to-morrow (Thursday) nor again this season.

Rev. Dr. Langfeldt is one of the passengers on the Virginian, one of the vessels to answer the Titanic's call for aid.

Miss Gillespie, head trimmer for Robt. Fair & Co., has been spending the past two days in Toronto attending the wholesale millinery openings.

Mrs. Hermann S. McDuffee, 650 George st., will receive Thursday afternoon of this week, and afterwards on the second Thursday of each month.

Mr. Russell Henley left for Peterborough this morning, where he has accepted a position as monoline operator on the Peterborough Morning Times.—Lindsay Post.

The following are registered at the Oriental: Messrs E. W. Taylor, of Boston., W. B. Howard, of Detroit; H. D. Phillips, of Fort William; and L. B. Hartle, of Hamilton

Miss Madge Lees of Peterborough, has been engaged on the Norwood Public school staff to fill the position made vacant by the resignation of Miss Florence Foster.

A report in yesterday's despatches states that Mr. and Mrs. Frank P. Wood, formerly of Peterborough, were to have sailed on the Titanic from Southampton, but changed their plans at the last moment.

Mr. Herb McCannon returned from a trip to Prince Albert and other places in the west. He met a number of former Peterborough people and found them all flourishing. He predicts a big year for the west this year.

Mrs. A. Tate, who has been visiting her parents, Mr. and Mrs. W. V. Bell for the past five weeks, returned to her home in Moose Jaw to-day accompanied by her brother, Waru, who has accepted a lucrative position.

Mr. Sam. Wainwright returned home a few days ago from a trip to Calgary. Sam is satisfied to live in the east for the present. He states that, while everything is booming in the west, it costs about all a man would get to live and he will not have the conveniences that he would have in the east. When he went out—just as an example of how wages drop—he quoted the fact that he saw advertised, "Labourers wanted" at $2.50 per day. When he came east, owing to the influx of new comers that had arrived at Calgary, wages dropped to $1.50 per day. While thinking the west is a great country, Sam still prefers to live in the east for a while.

OBITUARY

WILLIAM TIGHE.

The death of Mr. William Tighe at Newcastle, on Wednesday, April 10th, removed one of Peterborough's residents in the olden days of a generation ago. He was born in Sligo, Ireland, 86 years ago, and when a boy of five years, he came to this country with his parents, settling in Peterborough. He was educated and brought up here, and at the time was well known. He was prominent in the Orange Order and was a member of St. John's church. When a young man, he went to Liskeard, where he resided 40 years and held the position of postmaster. Later he moved to Newcastle, where he spent the last 14 years. The late Mr. Tighe had been ill for some time. He is survived by his wife at Newcastle, and a sister, Mrs. Wm. Wilson, 428 Water street, and Mr. George Tighe at Sutton's Bay.

MRS. GEORGE FORBES.

Parry Sound, April 16.—An old resident of the township of Dummer passed away on April 16, 1912, at Parry Sound, in the person of Jane Bailing, the beloved wife of Mr. Geo. Forbes. The deceased was born in the township of Dummer in 1835, being the last of the ten children of John and Fannie Bailing. Mrs. Forbes was seventy-seven years two months and sixteen days old. For a number of years she lived at White Lake with her husband, who predeceased her two years ago. She was beloved by all who knew her. She leaves to mourn her loss four sons and one daughter, as follows: John Hugh and Francis Edward, of Orrville; George, of Alberta, and William and Mrs. Albert Bolton, of Parry Sound.

The deceased had lived with her daughter in Parry Sound for the past seven years.

The deceased had lived with her daughter in Parry Sound for the past seven years.

The funeral will take place on Thursday, April 18, from the residence of Mr. Albert Bolton, Parry Sound, via G. T. R. to Orrville.

Mrs. Forbes's many friends in Peterborough district will be grieved to learn of her death.

JAMES ALEXANDER PILLING.

A very sad death occurred this afternoon, when Mr. James Alexander Pilling of 188 Stewart street, passed away in Nicholls Hospital at the early age of twenty-five years.

The deceased was very well known throughout the city and especially in sporting circles. He was a member of Park street Athletic Club and for one season he pitched ball for the Norwood team. He had only been ill with pneumonia since last Thursday morning and his demise, therefore, came as a severe shock to his relatives and friends. He was born in Port Hope but had been a resident of Peterborough for the space of twelve years.

The late Mr. Pilling is survived by a sorrowing mother, one sister and five brothers, namely, Martha of Kingston, Walter at Port Hope, Edward, Jack, Robert and Ray at home.

The remains will be conveyed by the noon train on Saturday to Port Hope, where interment will take place

Shiloh's Cure
Quickly stops Coughs, Colds, Croup, Grippe, Bronchitis, Asthma and Whooping Cough. 25 cents, 50 cents and $1.00 a bottle

Mr. James Cralck of Port Hope, passed away on Monday. His son, Mr. W. Arnot Cralck occupies a prominent position in Canadian journalism

Dissolution of Partnership

NOTICE is hereby given that the Coal, Wood and Builders' Supplies business carried on, for the last ten years, under the partnership firm name of "R. HICKS & CO.," has been dissolved by mutual consent.

All accounts owing the late firm will be payable at the Office, 248 Murray Street, up to May 1st, and all accounts owing by the firm should be presented for payment before April 20th.

In connection with the above I wish to announce that I am taking over the retiring partner's interests and will continue the business, as heretofore, under my own name

R. HICKS.

THE WEATHER AND MAPLE SUGAR MAKING

The farmer who, under the influence of the soft spring weather of a day or two ago, declared that the season of maple sugar making was at an end for this year, reckoned without the capacity of the weather man to bring changes. Last night's frost and this morning's warmth set the sap to running briskly again, and a few days like this, and nights like last night will make a difference. However, it is practically impossible that there should be much sugar-making weather that can be depended upon, and they are fortunate who have secured, or bespoken, a supply of syrup or sugar.

Men's Furnishings That Are Different

Swell Cravats 25c to 75c
Spring Shirts 50c to $1.50
Soft Collars and Ties to Match 25c to 50c

OPPOSITE CUSTOM HOUSE

Referendum Possible.

Toronto, April 18.—That the Provincial Government may submit its proposal to abolish the treating system and the Oppositions proposal to abolish the bar to a referendum is declared to be a possibility. To handle temperance questions on their merits is the desire of the Government as frequently announced by Sir James Whitney. With its legislative and administrative record on temperance many Conservatives feel that their party has gone as far as the general public will support it. Hon. W. J. Hanna's enforcement of the liquor license law is held to be responsible for the disappearance of the temperance agitation that once convulsed the province. To test the opinion of the electorate as a whole by a referendum is declared to be not impracticable, in view of the notable precedent set by Sir George Ross.

The Opinion of Le Tempe.

Ottawa, April 18.—Le Temps, the French-Canadian organ here, commenting on the new policy regarding the use of French in Ontario public schools, says:

"After the fanatical utterances of Sir James Whitney's colleagues, after the Premier's own statements before the last elections, nothing else could be expected than such measures as this, inspired by that Orange fanaticism which appears to have such a strong grip on the Ontario Government."

ROLL OF THE SURVIVORS IS ALMOST COMPLETE

There is No Further Probability of Rescues From the "Titanic"--Number of Foreign Steerage Men Among Saved Seems to Show That There Was a Wild Stampede for Boats.

New York, April 18.—The roll of the saved from the Titanic disaster seems complete.

Practically every attending circumstance in the transmission of news from the Carpathia goes to show that only 328 of the 610 cabin passengers of the Titanic are safe on the rescue ship.

The 282 cabin passengers whose names have not appeared in the lists sent ashore Tuesday by wireless must probably be conceded as numbered among the 1,312 lives which the collision of the mammoth new steamer with an iceberg off the Newfoundland Banks Sunday night is believed to have taken.

Thousands of hopeful hearts were turned to despairing ones when the United States scout cruiser Chester wirelessed ashore late yesterday that she had been in communication with the Carpathia and had asked repeatedly for the full list of the first and second cabin survivors, and that the rescue ship reported that all the names had already been sent ashore.

The remainder of 340 persons saved were passengers in the steerage or members of the crew.

After the strain of three days' waiting without news of their missing ones, there were few of the hopeful that still held out against the seemingly final word as to the fate of friends and relatives.

The small remaining hopes of the persistently hopeful few among the relatives and friends of passengers rested last night on the faint possibility that the list of named survivors sent by wireless from the rescue ship Carpathia, might after all not be quite complete.

Judging by the number of names of foreign men in the list of survivors from the Titanic, it appears that British discipline may not have been able to hold in check the frantic rush of foreigners in the third-class and steerage to escape to the lifeboats.

The list as received by wireless from the Carpathia last night, while in it the names of women predominate, shows a significantly large percentage of men. Surprise was freely expressed that so many aliens should have survived while men of world-wide reputation have gone down with the steamer.

The accepted belief has been that, after the women and children were put aboard the boats, first cabin passengers would have somewhat of a preference over those of second and third-class quarters, but the Carpathia's messages showing survivors among the first cabin passengers indicate that only comparatively few men made their way to safety.

A well-known marine man said last night: "I am unable to understand why W. T. Stead, John Jacob Astor, Benjamin Guggenheim, G. D. Widener and Charles M. Hays perished while so many Russians, Poles and Macedonians and others, including one or two Chinamen, were taken aboard the lifeboats. It looks to me as if the officers were unable to stem the mad rush, and as though it were a veritable scramble for life."

From the Carpathia came a new report during yesterday as to the number of survivors on board.

Through the Cunarder Franconia, which established wireless communication with the rescue ship, came a message which included this statement:

"She has a total of 705 survivors aboard."

The previous statement from the Carpathia had been that she carried 868 survivors. It may be that the report received through the Franconia included a count of rescued passengers only, disregarding the 100 or more members of the crew, who must have been in the boats which the Carpathia picked up, their presence being necessary for the safety of the passengers.

More Canadians Lost.

London, April 18.—(C.A.P. Cable.)—John Sage, who came from Saskatchewan three months ago to fetch his wife and nine children, is believed to have perished with the whole family on the Titanic.

Another Canadian who probably lost his life is F. H. Marjery, Moosejaw, who, with his wife, was a third-class passenger. Mrs. Margery is reported last night among the saved.

Another of the Titanic victims is E. G. Crosby, a Canadian, living in Milwaukee. His wife was saved.

Austin Parner, another passenger, was a director of the Western Canada Investment Trust, and was traveling to Ottawa.

Parisian Captain Kept Mum.

Halifax, April 18.—The captain of the Parisian, which arrived yesterday, declined to make any comment on the loss of the Titanic other than to say the liner could not have been struck head-on, but sideways, inflicting much more terrible damage than the mere smashing in of the forward bulkheads.

It is a remarkable thing that the only men on the Parisian who knew of the accident to the Titanic were the captain and the Marconi operator. None of the officers besides these two and not a single passenger knew that the Titanic was lost till they entered Halifax harbor and learned the tragic news.

Iceberg 400 Feet High.

Washington, D.C., April 18.—The iceberg which caused the Titanic disaster was a giant, one-quarter to half a mile in length, rising 400 feet out of the water, according to the confident belief of Government marine officers, based upon reports just received here.

End of Family Quarrel.

Philadelphia, April 18.—Meyer Blank, 29 years old, shot and killed his mother-in-law, Mrs. Esther Wasserman, seriously injured his wife and then ended his own life at the home of his wife's parents in this city.

Mrs. Blank was holding a five-weeks old infant when she was shot. The young couple had been separated for some time.

Little Boy Identified.

Toronto, April 18.—The little 2½-year-old boy, who was found lying in the road at Dovercourt and Queen streets this morning, has been identified.

His name is Roy Brittle, of 1 Lisgar place. It is not yet known at the Hospital for Sick Children how he met with his accident, and he was taken home yesterday.

St. George's Banquet Postponed.

New York, April 18.—The regular banquet of the St. George Society that is held in this city every year on April 23 (St. George's Day) has been indefinitely postponed on account of the fact that so many members of the society have lost friends on board the Titanic.

Burglars Sent Down.

Brockville, April 18.—Esford Davis and Harold Nelson, two Gananoque young men, who burglarised the offices of the Ontario Wheel Works of that place recently, were given six months in the central prison by Judge Reynolds.

WIFE EXONERATED.

Jurors Say Berryman Alone Was to Blame For Death.

Kingston, April 18.—A jury empanelled by Coroner Mandell, found that George F. Berryman, Cushindall, came to his death as a result of blood-poisoning, arising from a slight wound on the forehead, which may have resulted from a scuffle, but that no one was to blame but himself.

Mrs. Berryman, his wife, told a shocking story about her husband's ill-temper toward herself and children. She had been compelled to stay out in the bush near her home, as he threatened to kill her.

Mrs. Berryman told of a row she had with her husband a week ago, when he was injured. He was drunk and had been drunk for many days. While at table, he picked up a butcher knife and made after her, saying "I'll cut your heart out and trample upon you," and made a rush at her.

Mrs. Berryman had a small teaspoon in her hand at the time and she threw it at him and ran out of the house and sought shelter in a barn. He was found on the floor by one of the neighbors with blood flowing from a wound in the forehead. Many witnesses told of his acting like a maniac when drinking. When sober he caused no trouble. Mrs. Berryman said for many years her life had been in danger.

Gamey Not Going.

Toronto, April 18.—Stress of business and the length of time that such an important exploration would necessitate, have caused R. R. Gamey, M.P.P. for Manitoulin, to abandon his proposed trip as head of the party that is to investigate the newly-annexed portions of the province and the route of the T. & N. O. Railway over the five-mile strip through Manitoba to Hudson Bay.

Sir James Whitney stated yesterday that the Government would have liked Mr. Gamey to lead the party, but he had found it unable to do so. The Prime Minister denied the truth of certain published statements that Mr. Gamey would not go north on account of differences between the Government and himself with regard to remuneration.

"The exploration party will be gone for probably five months," said Sir James, "and Mr. Gamey finds it impossible to remain away from his business for that length of time. The statement that he is not going because of differences between the Government and himself is absolutely untrue. The question of his remuneration never has been discussed by any member of the Government and himself and has not even been considered."

J. W. Tyrell, the eminent mining engineer, has been unofficially mentioned as a likely man for the position.

Little Girl Burned.

Toronto, April 18.—Nine-year-old Myrtle Winkworth was so badly burned about the body while playing around a bonfire in front of her mother's home near Windermere avenue, Monday afternoon, that she died at four o'clock yesterday afternoon. The little girl was the daughter of Mrs. Eva Winkworth, who is a widow with a large family.

The bonfire was almost out, when a spark set fire to the child's print dress. Myrtle's mother and older sisters were away at the time and could not be called. The girl's playmates were panic-stricken, and could think of no means to save their companion. A neighbor, Mrs. Coe, although an invalid, hurried from a nearby house and wrapped the child in an overcoat.

Dr. J. A. Whillans, of Park road, Swansea was hurriedly called and dressed the wounds, but assistance had come too late. The shock had been too severe, and the child, who bore up bravely though suffering terrible agony, died in great pain twenty-four hours later.

May Ride on Molasses Roads.

Washington, D.C., April 18.—The people of the United States may be riding over roads of molasses in the near future. The bureau of good roads is making experiments now here with a cheap grade of molasses, mixed with lime water as a dust-laying cover for roads. Logan W. Page, director of the bureau, said that in the best sugar country the cheap "black strap" molasses now destroyed as of no value, might be used in this road work.

TERMS OF DR. NESBITT

He Will Return if Only Forgery Charge is Prosecuted

NO AGREEMENT REACHED

Toronto, April 18.—Extradition depositions were completed upon at least three charges against Dr. Beattie Nesbitt, before Provincial Magistrate Joseph E. Rogers, at the Attorney-General's Department yesterday. These were the original charge of forgery, which has been amended, and upon two other charges in connection with the funds of the defunct Farmers' Bank. Just what is the nature of these latter two charges will be made known by Magistrate Rogers this afternoon. It is understood that they are in connection with alleged thefts from the funds of the bank.

At the close of the hearing, H. H. Dewart, K.C., counsel for the doctor, was closeted in conference with Acting Attorney-General Sir James Whitney, Deputy Attorney-General Cartwright and Magistrate Rogers. The conference concerned a proposition put by Mr. Dewart in a letter to the Deputy Attorney-General, in which he offered to have Dr. Nesbitt return provided he was not called upon to face more than the original charge of forgery, but with the understanding that should the crown desire to press further charges, it might be done if the doctor were allowed a chance to return to Chicago.

In the letter Mr. Dewart said he was "renewing" a previous proposal made before the taking of evidence was begun to have the doctor waive extradition. He pointed out that the doctor's return would allow of his being called as a witness before the royal commission now investigating the affairs of the Farmers' Bank. The fact has already been published that negotiations were on foot before his arrest to have him come back under the protection of this commission, to give evidence before it. It is said that it was by tracing the correspondence in this connection that the police were enabled to locate the doctor in Chicago. The fact that they believed that they would be able to do so, led to the breaking off of these negotiations and to the long adjournment of the sittings of the commission to allow them to effect the arrest.

Inspector Rogers said last night that the parties at the conference were unable to arrive at an agreement, and that the conference was finally concluded with matters at the same point as when it was opened. It is none the less confidently declared by men closely in touch with the situation that Dr. Nesbitt will return to the city to face any and all charges against him.

Slashed His Throat.

Toronto, April 18.—Thomas Hamilton, 46 Claremont street, made an unsuccessful attempt to commit suicide early yesterday morning by gashing his throat with a razor in the presence of his wife. After being attended by Dr. Eadie he was removed in the police ambulance to the Western Hospital.

Before slashing his throat he is said to have told his wife that he was tired of life. Hamilton and his family arrived from Scotland about three months ago.

Love-Lorn Aviator Suicides.

Versailles, France, April 18—Friends of Verrept, the Belgian aviator, now express the opinion that he committed suicide. He had, Tuesday, they say, had a dispute with his fiance, to whom he swore that he would kill himself.

Observers of his flight say they saw Verrept throw his arms up and the aeroplane, then left to itself, crashed 600 feet to the ground. The machine was found in perfect working order. He was 23 years of age.

Toronto Man Unionist Candidate.

London, April 18.—(C.A.P. Cable.)—Harry Symons, K.C., of Toronto, has been adopted as the prospective Unionist candidate for Walthamstow division, in opposition to Sir G. Simon, who is Solicitor-General.

Mr. Symons is president of the National Agency Co., and lives at 98 Madison avenue.

Morgan is Popular With Royalty.

Florence, Italy, April 18.—J. Pierpont Morgan yesterday received, on the occasion of his 75th birthday, an avalanche of telegrams and letters of congratulation from all parts of the world.

The messages include several from European sovereigns and rulers.

NUGENT'S SARSAPARILLA

Price, large bottle, 100 full doses 50c and well worth it too. It's better to take no medicine at all than to depend upon cheap concoctions that are compounded to sell at a low price and a big profit just because there is a large demand for certain remedies at certain seasons of the year.

There are so-called Sarsaparillas offered to us to sell to our customers at 75c a bottle that would bring us a larger profit than Nugent's Sarsaparilla sold at 50c.

Nugent's Sarsaparilla purifies the blood, arouses the torpid liver, drives out all impurities, cleanses and tones up the system, and helps nature throw off the dullness that comes from the indoor life of winter. It arouses energy, brightens the eye, clears the brain, gives lightness to the movements.

Nugent's Sarsaparilla is not the only thing you will find in this drug store. We make a specialty of Nugent's remedies.

SEVEN YEARS OF MISERY

How Mrs. Bethune was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Sikeston, Mo. — "For seven years I suffered everything. I was in bed for four or five days at a time every month, and so weak I could hardly walk. I had cramps, backache and headache, and was so nervous and weak that I dreaded to see anyone or have anyone move in the room. The doctors gave me medicine to ease me at those times, and said that I ought to have an operation. I would not listen to that, and when a friend of my husband's told him about Lydia E. Pinkham's Vegetable Compound and what it had done for his wife, I was willing to take it. Now I look the picture of health and feel like it, too. I can do all my own housework, work in the garden and entertain company and enjoy them, and can walk as far as any ordinary woman, any day in the week. I wish I could talk to every suffering woman and girl, and tell them what Lydia E. Pinkham's Vegetable Compound has done for me."—Mrs. DEMA BETHUNE, Sikeston, Mo.

Remember, the remedy which did this was Lydia E. Pinkham's Vegetable Compound.

It has helped thousands of women who have been troubled with displacements, inflammation, ulceration, tumors, irregularities, periodic pains, backache, that bearing down feeling, indigestion, and nervous prostration, after all other means have failed. Why don't you try it?

A Fortune For a Dance

Spirited Bidding For a Partner at a Charity Ball

By HENRIETTA DEERING

During the first half of the nineteenth century, when the patriarchal or plantation system existed in the southern states, there were three distinct classes—the planters, the poor whites and the negro slaves. It is questionable if the negro's condition was not preferable to that of the poor white.

Colonel Richard Runlet of Virginia was kind to his slaves, and both he and all his family were greatly interested in charity.

A neighboring planter, Oliver Desborough, having had bad luck for several years in succession with his tobacco crop, found himself in pecuniary difficulties. Colonel Runlet assisted him, and when Desborough was sold out under foreclosure of mortgage the colonel bought his plantation and his negroes, paying for them a higher price than he was compelled to pay. But when he discovered that there was a love affair between Desborough's only son, Lawrence, and his own daughter, Constance, he gave the young girl to understand that no union could take place between the two families on account of the Desboroughs' impoverished condition.

Constance was but seventeen and Lawrence twenty. She was too young to defy her father, and her lover had little on which to live, to say nothing of taking care of a wife. Besides, he was an ambitious young man and scorned the idea of remaining in a region where the wealth was inherited, not made, and where he must inevitably be always considered a "poor white." It nearly broke his and the girl's hearts to part, but part they did, he going north to carve out a career.

Lawrence Desborough disappeared from the south in the middle of the century. Out of the wreck of the family fortune his father gave him $1,000, saying: "My boy, you are young and strong and smart. Use this money to advantage, and some day when you have succeeded come back here and buy back the plantation and those negroes who may not have left it." Lawrence bade his parents goodby, and it was a long while before he saw his home again.

Colonel Runlet was one of the few planters who emerged from the war with their plantations intact, though a number of his slaves had drifted elsewhere. The majority, however, remained to work for him for what he could afford to give them. The old plantation life had passed away, and even the colonel, though better off than most of his neighbors, found it difficult to maintain himself. His former gifts to charity could not be continued, but the women of his family worked for the benefit of the poor in those ways to which their sex is peculiarly adapted, getting up fairs and amusements for the purpose of raising money. Constance, now twenty-seven years old and very attractive, was foremost in all such efforts and was worshiped not only by those whom she assisted, but by those who worked with her.

During the winter after the close of the war there was so much misery not only among the lower classes, but among many who lived in affluence, that Constance asked her father's permission to give a masked ball for charity. He consented at once, and every preparation was made to give eclat to the occasion. Since the work to be done was far beyond Constance's single powers she invited a number of her friends to become her assistants. The staff was divided into committees, one of which was to search for unique customs which might be introduced at the ball.

Among the recommendations made by this committee was one that one of the members had read of in a Spanish book. In Granada there was or had been a custom at balls given for the purpose of raising money wherein the privilege of the first dance with any lady was sold to the man who would pay the highest price for it. The committee arranged that those ladies who would permit the privilege of this dance with them to be sold should be auctioned off before the dancing began. About a dozen prominent young ladies consented, among them the hostess, Constance Runlet.

The costumes were of home manufacture, for there was no money with which to buy them. But such labor tends to make the object for which it is undertaken, the more enjoyable. Antebellum wardrobes were ransacked, and every available bit of finery that had been stowed away in the south's halcyon period was brought out to be turned into dresses for queens, princesses and other historical characters for the women, and kings and noblemen for the men. When the influx of guests had ceased there was a flourish by the orchestra (improvised negro musicians), and the throng made its way to the dancing hall, where the auction for partners was to take place. Colonel Runlet's house was one of those colonial Virginia mansions in which a ballroom was indispensable. In this case the whole of the top story was devoted to it. At one end was a dais, on which stood the auctioneer. The ladies whose partnership for the opening dance was to be auctioned mingled with the crowd.

The committee had desired to make a first sale of the hand of Constance Runlet, but Constance would only consent that her turn should be the last instead of first. This was considered a mistake by the committee, for they believed that much of the money to be devoted to the purpose would have been spent, and since Constance was considered the prize of the evening if they began with her they thought they could excite a bidding that would draw forth a goodly sum.

Every young man of that region of the slightest means had been invited, and all were present. There were no northerners, for this was too near to the war to admit of fraternization with the enemy, but every southern man of respectability within fifty miles, rich or poor, had assembled, some of them suitors for one of the young ladies to be auctioned, not only for the dance, but in marriage.

When the hand of Constance was put up some one started it at $50. A man dressed as Mephistopheles made a second bid of a hundred dollars. A third person offered a hundred and fifty. Mephistopheles astonished every one now by bidding $500. Here the bidding ceased for awhile, but the auctioneer did not make the sale. It had been arranged that a number of married men, in order to be ready to stimulate the bidding in Miss Runlet's case, should form a pool to be put in one man's hands to be used for this purpose. Presently a man in Louis XV. costume raised the last bid to $700. Mephistopheles made it a thousand.

Now a wealthy widower was in the pool, who had long wished to marry Constance, and the bidding of the fund had been placed in his hands. He doubled Mephistopheles' bid. The latter raised his a thousand, making the amount offered $3,000. Louis XV. and Mephistopheles from this point continued to bid against each other till finally the latter offered $10,000.

By this time the bidders interested everybody; but, being masked, no one knew who they were. Cries of "Unmask!" were raised, and finally, after consultation with others who had made up the pool, Louis XV. raised his mask. Mephistopheles remained concealed. This only tended to increase the excitement.

Louis XV. was recognized as General Bernard, who had distinguished himself on the Confederate side during the war. He was fifty years old, well off and considered a desirable partner for a woman over twenty-five years old. He had been spoken of in connection with Constance, and his appearing in this role was received with intense interest. Since Mephistopheles continued to bid the general did the same. Finally, when the amount offered reached $20,000, after a conference among the members of the pool Colonel Runlet approached Mephistopheles and asked him who he was.

"Incognito," replied the other.

"I must request you, sir, to give some evidence of your ability to make good your bid in case you are accorded the privilege for which you are contending."

Mephistopheles thrust his hand into a pocket of his doublet and took out a certified check for $100,000 on a bank in the nearest city. The colonel withdrew and reported what he had seen. Then the bidding continued.

General Bernard continued to raise his bid $1,000 at every turn, but Mephistopheles continued to go a thousand higher. Since the latter seemed determined to win at any cost the general kept raising him till Mephistopheles had bid $50,000. Then the general nodded to the auctioneer, signifying that he did not care to go any further in egging on his opponent. The amount he had gained for the poor was quite enough and had not cost him a cent.

Then a cry arose for Mephistopheles to unmask.

"Not without Miss Runlet's order," he said.

Constance advanced and requested him to make himself known.

He threw off his cape, then his doublet, revealing the uniform of a United States army officer, with the silver leaf of lieutenant colonel on his shoulders. Then, casting aside his mask, he stood revealed to all as a middle aged stranger whom no guest recognized. Constance gave a cry of joy, and he took her in his arms.

Lawrence Desborough had gone north and had become a northern man. The Colorado gold fever at that time occupied the attention of the nation, and, putting his money into what miners needed, he sailed around the Horn and sold his stock at an enormous profit. As a commission merchant he had accumulated capital which he invested in mining property. When the war broke out he volunteered in the Federal army. Before the surrender one of his mines had made him very rich. As soon as he learned of this he came to claim his former love.

His appearance in United States uniform produced a commotion. Many felt bitter toward him as a southerner who had fought against the south, but he had given $50,000 to the poor in and about his former home, and this tended to alleviate the prejudice against him.

The music struck up for the first dance, a quadrille, and Lawrence Desborough and Constance Runlet danced it together, he displaying on his shoulders the insignia of a Federal officer, the only such present.

In time he bought back the plantation of his ancestors and established in it his parents, who were now old persons. He married Colonel Runlet's daughter, but since he had become northernized he took her to the more active field to be found in the northern states.

The Crookedest Thing.

The crookedest thing in the world, my boy,
You can see it in the dark.
It represents power, and it brings great joy.
It's the plain old $ mark.
—Cincinnati Enquirer.

A Bad Outlook.

"No. I can't get up enough courage to ask old Patterson for his daughter."

"And why not?"

"Because I'm a builder of absolutely fireproof buildings and he is a fire insurance agent."—Cleveland Plain Dealer.

Lucky R. Crusoe.

Sometimes I think I envy
R. Crusoe, for they say
He had a first class servant
Who couldn't get away.
—Buffalo News.

Perfection in Dress.

"Do you think it is becoming?" she asks, appearing in her newest gown.

"Don't bother about that," gushes the friend. "It is perfect. It is simply delicious. My dear, it makes you look absolutely helpless."—Judge's Library.

The Race.

Though yesterday may leave a trace
Of anger and regret,
Tomorrow's always in the race
And is your one best bet.
—Washington Star.

According to Precedent.

A Philadelphia druggist who advanced a tramp $1 several years ago has just inherited from that worthy $167,000. Traditional drug store profit!—Buffalo Express.

The Wedding.

Organ working every swell!
What a lot of style!
Mercy, how those choir boys yell!
Can't they clear the aisle?

Goodness, here's the bridal line!
See those women leap!
Ain't th' little flower girls fine?
My, they scarcely creep!

See 'em scrambling on the pews!
Hear the satins rip!
Goodness, how they clutch and bruise!
See that woman slip!

Cushions mangled in the rout,
Tempers on the rise—
Weddings seem a lively bout
When they're done in style.
—Cleveland Plain Dealer.

The First Meeting.

"I am to meet the duke at the dock."

"But he has never seen you, girl."

"For means of identification he is to wear a red carnation and I am to carry a million dollars in my left hand."—Washington Herald.

The Bright Side.

Nebuchadnezzar was lunching in his accustomed style.

"All flesh being grass," he reflected, "this must be beef a la mowed."

And, chuckling hoarsely, he took another chaw.—Puck.

Pass It Along

The new breakfast food—

Post Tavern Special

—first served exclusively at the Post Tavern in Battle Creek, a hotel noted for its excellent table, is now made in Canada and supplied for home use.

This food combines the delicate field flavors of wheat, corn and rice, and is easily cooked and served hot as a porridge.

Have some Post Tavern Special for tomorrow's breakfast and you'll probably have it again, and again—

The Try Tells Why

Made by Canadian Postum Cereal Co., Ltd., Pure Food Factories, Windsor, Ontario, Canada

Public Schools.

The original attempt for the creation of public schools was made in 529, the idea having been recommended by the council of Vaison.

Bridge of Sighs.

The Bridge of Sighs, at Venice, was constructed in 1589.

Teetotalers.

There was a remarkable reformation of drunkards in England during 1834. They adopted at Manchester the total abstinence pledge and were called teetotalers from the stuttering of one of their number, who stammered at the "t" (tee-tee-total) while uttering the terms "total abstinence."

Wooden Guns.

The first guns were made of wood and originated in France.

Drowned in Drink.

Attila, chief of the Huns, drank so freely of honey and water on his wedding day in 453 that he died of suffocation.

Cicero.

Cicero was the first to be named the "father of his country." When he overthrew the conspiracy of Catiline the Roman senate conferred that title upon him.

The Parachute.

The parachute was first used Aug. 27, 1783, by Francois Blanchard.

A Fine Custom.

It has long been the custom in the Amoy section of China for returning Chinese who have become wealthy during their absence abroad to construct at their own expense some useful public improvement in their native city and present the completed work to the people.

Australia.

There are six states in the commonwealth of Australia—New South Wales, Victoria, Queensland, South Australia, Tasmania and Western Australia.

Palpitation of the Heart.

Nervous Prostration, Sleeplessness and Dizzy Spells.

A Long Standing Case Cured By MILBURN'S HEART AND NERVE PILLS.

Many people are kept in a state of morbid fear of death, become weak, worn, and miserable, their nerves become unstrung, and they cannot sleep.

To all such sufferers Milburn's Heart and Nerve Pills will give prompt and permanent relief. Mr. Peter Halstad, Tilley, Alta., writes:—"I take great pleasure in writing you a few lines to tell you what your Heart and Nerve Pills have done for me. I had a long standing case of palpitation of the heart, nervous prostration, sleeplessness and dizzy spells. I bought a box of Milburn's Heart and Nerve Pills, and they did me so much good I continued their use until I had used several boxes, and they restored me to health again. They are a great remedy, and I recommend them to all my friends."

Price 50 cents per box, or 3 boxes for $1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

THE IMPERIAL LIFE

Assurance Co. of Canada

THE FIRST REQUISITE

OF LIFE INSURANCE is absolute safety. That the Government Deposit maintained by The Imperial Life is almost five times the amount required by law, and that the Company's reserves for the protection of policyholders are about ten per cent, in excess of those called for under the Insurance Act, form noteworthy evidence that the aim of the management is to afford

Absolute Security To Policyholders.

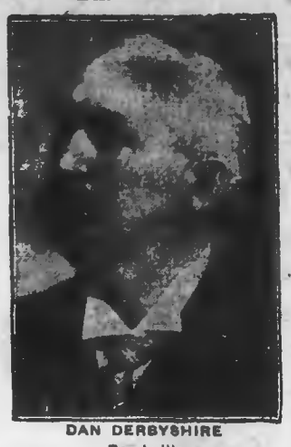
NEW POLAR FOOD

Manufactured From Pure Blades of Arctic Moss

Mining engineers and prospectors along the Peel and Mackenzie Rivers on the Arctic Ocean Slope, discovered a new breakfast food in the Arctic moss abundant there. Thousands of square miles of moss await either consumption by settlers and their pack animals or conservation for future generations by Canadian Pinchots. James East, a mining expert, noticed that dogs were fond of the moss which grows prolifically in that region. His tests showed it contains sustenance for man and beast.

For dogs he made cakes of moss mixed with lard and caribou tallow. Dogs ate the cakes eagerly and thrived. The miners then tried it and subsisted chiefly on the moss. Other prospectors learned of the new food with joy and began using it.

Mr. East named the new food Mossolyte. If conservationists do not prevent it, it is intended to produce reindeer along the Arctic slope to help consume the great moss supply.



DAN DERBYSHIRE
Brockville

One of the best known dairy authorities in Canada.

Better than the Sun

Before OMO the only way was to spread the clothes on the grass exposed to the sun. Now OMO cleanses thoroughly, bleaches and purifies better than the sun can do it. It has the bleaching and purifying properties of fresh country air for linens and all white things. Harms neither hands nor clothes.

No rubbing. Directions are easy. Works quickly. Coffee, tea, cocoa, fruit and other stains disappear like magic.

Ask your grocer for OMO 10c.

Pugsley, Dingman & Co. Limited, Toronto

Patrick Once More

A traveller who dropped into a North Ontario town vouches for the following: As the "Sudbury to the Soo" train was on its way west the other day a certain judge came aboard, and finding all the seats occupied, finally sat down beside an Irishman who was seated just in front of the judge, who got into conversation with the Irishman, and soon discovered that he had only been in Canada for about two years. His Honor was full of praise for Canada and especially of Northern Ontario. The Irishman listened to the glowing description for some time, but finally became restive and remarked that Canada might be a pretty good place but could in no wise compare with Ireland. To this His Honor objected, and to strengthen his argument said: "Now Pat, you know very well that you would be in Ireland many and many a long year before you would ever have the privilege of sitting with a judge." Pat was fairly bowled out for a minute, but with an Irish ready wit replied: "True for you, yer Honor; but sure now, yer Honor would be in Ireland many and many a long year before ye'd be a judge."

TO ESCAPE APPENDICITIS

An Exercise Commended by a Well Known Physician

A simple way to prevent appendicitis was recently described by a well-known physician. Every night and morning, he advised, go on your knees, bend backward until you sit on your heels, and, at the same time, bend the upper part of your body forward as far as possible. Do this six to ten times.

You may vary the exercise by standing with heels together and toes pointing straight forward, and then stooping into a sitting posture until the knees touch the chest. Do this also six or eight times slowly.

The effect is to stir up the intestine in the neighborhood of the vermiform appendix, and to keep it free from the obstruction which is the primary cause of appendicitis.

CONTRACTED HEAVY COLD

Was In Bed Two Months.

OCTORS DID NOT SEEM TO DO HER ANY GOOD.

A cold, however slight, should never be neglected, for if it is not treated in time it will, in all possibility, lead to bronchitis, pneumonia, asthma, or some other serious throat or lung troubles.

Dr. Wood's Norway Pine Syrup contains the lung healing virtues of the Norway Pine tree, which, combined with other absorbent, expectorant and soothing medicines, makes it without a doubt the best remedy for all coughs and colds.

Miss N. McCumber, St. Martin's N.B., writes:—"In January last I contracted a heavy cold which kept me in bed nearly two months, and the doctors didn't seem to be able to do me any good. I tried several proprietary medicines, but all in vain. One day a friend advised me to try Dr. Wood's Norway Pine Syrup, and when I had taken three bottles I was completely cured, and I feel as well to-day as I ever did, and I am sure my lungs are once more sound, thanks to that wonderful remedy."

Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper, three pine trees the trade mark; price 25 cents.

Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

IS SHE FAKING?

Doctors Become Suspicious of Blanche David's Performance

The hospitals in Montreal are growing a little suspicious of Blanche David, the imitator of the fat boy in Pickwick, Rip Van Winkle, the sleeping beauty, and other long distance slumberers. They are thinking that Blanche does her soporific act as a means of securing board and lodging for a time. Blanche has been picked up apparently asleep, no fewer than twelve times, the cause of her slumber on each occasion being the lulling languor of the Montreal street cars. At one time she used to visit the land of Nod in the neighborhood of the general hospital, but after several of her visits the authorities there took to plunging her in cold water as a means of reviving her.

Now she does her Rip Van Winkle stunt near the Western hospital, where she was taken recently after being discovered in a street car. The doctors there noticed that she has added a new phase to her sleeping performances. Now she goes through a sleep walking act that all those aspiring to play the part of Lady McBeth would do well to observe.

Blanche generally wanders out of her little cot around meal times and the regularity of her trips was the thing that made the doctors suspicious that her sleep was not all it seemed. They also noticed that on one occasion she even put her coat and hat on with her eyes shut. One doctor said that as she had done this without the aid of a glass, even if she lost her fame as the premier snoozer of Canada, she would still be a very remarkable woman.

Anyway, as Blanche did not make up her mind to come to, the Western hospital doctors threatened to try the general hospital method of reviving her. They only had to talk about it in loud tones close to her cot, and with a yawn she awoke and soon afterwards left the institution.

MEN OF NERVE

Most Structural Steel Workers Are of Irish Blood

It is a curious fact that most of the structural steel workers engaged on various huge structures in Canadian cities are of Irish blood. In fact, the Irish and Swedes, or "square heads," as they are called, have almost a monopoly of this dangerous trade. The Irish will take more chances than the men of any other nationality, but the Swedes are not far behind, and how they divide the honors was illustrated recently. Two steel columns for the top storeys of a skyscraper had just been set in place at the corners, and stood starkly up fifty feet above the nearest cross girder. Each column was about eight inches square. When the news spread that a photographer was about to take a picture of them, two workmen "shinned" up the columns and stood on the top. The man at one corner was an Irishman, the other was a Swede. Sometimes these structural ironworkers lose their nerve. Why it happens, or how, they do not know; but sometimes a sudden panic will overwhelm a man. Then, if he knows his business, he will shout for help, for he cannot help himself. Now and then a man gets a mad desire to hurl himself from the roof, and if he is not restrained he will go as surely as though a great magnet were drawing him down to the earth. Oddly enough, one terrible fright rarely causes a man to give up the business. He gets back his nerve in a few days and becomes as daring as ever. It is said that an ironworker who goes to a new job when a building is already high in the air has not the nerve of a man who has been on the building from the ground up. Accidents are more likely to occur while the first few storeys are under construction than later on, for the men take more chances, forgetting that a 40-foot fall is about as deadly as one twice as long.

BRAVERY REWARDED

Two Mitchell Boy Scouts to Receive Scrolls for Life-saving

Scrolls of honor of the Canadian Boy Scouts, signed by the Duke of Connaught as chief scout, were forwarded for presentation to Harry Coppin and Ira Hughey, of Mitchell. The former was one of a group of boys who went swimming in a pond. Lorne Hutchison got beyond his depth, and had gone under four times before Coppin reached him. Ira Hughey rescued a little girl from drowning.

BIRDS' NESTS IN STRANGE PLACES

Birds choose some remarkable places in which to build their nests. Of all our birds, the cunning and domesticated robin has perhaps the keenest eye for ready-made sites. Last year a robin built his nest in a flower-pot in a garden. It was close to a footpath where people were constantly passing, yet robin showed no fear. Many other instances are told on good authority of strange building places. An instance is on record where a pigeon built a nest and hatched young in a corner of a dressing-table which was used daily. Two robins, although evicted twice, succeeded at the third attempt in completing a nest in a magic-lantern. They obtained entrance to a room through a ventilator. Nests have also been found in pillar-boxes, scarecrows and limekilns.

The Healthiest Capital

London is the healthiest capital in Europe.

Lost Control Of His Temper

Once there was a man whose liver was not working right. When dressing in the morning he had trouble with his collar. Then he lost the collar button. Then he said something.

By the time he got to breakfast he was so irritated that he had no appetite and quarrelled with his wife. He went to the office with a headache and when he had some important business to transact he bungled it.

When you find yourself easily irritated and lose control of yourself and your temper, look to the condition of the liver, and take one of Dr. Chase's Kidney-Liver Pills at bedtime.

The dark-brown taste will not bother you in the mornings, the tongue will clear up, digestion will improve and you will not have the tired, worn-out feelings which accompany a sluggish condition of the liver.

OFF FOR CANADA

Some Typical Families Who Have Come to This Country

A London exchange gives the following typical cases of families who have gone to Canada:

Married couple with two children. The man, strong and healthy, thirty-five years old, has been a farmer in Derbyshire.

Doctor and son. Both are going out to farm and practice as well. The son is a surgeon. Explanation: "Can't stand the Insurance Act."

Married couple with ten children (Oxfordshire). The husband was a dairyman and farmer, and has a capital of $2,000. Is leaving England because he "can't make both ends meet."

Man and wife and four children (Somerset). He is a saddler. His employer is now out of the business. There is no work for him here, so he has saved up his passage money. "It's the children I am thinking of," he says, "there is no future for the next generation here."

"The best people seem to be leaving," said a representative of the Victorian Emigration Department.

Among those for whom we have booked passages are:—

Farmer settlers (capital of $500 to $5,000).

Farm workers.

Artisans.

Workers in the building and iron trades.

Domestic servants.

Cabinet makers.

"A striking feature is the number of business men who are emigrating; they say that they find competition too keen. Two middle-men in the coal business booked their passages."

OLD LADY LIKED PIPE

An elderly woman was entering a compartment of a train at a London suburb when one of the men in the compartment said: "This is a smoker." The old woman, however took her seat, saying: "I'm a smoker myself." She explained that she had smoked for fifteen years and acquired the habit when she was in a hospital. A doctor having advised her that the only cure for her complaint was to smoke. "I would rather go to bed without my supper than without my smoke," she added. As soon as the train had left the station she took out pipe and tobacco and smoked with evident enjoyment.

A LONG BETROTHAL

English Couple Married After a Courtship of Forty Years

After nearly forty years of mutual devotion Mr. Thomas Matthews and Miss Ann Parkins have just been married at the Congregational Church at Riddings, near Alfreton, Derbyshire, to which they have walked a mile every Sunday to worship for over thirty years.

The cause of the prolonged courtship is stated to have been a pledge given by the bride to her dying mother to look after an afflicted brother. The brother died a short time ago, and at about the same time Mr. Parkin, the bride's father, a farmer well known in the district, also died. With none of her family to claim her care, Miss Parkin felt herself at liberty to consider her own feelings and marry her fiance. Mr. and Mrs. Matthews, are aged fifty-four and fifty-three respectively, and have been lovers since childhood.

COUNT EULENBERG

A bet between a Parisian and a Prussian as to who is the most decorated man in the world has brought out the fact that this honor belongs to Count Eulenberg, the Grand Marshal. The Emperor William has many decorations but not as many as Count Eulenberg, who has seventy-five. Czar Ferdinand of Bulgaria was the last to have decorated Eulenberg. He gave him the seventy-fifth grand cross. People thought former Chancellor von Buelow had the most decorations. As a matter of fact he has only forty.

TOO MANY HARICOTS

Paris Schoolboys go on Strike to Protest Against Bean Diet

A surfeit of haricot beans and dried peas drove the pupils of the State school of commercial studies in Paris to go out on strike.

They were all packed off home as a result. As the fees amount to nearly $500 a year, or more than in any other State school in Paris, the pupils decided that they had a right to better food. An incident was provoked by a pupil taking his plate to the headmaster in order to show against what they were protesting. He was punished, and his comrades became mutinous.

Their working blouses were heaped in a courtyard and set on fire, whilst most of the windows were broken.

The school authorities say the allegations of bad food and negligent treatment are ridiculous.

ASTHMA

Mrs. Farndel of Clementsport, N. S., Suffered All Her Life From Asthma, But Was Permanently Cured by Catarrhozone After All Other Means Failed.

Mrs. Farndel gives the following statement of her case for the benefit of others who are suffering from asthma, and hopes that many will follow her example and use Catarrhozone:—

"I am now in my eightieth year, and cannot recall the time when I was free from asthma. I had always a choking cough, feverishness, spasms, difficulty in breathing, headache and sleeplessness. My druggist advised Catarrhozone one day, and I bought a small outfit. It gave relief in five minutes, and helped me very much in one day.

"I inhaled Catarrhozone ten minutes every hour, and by the time two bottles were used I was completely cured. I am as free now from asthma as if I never had it. My perfect recovery is due entirely to Catarrhozone. I prize my Catarrhozone inhaler next to life itself."

Catarrhozone

Relieves at Once—Prevents and Cures Quickly.

For the nose, throat, lungs and bronchial tubes. Catarrhozone is unrivalled. Try it yourself—both pleasant and safe. Two months' treatment guaranteed to cure; price $1, medium size, 50 cents, small (trial) size, 25 cents, at all dealers.

IN JUST FIVE MONTHS

WYETH'S SAGE AND SULPHUR HAIR REMEDY

Grew a Full Growth of Hair on a Bald Head

Here's the Proof

For two or three years my hair had been falling out and getting quite thin, until the top of my head was entirely bald. About four months ago I commenced using Sage and Sulphur. The first bottle seemed to do some good and I kept using it regularly, until now I have used four bottles. The whole top of my head is now fairly covered with hair and it keeps coming in thicker. I shall keep on using it a while longer, as I notice a constant improvement.

STEPHEN BACON,

HOW BARTLETT BECAME "WOUNDED KNEE"

MARSHAL and His Posse Had Pitched Battle with Exelby's Horse Thieves, Which Was Followed by a Thrilling Man Hunt and an Abundance of Gun Play

CAPTAIN GEORGE BARTLETT, known among the Sioux as Scout Haste and "Wounded Knee," has had a career that bristles with excitement and adventure. Born in New Haven in 1856, he went into the West when he was seventeen and drifted with the spread of migration beyond the Mississippi toward the Northwest in the 70's. He became an expert "gun man," a scout, an Indian fighter and a Deputy United States Marshal in a part of the country but newly opened and frequented by desperadoes of all kinds. He it was who broke up one of the most dangerous bands of horse thieves that ever infested a Western region. He has been induced to tell the story of that exploit, stranger and more thrilling than any fiction.

(Copyright, 1911, by the New York Herald Co. All rights reserved.)

GEORGE E. BARTLETT. "Wounded Knee."

THAT doughty Sioux warrior Ta Sun Ke Ko Kipapi Hoksilau was clearly predestined to calamity. Having been so unfortunate as to draw down such an appellation, which means "Young Man Afraid of His Horses," he managed to get right in the way of Exelby's outfit of horse thieves while those gentlemen were making a business trip north of the Black Hills, in Montana. As a result of this carelessness he lost the horses of which he was so fearful, he was forced to give over his buffalo hunt on the Grand River, and he came back to the Pine Ridge agency a sadder and a poorer man.

This was in the winter of 1883, and it was not the first that the authorities had heard of the doings of the Exelby outfit. The region under the Black Hills, where Wyoming and Montana nestled up against Dakota, then undivided, was the favored resort of this band and others in the same line of industry. The authorities were quite familiar with the name of the outfit and its record, and when the unhappy Sioux warrior aforesaid entered his protest they decided that the time had come to make personal acquaintance with it. The agent at Pine Ridge forwarded the facts to Deadwood and presently Captain George Bartlett, Deputy United States Marshal for Dakota, was ordered to take the field and attempt the introduction.

Bartlett, knowing his quarry, sent word to the sheriffs along the line of the Northern Pacific, giving a description of each of the members of the band and furnishing those illuminating details as to habit, speech and method which serve man trackers better than photographs. The process bore fruit in season in the shape of a telegram from Miles City, Mont., giving notice of the capture at that place of Jesse Pruden, an Exelby horse thief. Bartlett telegraphed back to hold Pruden until the arrival of a special deputy, who would escort the captive to Deadwood.

It was a hard winter and a cross country jaunt in the snow was no pleasure excursion. Bartlett chose his deputy with care, singling out a husky Dakotan, Joe R——, with an eye to his physical fitness for the task. Joe R—— proved himself quite equal to the immediate matter, for on his arrival at Miles City he developed unexpected detective ability, which had not been required of him. He sent word to Bartlett that he had gathered information as to the whereabouts of the rest of the Exelby outfit and their plans. They were to intercept him on his return journey at Stone's ranch, a lonely spot on the Little Missouri River. It appeared and rescue Pruden. The special deputy suggested that he could use some help.

Here was a big piece of news and Bartlett set about profiting by it. He chose five men to accompany him, five trained riders and fighters, who knew the country, *the men and the game, and on February 13 he moved* out of Deadwood toward the Little Missouri.

The party reached Stone's ranch at two o'clock the next morning. Bartlett learned that the band was in the vicinity, in fact was probably passing the night in a saloon down the road. Bartlett had no desire to molest the outlaws while they were in that position.

There was likely to be a rough crowd at the saloon, certain cowboys of the Missouri region were suspected of being more interested in the welfare of the horse thieves than was altogether reassuring, and the siege of an embattled saloon, with the enemy under cover, would be too large a contract for his little army. He decided to await the day and with his men snatched a few hours of sleep in such comfort as the floor offered.

The deputies were doing justice to Stone's cooking around the breakfast table soon after dawn when a man rode up and asked for the rancher. Bartlett recognized the stranger as Harry Tuttle, one of Exelby's followers. Tuttle spoke with Stone, observed the six men at the table and made off. Bartlett allowed him to go in the hope that the horse thief had not taken the alarm, but as soon as Tuttle reached the saloon, in plain view some two hundred yards up the road, it was evident that further concealment was impossible. Six men ran out of the saloon and began saddling horses.

Bartlett led his men out through the rear of the ranch house and hustled them through a shallow ravine that led down toward the bridge where the road crossed the Missouri. From this ravine they commanded the approach to the bridge at a slight elevation, and here the Deputy Marshal and his forces formed for battle.

The horse thieves, six in number, came sweeping along the road at a gallop, riding close. At a distance of two hundred and fifty yards Bartlett hailed them, his rifle thrown across his arm and one hand raised.

"We want you, boys!" he shouted.

It was pure formality with Bartlett. He had not the slightest expectation that the phrase would have any result, but he had a very clear notion that he represented the dignity of the United States government and he meant to give full warning.

...ing of the Battle.

...d up at sight of the detach... more Bartlett called to

It Was Grim Warfare of the Kind That Passes Unsung in the Vivid, Violent History of New Countries.

They heard this time, and laughter came from the group.

"*You go to hell, we're too busy!*" yelled Exelby.

The military courtesies having been exchanged according to the code of the plains, both sides proceeded to join the issue. The little knot of horse thieves burst asunder, each man taking plenty of elbow room from his fellows, and as the morning sun flashed from a dozen bright lengths of steel Bartlett won the start.

"Put it to 'em, all together!" he cried.

The first discharge came with a crashing volley, and in rattle and bark of rifles and revolvers the battle was on. It was a standup fight at the start, the horse thieves making no attempt to break for safety or gain the bridge. Some of them sat upright on their mounts, working their guns methodically and taking the return fire like ordered troops. Others fought Indian fashion, wheeling their horses through the snow, dropping low along their saddles and firing over the necks of the plunging animals. The deputies, spread out in the shallow ravine, stood or knelt at inclination.

It was grim warfare of the kind that passes unsung in the vivid, violent history of new countries. On the empty white prairie, under the smiling sun of a winter day, lawlessness stood at bay to dispute the power of the law and deny its empire, not slinking and furtive, but defiant, contesting the land like a vested right.

In the sleet of lead that poured out from the ravine one saddle was emptied out of time, the horse thief huddling backward off his mount. At the same instant a new voice joined in the crashing chorus. It came from the right, toward the saloon, and Bartlett, peering anxiously through the smoke saw a seventh horse thief just topping the rise and firing into the clump of deputies from a thinking position. This man who appeared so inopportunely was "Billy the Kid," namesake of a notorious far Western bad man. He had delayed in following his companions, and, riding up to their aid, had had the forethought to take Bartlett's force at a disadvantage. He was a dead shot with a rifle and at his first fire drilled "Jack" O'Hara, one of the deputies, through the body.

O'Hara was standing not four feet from Bartlett. He dropped his gun, pressed both hands to his left side and turned a twisted face on his leader.

"I got it, George," he said. "But I stayed while I could."

With the word he swayed, turned in his tracks and fell, a limp bundle in the snow.

Bartlett swung his rifle on "Billy the Kid," but the horse thief was well ambushed behind a fence post and continued to pump shots at his leisure. Meanwhile matters were not going well for his associates. Harry Tuttle, the man who had visited the Stone ranch that morning, had taken a big gray mule for a mount from the saloon. The mule was not trained to stand amid whistling bullets and spatter of guns. Being a self-willed and ...beast its objection took the form of ...ious and contentious beyond all control, and in the middle of the ... conflict the combatants were treated to a ludicrous byplay.

Tuttle had no chance to use his weapons. All his energies were directed to keeping his seat as the mule, kicking, bucking and plunging, carried him down the line of fire. A timely shot gave him an excuse to fall off, the bullet striking the point of his right elbow and slivering the bone of the arm to the shoulder.

Two of the outlaws were now down, with one deputy. The firing was continuous on both sides. The horse of another thief was shot under him. As it went over, throwing him, he was shot through the head and rolled to the ground lifeless.

"Billy the Kid," safe behind his post, was the most dangerous factor of the fight for the deputies. One of his bullets shot away half an ear from the man who crouched beside Bartlett. Another zipped through Fred Willard's coat at the shoulder, grazing the skin. Bartlett was about ready for a rush, and a shift in the situation decided him.

The fourth of the horse thieves tilted from his saddle and almost at the same time the mounts of the remaining two in the group fell. There were now but three of the original party left in shape to fight—Exelby himself, "The Kid" and one other, whose name was never learned. These were all dismounted, and Bartlett, shouting above the uproar, called to his men to advance.

The deputies broke out of the ravine over the rise at a run, firing as they came. At the odds the horse thieves had no chance, and with one accord they broke, plunging into the bush in the direction of Stone's ranch.

Bartlett's first care was to capture and kill the riderless horses and the mule. On foot the outlaws had no chance to escape, and, like a careful commander, he made sure that retreat was cut off before pressing to the final combat.

"The Kid" and his companion, under the lead of Exelby, who had been wounded in the thigh, crawled through the bush until they came opposite the saloon. Furious at defeat, the death of their fellows and their helplessness, these three men were wrought to a desperate pitch, and they now committed a crime so deliberate, so wanton, as to put them wholly on the level of wild beasts that slay for the sake of slaying.

Murder of the Cowboys.

In and about the saloons a number of cowboys had gathered. They had taken no part in the fight. The sympathies of many of them had leaned toward the outlaws rather than toward the deputies, and some of them had been very friendly with members of the band. But the three thieves, crawling through the bush and coming to a spot whence they looked out upon the neutral group, apparently yielded to a senseless and unprovoked impulse to kill these men. Perhaps, in the rage of anger, they felt that the cowboys should have helped them. Perhaps it was the suspicion, always congenial to losers, that they had been betrayed. What their motive was, if any, will never be known. Kneeling there in the shrub, they took pointblank aim at the unsuspecting cowboys and fired.

"Johnnie" Cunningham was standing in the open doorway of the saloon, smoking and looking down the road. He fell on the step, shot through the heart, and died without a word. Jack Harris, who was outside, talking with Cunningham, sank to the ground with a ...unct in his groin, a wound of which he died three weeks later.

The other cowboys, bewildered and taken completely by surprise, saw the three horse thieves slipping off through the bush after the cowardly attack. There was no longer any hesitation as to which side they favored. Hastily dragging the bodies of the fallen into the saloon they organized for pursuit and set out upon the track of the outlaws.

Somewhere, somehow, in that snow cloaked country accounts were squared that day. None that took part in the final hunt when they were closing in on their quarry and the desperate three, prepared to sell their lives as dearly as possible, did much talking afterward. It is only known that they were killed and that, hopeless and trapped, they died wretchedly, without even wounding their pursuers.

In the meanwhile the fourth of the horse thieves to fall during the battle, "Jack" Campbell, managed to get away. His hurt was nothing more serious than a scalp graze, and, crawling into the bush while the deputies were shooting the horses, he was able to reach the river and follow it down to a ranch about four miles below. Here he obtained aid and shelter.

Campbell, of course, knew nothing of the wilful murder of the cowboys by his associates and in his extremity bethought him of one of those same cowboys, who, he had every reason to believe, would befriend him. Accordingly he secretly sent a message that evening to the saloon where this acquaintance could be found. He asked that the cowboy bring a horse down to the lower ranch to enable him to make his getaway from that part of the country.

The recipient of the message took it straight to Bartlett, who, having made every effort to effect the capture of some of the thieves alive, was still near the scene of the battle, beating the bush after the outlaws still unaccounted for. Bartlett, with the cowboys clamoring to aid him, devised a scheme whereby he expected to make Campbell a prisoner.

It was by bright moonlight that the entire party rode off through the snow for the lower ranch. Arriving there, Bartlett threw out his men, deputies and cowboys, to surround the house. The utmost care was taken to prevent an alarm. The horses were tethered some way off and the cordon was drawn on foot. When all had taken the positions assigned them there was a ring around the ranch that no fugitive could hope to break, the pursuers, however, being hidden from sight behind the fences and stables or in the scrub.

At a signal from Bartlett, who directed these operations from horseback, the cowboy friend of Campbell now dashed up to the ranch house at full speed, leading by the bridle an extra pony, saddled and bridled. He tied the mount to the ears of the corral, in full sight of the house door, and then went around to the rear and knocked gently. Campbell, who had been anxiously awaiting the response to his note, opened, and the cowboy told him in a whisper that the pony was ready. The horse thief thanked him and closed the door, while the cowboy rode away.

Treachery of Campbell.

There were now ... minutes of tense waiting. All eyes were fixed upon the house, standing clear in the moonlight, massed about with heavy shadows. Bartlett was just at the corner of the stables whence he commanded the front door. As he watched he saw the door swing slowly inward, and on the threshold appeared Campbell, peering out into the night.

There was a revolver in each. Red tongues of flame leaped through the blue moonlight, as the thief poured a stream of shots at Bartlett and at the shadows behind him. A bullet struck Bartlett's horse, piercing its brain, and as the animal stumbled the deputy marshal fell headlong. He came down upon the frozen ground on his knees, shattering one of his kneecaps.

While Bartlett was struggling to rise his hidden followers recovered from the surprise of the vicious attack. Spurting fire broke from a score of points about the front of the ranch. Campbell had fired his last shot. With a choked sound, half laugh, half sigh, he tossed the weapons behind him, straightened, slid over sideways and went down on his face. When they came to examine his body they found sixteen bullet holes in him. He had been literally filled with lead and had died in the saddle.

Bartlett's injury was painful, but he rode back to Stone's the same night with his forces to finish up the affair. Exelby, Campbell, "Billy the Kid" and three others were now accounted for, having all been killed. There was still one of the seven who had come out to battle that morning who had not been found. This was Tuttle, the man who had ridden the bucking mule. He had been seen to fall in the fight and several of the deputies were sure that he had been wounded. Bartlett divided his men into squads and sent them to search the section thoroughly.

Tuttle was found before daybreak in the cabin occupied by a small rancher, Shuster, who had given him shelter through pity. The horse thief was in a bad plight. His shattered arm kept him in agony and the rude surgery of the plains could do nothing to relieve him. Stretched out in the bunk, suffering as he was, he displayed a brazen fortitude. He met Bartlett's inquiries with a full account of the doings of the horse thief band. He boasted openly of the many robberies committed by Exelby's outfit and declared that there were still friends at large who would see to it that the events of the day were avenged. Corroborating Joe R——'s statement that the rescue of Pruden was to have taken place at the river, he predicted that Joe R—— and Bartlett himself would yet be killed for their share in the disaster.

Tuttle retained this show of bravado throughout, maintaining the character of the band for recklessness and daring. Still breathing defiance, he was taken to Spearfish, Dak., where he was placed in the hospital under guard.

Joe R—— meanwhile got through with his prisoner across country in safety and lodged Pruden in jail. The outfit had now been exterminated, with the exception of two men, and events were hurrying to bring about a darker climax to this fatal drama.

"Jack" O'Hara, the deputy who had been killed at Bartlett's side during the battle, had lived near Spearfish and had been highly regarded by the miners in that vicinity for his manly qualities and great courage. The story of his death aroused indignation among his friends, and when it became known that Tuttle, in the hospital, was still defiant and fond of boasting of the exploits of the desperate band feeling grew warm.

One cold night about two weeks after the fight the word was quietly passed around among the miners and some fifty of them gathered near the hospital. Here they were addressed by one who had been a close friend of O'Hara. He recited the facts as to O'Hara's killing and declared that they had at hand a means of avenging it upon a member of the band. The others were with him, and in spite of Tuttle's helpless condition the life of the horse thief was declared forfeit. The mob moved on the hospital.

Such an attack had not been foreseen and the two deputies who were guarding Tuttle were overpowered and disarmed before they were fully aware of the danger. Entering the sick room the leaders of the crowd ordered Tuttle to get up and dress.

The horse thief understood, and while he obeyed he laughed in the faces of his executioners. Not even in his last moments did he show the slightest weakness. He tongue-lashed them for a lot of cowards who would have shrunk from meeting Exelby or any of his men on equal terms, but were brave enough to take vengeance upon a cripple, alone and defenceless. Continuing to gibe and sneer, he was hustled outside and hoisted to a barrel under a tree, where a rope was adjusted around his neck. When all was ready he laughed once more.

"Let her go," he yelled, "if anybody's got the nerve to yank a man into hell."

The barrel was kicked aside and the last of the band that made the stand on the Little Missouri River died by the noose.

"Young Man Afraid of His Horses" never recovered those he had lost, but neither he nor any other peaceable traveller through the Black Hills region was subjected to wholesale robbery afterward. Exelby's outfit was gone, the section settled down to peaceable employment and Captain Bartlett continued to uphold

AFFECTED DISGUISE BY HOT BATHS

Retund French Embezzler Made Himself Into a Living Skeleton

A drastic method of disguising himself from the police was adopted by Lepreux, a cashier of the Suez Canal Company, who disappeared from Paris last year, after having embezzled $400,000 and who has been arrested in a Turkish bath at Lille. Lepreux, a stout, jovial looking man of forty-four, conceived the idea that a drastic course of flesh reduction would furnish him with a disguise calculated to baffle the most astute detectives. He accordingly went to Lille, and taking a small room in a poor suburb devoted himself to the task of reducing his figure.

Accompanied by a magnificent collie dog called Dick, Lepreux arrived daily at the bath, and after passing through the various heat rooms was given elaborate massage. Then he drank a bottle of claret and went to sleep in the divan room for several hours. As a result of this vigorous treatment in three and a half months Lepreux reduced his weight 44 pounds and affected such a change in his appearance that the detectives could not at first recognise him.

Like his embezzlements, Lepreux's arrest was due to his love for his only daughter Marcelle. When he fled he left a note saying he had stolen in order to provide her with a dowry, and his refuge at Lille was discovered through letters sent to him by his family and taken from the post office by one of the bath attendants.

When arrested Lepreux was an emaciated individual with sunken cheeks. His face was deeply furrowed, his erstwhile rotundity had vanished, and a ragged grey beard had taken the place of his neat black moustache. In his pockets the police found thirty-two Suez Canal share coupons, some gold and $80 in bank notes, as well as some white pills believed to be poison.

He declared that he had lost all the sums embezzled save $12,000 in unfortunate speculations.

WEIRD SIGHT AT SEA

Captain of Liner Describes Curious Experience of His Vessel

A curious and weird atmospheric phenomenon at sea is described by Captain H. Bradley, commanding the Wilson liner Arisoto, in a communication to the Imperial Merchant Service Guild and to the Indian Government Observatory at Bombay.

On a clear and cloudless night, when the sea was smooth, the liner steamed into what had the appearance, writes Captain Bradley, "of breakers on a low beach, but when we got into it at first it looked like flashes of light (not bright) coming from all directions in quick time. After some few minutes of this the flashes assumed a lengthened shape, following quickly one after the other from the north, and these continued some minutes, steadily veering east and south and south-west into north-west.

"All the time this was going on the surface of the sea appeared to be violently agitated, at times very high seas, as if they would engulf the ship; the imagined waves always going in the same direction as the waves of light. The sea appeared like a boiling pot, giving one a most curious feeling, the ship being perfectly still, and expecting her to lurch and roll every instant. It turned me dizzy watching the moving flashes of light, so that I had to close my eyes from time to time. We were steaming in this for twenty minutes, and then passed out of it.

"For twenty minutes everything around assumed its normal condition, a beautiful, fine, clear, and cloudless night. At the end of this time we again saw the same thing ahead of the ship, and in a few minutes were fairly amongst it again, but, if anything, slightly worse; the waves of light acting in precisely a similar manner, this second lot lasting about fifteen minutes, when we again steamed out of it.

"When the flashes passed over the sea appeared just for that instant of time to be full of jelly fish, but I do not think there were any about. I have seen the white water many times in this Arabian sea, but this did not appear like that in any way. It gave one the idea of the cinematograph without the brightness, the flashes being so quick in their movements."

The First Gas Lamps

Gas lamps were first used in London in 1807.

Punishment by Electricity

Capital punishment by electricity was adopted in New York in 1889.

Chamberlain's

Cough Remedy
The Children's Favorite
—CURES—
Coughs, Colds, Croup and Whooping Cough.
This remedy is famous for its cures over a large part of the civilized world. It can always be depended upon. It contains no opium or other harmful drug and may be given as confidently to a baby as to an adult
Price 25 cts; Large Size, 50 cts.

Lost His Hair, Beard and Mustache

Terrible Plight of a Pennsylvania Man Reported by a Prominent Citizen

"About two years ago my hair beard and mustache started to come out in spots. These spots were entirely bare of hair.

Seeing PARISIAN SAGE advertised, I purchased four bottles and after using two of the bottles, the hair came in until now I have as good a head of hair as I had before this trouble started.

I can truthfully recommend this preparation to any one for what it is recommended for. Sam Galder, Jamison City, Col. Co., Pa. Oct. 11, 1911."

Please bear in mind that PARISIAN SAGE is not guaranteed to grow hair on bald heads.

In Mr. Galder's case the hair root was not dead, and there is no good reason why PARISIAN SAGE should not do just what he writes it did.

"The next time Mr. Galder came into my store after purchasing the 'PARISIAN SAGE,'" writes the druggist who sold him, "his appearance was so changed I did not know him."

PARISIAN SAGE is without doubt the most efficient hair grower, beautifier and dandruff cure in the world, and people who are wasting time with ordinary commercial tonics should wake up.

PARISIAN SAGE will banish dandruff, stop falling hair and itching scalp; will put life, lustre and beauty into faded hair, or money back. It is a most delightful and refreshing tonic for men, women and children. Large bottle, 50 cents at Wm. Madill's and druggists the country over.

IGNORANCE OF THE BIBLE

Professor H. F. Hamilton publishes some figures respecting the 150 Freshmen who entered Amherst College, Massachusetts, last year. They were set a paper of six Bible questions, of which two were "the easiest that could be thought of," while "two were exceedingly difficult, so as to test the intimate as well as the average knowledge of the men." More than 79 of these undergraduates could remember nothing about the fall of Jericho, 37 knew nothing of Cain, 40 knew nothing of Daniel, and 65, 102, and 105 failed to answer questions about Saul, Gideon, and Timothy respectively. Professor Hamilton also reports that in visiting certain schools in New York he found, among pupils preparing for college and nearly of an age for entrance, whole classes that could not tell the story of Daniel in the lion's den.

Locating Easter Day

Easter Day is always the Sunday following that fourteenth day of the calendar moon which happens upon or next after March 21st.

Importance of Oxygen

Oxygen constitutes one-third of the solid earth, nine-tenths of water, and one-fifth of the atmosphere, and is the most abundant of all substances.

In Dread Of Croup

The inexperienced mother is always in dread of croup. There is seldom any warning until the child awakens at midnight with the hard, metallic cough and gasps frantically for breath.

There is no time to send for a doctor, no time to go to the drug store, even; relief must be obtained at once. If you are not so fortunate as to have Dr. Chase's Syrup of Linseed and Turpentine in the house cause the child to vomit with a spoonful of warm lard or by tickling the throat with the finger.

Then get Dr. Chase's Syrup of Linseed and Turpentine so as to prevent the more serious attack which usually comes the second night. This treatment is wonderfully effective for croup, bronchitis and colds in the throat or chest. Mothers who make a practice of always keeping it in the house find that they can depend on it in case of emergency.

THE LAKES OF KILLARNEY

Embedded in the Midst of Miles of Majestic Mountains

The beautiful Lakes of Killarney are equal, if not superior to all other noted beauty-spots in Western Europe. The scenery around them possesses a peculiarity, richness, and variety, and the vegetation a wild luxuriance which cannot be thoroughly appreciated until seen. Among the great writers who have given the lakes unqualified praise are Sir Walter Scott, Wordsworth, Thackeray, Macaulay. Sir Walter Scott said it was "the grandest sight he had ever seen;" Wordsworth, that "in point of scenery the finest portion of the British Islands;" and Sir David Wilkie, the great painter, that "for beauty and grandeur, he had never seen them unsurpassed."

The lakes lie embedded in the midst of wildly majestic and lofty mountains, whose sides and steeps are covered with the most luxuriant verdure and shrubbery, and in many places with splendid forest trees. The highest mountains are Carrantual and Mangerton. The bosom of the lakes is dotted with romantic islands, some of which are connected by bridges with each other and with the shores; and all around are cataracts and waterfalls of every size and form, many being prominent points of interest in the excursions. Besides their beauty, the Lakes of Killarney are of great interest on account of the many prehistoric remains found around them, and the ruins of the celebrated monasteries of Innisfallen, Muckross and Aghadoe. The lakes cannot be satisfactorily seen and explored by the tourist in less than three days. Those, however, who have leisure, and wish to be more minute in their explorations, may spend weeks in roaming among the mountains and glearns with profit and gratification, each day exhibiting new and increasing beauties, the closer and longer they are examined.

Foreign Gloves

The importation of foreign gloves to the United Kingdom was forbidden until 1825.

FOR NINETY YEARS

Registrarship at Barrie in the Lount Family That Long

Samuel Lount, Registrar of Deeds for Simcoe County, who died recently, came from a family that figured largely in the history of that part of Ontario since the year 1811, when the late Gabriel Lount, grandfather of the deceased, settled just south of Holland Landing. Samuel Lount, the eldest son and uncle of the late Mr. Lount did not become a regular land surveyor like his father and younger brother, George, but was an expert woodsman, ranger and explorer of the great northern forests, and as such, assisted his brother with the surveys of much of the southern portion of the County of Simcoe. In the course of time the elder Samuel Lount became one of the best known men of the country, ultimately, in 1834, being elected one of the members of the Upper Canada Legislature for Simcoe County. The part he bore in the rebellion of '37 and his subsequent execution is familiar to all readers of the history of that period. George Lount, father of the dead Registrar, was born in 1799, and he qualified as a land surveyor. When Simcoe County was erected into a separate district in 1826 George Lount became its first registrar. He was the first postmaster at Holland Landing and conducted a general trading store. In 1864 he removed to Barrie, which had been made the county town, and held the position of Registrar of Deeds until the year 1872, a period of almost half a century, when he resigned, and was immediately succeeded by his son, Mr. Samuel Lount. Thus it will be seen that the position has been held by the Lount family (father and son) for upwards of 90 years.

THE GLASS COACH

New Vehicle for Royalty to Replace the Burnt Carriage

The new Royal Coach which takes the place of the famous one burnt while at the makers to be repaired is called the "glass coach," on account of its large windows which enable the King's faithful subjects to have a good look at their sovereign as he passes by.

It is not the gilt mediaeval-looking affair which Their Majesties use on full state occasions such as the coronation and the opening of Parliament, but is kept for semi-state functions—levees and so forth. However, Their Majesties prefer it infinitely to the old "Cinderella" coach which takes precedence over it and which has such a disagreeable motion that poor Queen Mary feels quite ill after a short journey in it.

It took twelve months to make the new carriage and nothing but British material was used in its construction except some Honduras mahogany for the panels. A description of it reads a trifle garish, and no doubt the decoration will not be copied by ordinary mortals for every day use. The body is painted dark, picked out with gold and the centre of the panels are adorned with the royal arms. The roof is surmounted by a raised design incorporating the rose, shamrock, thistle and palm, symbols of empire, while the centre of the roof is occupied by a gilt crown. The wheels and underbody are of vermillion and gold, while the hammercloth spread over the coachman's seat is scarlet, purple and gold with gilt tassels. Add to this four gilt lamps at each corner and two gorgeous footmen in scarlet and powdered wigs hanging on to the back, and you will realise that it is not exactly the cart to slip out unperceived.

The interior is upholstered in purple silk and the plate glass windows are framed in hand carved ivory. The whole thing weighs 3,000 pounds.

The Sovereign Coin

Sovereigns were first coined in the reign of Henry I., but they were then worth twenty-two shillings.

The First Easter

Easter was instituted in 68 A.D.

Age of Earrings

Earrings were worn so far back as 1732 B. C.

Weight of Brains

The average weight of a man's brain is 3 lb. 8 oz, and of a woman's brain 2 lb. 11 oz.

Agriculture in Germany

Agriculture supports nearly 19,000,000 of the inhabitants of the German Empire.

SHOOTING WHALES

An Industry Which Has Grown to Large Proportions

Whale hunting has always been a picturesque industry, even in the harpoon days. To-day, when the ocean monsters are pursued in steel steamers specially built for the purpose and are shot with machine guns, the performance is even more interesting, if it is not quite as romantic. The whale industry is one of which British Columbia is proud, and it has been developed to large proportions, though still in its infancy. As yet only one company has a fleet of whalers at work, its headquarters being at Victoria, B.C.

Two thousand Whales were captured along the coast last year, of which 50 were taken by the Canadian company. The method of operation on sighting a whale is to steam as close to it as possible, despatch it with a well-directed shot from a machine gun, and then tow it to the nearest whaling station, where it is hauled on to a suitable stage by machinery and cut up so that every portion of the huge animal is utilized. From the blubber sperm oil is extracted. The body bones are crushed, ground and sold as fertilizer. The whale bone is cut from the jaws, trimmed and shipped to Dundee, Scotland, to be manufactured into various commodities. From the residue of the blubber and lean meat, guano and glue are made. Japan buys a good deal of whale meat, which is used for food. As whales are worth from $5,000 to $10,000 each, the value of the industry is obvious.

DIAMOND STUDDED HEELS

The picture shows the novelty introduced in New York by Mrs. Charles H. Anthony, of Muncie, Ind. She was frank enough to give as her reason for having the heels of her shoes set with sparkling gems that she "wanted to lead; anyone can follow, but one who is first is a winner."

SACRIFICE THEIR EYESIGHT

After Seeing Mahomet's Grave Fanatics Destroy Their Eyesight.

"See Mecca and die" is the Mohammedan pilgrim's motto as he journeys towards the tomb of Mahomet, thus signifying that life holds no further interest for him. When he reaches the goal of his ambition, and gazes upon the last resting-place of his prophet, he often changes his motto to "See Mecca, and see no more," and this precept he literally fulfils. Strange scenes may be observed at Mecca, where devout Moslems, after beholding their prophet's tomb, destroy their sight by gazing at white-hot bricks, so that they shall never see any further earthly sight. The hot bricks scorch up the eyes and render the men quite sightless.

This fanatical custom is quite a common one, and is usually practised by aged pilgrims. The white-hot bricks are supplied near the kaaba by the enterprise that everywhere preys on the moslem pilgrim. A westerner can hardly imagine the reverence which the Mohammedan pays to the tomb of Mecca. His greatest ambition is to visit it once during his lifetime, and he will travel for months in the greatest discomfort and poverty that he may attain his desire. Ever since Mahomet's death in the year 632, Mecca has been venerated, and even to-day all devout Moslems turn towards it when saying their prayers.

Moslem pilgrims are noted for their fanatic deeds, but the one described is doubtless the strangest of them all.

Densely Populated

Belgium is the most densely populated nation in the world, with an average of 636 inhabitants to the square mile.

Out of Pig Iron

The United Kingdom, the United States, and Germany account for about 80 per cent. of the world's total output of pig iron.

The Heaviest Men

On an average, Scotsmen are the heaviest men in the United Kingdom, then Welshmen, followed by Englishmen, and Irishmen last.

R R R
RADWAY'S READY RELIEF
COLDS and COUGHS
Apply the Relief to the throat and chest until the surface is warm and red-dens. Give Radway's Pills in such doses as will freely move the bowels. For a sudden cold, take a large dose of Radway's Pills, and a teaspoonful of Relief with a teaspoonful of molasses, in a tumbler of hot water. Retire at once to bed. A profuse perspiration will break out, and in morning the cold will be gone.
Ask for RADWAY'S and be sure you get what you ask for.

WILL PROBE THE CAUSE

Officials Plan to Hold a Searching Investigation

MONEY-GREED SAYS DEWEY

Washington, April 18.—Congress acted swiftly yesterday on the Titanic catastrophe.

Bills and resolutions designed to prevent repetition of the awful disaster off the Newfoundland Banks poured into both Houses.

The Senate agreed to a resolution directing a thorough investigation by the Commerce Commission into the causes leading to the wreck, with particular reference into the adequacy of lifeboats. The resolution, the first introduced in the Senate, presented by Senator Smith of Michigan, who ranks next to the chairman of the commerce committee, was passed unanimously. The resolution follows:

"Resolved, that the committee on commerce, or a sub-committee thereof, is hereby authorized and directed to investigate the causes leading to the wreck of the White Star Line Titanic, with its attendant loss of life, so shocking to the civilized world."

Should Refer to Hague.

New York, April 18.—In a statement issued yesterday, Charles Von Helmuth, general manager for Oelrichs & Co., the general agents of the North German Lloyd Steamship Co., expressed the belief that the laws of nations concerning the safety of passengers on the steamships, which now are at variance, should be referred to The Hague tribunal, which might adopt such regulations as would insure as near absolute safety as possible and under which all steamship companies would be compelled to operate.

Mr. Von Helmuth says that his company's ships on a trip from Germany to New York, must conform to the maritime regulations of four different countries—Germany, Great Britain, France and the United States—all of which are at variance.

While declaring that all steamship companies obey to the letter all the legal requirements, and in most cases have exceeded them, Mr. Von Helmuth declared that nevertheless the situation requires an international agreement.

Companies Too Greedy.

Washington, D.C., April 18.—In a statement about the Titanic and general danger in ocean voyages, Admiral Dewey said yesterday: "I think that every passenger who crosses the North Atlantic takes his life in his hands every time. For myself, I would rather go around the world in a well-equipped man-of-war, than make a trip across the North Atlantic in a transatlantic vessel. The greed for money-making is so great that it is with the sincerest regret that I observe that human lives are never taken into consideration.

"Let everybody exert every energy to have the present laws amended as regard life-saving appliances on every passenger-carrying vessel. I do not believe that a passenger vessel should be cleared unless she has boats sufficient to float the great *majority* of its precious cargo in the event of an accident.

"It is appalling."

Fifty Millions Life Insurance.

New York, April 18.—While the marine insurance companies have suffered a heavy loss by the sinking of the Titanic, authorities in this city say there is still a more considerable loss that has not yet been taken into account, and which will undoubtedly exceed that of the marine companies. This is in life insurance. It is practically impossible to hazard a guess as to the amount involved, but the death of so many men, high in the financial world, will affect the life insurance companies to a greater extent than any disaster that has happened in years. One man, prominent in the life insurance world, says he will be surprised if the life insurance companies are not called upon to assume the payment at once of policies aggregating at least $50,000,000.

Opening Fund.

New York, April 18.—Mayor Gaynor yesterday received a London cablegram, saying: "Opening fund relief sufferers Titanic disaster. Will warmly welcome your sympathy."

Mayor Gaynor at once stated that funds for the relief of sufferers would be received at the mayor's offices, and cabled the Lord Mayor o' London as follows: "Relief fund Titanic sufferers has our hearty sympathy. Will open one here."

Flags on the city hall and other municipal buildings have been half-masted.

"All Well," on Carpathia.

New York, April 18.—The White Star Line made public yesterday the following unsigned message from the steamship Carpathia, probably relayed to New York:

'Carpathia east of Ambrose, 596 miles, 11 p.m. Tuesday. All well."

The Ambrose referred to is Ambrose Channel at the entrance of New York harbor. The line's officials think the Carpathia will arrive here about nine o'clock to-night.

Carried Heavy Canadian Mail.

London, April 18.—(C.A.P. Cable.)—The Titanic carried 176 sacks of Canadian mails from London alone. No compensation is payable.

A large number of C.P.R. dividend checks, payable in Canada, were also aboard.

Mine Fatality In Wales.

New York, April 18.—A cable from Cardiff, Wales, says an explosion of gas wrecked the Trane coal mine at Gilfaehgch yesterday. A rescue party removed three bodies of mangled dead, and five injured, but could give no definite estimate of the dead.

New Bishop Chosen.

Toronto, April 18.—The Catholics of the city were both elated and completely surprised to learn from a cablegram from Rome, published in The Catholic Register, that the new Archbishop of the See of Toronto had been appointed. They were somewhat disappointed that the name of the churchman so honored was not known, or if known, could not yet be disclosed.

Caught In Machine Belt.

Brockville, April 18.—While operating a sawing machine at Avondale Farm, N. N. Jarvis, aged 18, got his right arm caught in the belt running from the engine. He was whirled around the wheel and when picked up, was unconscious. One arm was broken in four places.

A MASS OF BRUISES.

Post-Mortem Evidence Taken In Child Abuse Trial.

Cornwall, April 18.—The trial of Mr. and Mrs. Clayton Bickford of Winchester, accused of manslaughter, opened at the spring assizes here yesterday afternoon before Justice Kelley. Both pleaded not guilty to causing the death of Mrs. Bickford's 11-year-old niece, Kathleen St. Pierre, on Feb. 26.

The principal witnesses were Dr. McLaughlin and Dr. Malloch, who had conducted the post-mortem. Dr. McLaughlin said that on the night of Feb. 26 Bickford came to his office and told him the girl had a weak spell. He went over at once and found her dead. He noticed a severe bruise running under the eye, across and behind the ear. He did not think this was more than 48 hours old. There were other bruises and he refused to give a death certificate.

An inquest was subsequently held, and he conducted the post-mortem examination. The stomach was healthy, but practically empty. Besides the big bruise on the head, there was another severe one under the chin. On the body and limbs there were three or four bruises, abrasions and discolorations, some fresh, some partly healed and some old. The skin was knocked off the shins, evidently by some blunt instrument. The feet had been frozen. The skin had parted from the tissue of both heels, also from most of the toes, which had lost the nails, and some of them considerable tissue. Two showed the bones protruding.

Dr. Malloch corroborated Dr. McLaughlin's evidence of the post-mortem.

The court adjourned until to-day.

TELEGRAPHIC BRIEFS.

Mexico's army is to be increased to 60,000 and maintained through a bond issue of 200,000,000 pesos.

The Dominion Steel Corporation is issuing $7,000,000 of 6 per cent. preferred stock in London and Amsterdam.

The Government steamer Earl Grey is reported ashore between Charlottetown and Pictou, N.S. The Minto has gone to her assistance.

The Pope yesterday received in farewell audience Mgr. Giovanni Bonzano, apostolic delegate to the United States, who is to leave to-day.

The Norwegian Storthing has unimously granted approximately $35,000 for Amundsen's North Pole expedition. This is one-third the sum expected.

Several persons were killed and a large amount of property was damaged in several South Louisiana towns during Tuesday night by electric, rain, and wind storms.

Great indignation prevailed in Britain owing to the bogus reports following the collision, and a searching inquiry as to their origin will be instituted by Lloyd's.

The King and Queen sent donations for the relief of those in distress through the catastrophe to the Titanic. Funds were opened in London and New York.

Seventy-five per cent. of the U. S. soft coal miners voted in favor of the proposed new wage agreement, it was stated at the offices of the United Mine Workers of America.

Edgar Gilbert of Brockville was accidentally shot in the arm by a revolver in the hands of Omar Kilpatrick, who did not know the pistol was loaded. He will recover.

The careless throwing of a cigarette into a receptacle for waste paper in an unoccupied room in the Strathcona Hotel, Brockville, was the cause of a blaze. Prompt action quickly extinguished the fire.

Louis Letourneau, M.P.P., was given judgment at Quebec against The Chronicle and L'Evenement for publishing Leduc's affidavit regarding his being induced to retire when nominated against Sir Wilfrid Laurier.

William Dixon, the veteran collector of customs at Rockport, died suddenly yesterday of heart failure. He was attending to his duties as usual when the summons came. Dixon was 70 years of age and had held the office since 1890

MARKET REPORTS.

Liverpool Wheat Futures Close Lower, Chicago Higher—Live Stock—The Latest Quotations.

CHICAGO, April 17.—PR tactics and stormy weather rather than crop damage reports took control to-day of the price of wheat. Snow, rain and cold gave the market a bullish turn at first, but demand began to dwindle, and opened the way for a bear raid. The close was unsettled, varying from ⅛c to ⅜c decline to ⅜c advance. Corn showed a rise of ⅛c to 1⅛c, and oats a gain of ⅛c to 1⅛c. Latest trading left provisions ranging from 5c off to an increase in cost of 35c.

Liverpool wheat closed ⅝d to ¾d lower than yesterday, and corn ¼d to ½d higher. Paris wheat closed ½c to ⅝c higher, Antwerp ⅛c lower, Berlin 1⅛c lower, and Buda-Pest ½c lower.

Montreal Grain and Produce.

MONTREAL, April 17.—The foreign demand for Manitoba spring wheat was dull and no new business was done. There was no actual change in the local market for oats, but the feeling is easier. Butter is weak and prices are ½c per lb. lower with a very limited demand and increased supplies. An active trade is doing in eggs. Provisions firm under an improved demand.

Corn—American No. 2 yellow, 83c.

Oats—Canadian western, No. 2, 44c to 44½c; do., No. 3, 50½c; extra No. 1 feed, 51½c; No. 2 local white, 50½c; No. 3 local white, 49½c; No. 4 local white, 48½c.

Barley—Manitoba feed, 66c; malting, $1.05 to $1.10.

Buckwheat—No. 2, 74c to 75c.

Flour—Man. spring wheat patents, firsts, $5.30; seconds, $5.30; strong bakers, $5.10; winter patents, choice, $5.10 to $5.25; straight rollers, $4.65 to $4.75; straight rollers, bags, $2.15 to $2.25.

Rolled oats—Barrels, $5.25; bag of 90 lbs., $2.65.

Millfeed—Bran, $25; shorts, $27; middlings, $29; moullie, $30 to $34.

Hay, No. 2, per ton, car lots, $14.50 to $15.

Cheese—Finest westerns, 14½c to 14¾c.

Butter—Choicest creamery, 31c to 31½c; seconds, 30c to 30½c.

Eggs—Fresh, 23c to 23½c.

Potatoes—Per bag, car lots, $1.75.

Dressed hogs—Abattoir killed, $12.75 to $13.

Pork—Heavy Canada short mess, bbls., 35 to 45 pieces, $23; Canada short cut back, bbls., 45 to 55 pieces, $22.50.

Lard—Compound, tierces, 375 lbs., 9¾c; wood pails, 20 lbs., net, 9¾c; pure, tierces, 375 lbs., 12¾c; pure, wood pails, 20 lbs., net, 12¾c.

Beef—Plate, bbls., 200 lbs., $14.50; Plate, tierces, 200 lbs., $21.50.

Liverpool Grain Prices.

LIVERPOOL, April 17.—Close—Wheat—Spot, firm; No. 2 red western winter, 8s 4½d; No. 2 Man., 8s 5d; futures, steady; May, 7s 10⅝d; July, 7s 9⅝d; Oct., 7s 6⅝d.

Corn—Spot, steady; American mixed new, 6s 5¾d; old, 6s 11d, kiln dried, new, 6s 9½d; futures, steady; May, 6s 7¼d; Sept., 6s 3⅞d.

Flour—Winter patents, 28s 6d. Hops in London (Pacific Coast), £10 to £11 5s.

Buffalo Grain Market.

BUFFALO, April 17.—Spring wheat, no offerings; winter firm; No. 2 red, $1.13; No. 3 red, $1.11; No. 2 white, $1.12.

Corn—Higher; No. 2 yellow, 84c; No. 4 yellow, 82½c; No. 2 corn, 82½c to 83c; No. 4 corn, 80½c to 81½c, all on track, thru-billed.

Oats—No. 2 white, 62c; No. 3 white, 61½c; No. 4 white, 60½c.

Duluth Grain Market.

DULUTH, April 17.—Wheat—No. 1 hard $1.11; No. 1 northern, $1.10; No. 2 do., $1.08 to arrive; No. 1 northern, $1.10; No. 2 northern, $1.08; May, $1.09 bid; July, $1.00½ bid.

CATTLE MARKETS.

Montreal Live Stock.

MONTREAL, April 17.—At the Canadian Pacific Live Stock Market, the receipts for the week ending April 13 were 540 cattle, 125 sheep and lambs, 400 hogs and 1750 calves. The offerings on the market this morning consisted of 600 cattle, 250 sheep and lambs, 1150 hogs and 1000 calves. An active trade was done and the undertone to the market was strong, but prices showed no important change.

The tone of the market for hogs continues to be very strong and prices have scored a further advance of 10c to 15c per cwt., owing to the small supplies coming forward and the good demand for the same from the packers, consequently the trade was active with sales of selected lots at $9.40 to $9.50 per cwt., weighed off the cars.

Sheep were firm under a fair demand and sales of ewes were made at $5 to $5.75 and bucks at $4.50 to $4.75, while yearling lambs brought $7.25 to $7.50 per cwt. A few spring lambs of fairly good quality, changed hands at from $5 to $6 each. The supply of calves was large, for which the demand was active at from $4.50 to $8 each, as to size and quality.

East Buffalo Cattle Market.

EAST BUFFALO, N.Y., April 17.—Cattle—Receipts, 100 head; active and steady.

Veals—Receipts, 600 head; active and 25c higher, $4.50 to $8.50.

Hogs—Receipts, 1600 head; slow and 5c to 10c higher; heavy and mixed, $8.35 to $8.45; Yorkers, $7.90 to $8.35; pigs, $7 to $7.15; roughs, $7.25 to $7.40; stags, $5 to $6.25; dairies, $7.75 to $8.25.

Sheep and Lambs—Receipts, 5400 head; active; sheep, steady; lambs, 10c lower; lambs, $3 to $7.25; yearlings, $6.25 to $6.50; wethers, $5.75 to $6; ewes, $5 to $5.25; sheep, mixed, $3 to $5.50; wool lambs, $8 to $8.60.

Chicago Live Stock.

CHICAGO, April 17.—Cattle—Receipts 18,000; market steady to 10c lower; beeves, $5.20 to $8.65; Texas steers, $4.65 to $7.10; western steers, $5.60 to $7.10; stockers and feeders, $4.30 to $6.65; cows and heifers $2.65 to $7.35; calves, $4.50 to $7.50.

Hogs—Receipts, 25,000; market steady to a shade higher; light, $7.60 to $8.05½; mixed, $7.65 to $8.10; heavy, $7.70 to $8.10; rough, $7.70 to $7.85; pigs, $5 to $7.30; bulk of sales, $7.95 to $8.05.

Sheep and Lambs—Receipts, 17,000; market steady to 10c higher; native, $4 to $6.10; western, $4.25 to $6.25; yearlings $6.90 to $7.20. Lambs, native, $5.25 to $7.65; western, $5.50 to $8.10.

Paris Saw the Eclipse.

Paris, April 18.—The eclipse of the sun was observed yesterday by many scientists. Shortly before noon, a pall of obscurity resembling the approach of a thunder storm descended over the city and the atmosphere became greenish dark.

In the city itself the eclipse was not quite total, the crescent of the sun showing at its climax at 12.10 after which the sun rapidly emerged

Once a Year!

Christmas comes but once a year,
But for that once we all pay dear.
—Judge.

Investments in Toronto Real Estate are Making Fortunes for the Investors

Toronto is the second largest city in the Dominion, and is destined to be the largest, and that within a short period of time.

Toronto Keeping Pace

¶ Notwithstanding the phenomenal growth of Canada's Great West and the enhancement of values which is the natural outcome of the rapid development of important centres in the West, Toronto is keeping pace with the best of them.

No Speculative Uncertainty

¶ There is not the element of speculative uncertainty for the investor in Toronto properties that there is in many of the Western Sub-Divisions, for the reason that the city's great growth comes from an actual and rapidly increasing demand for properties for home sites and commercial purposes. Toronto is growing to be a great city—its population is increasing at approximately the rate of 40,000 a year.

¶ The Juggernaut of Commerce is forcing many an old residential section into a manufacturing centre and the city has been forced to find an outlet—room for expansion, room for the "homing" of its natural growth of population and the influx from outside centres. Toronto's Building Permits for the year 1911 amounted to over $24,033,907; a great proportion of the amount was spent in the newer sections to meet the demand for new homes, and still the housing question is a serious one, and there is a cry for more houses. Permits for January and February this year amount to over $2,108,080.

Alexandra Gardens

ALEXANDRA GARDENS lie right alongside of BRIAR HILL PARK, one of the most charming properties yet added to the city's suburban districts, and vies with it for desirability of locality and natural beauty.

¶ Men of vision foresaw the future for this great section to the north of the city of Toronto as the natural outlet and relief for the congestion in the more central districts, and the wonderful development has warranted their foresight.

¶ The acquiring of such desirable suburban sections as Alexandra Gardens, Briar Hill Park and other properties, the improvement of them and the almost incredible demand for homesite lots that has obtained has amply proven the wisdom of the selection in the north.

¶ Many lots have been purchased as homesites for permanent homes of the purchasers. To-day there are in Alexandra Gardens not a few of the most handsome residences erected in and around the city, and many more are in course of erection and contemplation.

¶ A number of lots in this desirable property have been chosen by investors as safe and sure investments, and the record of actual transactions within the past few months reveals proof that many investors have in a short period made a profit of one hundred per cent. and over on the down payment.

¶ To date every investor who has desired to realize on his purchase has been able to readily do so at a handsome profit.

¶ Alexandra Gardens is one of the most beautiful and desirable of the new residential sections to the north, wonderfully endowed by nature as the ideal homesite section, it is approximately 4¼ miles from the corner of King and Yonge Streets. The Metropolitan Radial Line takes you to the gates on Yonge Street, and a line will undoubtedly be continued up Avenue Road through Briar Hill Park to Alexandra Gardens. A further line is in contemplation which it is expected will run through the Bathurst Street Section of Alexandra Gardens.

¶ Alexandra Gardens are right up-to-date in improvements—gas, water, electric light, granolithic walks are available, has one of the best laid bowling greens in Canada, has its own club house, is convenient to two golf links, and to schools, churches, stores and banks. The restrictions in the Gardens and adjoining properties are such as to assure them as high-class residential sections.

EVERYTHING POINTS TO A GREAT DEMAND FOR LOTS AND RAPID DEVELOPMENT IN GROWTH AND IMPROVEMENT, and the PERMANENCY of these BEAUTIFUL HOME SECTIONS is ASSURED.

The investment side of the Alexandra Gardens proposition, as in the **Briar Hill Park** property, is undoubtedly a safe and sane one, and its own history a guarantee for handsome profits to the investor. Lots are now on the Market.

Durability of Ivory.

The durability of ivory is proved by the fact that billiard balls, which for the sake of curiosity have been made of well preserved mammoth ivory undoubtedly many thousand years old, were played with for several months by experienced players without its being noticed that the balls were not made of fresh ivory. Mammoth ivory is, as a rule, not as tough as fresh ivory.

PETERBOROUGH THURSDAY APRIL 18 1912

DETAILS OF HOW ALBERT PARRISH OF PETERBOROUGH WAS KILLED IN THE WEST

Coroner's Jury Expresses an Opinion That Some Precautions Should Have Been Taken.

HIS SKULL CRUSHED

A Vancouver exchange gives the following report of the coroner's inquest into the death of Albert Parrish, of Peterborough, who was killed at Swan Creek, B. C., some weeks ago: "That Albert Parrish accidentally came to his death from a fractured skull, sustained through the collapse of a platform on which he was working at Hanbury's mill," was the verdict rendered at the Dominion undertaking parlours yesterday morning. A rider was added, that some one should have seen that the platform had been properly constructed and maintained, in order to prevet overloading. According to the evidence, the platform on which the men were working had been built around a refuse burner in course of construction. The intention was to put six-inch iron plates, weighing six hundred pounds, on it; but there had also bee placed on it twelve bags of sand, nine smaller plates, a waggon load of bricks as well as other material. The frantture to Parrih's skull was caused (according to the finding) by a blow from some of the iron plates.

CHARLES M. HAYES, one of the victims of the Titanic disaster.

BOMBARDING DARDENELLES

LONDON, APRIL 18.—From reports received at Lloyds from their offices in Turkey, the Italian fleet has began the bombardment of Dardenelles, with the object of forcing the Turks into submission.

ONE MILLION DOLLARS FOR A GOOD STOMACH

This Offer Should Be a Warning to Every Man and Woman.

The newspapers and medical journals recently have had much to say relative to a famous millionaire's offer of a million dollars for a new stomach.

This great multi-millionaire was too busy to worry about the condition of his stomach. He allowed his dyspepsia to run from bad to worse until in the end it became incurable.

His misfortune serves as a warning to others.

Every one who suffers with dyspepsia for a few years will give everything he owns for a new stomach.

Dyspepsia is commonly caused by an abnormal state of the gastric juices, or by lack of one in the wall of the stomach. The result is that the stomach loses its power to digest food.

We are now able to supply certain missing elements—to help to restore to the gastric juices their digestive power, and to aid in making the stomach strong and well.

We know that Rexall Dyspepsia Tablets are a most dependable remedy for disordered stomachs, indigestion and dyspepsia.

We want you to try them and will return your money if you are not more than satisfied with the result.

Three sizes, 25 cents, 50 cents, and $1.00. Remember, you can obtain Rexall Remedies in this community only at our store.—The Rexall Store, McDermid and Jury.

Open Meeting At The Collegiate

The open meeting of the Philomathean Society of the Collegiate Institute, in the Assembly Hall of the building, to-morrow night, promises to be unusually interesting and enjoyable. The feature of the evening will be the final of the public-speaking contest, which has narrowed down to three contestants. Meredith Huynke, who will speak on "Conservation of National Resources"; Harold Hill, whose subject will be "The Peace Movement," and Ernest Langford, who will discuss "Home Rule". In addition, there will be a first-class musical programme. The public is cirdially invited. There is no admission charge.

107 MINERS ARE KILLED

Special Wire to The Examiner.

IRKUTSK, SIBERIA, APRIL 18.—In a fight with soldiers sent to quell the strike disturbance, one hundred and seven miners were killed and eighty wounded in the gold mines near here.

INCREASED IMMIGRATION

Immigration Rush This Year Will Be the Greatest Yet

LOCAL CONDITIONS

There has been very little doing in immigration circles this week, a circumstance which is mainly due to the fact that a number of the boats have been held up by fog and ice in the vicinity of Cape Race and the banks of Newfoundland. Mr. Howson reports that the steamer Montrose docked at St. Johns, yesterday. Her passenger list carry the names of at least fifteen people who are booked for Peterborough. They should arrive here by to-morrow morning. The Teutonic, which docks some time to-day, has also a number of immigrants on board, who are booked for this city. Both of these boats are overdue by two or three days, for reasons as stated above.

Applications Pouring In.

The demand for help shows no signs of abating, as a visit to the immigration office will indicate. On Saturday last the number of applications applying for help assumed the form of a miniature invasion, and for six hours the farmers held the fort firm in the conviction, probably, that Mr. Howson would have a few immigrants on hand. During this time one lone immigrant strayed into the office. At the risk of his life and in a plaintive voice, he announced that he was open for employment. It was only a matter of minutes until he was signed up to a farmer from Otonabee, who walked off with his prize in much the same fashion as a manager of a ball team would gather in a slab artist.

In all, there have been about a dozen new arrivals to the city this week. It is expected that this number will be increased considerably before the end of next week.

A Record Season.

Montreal, April 18.— Basing their figures on the number of westbound passages which have been booked for the opening months of the coming season of navigation, local steamship companies estimate that 150,000, or at least twenty per cent. more passengers than last season will be landed at Quebec for Montreal or at Montreal for ocean liners during the six months ending October 31 next.

These calculations are exclusive of the number of passengers who will land at Halifax or at Portland, Me., of which a large proportion will settle in the Maritime Provinces.

Without exception, every passenger boat to Montreal and Quebec up to the middle of June is already booked solidly, while much accommodation for westward passages during the middle and late summer seasons has also been spoken for.

An official of the C.P.R. Atlantic Steamship service said this morning that the company is preparing to land between 55,000 and 60,000 first, second and third class passengers at Quebec and Montreal this summer.

SAW-MILLS RE-OPEN NEXT WEEK

Hum of Industry Will Be Heard Again in a Short Time

The re-opening of the saw mills in the city is expected to take place next week. The ice is all out of the Little Lake and the McDonald Estate mill will likely recommence operations on Monday. The Peterborough Lumber Company's plant is also being made ready for the beginnig of work some time during the next week. The resumption of work at these mills will naturally be welcomed by the employees.

"I KNOW FOR SURE NO LIVES WERE SAVED EXCEPT THOSE WHOM I HAVE ON BOARD"

Message From Captain Rostron of the "Carpathia" Dispels Last Lingering Hopes That Others May Have Been Rescued—Rescue Ship is Full of Suffering Humanity—Steamer's Hospital Contains Over One Hundred Women—"Carpathia's" Captain Reports That 200 Sailors and Stokers Sleeping in the Forecastle Were Crushed or Drowned Without Knowing What Had Happened.

Special to The Examiner.

NEW YORK, N.Y., APRIL 18—"As the Carpathia nears the harbour, this afternoon, the mutterings of her wireless appuratus becomes more decipherable and it is ascertained that she is full of terribly suffering humanity. In some cases survivors have gone insane, following their parting with husbands and fathers and children, and the awful scenes they have witnessed.

One of the most distinct messages from Capt. Rostrom of the Carpathia says: "I know for sure that no lives were saved except those I have on board. Mrs. Astor is very sick, and one hundred less prominent women are in the hopital, some very ill. When the collision occurred two hundred sailors and stokers, sleeping in the forecastle, were drowned, or crushed, and never knew what happened them. Everything was dark four minutes after the crash."

All available ambulances and five hundred other vehicles of various descriptions have been chartered to be in attendance to-night at the docks, to take the survivors to hospitals, asylums and temporary homes. A committee of wealthy New York women are cooperating with the Government to look after the unfortunate women and children of the steerage.

Captain Henry, Surveyor of the Port of New York, said the Carpathia would not dock until 10 o'clock in the morning, at the earliest.

Vice Presidents Fitzhugh and Kelly of the Grand Trunk Pacific Railway, are here, but with all their money and influence they cannot get a message through to the Carpathia, to ascertain for sure about President Hayes. A disjointed Marconigram, this morning, seemed to give a faint ray of hope. It was learned, this morning that President Lamay of the White Star Line, has Marconied several long messages from the Carpathia in code. These messages are kept carefully bottled up in the Executive offices of the Company.

It is known in New York that the Astors were rushing to New York city, that their expected heir might be born on United States soil. Their Fifth Ave. home was being carefully fitted up that event. The London cable says the actual number of passengers and crew on the Titanic at the time of sailing was 2,203.

WASHINGTON, D.C. — President Taft has appointed a special court of Government enquiry to go aboard the Carpathia and examine the passengers and officers immediately on docking. This may delay the landing of the survivors.

HAD URGED MORE LIFE BOATS.

LONDON, ENG.—In the Commons to-day Sidney Buxton, President of the Board of Trade, said he had suggested the need of more life boats on the Titanic, but his suggestion had not been heeded. He then started to frame legislation to compel them.

Still Doubt About Hays.

MONTREAL, Q., APRIL 18. — A wireless message received this morning at the Grand Trunk offices is generally taken as a confirmation of the report that Charles M. Hays, President of the Company, is not among those rescued by the Carpathia. The wording of the message is rather vague, however, and some of Mr. Hays' friends express the hope that the message may have been sent by Mr. Hays himself. The message which came by wireless from the Carpathia via Woodshole, Maine, is as follows. "Mrs. Hays and Mrs. Davidson safe. No news of husband." Signed, Hays.

The Grand Trunk officials believe this message was sent by Mrs. Hays, and "no news of husband" refers to Mr. Hays.

Graham May Be Safe.

NEW YORK, N.Y., APRIL 18. — There is still hope expressed that Graham of Winnipeg is among the saved. The latest list contained the name of Graham without initials. It is thought it may be him. There is a great feeling abroad that the White Star Company are not giving out all the wireless information they are receiving. For instance one of the clerks told a touching story concerning the Canadian family of Allisons, Montreal. "When Mr. Allison expressed his determination to stay behind with the men on the ship," says this clerk, "his wife and daughter also refused to leave the Titanic and went down with it, having first put their little boy in one of the boats in charge of a nurse."

Practically Hospital Ship.

NEW YORK, N.Y., APRIL 18. — The Carpathia is practically a hospital ship, about 200 of the rescued women having been in their staterooms, some in delirium. They are suffering from shock and exposure. Extraordinary precautions are being taken to protect these passengers from interviewers.

NEW YORK, APRIL 18.—There was confirmation of the report that some at least of the Titanic survivors are in very bad way, physically to-day, when the White Star Line accepted the offer of St. Luke's hospital to set aside for the use of those who may need it, all of a new addition which was opened to-day.

It will accommodate sixty patients, and ambulances will be waiting at the Cunard dock to-night to convey the sick or injured women there immediately.

NEW YORK, N.Y., APRIL 18. — The Carpathia was off Nantucket light ship, one hundred and ninety miles from this port at six o'clock this morning, which means she should be here at eleven o'clock to-night. Hundreds of wireless messages have been thrown at her for details of the wreck of the Titanic, but she steadily refuses to acknowledge them or to handle any business except outgoing messages from the survivors on board to anxious relatives ashore. Her captain had sent a message to the government officers asking them to be ready to handle thirteen life boats belonging to the ill-fated Titanic. This is apparently all salvage she has from the gigantic liner and cargo worth together from twelve to fifteen million dollars. It is also evident that these were the life-boats that proved launchable, seaworthy and effective as life savers.

FRIENDS OF LOCAL PEOPLE IN WRECK?

Mr. James Gates Fears That His Son Was Lost on the Ill-fated "Titanic"

Mr. James Gates, Dunlop street, firmly believes his son to be among the passengers who sailed on the ill-fated Titanic. He received a communication from him a short time ago stating that he would either sail on the Megantic or the Titanic. Mr. Gates has learned since that his son missed the first boat ,and his anxiety as to his probable whereabouts and safety has not been reduced by the news of the terrible disaster. Mr. Gates, junior, is a man 26 years of age, and brings with him his wife and child.

Mr. George Haley of this city, is also among the list of anxious friends, who are eagerly awaiting news of the Carpathia's arrival at New York. The Sunard liner, with seven hundred passengers on board, is expected to dock some time to-night o rto-morrow morning. Until such time as this takes place, the names of those missing will only be a matter of conjecture.

The ames of Mr. Haley's friends are Mr. and Mrs. Walworth. They were to have visited New York, Toronto and Montreal. However, Mr. Haley does not know for certain that his friends took passage on the Titanic.

A GREAT FILM

Ever on the still hunt for new pictures, the management of the "Red Mill" are announcing in another column the results of their latest round-up. These additional pictures will figure on the bill for the last two days of this week. A two reel film which truthfully portrays the life of a rancher on the plains of the Northwest Territory, and also any other country, in connection with the everyday characteristics of these men, will be shown. This is acknowledged to be one of the finest films ever produced on the subject, and it is a noteworthy fact that it is being shown for the first time in Ontario in Peterborough. It is to be hoped that the citizens will avail themselves of the opportunity to see this excellent picture, and thereby show their appreciation of the management's enterprise in securing such an attractive bill.

MAJOR ARTHUR PEUCHEN, of Toronto, a survivor of the Titanic wreck.

FATHER AND MOTHER BOTH ILL

A case of destitution arising from the ill health of the parents was disclosed to the civic authorities yesterday, and is being relieved to-day.

Mr. and Mrs. John Trotter, Elm street, moved to the city from Otonabee about a year ago, according to the information received. The husband, it is said, was incapacitated by paralysis before coming to the city, and during his residence has been a sufferer from this affliction. Mrs. Trotter was taken ill over a week ago and thus both husband and wife have been confined to bed. There are four children, the youngest about two years old, and the oldest about seven.

The neighbours of the family have been very kind and have looked after the children to some extent. Mr. Cochrane received notice last night that the family needed assistance and on visiting the home found, as stated, the parents unable to be up and but little of anything in the house. The children were sitting on the floor eating potatoes from plates, on their laps. Arrangements are being made to assist the family.

BUST OF SIR WILFRID LOST.

OTTAWA, APRIL 17.—Among the lost property in the Titanic disaster is a bronze bust of Sir Wilfrid Laurier, which was being brought over by the sculptor, Mr. Paul Chevre, for the place of honour in the rotunda of the Chatean Laurier, the Grand Trunk Railway's new million-dollar hotel at the Capital. The name of the sculptor is among the list of the rescued, but the bust is now at the bottom of the Atlantic.

DOG TAGS MUST BE PURCHASED BEFORE MAY 1

Only Six Have Been Bought Thus Far and 638 Were Secured Last Year

Dog tags may be purchased by May 1st. Such is the civic notice that is being posted. After that date tagless dogs will be in jeopardy for the reason that the police will have special instructions as to the manner of dealing with them.

Last year there were 638 tags taken out and up to the present there have only been six for the present year. The custom of waiting until the last moment is general, but in many cases it leads to a police court case for carelessness in infringing the by-law. There are a large number of dogs to be attended to during the next twelve days or there will be a little bill of costs to be added to it.

DEPORTATION PROCEEDINGS AGAINST ALBERT JARVIS ARE WAIVED

Man Who Was Deported From Peterborough Will be Given Opportunity to Fulfil His Promises.

FACTS OF THE CASE

Mr. Howson, local immigration agent, is in receipt of a communication from Mr. D. W. Scott, Superintendent of Emmigration, stating that one Albert Jarvis, who was recently deported from Peterborough, had been given an opportunity to fulfil his pledge to the government. The facts of this departation case have already been published in these columns, but a brief summary of the case will probably be of benefit, in that it will serve to refute many of the conflicting stories which have been circulated concerning the affair.

Became a Defaulter.

It appears that immigrants coming to this country are required to have at least $50 in cash in addition to a sum sufficient to guarantee their transportation to their destination. In view of the dearth of farm labour, the government has seen fit to waive the regulation for at least six months in the year. As a result immigrants signifying their willingness to accept farm labour are allowed to pass the port of entry with barely enough money to carry them to their destination. "This," said Mr. Howson, "is allowed only on the consideration that the immigrant so forwarded agrees to accept farm labour upon his arrival here. In other words, he pledges himself to the government, to carry out the terms of the agreement upon which he is allowed to enter the country, without the necessity of having to produce $50 at the port of entry. Should he fail to accept farm labour, and decide to engage in some other occupation, he becomes a defaulter in the eyes of the law and renders himself liable to deportation."

Arrived Here With 50 Cents.

When Albert Jarvis blew into town after a three thousand mile journey on sea and land, he could only produce fifty cents. Mr. Howson took him to a suitable boarding house, where he secured a night's lodging and a couple of meals and acted as guarantor of the bill. In the meantime he notified Mr. Jackson of Fowler's Corners, a farmer in need of help, that if he would come into town next morning he would supply him with a man. Accordingly Mr. Jackson journeyed to town next morning, a distance of nine miles, and together with Mr. Howson they repaired to the boarding house, where Jarvis was staying. Mr. Howson upon introducing the prospective employer to Jarvis was met by the latter's refusal to accept the proffered employment, giving as his reasons that he preferred to secure work in the city. Mr. Jackson and Mr. Howson exercised their persuasive powers upon Jarvis but to no avail. The latter was in a combative mood and refused to alter his decision of remaining in the city.

Deportation Proceedings Followed.

Mr. Howson had no other option but to recommend his deportation, which followed a few days later. When Mr. Devlin, the deportation officer, arrived from Kingston he found Jarvis working in the C.G.E.. He took his man to Montreal next day, from which point he was deported to England. In order to give Jarvis a chance to make good his promises to the government, the authorities have decided to waive deportation proceedings and have placed Jarvis with Mr. Edward Clermont, of St. Martin, P.Q. a farmer near Montreal.

JOHN JACOB ASTOR, the New York multi-millionaire, who went down with the Titanic.

NEW SEC. CHOSEN

Mr. Alonzo Hainsworth of Batavia, N.Y., Selected for Vacancy in the Local Y. M. C. A.

Mr. Alonzo A. Hainsworth has been selected as general secrtary of the local Y.M.C.A. and comes to Peterborough with a splendid record and the best of recommendations. Since September Mr. Hainsworth was secretary of the Association at Batavia, N.Y., and before that time held a similar position with the Akron, O., Y.M.C.A.. While in Batavia, Mr. Hainsworth's energetic efforts were responsible for the raising of a $50,000 fund for the erection of a new building there. He is thirty-three years of age and is married. Mr. Hainsworth will commence his duties here on May 15 and is expected to be a source of strength to the local institution.

NO. 2 COMPANY SMOKER

The officers, non-commissioned officers and men of No. 2 Company of the 57th Regiment held a very enjoyable smoker last night, at the Armouries. An exceptionally large number of the men were out, and during the course of the evening a fine luncheon was served under the direction of T. H. Hooper. Pipes and cigars were lighted and an impromptu programme clinched the success of No. 2's smoker. Short speeches were made by Col. Clegg, Capt. McLean, of No. 6, Capt. Watt of No. 2, and Lieut. Glover, of No. 2. Songs were rendered by Sergts. Skates and Hanwell, and Pte. Skelleter, a combination dance by Privates Crowe and Dunnett, and an instrumental duet by Sergt. Skates and Pte. Dunnett. Pte. Skelleter played the piano accompaniments during the evening. The sergeants had charge of the affair, which was indeed a big success, and No. 2 Company promises to be one of the best in the Regiment this year.

SUGGESTS THAT PARK ST. BE WIDENED SOUTH TO THE RIVER

The widening of Park street from the south end of Rubidge street direct through to the river, is the suggestion of a prominent business man, who states that Peterborough has too few wide streets and that the present is the right time to provide for the future.

His opinion as stated to an Examiner reporter, is that the south end of the city is going to be built up during the next few years and that an attempt should be made now when the cost would be light owing to the fact that the street is only beginning to indicate that in future years it is likely to become one of the main thoroughfares in the city.

Park street, he states, cut through the district between the western boundary road extended and Lock street and divides it into two equal sections. It should, therefore, become a main highway with the present streets and any new ones that may be opened extending out on either side of it. Should the road be used in the future for a street car line its width would then be sufficient whereas if left at its present width it would be wide enough for traffic but would not be up to the standard of a modern road used for both vehicular and electric line traffic.

This business man believes that his idea will be fulfilled in regard to the building up of the south end of the city and its southern suburb, but the widening of the street is a matter that lies in other hands.

He further thinks that if it were made broader it would prove particularly attractive for home purchance, but in a commercial respect to the property holders who would be affected.

The purity, flavour and strength of "SALADA" Tea make it incomparably the best value on the market. It is infinitely more delicious and decidedly more economical than other teas.

WEDDING BELLS

CHRISTIE—HOGAN.

A pretty wedding was solemnized in St. Peter's Cathedral yesterday when Mr. Joseph Christie, son of Mr. John Christie, of Norwood, and Miss Minnie Hogan, daughter of Mr. Patrick Hogan, of East City, were united in marriage by the Rev. Father McColl.

The bride, charmingly attired in ivory satin, with pearl trimmings, and carrying a spray of orange blossoms, traversed the aisle leaning upon the arm of her father, by whom she was given away. Mr. Hugh Kelly, of Norwood, was best man, and the bridesmaid, Miss Annie Hogan. Miss Geraldine Hogan acted as flower girl. As the wedding party left the church the wedding march was played by Miss Doherty.

There were many costly and beautiful presents, the groom's gift to the bride being a magnificent sunburst of diamonds.

After a dainty wedding repast the bridal couple left for Buffalo, and on their return will reside in Norwood. The bride wore a travelling costume of navy blue.

HAS BEGUN DUTIES.

Sanitary Inspector Speaire has begun work in his new position and during the past few days has been studying out the district to be covered and the features within it.

"Peterborough Presents Possibilities Unparalleled."

THURSDAY, APRIL 18, 1912

DEGREE IN DISASTER.

Toadyism to wealth and place seems to extend even to the tomb. In dealing with the loss of life, probable and actual, in connection with the Titanic accident, the newspapers were full of despatches sent, giving the minutest particulars, respecting the probable safety, or otherwise, of men prominent for either their position, or wealth, but a mere passing word for the humble passengers, or the crew. While the life of a man of responsible position in the world of action and enterprise is more valuable than another it is only more valuable in relation to the position he occupies, and the greater rarity of men capable of filling the vacancy created by death, as compared with the greater abundance of men capable of filling humbler and less responsible positions. As a great man, his life is no more valuable in the sight of heaven, nor in the estimation and affection of those derpived of dear ones by death, than the life of the humblest head of a family among of the Titanic crew, or the life of the humblest hean of a family among the steerage passengers. Death makes as big a heartache in the tenants of the humblest home as it does in the hearts of the dwellers in the house of Dives, or the palace of the king. And there is an added affliction upon the homes of the poor. With the head, or other member, removed, there is the natural grief that death brings in common to both rich and poor, high and humble. One feels the blow as keenly as the other. But in the case of the wealthy, apart from the vacant place, life can go on as before—the daily bread is sure, and as far as the comforts of life are concerned, there is no loss. But, with the poor, all is lost. Take the six hundred families of the crew of the Titanic, in Southampton. Their case is sadly different. The bread winner is gone; the bulwark against starvation and the miseries of poverty is removed, and to the natural grief is added the menace of misery; children crying for "daddy" and bread, and the bread as munh out of reach as "daddy". Death is always dreadful and cruel, but doubly so when it deals a double blow. There is degree in death and disaster.

PARTISAN SUPPRESSION.

The Telegram says that the Springer township outrage (withholding the Government grant because French was not taught) was known in Toronto last July, but that owing to the incompetence of the Liberal press nothing was said about it in the Dominion campaign of December.

"The stampede against Laurier in Ontario would have been arrested if the Conservative speakers had been called upon to explain why Sir James Whitney's Minister of Education closed an Ontario Public School and deprived seventy-two English-speaking children of instruction in the language of Ontario because that school lacked a teacher who could instruct thirty-four French-speaking children in the language of Quebec. The Springer Township letter could have been used so as to save fifteen or twenty seats for Laurier in Ontario and might easily have kept the Borden Government out of power. And the Springer Township letter would have had a influence upon the Whitney Government's own fortunes at the last Provicial election".

The facts were known in Toronto last July, and as the Telegram was not "incompetent," must have been known in the Telegram office. They were, therefore, deliberately withheld by the Telegram in order that Mr. Borden's chances in the Federal elections, and Sir James Whitney's chances in the Provincial elections, should not be damaged. The Telegram confesses that it suppressed the information until it could do no harm to its Conservative leaders. And this is the paper that used to rebuke the servility of party organs.—Toronto Star.

The Titanic's first victim is a sadly literal fulfilment of Holy Scripture—"the first shall be last."

CAUSE AND EFFECT.

The Brantford Expositor, in reprinting a recent article in the Examiner, on "Cause and Effect" in the matter of spring floods, makes this comment:

The Examiner's article makes interesting reading for the people of Brantford and other Grand River municipalities, who are now giving serious consideration to flood prevention measures. It shows conclusively the great value of storage reservoirs in holding back the waters and preventing freshets, but, unfortunately, we cannot expect the Dominion Government to repeat along the Grand river what it has done along the Trent Valley. It is to the Ontario Government that our representatives must be made, because the Grand is not now a navigable stream, and they should be made with emphasis. In fact, the representatives in the Legislative Assembly from constituencies adjoining the Grand river are blamable for having permitted the recent session of the Assembly to be brought to a close without bringing the matter before the House.

The Examiner also calls attention, as many others have done, to the denuding of the country of forest as being a fruitful source of spring freshets. Nowhere has this stripping been more thoroughly done than in Brant county, where the percentage of forest land is already one of the lowest in the province, and yet the work of apollation still goes on.

WHERE THE BEST IS LIKE THE WORST.

The general feeling, when the encouraging despatches came in on the first day, was one of satisfaction that a boat had been built which could strike an iceberg and still not sink. Most of us remember, no doubt, the accident to another big ship, which lay for many hours disabled while the wireless telegraph called ships to her side from afar off. But when the truth became known, there was the painful realization that when the catastrophe came there was not much difference between what happened to the newest and what might have happened to the oldest ship. There are people in Montreal who were aboard the Bruce when she ran on the rocks of the north east coast of Cape Breton, a year ago, and they are satisfied, from their own experience, that nearly all the rescue work far out there in the ocean must have been done in the dark, that much precious time must have passed before even a beginning was made with the boats, and that, in the time left to them, it was hardly possible to care for more tha have been saved. Surely the next effort of those who are doing so much to make the crossing of the Atlantic little more than a ferry passage must be to ensure that hereafter, when the wireless signals have called other ships to the scene of a wreck, there will be reasonable assurance that those subjected to danger shall be somehow afloat when relief arrives. It may mean lower freight earning, and it may mean higher fares, but the remedy must be found and applied.—Montreal Herald.

THE FINANCIAL TRIUMPH OF HON. DAVID LLOYD GEORGE

Prophecies of Disaster Pale in the Brilliance of His Budget Success

When Mr. Lloyd George rose in the House of Commons the other day to make his annual budget statement and announce the greatest surplus on record, he would have been more than human if he had refrained from recalling the prophecies of disaster which assailed his memorable budget of 1909. He prefaced his statement with these comments:

"Three years ago I stood at this box. I was then confronted with the largest deficit any chancellor of the exchequer had to encounter in times of peace. It was a deficit that was serious in itself, but what made it still graver was the fact that we had certain commitments — they were not the commitments of one party alone, but of all parties in this House—that indicated clearly a rapid gorwth in expenditure during the impending years. I therefore had to budget not merely for that particular year, but I had to so arrange the taxation that it should provide for the growing needs of the ensuing years.

"The proposals which I then submitted to Parliament were carried into law after porbably the fiercest political conflict we have been engaged in since the days of the great reform bill—a conflict which deeply shook the constitution and in the issue profoundly modified it. (Ministerial cheers.) There were more than the usual number of prophecies of evil (Ministerial cheers), and I think I may say that they were characterized by more than the usual virulence. Those proposals have been in actual operation for three years, and I think the time has come to review their working. (Ministerial cheers.)"

The absolutely new taxes created by the budget of 1909 produced £23,000,000 (nearly $115,000,000) in the financial year ending April 1, 1912, without adding a penny to the cost of the necessaries of life. The opponents of the budget predicted three years ago that these taxes would not only be unproductive, but would put an intolerable weight on trade and industry. The financial results have been already noted. As to the effect upon business, Mr. Lloyd George said:

"Wherever you looked before the coal strike, which is purely a temporary interference, you saw prosperous factories and warehouses, growing bank deposits, enormous increases in banker's clearances showing great trade activity, and what was still more remarkable, the increases in these bank clearances were not merely in London, where they might mean Stock Exchange transactions, but they were more marked in the provinces. Factories are working at full time and overtime. Collieries at full pressure. Shops that were idle three years ago have full work, and, highest test of all, you have increasing tariff receipts on our railways. This is the best answer to those who predicted ruin through the budget of 1909. (Loud Ministerial cheers.) And I am sure we must all, without distinction of party, feel glad (hear, hear), because he must be a poor patriot indeed who does not re joice in the prosperity of his own country, lest, perchance, an avowal of it should do some damage to the party. (Ministerial laughter, cheers, and a voice: "Cheer up, Banbury.")

Of the yield of the new taxes $40,000,000 came from luxuries, chiefly tobacco and liquor, although the consumption of the latter has fallen 20 per cent. in three years, by reason of the extra taxation. The tax of two-pence on the pound on unearned incomes over $600, and upon earned incomes over $15,000, produced $20,900,000. The super-tax on incomes over $25,000 produced $15,000,000. The extra death duties which applied to estates valued at $25,000 and over yielded $31,000,000. The new tax on idle, undeveloped land yielded $2,000,000, and will yield $3,000,000 next year. The impost which met with the fiercest opposition of the landed interest—the increment tax—will not begin to yield until the valuation of every foot of land in the United Kingdof has been completed. This colossal work, upon which a large staff is engaged, will take three or four years more. When it is finished every parcel of land sold in the future, or transferred by the death of the owner, will pay to the state 20 per cent. of the increase in its price above the state valuation, providing the increase is over 10 per cent. and has not been due to improvements made by the owner. This levy upon unearned increment, upon values not created by the owner, but by the growth of the community, will be increasingly fruitful when it comes into operation. So increasingly productive has been the budget for 1909 that the Chancellor estimates a revenue of $535,000,000 in the current year beginning April 1, an increase of $10,000,000 withoute levying a new tax.—London Advertiser.

THE RIGHT END OF THE WRONG END OF THE LOOSE-END "ROGERS" DAM

The following letter, written by Mr. J. H. Burnham, M.P., appeared in Wednesday morning's impression of the personal organ, respecting the "Rogers's" dam:

Editor Morning Times.

Sir,—The Examiner of last evening says that the Rogers' dam has been made a botch of. This is true; but the Examiner also says that it was built by a new staff, under the inspiration of the new member of West Peterborough. The truth is, that the dam was built by the old staff, under the superintendency of Clem Gordon and Vinnette. It was not due to any new appointments, and would in all probability not have occurred had there been some new appointments.

J. H. Burnham.

Mr. Burnham should at least tell the truth, for he knows what kind of lie a lie about a dam would be called. The Examiner did not say that the defective dam "was built by a new staff". What the Examiner said was that the dam "was hurriedly begun last autumn by the new member for West Peterborough" and the inference that a botch would be made was natural. The old Adam crops out in Mr. Burnham's letter. The old original coward, Adam, laid the blame upon the woman: "She tempted me and I did eat," or words to that effect. Mr. Burnham can't shirk responsibility by trying to blame the staff of workmen, instead of the plans. The staff is not to blame if the work was done according to the plans. There is no complaint, so far, that the dam was badly built; the dam appears to be all right, as far as it goes; but it doesn't go far enough—into the bank. The plans, that did not run the dam far enough into the solid earth of the bank for safety, or did not provide for a wing dam, were defective, and hence the trouble. No staff, old or new, would dare to change the engineer's plans. The staff is not to blame; the blame lies higher up, and Mr. Burnham must take his share. Last autumn he caused to be, or there was published, with a great flourish of trumpets, the statement that Mr. Burnham was to save the lumbermen; provide conditions that had too long been wanting. He was to do it; he has done it, and the result is a useless dam—at least this spring it will not make the lumbermen rich. It is not nice in Mr. Burnham to blame the staff, which, presumably, carried out the plans provided. It would be just as reasonable to blame the man who sold the cement, or the teamster who delivered it. Mr. Burnham is the man behind the gun and if the gun "kicked" so much the worse for the man who aimed to do so much in a hurry to show his solicitous zeal. Building dams and wharves that will stay built are evidently not in the new member's line.

HOMESEEKERS' AND SETTLERS SPECIAL TRAINS TO WESTERN CANADA

Via Chicago and St. Paul, April 16th, 23rd, and 30th, and every second Tuesday thereafter, until Sept. 17th, inclusive. Tickets will also be on sale on certain dates via Sarnia and Northern Navigation Company. Special train will leave Toronto 10.30 p.m. on above dates for Edmonton, and points in Manitoba and Saskatchewa, stopping at all points on the Grand Trunk Pacific Railway west of Winnipeg. Through coaches and Pullman Tourist Sleepers will be carried, fully equipped with bedding and porter in charge. Berths may be secured in sleepers at a low rate. This is an exceptional opportunity for those wishing to take advantage of the remarkably low one-way settlers' rates or round trip Homeseekers' excursions through the American cities. No change of cars. Secure tickets and berth reservations from any Grand Trunk Agent, or write A. E. Duff, District Passenger Agent, Union Station, Toronto. d-w-tf

TRAPPERS ARE SUCCESSFUL

One Engaged in the business speaks Optimistically of the Outlook

The trapping season is in full swing and according to the statement of a redskin from the Hiawatha reserve, the season promises to be a banner one. The bays and the small streams emptying into Rice Lake are practically free from ice, a circumstance which renders the haunts of the wily muskrat all the more accessible.

There are an unusually large number of wild ducks on the lake which, according to the Examiner's informant, is significant of a belated spring. Tht trapping season is nearing its finish and it is only a matter of a few days more until the traps will be raised and hung in the outhouse where they will revel in rust until the call of the wild again prompts Indian to beat the banks of lake and stream in search of the cunningly concealed muskrat mounds.

CAN OCEAN STEAMSHIPS BE MADE UNSINKABLE?

The wreck of two liners in succession of the Peninsular and Oriental fleet, and the terrible catastrophe that has overtaken the Titanic go to show that the watertight compartments which were looked upon as a bulwark of safety are not dependable. It is possible that they may even become a source of danger. It is a melancholy reflection that all the boasted and wonderful progress made in throwing safeguards about ocean travel seems to have been turned into mockery. Hugeness of bulk of hull seems but to loose more dreadful forces in collision.

While accepting the lesson with all humility as apparently putting to naught man's proudest handiwork, one may not be justified in ignoring a suggestion that has been made as the result of previous disasters, that there is a possible and practical method of rendering ships unsinkable. The idea, which comes from an Italian firm of salvers, is to provide inflatable flexible tubes of fabric and rubber, connected by a framework, lowered down and secured to the hull of the vessel. The tubes are then inflated. When a sufficient number of the inflated tubes has been secured to displace the same volume of water as the ship displaces he would naturally keep to the surface. It is claimed that if every sea-going vessel were provided with such inflatable tubes normally lying flat and uninflated upon the walls, but capable of being rapidly inflated in an emergency, the vessel would be rendered unsinkable. It is not unlikely that the watertight compartments may be abandoned as failing to realize expectations and the inflatable rubber tubes may be among the devices that will be given a thorough trial.—Montreal Herald.

Electric Restorer for Men

Phosphenol restores every a nve in the body to its proper tension; restores vim and vitality. Premature decay and all nerve weakness averted at once. Phosphenol will make you a new man. Price $3 a box, or two for $5. Mailed to any address. The Scobell Drug Co., St. Catharines, Ont.

IN THE WORLD OF SPORT

RIVERSIDE PARK IS HALF UNDER WATER

Prospects of Peterboro' Squad Training There Are Doubtful and it is Likely the Exhibition Grounds Will Have to be Secured for Training Purposes---Outfield is Submerged Now and Water is Rising.

The danger, as indicated in the Examiner last night, that Riverside Park would be flooded, was unfortunately realized during last night, and this morning nearly half the ball grounds is under water; centre field is a lake, almost to second base, while a portion of each of the other gardens is inundated. The field has been flooded from the south end of the grounds, but if the river keeps rising there is a prospect that the flood will invade the Park from the west side as well, in which case the whole diamond will be submerged.

The present condition of the grounds and the outlook, generally, make the prospects of the Peterborough squad doing their spring training across the river, extremely doubtful, and the local management are considering the advisability of securing the Exhibition grounds for practise purposes. Manager Templin will be along in a day or two and the situation will be discussed then. If there is no further rise in the river and there is a week or so of warm weather, the Riverside grounds may possibly be available early in May.

DON CAMERON, of Cornwall, one of the best point players in the game, who is expected to join one of the Toronto lacrosse teams.

Florence Barclay's (author of the Rosary) new book "Through The Postern Gate" for sale at Trebilcock Bros.

NEWS FROM THE LEAGUE CIRCUIT

Mr. W. A. Mahoney, president and owner of the Guelph Maple Leafs of the Canadian League was in Peterboro' yesterday on business and found time for a fraternal call upon some of the local magnates. The head of the Guelph forces is very enthusiastic over the prospects for the Canadian League this season and remarked that while the Guelph people were not saying very much about their club, the Maple Leafs would be right there when the campaign started. President Mahoney also intimated that he would have something to say about the Canadian League schedule when the League executive meets to complete the draft. He strongly object to having Guelph open in London, as was ed for. President Mahoney says his club opened in Cockneytown last year and thinks he should have a change this year and begin the campaign in Hamilton. If he carries his point, the Peterborough club will begin the season in London instead of Hamilton as designated in the schedule sent out by Secretary Robinson.

Ottawa Free Press: This weather makes the ball fans emit a few "ee-yahs" such as Hughie Jennings is wont to erupt along the third base coaching line. This time next month Ottawa will have an opportunity of looking over her Canadian League representatives. The folks can see for themselves whether Harry Draper is really another Vean Gregg in disguise, or Jack Callahan an unseasoned Joe Jackson. The Senators will cavort at Lansdowne Park May 16th, after a two -day series up west preceded by a two weeks' training spell at Chatham. Sometimes in looking over the records of the men Cook and Shaughnessy have gathered together, we are inclined to think we have the Canadian League penant dead to rights. Then again reading of what Curt Templin has rounded up at Peterborough, or Rube Deneau at Berlin, we don't feel any more secure than a possible first division club.

At any rate the season is going to open up with an awful flare of red fire and if the team delivers, baseball will positively turn out a howling success in the Dominion Capital. Among the outside celebrities to be invited to take part in the inaugural ceremonies here will be President Fitzgerald of the Canadian League and President Ed. Barrow of the International League.

Word from Manager Cook to-day states the club will be well stocked with reliable pitchers, two of whom will be south-paws. Cook will be in Ottawa to-morrow morning. He is not bringing any men with him, all his recruits beig booked to report at Chatham. The manager will stay here till the latter part of the month then hike for the training camp himself.

London Advertiser: Manager Frank Bowerman will report in London next Friday, and will bring with him a couple of fast outfielders, and maybe a pitcher or two. He wrote a letter to the local management the other day and asked for some contract forms, as he wanted to sign a couple of good men. He did not mention any names but there is no doubt that the players are good ones, or Frank would not have taken the trouble to go after them. As soon as the players who have been notified to report here arrive, they will begin practice at Tecumseh Park. There are nearly thirteen names on the London roster at present and the weeding our process will start almost as soon as the men report.

EXCITING EXPERIENCE

Lond-ay Post: The perils of the deep do not exist only on the ocean, and the Great Lakes, as the crew of the Marie Louise will tell you after yesterday's exciting adventure, just above the dam at the Canadian Cereal Company's mill.

The tug finished yesterday, some special work above the locks, and was on her way down to her dock at the Baker Lumber Co's. mill. She came faster with the current than was expected and the floating tramway at the mill could not be swung clear quickly enough so the boat had to lie to upstream a few hundred feet.

The current was so swift that as soon as the engine stopped the craft became unmanageable and drifted broadside against the tramway where the force of the water held her so tight that it was impossible to move under her own power. The heavy pressure and struggles of the tug soon forced the supporting screws partly loose from the tramway and one end of the iron girders crushed in the bulwarks of the boat in two or three places.

Fearing that the whole outfit would break away and smash up against the dam about thirty or more men from the mill put a hawser to the bow of the tug and with the aid of the engines were able to pull her head up stream, after which she was able to manage herself.

Needless to say the captain was much relieved a few minutes later to be able to draw into the lock without any further damage. If the bridge had broken away there was great danger that the steamer would come to grief against the cement work of the dam or piers.

RESULTS HE GOT WERE PERFECT

Sam Mallette's Bright's Disease Cured by Dodd's Kidney Pills.

He Suffered Tortures and the Doctor Failed to Give Relief but Three Boxes Cured Him.

Rutter Station, Ont., April 17.—(Special.)—"I got perfect results from Dodd's Kidney Pills.' So says Mr. Sam Mallette of this place. And he has a reason.

"My sickness started from a strain," Mr. Mallette continues, "and for a year I did not know a well day. My sleep was broken and unrefreshing, my appetite was fitful and my limbs would swell.

"Then rheumatism set in and neuralgia, backache, headache and heart trouble added to my tortures. I was attended by a doctor, but he did me no lasting good.

"Finally, when Bright's Disease had me in its grasp, I decided to try Dodd's Kidney Pills, and after taking three boxes, I was as well as ever I was in my life. I have had no pain since and advise all my friends who suffer from Kidney disease to take Dodd's Kidney Pills and be cured."

Mr. Mallette's case shows what neglected kidney disease will result in and what splendid results Dodd's Kidney Pills give.

WAS POSTPONED

Owing to the fact that Mr. John Flett, who represents the American Federation of Labour, was unable to be present, last night, the organization of a Labour Union was postponed until Wednesday night next. There was a good attendance and the feeling expressed was that the union should be proceeded with. It was pointed out that it would be a good thing for the labouring men in the city if they could become organized. It was also stated that politics should be strictly barred from all meetings. It i hoped by those who are striving most for the union that it will be given an enthusiastic beginning at next week's meeting.

MID-SUMMER MILLINERY

Miss Horsefield, of the Peterborough Millinery Parlours, has just returned from attending the Mid-Summer Opening a Toronto, and has purchased the new models for Summer wear. Your inspection invited.

MRS. W. B. ARMSTRONG,
435 George St., upstairs
in old T. A. S. Rooms

NOW IS THE PROPER TIME TO LEARN HOW TO SWIM

Great Campaign at the Y.M.C.A. to Teach Men and Boys of Peterborough to Feel at Home in the Water---Two Weeks' Effort Commences on April 22.

Written for the Examiner by Roy Gilray

(By Roy Gilray.)

No person endowed with the least spark of common sense, after giving the subject serious thought, can offer a good reason why a knowledge of the art of swimming should not be made a part of the education of every boy and girl attending school, for if such were the case we would have a grown-up community of better developed people.

As a means of recreation and for bodily development, swimming is the exercise par excellence, there being no other form of exercise that tends to more develop the symmetry of the body or add more to health and pleasure than swimming.

No one knows when he may be called upon for a test of his knowledge of the art, and when such emergency arises a knowledge of swimming is not only needed, but there is a great risk of loss of life, where there is a lack of knowledge of this most useful accomplishment. It is obvious, therefore, that everyone should be taught the art in order that they may not only take care of themselves in time of accident, but lend assistance to others who may be in distress.

We occasionally hear the statement made that good swimmers are frequently drowned, but a careful inquiry into the facts shows that the percentage of such fatalities among experts is so small, by comparison with the large number of those who cannot swim, as to not bear serious thought. Many of these so-called swimmers lack good judgment and usually lose their lives in some foolhardy attempt that another person would not think of trying.

Too much cannot be said in favour of swimming as a means of exercise. So many examples can be given of the beneficial results of practice at this form of recreation and branch of sport that a recital of them would become tiresome. Suffice it to say that there is no other form of exercise that tends to a more uniform development of the entire body and brings more muscles into play, including the strengthening of heart and lungs than swimming. Besides, swimming has the effect of toning up, invigorating and quickening the entire muscular circulation and energy, rendering the moving masses pliant, supple and responsive. Compared to other forms of exercise swimming ranks second to none as a means of perfect bodily development.

A plunge in the open water, followed by a sun bath, is one of the finest things for tuning up the nerves and invigorating the whole system. The reaction that follows such a bath quickens and increases the circulation and the whole body is thereby strengthened and fortified against colds and sudden changes.

Plain swimming, or the ability to keep the body afloat in the water and propel it by means of the hands and feet, is really so simple an accomplishment that it is a matter of surprise that anyone passes childhood days without learning to swim. When those of us who have acquired the art come in contact with grown up people who frankly confess that they are unable to swim, we cannot be blamed for looking upon them in astonishment and wondering how it could be possible that this part of their education should have been so sadly neglected.

Fortunately the art is easily learned, and with a swimming pool, scientifically built, and maintained in strict hygienic condition, together with a competent instructor, such as is available at the Young Men's Christian Association, there should be no excuse for anyone remaining in ignorance of the art.

For the benefit of the citizens of Peterborough, particularly the men and boys, the local Y.M.C.A. have decided to place their splendid equipment at the disposal of all those who wish to take advantage of the opportunity of learning how to swim. They will conduct a two weeks' campaign such as was inaugurated last year, and which proved such a success. Out of a total of 95 who presented themselves, 47 were taught this most useful art, and the majority of the balance obtained such an insight into the methods used that 'ere the summer was over, no doubt, many became sufficiently proficient as to be able to take care of themselves in a case of emergency.

The Physical Department, under the Director, Mr. Thompson, will be in charge of the campaign which will last but two weeks, commencing April 22nd. Too much credit cannot be given the Y.M.C.A. for thus opening its doors to the public and allowing them to take advantage of their resources entirely free of charge, as well as undertaking the herculean task of teaching every man and boy in Peterborough, who cannot already do so, to swim, so as to save, as far as possible, the lives of many person annually lot by drowning in our midst.

Besides conducting the campaign at their own expense, they will donate a "Swimmer's Button" to all boys who succeed in learning to swim.

There is nothing so dear to the heart of a bright, growing lad than a good swim, and so many are deprived of the pleasure by the repeated cautionings of anxious mothers, that the desire grows all the stronger, and more boys have acquired habits of disobedience from this one sport than all others put together. Besides depriving the boy of a good time, it serves to weaken his body, and lessen his powers of resistence, so that in later years he will become a prey to almost any disease that comes his way, while it tends to lessen parental control.

Fathers, listen to me.

You know you are losing that grasp of your boy which every wise parent seeks to cultivate. He has gradually become estranged, for what reason you are at a loss to know; in short, your boy has become a "stranger" in the household. Here is a golden opportunity for you to retrieve the past and get "acquainted" with your son. See that he is taught how to swim. If you cannot swim, do not let the next two weeks go over your head without acquiring the knowledge; then, when the warm summer evenings come and your boy pines for the cool streams, you will have his lasting respect and admiration by your going along and enjoying what he enjoys, adding physical energies to your bodies, and untold happiness to your lives.

8 BOXES CURED PSORIASIS

Mrs. Nettie Massey, Comeeon, Ont., writes: "Three doctors described my trouble as psoriasis, and one said I could never be cured. The disease spread all over me, even on my face and head, and the itching and burning was hard to bear. I used eight boxes of Dr. Chase's Ointment and am entirely cured—not a sore to be seen. I can hardly praise this Ointment enough."

Brock St. Roller Rink BLOCK CONTEST, Friday Night, April 19th. Two valuable Prizes given.

An ENJOYABLE DANCE.

Held Under the Auspcies of the Marlboro Club.

The Marlboro Club, formerly known as the West End Club gave one of those informal dances for which they are noted, last evening. About fifty couples were present and a most enjoyable time was spent. Miss Gladman furnished the music on the piano in her usual good form. The winners in the military euchre contest, which preceded the dance, were Miss M. Shevlin and Miss Dolly Evans.

HALL'S SPECIALS

A Wide Range of New

Novelty Neckwear

Featured Friday at

25c each

ONLY a personal inspection will give an adequate idea of the superiority and wide range of choice Neckwear accessories being featured Friday in our Neckwear Section.

A few of the exceptional values to be found are pretty Lace Jabots, fine Muslin Sailor Collars daintily trimmed with Torchon Lace, soft Dutch Collars trimmed with pretty medallions and fine lace, fancy stock collars, the new Auto embroidered and pretty Linen Collars. All marked at the very moderate price

Special Friday 25c

At Prices ranging from 35c to $1.75 we have a complete assortment of all the newest Neckwear creations so essential to Women's dress.

RICHARD HALL & SON LIMITED

Advisory Board Was Organized

The Imperial Home Reunion Association scheme advanced one step further Tuesday night, when a number of prominent citizens gathered together in Mr. G. N. Gordon's office, for the purpose of formulating plans for the immediate promulgation of the project. They were in a discoursive mood, with the result that the proposition was severely dealt with in discussion. An encouraging number of guarantors have been secured to back the scheme, and it is hoped to have it in operation by the first of May. There are a large number of workingmen in and around Peterborough, who would be benefitted, in addition to the distinct advantage that would accrue to the city, by having the wives and families of these men located here, thereby conserving the money of these wage-earners, instead of having them send it home, as a great many of them have been doing in the past.

An Advisory Board of ten reputable citizens was formed with Mr. G. N. Gordon as chairman. They will draw up a constitution and devise ways and means of putting the project into action as soon as possible.

Sorest Corn Removed Without Pain, Quickly

No wonder Putnam's Painless Corn Extractor sells so well. You see it is different from any other remedy you have ever used. Does not merely relieve the pain temporarily, but is guaranteed to remove the meanest, sorest corn or callous no matter how long it has bothered you. Get a 25c. bottle of "Putnam's" to-day and prove it. The name tells the story — Putnam's Painless Corn and Wart Extractor, which is sold by druggists.

FICTION STORY OF AN ICEBERG DISASTER THAT CLOSELY FOLLOWS TITANIC FATALITY

Mayn Clew Garnet in the Popular Magazine Issued Last Week Tells of Destruction of the "Admiral," an 800 Foot Liner.

A VIVID DESCRIPTION

A singular coincidence in connection with the terrible catastrophe to the "Titanic" is that Mayn Clew Garnett, the well-known writer of sea yarns should have written and published in the current issue of the Popular Magazine a story of a disaster that in some of its main points closely follows that of the annihilation of the White Sar leviathan. A number of Peterborough people have no doubt read Mr. Garnett's graphic, clever story in the Popular. For the benefit of the others who have not, the Examiner to-day publishes the following extract from the tale, which is entitled "The White Ghost of Disaster." The vivid picture of the destruction of the "Admiral" was no doubt duplicated on Monday morning when the "Titanic" plunged down into her water grave, with 1,300 souls on board.

Here is the story as told by Mr. Garnett in the Popular:

Captain Brownson came upon the bridge. It was early morning, and the liner was tearing through a smooth sea in about forty-three north latitude. The sun had not yet risen, out the grey of the coming daylight showed a heaving swell that rolled with the steadiness that told of a long stretch of calm water behind it. The men of the morning watch showed heir pale faces white with that peculiar pallor which comes from the loss of the healthful sleep between midnight and morning. It was the second mate's watch, and that officer greeted the comander as he came to the bridge rail where the mate stood staring into the grey ahead.

"See anything?" asked the master curtly.

"No, sir—but I smell it—feel it," said the mate, without turning his head.

"What " asked Brownson.

"Dons't you feel it?—the chill, the—well, it's ice, sir—ice, if I know anything."

"Ice?" snarled the captain. "You're crazy! Whats the matter with you?"

"Oh, very well—you asked me—I told you—that's all."

The captain snorted. He disliked the second officer exceedingly. Mr. Smith had been sent him by the company at the request of the manager of the London office. He had always picked his own men, and he resented the office picking them for him. Besides, he had a nephew, a passenger aboard, who was an officer out of a berth.

"What the devil do they know of a man, anyhow! I'm the one responsible for him. I'm the one, then, to choose him. They won't let me shirk blame if anything happens, and yet they sent me a man I nnow nothing of, except that he is young and strong. I'll wake him up some if he stays here." So he had comented to Mr. Wylie, the chief mate. Mr. Wylie had listened, thought over the matter, and nodded his head sagely.

"Sure," he vouchsafed; "sure thing." That was as much as any one ever got out of Wylie. He was not a talkative mate. Yet when he knew Smith better, he retailed the master's conversation to him during a spell of generosity engendered by the donation of a few high balls by Macdowell, the chief engineer. Smith thanked him—and went his way as before, trying to do the best he could. He did not shirk duty on that account. Wylie insisted that the captain was right. A master was responsible, and it was always customary for him to pick his men as far as possible. Besides, as Wylie had learned from Macdowell, Brownson had a nephew in view that would have filled the berth about right—so Wylie thought—and Smith was a nuisance. Smith had taken it all in good part, and smiled. He liked Wylie.

Brownson sniffed the air hungrily as he stood there at the bridge rail. The air was chilly, but it was always chilly in that latitude even in summer.

"How does she head?" he asked savagely of the man at the steam-steering gear. The man spoke through the pilot-house window in a monotone:

"West—three degrees south, sir."

"That's west—one south by standard?" snapped Brownson.

"Yes, sir," said Smith.

"Let her go west—two south by binnacle—and mark that time accurately," ordered Brownson.

He would shift her a bit. The cool air seemed to come from the northward. It was as if a door in an ice box were suddenly opened and the cold air within let out in a cold, damp mass. A thin haze covered the sea. The side wash foamed away noisily, and disappeared in the mist a few fathoms from the ship's side. It seemed to thicken as the minutes passed.

Brownson was nervous. He went inside the pilot house and spoke to the engineer through the tube leading to the engine room.

"How is she gonig?"

"Three hundred and ten, sir; never less than three hundred and five the watch."

"Well, she's going too almighty fast—shut her down to two hundred," snapped Brownson. "She's been doing tweny-two knots—it's too fast—too fast, anyhow, in this weather. Ten knots will do until the sun scoffs off this mist. Shut her down."

The slowing engines eased their vibrations, and the side wash rolled less noisily. There was a strange stillness over the sea. The silence grew as the headway sibsided.

The captain listened intently. He felt something.

There is always that strange something that a seaman feels in the presence of great danger when awake. It has never been explained. But all good—really good—masters have felt it; can tell you of it if they will. It is uncanny, but it is as true as gospel. The second officer had felt it in the air, felt it in his nerves. He felt—ice. It was danger.

Smith stood there watching the haze that seemed to deepen rather than disperse as the morning grew. The men turned out and the hose was started, the decks were sluiced down, and the gang with the squeegees followed. Two bells struck—five o'clock. Smith strained his gaze straight ino the haze ahead. He fixed and refixed his glasses—a pair of powerful lenses of fifteen lines. He had bought them for fifty dollars, and always kept them near him while on watch.

A man came up the bridge steps.

"Shall I send up your coffee, sir?" he asked.

"Yes, send it up," said Smith, in a whisper. He was listening.

Something sounded out there in the haze. It was a strange, vibrating sound, a sort of whispering murmur, soft and low, like the far-away notes of a harp. Then it ceased. Smith looked at the captain who stood within the pilot-house window gazing down at the men at work on the deck below. The noise of the rushing water from the hose and their low tones seemed to annoy him. The wore rubber boots, and their footsteps were silent; but he gruffly ordered the bos'n to make them "shut up."

"Better slow he rdown, sir—there's ice somewhere about here," said the second mate anxiously. He was thinking of the thousand and more souls below and the millions in cargo values.

"Who's running this ship—me or you?" snarled Brownson savagely.

It was an unnecessary remark, wholly uncalled for. Smith flushed under his tan and pallor. He had seldom been spoken to like that. He would have to stand it; but he would aunt a new ship as soon as he came ashore again. It was bad enough to be treated like a boy; but to be talked to that way before the men made it impossible, absolutely impossible. It meant the end of discipline at once. A man would retail it, more would repeat it, and—then—Smith turned away from the bridge rail in utter disgust. He was furious.

"Blast the ship!" he muttered as he turned away and gazed aft. His interest was over, entirely over. He would no have heard a gun fired at that moment, so furious was the passion at the unmerited insolence from his commander.

And then, as if to give insult to injury, Brownson called down the tube::

"Full speed ahead—give her all she'll do—I'm tired of loafing around here all the morning." Then he rang up the telegraph, and the sudden vibrations told of a giant let loose below

The "Admiral" started ahead majestically. She was a giant liner, a ship of eight hundred feet in length. It took some moments to get headway upon that vast hull. But she started, and in a few minutes the snoring of the bow wave told of a tearing speed. She was doing twenty-two and a half knots an hour, or more than twenty-five miles, the speed of a train of cars.

The under steward came up the bridge steps with the coffee. Smith took his cup and drank it greedily, almost savagely. He was much hurt His feelings were roughened up to the limit Yet he had not even answered the captain back. He took his place at the bridge rail and gazed straight ahead into the grey mist. He saw nothing, felt nothing, but the pain of his insult.

"Let him run the ship to h—— and back," he said to himself.

There was a puff of colder air than usual. A chill as of death itself came floating over the silent ocean. A man on lookout stood staring straight into the mist ahead, and then sang out:

"Something right ahead, sir," he yelled in a voice that carried like the roar of a gun.

Brownson just seized the lever shutting the compartments, swung it, jammed it hard over, and screamed:

"Stop her—stop her—hard over your wheel—hard over——"

His voice ended in a vibrating screech that sounded wild, weird, uncanny in that awful silence. A hundred men stopped in their stride, or work, paralyzed at the tones coming from the bridge.

And then came the impact.

With a grinding, smashing roar as of thousands of tons coming together, th huge liner plunged headlong into the iceberg that rose grim and silent right ahead, towering over her in spite of her great height. The shock was terrific, an dthe grinding, thundering crash of falling tons of ice, coupled with the rending of steel plates and solid planks, made chaos of all sound.

The "Admiral" bit in, dug, ploughed, kept on going, going, and the whole forward part of her almost disappeared in the wall of white. A thousand tons of huge flakes slammed and slid down her decks, burying her to the fore hatch in the smother. A thousand tons more crashed, slid, and plunged down the slopes of the icy mountain and hurled themselves into the sea with giant splashes, sending torrents of water as high as the bridge rail. The men who had been forward were swept away by the avalanche. Many were never seen again. And then, with reversed engines, she finally came to a dead stop, with her bows jammed a hundred feet deep in the ice wall of the berg.

After that it was panic. All discipline seemed to end in the shock and struggle. Brownson howled and stormed from the bridge, and Smith shouted orders and sprang down to enforce them. The chief mate came on deck in his underclothes, and passed the word to man the boats. A thousand passengers jammed the companionway and strove with panic and inhuman fury to reach the deck.

One man clad in a night robe gained the outside of the press, and, running swiftly along the deck, flitted like a ghost over the rail, and disappeared into the sea. He had gone clean crazy, perfectly insane in the panic.

(Concluded to-morrow.)

Scene From "The Barrier" the Great Alaskan Play, at "The Grand" next Saturday, April 20. Big Bargain Matinee at 2:30. Best Seats 50c.

ZAM-BUK IN THE HOME

Read How Useful It Proved in These Widely Different Cases.

Zam-Buk's strongest points is its effectiveness in all kinds of skin diseases and injuries. Just note how excellent these persons proved it in widely different directions.

Sore Heel.—Mrs. C. A. Campbell, of Powassan, Ont., writes: "One of my heels was very badly blistered by a pair of new shoes, and the poisonous dye from my stocking got into it, and made a bad sore. For a week I could not put on a shoe, and suffered great pain. I applied Zam-Buk, and in a few days it drew the poison out and healed the wound."

Bad Cut.—Mrs. J. Virgint, of Nonquaga, Ont., writes. "Zam-Buk healed a bad cut which I sustained. I was hurrying across my yard one day when I slipped and fell heavily, my knee striking a sharp stone. At the moment I did not realize how badly I was hurt, but I found that I had a bad cut about two inches long, very jagged and very deep. We bathed the cut and applied Zam-Buk. This stopped the smarting very quickly, and in a few days it had healed the wound completely. For cuts and bruises Zam-Buk is a splendid remedy."

Eczema Cured.—Mrs. Antoine Arsenault of Maxiamville, P.E.I., writes: "I can highly recommend Zam-Buk to any person suffering from eczema. I had this disease and was under doctors' treatment for two years, without any good result. I then tried Zam-Buk and in the end it cured me."

Zam-Buk is just as good for piles, blood-poison, festering sores, pimples, eruptions, cuts, burns, bruises, and all skin injuries and diseases. 50c. box, all druggists and stores, or post free for price from Zam-Buk Co., Toronto. Try Zam-Buk Soap, 25c. tablet.

Housecleaning Time is Wallpaper Time

C. G. E. Angling Club Hold Their Annual Meeting---Elect Officers

Members Looking Forward to a Good Year at Rice Lake—Cottage Has Fine New Verandah.

EXCURSION ON JUNE 8

The members of the C.G.E. Angling Club have once more responded to the call of old Rice Lake and metaphorically overhauled their fishing tackle and refurbished their favourite baits at the annual meeting of the club held last night in the Y.M.C.A.

The chronicles of last year's events and near events were duly recorded by Angler McCabe and were handed over to the custodian of the archives whose name does not appear in the official list. Last year's official Liar presented a voluminous statement of the enjoyment derived from the wide, sweeping verandah last July and August; of the details of the hooking and landing of 156 lunge averaging from 20 to 300 pounds each, of the special rate secured from Suburban Electric Railway for week end trips during June, July and August; of J. Trombley's guaranteed monguito mixture; and of the special investigations as to the locations of the fish beds this summer.

Excursion June 8th.

What the anglers really did decide upon, was to hold their annual excursion on Saturday, June 8th, and the following committee was appointed to take charge of the arrangements, Anglers J. G. M. Wilson, McCabe, Trombley, Clancy, Canniff, Davis and Greenwood. The day is a long way off yet, in fact old Rice Lake is still sheathed in a layer of last winter's ice, but it is not too soon to remark that this outing has always been a marked success, socially and otherwise, and the best traditions must be upheld, so saith the Bard in a neat quatrain that reads like a Daffydil.

Cottage in Good Shape.

The new verandah is a thing of beauty according to those who laboured on it. But summer cottage verandahs are intended as an arbour for mosquitoes, especially on Saturday evenings, when 21 miles of the winding Otonabee separate you from the dust of the city, and you are psychologically prepared to appreciate the summer moon. However, it is too early yet to conjure up prospective mosquitoes, and, anyway, they will be safeguarded against.

The Anglers are already appreciating that verandah, and it is only one detail that augurs well for the coming season. The supply of power boats is reported very satisfactory, and in fact the prospects are altogether bright. No season has been begun with a more inviting outlook, and from the roster of the officers, the success of the coming season is practically assured.

The New Officers.

The Anglers' crew was elected as follows for 1912:

Rear Admiral—Mr. A. W. Patterson.
Commodore—Mr. J. G. M. Wilson.
Captain—Mr. S. Canniff.
Sec.-Treas.—Mr. J. J. McCabe.
Chief Chef—Mr. J. Trombley.
Guide—Mr. W. Greenwood.
Bard—Mr. A. Watterson.
Cabin Boy—Mr. C. Davis.
Scullion—Mr. J. J. Clancy.
Official Liar—Mr. Geo. Brisco.
Executive—Messrs. A. W. Patterson, J. Trombley, W. Greenwood, C. Davis and S. Canniff.

Quality, Style and Finish Are Combined in the

Attractive Dresses

Which we are Showing in our Second Floor Department

"Variety" is the principal feature of our splendid showing of attractive one-piece ***dresses*** for women and misses. Modelled on lines decreed by fashion for 1912 they reveal a wonderful diversity of new and orginal treatments which mark them as being "different" of a style that possesses individuality. Included one finds ***Eolienne*** in grey, royal and navy—***Crepe Metiors*** in the new blue shades—black ***Voiles***—wool ***Challies***—embroidered voiles—embroidered and plain ***Marquisettes*** in tan ecru and blue—plain and bordered ***Foulards*** in all leading shades—shot ***Taffetas***—stripe silks etc.

Our showing is so striking—so varied and of such exceptional merit that it will repay a personal visit of inspection with an authorative knowledge of what is correct for 1912 in one-piece ***dresses.***

It is impossible to accurately describe the complete range—we have, however, selected four moderately priced models which are worthy of particular attention.

Misses' Serge Dress $7

A dress that combines so many of the requirements of one who wishes a dress which is stylish yet not expensive Modelled on the new, straight lines demanded by fashion; low collars, ¾ set in sleeves, high waist line, pipings of black satin. Procurable in misses sizes in navy blue only, at **$7**

Women's Serge & Panama Dresses $10

For a good, serviceable every day dress for hard wear you will find this new model an ideal provision. Attractively made of excellent quality navy serge or panama cloth; has ¾ length set in sleeve; large collar and cuff on sleeves of plaid silk and pipings & covered buttons of plaid silk; skirt tailored to give the new two piece effect. Very special value at **$10**

Women's French Serge Dress $16

We are enthusiastic about this model—it is one which we can recommend not only for the style and way in which it is made, but for the beautiful material. Made of fine, French serge in navy blue with trimmings of tan, brown, red and royal blue The low collar is formed of pleated silk which extends down side front and is used effectively on the ¾ set in sleeves; trimmed with small silk covered buttons in suitable shades; high waist line. Excellent value at **$16**

Women's Shepherd Check Dress $18

Special attention is directed to this charming model. Made high waisted with collar and yoke of point d' esprit net; the ¾ length set in sleeves are effectively trimmed with ruffles of net; pipings and silk covered buttons of "paddy green", skirt cut to correspond with waist and represents a new set in treatment portraying a novel button through effect; waist has a small handkerchief pocket. A decidedly smart, effective dress which represents splendid value at **$18**

THE EVENING CHIT-CHAT

By Ruth Cameron.

THE way in which we have come to look at the conveniences and luxuries of modern civilization as absolute matter-of-fact necessities, is rather an amusing and startling thing, if you will stop to think about it.

The other day, in an office building where I occasionally have business, I found the elevator out of order. Word came that the lift would not be running again for fifteen or twenty minutes, and yet a constantly increasing group of people stood at the bottom waiting for it. Apparently the idea that they might ascend to their offices by way of the stairs did not even occur to some of these people. The elevator—an invention which has not been in common use over 50 years—had become such an integral part of their existences that when the lift stopped running they were quite at loss how to get upstairs.

Because of a leak in the water main, the water was turned off in our street during the daytime for several successive days recently, and such upset and disgruntled households you never saw. To be sure, we were given warning each morning in time to fill up pitchers and other vessels with a day's supply of water, but despite that, the empty faucets were a constant thorn in the flesh. It seemed almost impossible to get it through our heads that we could not have the customary supply of water at our service by a twist of the hand. A dozen times a day we turned the faucets and then stood like rueful genii, remembering that our should-be magic touch was no longer potent. The foreman of the gang who was working on the leak was continually beseeched to tell when the work would be done, and an almost palpable peace settled upon our households when the siege was over. "We certainly will remember how much having water means, after this," we said. And we did—for a day or two.

At several of the informal gatherings which constitute the chief social intercourse of a certain group, one young girl was missed. "Why isn't Gretchen here?" asked someone, "She hasn't been with us at all lately."

"Well," confessed the hostess, 'I just got this up on the spur of the moment, and she hasn't a telephone and so I couldn't get her. I was awfully sorry."

"Why that's just the way it was with me," cried the girl who had been the hostess of the last gathering.

"And me, too," contributed another hostess.

"Why didn't you write her a note?' 'asked someone.

"Goodness me," said the first girl, "I almost never do that. Writing a note seems like a terrible task to me nowadays. Besides, you can't get an answer until the next day. I suppose I would have had time for that, but I've just got out of the habit. We usually reach Gretchen through her aunt's telephone, but her aunt has been away these last few weeks."

Suppose telephones should, in some unimaginable way, be swept right out of existence. Can you picture life without them?

And yet they say that as great a civilization as ours perished in the darkness of the middle ages, and that thousands of years ago in Assyria many of the wonderful contrivances which we call modern, were common. They prophesy wonderful things for the year 2000. What will the year 3000 bring us?

Ruth Cameron

ANOTHER COMPLAINT FROM WEST END

To the Editor of The Examiner.

Dear Sir,—I saw a letter in your paper from a "South End Resident," which certainly ought to be a guide to some fellows that hang around corners. For instance, it is not all in the South End, but I am mentioning two places in the West End, where fellows loiter at corners: Now at the corner of Bonacord street and Park street, people can hardly pass by. One evening of this week two ladies were passing, and there was just a little hall-way to go through, and of all the "carrying on" it certainly was not fit for a dog to hear. The corner of Park street and McDonnel street is another place where rough fellows stand on the bridge, and one cannot pass for them. There is no respectable *person* who wants to go through a crowd of rowdys that use such profane language. It would suit a good many of them to go to church, or else to bed, instead of annoying people. It is time the police were up around here to see them up to their capers and then the streets might be clear for a time.

Yours truly,

West End Resident.

RAILWAY NOTES

Mr. J. S. Dennis, assistant to the President of the Canadian Pacific Railway, arrived from the West yesterday. Speaking to a representative of this paper, he stated that his visit to the East was for the purpose of discussing with the management of the Company, details in connection with the department of natural resources, lately organized, of which he is the head. He explained that this department is now administering all the Company's land, timber, mines, etc., in the West, with headquarters at Calgary, and states that the outlook for a large immigration into the West this year and for development along the lines of agriculture and the establishment of industries is very promising. The Company is carrying on a very active campaign throughout the United States, Great Britain and Northern Europe, for desirable settlers, and as a result, the prospects for settlement of a large number of very desirable settlers this year, are very encouraging.

The spring threshing of the grain, which was caught in the late fall storms, last year, has proved that a large portion of this grain has not suffered from standing out and that some very fine samples of grain from the spring threshing have been obtained. In the West, this spring, the unusual condition has existed of seeing threshing, ploughing, and seeding going on practically simultaneously. There is very little doubt that a large area of land will be put under crop this year in the western provinces ,but owing to the fact that last fall was not as favourable as usual, a great deal of grain will be sown on stubble land, although the very early spring is helping farmers very materially to get spring ploughing done. Mr. Dennis is very strong on the point that the time has come when farmers in the West should devote more of their energies to mixed farming than ordinary grain growing, pointing out that all countries within which the farers have gone in for grain production only proves that this style of agriculture results in rapid depletion of the soil and does not bring about a character of permanent agricultural development. For the purpose of proving that mixed forming in any of the western provinces will produce in any series of years more satisfactory results than exclusive grain growing, the Company have decided to establish a number of farms which are to be operated on the basis of production of grains of all kinds, on small areas, together with dairying, poultry, hog raising, and the growth of root crops. This is a further step in the policy of the Company to prove by an object lesson the best style of agriculture to follow in the West and is sure to be productive of the very best results.

This is also in line with the present policy of the Company, which is strictly along the lines of land colonization and development, instead of purely and selling. Mr. Dennis further states that the conventions of the American agents, lately held at Chicago and Portland, on the Pacific Coast, indicate that there is a very marked interest all through the Middle and Western States in Canadian land and that prospects of a very large umber of United States settlers coming to Canada this year are very bright. In fact, he is optimistic that the present year will see 200,000 people from the United States cross the boundry into Western Canada.

WHOOPING COUGH

Mrs. Charles Lovell, Agassiz, B.C., writes: "Seven of our nine children had whooping cough the same winter and we attribute their cure to Dr. Chase's Syrup of Linseed and Turpentine. We always have it in the house, and recommend it as the king of all medicines. I was formerly completely cured of protruding piles by using Dr. Chase's Ointment."

BUFFALO'S GARBAGE SYSTEM

Many Complaints Against Collecting by Contractor

In Buffalo, the collecting of garbage is let by contract, and with unsatisfactory results, judging by the following report from the Buffalo News:

"The city should do the collecting of garbage, ashes and refuse," said Ald. George J. Huffa, chairman of the Streets Committee.

"If the bureau of streets is receiving 25 complaints a day against the way in which the garbage, ashes and refuse are being collected, I could supply at least 25 more right from my ward and immediate vicinity. It is a case of keeping after the contractors and the city's inspectors all the time to see that the work is at least nearly properly done."

"The contractor is, according to the contract, as I recall it, supposed to pick up the refuse, ashes and garbage within an hour after the receptables are placed at the curb, and to have them put back in the yards within another two hours.

"Frequently I have seen the 'roller-out' at work when leaving for downtown at 8 o'clock in the morning, and when returning to the house, at 1 o'clock or after, for lunch, find the collectors just on the way around with their waggons and the men putting the receptacles back.

"This is not only a three-hour limit, but stretching the five-hour limit. In the meantime the wind has a chance to raise havoc with the papers and scraps in the unsightly receptacles, scattering them all over the streets and lawns. We have had trouble ever since the city entered into this contract with the Buffalo Fertilizer Company."

The cans have to be left out for a reasonable time, but the contract limit is long enough, and violations of this clause make the streets unsanitary, unsightly and the whole situation unsatisfactory."

People Are Aroused.

"It is certainly a fright the way the work is being done," said Councilman Coppins. "The people in the Elmwood section of the city are up in arms against the present system. As Alderman and Councilman I have heard many complaints, have had them followed up by Commissioner Ward and Deputy Commissioner Kennedy. They are after the contractor all the time.

"The sooner something is done to eliminate the present disgraceful condition the better. I am in favour of Commissioner Ward's plan to have the city do teh work and do it properly. The city has suffered long enough fro the set-back of unsightly and unsatisfactory garbage, ash and refuse collections.

Brock St. Roller Rink BLOCK CONTEST, Friday Night, April 19th. Two valuable Prizes given.

Opens Navigation

"Alligator" Was Put in the Water To-day

Navigation was opened on the local section of the Otonabee yesterday when the alligator belonging to the Dickson Company was brought back to life after moths of inaction. A fire was lighted under its boiler, just as a preliminary test for the season. The tug J. B. McColl is expected to be put under steam to-morrow after undergoing repairs.

Epworth League Annual Meeting

St. James' Church Epworth League Concludes Successful Year

The Epworth League of St. James' church held their annual meeting last Monday. The president, Mr. J. Goodwin, was in the chair. The reports as presented by the president, showed the past year to be one of manifest activity in every department. After sending two delegates to the summer school at Wellington, and a delegate to the Epworth League convention at Belleville, there still remained a substantial sum in the treasury.

The following officers were elected for the ensuing year: President, Mr. J. Goodwin, re-elected; Vice-Pres. for the Christian Endeavour Department, Miss M. Bacon, re-elected; Vice-Pres. for the Literary Department, Mr. W. McLaren; Vice-Pres. for the Social Department, Mr. H. Farr; Vice-Pres. for the Good Citizenship Department, Miss G. Moss; Vice-Pres. for the Missionary Department, Miss M. Kidd; Secretary, Mr. D. G. Goodwin; Treasurer, Miss Moss; Pianist, Miss V Palmer.

The increase in membership during the past year amounted to twenty-five.

MUSIC AND DRAMA

THE NEW BOY.

Mr. C. James Bancroft, the well-known English comedian, who is remembered by local play-goers for his splendid work in "The Private Secretary," appeared at the Grand last night in the amusing farce comedy, "The New Boy," and added to the laurels he has already won in this city. His new vehicle proved a most laughable one with plenty of opportunity for Mr. Bancroft's inimitable methods, of which he made the most. The result was a most pleasing and well-acted play which delighted the audience. Mr. Bancroft's English company gave him splendid support, the cast throughout being thoroughly adequate.

PARK ST. CHURCH NOTES.

Special meeting of football clubs next Friday at the church to re-organize the Church League.

The subject for next Sunday will be: Morning, "The true estimate of Christian Service." Evening, "Are the Members of the C. G. E. Brass Department really "undefeated champions?" A message to men.

BEFORE a Holiday you appreciate more than ever the modern system of high-class tailoring.

To get a really fine Worsted Suit or other required garment finished to your exact measure in an hour.

To be able to try it on and see how you like it.

To know that you will be guaranteed satisfaction.

To feel that the price you pay represents an actual saving and that it is the same price as though you did not demand instant service.

These are points of appreciation in Semi-ready Tailoring both before the Holiday—and after.

Semi-ready Tailoring

The GRESSMAN Company Limited

THE GOLDEN LION STORE

BEAUTIFULLY TAILORED SUITS $15.00

YOU WILL MAKE no mistake in selecting one of our Fifteen Dollar Tailored Suits for Spring. They contain the qualities of a much dearer suit, made up in the latest styles, and elegantly trimmed, and lined. PERSONAL AND SOCIAL

Mr. R. M. Glover is in Rochester for a few days.

Mr. Mae Morrison, of North Monaghan left for the west on Tuesday afternoon.

Mrs. F. Hillcoat, St. Luke's Rectory, will not receive to-morrow, but again this season.

Mrs. Howard Hopwood, who has been visiting here, left last night with Mr. Hopwood for Montreal.

Mr. Harry Phelan, Collector of Inland Revenue, is in Port Hope and Cobourg to-day, on business.

Mrs. D. Thompson, 366 Gilmour street is visiting relatives and friends in London and Western Ont.

Mr. W. A. Mahoney, of Guelph, the president of the Guelph Maple Leafs, of the Canadian League, was in the city yesterday.

Dr. Eastwood has returned from Washington, D.C., and Atlantic City, after a two-weeks' visit, and has resumed his practice.

Mr. Richard Oliver of the Grove School, Lakefield, was the guest of Mr. and Mrs. C. H. Clementi, of Weller street, last evening.

Mr. Geo. A. Gillespie is in Smith's Falls to-day attending a meeting of the executive of the Eastern Dairymen's Association.

The many friends of Mr. M. J. Green who is lying ill in Nicholls Hospital, will be pleased to hear that he is progressing nicely.

Mr. Alex. Cheyne, of Nelson, B.C., has been the guest of Mr. and Mrs. Fred L. Roy, on his way back from Scotland, where he has spent the past two months.

Mrs. A. W. Archibald, Master Willie, and Miss Isabel, left this morning via G. T. R. for Philadelphia, where she will visit Mrs. Archibald's sister for two months.

The many friends of Mr. E. R. Dela Haye will be pleased to learn that he has recovered sufficiently from his recent illness to allow him to proceed to his home in Fraserville, where he will remain for a couple of weeks.

ST. JOHN'S NOTICES.

St. John's choir will meet for practice to-night in the church at eight p.m.

Boys assemble at 7.30. Joint practice with All Saints' choir in St. John's, at 9 p.m.

The presentation of Stainer's "Crucifixion" in Norwood has been arranged for April 26. All choristers are asked to attend to-night.

STUCK IN MIRE.

Whilst going his round this morning the milk wagon of Mr. Duffus of Otonabee got stuck in the mire at Downer's Corners. The condition of the road at that place is very bad and consequently the vehicle cannot yet be extricated.

Dissolution of Partnership

NOTICE is hereby given that the Coal, Wood and Builders' Supplies business carried on, for the last ten years, under the partnership firm name of "R HICKS & CO.," has been dissolved by mutual consent.

All accounts owing the late firm will be payable at the Office, 248 Murray Street, up to May 1st, and all accounts owing by the firm should be presented for payment before April 20th.

In connection with the above I wish to announce that I am taking over the retiring partner's interests and will continue the business, as heretofore, under my own name.

R. HICKS.

Because of their durable wearing qualities, we recommend them very strongly for school stockings.

ELLIOT'S

REQUIEM SERVICE AT ST. JOHN'S CHURCH

Last night it was decided that on Sunday evening next a regular service in memoriam the victims of the Titanic catastrophe, will be held in St. John's church. It is probable that the Sons of England and St. George's Society will attend in a co-operative character. Another meeting will be held to-night. In view of the proposed service a special practice of St. John's choir will be held to-night. All members who have not been otherwise notified, are requested to accept this intimation.

Subscribe for The Examiner

SOME THINGS AND OTHERS

The milk waggons are improving in morals. Yesterday, a milk waggon took to water like the proverbial duck. This morning a milk waggon got stuck in the vernal mud, near Downer's Corners. This is getting on; from milk to mud is a progress towards solids that promise a little more solids in our milk.

This weather puts the head of the house in a tight place. House-cleaning makes the house too hot to hold him, and the weather clerk makes it too cold to sit outside, comfortably.

Riverside Park is under the water. This condition suggests "Mud Locks" as an appropriate name for the Peterborough ball team.

FRUIT DISPATCH COMPANY

Mr. Dewart for Chicago.

Toronto, April 19.—Mr. Hartley Dewart, counsel for Dr. Beattie Nesbitt, had a long conference with Supt. Rogers at the Parliament Buildings yesterday afternoon. It is quite possible that Mr. Dewart will be given a little more information as to the new charges of fraud to be preferred against Dr. Nesbitt, and with that he will go to Chicago to-day to confer with Mr. Pattison, Dr. Nesbitt's agent there, and Dr. Nesbitt before deciding whether or not they will fight extradition.

Bombardment Has Begun.

London, April 19.—The bombardment of the Dardanelles began yesterday, according to a special despatch received here from Constantinople. One of the Italian warships has been damaged by a shot from the land batteries.

Tenedos, Aegean Sea, April 19.—An Italian fleet, consisting of fifteen vessels, was sighted here yesterday bound in the direction of Seddul Bahr at the entrance to the Dardanelles. Seddul Bahr is the most extensive fortress in the straits.

Occasional firing of big guns has been heard coming from the direction of the Island of Imbros.

Constantinople, April 19.—The Sultan of Turkey in his speech at the opening of Parliament yesterday, referring to the war in Tripoli, said: "We desire peace, but that peace must be on the condition of an effective and integral maintenance of our sovereign rights."

Eloped With the Mayor.

Windsor, April 19.—Emile Sohier, former mayor of Houplines, France, pleaded guilty in Detroit to a charge of bringing Augustine Crocelle into the United States for purposes interdicted by the immigration laws. His companion will be deported. She is only 19 years old.

Her story is that she was dazzled by the social prominence of the mayor of a small French town into leaving her native land with him, though he was more than twice her age, and though she knew he left behind him a wife and daughter. The girl is homesick, and is anxious to return

1601 SOULS WENT DOWN WITH "TITANIC"

SURVIVORS GIVE GRAPHIC DESCRIPTIONS

Monster Went Down With Her Band Playing 'Nearer My God To Thee"—Little Signs of a Panic on Board—Passengers Did Not Realise the Seriousness of Their Position.

"CARPATHIA" ARRIVES

New York, April 19.—The Cunard liner Carpathia, a ship of gloom and succor, came into New York last night with the first news direct from the great White Star liner Titanic, which sank off the Grand Banks of Newfoundland early on Monday morning last.

The great liner went down with her band playing, taking with her to death all but 745 of her human cargo of 2,340 souls.

To this awful death list six persons were added. One died in the lifeboats which were put off from the liner's side and five subsequently succumbed on the rescue ship Carpathia. The list of prominent men missing stands as previously reported, and the total death list as brought to port last night by the Carpathia is 1601.

Survivors in the lifeboats huddled in the darkness at a safe distance from the stricken ship and saw her go down. As to the scene on board when the liner struck, accounts disagree widely. Some maintain that a comparative calm prevailed; others say that wild disorder broke out and that there was a maniacal struggle for the lifeboats. That the liner struck an iceberg as reported by wireless was confirmed by all.

Sensational rumors told by hysterical passengers who would not give their names said that Captain Smith had killed himself on the bridge; that the chief engineer had taken his life, and that three Italians were shot in the struggle for the boats. These rumors could not be confirmed in the early confusion attendant upon the landing of the survivors.

Ripped from stem to engine-room by the great mass of ice she struck amidships, the Titanic's side was laid open as if by a gigantic can-opener. She quickly listed to starboard and a shower of ice fell on to the forecastle deck. Shortly before she sank she broke in two abaft the engine-room, and as she disappeared beneath the water the expulsion of air caused two explosions, which were plainly heard by the survivors adrift. A moment more and the Titanic had gone to her doom, with the fated hundreds grouped on the afterdeck. To the survivors they were visible to the last, and their cries and moans were pitiable.

E. Z. Taylor of Philadelphia, one of the survivors, jumped into the sea just three minutes before the boat sank. He told a graphic story as he came from the Carpathia.

"I was eating when the boat struck the iceberg," he said. "There was an awful shock, that made the boat tremble from stem to stern. I did not realize for some time what had happened. No one seemed to know the extent of the accident. We were told that an iceberg had been struck by the ship. I felt the boat rise and it seemed to me that she was riding over the ice. I ran out on deck, and then I could see ice. It was a veritable sea of ice and the boat was rocking over it. I should say that parts of the iceberg were 80 feet high, but it had been broken into sections, probably by our ship.

"I jumped into the ocean and was picked up by one of the boats. I never expected to see land again. I waited on board the boat until the lights went out. It seemed to me that the discipline on board was wonderful."

Col. Archibald Gracie, U.S.A., the last man saved, went down with the vessel, but was picked up. Col. Gracie told a remarkable story of personal hardship and denied emphatically the reports that there had been any panic on board. He praised in the highest terms the behavior of both passengers and the crew, and paid a high tribute to the heroism of the women passengers.

"Mrs. Isador Straus," he said, "went to her death because she would not desert her husband. Although he pleaded with her to take her place in the boat, she steadfastly refused, and when the ship settled at the head, the two were engulfed by the wave that swept her."

Col. Gracie told of how he was driven to the topmost deck when the ship settled, and was the sole survivor after the wave that swept her just before her final plunge had passed.

"I jumped with the wave," said he, "just as I often have jumped with the breakers at the seashore. By great good fortune I managed to grasp the brass railing on the deck above and I hung on by might and main. When the ship plunged down I was forced to let go and I was swirled around and around for what seemed to be an interminable time. Eventually I came to the surface, to find the sea a mass of tangled wreckage.

"Luckily, I was unhurt, and casting about managed to seize a wooden grating floating nearby. When I had recovered my breath I discovered a number of overturned and collapsible lifeboats floating about me. Some of them had been righted and were filled with survivors. Others were floating bottom up. Still others were mere wrecks. I managed to reach one of the lifeboats and was taken aboard. Then I began to look about me for others who might be saved. I found a number of collapsible boats floating bottom up. To these I clung and managed to right them

MASSACRE ISLAND

Descriptions of the Interesting Purchase in Lake of the Woods

An interesting purchase was made by the Historical Society of St. Boniface, when they bought at a nominal price, from the Dominion government, the famous Massacre Island at the Lake of the Woods, where the explorer, Sieur de la Verandrye and his 21 compaions, including the Jesuit missionary, Rev. Father Aulneau, were martyred at the hands of the Sioux Indians. It will be remembered that the remains of this little band of heroes were discovered by the Jesuit Fathers of St. Boniface on the site of the old Fort St. Charles on American Point, in the Lake of the Woods.

It had been learned from historical documents that the bodies of the martyrs had been removed to Fort St. Charles for burial, and this led to the expedition which ended in their discovery, and the tracing of the site of the old fortress. The bones and skulls of the martyrs together with many curios found on the historic site, were brought to St. Boniface college.

Massacre Island includes about 66 acres, and is in Canadian territory. The massacre spoken of above, and after which the island was named, occurred on the 6th of June, 1736, just one and three-quarter centuries ago.

ROWS ROYAL

Storms in Very Exalted Circles That Have Taken Place

The old saying "As happy as a king," has gone out of favor. A twentieth-century King has to keep a tight hand not only on his wife and children, but also upon the whole of his wide circle of Royal relatives.

They may not marry, make a will, even write a book, without the consent, and if they break the House Laws, it is the unlucky king's duty to make things unpleasant all round.

No one can suppose for a minute that Alfonso of Spain enjoyed pitching into his aunt for publishing her very harmless little book without first letting him see the proofs. But he had to do it.

The Kaiser is, as a rule, very happy in his home life, but there has more than once been friction between him and his eldest son, the Crown Prince.

The first occasion was when the young prince went steeplechasing, a pastime his father detests, and rode his own horse in the race. The next was when he rode up the steps in Sans Souci Park at the head of his Guardsmen, whom he afterwards took to a circus. On both these occasions he was punished by confinement in his own quarters for forty-eight hours.

One of the worst rows in the German Royal circle was caused by the conduct of Prince Joachim Albrecht of Prussia, the Kaiser's first cousin. He is a very smart man, and, besides being a major in the Guards, has considerable reputation as a composer of light operatic music.

One night he appeared at a masked ball in evening-dress, accompanied by a well-known variety actress, and wearing the silver star of the great Order of the Black Eagle.

The Kaiser was furious, and ordered the young man four days' arrest. But there was worse to come. The prince announced that he was going to marry the soubrette in question, who was ten years his senior. The Kaiser at once sentenced him to active service with the colonial army in South-West Africa!

The worst and most bitter of all Royal quarrels was that which resulted in the feud between the late King Leopold of Belgium and his daughters Princess Louise and Princess Stephanie. This led to Princess Stephanie suing her father for her portion of the property left by her mother.

The rupture between Stephanie and her father was caused by her marriage to Count Lonyay, and the bitterness of the King's feelings may be judged by the fact that he refused to be reconciled, even over the Queen's dead body.

LONG WALK TO WIN BET

To win a bet of $1,000, and to reduce her weight, Miss Dora Harrison, of Long Island, U.S.A., has walked from New York to Tampa, a distance of 1,100 miles.

Had Boils On Neck and Arms.

Had Them Lanced But, Got No Relief Until He Used Burdock Blood Bitters.

Boils in themselves are not a dangerous trouble, but still, at the same time are very painful. They are caused entirely by bad blood, and for you to get rid of them it is absolutely necessary to put the blood into good condition. For this purpose there is no remedy that can compare with Burdock Blood Bitters. This preparation has been on the market for about 35 years, and has a reputation unequalled by any other for the making of pure, rich, red blood. Mr. H. J. Batten, Stratford, Ont., writes:—"I have been troubled for several weeks with boils on my neck and arms. I had them lanced by the doctor, but as soon as one went others came. I tried all kinds of so called remedies, but could get no relief till I was advised to try Burdock Blood Bitters. I am pleased to say I am now quite free from those most painful things, and feel much better in every respect.

"My boy, of nine years, had a rash come over his back and legs, so we gave him a few doses and now he is all right again."

Burdock Blood Bitters is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

CANADA SUGAR REFINING CO. LIMITED. 13

GRUESOME CAVERN FULL OF BONES

Remains of Eleven Thousand Human Beings Under an Old Church in England

A remarkable attraction has been provided by the Vicar of Rothwell Parish Church, North Hants, by the neat rearrangements of the skulls and bones in the famous twelfth century "bone-crypt." The discovery of the existence of the crypt was accidentally made years ago, when the sexton, digging a grave in the south aisle of the church, broke through a vaulted roof covering a great heap of skulls and human bones. Following inspections by various historical and scientific persons, the vicar and church wardens decided to restack the bones in the centre of the crypt and on the shelves on the sides. The bones represent no fewer than 11,000 skeletons—a number arrived at by counting the tops of the 22,000 odd thigh bones, although the number of complete skulls is less than six hundred.

Mr. F. W. Bull, F.S.A., tracing the history of this "valley of dry bones," finds first mention made in 1712, when "the great multitude of men's and women's skulls in the charnel house at Rothwell" was already famous. The earliest church register, 1614, made no reference to the crypt neither did Bridges, the Northamptonshire historian, who carried the list of Rothwell vicars down to 1720. A theory that the bones might have been brought from Naseby Field was discounted by Major Whyte-Melville the novelist, in 1862 because Naseby Field was more than ten miles away. He also scouted the idea that it was a monastic place of burial, as the skulls exhibited ghastly wounds, whilst some of them seemed to be of Ethiopian origin. He concluded, in view of the absence of evidence of gunshot wounds, and in view of the great size of the bones, that the remains were those of Danish invaders slain by our Saxon forefathers. The Dane theory was attacked by another authority putting the date of the crypt as 1180 or later, and stating that both sexes were represented. Other controversialists suggest the Plague as the origin, which is, of course, absurd.

Some contend that this crypt is simply an ossuary or charnel-house such as were common in pre-Reformation times, and such as were known to exist at Folkestone, Dover, Ripon and Upchurch. Mr. F. W. Bull says that in view of recent discoveries it seems clear that the bones were placed in the crypt before, and for some little time after the Reformation on being exhumed from the churchyard, when it was getting too crowded. Now that the restacking of the bones is complete, the vicar invites visitors to make the journey to Rothwell to view the collection.

THE WORST OF SUPPOSING

"Listen to me," said the cross examining counsel. "You must answer my questions definitely. I don't want to know what you supposed. I supposed I had my purse in my pocket when I left home this morning, but, as a matter of fact, I left it on the dressing-table. Now, sir, get on with your evidence."

The case proceeded without further trouble, but when the lawyer arrived home that evening he got a nasty shock, for his wife said:

"You must have wanted your purse very badly to send three men one after the other for it."

"What?" roared the barrister. "Did you give it to anybody?"

"Of course I did, I gave it to the first man who called. He told me exactly where you had left it."

HOME HINTS

If you want to paper a whitewashed wall wash it over with vinegar, and you will have no difficulty in getting the paper to stick.

House plants should be put out in warm rain occasionally. Take them in while still wet, and wipe each leaf with a soft duster.

When washing tablecloths, fold them one week in three, and the next week in four. By doing this they will last longer. It is the folds that wear into holes.

A SNAKE FIGHT

A Professor Proposes to Diminish a Terror by the Cannibal Method

I have just witnessed a fight between a good snake and a bad snake, writes Professor Pozzi, of the Paris Academy of Medicine. A fight terrible and grotesque in the extreme, but yet destined to be of great benefit to humanity. The encouragement of the good snake's species is one of the means by which the hideous menace to human life in South Africa is to be combated.

My colleague and I were driven in a swift motor to the Serotheraptic Institute of Butantan,, which lies amid exquisite tropical vegetation, the beauty of which is only marred by the thought of the deadly snakes and insects it conceals.

The Institute is conducted by Dr. Vital Brazil, one of the most distinguished scientists of Brazil. He has prepared a serum of great efficiency for snake bite. More than 1,000 persons lose their lives annually from this cause in the most civilised parts of the country, and what happens in the vast wild regions can only be guessed at.

We have come to see the cannibal serpent, and we beg Dr. Brazil to show him to us without delay. The doctor extracts him from a box by means of a long curved stick and places him on the ground near us. He is a large non venomous viper, agout four feet long, thick and muscular, of a bluish color, glittering like bright steel. He crawls around and raises his flat head, darting forth his long tongue in a way that seems to us threatening, despite his good reputation. To reassure us, Dr. Brazil picks up the snake and winds him round his arm. He tells us his scientific name, "Rachidelus Brasile." The natives call him "mussurana." Until recently, everybody was ignorant of his valuable qualities as a serpent eater.

With his crooked stick the doctor now brings forth another snake. This time it is a terribly venomous one. His bite kills a man or a horse in a few minutes. The doctor has dropped this dreadful reptile near the mussurana, and we stand around at a respectable distance. I confess I look behind me to see if the door is open.

The two snakes seem very quiet, even appear to ignore one another. Dr. Brazil thinks that the mussurana, having gorged himself with snake recently, may not fight. The cannibal makes a slight movement in the direction of his venomous victim. The latter shows that he is on guard against his enemy.

Suddenly, with incredible swiftness which proves that his apparent torpor was really an artful dodge, the good snake hurls his open jaws at the neck of his prey. He aims evidently to strike at the base of the brain. The venomous snake, equally alert, dodges the blow and sinks his poison fangs in his enemy's body. It is a vain blow, for the good snake is immuned by nature.

The good snake sinks his teeth in his enemy's neck, though not at the place he had aimed at. At the same time he coils his muscular body around the other. They roll convulsively over and over, and it seems at first that the good snake—the mussurana—is trying to strangle his adversary, the jaracara.

Soon I understood the strategy of the mussurana better. He is gradually working his jaws higher up the neck of the jaracara. At last he sinks his fangs firmly in the lower jaw of his victim. He holds it in the fork of his flat head, which seems like an instrument of torture, a steel pincers.

The venomous head of the jaracara now flaps pitifully with open jaws.

"The mussurana is going to break the other's spine," says Dr. Brazil. "You will see, it is very curious."

It is curious, even horrible. The mussurana holds the jaracara in a vice-like grip with the folds of his body, and then with his jaw twists the other's head violently round and round until the backbone breaks. Then the mussurana relaxes his hold and slowly swallows his venomous prey.

The mussurana has an unfailing instinct for a venomous snake, and unless filled with food never fails to fight. Dr. Brazil proposes by feeding, protecting and breeding the mussurana to check the supply of venomous snakes that are a terror to life in the country.

CROSS-COUNTRY BOAT-RACES

Mr. Cyril Maude tells a story that is rather typical at the moment. A member of his company was a dear old lady, who was persistently "greened" by another member of the company. One day, for instance, she was intensely interested to learn that English race-horses were invariably trained with express trains running beside them.

"Where is the boat-race rowed?" she asked once, on the eve of the 'Varsity boat-race.

"Oh, it's not always in the same place!" was the calm reply. "One year they row it from Oxford to Cambridge, and the next from Cambridge to Oxford; and so on alternately!"

Derivative of "Easter"

Easter in English is so called from the Saxon goddess Eostre, whose festival was celebrated in April.

Newfoundland's Population

Complete census returns for Newfoundland last year show that the population was 242,000 persons, an increase of ten per cent. in the last ten years.

Colds

Don't trifle with a cold; no one can tell what the end may be. Pneumonia, catarrh, chronic bronchitis and consumption invariably result from neglected colds. Nothing can be compared with

Chamberlain's Cough Remedy

as a quick cure for colds and grip, and by its use the more serious diseases may be avoided.

COWAN'S MAPLE BUDS

COWAN'S CHOCOLATE MAPLE BUDS ARE MADE FOR EVERYBODY

Tiny toddlers, having their first taste of sweets, and grandparents, who still enjoy a "bit of sweet"—sturdy growing youngsters and their fathers and mothers—debutantes and young business men—ALL succumb to the charms of Cowan's Dainty Maple Buds.

These pure solid chocolates are the great home chocolates—simple, wholesome, pure and good.

You like them and appreciate them—and should buy them regularly for your own home.

THE COWAN CO., LIMITED, TORONTO

KEEP OUT!

"KEEP OUT!" used to hang as a sign on every factory door. The old idea of secrecy in business made it seem a crime to show outsiders processes, materials, and methods of manufacture.

Now the white light of publicity is being let in by those who depend on public favor for business profits and business growth. The "keep out" sign is disappearing from factory doors and the "welcome" sign is taking its place.

Candor and honesty form the backbone of modern Advertising. Men tell the truth, and it pays. Modern selling relies more and more on the confidence and good will of the buyer.

To-day, eyes are too sharp and intelligences too keen to make deceit possible. Absolute frankness in Advertising is the straight road to confidence. The public demands the light; it abominates and fears darkness.

To-day, many canning factories, packing houses, bakeshops, and public kitchens welcome visitors, concealing nothing.

To-day, many public service companies use the newspapers to tell the truth about themselves.

To-day, many big industrial enterprises are open without hindrance to the inspection of an interested public.

To-morrow, many more companies, depending for their success and prosperity on public confidence, will lift the curtains that veil their board and workrooms—they, too, will come to printing candid advertisements in the newspapers.

The public may overlook, but does not forgive, a lie or an abuse of its confidence. The public regards with suspicion those who attempt to serve it in secrecy and silence. The public is repelled by juggled facts or befogging words. The public rewards with its favor and money those who tell it the truth. It walks and shops where the light shines and where the paths are straight.

Throw on the light!

A HUGE SKYSCRAPER

The Woolworth Building, New York, Will be 55 Stories High

Although Canada has many skyscrapers of no mean proportions, they have not yet reached the height of the Singer Building, New York, but the latter is to be made look small and insignificant by the overtowering Woolworth Building of 55 storeys, by far the tallest office building in the world. It will cost $7,500,000, of which about $3,000,000 has been spent in the foundation. If the foundation is right the building will be right. If it is defective no amount of care or honest workmanship on the superstructure will make good what was lost under ground. The whole problem of solid sky-scrapers, according to Flagg, the architect of the Singer Building, is to secure an adequate base. The base should be one-tenth of the height; that is to say, for a building 1,000 feet high the base should be 100 ft. by 100 ft. Mr. Flagg says that he is prepared to put up a building 2,000 feet high if anyone is prepared to pay for it. He does not recognize a limit as far as height is concerned. If progress is continued at the rate of the past fifteen or twenty years, there will be buildings twice as high as the Woolworth building in another twenty years, and passengers will be asking the elevator man to stop at the 125th storey. Twenty-two years ago the tallest commercial building was the Tower building of eleven storeys, and fifteen years ago the Gillender building of twenty storeys was the wonder of New York.

The Singer building has forty-nine storeys, and about 10,000 square feet of floor space. The Woolworth building will have twice as much room for it will not be a mere tower for several storeys, as is the Singer building. The Singer building has 130 miles of metal piping, 3,500 miles of wire for electrical appliances, 552 vacuum cleaner attachments, 15,000 incandescent lamps and enough motors and engines and pumps to run a good sized town. There will be 17,000,000 common bricks in the walls of the new building, and the tower will be surmounted by a cluster of electric lights that will be seen for fifty miles away at night. The Singer building has searchlights directed against the tower at night, making it visible for twenty miles away. The Metropolitan building devised a cluster of electric lights, and the Woolworth will follow suit, for it ought to be understood that the chief function of a sky scraper is to be seen.

Health & Strength
GO HAND IN HAND WITH
Duffy's Pure Malt Whiskey
A pure distillation of malted grain—of safe tonic—an aid to digestion—endorsed by 50 years popularity.
It is a wonderful remedy in the prevention and cure of all throat, lung and stomach troubles. It makes the old feel young and the young strong.
Sold in SEALED BOTTLES ONLY by F. J. R. Mitchell, central liquor store, or direct, $1.25 a large bottle.
The Duffy Malt Whiskey Co., Rochester, N. Y., U. S. A.

ALFONSO'S AFFLICTIONS

The King of Spain is a Hereditary Victim of Throat Trouble

Although the King of Spain, who recently underwent an operation, is apparently again in vigorous health, it is an open secret that he is suffering from a rather serious ear and throat trouble. This, however, has not prevented him from keeping all his engagements and he occasionally gave his doctors much trouble by his determination to behave as though nothing were the matter with him.

Throat trouble seems to be hereditary in the Spanish Royal Family, for King Alfonso's second son, Don Jaime, has suffered from his throat ever since his birth. Latterly, King Alfonso has taken to wearing whiskers, but this is not the first time that he has done so. A few years ago he grew small side-whiskers and told Queen Victoria Eugenie that he thought he looked like an English admiral in them.

"Oh, no," replied the Queen, with a laugh, "you look much more like an English butler!" After that the whiskers came off, but, apparently, the King is too fond of them to allow a wifely jest to stand in his way for all time.

MUCH TRIED BANDIT

An Arab bandit named Labane has had the unique experience of being sentenced to death three times and to hard labor for life eleven times at Oran, Algeria. He has still to undergo one more trial and get one more sentence to satisfy justice before his execution.

MAKES HAIR GROW
McDermid and Jury, druggists, have an invigorator that will grow hair or money back.
The time to take care of your hair is when you have hair to take care of.
If your hair is getting thin, gradually falling out, it cannot be long before the spot appears.
The greatest remedy to stop the hair from falling is SALVIA, the Great American Hair Grower, first discovered in England. SALVIA furnishes nourishment to the hair roots and acts so quickly that people are amazed.
And remember, it destroys the Dandruff germ, the little pest that saps the life that should go to the hair from the roots.
SALVIA is sold by McDermid and Jury under a positive guarantee to cure Dandruff, stop Falling Hair and Itching Scalp in ten days, or money back. A large bottle costs 50c. The word "SALVIA" (Latin for sage) is on every bottle. Also sold at Payne's drug store.

R. W. DOAN
Toronto
Secretary of the Ontario Teachers' Association. He has held office for more than a quarter century.

NEW YORK POPULATION

The recent census of New York has established that out of a total population of 3,500,000 there are not more than 737,447 real Americans—that is to say, persons born in America of American parents. The rest are divided into 639,000 Germans, 595,210 Irish, 262,864 Austro Hungarians, and so on. In the light of such figures New York is in point of German population third in range as a German city; she is the greatest Irish city, and fourth Austro-Hungarian city. As a German city, New York is only surpassed by Berlin and Hamburg. New York is also a great Jewish centre as its Hebrew population numbers 672,775. Warsaw, generally reckoned as the most Jewish town in Europe, has not more than 262,864 Jews.

Milking by Electricity

Devices for milking cows by electricity are in common use in many parts of the U.S.A.

NOT ONE WOMAN
IN TWENTY
HAS A STRONG BACK.
THE KIDNEYS ARE TO BLAME NINE TIMES OUT OF TEN.
Women are coming to understand that weak, lame and aching backs from which they suffer are due to wrong action of the kidneys.
The poisons that ought to be carried off are sent back into the blood, taking with them a multitude of aches and pains. There is no use of expecting relief until the kidneys are restored to health.
Doan's Kidney Pills are the quickest and most reliable remedy. Mrs. Ed Baxter, Upham, N.B., writes:—"I take a good deal of pleasure in telling you what Doan's Kidney Pills have done for me. I was troubled with my kidneys for a number of years, and my back was so lame I could not sweep the floor. A friend of mine advised me to try a box of Doan's Kidney Pills, which I did, and after using three boxes I am as well as ever. I highly recommend them to anyone suffering from lame back or kidney trouble."
Doan's Kidney Pills are 50 cents per box, or three boxes for $1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.
When ordering direct specify "Doan's."

CHARACTER IN THE EYES

It is held by many that just as the bumps on the head afford to the phrenologist some indication of the character and abilities, so the color, shape, and position of the eyes furnish useful guides to those able to read them.

Eyes that are always very wide open, for instance, are supposed to show impulsiveness and rashness.

Side-glancing eyes are said to be a mark of cunning, and best distrusted.

Eyes with long, sharply-pointed corners are a sign of keen powers of observation.

Shifting, unsteady eyes are not necessarily a mark of dishonesty, but may merely point to an unsettled, restless condition of mind.

For the whites of the eyes to show beneath the iris warns the possessor of the eyes that he or she has tendencies to violent temper which should be carefully kept well under control.

Eyes set very closely together usually show ignorance; but eyes far apart in the head indicate, as a rule, keen intelligence and a sound memory.

CRUELTY TO OYSTERS

To Eat Them is a Merciful Mode of Killing, Thinks English Professor

Regarding the announcement that a prevention of cruelty to oysters campaign is to be inaugurated by the president of the Alabama State Oyster Commission, a professor of physiology at the London Medical school, said: "The oyster has certain nervous structures and undoubtedly has a certain amount of nervous sensibility. Its nerves can be readily dissected, and that it can respond to a touch is shown by the closing of the shell if one taps on it when it is partly open. It is impossible, however, to say whether its nervous sensibilities are of sufficient high development to enable it to experience pain. In any case it would be hard to find a more sudden or merciful way of killing an oyster than by eating him."

Albumen in Egg

An egg contains 14 per cent. of albumen.

Juvenile Offenders

In one year over 33,000 offenders were brought before British Juvenile Courts.

EDUCATING EMPLOYES

Parisian Telephone Girls are to be Coached in Pronunciation

The latest departure on the part of the paternal French administration, is a school of pronunciation. It is intended for the benefit of telephone girls whose education has been neglected or whose provincial accent stands in need of correction. In this connection it is suggested that the Government—at least in so far as the State railroads are concerned—might give a few lessons in pronunciation to their country employes. Anyone who has travelled at night on a French railroad knows how impossible it is to discover one's whereabouts by simply listening to the passing porter. It is seldom that one catches more than something absolutely unintelligible ending in "guy" or "ville" or "court."

One day a traveller, annoyed at the slovenly fashion the porters was drawling out the name of the station, remarked in a critical tone: "You might pronounce the name of a station a little more clearly." The employe turned round and replied in withering accents: "Maybe you'd like a Le Bargy (a famous master of elocution) for $300 a year."

COUNT BONI DE CASTELLANE
who, it is reported, will appeal in another effort to have his divorce from Anna Gould recognized by the Roman Catholic Church.

FEATHER BED SAILORS

Afraid of Wet Feet And Wanted to Wear Carpet Slippers

Charles J. Garwood, skipper of the Hull steam trawler, Golden Sceptre, took a comic opera crew with him on his last voyage, according to the story he told at the Board of Trade inquiry into the loss of his vessel. The vessel first stranded on the Icelandic coast, and, on being got off by a salvage steamer and repaired, commenced her homeward voyage, only to again go ashore near Whitby, and become a total loss.

Captain Garwood said that on the outward voyage his men quarrelled and refused to obey orders, and seemed to think they were on a yachting trip. Some members of the crew wanted to wear carpet slippers aboard, and asked that the vessel might go slower as the water might come aboard and wet their feet.

He constantly found the compasses tampered with, and he attributed this to the men having a grudge against him because he would not take the vessel into the bay and let them have an easy time.

When breakers were discovered just ahead off the Icelandic coast he ordered the helm to be placed hard to port, but the boatswain and spare hand, who were both near the wheel, were at loggerheads as to who should turn the wheel, and the vessel went on a reef. Had his instructions been acted on at once, the vessel would have cleared the reef.

AN UNFORTUNATE MEMORY

An entertaining little incident transpired between one of the best known Judges of the King's Bench Division and an ex-cavalry officer, by no means unknown in London's social world. The two met at a reception and found themselves side by side. The Judge shook hands warmly with the officer, and said, "I know we have met before; I recall your face perfectly. Do you remember where it was?"

The soldier smiled grimly. "Yes, sir," came the blunt reply. "It was at the Old Bailey, when you were good enough to tell me that I ought to thank my lucky stars that I was only in the witness box and not in the dock!"

What the Judge replied is not recorded.

NAVAL AEROPLANES NEXT

Germany's Minister of Marine will shortly announce a competition for "water flying machines" for use in the navy. Several German models have been tried but none of them fulfill the exacting requirements of the department. Very close attention is being given to aviation by the German navy.

Rentals of Long Ago

Land in England in the reign of Henry VIII. was generally let at a shilling per acre.

NEWSY BRIEFS FROM BRITAIN

Little Items of Interest From all Parts of England, Scotland, Ireland, and Wales

A case in which seventeen persons slept in one room was reported at a meeting of the Merthyr, Wales, Board of Guardians.

Relic of Mary Queen of Scots

Said to have been carried on the scaffold by Mary Queen of Scots, a Franco-Flemish manuscript was sold at Sotheby's for £625. On the flyleaf was an inscription stating that the book belonged to the hapless lady.

Glasgow Cross-River Traffic

The Corporation of Glasgow has adopted a proposal to reopen the Harbor Tunnel for cross-river traffic, on the understanding that the corporation is given an option by the proprietors to purchase it in a year at a cost not exceeding $500,000.

Football Coupon Betting

Before Sheriff Glegg, at Airdale, Mungo Steel, a miner of Tannochside, was convicted of contravening the Street Betting Act by loittering for the purpose of receiving and settling bets at Laidlaw street, Tannochside. He had been caught by the police giving out football coupons, and some slips relating to horse racing were found upon him. He was fined $50, or sixty days' imprisonment.

Death of Veteran Colonel

Colonel R. D. Rutherford, late of the Highland Infantry, died at Worthing of an apoplectic seizure. He served in the Afghan War and was with Lord Roberts at Kandahar. In the Egyptian campaign he was engaged in the battle of Tamai, when the square was broken. Later, he served with the Malakand Field Force, and was mentioned in despatches.

Welcome to Territorials

Refused camping ground at Sheringham 11,000 men of the North Midland Territorials have been invited to Aberystwith, Wales, by the town council. Through Captain Powell, of the General Staff, Major-General Hamilton has expressed his pleasure at the action of the Council. Landowners are joining hands with the local authorities to make the camp a success.

Two Gaolbirds

Mr. Justice Boyd, at Antrim Assizes, putting back two men named Moneypenny and McCann for being concerned in the larceny of fowl, referred to the latter (who, he said, had sat like "an innocent old man"), as having been forty-eight times in gaol, and as "a regular gaolbird of the worst description." Moneypenny, too, had been twenty-four times in prison. They were, his lordship added, a pair who would be got rid of for awhile.

New Sailors' Home

The Scottish National Council of Young Men's Christian Associations is arranging to establish a Sailors' Home at Rosyth for the needs of the large number of sailors and marines who will be located there. The Admiralty has expressed its sympathy with the project, and favors the proposal that the home should be on interdenominational lines. The cost of the home will be about $100,000.

Bank Clerk Killed on Motor-Cycle

A fatal motor-cycling accident occurred on London road, Kilmarnock. A young man named William Archibald Begg had been out for a run on a motor-cycle, and on returning the wheels had skidded owing to the dampness of the road, and he was thrown violently to the ground. Death was almost instananeous. Begg, who was twenty years of age, was a clerk in the National Bank and a son of a Church of Scotland missionary in India.

Reception of Released Prisoners

When five Kilbeacanty prisoners, Thos. Higgins, Patrick Hughes, John Daly, Fergus Kilcooley, and Tim Reilly, arrived in Gort by train from Galway Gaol after serving one month's imprisonment in lieu of giving bail for playing a band on the private grounds of one of Mr. Faggott's tenants while that gentleman was having a shooting party in an adjacent wood, they were met at the station by a crowd of about three hundred people, who marched three deep playing the same band through the town and thence home. There were a number of armed police watching the proceedings, but they did not interfere.

CARTER'S LITTLE LIVER PILLS.
CURE
Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While they most remarkable success has been shown in curing
SICK
Headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured
HEAD
Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head
ACHE
is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.
Carter's Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them.
CARTER MEDICINE CO., NEW YORK.
Small Pill. Small Dose. Small Price.

TRAMPED 60 MILES TO SAVE HIS CHUM

Prospector at Larder Lake Got Back with GIN PILLS Just in Time.

LARDER LAKE, ONT., MARCH 26th, 1911.

"I am writing to tell you the good GIN PILLS did me. I had been suffering for some time with my Kidneys and Urine. I was constantly passing water which was very scanty, sometimes as many as thirty times a day. Each time, the pain was something awful and no rest at night. I began to feel worn out. I heard of your GIN PILLS and decided to give them a trial at once. I sent my chum out to get them (about 60 miles) —and I am pleased to inform you that in less than six hours, I felt relief. In two days, the pain had left me altogether. I took about half a box and to-day I feel as well as ever and my kidneys are acting quite natural again. Thanking you for the pills which I always intend to keep by me. Yours respectfully,

SID CASTLEMAN.

WELCOME RELIEF.

We have never received a letter that pleased us more than this one. When we realize what Gin Pills meant to this sick man, lying on a bed of pain miles away from a doctor in the frozen north, and how they helped him, we feel that our efforts to prepare a standard preparation for Kidney and Bladder Troubles have been crowned with success.

GIN PILLS is a wonderful solvent for uric acid. It instantly neutralizes the hot, scalding urine, allays the burning pain, soothes the irritated bladder and heals the kidneys. Take GIN PILLS on our positive guarantee of a cure or your money back. 50c. a box, 6 for $2.50. Free sample, if you write mentioning this paper, The National Drug & Chemical Co. of Canada, Limited, Dept. S Toronto.

NATIONAL LAZY LIVER PILLS are a positive cure for Constipation, Biliousness, Sick Headache and Sour Stomach. Excellent for Indigestion. 25c. a box. 112

THE IMPERIAL LIFE
Assurance Co. of Canada
THE FIRST REQUISITE
OF LIFE INSURANCE is absolute safety. That the Government Deposit maintained by The Imperial Life is almost five times the amount required by law, and that the Company's reserves for the protection of policyholders are about ten per cent, in excess of those called for under the Insurance Act, form noteworthy evidence that the aim of the management is to afford
Absolute Security To Policyholders.

FAMOUS TRAGEDIES that BALKED SOLUTION

Mrs. Kate Voepel, "The Smiling Widow," with a Kindly Word for All, Who Was Found Slain in Her Home in Greenwich Village—The Murder of Mary Dorman?

(Copyright, 1912, by the New York Herald Co. All rights reserved.)

NO one who knew her could suggest the remotest reason why any one should want to kill Mrs. Kate Voepel. Yet when her body was found in the sitting room of her home, in old Greenwich Village, in New York city, it was certain that murder had been done. The nature of certain wounds about the head showed that she could not have inflicted them herself and nowhere on the premises could be found the knife with which her throat had been cut.

To her neighbors Mrs. Voepel was known as "The Smiling Widow." She had a kindly word for all who came in contact with her. She appeared young for her years and was a great favorite with the unmarried men of her age, about thirty-six years, many of whom called upon her frequently at her home, but she never went out with them. When her husband died he left a small sum of money, the building in which the Voepels lived and a butcher business, which he carried on in a shop on the ground floor of the building. Mrs. Voepel was a good business woman and continued the business through a manager. She started her son Johnnie selling newspapers at a stand adjacent to the shop when he was fifteen years old, for she believed in early inculcating principles of thrift and industry in him.

The residents of the old Greenwich Village section of New York city were for the most part Germans of the higher class—solid, moderately well to do, respectable people. They were more neighborly than is usual in the city, and Mrs. Voepel had scores of friends who regarded her as a thoroughly good and moral woman.

The newspaper business grew steadily, and Johnnie Voepel contributed substantial sums to the family coffers each month. Magazines and papers sold like hot cakes from the Voepel stand because of the many friends the widow and her son had. On the morning of February 14, 1902, Mrs. Voepel woke Johnnie at six o'clock—the hour when he always rose. He dressed, went downstairs to open the butcher shop, then set about putting up the sides of the newsstand and arranging the newspapers and periodicals for display. This was the regular morning programme while his mother was preparing breakfast.

Johnnie's Discovery.

When the meal was ready she usually called him. On this particular morning the regular breakfast hour passed without any word from his mother. Johnnie was hungry, but he did not go upstairs, for he took it for granted that his mother might have gone back to bed for a little snatch of sleep and had not wakened as soon as she expected, or that perhaps she was preparing some special dish.

So far as is known he had not left the newsstand when an agent who collected rent for his mother stepped up to him and asked if Mrs. Voepel was at home. Johnnie did not notice from which direction the agent had come.

"Yes," he said, "I guess she is getting breakfast. I will just run up and see."

He hurried up the steps of the house whistling a sprightly tune. The agent heard him pounding up the second flight of stairs, still whistling. There was a second of silence; a series of crashes as Johnnie half ran, half tumbled down the stairs and burst out into the street shrieking incoherently. The agent thought he had gone insane and gripped his arm. At first the boy could only gasp in terror, but presently he made it known that something terrible had happened to his mother.

The agent immediately thought she must have been burned while cooking and ran into the house, meanwhile yelling to a passerby to call a policeman. The man in uniform was close behind the agent as he entered the room. On her face on the floor lay Mrs. Voepel, dead. One hand stretched at her side clutched a black silk cravat, which had evidently been torn from the neck of the man who had attacked her.

Investigation showed that her throat had been cut and that, in all, her body had sustained eighteen wounds. Nothing in the room was disturbed except an old fashioned Japanese cabinet, all the drawers of which were opened and the contents in confusion or thrown out on the floor. The cabinet itself stood close against a wall, but Johnnie, when questioned later, said that it usually stood against the opposite wall. The new position of the cabinet meant that the full light of the sun could enter one of the windows and fall upon its front. In the old position it was in shadow during the morning.

In the drawers of the cabinet were a considerable sum of money, two bank books, two life insurance policies, a few stocks and a number of papers and documents of a private nature. This rather upset the theory that robbery was the motive for the crime. Whoever had rifled the little Japanese cabinet had not even taken Mrs. Voepel's rings, which were found in a wide open drawer.

The murderer must have acted very deliberately and methodically, carefully covering his tracks. It was evident that he had washed his hands in the kitchen and dried them on a clean towel there. How he had entered and left the house was a question, for neither Johnnie nor any of the neighbors had seen any one pass through the front door. It was possible he might have entered the kitchen window by way of the fire escape, but in broad daylight such an act would, in all probability, attract the attention of neighbors, especially as many women would be in the rear of their apartments preparing breakfast.

The Silk Cravat Clew.

Mysterious as the whole affair seemed, the police had one clew which they were confident would lead to the speedy identification and apprehension of the criminal. More than one baffling murder had been unravelled by means of a slighter thread of evidence than the black silk cravat which the dead woman gripped in one hand. This must have been torn from her assailant during the struggle in which he had stabbed her.

To the reginants of a man's neckwear the police looked to find the identity of the murderer, and it seemed that the rifled compartments of the Japanese cabinet must hold the clew to the motive. When Johnnie Voepel was calmed the police questioned him minutely about the history of the cabinet and its contents. According to his story, Mrs. Voepel's father had been a sea captain and had brought the cabinet with him on returning from one of his voyages. So far as Johnnie knew, the thing had no especial value except as a sort of heirloom and because of its convenience. He named over all the things he could remember his mother had kept there. All the articles he mentioned, with the exception of a gold locket, were found in the cabinet or in the confused pile of trinkets which had been thrown from the cabinet drawers. The locket contained a picture of Johnnie's father. This looked like a clew at first, but the locket was found in Mrs. Voepel's desk.

The boy was shown all the articles which had been taken from the cabinet and he could think of nothing which was missing. The police could not give up the idea that the murderer had been hunting for something in the cabinet. The crime seemed to have some deep, mysterious motive. But then perhaps Mrs. Voepel might have moved the cabinet herself. She might even have been searching in it for something and been attacked while she was in the act. But then why was she attacked? The idea seemed almost too commonplace, too much like fiction, yet the investigators were almost forced into the belief that the Japanese cabinet had a history: that some fantastic Oriental feud had been carried into the quiet confines of Greenwich Village and that Mrs. Voepel had been sacrificed in it.

Johnnie Voepel said that he knew no friend or acquaintance of his mother who wore a tie similar to that found clutched in her hand. There was no manufacturer's label on it and no mark to show where it had been made. It was of a peculiar weave of silk and of very fine quality. The police at first thought that the cravat must be of Japanese make, but the expert buyers employed by a large firm of Japanese importers denied this when they examined the portion of the cravat.

A sensation was created when one of the investigators, searching the Voepel apartments, discovered two cravats similar to the one which played so prominent a part in the murder, in a drawer in Johnnie Voepel's chiffonier, hidden away under a pile of shirts and articles of clothing. The boy had previously denied that he ever wore or owned such a cravat. The name of the maker was obtained from these ties and from the makers the police learned the names of the retailers who handled them in New York. Under pressure Johnnie Voepel admitted that he had purchased the ties at a store near his home. The clerk there said that he had sold a number of the ties within the last month. He had disposed of two to a man named Jack Byant, who was a friend of the "Smiling Widow." He remembered a tall, wiry customer with a long, black beard and an extremely tanned face who had purchased one of the cravats. The most noticeable thing about this man was his brown skin. His hair was light, the clerk said, but he had evidently been tanned by long exposure to the sun. The haberdasher did not think that the action of the ordinary heat of the sun in the climate of New York could have produced such a tan. He had remarked at the time to a fellow clerk that "that fellow must have been in the South." He thought he had sold three of the cravats to Johnnie Voepel.

The practical minds of the police and others working on the case tended to scout this idea of an Oriental intrigue, yet every bit of evidence available seemed to point to it.

When it was learned that Johnnie Voepel had not told the truth about the black cravat the police investigated other of his statements. One witness testified that Johnnie had been seen to go into the house after opening the news stand before the rent agent called. Yet the shock and fright he exhibited when he ran into the street after seeing the body of his mother could hardly have been feigned, according to those who saw him. Another witness called by the District Attorney testified that Johnnie had a violent temper and that in the course of a quarrel with his mother he had been seen to strike her. No second witness corroborated this testimony.

The weapon with which the murder had been committed could not be found. It was evidently a large knife, and the police did not think it could have been carried away very conveniently. It was reasonable to suppose that the murderer had snatched the weapon from a table in the house or from the kitchen, and a thorough search resulted in the finding of no knife which could have inflicted the wounds on Mrs. Voepel's body. It struck one of the men from the Detective Bureau as rather strange that there was no bread knife in the kitchen, nor even a knife large enough to cut bread with. The men looked everywhere for this knife but could not find it.

"Where is the bread knife?" one of the policemen asked Johnnie Voepel very bluntly after he had been called to the kitchen.

There were three men in the room and they all waited expectantly for the answer.

Johnnie colored slightly, looked about him for a second, then said:—

"In the cupboard."

"Where in the cupboard?"

"On the second shelf, 'way in back of the cups and saucers," he replied without hesitation.

One of the policemen stepped to the cupboard. On the lower shelf were all the small knives, forks, strainers and other utensils of that character used in the kitchen. The second shelf contained the china. Away in the back, close against the wall, lay the bread knife. It was perfectly clean and the blade had evidently been scoured with sapolio. This, however, had no significance, for the knife might have been scoured since it was used in the ordinary course of household duties.

However, the police became suspicious of Johnnie Voepel's actions and succeeded in accumulating enough circumstantial evidence against him to cause his arrest. Stronger and stronger grew the chain of evidence, but just when the police seemed to have their case all but proved Johnnie Voepel established an unassailable alibi. A street cleaner, a baker's boy and a milk dealer had seen and talked to him during the time that his mother must have met her death. The bill of sale which the clerk in the haberdashery had made out when young Voepel purchased the three cravats was produced, but the boy was found to be in possession of all three ties.

Jack Byant, a man about fifty years old, was the next to fall under suspicion. He attended a party two nights before the murder, and witnesses said that he had quarrelled rather openly with Mrs. Voepel. Jack Byant had for some time been the object of jests for his friends, who accused him of being infatuated with the "Smiling Widow." Mr. Byant had been seen to pass on the opposite side of the street from Mrs. Voepel's windows on the morning of the murder and for several seconds to peer up at her rooms. But this was a habit with Mr. Byant, who usually waved to Mrs. Voepel as he was on his way to business. Before the quarrel she always waved back at him when she happened to see him pass. He was arrested but almost immediately discharged, for there were no grounds on which to prosecute him. It was shown that he had proceeded immediately to his place of business after passing the Voepel house.

This disposed of two of the three men who had purchased black cravats such as Mrs. Voepel had torn from the throat of her murderer. The strange man who was so darkly sun tanned now bore the brunt of suspicion, but there was no clew as to who he was.

No one in the neighborhood had noticed him either on the day of the murder or at any other time. The motive for the crime remained a mystery. The only possible solution seemed to be that the mysterious man with the black beard had some reason for supposing that the Japanese cabinet contained something of special value to him. He may have been acquainted with Mrs. Voepel's father and some adventure which they had together may have resulted in the killing of the woman. It is even possible that the murderer found what he wanted in the cabinet and that it was some document or article of the existence of which Johnnie Voepel was not aware.

Against this was the theory that some insane man or some personal enemy of the "Smiling Widow" had killed her after she had herself moved the cabinet and emptied the compartments.

A watch, which Johnnie said his father had given to his mother and which she always wore, was missing and was never found. It was of little value and led to no information regarding the crime. Its disappearance only deepened the mystery which surrounded the murder of Mrs. Kate Voepel and the identity of the man who was never punished.

"The Agent Thought He Had Gone Insane and Gripped His Arm."

THE RAHWAY MYSTERY.

IT is just about twenty-five years since the body of a young woman was found lying across a footpath in a field on the outskirts of Rahway, N. J. In that time the body was identified as eleven different persons, and even now there is considerable doubt as to who was the victim of a brutal murder. Alfred Worth discovered that a crime had been committed while he was on his way to Cranford Saturday morning, March 25, 1887. Taking a short cut across fields he came upon the body of a pretty, rather stylishly dressed woman about twenty years old. A glance told him she was dead, and he ran back to Rahway, to return with a policeman.

It was not long before crowds of persons had flocked to the scene of the crime, but none of the curious ones were able to identify the good looking young woman with heavy brown hair, a high, broad white forehead, prettily shaped small hands and feet and a set of very even white teeth.

Her dress was of olive green material trimmed with velvet. She wore black buttoned shoes and plain black stockings. Her rings, among them a wedding ring, were on her fingers, and in a leather purse at her side was $40 in bills. Robbery had evidently not been the motive for the crime, and murder, it was learned by post mortem examination, was the only crime committed.

The first person to offer an identification was a small boy, who said the girl was Katie Meyer, a German who worked for a Rahway farmer. Katie Meyer was found an hour later hanging clothes on a line to dry.

This was the first of a series of false and misleading identifications. Superintendent Harrison, of the Newark City Home, next identified the body as that of Mary Maltby, who had left the home to take a position with a Mrs. Winans, of Newark. Mrs. Winans went to Rahway and verified this identification; then Mary Maltby was found very much alive and extremely indignant.

The first clew of any importance was the finding of a satchel which had evidently belonged to the girl in a stream near the spot where the body was found. The bag contained, among a number of articles, a handkerchief marked "N. Noora," or "N. Neary." The action of the water had made the marking almost illegible. Neatly folded in a pocket of the satchel was a page from the New York Herald containing advertisements for "Help Wanted."

The girl did not seem to be of the servant type, but all the advertisements which it was possible she might have been on her way to answer were followed up. This led to no clew as to who she was.

The path where the body was found followed a lonely road which led nowhere in particular, and the police were at a loss to hit upon any reason why the murdered girl should have been there. It seemed that some person or persons must have taken her there under false pretences. The theory that she had been killed and carried to the field and left there was not long lived, for it was shown that the ground had been soft when the girl's head had been beaten down into it, and had later frozen, leaving an accurate imprint of her profile. The soft ground had also been torn up by a struggle and the marks had frozen solid. As frost had occurred at about nine o'clock in the evening it was supposed the woman had been murdered before that hour.

Some three days after the murder a strange man, from his descriptions appearing much like the conventional stage villain, asked to be allowed to view the body of the dead girl. As he looked at her face his frame was almost convulsed with nervousness and he muttered incoherently under his breath. The police watched his every movement and when he attempted to board a train to leave the town he was detained and questioned closely. He was unable to reply satisfactorily to the questions the police asked him and was placed under arrest. He was subsequently discharged, and it was the general belief that he was insane.

One month after the murder the affair was a greater mystery than ever. The young woman had not been identified, nor was there the slightest evidence to show who had committed the murder or why he had done so. Eight identifications had proved false and the investigators were absolutely mystified.

Investigation Lasted Two Years.

When Mrs. William Space, of Deckertown, N. J., positively identified the dead woman as her sister, Mary Dorman, of Scotland, the police believed that another false clew had been offered. Mrs. William Harris, of New York, another sister of Mary Dorman, confirmed this identification, but, although both women were positive, the body was buried as an unknown. Later it was exhumed and identified as Nina Moeckel, which seemed to verify the belief the police entertained that the girl was not Mary Dorman.

It was two years before the investigations into the mysterious murder at Rahway were dropped, and a solution had not been found.

Nevertheless, the friends and relatives of Mary Dorman considered her dead, and in their minds there seemed to be no doubt as to the identity of the dead girl. At least their actions did not show it. In March, 1897, Mrs. William Harris called at the office of the New York Herald and said that she could clear up the mystery surrounding Mary Dorman's death. Mrs. Harris had a letter, she said, from a relative in Brisbane, Australia, describing the death of a man who confessed to the murder of Mary Dorman at Rahway.

"I have not the letter with me," Mrs. Harris told a Herald reporter. "I have forwarded it to the editor of the Free Press, in Wigton, Scotland. But I remember just what it said."

Then Mrs. Harris quoted from the letter:—"Dear Jennie— —— is dead. It was he and his brother who did kill poor Mary. It was lovely to see him die and confess. I never thought he did it until of recent years. Then my husband would not let me say a word. It is all cleared up now."

"There is no need to tell the man's name," said Mrs. Harris. "He is gone now. He was a relative of ours and his accomplice in the crime was a friend who crossed from Scotland on the same steamship with Mary. I had a letter from home telling me that Mary was on her way to America and asking me to meet her in New York. She booked under a false name, though, and that is the reason I could not find her when I went to the pier."

Mrs. Harris said that Mary had been a mother at fifteen. The father of her child was a Scottish baronet. Before she left her home she was employed in the household of Sir Andrew Agnew, of Lochrane. Mrs. Harris seemed unable to explain the motive for the crime, but it seemed that at last, after ten years of mystery, the death of Mary Dorman had been explained.

Inquiries were made at Wigton by newspaper correspondents and no trace of the letter which Mrs. Harris said she had forwarded to the editor of the Free Press could be found. Doubts were renewed as to whether the body was really that of Mary Dorman, and to this day it is not positively known whose body was found in the Rahway meadow, nor who was guilty of the murder.

Little Stories of Fact and Fancy.

Treatment of Erysipelas.

OWING to the favorable results obtained by local applications of compresses soaked in a solution of magnesium sulphate in the treatment of all kinds of inflammation, Dr. Tucker suggested the idea of having recourse to this means for the cure of erysipelas. And, in fact, in thirty-five serious, though non-complicated, cases a cure followed in two to seven days. The pain and local uneasiness disappeared within a few hours without the aid of any internal treatment.

The application is made by soaking gauze compresses in an aqueous solution of magnesium sulphate, the compress being sufficiently large to cover the ailing region and the parts about it. One may thus make a mask with a simple opening to allow of respiration. The region of the eye is well covered. The mask, well steeped in the solution, is covered with waxed paper in order to keep the dressing moist. The dressing need not be removed more than twice in twenty-four hours to permit the region to be inspected. The infected surfaces must not be washed throughout the treatment.

The advantage of this method is, in the first place, that it is a question of a substance which may easily be procured and is inexpensive, non-toxic and clean. It is readily applied and the patient obtains rapid relief of local symptoms. The temperature quickly falls to the normal—usually at the end of the second day—and does not rise again.

No internal medication is required in non-complicated cases, the sole treatment consisting of a milk dietary during the first few days or till the temperature becomes normal. Dr. Tucker has found that the results in his private practice have been constantly favorable. Lastly he recommends the treatment in all varieties of inflammation in the case of patients who are not too well off.

She Couldn't Hear.

THE pale boy with a guitar dropped into a saloon on the Bowery, and to the delight of the customers began to play popular airs. The saloonkeeper saw that the music added to the attractiveness of his place, but he came around from behind the bar and whispered to the lad:—

"It's all right to play, sonny, but make it a bit quiet. I've just lost my wife, and she's lying upstairs."

The boy played softly. The subdued music did not seem to please the hangers-on. They quit buying and began to file out one by one. The saloonkeeper hurried around from the bar again:—

"Sing up, sonny," he urged, "put some ginger into it. After all, she can't hear."

Strenuous Exercise.

THEY were talking about the value of regular physical exercise, and one of the group, noticing that Meredith Nicholson, the author, seemed pretty fit, asked him what he did to keep in condition.

"Who, me?" he exclaimed. "Why, I don't need any calisthenics or things of that sort. I live in a house on the sunset side of the street, and I get all the exercise my system needs in building the fire every morning."

"That doesn't seem to offer much chance for exercise," remarked a friend. "What kind of fire is it you build, wood or coal?"

"Neither," replied Nicholson. "We use gas, and I have to scratch a match every time I light the fire."

Best Seat in Heaven.

WHAT Aunt Melissa's funeral lacked in flowers and other pomp and display was more than made up for by the flow of oratory and emotion. The colored preacher spoke to respectable men and women who crowded the unpainted, backless benches of the little country church.

"Has Sister Melissa gone to heaven?" queried the preacher. Groans and sobs answered him. "Oh, yes, Sister Melissa has gone to heaven," asserted the speaker. "She bought a ticket for the best reserved seat in heaven twenty years ago when she joined the Baptist church at Leesville." This statement was met with a chorus of "Glory Hallelujahs" that for the moment stifled the sobs and groans.

FICTION STORY OF AN ICEBERG DISASTER THAT CLOSELY FOLLOWS "TITANIC" FATALITY

(Continued from yesterday.)

Brownson tied down the siren cord, and the roar shook the atmosphere. The tremendous tones rose above the din of screaming men and cursing seamen; and then the master called down to the heart of the ship, the engine room.

"Is she going?" he asked.

"Water coming in like through a tunnel," came the response. "Nearly up to the grates now——"

That was all. The man left the tube to rush on deck, and the captain knew the forward bulkheads had gone; had either jammed or burst under that terrific impact. The ship was going down.

Brownson stood upon the bridge and gazed down at the human tide below him. Men fought furiously for places in the small boats. The fireroom crew came on deck and mingled with the passengers. The coal dust showed upon their white faces, making them seem strange beings from an inferno that was soon to be abolished. They strove for places in the lifeboats and hurled the weaker passengers about recklessly. Some, on the other hand, helped the women. One man dragged two women with him into a boat, kicking, twisting, and roaring like a lion. He was a big fellow with a red beard, and Brownson watched him. The mate struck him over the head with a hand spike for refusing to get out of the boat, and his interest in things ended at once and for ever.

The crew, on the whole, behaved well. Officers and men tried to keep some sort of discipline. Finally six boats went down alongside into the sea, and were promptly swarmed by the crowds above, who either slid down the falls or jumped overboard and climbed in from the sides. The sea was as still as a lake; only the slight swell heaved it. Great fields of floating particles of ice from the berg floated about, and those who had got wet shivered with the cold.

The "Admiral," running at twenty-two knots an hour, had struck straight into the wall of an iceberg that reached as far as the eye could see in the haze. It towered at least three hundred feet in the air, showing that its depth was colossal, probably at least half a mile. It was a giant ice mountain that had broken adrift from its northern home, and, drifting southward, had survived the heat of summer and the breaking of the sea upon its base.

Smith had felt its dread prestnce, felt its proximity long before he had come to close quarters. The chill in the air, the peculiar feeling of danger, the icy breath of death—all had told him of a danger that was near. And yet Brownson had scoffed at him, jailed at his intuition and sense. Upon the captain the whole blame of the disaster must fall if Smith told.

The second officer almost smiled as he struggled with his boat.

"The pig-headed fool-" he muttered between his set teeth. "The murdering rat — he's done it now! He's killed himself, and five hundred people along with him——"

Smith fought savagely for the discipline of his boat. His men had rushed to their stations at the first call. The deck was beginning to slant dangerously as the falls were slacked off and the lifeboat lowered into the sea. Smith stood in the press about him and grew strangely calm. The action was good for him, good for the burning fury that had warped him, scorched him like a hot blast while he had stood silently upon the bridge and taken the insults of his commander. Women pleaded with him for places in the boat. Men begged and took hold of him. One lady, half clothed, dropped upon her knees and, holding his hand which hung at his side, prayed to him as if he were a deity, a being to whom all should defer. He flung her off savagely.

Bareheaded now, coatless, and with his shirt ripped, he stood there, and saw his men pass down sixteen women into his craft; pass them down without comment or favour, age or condition. Thirty souls went into his boat before he sprang into the falls and slid down himself. A dozen men tried to follow him, but he shoved off, and they went into the sea. His men got their oars out and rowed off a short distance.

Muttering, praying and crying, the passengers in his boat huddled themselves in her bottom. He spoke savagely to them, ordered them under pain of death to sit down. One man, who shivered as he spoke, insisted upon crawling about and shifting his position. Smith struck him over the head, knocking him senseless. Another, a woman, must stand upon the thwarts, to get as far away as possible from the dread and icy element about her. He swung his fist upon her jaw, and she went whimpering down into the boat's bottom, lying there and sobbing softly.

Furiously swearing at the herd of helpless passengers who endangered his boat at every movement, he swung the craft's head about and stood gazing at his ship. After a little while, the crowd became more manageable, and he saw he could keep them aboard without the certainty of upsetting the craft. He had just been debating which of them he would throw overboard to save the rest; save them from their own struggling and fighting for their own selfish ends. He was as cold as steel, hard, inflexible. His men knew him for a ship's officer who would maintain his place under all hazards, and they watched him furtively and were ready to obey him to the end without question.

"Oh, the monster, the murdering monster!" he muttered again and again.

His eyes were fixed upon the bridge. High up there stood Brownson—the captain who had sent his liner to her death, with hundreds of passengers.

Brownson stood calmly watching the press gain and lost places in the boats. Two boats actually overloaded rolled over under the immense load of human freight. The others did not stop to pick them up. They had enough to do to save themselves. The ship was sinking. That was certain. She must have struck so hard that even the midship bulkheads gave way, or were so twisted out of place that the doors failed. The chief engineer came below him and glanced up.

As he did so a tremendous, roaring blast of steam blew the superstructure upward. The boilers had gone. Macdowell just gave Brownson a look. That was all. Then he rushed for a boat.

Brownson grinned; actually smiled at him.

The man at the wheel asked permission to go.

"I'm a married man, sir—it's no use of me staying here any longer," he ventured.

"Go—go to the devil!" said Brownson, without interest. The man fled.

Brownson stopped giving any more orders. In silence he gazed down at the press of human beings, watching, debating within himself the chances they had of getting away from that scene of death and horror.

The decks grew more and more teep. The liner was settling by the head and to starboard. She was even now twisting, rolling over; and the motion brought down thousands of blocks of ice from the berg. The engines had stopped long since. She still held her head against the ice wall; but it would give her no support. She was slipping away—away to her grave below.

Brownson gazed back over the decks. He watched the crowd impersonally, and it seemed strange to him that so much valuable fabric should go to the bottom so quickly. The paint was so clean and bright, the brass was so shiny. The whole structure was so thoroughly clean, neat, and in proper order. It was absurd. There he was standing upon that bridge where he had stood so often, and here below him were hundreds of dying people—people like rats in a trap.

"Good Heaven—is it real?"

He was sure he was not awake. It must be a dream. Then the terrible knowledge came back upon him like a stroke; a stroke that stopped his heart. It was the death of his ship he was watching—the death of his ship and of many of his passengers. Suddenly Brownson saw the boat of the second mate, and that officer standing looking up at him.

The master thought he saw the officer's lips move. He wondered what the man thought, what he would say. He had insulted the officer, made him a clown before the men. He knew the second mate would not spare him. He knew the second mate would testify that he had given warning of ice ten minutes before she struck. He knew that the man at the wheel had heard him, as had the steward who brought up the coffee, and one or two others who were near.

No, there must be no investisgation of his, Bronson's blame in the matter. The master dared not face that. He looked vacantly at Smith. The officer stood gazing straight at him.

The liner suddenly shifted, leaned to starboard, heeled far over, and her bows slipped from the berg, sinking down clear to her decks, clear down until the seas washed to the foot of her superstructure just below Brownson. Masses of ice fell from her into the sea. The grinding, splashing, noise awoke the panic again among the remaining passengers and crew. They strove with maniac fury to get the rafts and other staff that might float over the side. Two boats drew away full to the gunwales with people. The air below began to make that peculiar whistling sound that tells of pressure—pressure upon the vitals of the ship. She was going down.

Brownson still stood gazing at his second mate.

Smith met the master's eye with a steady look. Then he suddenly forgot himself and raised his hand.

"Oh, you murdering rat, you cowardly scoundrel, you devil!" he roared out.

Brownson saw the movement of the hand, saw that it was vindictive, furious and full of menace. He could not hear the words.

He smiled at the officer, raised his hand, and waved it in reply. It seemed to make the mate crazy. He gesticulated wildly, swore like a maniac—but Brownson did not hear him. He only knew what he was doing.

He hurried away, gave one more look over the sinking ship.

"She's going now—and so am I," he muttered.

Then he went slowly into his chart rom, opened a drawer, and took out a revolver that he always kept there. He stood at the open door and cocked the weapon. He looked into its muzzle, and saw the bullet that would end his life when he pulled the trigger.

He almost shuddered. It was so unreal. He could not quite do it. He gazed again at the second mate. He knew the officer was watching him, knew Smith would not believe he had the nerve to end the thing then and there. It amused him slightly in a grim sort of way. Why, he must die. That was certain. He could never face his own family and friends after what he had done. As to getting another ship—that was too absurd to think of.

The form of a woman showed in the boat. She had risen from the bottom, where the blow of the officer had felled her in her frenzy. Brownson saw her, recognised her as his niece, the sister of the man he had wished to put in Smith's place. It was for his own nephew that he had insulted his officer, had caused him to relax and lose the interest that made navigation safe, in the hope that Smith would leave and let his relative get the berth.

He wondered if Smith knew. He stood there with the revolver in his hand watching for some sign from his second officer. Smith gazed at him in fury, apparently not noticing the girl whom he had just knocked into the boat's bottom to keep order. She stood up. Smith roughly pushed her down again. Brownson was sure now—he felt that Smith knew all.

But he put the revolver in his pocket. He would not fire yet.

The ship was listing heavily, and the cries of the passengers were dying out. All who had been able to get away had gone, somehow, and only a few desperate men and women, who could not swim and who were cool enough to realise that swimming would but prolong agony that was better over quickly, huddled aft at the taffrail. They would take the last second left them, the last instant of life, and to suffer a thousand deaths every second to get it. It was absurd. Brownson pitied them.

Many of these women were praying and talking to their men, who held them in a last embrace. One young woman was clinging closely to a young man, and they were apparently not suffering terror. A look of peacefulness was upon the faces of both. They were lovers, and were satisfied to die together; and the thought of it made them satisfied. Brownson wondered at this. They were young enough and strong enough to make a fight for life.

A whistling roar arose above all other sounds. The siren had ceased, and Brownson knew the air was rushing from below. The ship would drop in a moment. He grasped the pistol again. He dreaded that last plunge, that drop into the void below. The thought held him a little. The ocean was always so blue out there, so clear and apparently bottomless, a great void of water. He wondered at the depth, what kind of a dark bed would receive that giant fabric, the work of so many human hands. And then he wondered at his own end there. His own end? What nonsense! It was unreal. Death was always for others. It had never been for him. He had seen men die. It was not for him yet. He would not believe it. He would awaken soon, and the steward would bring him his coffee.

Then he caught the eye of Smith again in that boat waiting for the end out there. His heart gave an immense jolt, began beating wildly. The ship heeled more and more. The ice crashed and plunged from her forward. Brownson was awakening to the real at last. He felt it in those extra heartbeats; knew he must hurry it. Then he wondered what the papers would say; whether they would call him a coward, afraid to face the inevitable. He hoped they would not. But then, what difference would it all make, anyhow—to him? He was dead. His interest was over. What difference would it make whether he was a coward or not? Men knew him for what he was, but he was no longer. He was dead.

While he stood there with these thoughts in his mind, his nerve half lacking to end the thing, it seemed to him it was lasting for an eternity. He was growing tired of it all. He turned away again and entered the chart room.

His cat crawled from somewhere and rubbed its tail and side against his leg. Then the animal jumped to the table, and he stroked it; actually stroked it while Smith watched him, and swore at him for a cold-blooded scoundrel.

The ship sank to her superstructure. Her stern raised high in the air. It was now impossible to stand on deck without holding on. Some of the remaining passengers slid off with parting shrieks. They dropped into that icy sea.

Brownson felt the end coming now, and turned again to the doorway, looking straight at his second mate. Smith was trying to quell the movement among his crowd which was endangering his boat again.

The captain clutched the door jamb and watched. Then the ship began to sink. He could not make up his mind to jump clear. There was Smith looking at him. He dared not be saved when hundreds were being killed. No, he could not make that jump and swim to a boat under that officer's gaze. And yet at the last moment he was about to try it. Panic was upon him in a way that he hardly realised. He simply could not face the black gulf he was dropping into with his health and full physical powers still with him. It was nature to make a last effort for his life. Then, before he could make the jump overboard, he saw Smith again shaking his hand at him and howling curses.

He pulled the pistol. An ashy whiteness came over his face. Smith saw it. He stopped swearing; stopped in his furious denunciation of the man who had caused so much destruction. He also saw the pistol plainly, and wondered at the captain's nerve.

"You are afraid, you dog—you are afraid—you daren't do it, you murdering rat!" he yelled.

The men in the boat all gazed at the chart-house door where the form of their commander stood.

"He's going to shoot, sir," said the stroke oarsman.

"He's afraid—he won't dare!" howled Smith.

Brownson gazed straight at his silence was coming again, and the sounds on the sinking ship were dying out.

Brownson gazed straigt at his second officer. Smith saw him raise he pistol, saw a bit of blue smoke, saw his commander sink down to the deck and disappear. A cracking and banging of ice blocks blended with the report, and the ship raised her stern higher. Then she plunged straight downward, straight as a plummet for the bottom of the Atlantic Ocean. Smith knew his captain had gone to his end; that he was a dead man at last.

He stood watching the mighty swirl where the liner had gone under. The men in his boat were also looking. They had seen all.

"Look—look!" shrieked a passenger. "The captain has shot himself!"

STEWED STEAK WITH OYSTERS

Two pounds of round steak, one pint of oysters, one tablesponful of lemon juice, three of butter, one of flour, salt, pepper, and a cup of water. Wash the oysters in the water and strain into a stewpan.. Put this liquor on to boil. As soon as it boils skim carefully and set over hot water to keep warm. Put the butter into an iron fryingpan and when hot put in the steak. Cook ten minutes, browning it well outside. Season with salt and pepper. Take out the steak and put into the pan the butter and flour, stirring until brown. Then add the oyster liquor and stir until it boils up, season with salt and pepper. Then put in the steak, cover and let simmer; add the oysters and lemon juice and cook a minute longer. Serve on a heated platter with toast points and a border of spinach.

Unsightly Skin Diseases

Disfiguring skin diseases always seem to appear on the face and hands, so that they cause a feeling of shame, as well as pain and suffering.

Internal treatments have never proven very satisfactory in the treatment of eczema and similar skin troubles, but when Dr. Chase's Ointment is applied you can see for yourself and feel for yourself the benefits which are being obtained.

It soothes the inflamed, irritated skin so that itching ceases, and by its extraordinary healing power causes a new, smooth skin to form where the sores have been.

In every home there are many uses for Dr. Chase's Ointment, as for pimples and blackheads, barber's itch, chafing, erysipelas, chilblains and wherever there is itching skin or a sore or ulcer that refuses to heal. This ointment is pure, clean and pleasant to use and may be applied to the most delicate skin.

RHUBARB FRITTERS.

Cut some good pink rhubarb into short pieces of equal length. Put six large teaspoonfuls of flour into a basin, make a well in the centre of it, into which put two eggs, slightly beat them, and gradually add a pint of milk. Beat till a smooth batter is made. Dip each piece of rhubarb in the batter, and fry till a golden colour in boiling lard. Serve hot, prettily arranged in a napkin, and sprinkled over with sugar.

SALLOW SKIN

Liver Spots, Pimples, Dark Circles Under the Eyes

are all signs of the system being clogged. The Liver and Bowels are inactive and the Stomach is weak from undigested foods and foul gases.

FIG PILLS

the great fruit remedy, will make you feel like a new person.

Winnipeg, June 27, 1911.

After taking three boxes of your Fig Pills for stomach and liver troubles I feel strong and well and able to do my own work. Mrs. A. H. Saulter.

Sold at all dealers in 25 and 50 cent boxes or mailed by The Fig Pill Co., St. Thomas, Ont. Sold in Peterborough by The Warne Drug Co. Ltd.

STUFFED TOMATOES.

Select solid ripe tomatoes. If whole canned tomatoes are used, take the very solid perfect ones. Remove a round piece from the stem end of the tomato, and with a spoon carefully remove all seeds and juice, being careful not to break the divisions in the tomato if it can be avoided. Place the tomatoes upside down to drain free from juice. Brown one slice of onion, finely chopped, in one tablespoonful of butter or olive oil. Add one can of mushrooms cut in small pieces, or use ¼ pound of fresh mushrooms. Add one tablespoonful of olive oil or butter and cook the mushrooms until they are rather dry. Add one can of mushrooms, which will stuff six good-sized tomatoes, one cupful of breadcrumbs and half cupful of cream sauce. Mix until thick and stuff the tomatoes with this mixture. Cover the top with greased breadcrumbs, and brown in a quick oven.

POLO SHOE POLISH

Needs just a daub, a rub, and you have a lasting and easily revived shine. Polo comes in the BIG box. At all grocers and shoe stores.

"HULLO" TO THE KING

Youthful Patient in Guy's Hospital Greeted Sovereign Unconventionally

"It is about two years since I last visited your hospital, but I hope it will not be long before I come again," were the parting words of the King at the end of a surprise visit which his Majesty and the Queen paid to Guy's Hospital, London.

Their Majesties were received by Viscount Goschen, the treasurer, and Sir Cooper Perry, the superintendent who had just concluded a formal visit of inspection. Under the guidance of the matron Miss L. V. Haughtan and the assistant matron their Majesties made a tour of the hospital. They spoke cheerily to several of the patients.

"Hello, Tommy! what is the matter with you?" asked the King cheerily of a diminutive patient who was following every movement of the royal party with wide, round, staring eyes. "Hullo!" responded "Tommy" in an ecstasy of confusion. The King and Queen laughed heartily at the lad's ingenuous reply. Their Majesties stayed in the hospital for over two hours, and on their departure expressed their utmost satisfaction with everything.

Forest of Vipers

In the forest of Fontainebleau France, nearly 8,000 vipers were killed in the course of one year.

BAD COINS OF REAL SILVER

A large number of counterfeit half-crowns and florins, in many cases made of real silver, have been circulater recently in London. Although brighter and lighter than genuine money they are difficult to detect, as they are excellently made and ring true. A cashier of a City bank states that the public would be well advised to scrutinise all new and bright silver money, and balance the suspicious coin with a genuine one, as this is practically the only way to distinguish the false from the true.

BISHOP IS CHOSEN.

Rev. H. J. Hamilton Goes to the Diocese of Japan.

Toronto, April 19.—By a majority of 45, Rev. Heber J. Hamilton was yesterday afternoon elected by the M. S. C. C. to the position of Bishop of Japan. There were 71 delegates present, and so his election was assured after he had received a majority of 35.

Bishop Lea, a former Canadian missionary, now bishop under the English Synod, was the second choice, and Rev. Mr. Shortt, who was understood to be the nominee of Trinity, came third. Rev. Mr. Robinson and several other missionaries were also in the running, but Mr. Hamilton's majority towered far above them all. The House of Bishops must now ratify the choice.

Rev. H. J. Hamilton was nominated by Hon. Sam Blake, who stated that he considered him the best man for the position. Another delegate proposed the name of Bishop Lea.

"I am strongly opposed to electing a bishop already elected," declared Mr. Jenkins, a delegate from Petrolea.

"Let us ballot for whom ever we like," shouted another delegate in the audience. "If the man we nominate does not want it he can refuse."

A letter from Bishop Lea was read in which he stated that he did not think he could very well make a change after being in his present position only two years.

The report of the general secretary, Rev. Canon Gould, referred briefly to the immigration into Canada, especially that from the British Isles, and also to the situation facing the Christian Church in Japan and China. The most significant features in the latter are the recent change in the seat of Government in India, from Calcutta to Delhi; the conference of leaders of Shintoism, Buddhism and Christianity in Japan; and the revolution in China, all of which have had a most important bearing on the work of Christian missions.

Citizens of Fez Rebel.

Tangier, Morocco, April 19.—Confirmation has been received by the French commander-in-chief here of a revolt of the citizens of Fez, who were joined by mutinous Moorish troops.

The outbreak was a very serious one and the efforts of the French troops stationed at the Moorish capital to quell the disturbance have not yet been successful. A number of French officers have been killed in the fighting.

The Sultan is besieged in his palace by the armed populace, and the mutinous Moorish soldiers, but despatches received here state that the foreigners are safe.

The French troops in the city number 2,000.

OWNERS BLAMED

Committee of Survivors Issue a Statement Stating That the Safeguards on "Titanic" Were Inadequate

NOT ENOUGH BOATS

Nw York, April 19.—Th following statement, issued by a committee of the surviving passengers was given the press on the arrival of the Carpathia: "We, the undersigned surviving passengers from the Steamship Titanic, in order to forestall any sensational or exaggerated statements, deem it our duty to give to the press a statement of facts which have come to our knowledge and which we believe to be true.

"On Sunday, April 14, at about 11.46 p.m., on a cold, starlit night, in a smooth sea and with no moon, the ship struck an iceberg, which had been reported to the bridge by lookouts, but not early enough to avoid collision. Steps were taken to ascertain the damage and save passengers and ship. Orders were given to put on life-belts, and the boats were lowered. The ship sank at about 2.20 p.m. Monday and the usual distress signals were sent out by wireless and rockets fired at intervals from the ship.

"Fortunately, the wireless message was received by the Cunard steamship Carpathia at about 12 o'clock midnight, and she arrived on the scene of the disaster at about 4 a.m. Monday.

"The officers and crew of the steamship Carpathia had been preparing all night for the rescue and comfort of the survivors, and all were received on board with the most touching care and kindness, every attention being given to all irrespective of class. The passengers, officers and crew gave up gladly their staterooms, clothing and comforts for our benefit, all honor to them."

"The English Board of Trade passengers' certificate on board the Titanic, allowed for a total approximately 3,500. The same certificate called for lifeboat accommodation for approximately 950 in the following boats: Fourteen large lifeboats, two smaller boats and four collapsible boats. Life preservers were accessible and apparently in sufficient number for all on board.

"The approximate number of passengers carried at the time of the collision was:

First class, 330; second class, 320; third class, 750—total, 1,400. Officers and crew, 940—total, 2,340. Of the foregoing about the following were rescued by the S. S. Carpathia:

First class, 210; second class, 125; third class, 200; officers, 4; seamen, 39; stewards, 96; firemen, 71. Total, 210 of crew. The total about 775 saved was about 80 per cent. of the maximum capacity of the lifeboats.

"We feel it our duty to call the attention of the public to what we consider the inadequate supply of life-saving appliances provided for on modern steamships, and recommend that immediate steps be taken to compel passenger steamers to carry sufficient boats to accommodate the maximum number of people carried on board. The following facts were observed and should be considered in this connection: The insufficiency of lifeboats, rafts, etc., lack of trained seaman to man same (stokers, stewards, etc., are not efficient boathandlers); not enough officers to carry out emergency orders on the bridge and superintend the launching and control of life boats; absence of searchlights.

"The Board of Trade rules allow for entirely too many people in each boat to permit the same to be properly handled. On the Titanic the boat deck was about 75 feet above water, and consequently the passengers were required to embark before lowering the boats, thus endangering the operation and preventing the taking on of the maximum number the boats would hold. Boats at all times should be properly equipped with provisions, water, lamps, compasses, lights, etc. Life-saving boat drills should be more frequent and thoroughly carried out, and officers should be armed at boat drills. There should be a greater reduction in speed in fog and ice, as damage if collision actually occurs is liable to be less. In conclusion, we suggest that an international conference be called to recommend the passage of identical laws providing for the safety of all at sea, and we urge the United States Government to take the initiative as soon as possible."

Although the foregoing was given out as a signed statement by a committee of passengers, their signatures were omitted, attendant upon the confusion when the Carpathia docked.

Ismay Welcomes Inquiry.

New York, April 19.—J. Bruce Ismay left the ship at about 11.15 last night and went to the rear of the dock, where the officers of the Cunard Line are located. He was guarded by detectives and only a limited number of newspaper men were admitted to his room. In his statement, he said:

"I heartily welcome the most complete and exhaustive inquiry and any assistance that I or my associates or our builders or navigators can render is at the service of the public and the Government of both the United States and Great Britain."

No More Bodies.

Boston, April 19. A message to The Associated Press, just received from Captain Lord of the steamer Californian of the Leyland Line says:

"Arrived at the scene of Titanic disaster at 8.30 a.m. 18th. All survivors then aboard Carpathia. Have not and did not see any bodies."

BICKFORDS GUILTY

Cornwall Couple Get 7 Years in the Penitentiary for Cruelty to a Child

PRISONERS' DEFENCE

Cornwall, April 19.—The trial of Mr. and Mrs. Clayton Bickford, charged with manslaughter at the sessions here, was resumed yesterday morning. Dr. D. O. Alguire, of Cornwall, gave an opinion as the probable cause of death in view of the evidence submitted. This concluded the case for the crown.

The prisoners were both found guilty in the evening, and were each sentenced by Mr. Justice Kelley to seven years' imprisonment with hard labor. The jury were out over an hour and brought in a verdict of "guilty," with a recommendation of mercy.

The defence called two uncles and an aunt of the deceased girl, to show that she had not been scantily clad. Then Mr. and Mrs. Bickford gave evidence on their own behalf. They denied the evidence of Mrs. Killoran, sister of Mrs. Bickford, as to the latter beating and choking the child last November, and claimed that the child was well clothed and treated as one of the family. She had been subject to weak spells, which they believed to be epileptic fits, which were becoming more frequent and more prolonged.

The deceased had one of these on the night of her death. She staggered but Bickford caught her, and after working on her for 15 or 20 minutes, without result, carried her upstairs, and went for the doctor.

TELEGRAPHIC BRIEFS.

One hundred and seven gold miners were killed and 80 more were wounded in a fight with Russian soldiers at the Lena Gold Mining Co.'s workings in Siberia.

Charged with wounding Gustave Hillicon, of 5 Shannon street, by throwing carbolic acid in his face, Madeline Lallamond of Toronto, was in the police court yesterday. She was remanded for a week.

The police are working on the mysterious disappearance of Nathan Smith, of North Bay, who went to Tomiko, 20 miles north of that town, on the T. & N. Railway, on April 2, and has not been seen or heard from since.

Bogus telegrams marked "collect," called many people to the Montreal hospitals Wednesday night, where they found a trick had been played on them by an unknown man, who collected the charges on the telegrams.

Melbourne Nancy Isaacs, daughter of Justice Isaacs, of London, was raised to the bench of the Commonwealth High Court, and will be her father's judicial associate. The appointment is regarded as the greatest triumph of women lawyers.

Arthur Hawkes, special immigration commissioner, was in Ottawa yesterday conferring with Hon. Robert Rogers with a view to the early publication of his report. Mr. Hawkes laughs at the suggestions that his report did not suit the Minister.

During army manoeuvres near L'Orient, France, a couple of battalions of sharpshooters were ordered to fire on a body of cavalrymen. They did so, and immediately a quarter-master of the cavalry fell mortally wounded. Two men are suspected.

"His excellency, Mgr. Stagni, apostolic delegate to Canada, has had no cable from Rome regarding the appointment of a Catholic archbishop of the See of Toronto," said an official at the delegate's residence, Ottawa. If an appointment had been made, the apostolic delegate would be the first notified.

"It's no time ter go hantin' for trouble," said Brother Williams. "Ef you'll only stay still he'll save you de railroad fare by comin' ter whar you is at."—Atlanta Constitution.

Barley—Manitoba feed, 46c; malting, $1.08 to $1.10.

Buckwheat—No. 2, 74c to 75c.

Flour—Man. spring wheat patents, firsts, $5.80; seconds, $5.30; strong bakers, $5.10; winter patents, choice, $5.10 to $5.25; straight rollers, $4.60 to $4.75; straight rollers, bags, $2.15 to $2.25.

Rolled oats—Barrels, $5.25; bag of 90 lbs., $2.55.

Millfeed—Bran, $25; shorts, $27; middlings, $29; moullie, $30 to $35.

Hay, No. 2, per ton, car lots, $14.50 to $15.

Cheese—Finest westerns, 14½c to 14¾c.

Butter—Choicest creamery, 31c to 31½c; seconds, 30c to 30½c.

Pork—Heavy Canada short mess, bbls., 35 to 45 pieces, $23; Canada short cut back, bbls., 45 to 55 pieces, $23.50.

Lard—Compound, tierces, 375 lbs., 8¾c; wood pails, 20 lbs., net, 9¼c; pure, tierces, 375 lbs., 12¼c; pure, wood pails, 20 lbs., net, 13¾c.

Beef—Plate, bbls., 200 lbs., $14.50; Plate, tierces, 200 lbs., $21.50.

CATTLE MARKETS.

Toronto Live Stock.

TORONTO, April 18.—The railways reported 65 cars of live stock, comprising 483 cattle, 3060 hogs, 139 sheep and 160 calves.

Butchers.

Prime picked lots of heavy cattle sold at $7 to $7.12½, and a very few $7.25; choice lots and loads, $6.70 to $7; good, $6.25 to $6.60; medium, $5.50 to $6.10; common, $5 to $5.50; cows, $3.50 to $6.75, and $6; bulls, $5 to $5.75.

Stockers and Feeders

Both of these classes were scarce and demand greater than supply. C. Maybee & R. Wilson bought one load, 700 to 800 lbs., at $5.25 to $5.70, and Crawford & Co. bought 2 loads, 700 to 900 lbs., at $5 to $6.

Milkers and Springers.

There has been a little more life in the milker and springer trade. Prices ranged from $40 to $65 each for the bulk, while a few went up to $70.

Veal Calves.

Receipts were liberal this week, and prices ranged from $2 to $3 for bobs, and $5 to $7.50 for medium to good, and a very few choice at $8 to $8.50 per cwt.

Sheep and Lambs.

Sheep, ewes, sold at $5.50 to $6.50; rams, $4 to $5; yearlings, $6.50 to $8.50, with some few selects at $9; spring lambs, $4 to $7 each.

Hogs.

Receipts were liberal. Prices unchanged at this market at $8.60 for selects fed and watered, and $8.15 f.o.b. cars.

East Buffalo Cattle Market.

EAST BUFFALO, April 18.—Cattle—Receipts, 50 head; market, active, strong; prime steers, $8 to $8.50; butcher grades, $7.50 to $7.90.

Calves—Receipts, 100 head; market, active, firm; cull to choice, $5.75 to $8.50.

Sheep and Lambs—Receipts, 4000; market, fairly active, steady; choice clipped lambs, $7 to $7.25; wool lambs, $7 to $8.50; cull to fair, $5.50 to $6.90; yearlings, $6 to $6.50; sheep, $3 to $6.

Hogs—Receipts, 2500; market, active, firm; yorkers, $8.20 to $8.25; pigs, $7.25 to $7.40; mixed, $8.25 to $8.45; heavy, $8.40 to $8.45; roughs, $7 to $7.60; stags, $5 to $6.50.

Memorial to Dufferin.

Ottawa, April 19.—In memory of Lord Dufferin, a former Governor-General of Canada, and a past member of St. Bartholomew's Anglican Church, a brass tablet will be unveiled there on Sunday, April 28, by the Duke of Connaught.

Several memorial windows decorate this place of worship, among the number being two dedicated to members of the Dufferin family, one being to Lord Ava who was killed in South Africa, and the other to Mrs. Stephens, sister to Lady Dufferin.

Mary had a Persian lamb.
It cost her many a dollar,
But Mary didn't care a slam—
It made a lovely collar.
—Milwaukee Sentinel.

What Ails You?

Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heart-burn," belching of gas, acid risings in throat after eating, stomach gnaw or burn, foul breath, dizzy spells, poor or variable appetite, nausea at times and kindred symptoms?
If you have any considerable number of the above symptoms you are suffering from biliousness, torpid liver with indigestion, or dyspepsia. Dr. Pierce's Golden Medical Discovery is made up of the most valuable medicinal principles known to medical science for the permanent cure of such abnormal conditions. It is a most efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener.
The "Golden Medical Discovery" is not a patent medicine or secret nostrum, a full list of its ingredients being printed on its bottle-wrapper and attested under oath. A glance at these will show that it contains no alcohol, or harmful habit-forming drugs. It is a fluid extract made with pure, triple-refined glycerine, of proper strength, from the roots of active American medicinal forest plants. World's Dispensary Medical Association, Props., Buffalo, N. Y.

CASTORIA
The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.
What is CASTORIA
Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

"TITANIC" HELMSMAN'S STORY OF WHAT HAPPENED WHEN STR. STRUCK 'BERG

Says Lookout Was Being Kept for Icebergs — "Close the Emergency Doors" Were First Words of Captain Smith.

THERE WAS NO PANIC

Special Wire to The Examiner.

NEW YORK, APRIL 19.—Robert Hitchins, one of the surviving helmsmen of the Titanic, who was on duty at the wheel when the ship struck an iceberg, saw Sunday night's tragedy at a closer range than any other man living, save one whose lips are sealed in death. He said Second Officer Lightholler before he was relieved by Murdock, gave strict orders to look out for icebergs. "I took the wheel at ten," he said. At 11.40 the signal that there was something ahead was sounded. At the same time one of the men in the nest telephoned to the bridge that there was a large iceberg right ahead. As Murdock's hand was on the lever to stop the engines the crash came."

He stopped the engines immediately, and by another lever, closed the water-tight doors. The Skipper came from the chart room on to the bridge and his first words were: "Close the emergency doors."

"They are already closed," said Murdock.

"Send for the carpenter and tell him to sound the ship," was the Skipper's next order. The message was sent, but the Carpenter never came to report. He was probably the first man on the ship to lose his life. The ship was then rapidly settling forward. All the steam sirens were blowing. By the Skipper's orders the engines were put to work, pumping out the ship. All hands were ordered on deck and life belts were served to crew and every passenger. The stewards and other hands helped the sailors in getting the boats out. The order "women and children first" were given and enforced. There was no panic. I was at the wheel util 12.45, when I was told to take charge of a certain boat, and load it with ladies. There were 32 ladies, a sailor and myself in the boat. Every boat, so far as I saw, was full when lowered, and every boat that set out reached the Carpathia. Our boat was 400 yards away when the ship went down.

10 WIDOWS ON CARPATHIA.

NEW YORK, APRIL 19.—Robert Daniel of Philadelphia, declares that on the Carpathia were sixteen widows, all less than twenty-three years old, sobbing together on the deck.

MRS. DOUGLAS' STORY.

MONTREAL, APRIL 19.—Mrs. Douglas, of Montreal, said: "I was in the cabin when the impact took place though unless the events which occurred afterwards, had happened, it was not so remarkable that I should have thought it out of ordinary. I heard some say the boat was going down and I went up on deck to see what all the dubbub was about. We women were all assured that there was nothing to fear, that the ship had merely scraped an iceberg. When I heard the band playing I thought everything was all right and went back to my cabin. When they started to lower the boats I tried to find my mother and was told she was already in a boat.

They hurried me to the side, and I had to jump down. People in the boat caught me.

ATTACKS ON ISMAY.

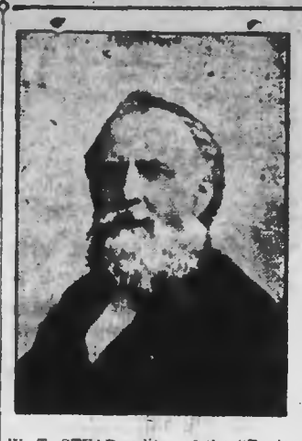
NEW YORK, APRIL 19.—The papers here are making an organized campaign against J. Bruce Ismay. Mrs. F. Crane of Fort Sheridan, Ill., defends him. She says one boat was filled when it was found there was only oe man in it to row. They thought there was no danger and refused to go. Ismay said: "All right, I'll go and row." Mrs. Julian Smith of West Virginia, says she saw Ismay leave on the first boat. He had been banquetting with the Captain whe the crash came. On the Carpathia he was give the best stateroom, and did not appear.

Stead Was Cool.

NEW YORK, N.Y., APRIL 19. — Wm. T Stead, the noted English journalist, calmly sauntered on deck after the Titanic struck the iceberg. Quietly he discussed with his fellow passengers the probable size of the berg, expressing the opinion that a few were "unnecessarily alarmed." "I think I will turn in," he said, and he never appeared on deck again. It is believed he went right to bed and passed with the vessel into the spirit world, of which he was so fond of writing..

Babies Unidentified.

NEW YORK, N.Y., APRIL 19. — Seven babies, who may never be identified, and whose parents or mothers perished in the Titantic disaster, are being tenderly cared for in the New York foundling asylum. The babies were thrown to the life boats by the parents. Two other children of tender age, both unidentified, will probably die.



W. T. STEAD, editor of the "Review of Reviews," and one of the most noted newspapermen in the world, who perished in the Titanic wreck.

MRS. WM. B. OWEN, wife of the Supervisor of Chicago's Normal Schools. She advocates the compulsory education of children till they are sixteen years old.

LOCAL MAN ON CREW OF "BALTIC" WHEN CAPTAIN SMITH WAS IN CHARGE

Mr. John Cairns, Simcoe Street, Knew the Commander of the Ill-fated "Titanic" and Says He Had Always Had a Reputation as a Capable Navigator—Never Left His Bridge When Danger Threatened His Vessel.

Captain Smith was a fine specimen of man, a typical seaman, and a thorough gentleman. So said Mr. John Cairns of Simcoe street, who has repeatedly met and conversed with the Captain of the ill-fated ocean Leviathan the "Titanic," having been an engineer on the "Baltic," when Capt. Smith was in charge of that vessel.

In conversation with Mr. Cairns, last evening, some interesting facts with regard to the unfortunate man were gleaned by the Examiner. He (the Captain) was a strikingly handsome man, and was about five feet ten inches in height. He had a very pleasant manner, which quality may have formed a considerable asset in the popularity which he invariably gained amongst those with whom he sailed, and he was ofttimes affectionately referred to as "the old man." His home was on Marine Crescent, Waterloo, Liverpool, and in addition to his many Liverpool friends, he was well known in New York.

"Would you consider him a careful man," asked the interviewer.

"Unquestionably," was the reply. "It was characteristic of him in the case of a storm, or a fog, to remain on the bridge until the cause of anxiety had passed. On one occasion he remained on the bridge of the "Baltic" for the space of three days. His meals had to be take to him, and the only rest he obtained was a snatch of sleep in the Chart Room, where he could be summoned at a moment's notice.

Capt. Smith was first Captain of the Majestic. After some years on this vessel he went to several others, consecutively, before attaining his last position. From the "Majestic" he went to the "Celtic," and from thence to the "Cedric," "Baltic," "Adriatic," "Olympic," and lastly, to the "Titanic."

A pretty story was told of the affectionate relations that existed between the deceased Captain and his wife. He was at the time in question, Captain of the "Baltic," which sailed from Liverpool. When on the homeward voyage he would invariably blow his whistle when opposite the Crosby light. This served a dual purpose, for, as the signal reached the tender, it would also reach the ears of Mrs. Smith, who would probably be waiting on the shore for it. As a sequel, the tender, steaming out to take charge of the liner, would convey thereto Mrs. Smith, and when the Captain was free to depart they two would repair homeward together

AWFUL SUFFERING IN SOUTHAMPTON

SOUTHAMPTON, ENG., APRIL 18. —The women and children of the members of the crew of the ill-fated Titanic to-day stormed the White Star offices here, pleading for the list of survivors of the crew. Grief and despair reached a climax to-day after a vigil that had lasted since the first news of the wreck was received Monday and many women who were broken in mind and body by the long watch were carried away to their homes.

The aristocracy of Southampton's sea-going folk was about of the fatal ship. The more than eight hundred were picked men, selected for the qualities that have made the British seaman a standard. When the Titanic was put in commission, and her crew chosen, the men who went from Southampton were proud of the distinction, and there was general rejoicing at the choice.

To-day the relatives besieged the White Star office to learn the names of the pitiful few who were saved to man the lifeboats for the surviving passengers. Out of the more than 800 but 165 are aboard the Carpathia, and no list of the survivors has been sent from the rescue ship.

As the fourth day of the grim vigil began at the White Star office many women among those clamouring for news fainted from grief and exhaustion. One woman, shrieking that her husband, her son, two brothers and four cousins were among the crew of the ill-fated ship, dropped to the floor unconscious, exhausted by four days of vain watching and waiting. She was carried away to a hospital.

Florence Barclay's (author of the Rosary) new book "Through The Postern Gate" for sale at Treblicock Bros.

WOMEN'S AUXILIARY TO HEALTH ASSOCIATION

A general meeting of the Women's Auxiliary of the Peterborough Health Association will be held next Saturday, April 20, at 3 p.m, in the Council Chamber. All the members are requested to be present. Business connected with the Made-in-Peterborough Fair will be discussed.

RENTAL INSURANCE

Do you own a building? Have you taken out a fire policy covering your rentals? This is very important. If you want to be fully protected it is just as necessary to insure against loss of rent in case of fire as to insure against the loss of the building itself. This applies equally whether your building is occupied by yourself or tenants. The Manitoba Assurance Company makes a specialty of Rental Insurance. Ask for one of its Rent Policies. The cost is small. Agent, Davis-Thompson Co. Ltd.

A CONTRADICTION

To the Editor of the Examiner:

Sir,—We wish to contradict the statement in last night's paper of a west-end resident complaining of profane language used by the boys on the corner of Park and Bonaccord sts., as other parties who were nearby who knew the boys, can say there was no profane language used. Each boy raised his hat and spoke as gentlemen should, and we think it is better to have our own neighbour boys playing ball and other games around their own corner than hanging around parks and hotels.—Yours truly,

WEST-END CITIZENS.

DESPATCHES MISLEADING

Local Italians Place No Credence in Reports of Turko-Italian War as Furnished by Associated Press

THEY FAVOUR TURKS?

The Italian-Turko war has taken on a new lease of life, as indicated by the despatches received here yesterday from Constantinople and Athens, in which, in twenty-four hours, twenty-four Italia ship are reported to have engaged the Turkish fleet in combat at the upper entrance to the Dardanelles. To many this comes as a surprise, as it was thought that hostilities had been practically suspended between the two countries.

However, there is one element in this city whose interest has not wavered in this respect and that is the Italians. They, in common doubtless with all of their compatriots who look back to the homeland from foreign shores, are following with keen interest the progress of the hostilities between Italy and Turkey. But apart from this keen interest there is no outward display of excitement or extraodrinary feeling among them.

Will Stave Them Out.

Mr. D.M. Minnecola, who is probably one of the best posted men in the city on the subject, believes that another two weeks will see some interesting developments in connection with the war. He attributes the partial suspension of hostilities to the fact that about twelve thousand Turkish and Arab troops are ensconced in Tunis Pass. Thees the Italian troops have succeded in surrounding and it now remains a matter of time they will be forced to surrender, as the attacking forces have succeded in cutting off all communication with the outside world, in addition to intercepting all food supplies.

Will Assist If Necessary.

"We are well anxious to hear how things are going," said Mr. Minnecola, and we are following the course of events with close attention. I place no credence in the reports that sift through from the Associated Press, as it is generally known that they favour the Turks. At present it does not look as if Italy needs help from her sons beyond the seas, but if it should happen otherwise, we shall be ready to bear our share of the burden, willingly. Every good Italian has confidence that his country's advisors will do their duty throughout the crisis, ad carry the country safely through."

Mr. Minnecola is in receipt of several letters from his friends, who are in active service at the front, and it is principally from there, and the New York Italian newspaper, which he receives daily, that he draws his information. He is well versed in the geographical cantour of the country, where the fighting is in progress and it took him but a few minutes to draw a rough pencil sketch for the benefit of the interviewer, in order that he might more explicitly explicitly explain the difficulties which confronted the Italian troops.

Subscriptions Raised Here.

Our men have abandoned the guerillia mode of fighting, which the Turks forced upon them at the opening of the conflict. They now prefer to wait until the enemy muster a force sufficiently large enough to give them a battle worth while," added Mr. Minnecola.

A subscription fund was opened in Peterborough some time ago, and the money sent home to headquarters, where it was used to finance the area corps who were successful in bombarding the Dardenelles forts with the aid of airships.

PARALYZED LIMBS

To-day it is sleeplessness, headaches, digestive trouble, and irritability. Next thing you know some form of paralysis has developed. Mr. Alex. Hossburger, 10 Moore Street, St. Catharines, Ont. ,writes: 'Nervous trouble developed into paralysis of the limbs so that I became helpless. Doctors failed me, but after using ten boxes of Dr. Chase's Nerve Food I resumed work, and now feel better than I did for 20 years."

PETERBORO' LUMBER CO'S MILL OPENS ON MONDAY

In connection with the opening of the lumber mills, it was learned today that the Peterborough Lumber Company would recommence operations on Monday. It was stated in yesterday's issue that the mill would open sometime next week, and it was learned to-day that everything would be in readiness on Monday.

WILL ASK COUNTY TO AID THE CITY'S PUBLIC LIBRARY

Part of a General Movement Throughout Ontario—Grant to Library Would Mean Reduction of Fees to County Subscribers—Mr. Dela Fosse's Report to the Board.

Two questions discussed last night at the meeting of the Public Library Board were the fitting up of the smoking-room and the requesting of the County Council to make a grant towards the Library.

It is felt that the number of subscribers in the county would be largely increased if the present fee of two dollars was reduced. The reduction of the fee might be accomplished if the County Council would make a grant to the Library. The Library, it is said, can accommodate a large number of county subscribers, and the number is at present considered too few. An effort will be made to interest the county in this regard, and it is understood that a grant of $50 or more would materially decrease the fee to county subscribers, and would therefore mean that more residents from the county would use the Library.

THE LIBRARIAN'S REPORT.

Mr. Dela Fosse's report on the Ontario Library Association meeting, which he attended in Toronto on April 8th and 9th, covered the various topics that had been discussed. Two of these are of special interest to the egneral public. Clause 3 of the report was as follows:

It was decided to communicate with the various county councils of Ontario in regard to giving an annual grant of $50 to all free libraries within their borders and $25 a year to those that are not free. In regard to this matter I think that nothing but good can result from public libraries in cities, keeping in touch and sympathy with residents of the county. In one library we have several subscribers from outside the city limits, but we could be of service to many more if the County Council would come to our aid with a moderate grant. I advocated approaching our Council on this point last year, and was rather surprised to find the matter brought up as a live topic in this year's association meetings.

The question of infected books was also brought up, and I find that it is the custom of other libraries to stand the loss of these and not to saddle it on those in whose houses have been infectious or contagious diseases.

The medical health officer is also looked to to give the librarian notice of any house where such a disease has broken out.

NOT A SECRET

Kathryn Dunne's Story.

It is said that in Europe when a woman finds a remedy that does her great good, she keeps it a secret for she does not want any other woman to be able to rival her charms.

American women are different. When they find a good remedy, they want other women to get the benefit too, so they tell their friends.

Miss Kathyrn Dunne, of N.Y. City is one of these. She says, "When I was in a weakened condition last spring I took Vinol with the greatest benefit and I recommend it highly. Five of my friends are now taking Vinol on account of the benefit I received."

When you are rundown and weak, you need better blood and more strength, and Vinol will give them to you. It is a delicious cod liver and iron preparation without oil and restores untold thousands of pale, nervous, broken down people to health each year. We give you back your money if Vinol does not help you. McDermid and Jury, druggists, corner George and Charlotte streets; also Payne's drug store, corner George and Simcoe street.

BIG REAL ESTATE DEAL

A big real estate deal was put through in Norwood yesterday morning when the Reynolds property on the corner of Colborne and Peterborough streets changed hands, the purchasers being Messrs. John Whyte and John Baskin. Mr. Whyte takes the corner portion of the property with 71 feet frontage on Colborne street and 100 feet on Peterborough street, while Mr. Baskin takes the southart yhalf with 71 feet frontage on Colborne street.

Mr. Baskin intends to begin at once the erection of an hotel on his portion of the property, adjoining the old King hotel site, and Mr. Whyte will probably buil da double store on the west end of the lot fronting on Peterborough street.

QUARTERLY DIVIDENDS

At the Canadian Locomotive Company, Ltd., regular Directors' meeting, held in Toronto, yesterday, the directors resolved that after July 1st, next, which is the end of the Company's fiscal year, dividends declared on the preferred stock will be paid quarterly, instead of half yearly.

CHOSE THE CARMANIA.

Sir Chas. Ross Did Not Wait For Titanic Though Wife Advised Him To.

OTTAWA, APRIL 19.—Sir Charles Ross, head of the Ross rifle factory, made the happy decision of taking the first available Atlantic steamer instead of waiting three days for the Titanic as many others did. He sailed on the Carmania despite the advice of Lady Ross and arrived here safely on Wednesday. Otherwise he might have been another millionaire victim of the disaster. The Carmania ran into an immense field of icebergs during a fog and had to lay to for several hours before crawling away from the danger. The Titanic's call for help was received, but no further information came with it.

A LITERARY SMOKER.

There is a proposal to add a smoking room to the equipment of the Public Library. Of course, it will be for men only. That may stir the criticism of some of the ladies; but, as ladies generally consider smoking a vice, it seems to be the proper thing that the vice should be segregated. Another consideration should commend the proposal to the ladies, especially some of the married ones, whose one standard consolation, in case of a husband's death, is that they know—in a general way, of course—where he spends his nights. The smoking room proposal carries with it the club idea; so that men can meet and, under the relaxing influence of My Lady Nicotine, exchange views on business and other things, borrow matches, and, in many ways, cultivate and develop the social spirit and improve the entente cordiale of our citizenship. The Public Library club will also have this advantage in the wife's eyes. The rooms will be shut at ten o'clock, and husbands who return home at 2 a.m. and find oscillatroy difficulty in establishing working working relations, between the latch key and the door lock, will not be able to successfully urge the excuse that they have been detained at the club—that is the ordinary, common-place club, not the Library club at Central Park. Besides the Library smoking room will stimulate mental activity. Lord Bulwer Lytton said:

"Tobacco is a pleasing and a soothing friend; it makes a man think life a philosopher and act like a sage."

And he should know, for he smoked; and we should believe him; for, who has not enjoyed Lytton's literary pipe dreams. And again besides, tobacco is a good disinfectant, germicide, and insecticide. It used to be burned between decks on the old passenger sailing ships, to destroy typhus fever germs. If the smoke from the Library fumoir could be exhausted among the book stacks, it would help keep the moths out—of the theological section especially, the fiction shelves are too actively used to make moth residence comfortable.

WAS KNOWN HERE.

Mr. Walter Douglas Victim of Titanic Disaster Here Some Time Ago.

It is feared that Mr. Walter oDuglas is among those who went down with the Titanic. Mr. Douglas is known in the city through his connection with the Quaker Oats Company, he being one of the directors of the firm. He made a extended visit here some time ago, and during his stay in the city, cultivated the acquaintance of a number of local people.

Mr. Douglas was accompanied by his wife. The name of Mrs. Walter Douglas appears among the list of survivors, but as yet no word has been received as to the whereabouts of her husband, who is believed to have perished.

Don't forget Concert at Conservatory Hall To-night. it.

CAPTAIN'S BRAVERY

Commander Smith Called Down From the Bridge "Be British" and Refused to Leave His Post When Urged to Do So.

ISMAY'S STATEMENT

Special Wire to The Examiner.

NEW YORK, APRIL 19.—Of the unparalleled self sacrifice and heroism of Capt. Smith and the Titanic's officers, every passenger has something to say. From the bridge the Captain called "Be British," and when the cook tried to pull him away, says one passenger, he exclaimed "No, no; I must go down with her."

TORONTO, APRIL 19. — Every chruch in Toronto will hold memorial services, Sunday.

DID NOT WANT TO GO.

NEW YORK, APRIL 19.—"I can row, but if there is room for one more, let it be a woman; I am not a coward." This was the remark Mrs. Cavendish attributes to a man coincides with Major Peuchen of Toronto, as the boat reached the water. She said there were twenty-three women and two men in it. "Many of us women implored men to come to our succor, but most of them could not row.

"Then Major Peuchen made the statement. The women in the boat beseeched the man to row the boat for them and those on deck urged him to do so. With a parting handclasp the man lowered himself by a rope to the lifeboat and took his position there.

NOT AFTER RECORD

NEW YORK, APRIL 19.—Asked this morning if the Titantic was trying to break the speed record, J. Bruce Ismay said: "That statement is absolutely false. I can speak for the White Star Line that such proceeding is not the case. The Titanic at no time during the voyage has been at lawful speed." On the other hand, Quartermaster J. R. Moody who was on the bridge, said the officers were under orders at the time to keep up speed in the hope of making a record passage.

MONTREAL, QUE., APRIL 19.—A special train from New York, bearing the widow of Chas M. Hays, late President of the Grand Trunk Railway System, and several other Montrealers, saved from the wreck of the Titanic, together with their friends and relatives, who had gone to New York to meet them, arrived in Montreal at 9.50 this morning. Strict secrecy had been preserved by the officials of the Grand Trunk, regarding the exact time of the arrival of the train, with the result that there were few of the general public on hand to see the return of the Montreal survivors of the great marine disaster. The first person to jump from the trin was Vice President Kelly of the Grand Trunk, who immediately entered a cab and was whirled to his office in the general offices of the G.T.R., on McGill St. Mrs. Hayes was heavily veiled, but it was noticeable that she walked with little or no sign of fatigue and displayed few outward evidences of emotion.

ISMAY EXAMINED.

NE YORK, APRIL 19—J. Bruce Ismay, managing director of the Mercantile Marine, was the first witness before the Seate Committee investigating into the Titanic disaster, at its first session this morning. He was put through a rigid examination He declared he left on the very last boat when the officer asked him to take charge. He said the Titanic was built on commission, not contract plan. There were no women aboard when he made his escape, and he did ot hear any explosion. He denied the boat was speeding.

HOME MAKE AND HOME MARKET

At the Grand Trunk Railway meeting held in London yesterday, it was stated by the president that track laying on the Grand Trunk Pacific branch lines was delayed by inability of the Canadian mills to deliver rails; but that arrangements were made within the last few days for the delivery of United States rails. This condition rather weakens the claim of the Canadian mills for a return of the bounties on steel. In the past these industries have been very liberally treated. They have been aided to the extent of millions in the way of bounties out of the public chest, by differential duty on imported rails and by the provision that state-aided railways must use Canadian rails. The much-touted Canadian home market idea seems to have been bit in ket ideas seems to have been hit in for some of our main manufactured products, and can't provide a market for our natural products.

THE KING NEVER DIES.

At the meeting of the Grand Trunk Railway Board, held in London (Eng.) yesterday, the loss of Mr. Charles M. Hayes, president, was deeply deplored. And no wonder; for apart from the awful manner of his death, and the sorrow that loss of human life creates, the death of Mr. Hayes represents an irreparable loss, to the Grand Trunk Railway, and all the great national, and even, imperial, interests it represents. The Grand Trunk system, and through it, Canada has been tremendously benefitted by the services of Mr. Hayes. He found the line in an approximately moribund condition. His management has put new life into the line, and his services, altogether, have been of the greatest benefit to the interests of the Grand Trunk, and very fully justify the regret expressed by the Grand Trunk Board. Conventionally speaking, the loss represented by his death, will be spoken of as an irreparable one. But is it irreparable? Not as the world goes. This world is made to keep moving on, and history shows us that there is no niche of usefulness, occupied by great men, either in politics, or in the other theatres of human action, that is long unoccupied. Invariably, a man has been found for the place, and the special interests some great men served have not permanently suffered. The work he performed still goes on. This can be said without disparagement of the great men gone. It seems to be a part of the Divine plan to place dependence upon no one individual. We are often astonished, or, at least, led to wonder, that some great man, who has been doing God's work with great success is removed by death, in, to human seeming, the height of his usefulness, and the full flush of his power of accomplishment. There is reserved somebody to take his place; the opportunity discovers the man. We see instances of this every day all about us. There is a familiar instance in our own history. When Sir John Macdonald was called away, and relieved of his labours, it was felt and said that his loss was an irreparable one; a natural feeling and saying when his great services to Canada and his high statesmanship, his unique qualification of will and ability for the work he undertook and wrought so well, were kept in mind. There was no long interregnum. In a short time another great statesman, Sir Wilfrid Laurier, came to the front, and well carried on the work his predecessor had well begun; realized upon assets provided; built upon the foundation laid, and brought Canada to a position of prominence and accomplishment, that even Sir John, in his most sanguine flights of fancy might not have anticipated. The history of the trial of Abraham's faith is repeated day by day in our sight—"My son, God will himself provide a lamb for a burnt offering." The Divine Providence that rules the world of men leaves nothing to hazard. The plans are well laid, men come and go and, as the past has proved, the man for the hour, for the place is provided. Otherwise life would be impossible in the world of the living—not of the dead. In the ordinary course of life this is daily illustrated. We may, in our little human vanity, fancy that when death calls us away an awful vacancy will be created, and so there is, for the moment, but the wound quickly heals; the tide of life, of action sweeps over the spot where we went down, and, as the world wags, we are not missed. Truly the melancholy poet, Young, pictured this idea when he said:

"As from the wing no scar the sky retains,
The parted wave no furrow from the keel,
So dies in human hearts the thought of death."

The King never dies.

EDITORIAL NOTES.

There were no boats for the men.

Leaving the life boat in port is sending the death boat to sea.

If ship builders worked as hard to provide safety as they do for speed on ocean liners, there would be fewer great disasters.

Palatial suites of rooms, precious wood, gilded glory to the eye, and every sybarite provision are luxuries in steamship equipment, but life boats are a necessity.

Millionaires and captains of industry went down to death in order that Norah Murphy and Ellen Wicks of the steerage might be saved. Money cannot buy the right to live at the cost of the lives of others, and to the credit of the men who have the money, most of them know it and act upon it.—Montreal Herald.

"Faithful unto death" gets no nobler illustration than the refusal of Mrs. and Miss Allison of Montreal, to enter the Titanic life boat, and leave husband and father behind. They all went down together; united in life, in death they were not divided. We sometimes dream such things but they are rare in real life.

Most icebergs come from the west coast of Greenland. Probably long before man trod the earth soft snow falling on Greenland's mountains turned, in the course of ages into glaciers. The glacier in time started moving down the valleys and into the sea. At last it reached the sea and projected out into the water, broke at the coast line, and the broken off piece became an iceberg. The roar of a breaking glacier is greater than any noise on earth. Generally, four-fifths of an iceberg are below the water line.

A Hamilton clergyman says that the besetting sin of Hamilton is gossip. Secret murders, one of Hamilton's titles to fame, do not create as wide-spread social misery and heart-burning as gossip. The original issuer of gossip is not the chief sinner. The second-hand retailer of the nasty sayings is the chief culprit. An unkind cut in social intercourse, does no harm of itself except to the speaker. It is the wide-mouthed gossip, who rolling the poison under her tongue, spits it in the face of the person talked about that is the chief sinner.

CANADIAN HOME RULE IMPERTINENTS.

There is a man who has undertaken to speak for Canada in the matter of Home Rule. His name is Castell Hopkins. Probably most people in Canada have heard this curious name, for its owner has lost no opportunity of making it public. There are some names that, like this one, keep flitting before the disordered vision, no one knows exactly why. But such an opportunity to appear before all Britain as being all Canada has probably not occurred to Mr. Castell Hopkins before. The Irish Unionist whip has read out in Parliament a despatch from him speaking for the loyal people of Canada. Mr. Castell Hopkins begins by saying that Canadian loyalists oppose Home Rule, and goes on to give the Castell Hopkins view of that measure, with which we Canadian loyalists are not concerned. But, after more than one vote in Parliament in favour of Home Rule, this statement, as speaking for loyal Canadians generally, is more than an impertinence. We have never been, in favour of outlying legislatures busying themselves with United Kingdom affairs, but just let Mr. Castell Hopkins, and Mr. Willison, journalist of changeful record, and Col. Denison prevail upon some member of Parliament when it sits again to have this question voted upon, and they will learn what proportion of Canadians come within the Castell Hopkins definition of loyal.—Montreal Witness.

TWO PREMIERS ON TREATING.

The Winnipeg Free Press proposes that a debate be arranged between the Prime Minister of Ontario and the Prime Minister of Manitoba on "Is the Treating Custom an Evil?" Premier Roblin, when asked to legislate against the custom, defended it on highly moral grounds. Nothing could be more empathic than his language in the Manitoba Legislature on the 1st of March:

"Now, what is the treating custom? The treating custom is simply the manifestation of the social and the intellectual qualities of man as contra-distinguished from the ordinary brute creation. If you take away the social qualities of the social and the neighbourly, or the hospitable side of a man, you have something very little better than a brute. Here is a declared intention to curb, restrain, destroy, if possible, that social side of life. To me, in the first place, I think it is absolutely wrong to make an attempt Secondly, I know it is absolutely impossible without exterminating the race, and, therefore, I refuse to acknowledge the desirability of any such action."

These expressions sound Whitneyesque. Sir James himself would probably have spoken in that way if he had been asked to legislate against the treating custom before Mr. Rowell had proposed to banish the bar. Sir James says:

"It is my belief that in putting a check upon the freedom of treating we would destroy the desire for and the habit of treating inside the bar. Our young men and boys of the present day would grow up so that in five years it would never occur to them to enter upon this habit. . . . It is my firm belief that prohibitory legislation will kill and destroy the habit."

Nothing will destroy Sir James habit of making sweeping assertions of this kind. It has been demonstrated that the barroom can be abolished—it has been wiped out in more than half the Province. It is the soil, the seed and the root of the treating custom. Sir James says he can extirpate the custom, and leave the soil, the seed and the root untouched, and he says it without the slightest qaulification, except that he allows five years for the process. The bars can be closed in five minutes.—London Advertiser.

A TITANIC DEVELOPMENT OF CHIVALROUS MANHOOD

What is there, in life as it is lived in these days of scramble, of self-seeking, of respect for the strong and contempt for the weak, to explain the Carpathia with its shipload of women, the Titanic and its shipload of men? Faced in that supreme moment with the choice between security and duty, the decision was made with practical unanimity. The rule of the sea was obeyed by landsmen. The women went first. There were no boats for the men.

It means, no doubt, that at heart we are not what sometimes we seem; that somewhere within there is a hold over of the heritage we have derived from valiant races of men who lived habitually and consciously in contempt of baseonour and whose minds were steeled against the terror of death.

Why, may we not ask ourselves, must it be only in the supreme moment that so many will rise to the height of the test imposed? Why may not men live as men are ready to die? Perhaps, in the necessity to choose were always as imminent, as unavoidable, if the nature of the choice were as clearly defined, if the consequences were as patent to the intelligence, the aswer might be as uiformly admirable. Nearly always there are complications, there are degrees of interest, there is ignorance, there is inability to reduce the issue to simple and unavoidable choice with a single rule of conduct to be followed or rejected. And so we live our lives with our consciences chloroformed concerning the miseries of the poor, some of which may result from our selfishness or our neglect; contemplating with serene approval the success of the strong, although we know, or feel, or doubt, that to get where they are they have turned their backs on the misery of women who work for a pittance, have misused the agencies of business to take from the workman the last penny of his earnings, have ground the faces of the poor, have abused the confidence of their friends, have betrayed the trust which confidence reposed in them. If men could live as men have shown they can die, these things could not happen. More; if men were expected to face their duties living as these men were expected to face their duty with death at their elbows, many things that happen easily could not happen at all. Why is it only on a sinking ship that the voice of manhood says: "Women first to the boats". Why only at the risk of life that the youth must plunge into the icy current with the cry "What else is there to do?" The occasion does not present itself for all to play the hero's part in such settings. But surely the heritage of courage, whatever it is, and from whatever dim ancestral past it may have been transmitted, should serve, in the common crises we all have to face, and should not be forgotten and disregarded as too often it seems to be.

WHAT CHARLES M. HAYS WAS WHAT CHARLES M. HAYS DID

In the passing of Mr. Charles Melville Hays with the sinking of the steamer Titanic, the continent loses one of the most distinguished and capable railway magnates of its history. The personality of this man who, at his death, was president of both the Grand Trunk and Grand Trunk Pacific Railroads, will stand distinctive in an era of empire building. Possessing a remarkable capacity for business, his whole life shows a record of service that, for application and achievement, is difficult to surpass.

Apart from his business success, Mr. Hays was known to his home city, Montreal, as a broad-minded public-spirited citizen, taking active interest in university and hospital extension.

A Persistent Man.

In temperament, like most strong characters, he was very self-possessed, seldom showing irritation or anger. His persistency was proverbial among his friends, and he was seldom known to 'let go' as long as there was anything to be gained by holding on."

55 Years of Age.

Charles Melville Hays was born at Rock Island, Ill., May 16, 1856, and at the age of seventeen began to learn the a-b-c of railroading, as clerk in the passenger department of the Atlantic and Pacific road at St. Louis. A short year of service in this department proved a marked business capacity, he was promoted first to the Auditors' department and later to the general superintendent's office.

General Manager of Wabash at 28.

From 1878 to 1884 he was secretary to the general manager of the Missouri Pacific Railway. From 1884 to 1886 secretary to general manager of the Wabash, St. Louis & Pacific Railway. In 1886 he was appointed assistant general manager of that road and in the following year became general manager of the Wabash Western, as this system was called.

To G. T. R. at 30.

So successful was Mr. Hays in his work that in 1895, when only thirty-nine years old he was called to Canada to become general manager of the Grand Trunk.

Mr. Hays continued to act as general manager of the Grand Trunk Railway for four years, resigning in October, 1900, to become president of the Southern Pacific, but soon returning.

Road a Failure.

When he first assumed authority in the G.T.R. the road was in a condition of failure. English officials with strong English tendencies provided the management.

Extraordinary Change.

The stupendous task of reorganization was effected in short time. The change in the Grand Trunk was extraordinary in its completeness and its rapidity.

It became a new organization. The greatest of improvements was the adoption of strict time schedules and the increase of speed, rolling stock and tracking facilities.

Capital Stock Rose $80,000,000.

This revolution rather took away the breath of the staid English officials and shareholders, but within five years after Mr. Hays had taken hold, the capital stock of the Grand Trunk had appreciated by $80,000,000, while old debts had been paid, and the road immensely improved—out of earnings.

Old bridges that should long before have been put on the retired list were taken down, and modern steel bridges substituted; the road was double-tracked; primitive backnumber rules and regulations were quietly eclipsed by introducing the Standard Rules in force in the States the road-beds were brought up to concert pitch; the rolling stock made the latest and best; slow trains were displaced by fast flyers, and trained men took the places of the incompetents.

Only a Year With Southern Pacific

Leaving the Grand Trunk again in 1900, he took the politon of president of the Southern Pacific at a salary of $50,000. He remained only a year, however, for the railway passed under the control of the Harriman faction, and Mr. Hayes was unable to agree with the new men and resigned.

He returned to the Grand Trunk in the latter part of 1901 as second vice-president and general manager, and has been with the company ever since, the growth of the country and the development of the Grand Trunk System offering plenty of opportunity for his ability.

On the retirement of Sir Charles Rivers Wilson in October 1909, Mr. Hays was appointed president. He was also president of the Central Vermont, the Grand Trunk Western Railway, the Detroit, Grand Haven & Milwaukee Railway; the Toledo, Saginaw & Muskegon Railway; the Michigan Air Line Railway; Chicago, Detroit & Grand Trunk Junction Railway; Detroit & Toledo Shore line; Southern New England Railway Company; Canadian Express Company; St. Clair Tunnel Compay; International Bridge Company;; Montreal Warehousing Company; Portland Elevator Company, and the New England Elevator Company.

In 1905 Mr. Hays was made president of the Grand Trunk Pacific.

FLORIDA---

LAND OF OPPORTUNITY—Home of the successful cultivation of the orange and grapefruit. Strawberries from the fields marketed at Christmas time.

The Florida truck grower can have his vegetable crops, lettuce, celery, cauliflower, potatoes, tomatoes, cabbage, early corn, etc., on the market earlier than any section of the United States, and at a time when other sections have no crops to offer. This gives him a great advantage in the markets of large centres of population.

The crop-growing season is 348 days. No other portion of the United States equals.

The difference between mean monthly temperature of Florida in January and July is less than 25 degrees, while Maine records 49 and Pennsylvania 46.

The state is in the humid area with approximate maximum of rainfall—you know it takes water to raise crops.

Many acres of good, arable land obtainable at reasonable cost.

Illustrated booklet free. See "Land of Manatee" before investing elsewhere.

AN EXPLANATION BY MR. PARKER

Toronto, April 17th, 1912.
To the Editor of The Examiner:

Dear Sir,—In the issue of your paper, dated April 10th, in the article, "Christian Scientists Appeal Against New Medical Bill," you say: "that those practitioners who bring about cure through appeal to Almighty God," etc., and concluding the article you say: "that when the committee meets, there will be suggestions made, that the Christian Scientists be permitted to engage in cure through mental suggestions, etc."

Permit me to correct the wrong impressions these statements convey. Christian Scientists do not "bring about cures through appeals to Almighty God." They recognize that God is perfect, eternal, "the same yesterday, to-day and forever," as the Scriptures declare Him to be, and that He "is no respecter of persons," and therefore cannot be influenced or induced to do more than He always has done, and is doing, for mankind everywhere. God does not need "to be reconciled to, or made to agree with, man," but man does need to be reconciled to, or made to agree with, God, by having "that mind in him which was also in Christ Jesus." This mind destroys all manner of evils and disease as demonstrated by the mighty works of Jesus, and is the law of the spirit of life in Christ Jesus, which taketh away the law of sin and death" spoken of by the Apostle Paul. Saint Paul also says "the carnal mind is enmity towards God; it is not subject to the law of God neither indeed can be." This carnal mind is the human mind of fleshly mind, and mental suggestion is the use of this mind to suggest to, or control other minds which is the direct opposite of Christian Science teaching and practice. Christian Science is the law of the spirit of life, which taketh away the law of sin and death, and all the evil effects of the human or carnal mind, and man becomes conscious of the ever present power of God to deliver him from all evil, in proportion to his understanding of this law, and as he lives in accordance with its demands: "Be ye therefore perfect even as you Father which is in heaven is perfect.

Yours truly,
W. H. PARKER.

IS YOUR SKIN ROUGH AND "PATCHY"

Zam-Buk Will Make it "Peachy."

Every girl likes a good complexion. Use of Zam-Buk ensures one! If you have pimples or rough and sallow patches on your face or any part of your skin just try it.

Think what your skin has had to go through during the winter just past. You have been out in rain and sleet and snow. You have been at one moment perspiring from skating, or some other exertion. Then you have stood "to cool off". You have spent hours indoors at a temperature equal to summer heat. Then you have covered up your skin **except your face** and gone out in a temperature away below zero! No wonder that with all these changes the skin of the face and neck shows signs of needing attention.

Zam-Buk is a skin food. Don't forget that the skin has to do work just as any other organ of your body has, and if you overwork it, it gives out. Zam-Buk is the remedy. Smear it lightly over the spots, the eruptions, the sallow patches, at night, and note how quickly your appearance improves. As the rich, refined, herbal essences sink deep into the tissue, the hard scurvy-like patches are removed. The cuticle is softened. The cells beneath are stimulated to healthy operation. The pores resume their work properly. Better colour results. The cells of the skin are purified by Zam-Buk, become transparent, the blood beneath is able to impart its proper colouring to the tissue, and the delicate "peach bloom" of health replaces the sallowness and pallor of disease. A few days' use of Zam-Buk will be found to give this result. Use also Zam-Buk soap.

Zam-Buk and Zam-Buk Soap are obtainable from all druggists and stores or by mail from Zam-Buk Co., Toronto.

GOOD LUCK MESSAGE

Sent to Titanic Before the Crash Came.

LIVERPOOL, APRIL 19.—The Allan liner Tunisian, which has arrived here, reports that on Saturday at midnight, when 887 miles east of St. John's she sent a wireless message of "Good Luck to the Titanic. Later she entered a huge ice field through which she steamed for 24 hours; then stopped all night, eventually turning 60 miles south.

Constipation is the root of many forms of sickness and of an endless amount of human misery.

Dr. Morse's Indian Root Pills,

thoroughly tested by over fifty years of use, have been proved a safe and certain cure for constipation and all kindred troubles. Try them.
25c. a box.

This is more than an Advertisement

—it is a message to humanity.

From Greenland's icy mountains to India's coral strand—from Labrador to Shanghai—"Mecca" Ointment is doing a truly humane work. As a healing compound for cuts, burns, blood poison and all skin troubles there is nothing known to science that compares with "Mecca." The largest hospitals and factories of the world are using "Mecca." The distant shores from Equator and Pole testify to the lives saved, and sufferings relieved, by Mecca Ointment.

Appreciations
(A Few Out of Thousands)

From China!
Boone College Hospital, Wu Chang, Hankow, China.—Please send us another 100 lbs. of Mecca Ointment. The Chinese recognize the healing qualities of Mecca, and we have worked up quite a reputation amongst them.

A few of the many big firms that rely on "MECCA."
Shuniac-Harris Co., Agricultural Implements, Regina.
A. McDougall & Son, Gasoline Gurney Foundry Co., Toronto.
Gurney, Massey Gurney Company, Peterboro Works, Toronto.
The Bradley Hospitals for England and "Mecca."

From Labrador!
Dr. Grenfell's Deep Sea Fishery, Harrington Hospital, Labrador.—I have used Mecca Ointment with great success on carbuncles and those badly infected hands and arms (fish-hook cuts and wounds) so common among the fishermen. We have found out its value.

You can get "MECCA" in 25c. tins at all druggists, but we will be glad to send you a free sample, postage paid.

Foster, Dack & Co., Limited, Toronto

ANOTHER WOMAN

BY C. B. CHILDER.
(Short Story.)

The Starring crept slowly through the fog. On all sides a white, impenetrable wall threw back with weird effect the monotonous boom of the liner's siren, playing strange tricks on the eyes and ears of the muffled figures anxiously pacing the decks. Dennis Conway lied cheerfully to the girl beside him, making light of the dangers to which they were exposed. It was fortunate, perhaps, that she did not properly realize the horrors of the situation, the menace of that white, unchanging bank, from which at any moment destruction might emerge upon them. Danger was a thing new to her. She only grasped sufficient of it to render the position an exciting one; and Dennis Conway now made it his business to keep her in a happy frame of mind.

"I dare say," he laughed, "that there are worse things than a honeymoon in a fog. We might——Hullo! That's a near thing." A siren boomed into their ears at perilously close quarters. White-faced figures rushed about peering right and left. The faint outline of a steamer passed astern of the Starring, and disappeared.

"Narrow squeeze that," said Dennis, drawing his wife of two days closer to him. "Ah, a little thinner here, isn't it." He knew that, if anything, it was getting worse. The liner crawled through the dense cloud as slowly as she could be driven. Hour after hour found the fog even thicker than before. And swiftly, silently, disaster came on the ill-fated boat. From out the white wall a black hull loomed, like a monstrous phantom ship. In an instant the decks of both vessels were alive with screaming, gesticulating figures. Then, with a mighty crash, the clang of tearnig steel, the hiss of escaping steam, the strange ship ploughed her bows into the hull of the Starring, the liner lurching wildly frof the shock of the terrific impact.

Dennis, hurled violently to the deck, picked himself up, bruised and half stunned. Around him the air was torn by an indescribable confusion of sounds—human cries, the grinding of metal, and the roar of steam rushing from the boilers of the mangled vessels. His first glance assured him that his wife by clinging to the deck rail had escaped the force of the collision unhurt. With great difficulty—for the deck was at a perilous angle—they started to make their way amidship.

There was no unruly panic or frantic struggle of man and women for the boats that were being swung outboard. But before the first one touched the water a vast explosion, from the Starring; masses of debris, twisted steel and splintered wood were hurled into the air, and, with a reel, the liner plunged under water. Dennis, fortunately some little distance from the explosion, knew the meaning of that last reel. Swinging himself on to the rail he lifted his wife beside him, and, as the liner took her final plunge, they dived into the icy wafer.

The man was a strong swimmer, but the girl could scarcely keep herself afloat. He seized a piece of floating wreckage, and she clung to it, grasping and shuddering in the intense cold—a fragile, delicate creature, accustomed only to comfort and luxury. Conway groaned, for he knew that, with no hope of rescue in the fog, the end could not be long delayed. He shouted, but no answer reached them. Powerful currents drew them away. Swimming strongly he towed her inch by inch back to the wreck, in the hope of picking up some means of support on which she could rest out of the water; but the currents drove them out, and the cold was eating away his strength.

"Hold on, darling; we shall soon be picked up," he kept saying cheerily. But though she tried to smile back at him the growing pallor of her face told him that the frail life was becoming rapidly numbed. She could cling very little longer. He swam on; but his strokes grew weaker. He ceased to make headway. Soon he began to lose ground. His limbs were heavy; his clothes and shoes impeded him; each stroke was a painful effort.

"Den, I can't hold any longer. I've no more strength. He had known it was coming. Her face and hands were blue with the freezing chill. And he had no power left to support her. If the plank slipped it would be only a matter of minutes. "Nan, Nan! For God's sake hold on. There is hope yet. We are getting nearer. Hold Hold!"

Frantically he shouted, but the silence returned no answer. It would have been impossible for a boat to have found them in the fog.

"Den, if it were no for me you could save yourself. What is the use of clinging for only another minute or two? Let me go, and take the plank!" Despair seized him. He realized his weakness, his utter helplessness, and sobbed pitifully. "Oh, Nan, hold a little longer. If you drown, I shall drown with you. Nan, Nan, there is a chance yet."

"No, Den, there is no chance. Without me you could save yourself. Oh, Den, the plank is slipping." He stretched out an arm to save her, but she was beyond his reach, and the plank was between them. Her frozen fingers had lost their hold. The current dragged her away. He struck with frantic energy to reach her. "No, Den; no, no. Save yourself." "Nan, Nan, hold up till I reach you."

His agony endowed him with new strength. He struck out fiercely. Another six strokes—"Oh, Den, I am going. Den—darling——" Before his eyes one last struggle, a little cry that he scarcely heard—and the surface of the water was clear. At that moment he saw through a thinness of the fog that a return current had drawn them back to within a short distance of the wreck. If only he had seen before! The strength of a maniac seized him. He threw himself forward with one gigantic stroke—and dived into the unknown depth. To his surprise he found the water only about twelve feet deep. Land was near. The unutterable cruelty of it. He had judged his dive well. At the bottom he found the white form lying, and, seizing it, sprang upwards to the surface.

He swam on his back, drawing her by the neck. The fog had thickened again, and he had no idea in what direction the land or the wreck lay. He prayed that she might not be dead. If only he could put ashore and apply artificial respiration he might save her yet. Oh, where was the land?

He called to her, but no answer returned to him. There was no sign of life. Swimming with his legs only, he drew her closer and felt for her heart. It did not beat. He turned her face towards him.

It was another woman.

Ill-Health And Success

Is ill-health in the way of your success? Do you lack the energy and vitality, the red blood which is necessary to good health and success in life? What have you done to overcome this condition? For it can be overcome by a little patient treatment.

There are combined in Dr. Chase's Nerve Food the elements which go to form new, rich blood. By using this food cure regularly you increase the quality and quantity of blood in the body. The wasted nerves feed on this rich blood and become revitalized. Mind and body regain snap, vim, energy and all that accompanies health and strength.

Nervous headache and indigestion, nervous prostration and exhaustion give way when this great restorative treatment is used to put new health and vigour into the blood.

S. O. E. TO ATTEND REQUIEM SERVICE

All members of the Sons of England are requested to attend a requiem service to be held in St. John's church on Sunday evening next, April 24, at 7 o'clock in connection with the heavy loss of life involved in the Titanic disaster. The members will meet at 6:30 p.m. in the S.O.E. hall on Hunter street and will proceed in a body with the members of St. George's Society to St. John's church. Members of the fraternal societies in the city are similarly invited to join with the Sons of England in this service.

Members of the S.O.E. are requested to wear their badges. Memorial services are being arranged for throughout the entire country, an indication of the widespread sorrow that Monday's calamity has cast over the land.

THE BURDENS OF AGE

The kidneys seem to be about the first organs to wear out and fail to properly perform their work. The result is weak, lame, aching back, rheumatic pains and failing eyesight. Many people of advanced years have recovered health and comfort by using Dr. Chase's Kidney-Liver Pills. They ensure the healthful action of liver, kidneys and bowels.

OPEN MEETING.

There will be an open meeting of the Literary Society in connection with the Collegiate Institute at 8 o'clock to-night. There will be no admission fee.

SOME THINGS AND OTHERS

We move every moment in the shadow of danger—on land as well as on sea. This afternoon a light of glass, about two square feet in area, loosened by some means from a window in the third story, fell with a crash on the pavement in front of the Royal Theatre. A passer-by narrowly escaped getting a pane in the head, from the vitreous avalanche. The falling glass shaved the brim of a girl's hat, ten feet, more or less, distant from where it fell.

The dominance of the ruling passion is illustrated by this fact. A mother, daughter, and friend were discussing the horrors of the Titanic catastrophe, when the daughter exclaimed: "What an awful thing that all of them jewels was lost!" This shows that the human heart, in the feminine thoracic cavity has not changed since the time of Bobbie Burns, who aptly replied to the remark of a lady that she didn't "care three skips of a louse for the poet—

I forgive the dear creature for what she has said,
Since women will talk of what runs in their head.

TROUBLE ENOUGH

To the Editor of the Examiner:

Sir,—Excuse me pointing out that the notice to-night about the dogs is rather impertinent; and to serve the public you should warn them against the blackguards who annoy decent citizens. We have trouble enough without being bullied by the authorities.—Yours truly,

W. A. [illegible]

AT HOME.

Mr. and Mrs. [illegible] Gordon of 180 Perry street, entertained a number of friends last evening, in honour of Mr. Joe Larocque of Toronto, who is paying a visit to friends in the city. A pleasant evening was spent in music and song. Vocal selections were rendered by Messrs. A. New, E. Bartley, H. Lee, P. Henshaw, J. New, Misses D. Bartley and May Gordon, while the Philarmonic quartette rendered several items in their usual polished style. After light refreshments had been served, dancing was indulged in and the assembly dispersed at about one o'clock.

ST. GEORGE'S SOCIETY

All members are invited to attend Divine Service at St. John's Church on Sunday evening next, in conjunction with the members of the Sons of England Benefit Society, as a mark of respect to the victims of the "Titanic" disaster. A special service will be conducted by Rev. Canon Davidson. It is earnestly hoped that all members of the Society and any other men in sympathy with the movement will endeavour to be present. Procession will be formed at Sons of England Hall at 6.30 p.m.

THOS. PITCHFORD
2d-92 *Secretary*

REPORT WAS FATAL

When Learned Relative was Aboard the Titanic.

BROCKTON, MASS., APRIL 19.—Miss Katherine E. Maguire, aged 50, heart-broken by the news that her nephew John E. Maguire, was among those probably lost on the Titanic, was taken violently ill late last night and died within a few moments. She had been in the best of health, apparently, but was much attached to her nephew.

THE EVENING CHIT-CHAT

By Ruth Cameron

WE WERE talking about the boy scout movement the other day, and three of us had most emphatic tales to tell of the improvement it had worked in some of the youngsters of our acquaintance. Said the fourth member of the group, "Yes, it is a good enough scheme, but—," and, of course, the "but" consisted of a discourse on the weaknesses and evils which she saw in this great organization of America's boyish energy. And, of course, she pointed these things out with an air of pride and conscious virtue. Was she not correcting our foolish and mistaken enthusiasm? Was she not opening our eyes to the real truth?

There is a certain class of people in this world who ought to be called the "but" folks, because, like this woman, they are always seeing "buts." Whenever you appeal to them to admire any person or any thing, they are sure to qualify whatever praise they may be obliged to give by a "but."

It is really remarkable how keen these people are in discovering such defects. They show in this one direction a cleverness and an insight which they do not seem to display in any other relation of their lives. Suppose there is some organization for doing good in which you have taken great comfort because it seemed so refreshingly fine and altruistic. If you chance to speak enthusiastically about it to any member of this class, he will be sure to tell you how some one is getting a graft out of the society's researches, and some one else is in it just for advertising, and how he heard that two or three people who had appealed to the society couldn't get any satisfaction at all. Now you may not believe all he says, but, in spite of yourself, your former confidence is shaken. Henceforth you cannot think of this organization without recalling what he said and wondering how much, if any of it, was true.

Suppose you admire some person with an admiration as wholesome as it is wholesale. You are interested in all this ideal does; you take a vicarious pleasure in his successes, and a vicarious pride in his good deeds; and you are stimulated in your own resolutions to be worth while by his worthwhileness. You happen to mention your admiration to one of these "but" folks, and he, or she—for women belong to this class as largely as men—says, "Yes, he is a brilliant man, but I know some people who know him and they say he has the most horrible table manners that ever were. And the most dreadful taste in clothes. They really hate to be seen on the street with him, he is so eccentric."

It seems as if it really hurts this kind of people to see others enthusiastic. Admiration to them seems a weakness. In reality it is the most wholesome admirations a man has the more he is apt to be worth to himself and some thing in the world. The more he gets others. "The true value of souls," says Pater, "is in proportion to what they can admire." Surely that is a suggestive thought for those people who think they prove their sagacity and superiority by heartily admiring little or nothing themselves, and by trying to taint other peoples' admirations with their eternal "buts."

Ruth Cameron

TEA AND COFFEE HURTS.
One in Three.

It is difficult to make people believe that tea and coffee are a poison to at least one person out of every three, but people are slowly finding it out, although thousands of them *suffer terribly before they discover* the fact.

A New York hotel man says: "Each time after drinking coffee I became restless, nervous and excited, so that I was unable to sit five minutes in one place, was also inclined to vomit and suffered from loss of sleep, which got worse and worse.

"A lady said that perhaps coffee was the cause of my trouble, and suggested that I try Postum." (Tea is just as harmful as coffee, because it contains caffeine, the same drug found in coffee.) "I laughed at the thought that coffee hurt me, but she insisted so hard that I finally had some Postum made. I have been using it in place of coffee ever since, for I noticed that all my former nervousness and irritation disappeared. I began to sleep perfectly, and the Postum tasted as good or better than the coffee, so what was the use of sticking to a beverage that was injuring me?

"One day on an excursion up the country I remarked to a young lady friend on her greatly improved appearance. She explained that some time before she had quit using coffee and taken Postum. She had gained a number of pounds and her former palpitation of the heart, humming in the ears, trembling of the hands, and legs and other disagreeable feelings had disappeared. She recommended me to quit coffee and take Postum, and was very much surprised to find that I had already made the change.

"She said her brother had also received great benefits from leaving off coffee and taking on Postum."

"There's a reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

"BY REQUEST"

By special request of a number of Peterborough people who heard him sing the number here on a previous visit to Peterborough, Mr. Redferne Hollinshead will sing "God's Garden" as an encore number at the concert to be given in the Conservatory Music Hall to-night by Mr. Hollinshead, Mr. Leo Smith, cellist and the Conservatory orchestra. The latter organization had their final rehearsal last night, with every member present and their smooth working augurs well for this evening's big musical event.

IT GROWS HAIR

Here Are Facts We Want You to Prove at Our Risk.

Marvelous as it may seem, Rexall "93" Hair Tonic has grown hair on heads that were once bald. Of course, in none of these cases were the hair roots dead, nor had the scalp taken on a glazed, shiny appearance.

Rexall "93" Hair Tonic acts scientifically, destroying the germs which are usually responsible for baldness. It penetrates to the roots of the hair, stimulating and nourishing them. It is a most pleasant toilet requisite, is delicately perfumed, and will not gum or permanently stain the hair.

We want you to get a bottle of Rexall "93" Hair Tonic and use it as directed. If it does not relieve scalp irritation, remove dandruk ,prevent the hair from falling out and promote an increased growth of hair, and in every way give entire satisfaction, simply come back and tell us, and without question or formality we will hand back to you every penny you paid us for it. Two sizes, 50c. and $1.00. Sold only at our store.—The Rexall Store, McDermid and Jury .

MAN PRODUCES WEALTH BY DRAWING FROM NATURE

(Written for the Examiner by Roy Gilray.)

Man produces wealth by drawing from nature—from the land. In the production of wealth land, by itself, cannot act; it can only be acted upon. Man alone is the actor, the producer, the labourer; hence the second actor in the production of wealth is labour, or human exertion to satisfy human desires. The product of man's labour is wealth or capital, that which results from the land, giving forth its increase. Capital is used in aiding man by his labour to further production.

As wealth increased and man's desires multiplied various devices were invented to fulfil or satisfy those desires, which, in our day, have grown into manufacturing establishments, transforming products of nature into articles to add to the comfort and happiness of men.

Population has become so great and civilization so complex that this is known as the age of specialization, necessitating a complicated system of exchange, trading, shipping, etc., in which man has, as it were, become simply a cog in a wheel of the great machinery which moves the world. No man is independent, all are dependent, one on the other.

Our article of last Saturday drew attention to the importance of the manufacturer in building up our city how he depended upon the labour of men, and how the men, in turn, received their living from his hands.

Now these men, (in fact all our citizens) depended upon the merchants to supply them with the necessities of life, and in many cases, to furnish work for members of their families.

In the case of the merchant a small turn-over means less help, less profit and dearer goods. A large business means more clerks, a greater profit, and cheaper goods. In the latter case the citizens reap the benefit through increased opportunity for work and decreased prices to reduce the cost of living.

Putting it another way: Every dollar spent out of the city for goods, which can be bought here, makes it harder for our merchants to compete with outside concerns, causing many of them to go to the wall, and working a hardship on the others through the bad reputation that failures cause, making it more difficult for them to obtain credit, upon which all legitimate business is based.

Experience teaches that far-away hills are green, but on reaching them they are not quite so green as they looked. Goods received from a distance, in many cases, are not just what were wanted, but rather than go to the trouble and expense of returning them they are retained, to the great dissatisfaction of the wearer, and are often discarded long before they are worn out.

As far as the price is concerned, there is, on the whole, very little difference. Before the transaction is closed this difference is often eaten up through loss of time, postage, and transportation charges.

If you have a spite against yourself, your neighbours, your merchants, against the city itself, then go on and buy elsewhere; but if you want to put money in your own pocket, if you desire to see your neighbour prosper, if you care aything for the interests of the city, or the factors that go to improve it, then live and let live—in other words, keep your money at home.

"Keeping your money at home" brings us to another phase of our city life, which is rather hard to comprehend. I have been at a loss to understand why men who call themselves union men, who are forever preaching the principles of brotherhood, who pretend to be concerned about the interests of their fellowman, the white man—why they can justify their action of running with a bundle of laundry under their arm to a low-down, foul smelling rookery, run by foreigners, who have no intention of becoming British subjects, who charge the same rates as the white man, with the advantage of having all their business brought to their doors and carried away again, who live on rice, pigs' feet and liver, and who "put out of business" the man who seeks to live as an ordinary individual ought to live, the man who invests his money in our midst, who contributes his just share of taxation instead of tying his hoard up in a shirt and carrying it off in triumph away "home" at the end of a few wretched years.

Citizens, stand by your merchants, help them to make your living cheaper; keep your money at home.

Housecleaning Time is Wallpaper Time

¶ When rugs come up and pictures come down—

¶ When Pater grunts and mayhap swears and the smell of the ubiquitous moth ball greets us anon

- - - - 'Tis Spring - - - -

and also Housecleaning Time again.

¶ Furthermore

It is Wall Paper Time.

¶ And that means the chance to have some of these beautiful new decorations in place of the soiled and tiresome papers that spoil the appearance of your home no matter how much Dutch Cleanser and elbow grease be lavished on woodwork, paints and windows.

¶ Come in to-day and let us make your selections together—paper can be set aside for you until needed of course.

¶ The choicest things have a way of going first.

CAPT. SMITH VICTIM OF MISFORTUNE

"Titanic" Disaster the Last of a Series of Mishaps—What a Wreck Means to a Captain

TRAGEDIES OF 1st OFFICERS

For this is the law without excuse,
..For all of the lords of the sea—
That each must hold his ship from harm
Whatever the odds may be.

Alas! only a portion of the passengers and crew of the ice-wrecked Titanic have been saved. Behind the disaster by which many lives have been sacrificed, however, lies another of the many tragedies of the sea that the world knows very little about, or, knowing, very soon forgets.

It is the tragedy of Capt. Edward J. Smith, who was in command of the Titanic when she struck the floating mountain, and who now, by the unwritten law of the sea, faces the end of his career as a commander, even if he has survived the disaster, which is more than doubtful.

The star of Sirius must have been in the ascendant when Capt. Smith was born, for with all his long years of toil and zeal and skill, ill luck has steadily pursued him. He managed to stave it off until recently, but it clung to him with a cruel malignity.

Recently Smashed Into Olympic.

It is only a few months ago that this Nemesis reached out and struck at him, while as commander of the Olympic his ship was smashed into by the British cruiser Hawke. The man's record and the testimony of witnesses who placed the blame of the collision upon the cruiser saved him then, but the Nemesis still pursued.

Now that it has overtaken him again, it is doubtful if he has escaped the fate that has overcome so many other commanders whose long and honourable careers have been cut short by the misfortune of an hour. For the deep-sea empire has its price—and it is frequently a bitter one.

One has only to look over the long and melancholy roll of sea captains who have committed suicide to understand what a misfortune to their ship means to them. Sometimes crushed in spirit by the accident that has cut short his career, a captain will accept the obscure employment offered him by the company in whose services he has given the best years of his life. But in some cases he subscribes to the merciless maxim that the captain who loses his ship must not himself survive.

Tragedy of the Victoria Luise.

Instances along this line are plenty. There was the Prinzessin Victoria Luise, of the Humburg-American line, which drove hard upon the coral beach at Port Royal, in the islands of Jamaica. The vessels was thronged with tourists making a jaunt to the West Indies.

Fortunately, the sea was calm, and there was no difficulty in getting the passengers ashore. But when the last had been safely landed, the captain went to his stateroom and put a bullet through his brain.

The pitiable part of it all was that it was not his mistake that had sent his vessel ashore. The brain he shattered was not at fault. The blame really lay upon the Kingston earthquake, which had destroyed the lighthouse and obliterated the flashes that should have warned him.

Capt. Watkins' Sad Fate.

Sometimes, a captain, after meeting with misfortune, drops completely out of sight and no one knows what his fate has been. Capt. Frederick Watkins is—or, perhaps, was—one of these. It was he who commanded the City of Paris when the old Inman liner came staggering to port with the Atlantic waves swashing about her holds and surging against her bulkheads, the result of an accident almost identical with that which befel the Titanic on Monday—a fog-shrouded impact with an iceberg.

The liner was crowded at the time and the unforseen danger almost sent her and the thousand passengers aboard her to the bottom of the ocean. But the energy, resourcefulness and skill of her commander brought her safe to port.

It was a deed long to be remembered. And it was—for a time. Then one day a few years later a slight miscalculation on the part of Capt. Watkins sent his vessel upon the Manacle rocks, on the Cornish Coast and now you may search all of the obscure places of the earth and you may not find him.

No Real Blame Attached.

Even when no blame can be attached to a captain, he nearly always pays the bitter price demanded by the unwritten law of the sea. It was only a few years ago that the White Star liner Republic was sunk by the Italian liner Florida in a thick fog east of Nantucket.

Although no blame was attached to him for lack of care or for faulty navigation, Capt. Inman Sealby who had commanded the Republic, was dropped from the service. Now, at the age of fifty-one, he is studying admiralty law at the University of Michigan.

All his sea career had been with the White Star line — the company which operated the Republic—and for sixteen years he had commanded his vessel. But he had to go.

Heartless as such dismissals may seem, they cannot always be blamed upon the officials of the steamship companies. For, although the reader may not know it, the chief factor which militates against a captain who has had the misfortune to bring his vessel to harm, is the attitude of the marine underwriters. Here the soullessness of corporate concerns finds its most striking expression.

Every Accident Recorded.

The managers of Lloyds in London, probably have no personal knowledge of any master mariner. But in a bulky volume, alphabetically arranged, they find all that it suits them to know. Every accident that overtakes a captain is recorded in that book.

And if the accident is more than slight, a letter is at once written to the officials of the line that operate the boat, warning them that the insurance rates will be jumped to prohibitive figures if the captain who had charge of the ill-fated boat is not dropped from the service at once.

And so it is that virtually every accident upon the seas has its tragedy—whether lives are lost or not. And for that same reason, men whose names formerly ranked high in marine circles are now ending their broken lives in obscure employment—victims of the mistake of a moment or an hour, which the record of years of skill and devotion could not avail to overcome.

Who can blame them, if, with Kipling, they brood darkly at times over the ruthlessness of Fate?

I may not hope to give my life,
But a higher price I pay—
The skill and toil of thirty years,
For the fault of half a day.

OUR MOTTO--To Offer the Best SERVICE and the Best Goods at the Least Possible Price

THE CRESSMAN CO., Limited

Exclusive Ready-to-Wear Garments

The "Cressman" Ready-to-Wear Dept. has earned an enviable reputation for "Exclusiveness and "Newness".
